VILLA CONTENTO

Villa Contento, 38 two story living units, arranged in 6 units per building. The Spanish/Mediteranian flavor is exemplified by the use of muted colors, concrete roof tiles, balconies and entry courtyards.

The Villas come in 3 and 4 bedroom plans with an attached 2 car garage. With spacious open Living Kitchen concept, fireplaces and an enclosed patio, privacy is the feeling.

The Site is arranged along a central drive and sidewalks towards a central swimming pool and ramada area. The buildings have a generous setback from the property edges along with large open spaces and an adjacent wash.
