

PLANNING COMMISSION REPORT

Meeting Date: May 11, 2016
General Plan Element: Land Use and Preservation & Environmental Planning
General Plan Goal: Create a sense of community through Land Use and implement the acquisition of land for the McDowell Sonoran Preserve

ACTION

State Trust Land – North Scottsdale 19-ZN-2014

Request to consider the following:

Approval of a Zoning District Map Amendment for 4020+/- acres of State Trust Lands **from** the Single-family Residential District, Environmentally Sensitive Lands (R1-43/ESL) zoning district, the Single-family Residential District, Environmentally Sensitive Lands (R1-130/ESL) zoning district, the Single-family Residential District, Environmentally Sensitive Lands (R1-190/ESL) zoning district, the Single-family Residential District, Environmentally Sensitive Lands, Foothills Overlay (R1-43/ESL/FO) zoning district, the Single-family Residential District, Environmentally Sensitive Lands, Foothills Overlay (R1-70/ESL/FO) zoning district, and the Single-family Residential District, Environmentally Sensitive Lands, Foothills Overlay (R1-190/ESL/FO) zoning district **to** the Single-family Residential District, Environmentally Sensitive Lands (R1-7/ESL) zoning district, the Single-family Residential District, Environmentally Sensitive Lands (R1-10/ESL) zoning district, the Single-family Residential District, Environmentally Sensitive Lands (R1-18/ESL) zoning district, the Single-family Residential District, Environmentally Sensitive Lands (R1-35/ESL) zoning district, the Single-family Residential District, Environmentally Sensitive Lands (R1-43/ESL) zoning district, the Single-family Residential District, Environmentally Sensitive Lands (R1-70/ESL) zoning district, the Single-family Residential District, Environmentally Sensitive Lands (R1-130/ESL) zoning district, the Single-family Residential District, Environmentally Sensitive Lands (R1-190/ESL) zoning district, the Resort/Townhouse Residential District, Environmentally Sensitive Lands (R-4R/ESL) zoning district, and the Conservation Open Space, Environmentally Sensitive Lands, (COS/ESL) zoning district, the Single-family Residential District, Environmentally Sensitive Lands, Foothills Overlay (R1-35/ESL/FO) zoning district, the Single-family Residential District, Environmentally Sensitive Lands, Foothills Overlay (R1-43/ESL/FO) zoning district, the Single-family Residential District, Environmentally Sensitive Lands, Foothills Overlay (R1-70/ESL/FO) zoning district, the Single-family Residential District, Environmentally Sensitive Lands, Foothills Overlay (R1-130/ESL/FO) zoning district, the Resort/Townhouse Residential District, Environmentally Sensitive Lands, Foothills Overlay (R-4R/ESL/FO) zoning district, and the Conservation Open Space, Environmentally Sensitive Lands, Foothills Overlay (COS/ESL/FO) zoning district.

Key Items for Consideration

- Consistent with General Plan case 4-GP-2002, which established the allowed residential densities, commercial acreages, and resort uses within the subject State Land site.
- McDowell Sonoran Preserve Study Boundary
- Environmentally Sensitive Lands Ordinance (ESL)
- Dynamite Foothills Overlay (FO)
- Scenic Corridor Design Guidelines
- The City Council initiated this zoning case, and the related pre-application 997-PA-2014 and zoning case, 20-ZN-2014, at the September 23, 2015 hearing with a vote of 7-0.
- Consistent with Preserve Commission recommendations, the City Council has directed staff to pursue acquisition of 400+/- acres of the subject 4020+/- acre site for preserve purposes.
- Considerable Community Involvement, Input, and Communication
- The State Land Department has omitted from the request the 40 acres of Commercial Use.
- The more dense zoning categories, to implement the density approved through the major General Plan amendment case, are located east of N. Pima Road, and between E. Dixileta Drive and E Westland Drive.
- The State Land Department has split the area of the resort uses between two sites. The first site, approximately 38 acres, is proposed to be located along N. Scottsdale Road, between E. Happy Valley Road and E. Jomax Road. The second half of the resort/townhouse use, approximately 38 acres, is proposed to be located in the easternmost portion of the site, adjacent to the McDowell Sonoran Preserve, along the E. Dove Valley Road alignment.

LOCATION

Northern Scottsdale Area (Please reference Attachment #2 for more detailed locations)

BACKGROUND

Since the early 1990’s, Scottsdale citizens and the Council have been pursuing the goal of protecting areas of the Sonoran Desert within Scottsdale’s McDowell Sonoran Preserve. In the late 1990’s, the boundaries for the Planned Preserve were expanded to include almost 20,000 acres of land north of Happy Valley Road.

Almost 17,000 acres of these lands were Arizona State Trust Lands, which are managed by ASLD. State Trust Land is not public land, but land that is held in trust and managed for the sole purpose of generating revenues for the 13 State Trust land beneficiaries, the largest of which is Arizona's K-12 public schools. State Trust lands were granted to Arizona by the federal government under the provisions for Arizona's statehood in 1912.

Similar preservation interests were also occurring in other Arizona communities and at times, ASLD's fiduciary responsibility to manage land for maximum return conflicted with citizens' desire to conserve land and protect it from development. In 1996, the Arizona Preserve Initiative (API) was enacted into law. API established a process by which State Trust land in urban areas can be reclassified "suitable for conservation" and subsequently leased or sold at public auction for that purpose. As part of reclassification, the API seeks to maintain the overall value of State Trust land, "The land value cannot be reduced because of the conservation purpose."

In 1998, the city requested that 16,600 acres of state trust land be reclassified as "suitable for conservation" per the API. In response, the State Land Commissioner reclassified more than 13,000 acres of the 16,600 acres requested (Order 078-2001/2002), designating it "suitable for conservation." To maintain the overall value of State Trust land, the State Land Commissioner set expectations for the city to work with the ASLD to accommodate an increase in value for approximately 4,020 acres of adjacent land through general plan designation and subsequent rezoning.

In October of 2002, the City Council approved case 4-GP-2002, which provided for General Plan designations on all of the State Trust Lands. This case was a major General Plan amendment, and did not include rezoning. The majority of lands which had been designated as suitable for conservation were planned for natural open space. The remaining 4,020+/- acres of land were primarily designated as a variety of single family residential uses that were noted to allow up to 6,300 residences on the land. Additionally there were some minor acreages of resort/tourism, commercial and support services identified within the 4,020+/- acres. Over the past 5 years, the city of Scottsdale has successfully bid at ASLD auctions and acquired roughly 12,800 acres of State Trust Lands which included those lands previously designated as suitable for conservation.

General Plan

The General Plan Land Use Element designates the subject site/area as being composed of Developed Open Space, Natural Open Space, Rural Neighborhoods, Suburban Neighborhoods, Resorts/Tourism, Cultural/Institutional or Public Use, Office, and Commercial Land Use Element designations.

In 2002, City Council approved a major General Plan amendment, case 4-GP-2002, which included the subject 4,020+/- acre project site area. The General Plan amendment, in conjunction with the Arizona State Land Commissioner's order, reclassified approximately 16,600 acres of State Trust Lands from the Open Space, Developed Open Space (Golf Course and Neighborhood Park), Rural Neighborhoods, Suburban Neighborhoods, Resort/Tourism, Cultural/Institutional, and Commercial Land Use Element designations, to the Open Space, Natural Open Space, Rural Neighborhoods, Suburban Neighborhoods, Resort/Tourism, Neighborhood Center, Office, and Commercial Land Use Element designations.

Character Area Plan

The General Plan establishes Character Area Planning as a means to ensure quality of development and consistency of character within the context of community-wide goals. A portion (40%) of the subject property is located within the 1999 Council-adopted Desert Foothills Character Area.

Zoning

The subject 4,020+/- acres, of State Trust Lands, contain various zoning categories within the project's boundary. All of the existing zoning categories are located within the Environmentally Sensitive Lands (ESL) overlay area; and a portion of the zoning districts additionally include the Foothills Overlay (FO) zoning designation. The existing zoning categories within the ESL and FO areas are as follow: Single-family Residential District, Environmentally Sensitive Lands (R1-43/ESL, R1-130/ESL, and R1-190/ESL) zoning districts, and the Single-family Residential District, Environmentally Sensitive Lands, Foothills Overlay (R1-43/ESL/FO, R1-70/ESL/FO, and R1-190/ESL/FO) zoning districts. See Attachments #6 and #7 for case 4-GP-2002 approved densities.

The southern 1,674+/- acres, approximately forty (40%) percent of the entire subject site, were annexed into the City of Scottsdale through two separate ordinances, ordinances 1446 and 1611. Of those 1,674+/- acres, the southernmost 583 acres, approximately sixteen (16%) percent of the entire subject site, was annexed in to the City in May of 1982; and the other 800 acres, approximately twenty-four (24%) percent of the entire subject site, was annexed in October of 1983. The northern 2,346+/- acres, approximately sixty (60%) percent of the entire subject site, was annexed into the City in July of 1984. Various rezoning cases applied the base zoning district categories as described above.

In 1991, the Environmentally Sensitive Lands (ESL) ordinance was added as an amendment to the Hillside District overlay. The newly adopted ESL ordinance included these subject properties; which were not included in the earlier Hillside District overlay ordinance area. Later, in March of 2003, the Foothills Overlay designation was added to this site's zoning classification. The Foothills Overlay (FO) designation was in response to the Desert Foothills Character Area Plan approved by City Council in June of 1999. The current ESL overlay took effect in 2004. This version of the ESL ordinance categorized this site within its most current zoning designations as described above.

Context

The subject 4,020+/- acres stretches in a north/south configuration and is generally located from E. Stagecoach Pass Road, south, to E. Happy Valley Road, and from N. Scottsdale Road, east, to approximately the N. 104th Street alignment. The southernmost 583+/- acres of the subject site are framed between N. Scottsdale Road and the N. Hayden Road alignment, and E. Happy Valley and E. Jomax Road. Cattycorner, to the northeast, 641+/- acres are framed by N. Hayden Road and N. Pima Road, and E. Jomax Road and E. Dynamite Boulevard; with an additional 159+/- acres located on the east side of N. Pima Road. The remaining 2,637+/- acres are located between E. Dixileta Drive and E. Stagecoach Pass Road, along the east side of N. Pima Road.

The southwestern most portion of the subject site is adjacent to the City of Phoenix, along N. Scottsdale Road, between E. Happy Valley Road and E. Jomax Road. This particular portion of the site is also located within the Desert Foothills Overlay Area (approximately 1,224 acres). The northwestern portion of the site is bordered by the Town of Carefree. The western half of the Legend Trails community is surrounded by the proposed project area, and the McDowell Sonoran Preserve (Rawhide Wash) borders a majority of the eastern boundary of the northern portion of the site.

Please refer to context graphics attached (Attachment #2, #2A, and #2B).

APPLICANTS PROPOSAL

Goal/Purpose of Request

The applicant's request is to rezone 4,020+/- acres from the various existing zoning categories to the various zoning categories as follows: from the R1-43/ESL, R1-130/ESL, R1-190/ESL, R1-43/ESL/FO, R1-70/ESL/FO, and R1-190/ESL/FO zoning districts, to the R1-7/ESL, R1-10/ESL, R1-18/ESL, R1-35/ESL, R1-43/ESL, R1-70/ESL, R1-130/ESL, R1-190/ESL, R-4R/ESL, COS/ESL, R1-35/ESL/FO, R1-43/ESL/FO, R1-70/ESL/FO, R1-130/ESL/FO, R-4R/ESL/FO, and COS/ESL/FO zoning districts. The applicant's request is the second step in the process to develop the lands that were included in a previously approved major General Plan amendment, case 4-GP-2002. Case 4-GP-2002 identified densities and uses that would be appropriate for the Arizona State Lands Department's property located within the northern portion of the McDowell Sonoran Preserve Study Boundary. See Attachments #11 and #13 for this subject case's proposed densities

The State Land is looking for the City to achieve the expectations established and described in the 2001 State Land Commissioner's order. The order identified the reclassification of State Lands to as "suitable for conservation" by the Arizona State Land Department (ASLD). The City, in turn, would support the ASLD's request to initiate rezoning on about 4,020+/- acres of state trust land to maximize its value for eventual sale at auction. The value of the 4,020+/- acres would make whole the value that was reduced in the "reclassified" lands. The lands included in this acreage are located between N. Scottsdale Road and N. 104th Street, west to east; and Stagecoach pass Road and happy Valley road, north to south. This rezoning would conform to land designations and densities as approved by the City Council in the major General Plan amendment, case 4-GP-2002, approved in October of 2002 (see Attachment #7).

IMPACT ANALYSIS

General Plan

The applicant seeks to implement the land use designations that resulted from case 4-GP-2002, and is requesting the following zoning districts (with corresponding General Plan land use categories): R1-35, R1-43, R1-70, R1-130, and R1-190 (Rural Neighborhoods – 2,021 total acres); R1-7, R1-10, R1-18, R1-35, and R1-43 (Suburban Neighborhoods – 1,476 total acres); R-4R (Resorts/Tourism – 76 total acres); and, COS (Natural Open Space – 447 total acres). Furthermore, the Cave Creek Unified School District has identified that the development intended by the applicant's request will likely necessitate the construction of a school. As such, the applicant has incorporated stipulations to ensure that the school district's future needs will be met. Finally, the applicant's request no longer includes a zoning district that aligns with either the Office or Commercial land use designation in response to citizen outreach.

Desert Foothills Character Area Plan

In addition to the 2001 General Plan, the City Council-adopted Desert Foothills Character Area Plan (DFCAP) further defines the desired "character" for the area. Consequently, when development requests within the boundary of the adopted character area are brought forward for consideration, further analysis will be completed to ensure compliance with the plan. The DFCAP considers the "Rural Desert character" – essentially how the existing low density/intensity development of this area of the City is balanced with the preservation and continuity of desert open space. The DFCAP contains three goals, with the primary purpose of balancing "anticipated physical development in the area and the rural lifestyle of the residents with the sensitive lush upper Sonoran desert." The following are the three goals found within the DFCAP:

Goal 1: *Preserve the natural, visual qualities of the lush upper Sonoran Desert by using desert-sensitive building techniques that retain and blend with the natural desert character of the area.*

Goal 2: *Promote connected areas of desert open space and trails through visual and functional linkages within and between local neighborhoods and a regional open space network.*

Goal 3: *Identify and celebrate the Rural Desert character experienced in the Desert Foothills study area that will result in or maintain a unique desert community distinguished from other parts of Scottsdale and the metropolitan area.*

Approximately forty (40%) percent, 1,383 acres, of the subject site is located within the Desert Foothills Character Area. The Desert Foothills Character Area is designed to preserve the natural and visual qualities of the Sonoran Desert by using design qualities, building materials, and construction techniques that are sensitive to the desert environment. Projects located within the Desert Foothills Character Area should preserve natural open space areas, scenic and vista corridors, and support trail links and connections. All non-residential structures shall respect the existing rustic, rural character and scale of the buildings across the area.

Although the majority of land area associated with this request that is within the DFCAP is proposed by the applicant as aligning with single-family zoning districts, a small portion (76 acres) is proposed as R-4R. This zoning district allows for both residential as well as resort uses. The DFCAP contains an Implementation Plan that outlines how to achieve the vision, goals and strategies of the plan. The second section of the Implementation Plan, Design Guidelines, notes existing prominent land uses

found within the DFCAP, including single-family development, equestrian facilities, places of worship, and public infrastructure and describes how these existing land uses can promote the Rural Desert Character (Pages 10-26). The Design Guidelines do not prescribe allowed land uses within the DFCAP, rather the guidelines provide clarity on how these existing land uses can meet the Rural Desert Character of the area- through location criteria, design, and land use relationships (Page 10).

Although a resort use is not listed as a “prominent land use” within the DFCAP, it has been anticipated in this area per the 4-GP-2002 approvals and, further, the applicant states that any resulting development from this proposal will follow the goals and policies of the DFCAP. *“The proposed zoning within these areas is designed to promote the goals and visions for the area described in the Desert Foothills Character Plan. The preservation of the natural visual qualities of the upper Sonoran Desert will be retained through conformance to design guidelines developed in the Desert Foothills Character Area Plan.”*

Land Use

The provided narrative identifies the applicant’s site plan’s “master planning” approach to the future development of the subject 4,020+/- acres identified in the previously approved major General Plan amendment case, 4-GP-2002. The master planning approach to the subject area will allow for there to be greater control in the development of each area, rather than each individual parcel providing improvements independently. Elements, such as open space, access, and utilities, can be coordinated with greater confidence than fragmented, incremental development. The City has had several successful master-planned communities that have developed similarly. The ASLD has stated in their narrative that the each phase will be required to provide to staff as the “Master Planning Areas” are vended to future developers.

The previously approved major General Plan amendment case, 4-GP-2002, sought to establish uses, densities, and acreages for the cases subject 4,020+/- acres. The case did not establish proportionately accurate “parcel” area boundaries or establish zoning districts. The graphically shown parcel boundaries, in the approved major General Plan amendment case, were not proportionately accurate in area, or size, as per their assigned acreages. The parcel boundary, sizes, and zoning category would to later be established with the eventual rezoning case application. The approved *“Land Use and Proposed Zoning”* and *“Land Use Changes and Dwelling Unit Ranges”* exhibits were to be the future rezoning case’s blueprint for establishing more accurate “parcel” areas, densities, and zoning district categories.

This project’s proposed *“Land Use and Proposed Zoning”* exhibit, shown below in Table “A,” (Attachment #11, Exhibit “G,” for a larger-scale image), continues to identify the “approved parcels” as provided on the 2002 approved major General Plan amendment case’s *“Proposed Land Use and Parcels”* exhibit, as shown below in Table “B.” The *“Proposed Land Use and Parcels”* exhibit, also shown in Table “B,” was the visual graphic that was tied to the approved uses, acreages, and densities categorized in the 4-GP-2002 *“Land Use Changes and Dwelling Unit Ranges”* exhibit (Attachment #7 for a larger-scale image). Following the same intent, the current request’s (*“Land Use and Proposed Zoning”* exhibit is accompanied by the *“Parcel Size and Maximum Densities”* exhibit shown in Table “B” (Attachment #13, Exhibit “H,” for a larger-scale image).

Table A – 19-ZN-2014 (“Land Use and Proposed Zoning” & “Parcel Size and Maximum Densities” exhibits)

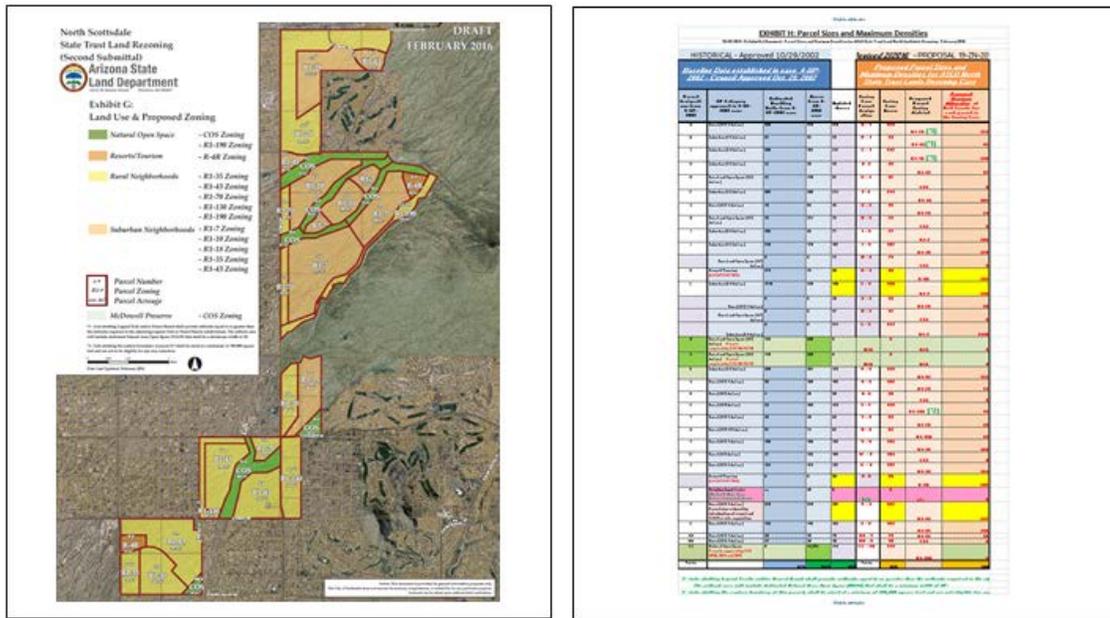

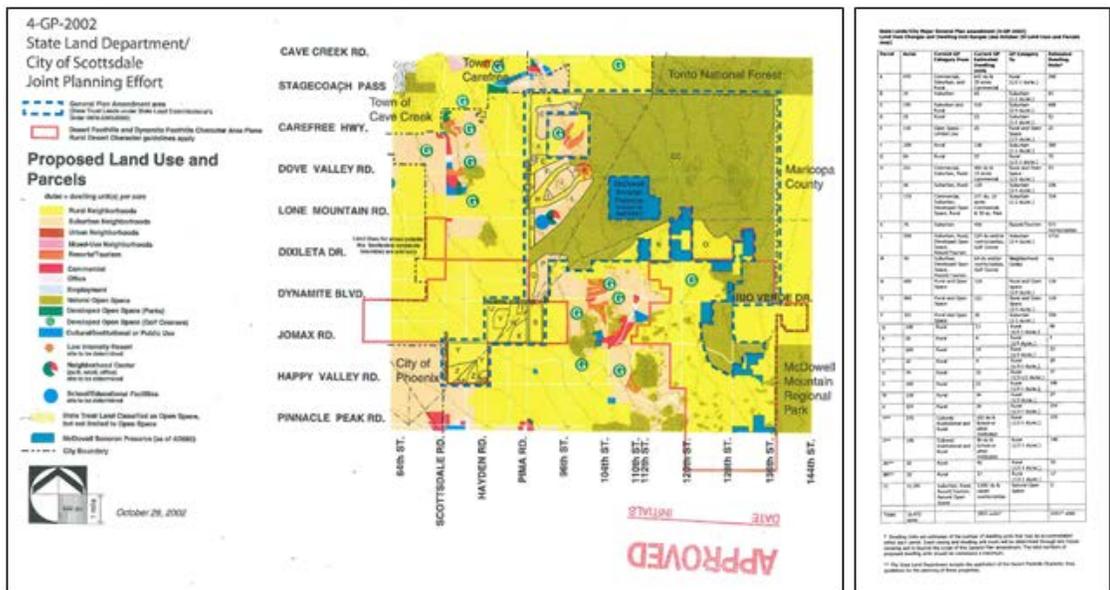

Table B - 4-GP-2002 (“Land Use and Proposed Zoning” & “Land Use Changes and Dwelling Unit Ranges” exhibits)

To better assist the master planning of the subject lands, the State Land Department has categorized the property into ten (10) “Master Planning Areas” by a numeric identifier (Attachment #9 – Exhibit “E,” Master Planning Areas exhibit). The proposed Master Planning Areas still respect the previously identified “parcels,” as provided in the approved major General Plan amendment case, case 4-GP-2002. The previously identified and approved parcel areas have been refined to be in accordance with the approved acreages, and have been assigned densities and a zoning district category. The relationship between the State Lands “Master Planning Areas,” and the previously approved “parcels,” can be seen in the State Land Department’s “Master Planning Areas and Parcels” exhibit (See Attachment #10 – Exhibit “F”). Each “parcel” is identified by the previously

approved assigned letter identifier, and by a numeric identifier, based on the State Land Department's Master Planning Areas that the parcel is located within.

The proposal provides a direct comparison of the previously identified and approved parcel acreages and estimated dwelling unit densities, with this application's proposed parcel acreages and dwelling unit densities (Attachment #13 – Exhibit "H," Parcel Sizes and Maximum Densities). The "Historical" column is the baseline data established in the previously approved major General Plan amendment case. The "Revised" column identifies the proposed acreages, densities, and zoning district. The project's proposed rezoning map (Attachment #11 – Exhibit "G," Land Use and Proposed Zoning) additionally identifies the proposed zoning district category for the Master Planning Areas and the associated parcel. The proposed zoning district category was selected to yield the number of units that were approved through case 4-GP-2002. The proposed zoning district category and densities are conformance with the previously approved major General Plan amendment case (further explanation is provided below in this report section).

The 2002 major General Plan amendment case approved an estimated 6,273 residential units on the subject 4,020 acres+/- . The units were entitled, but further analysis would be done in order to confirm that this number of units were feasible. The current proposal includes 5,000 residential units with this application request. The proposed number of units has decreased due to the City's purchase of some lands, the elimination of the 40 acres of the project's "commercial" entitlement, and further based on the proposed zoning district categories. Those parcels that have seen an increase in dwelling units is in response to 40 acres being incorporated into the residential pool due to the removal of the 40 acre "commercial" use. The City purchased Parcels "N" and "O" in October of 2015, which were entitled to a total of 244 residential units. The majority of the parcels have seen a reduction in dwelling units, from those approved in the 2002 case entitlement. Those parcels that have seen in increase in dwelling units is in response to 40 acres being incorporated into the residential pool due to the removal of the 40 acre "commercial" use. The overall dwelling unit count has been reduced by approximately 1,273 units.

The "*Land Use and Proposed Zoning*" exhibit (see Attachment #11) identifies how the above mentioned zoning categories have been used to establish the Resort/Townhouse, Rural Neighborhoods, and Suburban Neighborhoods uses and densities. The same exhibit also identifies how the zoning categories have been arranged to meet the densities that were approved through case 4-GP-2002. The more dense zoning categories, to match the density approved through the major General Plan amendment case, are located east of N. Pima Road, and between E. Dixileta Drive and E Westland Drive. These densities are buffered with the more rural Single-family Residential District, Environmentally Sensitive Lands (R1-70/ESL) zoning along N. Pima Road. These same densities will maintain a Conservation Open Space, Environmentally Sensitive Lands (COS/ESL) buffer between these zoning categories and the Legend Trails and/or Desert Ranch Communities.

As stated above, the previously approved major General Plan amendment case endowed the State Land Department with forty (40 ac.) acres of Planned Community Center, "commercial," use. The applicant's request proposes to remove the 4-GP-2002 case-entitled commercial acreage from this subject application. Removal of commercial use was in response to the concerns of many residents that are located in the northern portion of the City. The State Land Department, in their narrative, states that due to numerous comments questioning the appropriateness of the 40-acre Planned Community District-zoned parcel, the State Land Department has removed this entitlement from

their request.

The final planning and design of open space, access ways and street improvements, lot layout, and utilities will be accomplished at the development of each individual Master Planning Area. The first party to improve a particular Master Planning Area, or Master Planning Area Parcel within a Master Planning Area, will be required to plan and subdivide that particular Master Planning Area. The first development application for a particular portion of a Master Planning Area Parcel shall be required to provide a series of Master Plans for each Master Planning Area Parcel, unless the development and improvement of that Master Planning Area Parcel, impacts, or is dependent on, the design and improvement of another Master Planning Area Parcel(s). Please reference Table "C" for required improvements for the development of each Mater Planning Area Parcel.

The proposed conceptual site plan suggests densities that are equal to, or less than, the majority of the existing adjacent densities, located along the projects boundaries. The provided project site plan proposes the majority of the less dense zoning categories along streets identified as scenic corridors. The "*Parcel Size and Maximum Densities*" exhibit, Attachment #13, states that any future proposed lots abutting the Legend Trails Community, and/or Desert Ranch, shall provide setbacks equal to or greater than the setbacks required in the adjoining subdivision(s). The "*Parcel Size and Maximum Densities*" exhibit also states that any future lots proposed on parcel "S-7" will have a net lot area of 190,000 square feet along the parcel's eastern boundary (as per the proposed R1-190/ESL zoning district, and are not eligible for an amendment to reduce the required net lot area development standard. Please see Attachment #12 for the graphical representation of these commitments (Exhibit "J" – "*Master Planning Areas 1 and 2 Refinements*").

The 2002 major General Plan amendment case designated the State Land's subject lands to seventy-six (76 ac.) acres of a Resort/Townhouse use. The State Land Department has split the area of the resort uses between two sites. The first site, approximately thirty-eight (38 ac.) acres, is proposed to be located along N. Scottsdale Road, between E. Happy Valley Road and E. Jomax Road. The second half of the resort/townhouse use, approximately thirty-eight (38 ac.) acres, is proposed to be located in the easternmost portion of the site. This 38-acre site will be nestled, adjacent to the McDowell Sonoran Preserve, along the E. Dove Valley Road alignment. The first resort location will look to take advantage of the N. Scottsdale Road frontage; while the other resort/townhouse location will try to appreciate the McDowell Sonoran Preserve an amenity.

There are approximately 1,383 acres located within the Foothills Character Overlay Area. The guidelines to the Desert Foothills Character Area Plan will be followed for the lands located within this boundary. The goals and guidelines of the Desert Foothills Character Area discuss maintaining a Rural Desert Character by blending the building form into the natural desert setting, maintaining connective areas of desert open space, and by identifying and celebrating the unique desert character within the Desert Foothills area. The guidelines of the Desert Foothills Character Area plan establish a common vision and direction for area residents and property owners. The development of the lands within this character area will preserve the natural, visual qualities of the lush upper Sonoran Desert by using desert-sensitive building techniques that retain and blend with the natural desert character of the area.

The subject properties identified within this case are located within the McDowell Sonoran Preserve Study Boundary. The project's site plan also contains lands that have been identified by the City as

future McDowell Sonoran Preserve lands to be purchased in the near future. The McDowell Sonoran Preserve Commission recommended in the Spring/Summer of 2013 and the City Council directed staff on September 24th, 2013 to begin the process with ASLD to pursue applications to auction an additional 400 acres of land that the city would desire for inclusion in the Preserve. These lands include areas of the State Trust Land that were not designated as suitable for conservation, the ASLD has indicated that they desire the remaining 4,020+/- acres of land to be rezoned consistent with the 2002 General Plan case, 4-GP-2002, before they authorize any new auctions.

With city council approval of this request, the ASLD will proceed with applications from COS and process two parcels (1 and 1A) for auction – it is the city’s intent to purchase these for preservation and make them part of the Scottsdale McDowell Sonoran Preserve.

The current approval does not include amended development standards for the proposed Master Planning Areas and their respective Parcels. Any change to the development standards shall be subject to additional public hearings before the Development Review Board or the Planning Commission and City Council, as per Zoning Ordinance Section 6.1083.

Traffic/Trails

The developer has been stipulated to submit a Transportation Master Plan, for each Master Planning Area, to help implement the zoning stipulations, for review and approval by City of Scottsdale Transportation Engineering department staff. The master plans shall identify the proposed phasing and is stipulated to show required right-of-way, street cross sections, and for any major and local streets serving the parcel. The master plans shall also identify all trails, paths and pedestrian facilities. Each Transportation Master Plan shall discuss traffic control for every mile, half-mile, and quarter-mile street intersections, for each Master Planning Area.

The Master Planning Area Circulation Plan shall help implement the street system layout and street classifications for each Master Planning Area. A traffic impact analysis shall be submitted by the applicant for each Master Planning Area and approved by City staff. The traffic impact study shall identify projected traffic volumes for each street segment and major intersection in the study area, and propose traffic control measures for each intersection within the study area. Before any certificate of occupancy is issued for a parcel within a Master Planning Areas, the owner shall make the required dedications and provide the following improvements in conformance with the zoning stipulations, the Design Standards and Policies Manual, and all other applicable city codes and policies. The required dedications and improvements will be in association with the dedications and improvements required to develop the Master Planning Area.

All street cross sections shall be designed to City of Scottsdale standard cross sections in accordance with the zoning stipulations, the Design Standards and Policies Manual, and unless otherwise approved in the Master Planning Area Circulation Plan. The cross sections shall include a minimum eight-foot sidewalk along the major street frontages (Minor Arterials and Major Collectors). The stipulations specify street improvements to be consistent with the developer-provided phasing master plans before any parcels in the Master Planning Areas may receive a Certificate of Occupancy. The stipulations, in attachment #1 to this report, identify the right-of-way improvement requirements as per each individual Master Planning Area.

The Open Space and Recreation Element of the 2001 General Plan designates N. Scottsdale Road, N. Pima Road, E. Happy Valley, and E. Dynamite Boulevard as Scenic Corridors. This designation entails substantial native desert setbacks measured from the outside of the ultimate planned right-of-way line. These setbacks are designed to provide a sense of openness for the community. The project has been stipulated to provide a 10-foot trail, and a minimum 8-foot sidewalk, within all designated scenic corridor areas. All future development shall be stipulated to provide safe, internal and external pedestrian connections to trails and sidewalks located within the Scenic Corridor areas. These improvements will be constructed before any certificate of occupancy is within the respective Master Planning Area. The paths shall be designed to be in conformance with the Transportation Master Plan and the Design Standards and Policies Manual. Respectively, the Applicant has included a Scenic Corridor buffer along E. Legend Trails Parkway in response to citizen comments.

The project has been stipulated to dedicated to the city a minimum 30-foot-wide non-motorized public access easement, and construct a minimum 10-foot-wide multi-use path, before a building permit is issued for the corresponding Master Planning Areas: along E Happy Valley Road, from N. Scottsdale Road to Hayden Road; along N. Scottsdale Road, from E. Happy Valley Road to E. Jomax Road; along N. Pima Road, from E. Jomax Road to E. Dynamite Boulevard, along N. Pima Road, form E. Dynamite Boulevard to E. Morning Vista Road; along N. Pima Road, form E. Las Peidras Drive to E. Stagecoach Pass Road; and along E. Stagecoach Pass Road, from N. Pima Road to N. 99th Street.

All future trails and future trail connections, as required by the Transportation Master Plan and its Local Area Infrastructure Plans (LAIPS), that do not align with current or future City of Scottsdale owned lands, have been stipulated to be dedicated and constructed by the future developer to Design Standard & Policies Manual specifications. Dedication of such trails shall occur with the first subdivision in the Planning Unit that aligns with the trails. The trails within/adjacent to a Master Planning Area Parcel shall be completed by final certificate of occupancy for first subdivision in that same Master Planning Parcel.

Open Space/Stormwater

The entire project area is located within the McDowell Sonoran Preserve Recommended Study Boundary (RSB). When land in the RSB is acquired by the City, it becomes part of the McDowell Sonoran Preserve. The conceptual site plan maintains large areas of open space, and the proposed developable areas are identified as areas where the remaining “NAOS” open space requirements shall be met. Consequently, the conceptual site plan protects wash corridors as the first priority. Other significant open spaces, such as steeper slopes, will be addressed with on lot open space as lot patterns become more detailed.

Attachment #19, is the revised Open Space map that was stipulated to be updated by te State Land Department that were “reclassified a suitable for conservation purposes,” and the City Council has initiated a case to rezone these purchased properties with the Conservation Open Space, Environmentally Sensitive Lands (COS/ESL) zoning district. The land has been acquired with appropriated funds, and therefore will only serve for the purposes identified by those funds. The intent of the future case will be to designate these lands as permanent open space with limited permanent improvements. The designated land use is compatible with the current, underlying, zoning districts, but would be better suited with the Conservation Open Space, Environmentally Sensitive Lands (COS/ESL) zoning district. Including those areas already purchased by the City, the

site will be providing the previously designated 11,391 acres of Natural Area Open Space.

The identified open space areas, proposed as being zoned Conservation Open Space in this request, shows that 447+/- acres, of the 4,020+/- acre site, is located within major wash corridor areas, and areas identified as vista corridor areas (See Attachment #14). The goal of the proposed rezoning case is to establish the zoning categories, densities, and required NAOS, as approved through case 4-GP-2002, and the ESL ordinance. The proposed rezoning case is stipulated to meet all General Plan, Scenic Corridor Design Guidelines, and ESL ordinance requirements. The lands which contain major wash corridor have been proposed as being zoned to Conservation Open Space, Environmentally Sensitive Lands (COS/ESL) and Conservation Open Space, Environmentally Sensitive Lands, Foothills Overlay (COS/ESL/FO).

In addition to the required open space/NAOS acreages, a further portion of the site might be preserved as open space as part of the McDowell Sonoran Preserve. The City would have to bid on these lands, along with any other interested party, and be the successful bidder in order to acquire the lands for the Preserve's use. The ASLD has stated that they will not make these lands available for auction until Planning Commission has made a recommendation on this case. The future of whether or not these lands will continue to be pursued to create a large sustainable natural desert habitat for wildlife and desert flora, and appropriate passive recreation public use will depend on the decision of the residents and the City Council. Even if these lands are not ultimately acquired to be placed within the Preserve's boundary, a portion of these lands has been identified as open space.

Each future identified Vista Corridor (a watercourse with a peak flow rate of 750 cfs or greater based on the 100 year, 2-hour, rain event) will be dedicated to the city on the final plat as a continuous Vista Corridor easement will be dedicated to the city. The minimum width of the easement shall be one hundred feet. Each easement will include, at a minimum, any existing low flow channels, all major vegetation, and the area between the tops of the banks of the watercourse. At the time of the Development Review Board submittal, the future owner/developer has been stipulated to stake the boundaries of the Vista Corridor easement as determined by city staff. Unless approved by the Development Review Board, all Vista Corridors will be left in a natural state.

The project has been stipulated that with each Development Review Board application, the future owner/developer will submit a master drainage report and plan subject to the City staff's approval. The first developer of any single, or combination of parcels that are proposed to be developed in any one of Master Planning Areas or Parcel, will be responsible for preparation of associated planning area master drainage report and plan. The master drainage report and plan have been stipulated to conform to the Design Standards and Policies Manual's Drainage Report Preparation criteria. In addition, the master drainage report and plan will include a complete description of requirements relating to project phasing, and will identify the sequence of and parties responsible for construction of all storm water management facilities.

This request executes the intent of the previously approve major General Plan Amendment case to: reconfigure residential land uses on 3,543 acres of land to remove the previously shown golf course and commercial designations, remove the E. one Mountain Road extension that was previously proposed running through the McDowell Sonoran Preserve, and designating parks and a school location with the future development of the subject State Land property.

Water/Sewer

The water and wastewater support for the subject zoning case are conceptually acceptable to the City's Water and Sewer department. The future owner/developer will be required to design, construct, and upgrade any water and sewer infrastructure necessary to provide services to the site. The future owner/developer will be required to provide a Master Water and Wastewater Report, and associated plans, for the entire designated Master Planning Area, with the submittal of any of that Master Planning Area's respective Parcel, as per the City's Design Standards and Policies Manual (DS&PM) requirements.

Each future applicant will be required to obtain approval from Water Resources Department of a final water/wastewater basis of design report for the area to be developed per the requirements of the Design Standards and Policies Manual (DS&PM) and demonstrate compliance with the accepted master plan for that designated Master Planning Area and/or Parcel. Each application will water and sewer infrastructure to the current Scottsdale Water Reuse, and Water, Master plan updates. The project has been stipulated to identify and preliminarily size water and sewer infrastructure necessary to support the designated Master Planning Area and/or Parcel. Furthermore, each future owner/developer will be responsible for the costs for design and construction of local water distribution and sewer collection lines shall be the sole responsibility of the developer per the DS&PM and City Code.

Public Safety

Future development will provide easements over all proposed drive aisles, and along appropriate rights-of-way, for municipal uses. All future development shall meet Emergency and Service Vehicle Access and Fire Ordinance requirements. All future drive aisles will support 83,000 lb. fire trucks, and internal/external circulations must accommodate a 55-foot turning radius for fire truck access and maneuverability.

The proposal will be stipulated to provide the adequate street right-of-way dedications for all the right-of-way that shall remain as public access. The street right-of-way dedication has been stipulated according to the Transportation Master Plan and the Local Area Infrastructure Plans. Design of the internal private-streets will conform to ESL, Local Residential Character, as geometrically described in the Design Standards and Policies Manual, Chapter 5.

School District Comments/Review

The previously approved major General Plan amendment case provided a "floating pie" that identified the possibility of a need for a public facility or school within the boundary of the subject site. It has been established by the Cave Creek School District that the addition of a school will be required with the development of the subject property. The type of school (i.e. elementary, middle, high) has not been identified as of yet. The response to the type of school needed will become more apparent as the area develops.

Both staff and the Cave Creek School District have together identified the possible location, and timing, for the future required school. The future school will possibly be located within, and due to the development of, Master Planning Areas and Parcels L-5 and L-4 (with the possibility of F-2, I-3, J-3). The project has been stipulated that at the time of sale for the above mentioned parcels, the State Land Department will have established the location and size of the required school site.

The goal of the proposed rezoning case will be to confirm whether or not the government use, as identified in the major General Plan amendment case 4-GP-2002, will be manifested as a public school. The proposed rezoning case will be stipulated to meet the school districts requirements.

Community Involvement

The City of Scottsdale and the Arizona State Land Department conducted three (3) joint open house meetings to notify the public of the proposed rezoning cases. The signs, twenty-four (24) in total for both cases, will be updated with any future hearing dates as the projects move through the planning process.

The three (3) joint open house meetings were spread throughout the City to make them as easily accessible to those residents most affected by the proposed rezoning cases. The first of the open house meetings was held on Monday, December 8th, 2014, from 4 p.m. to 7 p.m. at the Legend Trail Community Center. The second open house meeting was held on Tuesday, December 9th, 2014, from 5:30 p.m. to 7:30 p.m. at the Anasazi School Cafeteria. The third open house meeting was held on Wednesday, December 17th, 2014, 4 p.m. to 7 p.m. at the Florence Ely Nelson Desert Park room.

On January 27, 2015, City staff, State Land staff, and the Chair for the McDowell Sonoran Preserve Commission conducted an HOA meeting for the residents of the Legend Trails community at the Legend Trail Community Center. Staff gave a presentation and responded to residents' concerns. All comment cards and sign-in sheets have been provided in Attachment #21.

On May 10, 2015, City staff, in conjunction with the State Land Department, conducted an additional open house meeting for those residents located in and around the "central region" of the City. The meeting was held at the Florence Ely Nelson "La Mirada" Desert Park center. Staff gave a presentation and responded to residents' concerns. All comment cards and sign-in sheets have also been provided in Attachment #21

Verbal input, along with emails, has also been received throughout the process. To date, staff has received several phone calls and email in addition to the comments cards provided at the open houses and HOA meetings. Some citizen comments have referenced the Desert Foothills Character Area Plan and the extensive community participation that occurred during the creation of that plan. This comment comes in regards to the placement of the commercial uses along N. Scottsdale Road.

The site has been posted with a notification sign since December 4, 2014. Property owners within 750 feet have been notified by the city and those who attended the city sponsored open house have been added to the notification list. All the open house sign-in sheets, comment cards, and emails have been provided with this report (See Attachment #21). All additional citizen outreach may be found in the State Land Departments "Community Involvement" report.

Community Impact

The Master Planning process required by this rezoning prior to the development of the State Land parcels will ensure that relevant traffic, infrastructure, and service impacts on the community will be mitigated.

Policy Implications

This rezoning ensures that master planning will occur on over 4,000 acres of land in North Scottsdale. Providing certainty of land uses creates stability for current and future residents. The commitment to master planning ensures that traffic, infrastructure, and service impacts will be mitigated through orderly land use planning.

Additionally, this rezoning fulfills the City's commitment to the State Land Department as discussed in the State Commissioners order, Order No. 078-2001/2002, and case 4-GP-2002. This action will also lead to the Arizona State Land Department's acceptance of applications from the City of Scottsdale, and begin the process to place two parcels (1 and 1A) up for auction – it is the city's intent to purchase these for the preservation and make them part of the Scottsdale McDowell Sonoran Preserve.

Arizona State Land Department

North Scottsdale Rezoning and Development Plan Narrative

February 2016

ATTACHMENT #1

Arizona State Land Department

North Scottsdale Rezoning and Development Plan Narrative

February 2016

Introduction

The Arizona State Land Department (“ASLD” or the “Department”) and the City of Scottsdale (“City”) have an extensive history of working together for mutual benefit. ASLD is filing this zoning application as the final step in a collaborative process initiated by the City in 1999 to acquire State Trust land through the Arizona Preserve Initiative (“API”). Through the API process, the City was able to acquire approximately 13,000 acres of State Trust land from ASLD for their McDowell Sonoran Preserve. Completion of this rezoning case will bring the zoning entitlements on approximately 4,020 acres of State Trust land into conformance with the City’s General Plan and provide enhanced value to the remaining State Trust land in the northern part of the City as mandated by state statute and as agreed upon by the City at the time ASLD agreed to designate 13,000 acres of State Trust land as suitable for conservation. The State Trust land that is the subject of this application (the “Rezoning Property”) is generally located in an area bounded by Scottsdale Road (west), the 104th Street alignment (east), Stagecoach Pass Road (north), and Happy Valley Road (south) (the “Subject Land” – depicted on the attached Exhibit A: State Trust Land to be Rezoned, and left).

Project Overview

The Arizona Preserve Initiative

The API was enacted by the Arizona State Legislature in 1996 to enable the purchase of State Trust land for conservation purposes while maximizing the return to the Trust’s beneficiaries. This program provided a mechanism for land in and around urban areas to be preserved as open space to benefit future generations, while allowing ASLD to fulfill its mission by enhancing value and optimizing economic return for Trust beneficiaries through the planning and entitlement of adjacent State Trust lands with higher development utility.

During the 1990s the City began exploring options for the preservation of permanent open space within the McDowell Sonoran Preserve Recommended Study Boundary. On January 7, 1999, the

City submitted a petition to the State Land Commissioner (the “Commissioner”) requesting the reclassification of about 16,600 acres of State Trust land as “Suitable for Conservation Purposes” (the “Reclassification”) under API.

This action initiated a study, public process, and an application review process and examination by the Commissioner and ASLD staff. Included in this process were the following steps:

- Consultation with the City of Scottsdale;
- Consideration of:
 - recommendations of the ASLD Conservation Advisory Committee;
 - public input including comments received during a 30-day open comment period and at a public hearing attended by over 1,500 people;
 - physical and economic impacts to the local community, and;
 - comments from the Arizona State Historic Preservation Office, the Arizona Department of Game and Fish, and the Arizona Department of Transportation.

Commissioner’s Order No. 078-2001/2002

This process was completed, and on August 30, 2001, the Commissioner issued Order No. 078-2001/2002 (the “Order”). Pursuant to the Order’s conclusion, and to justify reclassifying lands and selling them under API, the Commissioner is required to show how the reclassification would benefit the Trust. The Commissioner noted that while land immediately adjacent to open space has enhanced value, land further from the open space should be planned in a manner consistent with the character of the area, ensuring its enhanced value when it is sold or leased.

The Order acknowledged both Scottsdale’s desire to obtain all 16,600 acres as open space, and the Commissioner’s duty to obtain full value for the land. Based on the information presented during the Reclassification examination, an agreement was reached wherein certain State Trust land would be classified as “Suitable for Conservation” (the “Reclassification”) and the remaining State Trust land would receive enhanced entitlements.

Approximately 13,000 acres were approved for Reclassification while the remaining acreage was identified as potentially developable and was not Reclassified (see Exhibit B). The State Trust land that was not reclassified is the Rezoning Property that is the subject of this case. The Commissioner issued this order based on the City’s willingness to work with the Department in accommodating an enhancement in the value of the potentially developable lands.

General Plan Amendment 4-GP-2002

Following the API Reclassification, in 2002 the City and ASLD conducted an examination of the area, which culminated in the drafting of Major General Plan Amendment 4-GP-2002 (the “Amendment” – see Exhibit C). The Amendment was the first step in executing the conditions specified in the Order. In a joint planning effort, the City and the Department undertook an extensive study and public outreach process to revise the General Plan. This effort sought to meet the City and community visions and goals for the area, while enhancing the value of the Rezoning Property. A number of open houses, neighborhood meetings, mailed comments and public hearings before the Planning Commission and City Council resulted in the drafting and adoption of the Amendment. The Amendment calls for incorporating the open desert and mountain character by including characteristics such as:

- Scenic Corridors along major roads to provide a sense of openness for the community;
- Vista Corridors along washes to provide visual linkages and preserve habitat linkages for indigenous wildlife, and;
- Housing diversity to offer a range of lot sizes.

The Amendment took a holistic approach in considering changes to various elements of the General Plan including updates to the following elements:

- Land Use Element: The 2001 City General Plan estimated a range of between 7,800 and 9,000 units as being appropriate within the 16,000 acres of State Trust land. Among the Amendment changes were the removal of a designated golf course, shifting and reduction of planned Commercial uses, reconfiguration of residential master planning areas, and redesignated the Reclassification land as “Natural Open Space.” Commercial designations at Stagecoach Pass and Pima roads were removed from the plan reducing the gross acreage planned for Commercial from 70 to 40 acres. The plan provided more flexibility to the Department for future uses through consolidating Master Planning Areas with higher potential value within the non-reclassified acreage. The overall changes established through the Land Use Element of 4-GP-2002 resulted in a decrease in the estimated dwelling unit count by over 20% from the General Plan estimate range of 7,800 to 9,000 dwelling units to 6,261 (see Exhibit H – Parcel Sizes and Maximum Densities).
- Open Space and Recreation Element: the open space map was updated to reflect the Natural Open Space to be acquired by the City through the Reclassification (see Exhibit O – Open Space), and;
- Public Services and Facilities Element: addressed the potential for a new school within the area in the event of development.

- City Boundary

October 29, 2002

About two square miles of land within the Amendment area also lies within the area covered by the Desert Foothills Character Area Plan (see Exhibit D), which will be followed when or if the land is developed.

Land Use Element

To aid in determining appropriate zoning across the Subject Land, nine Master Planning Areas have been identified which contain 32 distinct Parcels (see the attached Exhibit E: Master Planning Areas, and Exhibit F: Master Planning Areas and Parcels).

The proposed rezoning incorporates Scenic Corridors on the Subject Land along Pima Road Scottsdale Road and Dynamite Boulevard, and enhances the corridors' ability to serve as practical and aesthetic buffers to existing neighborhoods through setbacks, right of way specifications, and a number of design standards to ensure a visually appealing transition zone. In addition, where potential new development abuts existing neighborhoods, each parcel has a lower intensity of use than the existing adjacent development.

This proposed rezoning is a continuation of the joint planning effort between the City and the Department that began in 2001. The current rezoning proposal closely aligns with the conceptual land use plan for the Subject Land established in 4-GP-2002, and aims to match each Master Planning Area identified in 4-GP-2002 with an appropriate zoning category (see the attached Exhibit G: Land Use and Proposed Zoning and Exhibit H: Parcel Sizes and Maximum Densities).

- Rural Neighborhoods have proposed zoning categories ranging from R1-190 to R1-35, with intensity varying based upon a number of factors such as surrounding uses, slope, and drainage. A maximum of 1,219 dwelling units are proposed in this category.
- Suburban Neighborhoods have proposed zoning categories ranging from R1-35 to R1-7 with intensity varying based upon a number of factors such as surrounding uses, slope, and drainage. A maximum of 3,208 dwelling units are proposed in this category.
- 40 acres of commercial land use with proposed PCC zoning was identified within Master Planning Area 9. This proposal has been removed from this case and is discussed in further detail below.
- Resorts/Tourism land use has been planned on Parcels K-4 and K-9, with 38 acres located in Master Planning Area 9 adjacent to Scottsdale Road and 38 acres in Master Planning Area 4 approximately two miles east of Pima Road on the Dove Valley Road alignment. Each Parcel has a proposed zoning of R4-R, which allows for townhomes within the resort property. A maximum of 573 dwelling units are proposed in this category.
- Conservation Open Space is identified in Master Planning Areas 2, 3, 4, 5, 6, 8 and 9. These open space areas will improve connectivity through the site and aid in the integration into the surrounding desert and mountain landscape.

*1 - Lots abutting Legend Trails and/or Desert Ranch shall provide setbacks equal to or greater than the setbacks required in the adjoining subdivision(s). The setback area will include dedicated Natural Area Open Space (NAOS) that shall be a minimum width of 30'.

*2 - Lots abutting the eastern boundary of this parcel, shall be sized at a minimum of 190,000 square feet and are not eligible for any size reduction.

The reconfiguring of land uses and additional allocation of Open Space within this proposal would reduce the estimated number of dwelling units on the subject land to 5,000 - a reduction of over 20% from the 6,261 units envisioned in 4-GP-2002 and a reduction of between 36% and 45% from the dwelling unit range of 7,800 to 9,000 units envisioned in the 2001 General Plan.

Land Use justification

The 4-GP-2002 Proposed Land Use Map designated the location of the Neighborhood Center, Low Intensity Resort, and School/Educational Facilities as “to be determined”. A multi-colored “floating pie” graphic indicated a Neighborhood Center consisting of park, retail and office uses, while a floating asterisk signified a Low Intensity Resort. Maintaining continuity with the existing neighborhood fabric, and buffering non-residential uses from existing residential were deemed highly important siting criteria. Since sound planning principles favor siting commercial land uses along arterial roads to provide ease of access, this rezoning proposal originally sought 40 acres of PCC zoning on Scottsdale Road between Jomax and Happy Valley roads. ASLD deemed this location suitable due to the long-running existence of commercial uses in the area under ASLD Special Land Use Permits and the presence of two high-voltage transmission corridors. As discussed below, this proposal has been removed from this case due to comments received during the public outreach process.

- The 76-acre Low Intensity Resort floating asterisk has been divided into two Planning Areas: K-4 and K-9:
 - Parcel K-4 is a 38-acre site, in the eastern portion of Master Planning Area 4. While ASLD cannot foresee the exact type of resort that would develop on K-4, its location approximately two miles east of Pima Road and the fact that it is surrounded on three sides by the McDowell Sonoran Preserve would lend itself to an “ecotourism” or passive recreation type of hospitality use; and,
 - Parcel K-9 comprises 38 acres at the intersection of Scottsdale Road and the Yearling Road alignment. Adjacency to Scottsdale Road would allow development of a resort within the Sonoran Desert bajada environment while providing ease of access to regional amenities and attractions.
- ASLD and the City have received initial feedback from the Cave Creek Unified School District (“CCUSD”) stating that development of the 5,000 dwelling units envisioned in this case will likely necessitate the development of new school facilities or the enhancement of existing school facilities. ASLD and the City will continue to work with CCUSD to determine their exact needs and incorporate those into the stipulations for this case.
- The attached Exhibit H displays the details of this proposal, and its evolution from the land use plan established in 4-GP-2002, which projected 6,273 units to be developed on the Rezoning Property. Notable reductions are:

- Parcel C (2002)/C-1 (current) in Master Planning Area 1, adjacent to Legend Trail: 4-GP-2002 designated this area for 2 – 4 dwelling units per acre (“DU/AC”) on 195 acres for a projected 608 total units. This planning area has been updated to 217 acres of R1-18 zoning, with a new proposed maximum of 440 units or 2.03 DU/AC, a reduction of over 25%.
- Planning Area A (2002)/A-1 (current) in Master Planning Area 1, bounded by Pima and Stagecoach Pass roads and Legend Trail Parkway: this area was listed as ½-1 du/ac on 470 acres for a projected 390 units. This planning area has been updated to 478 acres of R1-70 zoning, with a new proposed maximum of 252 units or a density of one dwelling unit per 1.9 acres (0.53 DU/AC), a reduction of about 35%.

Master Planning Areas 7, 8, and 9 are within the Foothills Overlay Zoning District (see Exhibit I). The proposed zoning within these areas is designed to promote the goals and visions for the area described in the Desert Foothills Character Plan. The preservation of the natural visual qualities of the upper Sonoran Desert will be retained through conformance to design guidelines developed in the Desert Foothills Character Area Plan.

Citizen and Neighborhood Involvement

A public outreach process is being performed in conjunction with this case. The Department recognizes the importance of working with community stakeholders to identify issues and concerns and attempt to address them in the development of the rezoning proposal. The following is a generalized synopsis of our public outreach efforts. For full details, see the Citizen and Neighborhood Involvement Report that was submitted with this narrative.

The outreach process began in November of 2014, with notifications sent to all residents within 750 feet of the Rezoning Property, as well as homeowners associations and other interested parties as identified by the City. Notifications contained a case summary, contact information, and information about three open house events to be held in the area. In addition, twelve early notification signs were posted at high traffic intersections surrounding the Rezoning Property. When the rezoning is ultimately scheduled for Planning Commission and City Council hearings, red notification signs with updated information will be posted in conformance with City guidelines.

The three Open House events were:

- December 8, 2014 from 4:00 to 7:00 PM at the Legend Trail Community Center, 34575 N. Legend Trail Parkway;
- December 9, 2014 from 5:30 to 7:30 PM at the Anasazi School Cafeteria, 12121 N. 124th Street;

Date Last Updated: February 2016

Notice: This document is provided for general information purposes only. The City of Scottsdale does not warrant its accuracy, completeness, or suitability for any particular purpose. It should not be relied upon without field verification.

- December 17, 2014 from 4:00 to 7:00 PM at Florence Ely Nelson Desert Park, 8950 E. Pinnacle Peak Road.

In addition, the following additional public meetings with question-and-answer sessions were held:

- January 27, 2015 from 4:00 to 7:00 PM at the Legend Trail Community Center, 34575 N. Legend Trail Parkway;
- May 20, 2015 from 6:00 to 9:00 PM at Florence Ely Nelson Desert Park, 8950 E. Pinnacle Peak Road.

Numerous presentations were also made to civic and business groups throughout 2015:

- Arizona Planners' Day at the State Capitol: February 25, 2015 from 7:00 to 8:30 AM at the State Capitol;
- Greater Pinnacle Peak Association Board of Directors: April 16, 2015 from 5:00 to 8:00 PM at the Winfield Community Center;
- Scottsdale Area Association of Realtors/Pinnacle Peak RMS: August 7, 2015 from 8:00 to 9:30 AM at the Grayhawk Country Club;
- Scottsdale Area Association of Realtors/Carefree RMS: August 20, 2015 from 8:00 to 9:30 AM at Harold's Corral, Cave Creek;
- Russ Lyon Sotheby's Carefree: August 25, 2015 from 8:30 to 9:30 AM at El Pedregal;
- Scottsdale Association of Realtors: November 19, 2015 from 8:30 to 9:30 AM at the Tatum Ranch Golf Club, Phoenix.

In addition, a number of calls, emails, and letters were received which have been included in the Citizen and Neighborhood Involvement report. Areas of concern can be broken into two categories: general comments and concerns; and concerns about land uses in specific locations adjacent to existing development, designated scenic corridors, or designated General Plan Character Areas or zoning ordinance overlay areas. ASLD also received emails forwarded by City of Scottsdale staff.

General comments and concerns received relate to suggestions that the City purchase the Rezoning Property for inclusion in the McDowell Sonoran Preserve, density and infrastructure, and conservation and sensitive design. Specific areas of concern were identified on the Rezoning Property in Master Planning Areas 1 and 2, adjacent to the Legend Trail and Desert Ranch communities, in Master Planning Area 7, adjacent to existing residential development east of Pima Road between Dynamite Boulevard and Jomax Road, and the aforementioned commercial parcel on Scottsdale Road between Jomax and Happy Valley roads.

General Comments and Concerns and ASLD's responses:

1. City purchase of Rezoning Property for inclusion in the McDowell Sonoran Preserve: This suggestion does not relate to ASLD's zoning case. City purchase of property for the McDowell Sonoran Preserve is a City policy that ASLD does not control.
2. Location and Density of designated land uses: This overall theme covers general opposition to additional development in North Scottsdale, as well as site-specific requests to eliminate or reduce proposed density in certain areas. ASLD notes that designation of appropriate land uses and densities are issues that were explored throughout the aforementioned API Reclassification and 2002 Major General Plan Amendment cases. Our current rezoning proposal seeks zoning in conformance with the land use locations and densities established in 4-GP-2002. Also, as noted above, this case seeks dwelling unit counts and densities that are 20% less than those entitled in 4-GP-2002 and 36% to 45% less than those entitled in the City's 2001 General Plan.
3. Impact of future development on road, utility, and drainage infrastructure: Comments received raised concerns that additional development in North Scottsdale would aggravate drainage concerns or traffic in the area and would necessitate expansions and upgrades to regional infrastructure. The City has planned their future road and utility infrastructure in conformance with the land uses and densities established in 4-GP-2002. Through the City's development review process at both the master plan and site-specific level, all future development on the Rezoning Property will be required to comply with City ordinances and policies related to provision of transportation, utility, and drainage infrastructure.

Specific Comments and Concerns and ASLD's responses:

4. Master Planning Areas 1 and 2 Comments (see Exhibit J and the Community and Neighborhood Involvement Report):
 - a. Establish a scenic corridor designation along Legend Trail Parkway through the Rezoning Property between Pima and Stagecoach Pass roads: ASLD agrees to designation of a 100-foot Scenic Corridor designation along the entire length of Legend Trail Parkway in Master Planning Areas 1 and 2 in accordance with City standards for such corridors;
 - b. Maintain equivalent or greater building setbacks and Natural Area Open Space ("NAOS") depths on future Rezoning Property development adjacent to existing development in the Legend Trail and Desert Ranch communities: ASLD agrees to the following:
 - i. Parcel A-1: Lots abutting Legend Trail shall provide setbacks equal to or greater than the setbacks required in the adjoining Legend Trail or Desert Ranch subdivisions. The setback area will include dedicated Natural Area Open Space (NAOS) that shall be a minimum width of 30 feet;
 - ii. Parcel B-1: Lots abutting Legend Trail shall provide setbacks equal to or greater than the setbacks required in the adjoining Legend Trail subdivision.

- iii. The setback area will include dedicated Natural Area Open Space (NAOS) that shall be a minimum width of 30 feet; and,
 - iv. Parcel C-1 – Lots abutting Legend Trail shall provide setbacks equal to or greater than the setbacks required in the adjoining Legend Trail subdivision(s). The setback area will include dedicated Natural Area Open Space (NAOS) that shall be a minimum width of 30 feet.
- c. Establish official trail corridors to connect Legend Trail Parkway to the McDowell Sonoran Preserve: ASLD agrees to the following:
- i. Planning Unit 1, Parcel B-1 – a 15-foot wide trail easement and 3-foot wide trail shall be provided from the Legend Trail Parkway right-of-way east into the McDowell Sonoran preserve trail system. This alignment may occur along either the southern or the northern boundary of the Parcel B-1. City of Scottsdale Preserve staff shall coordinate the alignment selection, construction and connection into the Preserve. Dedication of the easement shall occur with the first subdivision in Planning Unit 1; and,
 - ii. Planning Unit 2, Parcel E-2 – a 15-foot wide trail easement and 3-foot wide trail shall be provided from the Legend Trail Parkway right-of-way east into the McDowell Sonoran preserve trail system. This alignment will occur within parcel E-2. City of Scottsdale Preserve staff shall coordinate the alignment selection, construction and connection into the Preserve. Dedication of the easement shall occur with the first subdivision in Planning Unit 2.
5. Master Planning Area 7: Comments received noted that ASLD is proposing to designate an R1-130 zoning district on the Rezoning Property in Parcel S-7, while adjacent development is within the R1-190 zoning district. ASLD agrees that all lots on the Rezoning Property in Parcel S-7 adjacent to existing lots on the eastern property boundary will be developed using the standards of the R1-190 zoning district, and will have a minimum lot size of 190,000 square feet (see Exhibit K).
6. Commercial site on Scottsdale Road in Master Planning Area 9: Numerous comments were received which questioned the appropriateness of a 40-acre PCC-zoned commercial parcel on Scottsdale Road between Jomax and Happy Valley roads. ASLD has removed this proposal from this case. In addition, since the west side of Scottsdale Road in this location is also State Trust land in the City of Phoenix, ASLD will seek to establish a higher-volume arterial or collector roadway on the Yearling Drive alignment to minimize future impacts to existing development and traffic volumes on Jomax and Happy Valley roads in Scottsdale and Phoenix (see Exhibit L).
7. Conservation of Regional Character: Several comments expressed concern that future development on the Rezoning Property would negatively impact the character of the surrounding area through the loss of open space and scenic vistas. ASLD notes that it has

sold the City more than 13,000 acres of State Trust land at below-market rates for the McDowell Sonoran Preserve under the auspices of the Arizona Preserve Initiative, thus demonstrating a commitment to sustaining the rural desert character of the area and preserving viewsheds and habitat. Existing City Scenic Corridor requirements remain in place throughout the Rezoning Properties, as do City standards under their Environmentally Sensitive Lands Ordinance. As noted above, ASLD has also agreed to apply new scenic corridor designations within the Rezoning Property to augment those that have already been established. ASLD defers to the City site plan and development plan approval processes to ensure that future development occurs in concurrence with community design and aesthetic standards

Circulation Element

See Exhibits M and N for trail and road circulation elements. The City of Scottsdale Transportation Master Plan, approved by the City Council in 2008, delineates a hierarchy of streets throughout the Rezoning Property: Scottsdale Road, Pima Road, and Dynamite Boulevard are each identified with “Minor Arterial – Rural” street classifications; Legend Trail Parkway is identified with a “Major Collector –Rural” street classification; and Stagecoach Pass Road, Westland Drive, Lone Mountain Road, Dixeleta Drive, Jomax Road, and Hayden Road are identified with “Minor Collector – Rural” street classifications. Specifications for each of these classification types are addressed in the City of Scottsdale Transportation Design Standards and Policy Manual, in Section 5.3 – Geometrics and are shown on Exhibit N. Any future development of the Subject Property will incorporate appropriate Right of Way, Easement and other design standards into the circulation planning process,

Additionally, three of the streets identified above: Dynamite Boulevard, Pima Road, and Scottsdale Road are designated as Scenic Corridors by the City’s General Plan. Future development along these Scenic Corridors will incorporate the adopted visual design of the Right of Way, Scenic Desert Landscape Setback, Development Edges at the Scenic Setback and Regional Crossings and Intersections as specified within the Scenic Corridor Design Guidelines manual.

Open Space & NAOS

Locations of areas to be zoned as Conservation Open Space (“COS”) are shown on Exhibit O. These areas generally conform to the incised channels and floodways of the major wash systems that traverse the Rezoning Property. Other notable open space areas include: the high-voltage transmission line corridors that traverse Master Planning Areas 6, 7, 8 and 9; Scenic Corridors adjacent to Scottsdale and Pima roads, Dynamite Boulevard, and a new scenic corridor adjacent

to Legend Trail Parkway in Master Planning Areas 1 and 2 (discussed above); and Buffered Roadway corridors as shown on Exhibit O.

The Environmentally Sensitive Lands Ordinance (“ESLO”) was adopted by the City in 1991 with the intent of identifying and protecting and controlling development on environmentally sensitive lands. The Ordinance classifies applicable land as belonging to one of three categories; Lower Desert Landform, Upper Desert Landform, or Hillside Landform. The amount of Natural Area Open Space (“NAOS”) required for any site is based on the landform area, and land slopes.

Land Slope	Lower Desert	Upper Desert	Hillside
0 to 2 %	20%	25%	50%
2 to 5%	25%	25%	50%
5 to 10%	30%	35%	50%
10 to 15%	30%	45%	50%
15 to 25%	30%	45%	65%
Over 25%	30%	45%	80%
Min after reductions*	15%	20%	40%

A GIS-based slope analysis was performed to determine the amount of Slope occurring throughout the 4,020-acres Subject Land, and the results are show in in the below table:

Land Slope	Acres	Multiplier	Net NAOS
0 to 2 %	470	25%	118
2 to 5%	1,148	25%	287
5 to 10%	1,533	35%	537
10 to 15%	652	45%	293
15 to 25%	240	45%	108
Over 25%	23	45%	10
Total			1353

The 1,353 acres will be applied across the entirety of the site, to maximize the ability to preserve highly sensitive and environmentally significant features. As each Master Planning Area is planned and developed, the intent of the ESLO, Character Areas, Policies, and General Plan Amendment case stipulations is that details concerning Conservation Open Space, Scenic Corridor buffers and preservation of other ESLO-protected features will be determined at that time

There are several locations in the Scenic Corridors within the Rezoning Area where monument signs or markers have been placed under ASLD Special Land Use Permits. Disposition of the aforementioned monument signs and markers will be resolved when the underlying land is sold.

Sensitive Design Principles

The City has established a set of design principles to help sustain the community and its quality of life. This proposal strives to incorporate these ideas and respect the unique character of the area. Through the steps below, this proposal will help to reinforce the quality of design advocated by the Sensitive Design Program. Each design element will be expected to be incorporated into any future developments within the planning area, as the concepts are central to maintain the feel and character of the area. The principles are listed below in italics followed by a brief description of how these principles have been, or will be, addressed.

1. *The design character of any area should be enhanced and strengthened by new development. The building design should consider the distinctive qualities and character of the surrounding context and, as appropriate, incorporate those qualities in its design. The building design should be sensitive to the evolving context of an area over time.*

COS-zoned parcels, Scenic Corridors, Buffered Roadways and other significant features as described in the City's Environmentally Sensitive Lands Ordinance form the backbone of open space within the Rezoning Area. The ESL Ordinance allows for amended lot sizes so that Scenic Corridors, roadway buffers, and other significant features described in the ESL Ordinance are within dedicated tracts. Details will be determined at the time of final site planning and platting.

The open desert and mountain environment will be strengthened through the integration of Scenic and Vista Corridors, and open space amenities, which have been incorporated into this proposal. The land use and proposed zoning establishes a framework for enhancing the area through the preservation of major riparian corridors providing important habitat connectivity throughout the site (see the attached Exhibit O: Open Space).

2. *Development, through appropriate siting and orientation of buildings, should recognize and preserve established major vistas, as well as protect natural features such as scenic views of the Sonoran desert and mountains and archaeological and historical resource.*

Views of the desert and mountains will be preserved using Scenic and Vista Corridors. Scenic Corridors along Scottsdale Road and Pima Road will preserve existing sightlines and a sense of openness. Vista Corridors along preserved washes will maintain wildlife connectivity, and provide visual links throughout the site. Transition zones have been created along the edges of the parcels to ensure that new development will have a lower intensity than adjacent existing development.

3. *Development should be sensitive to existing topography and landscaping. A design should respond to the unique terrain of the site by blending with the natural shape and texture of the land while minimizing disturbances to the natural environment.*

Environmentally sensitive features on the site have been identified and designated as Open Space. Factors examined include drainage, slope, elevation, soil type and flood zones. This preliminary site analysis was used to inform the proposed zoning and mitigate impact to environmentally sensitive features.

4. *Development should protect the character of the Sonoran Desert by preserving and restoring natural habitats and ecological processes.*

Parcels E-2, H-3, H-4, H-5, CC-1A, R-6, W-8, and BB-9, were identified as high-priority washes and are designated as Natural Open Space. These parcels comprise approximately 563 acres, which will be set aside to preserve important natural habitat and trail linkages through the site (see the attached Exhibit M: Circulation: Trails).

5. *The design of the public realm, including streetscapes, parks, plazas and civic amenities, is an opportunity to provide identity to the community and to convey its design expectations. Streetscapes should provide continuity among adjacent uses through use of cohesive landscaping, decorative paving, street furniture, public art and integrated infrastructure elements.*

The ultimate developer(s) will be responsible for implementation of specific streetscape design through the City's site and development plan review and approval process.

6. *Developments should integrate alternative modes of transportation, including bicycles and bus access, within the pedestrian network that encourage social contact and interaction within the community.*

A transportation network has been identified to provide connectivity and integrate the site into the fabric of the existing infrastructure. Streets, trails, and a power line corridor provide access to and through the site, strengthening access from surrounding neighborhoods to the McDowell Sonoran Preserve (see the attached Exhibit M: Circulation: Trails and Exhibit N: Circulation: Roadways and Access).

7. *Development should show consideration for the pedestrian by providing landscaping and shading elements as well as inviting access connections to adjacent developments. Design elements should be included to reflect a human scale, such as the use of shelter and shade for the pedestrian and a variety of building masses.*

The ultimate developer(s) will be responsible for implementation of specific pedestrian design through the City's site and development plan review and approval process.

8. *Buildings should be designed with a logical hierarchy of masses to control the visual impact of a building's height and size and to highlight important building volumes and features, such as the building entry.*

Scenic vistas along major thoroughfares ensure appropriate setbacks will be utilized to preserve the natural sightlines and maintain an open feel.

The ultimate developer(s) will be responsible for implementation of specific building design through the City's site and development plan review and approval process.

9. *The design of the built environment should respond to the desert environment. Interior spaces should be extended into the outdoors both physically and visually when appropriate. Materials with colors and coarse textures associated with this region should be utilized. A variety of textures and natural materials should be used to provide visual interest and richness, particularly at the pedestrian level. Materials should be used honestly and reflect their inherent qualities. Features such as shade structures, deep roof overhangs and recessed windows should be incorporated.*

The ultimate developer(s) will be responsible for implementation of specific site design and selection of colors and materials through the City's site and development plan review and approval process.

10. *Developments should strive to incorporate sustainable and healthy building practices and products. Design strategies and building techniques, which minimize environmental impact, reduce energy consumption, and endure over time, should be utilized.*

The ultimate developer(s) will be responsible for implementation of specific design to address sustainability through the City's site and development plan review and approval process.

11. *Landscape design should respond to the desert environment by utilizing a variety of mature landscape materials indigenous to the arid region. The character of the area should be emphasized through the careful selection of planting materials in terms of scale, density, and arrangement. The landscaping should complement the built environment while relating to the various uses.*

The ultimate developer(s) will be responsible for implementation of specific landscape design through the City's site and development plan review and approval process.

12. *Site design should incorporate techniques for efficient water use by providing desert adapted landscaping and preserving native plants. Water, as a landscape element, should be used judiciously. Water features should be placed in locations with high pedestrian activity.*

The ultimate developer(s) will be responsible for implementation of specific water usage elements through the City's site and development plan review and approval process.

13. *The extent and quality of lighting should be integrally designed as part of the built environment. A balance should occur between the ambient light levels and designated focal lighting needs. Lighting should be designed to minimize glare and invasive overflow, to conserve energy, and to reflect the character of the area.*

The ultimate developer(s) will be responsible for implementation of specific lighting design through the City's site and development plan review and approval process.

14. *Signage should consider the distinctive qualities and character of the surrounding context in terms of size, color, location and illumination. Signage should be designed to be complementary to the architecture, landscaping and design theme for the site, with due consideration for visibility and legibility.*

The ultimate developer(s) will be responsible for implementation of specific signage design through the City's site and development plan review and approval process.

Conclusion

This zoning application is the final step in completing the collaborative process initiated by the City's API petition and subsequent purchase of approximately 13,000 acres of State Trust land for the McDowell Sonoran Preserve through the API process. As outlined in the State Land Commissioner's Order No. 078-2001/2002, the reclassification of was ordered subject to the City of Scottsdale's willingness to accommodate an enhancement of land values for the remaining State Trust land.

The current zoning on the Subject Land is not representative of the uses and densities approved in the joint planning effort between the City and the Department in 4-GP-2002. The Proposed Zoning in this application seeks to bring entitlements into conformance with the Land Use Element of the General Plan as mandated by state statute. The Department looks forward to working with Scottsdale's residents, City staff, the Planning Commission and the City Council as we move forward together to implement zoning consistent with the Land Use Element of 4-GP-2002 and the adopted General Plan.

**Stipulations for the Zoning Application:
State Trust Land - North Scottsdale
Case Number: 19-ZN-2014**

These stipulations are in order to protect the public health, safety, welfare, and the City of Scottsdale.

SITE DESIGN

1. **CONFORMANCE TO ZONING MAP.** Development shall conform with the zoning map plan submitted by The Arizona State Land Department and with the city staff date of 2-22-2016, attached as **Exhibit 1 and Exhibit 2 to Attachment 1**. Any proposed significant change to the zoning map as determined by the Zoning Administrator, shall be subject to additional action and public hearings before the Planning Commission and City Council.
2. **CONFORMANCE TO MASTER PLANNING AREAS' PARCEL SIZES AND MAXIMUM DENSITY MATRIX.** Development shall conform with the Master Planning Areas' Parcel Sizes and Maximum Densities Exhibit submitted by The Arizona State Land Department and with the city staff date of 2-22-2016, attached as **Exhibit 3 to Attachment 1**. Any proposed significant change to the Master Planning Areas' Parcel Sizes and Maximum Densities as determined by the Zoning Administrator prior to the preliminary plat submittal shall be subject to additional public hearings before the Planning Commission and City Council. Once the final plat is approved, the development must conform to the final plat.
3. **CONFORMANCE TO CONCEPTUAL MASTER PLANNING AREAS MAP.** Development shall conform with the conceptual Master Planning Area Map submitted by The Arizona State Land Department, with the city staff date of 2-22-2016, attached as **Exhibit 4 to Attachment 1**. Any proposed significant change to the Master Planning Areas Map as determined by the Zoning Administrator, prior to the preliminary plat submittal, shall be subject to additional public hearings before the Planning Commission and City Council.
4. **CONFORMANCE TO CONCEPTUAL MASTER PLANNING AREAS AND PARCELS MAP.** Development shall conform with the Master Planning Areas and Parcels Map submitted by The Arizona State Land Department and, the city staff date of 2-22-2016, attached as **Exhibit 5 to Attachment 1**. Any proposed significant change to the Master Planning Areas and Parcels Map as determined by the Zoning Administrator, prior to preliminary plat submittal, shall be subject to additional public hearings before the Planning Commission and City Council.
5. **CONFORMANCE TO CONCEPTUAL CIRCULATION: ROADWAYS AND ACCESS MAP.** Development shall conform with the conceptual Circulation: Roadways and Access Map submitted by The Arizona State Land Department, with the city staff date of 2-22-2016, attached as **Exhibit 6 to Attachment 1**, the Transportation Master Plan, and the Design Standards and Policies Manual (DS&PM).
6. **CONFORMANCE TO CONCEPTUAL OPEN SPACE MAP.** Development shall conform with the conceptual Open Space Map submitted by The Arizona State Land Department, with the city staff date of 2-22-2016, attached as **Exhibit 7 to Attachment 1**. The overall development area must provide **1,630 acres** of Open Space and Rural Neighborhoods.

7. CONFORMANCE TO CONCEPTUAL OPEN SPACE/NATURAL AREA OPEN SPACE (NAOS). Each ultimate subdivided parcel shall meet open space and NAOS requirements within each plat's boundary, in accordance with this case and the Environmentally Sensitive Lands Ordinance.
8. CONFORMANCE TO CONCEPTUAL CIRCULATION: TRAILS MAP. Each Master Planning Area and Master Planning Area Parcel development shall conform with the provided Circulation: Trails Map submitted by The Arizona State Land Department, with the city staff date of 2-22-2016, attached as **Exhibit 8 to Attachment 1**. All Master Planning Areas' Circulation Master Plans shall adhere to the Transportation Master Plan and the Transportation Master Plan Local Area Infrastructure Plans. All dedications and improvements shall be in conformance with **Tables "B" and "C,"** as shown further down in this document.
9. CONFORMANCE TO PUBLIC PARKS AND OPEN SPACE: Each Mater Planning Area shall be required to identify, and possibly provide, a neighborhood park/open space, with the request of the first subdivision plat. Subdivision plat shall provide parks and open space in accordance with the 2001 General Plan Open Space Element, and staff recommendation.
10. DESERT FOOTHILLS CHARACTER AREA. Parcels S-7, T-8, U-8, V-8, W-8, X-8, Y-8, K-9, Y-9, Z-9, AA-9, AND BB-9 shall adhere to the Desert Foothills Character Area plan and the Desert Foothills Implementation Plan. The developments located within the Desert Foothills Character Area shall preserve the natural, visual qualities of the lush upper Sonoran Desert by using desert-sensitive building techniques that retain and blend with the natural desert character of the area. Each Master Planning Area and subsequent subdivision plat application shall identify how the proposed project maintains a Rural Desert Character and intent of Desert Foothills Character Area Plan and the Desert Foothills Implementation Plan.
11. CONFORMANCE TO PUBLIC SERVICE AND FACILITIES ELEMENT. With the sale of Master Planning Areas and Parcels L-5 and L-4, the State Land Department shall establish the location and size of the required school site. The location of the required school site will be established by the State Land Department and the Cave Creek School District. The State Lands Department shall provide a Master Planning Area's Master Plan, identifying the location and size of the schools site with the subdivision plat application. The sale of Master Planning Parcels F-2, I-3, and J-3, may also require identification of the required school site.
12. TIMING OF MASTER PLANNING AREAS DESIGN. The first development application for a particular portion of a Master Planning Area, or Master Planning Area Parcel shall be required to provide a series of Master Plans. The Master Planning Area Master Plan shall be provided with the first development application. Please reference Table "C" for required improvements for each Mater Planning Area and each Master Planning Area Parcel.
13. AMENDED DEVELOPMENT STANDARDS. The current approval does not include amended development standards for the proposed Master Planning Areas and their respective Parcels. Any change to the development standards shall be subject to additional public hearings before the Development Review Board, with each development application, as per the Zoning Ordinance.
14. ARCHAEOLOGY. Any development on the property is subject to the requirements of Scottsdale Revised Code, Chapter 46, Article VI, and Protection of Archaeological Resources for that Master Planning Area.
15. MAXIMUM DWELLING UNITS/MAXIMUM DENSITY. Maximum dwelling units and maximum density shall be as indicated on the Land Use Budget Table "A" below.

Table "A" – Land Use Budget Table

Parcel Identifier and "Master Planning Area" (19-ZN-2014)	Proposed Zoning Master Planning Parcel Area in acres	Proposed Zoning District to Meet Approved Densities (19-ZN-2014)	Maximum Number of Units
A - 1	478	R1-70/ESL (*1)	252
B - 1	53	R1-43/ESL (*1)	45
C - 1	217	R1-18/ESL (*1)	440

CC -1A	114	R1-190/ESL	6
	4,020		5,000

Redistribution of dwelling units is subject to the maximum density in the Land Use Budget Table and subject to city staff approval. The owner's redistribution request shall be submitted with the preliminary plat submittal to the Development Review Board and shall include a revised Master Development Plan and a revised Land Use Budget Table indicating the parcels with the corresponding reductions and increases. Redistribution of dwelling units shall not occur across Master Planning Areas.

- 1) Lots on the perimeter of the site adjacent to lots with less intensive zoning, shall have rear yard setbacks equal to or greater than the minimum rear yard setback required by the zoning district of those adjacent lot(s).
 - 2) The minimum lot width of those lots, located on the perimeter of one of these Master Planning Area Parcels, are not eligible for amended development standards.
16. BUILDING HEIGHT LIMITATIONS IN DESERT FOOTHILLS OVERLAY AREA. No building on the site shall exceed 24 feet in height, for all single-family zoning districts and resort/townhouse districts located within the Desert Foothills Overlay Area, measured as provided in the applicable section of the Zoning Ordinance.
17. ALTERATIONS TO NATURAL WATERCOURSES. Any proposed alteration to the natural state of watercourses with a peak flow rate of 750 cfs or less based on the 100 year – 2 hour rain event shall be subject to Development Review Board approval.
18. OUTDOOR LIGHTING. All lighting requirements shall be in conformance with the City Policy for Exterior Lighting Design Principles, Ambient Light Zones, and the Design Standards and Policies Manual. Please reference **Exhibit 9 to Attachment 1** for Exterior Lighting Design Principles and Ambient Light Zones.

INFRASTRUCTURE AND DEDICATIONS

19. The owner/developer shall submit Transportation Master Plans for each Master Planning Area for review and approval by City of Scottsdale Transportation Engineering department staff with the first development application within a Mater Planning Area. The master plans shall identify the proposed phasing and show required right-of-way, street cross sections and for any major and local streets serving the parcel. The master plans shall also identify all trails, paths and pedestrian facilities. All Master Planning Areas' Circulation Master Plans shall adhere to the Transportation Master Plan, the Transportation Master Plan Local Area Infrastructure Plans, and the DS&PM. All dedications and improvements shall be in conformance with **Tables "B" and "C,"** as shown further down in this document.
20. TRANSPORTION MASTER PLAN. Each Transportation master plan mentioned above shall discuss traffic control for every mile, half-mile, and quarter-mile street intersections, for each Master Planning Area with the first development application within a Mater Planning Area. All Master Planning Areas' Circulation Master Plans shall adhere to the Transportation Master Plan, the Transportation Master Plan Local Area Infrastructure Plans, and the DS&PM. All dedications and improvements shall be in conformance with **Tables "B" and "C,"** as shown further down in this document.
21. TRAFFIC IMPACT STUDY. Each Master Planning Area Circulation Plan mentioned above shall establish the street system layout and street classifications for each Master Planning Area with the first development application within a Mater Planning Area. A traffic impact analysis shall be submitted by the applicant for each Master Planning Area and approved by

City staff. The traffic impact study shall identify projected traffic volumes for each street segment and major intersection in the study area, and propose traffic control measures for each intersection within the study area. All Master Planning Areas' Circulation Master Plans shall adhere to the Transportation Master Plan, the Transportation Master Plan Local Area Infrastructure Plans, and the DS&PM. All dedications and improvements shall be in conformance with **Tables "B" and "C,"** as shown further down in this document.

22. CIRCULATION IMPROVEMENTS. Before any certificate of occupancy is issued for a parcel within a Master Planning Area, the owner shall make the required dedications and provide the following improvements in conformance with the Design Standards and Policies Manual and all other applicable city codes and policies. The required dedications and improvements will be in association with the dedications and improvements required to develop the Master Planning Area. Required dedications and improvements shall be identified in the Transportation Master Plan, the DS&PM, and as shown in **Tables "B" and "C."**

- a. **STREETS.** Dedicate the following right-of-way and construct the following street improvements:

TABLE "B" – Right-Of-Way Improvements and Dedications Requirements

Item #	Street Name	Street Type	Dedications	Improvements	Notes
A	N. Pima Road	Minor Arterial – Rural	75' half (55', 75' existing)	Half street	A.
B	E. Dynamite Boulevard (east of N. Pima Road)	Minor Arterial - Rural	130' full (existing)	Existing	A.
C	E. Dynamite Boulevard (west of N. Pima Road)	Minor Arterial - Rural	75' half (40' existing)	Half street	A.
D	N. Scottsdale Road	Minor Arterial - Rural	75' half (existing)	Half street	A.
E	E. Happy Valley Road	Major Collector – Rural	45' half (None existing)	Half street	A.
F	E. Legend Trail Parkway	Major Collector - Rural	90' full (None existing, easement)	Sidewalk, path, trail?	A
G	N. Miller Road/E. Hayden Road (north of E. Happy Valley Road)	Minor Collector - Rural	70' full (None existing)	Full street	A

	Street Name	Street Type	Dedications	Improvements	Notes
H	E. Hayden Road (north of E. Jomax Road)	Minor Collector – Rural	40' half (None existing)	Half street	A
I	E. Jomax Road	Minor Collector – Rural	45' half (40' existing)	Half street	A
J	E. Stagecoach Pass Road	Minor Collector – Rural	45' half (existing varies)	Half street	A
K	Internal Streets	Local Collector - Rural	50' full	Full street	A, B.
L	Internal Streets	Local Residential - Rural	40' full or 46' full based on lot size	Full street	A, B.

- A. The street cross sections shall be designed to City of Scottsdale standard cross sections contained in Chapter 5-3 of the Design Standards and Policies Manual unless otherwise approved in the Master Planning Area Circulation Plan. The cross sections shall include a minimum eight-foot sidewalk along the major street frontages (Minor Arterials and Major Collectors).
 - B. Internal local streets with projected daily traffic volumes exceeding 1,500 vehicles shall be classified as Local Collector streets.
23. **AUXILIARY LANE.** The owner/applicant shall dedicate the necessary right-of-way, as determined by city staff, and construct right-turn deceleration lanes at all site entrances on E. Happy Valley Road, N. Scottsdale Road, E. Dynamite Boulevard, N. Pima Road, and E. Legend Trail Parkway. The required dedications and improvements will be in association with the dedications and improvements required to develop the Master Planning Area. Required dedications and improvements shall be identified in the Transportation Master Plan, the DS&PM, and as shown in **Tables “B” and “C.”**
24. **IN LIEU PAYMENTS.** Before any building permit is issued for the site, if directed by city staff, the owner shall make an in-lieu payment to the city instead of constructing a specified the street improvement(s). Before any final plan approval, the owner shall submit an engineer's estimate for plan preparation, design and construction costs, Development Agreement, and subject to city staff approval.
25. **TIMING OF STREET IMPROVEMENTS.** The associated street improvements described below shall be completed consistent with the approved phasing master plan before any parcels in the following Master Planning Areas receive a Certificate of Occupancy;
- A. Master Planning Area 1 – N. Pima Road (half-street improvements), from E. Legend Trail Parkway to E. Stagecoach Pass Road; E. Stagecoach Pass Road (half-street improvements) from Pima Road to eastern boundary; E. Legend Trail Parkway (half-street improvements within planning area limits; and all internal Local Collectors (full-street improvements) per the approved Master Plan.
 - B. Master Planning Area 2 – N. Pima Road (half street improvements) from E. Legend Trail Parkway to E. Ashler Hills Drive; E. Legend Trail Parkway half-street

- improvements) within the Master Planning Area limits; and all internal Local Collectors (full-street improvements) per the approved Master Plan.
- C. Master Planning Area 3 – Master Planning Area 3 will require the dedication and improvements of those requirements found in Planning Area 2, and possibly Master Planning Area 5, prior to the issuance of permit.
 - D. Master Planning Area 4– Master Planning Area 4 will require the dedication and improvements of those requirements found in Master Planning Area 2 and possibly Master Planning Area 5, prior to the issuance of permit.
 - E. Master Planning Area 5 – N. Pima Road (half-street improvements) from E. Ashler Hills Drive to the southern boundary and all internal Local Collectors (full-street improvements) per the approved Master Plan.
 - F. Master Planning Area 6 – N. Pima Road (half-street improvements) from the northern boundary to E. Dynamite Boulevard and all internal Local Collectors (full-street improvements) per the approved Master Plan.
 - G. Master Planning Area 7 – N. Pima Road (half-street improvements) from E. Dynamite Boulevard to Jomax Road; E. Jomax Road (half-street improvements) from N. Pima Road to N. 90th Street; and all internal Local Collectors (full-street improvements) per the approved Master Plan.
 - H. Master Planning Area 8 – E. Dynamite Boulevard (half-street improvements) from N. Hayden Road to N. Pima Road; N. Hayden Road (half-street improvements) from E. Jomax Road to E. Dynamite Boulevard; N. Pima Road (half-street improvements) from E. Jomax Road to E. Dynamite Boulevard; and all internal Local Collectors (full-street improvements) per the approved Master Plan. Master Planning Area 8 may also be required to dedicate and improve the completion of E. Jomax Road (either in improvement area or standard).
 - I. Master Planning Area 9 – E. Jomax Road (half-street improvements) from N. Scottsdale Road to N. Hayden Road; E. Happy Valley Road (half-street improvements) from N. Scottsdale Road to N. Hayden Road; N. Scottsdale Road (half-street improvements) from E. Happy Valley Road to E. Jomax Road; N. Miller Road/N. Hayden Road (full-street improvements) from E. Happy Valley Road to E. Jomax Road; and all internal Local Collectors (full-street improvements) per the approved Master Plan.
26. ACCESS RESTRICTIONS. The owner/developer shall dedicate the necessary right-of-way, as determined by the City Manager or designee, and construct the following access to the sites with the first development application within a Master Planning Area. Access will conform with the Transportation Master Plan, the Transportation Master Plan’s Local Area Infrastructure Plan, and the Design Standards and Policies Manual. Access to the sites shall conform to the following restrictions (distances measured to the driveway or street centerlines, unless otherwise approved through the Master Planning Area Circulation Plan):
- a. Access to minor arterial streets shall be limited to minimum 500 foot intervals with median breaks provided at minimum intervals of 1320 feet.
 - b. Access to major collector streets shall be limited to minimum 250 foot intervals with median breaks provided at minimum intervals of 660 feet.
 - c. There shall be no direct residential access to Minor Arterial streets, or Major Collector, or Minor Collector streets. Where access is prohibited, a 1 foot vehicular non-access easement shall be dedicated along the street frontage.

27. **TRAFFIC SIGNAL PARTICIPATION.** As the property develops, the applicant shall be responsible for participation in the design and installation of traffic signals or roundabouts, as determined by the City Manager or Designee, if and when warranted as determined by a Traffic Signal Warrant Analysis following MUTCD guidelines, at the following locations and for the percent of participation indicated:

- a. Miller Road/Happy Valley Road – 50% (Planning Area 9)
- b. Hayden Road/ Jomax Road – 25% (Planning Area 9), 25% (Planning Area 8)
- c. Pima Road/Jomax Road – 25% (Planning Area 8), 25% (Planning Area 7)
- d. Hayden Road/Dynamite Boulevard – 25% (Planning Area 8)
- e. Pima Road/Stagecoach Pass – 25% (Planning Area 1)
- f. Additional intersections may be identified through the master planning process for each Planning Area.
- g. Additional right-of-way may be required to be dedicated at intersections where roundabouts are planned to be installed to accommodate roundabout geometrics.

If it is shown that the site generated traffic is accounting for more than fifty percent (50%) of the total traffic at these identified intersections, the owner/developer shall be responsible for constructing the traffic control device (100% participation – unless otherwise analyzed by the Transportation Director). Dedication of proper right-of-way widths and construction of improvements are required prior to the Certificate of Occupancy being issued. The traffic estimate for this determination shall be at the time of buildout of the parcels within the adjacent Master Planning Areas.

28. **MASTER WATER AND WASTEWATER REPORT.** The owner/developer, prior to the submittal of the development application, shall prepare a Master Water and Wastewater plan for the entire designated Master Planning Area. Final water and wastewater basis of design reports, for the entire Master Planning Area, are to be developed for review and acceptance by City of Scottsdale Water Resources Department staff. Basis of design reports for the designated Master Planning Areas Parcels shall demonstrate the compliance with the accepted Master Planning Area's Water and Wastewater Basis of Design reports.

29. **MASTER WATER AND WASTEWATER REPORT.** The owner/developer shall provide, in fee simple title to the city, land to support the Water and Wastewater facilities identified in the Water and Wastewater Basis of Design reports. Land shall be provided, prior to the recordation of the final plat, through separate instrument. The following projects/locations have been identified as facilities that would require land to be provided as fee simple title:

- a. New Well site in area of N. Stagecoach Pass Road and N. Pima Road, with the development of Master Planning Area 1.
- b. New booster station and reservoir near the intersection of E. Legend Trail Boulevard and E. Stagecoach Pass Road, with the development of Master Planning Area 1
- c. New well site along N. Scottsdale Road, between E. Happy Valley Road and E. Jomax Road, with the development of Master Planning Area Master Planning Area 9.

30. **WATER AND WASTEWATER FACILITIES.** The following facilities have been identified as future projects to be constructed by the City, or the owner/developer, as fee credit, dependent on the timeframe of development. Facilities are to be constructed by the

owner/developer, if because of timing, prior to the Certificate of Occupancy being issued, as follows:

- a. A Sewer line along E. Jomax Road, from N. Scottsdale Road to N. Pima Road, with the development of Master Planning Area 8 and Master Planning Area 9.
- b. A Sewer line along E. Dynamite Boulevard, from N. Scottsdale Road to N. Pima Road, with the development of Master Planning Area 8.
- c. A 24" water line along N. 92nd Street alignment, from E. Ashler Hills to E. Stagecoach Pass Road, with the development of Master Planning Area 1, Master Planning Area 2, and with the development of Master Planning Area 3.
- d. A 16" water line along E. Jomax Road, from N. 80th Street to Pump Station# 42, located at N. Pima Road and E. Jomax Road, with the development of Master Planning Area 8.
- e. A 16" water line from Pump Station #42 east to 90th Street, with the development of Master Planning Area 7.
- f. See Master Plans Section below for additional submittal requirements.

31. The owner/developer shall extend local infrastructure across all right-of-ways adjacent to the Master Planning Area development to a point on the property boundary where connection and future extension may serve an adjacent parcel prior to the Certificate of Occupancy being issued.

32. EASEMENTS.

- a. EASEMENTS DEDICATED BY PLAT. The owner/developer shall dedicate to the city, on each relevant final plat, all easements necessary to serve the site, in conformance with the Scottsdale Revised Code and the Design Standards and Policies Manual (DS&PM).
- b. EASEMENTS CONVEYED BY SEPARATE INSTRUMENT. Before any building permit is issued for the site, each easement conveyed to the city separate from a final plat shall be conveyed by an instrument or map of dedication subject to city staff approval, and accompanied by a title policy in favor of the city, in conformance with the DS&PM.

33. SCENIC CORRIDOR EASEMENT SETBACKS LOCATION AND DEDICATION. The Scenic Corridor (SCE) setbacks width, along the below identified streets, shall be a minimum of 100 feet, measured from the future right-of-way. Unless otherwise approved by the Development Review Board, the Scenic Corridor setback shall be left in a natural condition. Each Scenic Corridor Easement shall also contain within its boundaries a Non-Motorized Public Access Easement (NMPAE), also dedicated by the owner/developer, for trail purposes. The owner/developer shall dedicate, on the final plat, all SCE and NMPAE easements to the city, as follows:

- a. N. Scottsdale Road, from E. Happy Valley Road north to E. Jomax Road
- b. N. Pima Road, from E. Jomax Road north to E. Stagecoach Pass Road
- c. E. Dynamite Boulevard, from N Hayden Road east to N. 93rd Street
- d. E. Legend Trail Parkway, from N. Pima Road to E Stagecoach Pass Road
- e. E. Happy Valley Road, from N. Scottsdale Road to the N. Hayden Road alignment

34. DESERT SCENIC ROADWAY SETBACKS LOCATION AND DEDICATION. The Desert Scenic Roadway setback width along the below identified streets, shall be a minimum of fifty (50)

feet, measured from the future right-of-way. Unless otherwise approved by the Development Review Board, the Desert Scenic Roadway setback shall be left in a natural condition. The final plat shall show all Desert Scenic Roadway setback easements to the city. The Desert Scenic Roadways setback shall be dedicated by the owner/developer according to the guidelines dictated in case 4-GP-2002, at the time of the final plat, for the length of all parcels with frontage on the following streets:

- a. N. Hayden Road, from E. Happy Valley Road north to E. Dynamite Boulevard
- b. E. Jomax Road, from N. Scottsdale Road east to N. 90th Street
- c. Any half-mile and quarter-mile streets (unless the quarter-mile street is only a Local Collector and not a through street) created as a result of development

35. **BUFFERED SETBACK LOCATION AND DEDICATION.** The Buffered Setback width along the below identified streets, shall be a minimum of fifty (50) feet, measured from the future right-of-way. Unless otherwise approved by the Development Review Board, the Buffered Setback shall be left in a natural condition. The owner/developer shall dedicate, on the final plat, all Buffered Setback easements to the city for the length of all parcels with frontage on the following streets:

- a. E. Lone Mountain Road
- b. E. Happy Valley Road, from N. Scottsdale Road east to N. Hayden Road

36. **VISTA CORRIDOR EASEMENTS.** Each Vista Corridor, a watercourse with a peak flow rate of 750 cfs or greater based on the 100 year – 2 hour rain event, shall be dedicated to the city on the final plat as a continuous Vista Corridor easement, by the owner/developer. The minimum width of the easement shall be one-hundred feet. Each easement shall include, at a minimum, any existing low flow channels, all major vegetation, and the area between the tops of the banks of the watercourse. At the time of the Development Review Board submittal, the owner shall stake the boundaries of the Vista Corridor easement as determined by city staff. Unless approved by the Development Review Board, all Vista Corridors shall be left in a natural state.

37. **MULTI-USE PATH.** Before any building permit is issued for the site, the owner/developer shall dedicate, to the city, a minimum 30-foot wide non-motorized public access easement, and construct a minimum 10-foot-wide multi-use path along:

- a. E. Happy Valley Road, from N. Scottsdale Road to Hayden Road;
- b. N. Scottsdale Road, from E. Happy Valley Road to E. Jomax Road;
- c. N. Pima Road, from E. Jomax Road to E. Dynamite Boulevard;
- d. N. Pima Road, from E. Dynamite Boulevard to E. Morning Vista Drive;
- e. N. Pima Road, from E. Las Peidras Drive to E. Stagecoach Pass Road; and
- f. E. Stagecoach Pass Road, from N. Pima Road to N. 99th Street.
- g. N. Hayden Road, from E. Happy Valley Road north to E. Dynamite Boulevard

These above mentioned paths shall be constructed before any certificate of occupancy is within the respective Master Planning Area. The paths shall be designed to be in

conformance with the Transportation Master Plan and the Design Standards and Policies Manual.

38. MULTI-USE TRAIL. Before any building permit is issued for the site, the owner/developer shall dedicate to the city, a minimum 30-foot-wide non-motorized public access easement and construct a minimum 8-foot-wide multi-use path along:

- a. E. Legend Trail Parkway, from N. Pima Road to the Desert Ranch Subdivision, and
- b. E. Legend Trail Parkway, from E. Whitewing Drive to E. Stagecoach Pass Road

These above mentioned paths shall be constructed before any certificate of occupancy is issued for the site. The paths shall be designed in conformance with the Design Standards and Policies Manual.

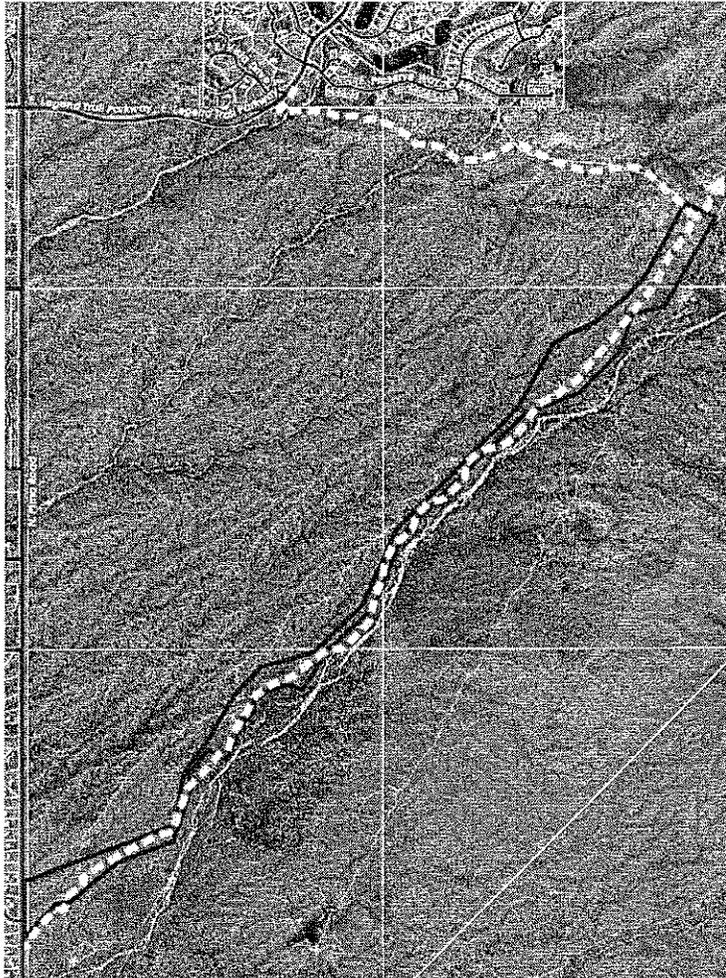

39. MULTI-USE TRAIL. Before any certificate of occupancy is issued for the site, the owner shall construct a minimum 8-foot-wide multi-use trail along:

- a. N. Hayden Road, from E. Jomax Road to E. Dynamite Boulevard;
- b. E. Pinnacle Vista Road, from N. Hayden Road east to the wash corridor;
- c. E. Pinnacle Vista Road, from N. Pima Road to N. 90th Street;
- d. E. Redbird Road, from N. Pima Road to N. 90th Street; and
- e. N. 90th Street, from E. Pinnacle Vista Drive to the wash corridor.
- f. N. Hayden Road, from E. Happy Valley Road north to E. Dynamite Boulevard

These above mentioned trails shall be constructed before any certificate of occupancy is issued for the site. The trail shall be contained within a minimum **30-foot-wide** non-motorized public access easement (unless located within dedicated Scenic Corridor Easement – 100 feet required), dedicated to the city, before any building permit is issued for the site. The alignment of the trail shall be subject to approval by the city's Zoning Administrator or designee prior to dedication. The trail shall be designed in conformance with the Design Standards and Policies Manual.

40. MULTI-USE TRAIL IN RAWHIDE WASH. This proposed trail will be required if Parcel CC-1A is acquired by the City of Scottsdale as part of the McDowell Sonoran Preserve (see map

below). This trail shall ultimately connect with planned trails in Master Planning Areas 3, 4 and 5 as addressed in stipulation #40. If parcel CC-1A is not acquired by the city of Scottsdale, this trail shall not be developed.

41. TRAIL LOCATION AND DEDICATION. As per Exhibit "M" and the Transportation Master PLAN, all future trails and future trail connections as required by the Transportation Master Plan as well as Local Area Infrastructure Plans (LAIPS) that do not align with current or future City of Scottsdale owned lands shall be dedicated and constructed by the future developer to Design Standard & Policies Manual specifications. Dedication of such trails shall occur with the first subdivision in the Planning Unit that aligns with the trails. The trails within/adjacent to a Master Planning Area Parcel shall be completed by final certificate of occupancy for first subdivision in that same Master Planning Parcel. The two trails connecting from the McDowell Sonoran Preserve to Legend Trail Parkway, one immediately north and one immediately south of the Legend Trails community, shall be planned and developed by the city of Scottsdale Preserve staff with cooperation from ASLD
42. LOTS CONVEYED BY DEED. Before any certificate of occupancy is issued for the site, the owner/developer shall convey to the city any property/property right, as required with each future development Master Planning Area. The property/property right shall be conveyed through a general warranty deed (accompanied by a title policy in favor of the city), to be in conformance with the Design Standards and Policies Manual (DS&PM).

43. CONSTRUCTION COMPLETED. Before any BUILDING PERMIT is issued for the site, the owner/developer shall complete all the infrastructure and improvements required by the Scottsdale Revised Code, and these stipulations, to be in conformance with the Design Standards and Policies Manual and other applicable standards for that Master Planning Area.

MASTER PLANS

44. MASTER INFRASTRUCTURE PLANS. The owner/developer shall create each Master Infrastructure Plan, as specified below, prepared by a registered engineer licensed to practice in Arizona. Each Master Plan shall be subject to city staff approval before any further Development Review Board submittal. Each Master Plan shall include a complete description of project phasing, identifying the timing and parties responsible for construction.
- a. Circulation Master Plan
 - b. Drainage Master Plan
 - c. Water Master Plan
 - d. Wastewater Master Plan
45. MASTER DRAINAGE REPORT. With the Development Review Board application submittal, the owner/developer shall submit a master drainage report and plan subject to city staff approval. First developer of any single or combination of parcels that are proposed to be developed in any one of master planning areas shall be responsible for preparation of associated planning area master drainage report and plan. The master drainage report and plan shall conform to the Design Standards and Policies Manual - Drainage Report Preparation. In addition, the master drainage report and plan shall:
- a. Include a complete description of requirements relating to project phasing.
 - b. Identify the sequence of and parties responsible for construction of all storm water management facilities.
45. MASTER DRAINAGE REPORT COPIES. Before the master drainage report is approval by the Drainage Planning Department, the owner/developer shall, when requested by city staff, submit two (2) hard copies and one (1) disc copy of the complete master drainage report.
46. MASTER CIRCULATION PLAN. A Master Planning Area Circulation Plan shall be prepared in accordance with the City's design procedures and criteria, by a registered professional engineer who is licensed in the State of Arizona. All Master Planning Areas' Circulation Master Plans shall adhere to the Transportation Master Plan, the Transportation Master Plan Local Area Infrastructure Plans, and the DS&PM. All dedications and improvements shown on future Master Plans shall also be in conformance with **Tables "B" and "C,"** as shown above in this document. The Master Planning Area Circulation Plan shall include the following components:
- a. Primary public and private streets including street classification, required right-of-way, and level of improvements.
 - b. Street cross sections if they are not consistent with the City standard cross sections.

- c. Intersection lane configuration for any major street intersections with the Planning Area.
 - d. Proposed traffic control for any major intersections within the Planning Area.
 - e. Traffic signal or roundabout warrant analysis for any intersection where enhanced traffic control is requested or at intersections directed by City Transportation staff.
 - f. Locations of planned paths, trails, and other pedestrian and bicycle facilities.
 - g. Conceptual phasing of street infrastructure.
 - h. Off-site roadway improvements necessary to provide access to the street system contained in the Planning Area.
47. MASTER WATER AND WASTEWATER REPORT. The owner/developer shall provide a Master Water and Wastewater Report, and associated plans, for the entire designated Master Planning Area, with the submittal of any of that Master Planning Area's respective Parcel, as per the City's Design Standards and Policies Manual (DS&PM) requirements (Section 6-1.200 and 7-1.200). The owner/developer, through the Master Water and Wastewater Reports shall:
- a. Obtain approval from Water Resources Department of a final water/wastewater basis of design report for the area to be developed per the requirements of the Design Standards and Policies Manual (DS&PM) and demonstrate compliance with the accepted master plan for that designated phase.
 - b. Conform water and sewer infrastructure to the current Scottsdale Water Reuse, and Water, Master plan updates.
 - c. Identify and preliminarily size water and sewer infrastructure necessary to support the designated phase.
 - d. Construction of water lines, 16 inches and larger, and sewer lines, 12 inches and larger, may be eligible for oversizing or credit reimbursement per the provisions of Scottsdale Revised Code Sec. 49. Credit eligible lines must be identified in the City's current Infrastructure Improvement Plan.
 - e. Provide detailed hydraulic analysis of the water and sewer lines providing service to that phase.
 - f. Identify that all infrastructure shall be located under streets or within vehicular accessible easements in dedicated tracts and shall not be located within drainage ways as per DS&PM Sec. 6-1.419.
 - g. Be responsible for the costs for design and construction of local water distribution and sewer collection lines shall be the sole responsibility of the developer per the DS&PM and City Code.
48. MASTER DESIGN CONCEPT PLAN. Before any other submittal to the Development Review Board, the owner shall submit its Master Design Concept Plan (for each Master Planning Area) for Development Review Board review. The Master Design Concept Plan shall address the following:

- a. Open space design concepts for open space areas, including location, plant and landscape character, open space corridors, trails, path and bikeways, and integration of drainage plans.
- b. Native plant relocation program and revegetation guidelines for each parcel.
- c. Overall streetscape concepts which incorporate streetside and median landscape design concepts, plant and landscape materials, perimeter, head and screen wall designs and locations.
- d. Typical outdoor lighting plan for streetlights and design concepts and general specifications for parking lots, paths, trails, and landscaping.
- e. General design and architectural themes assuring overall design compatibility of all buildings and structures on the site (for non-single-family residential submittals).
- f. General signage/graphic concepts for development signs, including locations and typical design concepts.
- g. Construction phasing plan.
- h. Multi-use trail design and use, including trail design standards and alignment, design and location of trail amenities, management and controls on trail use and implementation of plan recommendations through city ordinances and policies.
- i. Other applicable elements, as determined by city staff.
- j. Municipal Uses (public school) location plan.
- k. Public Parks Location Plan

TABLE "C" – Required Improvements for Master Planning Area Parcels

Parcel Identifier and "Master Planning Area" (19-ZN-2014)	Proposed Zoning Master Planning Parcel Area in acres	Proposed Number of Units	Proposed Zoning District to Meet Approved Densities (19-ZN-2014)	Improvements Required To Be Completed Before the Issuance of a Building Permit For This Master Planning Area Parcel
A - 1	478	252	R1-70/ESL (*1)	<p>Improvements found in Stipulations: 22 (Table "B" Items A, J, K, and L - from E. Legend Trails Boulevard to E. Stagecoach Pass Road and along entire E. Stagecoach Pass Road frontage), 23, 24, 25.a, 26.a, 27.e., 27.f., 27.g., 28., 29.a., 29.b., 30.f., 31 (from E. Legend Trails Boulevard to E. Stagecoach Pass Road), 32, 33.b (E. Legend Trails Boulevard to E. Stagecoach Pass Road), 33.d. (along entire E. Stagecoach Pass Road frontage), 37.e. (from E. Legend Trails Boulevard to E. Stagecoach Pass Road), and 38.a., 38.b., 39.b. (along entire E. Stagecoach Pass Road frontage), and 41</p>
B - 1	53	45	R1-43/ESL (*1)	<p>Improvements found in Stipulations: 22 (Table "B" Items A, J, K, and L), 23, 24, 25.a, 26.a, 27.e., 27.f., 27.g., 28., 29.a., 29.b., 30.f., 31 (from E. Legend Trails Boulevard to E. Stagecoach Pass Road), 32, 33.b (E. Legend Trails Boulevard to E. Stagecoach Pass Road), 33.d. (along entire E. Stagecoach Pass Road frontage), 37.e. (from E. Legend Trails Boulevard to E. Stagecoach Pass Road), and 38.a., 38.b., 39.b. (along entire E. Stagecoach Pass Road frontage), and 41.</p>
C - 1	217	440	R1-18/ESL (*1)	<p>Improvements found in Stipulations: 22 (Table "B" Items A, J, K, and L), 23, 24, 25.a, 26.a, 27.e., 27.f., 27.g., 28., 29.a., 29.b., 30.f., 31 (from E. Legend Trails Boulevard to E. Stagecoach Pass Road), 32, 33.b (E. Legend Trails Boulevard to E. Stagecoach Pass Road), 33.d. (along entire E. Stagecoach Pass Road frontage), 37.e. (from E. Legend Trails Boulevard to E. Stagecoach Pass Road), and 38.a., 38.b., 39.b. (along entire E. Stagecoach Pass Road frontage), and 41.</p>

D - 2	43	37	R1-43/ESL	Improvements found in Stipulations: 20, 22 (Table "B" Items A, F, K, and L), 25.b., 26.a., 27.c. (along entire N. Pima Road Frontage), 27.f., 27.g., 30.f., 31., 32.a., 32.b., 33.b. (along entire N. Pima Road Frontage), 34.c., 36., 37.e. (along entire N. Pima Road Frontage), and 38.a. (along entire E. Legend Trails Parkway Frontage), and 41.

Totals	16,473 acres		7855* units		6261* units

* Dwelling Units of Current and Proposed General Plan are estimates of the number of dwelling units that may be accommodated within each parcel given the land use designation. Acres contained in each parcel are also estimates.

Exact zoning and dwelling unit count would be determined through any future rezoning and is beyond the scope of this General Plan amendment. The total numbers of proposed dwelling units should be considered a maximum.

Arizona State Land Department

North Scottsdale Rezoning Citizen and Neighborhood Involvement Report

February 2016

Overview

The Arizona State Land Department (“ASLD” or the “Department”) is committed to citizen notification and neighborhood involvement, and recognize the importance of public participation. This report has been prepared to document community outreach which was conducted in conjunction with the North Scottsdale Rezoning and Development Plan.

Contacts and Direct Mailings

The public outreach process began on November 25 2015. Using the City’s Land Information System, a mailing list of all property owners within 1000 feet of the project boundary was generated and provided by the City to ASLD (Attachment 1). A total of 1061 owners appeared on the list, and letters (Attachment 2) containing a case summary, an area map, contact information, website information and details about three Open House meetings was distributed to each property owner.

An email distribution list was provided by the City (Attachment 3), and a number of mass emails were distributed with updates on upcoming project events. The list was updated as the process progressed, and additional Open Houses and contact with the public yielded more interested parties willing to provide an email address.

Notification Signs

On December 1, 2015 in accordance with City regulation, a total of 12 white “Project Under Consideration Signs” were posted at major intersections listed below:

- Jomax Ave & N. Scottsdale Rd.
- E. Happy Valley & N. Scottsdale Rd.
- N. Hayden Rd & E Happy Valley Rd.
- E. Dynamite Blvd. & N. Hayden Rd.
- N. Hayden Rd. & E. Jomax Rd.

- Lone Mountain Rd. & N. Pima Rd.

- E Westland Dr. & N. Pima Rd.
- N. Legend Trails Pkwy. & E. Stagecoach Pass Rd.

Photographs and an Affidavit of posting by the ASLD contractor are provided as in the Attachments section of this report. (Attachment 4)

Website

Online links to the Rezoning Case were hosted in a number of locations to aid in dissemination of information to the public. ASLD dedicated a page of it's website to the Rezoning: www.azland.gov/ScottsdaleRezoning. The webpage is accessible from the ASLD homepage under the "news tab" as the second option labeled "North Scottsdale State Trust Land Rezoning". The webpage contains a number of relevant documents including:

- Rezoning Case Narrative submitted to the City on December 3, 2014
- graphic exhibits, the City Case File
- Commissioner's Order No. 078-2001/2002
- 4-GP-2002 Map
- Proposed Zoning Chart
- Rezoning Fact Sheet
- January 27, 2015 Presentation
- Legend Trail Detail Exhibit
- May 20, 2015 Presentation
- Contact information

In addition, the City dedicated a link to case 999-PA-2014 under the Projects (Active and Proposed) webpage, as well as hosting a searchable webpage for 19-ZN-2014 at <https://eservices.scottsdaleaz.gov/eservices/cases/>.

Community Open Houses and Meetings

Each Community Open House was announced through direct letter mailings, on the 12 posted Notification Signs, and via email notification.

- Monday December 8th, 4-7pm, Legend Trail Community Center, 34575 Legend Trail Parkway
- Tuesday December 9th, 5:30-7:30pm, Anasazi School Cafeteria, 12121 N. 124th Street
- Wednesday December 17th, 4-7pm, Florence Ely Nelson Desert Park, 8950 E. Pinnacle Peak Road

All attendees were asked to sign in (Attachment 5) upon entrance and provide an email address for project updates. In addition to discussion of maps, charts and other graphic material, Open House Comment cards were provided (Attachment 6).

In addition, the following public meetings with question and answer sessions were held:

- January 27, 2015, 4-7pm, Legend Trail Community Center, 34575 N. Legend Trail Parkway - Legend Trail Homeowners Association

Two additional meetings were held in the Spring of 2015

- Greater Pinnacle Peak Homeowners Association Board of Directors, April 16, 2015
- Greater Pinnacle Peak Homeowners Association, May 20, 2015

Two general themes emerged from the feedback: general comments and concerns and concerns about land uses in specific locations adjacent to existing development, designated scenic corridors, or designated General Plan Character Areas or zoning ordinance overlay areas.

General comments and concerns received relate to suggestions that the City purchase the Rezoning Property for inclusion in the McDowell Sonoran Preserve, density and infrastructure, and conservation and sensitive design.

Dear Property Owner,

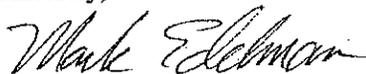

This letter is to inform you of an initiation of a rezoning case on approximately 4,020 acres by the Arizona State Land Department ("ASLD"). The purpose of this rezoning case is to bring zoning entitlements on the subject land into conformance with the City's General Plan pursuant to General Plan Amendment Case Number 4-GP-2002, which will fulfill a commitment between ASLD and the City of Scottsdale to accommodate development on State Trust lands that were not reclassified as Suitable for Conservation. The Land Use Element of the General Plan designates areas to serve as Rural Neighborhoods, Suburban Neighborhoods, Resorts/Tourism, Commercial and Natural Open Space.

<u>Site Location:</u>	Between Scottsdale Rd. and 104th St., and Stagecoach Pass Rd. and Happy Valley Rd.
<u>Case Name:</u>	North Scottsdale State Trust Land Rezoning
<u>Case Number:</u>	999-PA-2014
<u>Applicant Contact:</u>	Mark Edelman, 602-542-6331
<u>City Contact:</u>	Jesus Murillo, 480-312-7849

To view the case info sheet, enter the case number at: <https://eservices.scottsdaleaz.gov/eServices/Cases>
The case file may also be viewed at Current Planning: 7447 E. Indian School Road, Suite 105, Scottsdale AZ 85251

Please feel free to attend one of the upcoming open house events for further information:
Monday December 8th, 4-7pm Legend Trail Community Center, 34575 N. Legend Trail Parkway
Tuesday December 9th, 5:30-7:30pm Anasazi School Cafeteria, 12121 N. 124th Street
Wednesday December 17th, 4-7pm Florence Ely Nelson Desert Park, 8950 E. Pinnacle Peak Road

Sincerely,

Mark Edelman, AICP

Subject: Rezoning Open House follow-up
Attachments: Preserve Rezoning FactSheet 1214.pdf; Preserve Note - from Howard Myers and Jim
Heitel.pdf

You are receiving this e-mail based on your signing in and providing an e-mail address while in attendance at one of the Open Houses held last week for the two zoning cases that are being proposed in North Scottsdale. As a reminder, there are two separate cases being proposed:

20-ZN-2014 - proposes to rezone land that has been acquired by the City of Scottsdale for the Preserve, as Conservation Open Space (COS). Currently, this land is zoned for residential use and the rezoning to COS will help insure that the land remains in its natural state for perpetuity.

19-ZN-2014 - proposes to rezone State Trust Land to match the city's General Plan land uses, which were proposed and approved in 2002. (These State Trust lands are located within the Preserve study boundary but which the city does not own)

There will be another Open House this Wednesday, December 17th from 4-7pm at Florence Ely Nelson Desert Park, 8950 E. Pinnacle Peak Road.

We understand a lot of questions were raised at the open house and we wanted to provide you a very brief summary of the key issues from the history leading up to this point and the two cases being proposed. Additionally, we have attached the fact sheet we handed out at the Open Houses and we have also included a summary provided by two citizens, former McDowell Sonoran Preserve Commission Chairmen Howard Myers and current McDowell Sonoran Preserve Commission Chairmen Jim Heitel, which outlines their perspective of the history and current proposals.

The following is a brief summary provided by city of Scottsdale and Az. State Land Department staff:

- ***State Trust lands***
 - *Granted to Arizona by the United States, per provisions for Arizona's statehood in 1912.*
 - *Not public land, held in trust/managed for the sole purpose of generating revenues for the 13 beneficiaries, the largest of which is Arizona's K-12 public schools.*
- ***Scottsdale's desire for conservation***
 - *1990s, citizen desire in Scottsdale led to a plan to conserve natural open space (Preserve).*
 - *citizens passed two sales taxes to buy land for conservation.*

- **The API is created to manage competing interests**
 - Trust lands purpose for maximum return conflicted with citizens' desire to conserve land.
 - 1996, the Arizona Preserve Initiative (API) was enacted into law, allows a process for State Trust land in urban areas to be reclassified "suitable for conservation"
 - Per API, "The land value cannot be reduced because of the conservation purpose."
- 1998 - Scottsdale requests 16,600 acres of trust land be reclassified as "suitable for conservation"
 - 2001 - State Land Commissioner issues an order (Order 078-2001/2002), reclassifying approximately 13,000 acres of the requested 16,600 acres as "suitable for conservation"
 - As part of that order, the State Land Commissioner set expectations for the city to work with the ASLD to accommodate an increase in value for the approximately 4,000 acres of adjacent land not reclassified. The commissioner's intent was to maintain the overall value of State Trust land.
- 2002 - City Council approves General Plan case 4-GP-2002, established land uses on all 16,600 acres of State Trust land, per State Land Commissioners Order/expectations.
- 2009-2012- Scottsdale requests /ASLD Oks land auctions for approximately 12,800 acres.
 - Scottsdale acquires all 12,800 acres of those Trust lands for the Preserve.
 - With the API process, Scottsdale received nearly \$75M in matching Grant dollars from Az. State Parks for use in the purchase of the 12,800 acres of Trust lands.
- 2013-14 - Scottsdale seeks an additional 400 acres for acquisition.
 - Per the expectations of State land Commissioners reclassification order, ASLD expects the rezoning approval prior to the auctions for the 400 acres of land that Scottsdale is seeking.
- 1. 19-ZN-2014 - ASLD is requesting rezoning on about 4,000 acres of State Trust land.
 - a. Rezoning conforms to land designations approved by the city council (4-GP-2002).
 - i. The approved General Plan case identified 6,271 residential units, 75 acres of resort and 40 acres of commercial use.
 - ii. The proposed rezoning case requests 5,000 residential units, 75 acres of resort and 40 acres of commercial use (a reduction of 1,271 units).
- 2. With city approval of rezoning
 - a. ASLD will auction two parcels of State Trust land totaling approximately 400 acres.
 - b. Scottsdale intends to bid on them for the Scottsdale McDowell Sonoran Preserve.
- 3. 20-ZN-2014 – Scottsdale is requesting rezoning of 22,300 acres of existing Preserve land from various residential districts to the "conservation open space" district, which will provide another layer of protection for keeping these Preserve lands in their natural state for perpetuity.

There will not be any events related to these cases during the upcoming holidays.

Dates for future Planning Commission and City Council Meetings will be set in 2015 and we will advise you of those dates and locations once they are set.

If you are interested, we will be glad to respond to questions and/or attend HOA or other community meetings to present information regarding the proposals in mid-late January.

If you do not want to be on this listing, please reply to the e-mail and note that you would like to be removed. You are also welcome to forward this information to other interested parties.

We appreciate your interest and your attendance at the open houses and will use this email list to advise you of future communications regarding these cases, Thank You

Our Future in Progress

State Trust Land and Preserve Rezoning

Proposed Preserve Acquisitions of State Trust Land

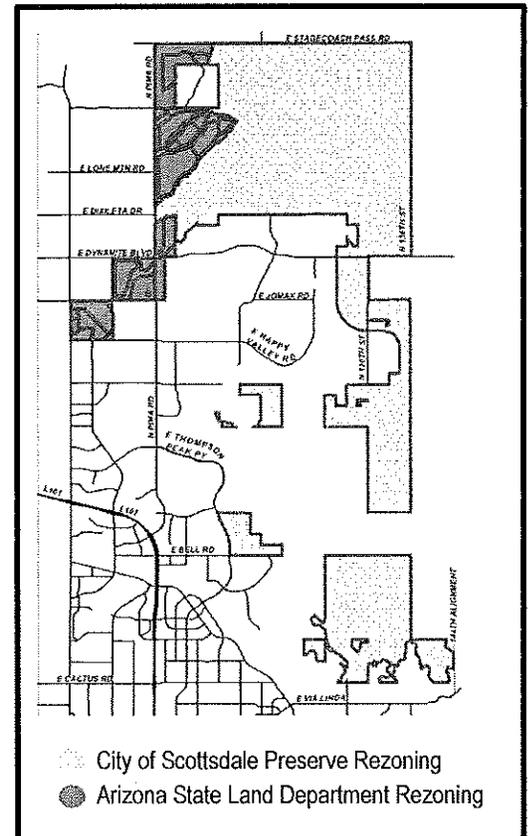

What land is being considered for rezoning?

There are currently two rezoning requests being considered, one for city-owned land in Scottsdale's McDowell Sonoran Preserve, and another for adjacent State Trust land not part of the Preserve.

Why does the zoning designation need to change?

The parcels City of Scottsdale is proposing to rezone are already part of Scottsdale's McDowell Sonoran Preserve. Some of the land within the Preserve currently has a residential zoning designation. The City is proposing to change to the zoning designation to Conservation Open Space which will provide another layer of protection for keeping these preserve lands in their natural state for perpetuity.

The state land department is pursuing rezoning for a number of parcels it currently owns adjacent to the preserve from a variety of single family districts to a variety of single family districts, 75 acres of resort and 40 acres of commercial, which is consistent with Scottsdale's approved General Plan. Rezoning State Trust land adjacent to the Preserve will aid in the City's acquisition of another 400 acres for the Preserve, and fulfill longstanding expectations between the City of Scottsdale and Arizona State Land Department regarding the future of State Trust lands in the vicinity of the Preserve.

Why is the change being considered now?

Scottsdale now seeks an additional 400 acres of state land for the Preserve. Per the expectations set forth in a reclassification order by State Land Commissioners which took place in 2001, ASLD is requiring the rezoning case to be approved prior to the auctions for the 400 acres of state trust land that Scottsdale is seeking.

Why does Scottsdale preserve land?

During the growth boom of the 1990s came strong citizen desire to conserve natural open space and protect it from development. Scottsdale is a leading city in that regard, with citizens creating the McDowell Sonoran Land Trust (now the McDowell Sonoran Conservancy) and advocating voter approval of dedicated sales taxes for the city to buy land for conservation. This has resulted in the protection of 30,000-acres for Scottsdale's McDowell Sonoran Preserve.

Has Scottsdale acquired land from the Arizona State Land Department in the past?

From 2009-2012, Scottsdale requested and ASLD authorized land sale auctions for approximately 12,800 acres of trust lands. Scottsdale successfully acquired all 12,800 acres of those trust lands for inclusion in Scottsdale's McDowell Sonoran Preserve.

FACT SHEET

Our Future in Progress

State Trust Land and Preserve Rezoning *Proposed Preserve Acquisitions of State Trust Land*

What is “State Trust Land”?

State Trust lands were granted to Arizona by the federal government under the provisions for Arizona’s statehood in 1912. The Arizona State Land Department (ASLD) manages approximately 9.2 million acres of State Trust lands within Arizona. State Trust land is not public land, but land that is held in trust and managed for the sole purpose of generating revenues for the 13 State Trust land beneficiaries, the largest of which is Arizona’s K-12 public schools.

What is the Arizona Preserve Initiative and why was it created?

At times in Scottsdale and elsewhere in Arizona, ASLD’s fiduciary responsibility to manage land for maximum return conflicted with citizens’ desire to conserve land and protect it from development. In 1996, the Arizona Preserve Initiative (API) was enacted into law. API lays out a process by which State Trust land in urban areas can be reclassified “suitable for conservation” and subsequently leased or sold at public auction for that purpose. As part of reclassification, the API must maintain the overall value of State Trust land, “The land value cannot be reduced because of the conservation purpose.”

How has the API affected land preservation in Scottsdale?

In 1998, the City requested that 16,600 acres of State Trust land be reclassified as “suitable for conservation” per the API. In response, the State Land Commissioner reclassified approximately 13,000 acres of the 16,600 acres requested (Order 078-2001/2002), designating it “suitable for conservation”. Additionally, to maintain the overall value of State Trust land, the State Land Commissioner set expectations for the City to work with the ASLD to accommodate an increase in value for approximately 4,000 acres of adjacent State Trust land through a general plan amendment and subsequent rezoning which would be accomplished by the rezoning requests currently under consideration.

What Will Happen Next?

The City Council will consider the request to rezone 22,300 acres of existing preserve land from residential to “conservation open space,” which will provide another layer of protection for keeping these preserve lands in their natural state for perpetuity.

To fulfill the expectations established between the City and the State Land Department per the 2001 State Land Commissioner’s order, the ASLD is requesting rezoning on about 4,000 acres of State Trust land to maximize its value for eventual sale at auction. This rezoning would conform to land designations approved by the City Council in a joint City/ASLD general plan amendment (4-GP-2002). With City Council approval of this request, the ASLD will place two parcels (totaling about 404 acres) up for auction – it is the City’s intent to bid on these and, if successful, make them part of the Scottsdale McDowell Sonoran Preserve.

There has been a lot of confusion about the announcement that land, within the Preserve boundary, is going to be rezoned. There are two separate cases:

1. 20-ZN-2014 which will rezone all the land that has been acquired to date, that is in the Preserve, as Conservation Open Space. This is a good thing as it will limit ANY future use of this land to conservation. Currently, most of it is zoned for residential.
2. 19-ZN-2014 which will rezone the remaining State Trust Land, that is within the Preserve boundary but which the city HAS NOT acquired, to match the uses in the 2002 General Plan, which is the General Plan that is in use now.

This 2nd case is really confusing, and the information that has been put out so far doesn't seem to help much, so current McDowell Sonoran Preserve Commission (MSPC) chairman, Jim Heitel, and I have put together a summary of what this is all about and what the implications are, to help everyone better understand why this is being done and what it means to the future completion of the Preserve. Jim has spend 5 years on the MSPC and I have spent 9 years on it, plus both of us were involved in the 2002 General Plan update that forms the basis for this rezoning.

As noted in this summary, I will follow up by sending you all the two exhibits that are important and provide the details. So if you don't get them, be sure to let me know and we will figure out how to get them to you. Also if you have any questions after reading this, please feel free to send them to me and I will do my best to answer them. There is also a lot of information on the city's web site, just look up the two cases above to see it.

Howard

State Land Rezoning

For those of you who are concerned about the rezoning of state trust land that is in the Preserve Recommended Study Boundary (RSB) or who have attended one of the open houses on this rezoning and still don't understand what is going on, we will try to tell you what it is all about.

The bottom line is that this rezoning is something agreed to by the city back in 2002 when the State Land Commissioner and city worked together to help the city acquire as much of the state Trust land in the RSB as possible, while still satisfying the State Land Department mandate of selling the land for the highest and best use, which basically means to the highest bidder. So this rezoning is just the city fulfilling that agreement, which has allowed the city to acquire all the land they have for the Preserve that was State Trust Land (about 13,000 acres).

Background

Prior to 2002, due to the state approved "Growing Smarter" Arizona Preserve Initiative, the City of Scottsdale asked the State Land Commissioner to reclassify land within the RSB as "Suitable for Conservation". As a result, he did reclassify about 13,000 of the roughly 17,000 acres of State Trust land in the RSB as suitable for conservation, but did not reclassify about 4,000 acres. The reclassification basically said that the land reclassified could be sold for conservation and

not development, which also lowered the assessed value of that land and allowed matching funds from the state's Arizona Preserve Initiative (API) to be used to acquire the land. As a result of this reclassification, the city has bought all of the land reclassified Suitable for Conservation using nearly \$80M in state matching funds to help pay for that land; so the city now owns all of the Reclassified land, which when combined with the land already acquired, pushes the Preserve to over 30,000 acres, all bought with money already received and that will be received from the two sales tax increases the public voted on. This is a remarkable achievement by any measure.

The land in question with this rezoning is the 4,000 acres of State Trust Land that was in the RSB, but which was not reclassified as Suitable for Conservation and which has not been bought by the city as yet. Part of the agreement, reached between the city and the State Land Department in 2002, was:

1. That the city would move housing density off the Reclassified land onto the land not reclassified.
2. That the city would change the General Plan to reflect that (which was already done in 2002).
3. That the city would rezone that land to match the modified General Plan to complete the density transfer. All this was agreed to in exchange for reclassifying the 16,600 acres, of which 13,000 acres are now part of the northern part of the Preserve, as suitable for conservation, thereby lowering the cost to the city to acquire it and virtually eliminating competitors (home builders).

Current Preserve Status

The city currently owns over 30,000 acres of land that is permanently protected and in the Preserve. This is about 80% of all the land that was in the Recommended Study Boundary (RSB) which was the boundary of all the land Scottsdale wanted to include in the Preserve. This includes ALL of the land the State Land Department reclassified as "suitable for conservation". The city has used up most of the money the sales tax increases for the Preserve generated to buy all this land and put in trailheads and trails, so there isn't enough left to buy much of the remaining 4,000 acres. There also is virtually no money left in the API fund, so Scottsdale has also tapped about as much of that fund as it can to help acquire all this land. Additionally the city has already bought ALL of the land reclassified and those API funds were ONLY to be used to acquire reclassified land.

The remaining 4,000 acres will cost a lot because of its location and the "transferred density."

The city council got an action plan, from the McDowell Sonoran Preserve Commission, a number of years ago that defined a plan to get money to buy the rest of the land, however the council has not acted on this plan. The plan was simple and direct. It required conducting a survey at an appropriate time in order to determine the public's desire to complete the Preserve, and if desired, the mechanism to raise the money. If the public did want to complete the Preserve, the most popular mechanism to acquire the funds would be put before the voters. In

order to complete the Preserve, additional funds will be required so the only way to complete it is to implement this plan and secure public support.

Current Application

The current application is to change the zoning on the remaining state land to match the General Plan that was agreed to and approved by the voters in 2002. Unfortunately, General Plan categories do not exactly match a particular zoning classification so the challenge is to pick the correct zoning classification to match both the General Plan category and any agreed to housing density. The number of units agreed to back in 2002 was over 6,000 dwelling units on all the non-reclassified land and the number of units proposed in this rezoning application is only 5,000 so there would be a reduction from the agreed to number of units. There are two exhibits that are important, all the rest really don't show anything. I will send both of them to you separately, in case your e-mail server filters out messages with attachments. If you don't get both of them within a day, and want to see them, e-mail me back and I will find a way to get them to you. The two exhibits are:

1. The land use table that contains the parcel number (letter), acres, number of units agreed to, the zoning classification proposed for each parcel, and the number of units that will be built on that parcel if this application is approved.
2. The parcel map that shows all the land included in this application, the parcel number (letter), the number of acres, and the General Plan category for that parcel.

Between the two you can see exactly what will be built on each parcel, number of units and density.

Questions

Are there any concerns? Yes there are a couple, in particular the move of some commercial and resort from an area up by Legend Trails to Scottsdale Road, something not in the 2002 General Plan, however the exact locations of both the commercial and resort were specified as being determined in the future, so technically this is consistent with the original state intent. Additionally moving the 40 acre commercial site clearly reduces impacts to the existing preserve and may assist in future desires to purchase some of the unclassified lands where that commercial was located. Also, some of the zoning requested does not match the General Plan category for some parcels exactly, but if we can limit the overall number of units to 5,000 instead of over 6,000; or about 7,400 that the requested zoning would allow, then the city, and everyone who lives in north Scottsdale, will benefit knowing that some future zoning attorney will be restricted by a development agreement between the city and the state.

If this land is in the RSB, why rezone it and why can it be developed? While all this land is in the RSB, the city does not own it and does not have enough money left from the two taxes, to buy it, so when the State Land Department puts the land up for sale, the highest bidder will get it. This is what we all agreed to back in 2002. The RSB basically is a boundary that identifies all the land Scottsdale would like to buy to put into the Preserve, but there is no guarantee that will

happen. Of the original 34,000 acres in the RSB, the city has successfully acquired over 30,000 acres leaving just this remaining 4,000 acres that will also be the most expensive because of its location.

Won't rezoning the land increase its value, making it more difficult for the city to buy? The answer is probably yes, but there is a big advantage in having it planned already. State Trust Land is completely different than private land in that if a developer develops a plan for a State Trust Land parcel, he can then buy it and develop according to that plan, regardless of what restrictions the city has. If we let this happen, the densities could be way above the 5,000 units this application will limit the development to; assuming someone other than the city is the successful bidder. So there is some risk either way, but with this rezoning, it will be hard to deviate from the plan adopted with the rezoning.

Conclusion

This rezoning is to complete an agreement made back in 2002 that benefitted Scottsdale's effort to preserve as much land as possible and resulted in Scottsdale being able to buy about 16,600 acres of State Trust Land at very reasonable prices, including 13,000 acres north of the McDowell Mountains. It also allowed Scottsdale to get significant matching funds from the state Arizona Preserve Initiative land acquisition fund to help pay for all that land. Without this agreement, Scottsdale would not have been able to buy all the land for the Preserve it has acquired from the state so it is important to honor the agreement that made this possible.

Approving this rezoning now will limit the number of units that can be built on the remaining 4,000 acres to 5,000 units. This is really a big benefit to everyone living in North Scottsdale because if developers bought this land, without a development plan in place, they could put any number of units on it, dramatically increasing the population and congestion in this area. While the rezoning may raise the cost of the land somewhat, it also provides some assurance of what will be built assuming the city does not have the funds to buy the land when it goes up for auction.

Howard Myers – Former McDowell Sonoran Preserve Commissioner (in 2002) and Chair (to 2012)

Jim Heitel – Current McDowell Sonoran Preserve Commissioner and Chair and former Planning Commissioner in 2002

State Trust Land Rezoning

Case # 19-ZN-2014

Difficult to imagine even more buildings in N. Scottsdale that would ruin (in my opinion) the beautiful open space.

email address rocwan@cox.net

Open House Comment Card December 2014

State Trust Land Rezoning

Case # 19-ZN-2014

I just want to make sure that lands zoned for one house per acre or larger are not changed to higher densities.

We have seen a lot of disregard for the original plan for our desert rural, sparse areas, north of McDowell Road, road over the last 12 to 15 years, such as subdivisions on Pima Rd. at Las Altas, Paradise Peak Country Club and more recently, Pima south of Janss at Paradise Plaza.

We recently voted "IN" people who understand our concerns for preserving the beauty and special character of these (northern) lands. We hope that Council will not spiral, disregard environment by allowing higher density than currently planned.

Open House Comment Card December 2014

Dolores Shepherd 480-515-2765
ShepherdRetired@aol.com

State Trust Land Rezoning

Case # 19-ZN-2014

I am very concerned that the areas in T8, V8, S7, X8, U8, Q10 and P6 will eventually be allowed to be rezoned to much higher densities than are shown on the hardout map given to us this evening and last updated 11/19/2014. As an example the zoning recommended for LONE MOUNTAIN north + E of Pima ave R1-7 for a significant portion of this land.

The noise on PIMA + JOMAX is very loud as people going South in AM + North in PM. I treat this as a raceway.

Please do not desecrate the precious semi rural area we have lived in for over 17 years.

Case # 20-ZN-2014

* When will it be disclosed who is behind the rezoning for development - who will benefit?

* Why were the Code Numbers mislabeled on the letters sent out to citizens earlier?

* When will road widening begin?

Judson Roberts
J.Roberts12@cox.net

Open House Comment Card December 2014

City of Scottsdale Preserve Rezoning

Case # 20-ZN-2014

I Live in SINCUDADOS, A Community with Almost 30 Years of History, with 30.5 PLOTTED 1+ ACRE LOTS. OUR COMMUNITY HAS WORKED DILIGENTLY TO MAINTAIN NADS AND ESCO MANDATES.

IF THE CITY'S INTENTION IS TO PLAN OUT 1/4-1/3 ACRE LOTS, ANY THOUGHT OF NADS/ESCO ENFORCEMENT WILL BE OUT THE WINDOW.

WITH STANDARDS AS ABOVE MY CONCERN WOULD BE TRAFFIC WHICH IS BAD ENOUGH NOW, NOT MENTIONING DEVELOPMENT

Open House Comment Card December 2014

BERRY M BOGGS
8300 E. DIXON, LOT 270
BMB@AOL.COM

City of Scottsdale Preserve Rezoning

Case # 20-ZN-2014

The areas listed below need to be decreased for rezoning & the lands increased in green belts. They include B₁-C₁, E₂, A₁ & part of F₂.

Taking part of these areas to increase the green belt will enhance Legend Trail inhabitants with the desert we have been promised. We do not need so many new homes when currently there are many 'for sale' & empty homes.

Alan & Nancy Cisar (over)

info34@cox.net (e mail)

FLOODING
WE ARE IN FAVOR OF MOVING THE COMMERCIAL ZONE TO NEW ~~AREA~~
PROPOSED SITE.

Open House Comment Card December 2014

City of Scottsdale Preserve Rezoning

Case # 20-ZN-2014

WE LIVE AT 9041 E. REDBIRD RD. IN SECTION 31
OUR CONCERNS ARE ZONING IN OUR AREA WHICH IS 1 HOUSE
PER 5 ACRES. WE WANT THIS TO APPLY AREA S-7 INSTEAD OF
THE 1 HOUSE PER 3 AC. AS YOU HAVE IT WRITTEN ON YOUR MAPS,
ALSO FLOODING HAS BECOME A MAJOR PROBLEM IN THE SECTION
31 AS THE CITY OF SCOTTSDALE CHANGED THE WATER FLOW
AS THEY ADDED 95TH NORTH OF JOMAX.

Open House Comment Card December 2014

City of Scottsdale Preserve Rezoning

Case # 20-ZN-2014

Requesting that the ASLD & City of Scottsdale not classify areas B-1 & C-1 as neighborhoods but rather Natural Open Space. Reasons:

1. Maintain natural state of these areas - they are a beautiful asset
2. Maintain wildlife corridor, e.g. local mule deer
3. Reduce vehicular traffic on roads that cannot support it, e.g. Stagecoach
4. Protect a valuable bicycling & running corridor along Legend Trail Pkwy

Kurt Niemann

WHAT IS COUNTY PROPOSING???

Open House Comment Card December 2014

City of Scottsdale Preserve Rezoning

Case # 20-ZN-2014

Please preserve or reduce current densities. It is misleading to show an aggregate reduction in units when the area to be developed was reduced ~~all~~ more significantly.
I do not see the urgency to act on all parcels at this time.

Open House Comment Card December 2014

Rob Collins

City of Scottsdale Preserve Rezoning

Case # 20-ZN-2014

We need to preserve or reduce current densities proposed in the 2014 plan. The amount of land available for development has been significantly reduced so the ~~density~~ density has actually gone up from 2002. I oppose the 2014 proposed zoning plan. What is the hurry you can zone anytime. SLOW DOWN!

Open House Comment Card December 2014

Michelle Collins

City of Scottsdale Preserve Rezoning

Case # 20-ZN-2014

Section 31 is (and has always been) 5 acres
per residence - We would urge the City to
maintain this zoning!!!

Just think of the havoc that would
develop when some of the Sec. 31
Residents try to split their lots!!! because
some are zoned R1-130!!!

That's just not fair or ethical!!!

Please respect our zoning!

Open House Comment Card December 2014

Case # 20-ZN-2014

Q6 Area, land east of Pima between
Dynamite and Pima Jomax, should be
zoned consistent with Section 31
zoning, which is 1 home per 5 acres.

Open House Comment Card December 2014

Amy Foley

State Trust Land Rezoning

Case # 19-ZN-2014

Q6 Area - Land east of Pima between Dynamite and ^{Joan} ~~Pima~~, should be zoned consistent with the Section 31 zoning, which is approximately 1 home per 5 acres.

Open House Comment Card December 2014

Amy Foley

State Trust Land Rezoning

Case # 19-ZN-2014

No Commercial. Lots are 2 1/2 - 2 1/4 acres
make them larger - No
Track Homes - It's horse
property - leave it that
way please.

Open House Comment Card December 2014

State Trust Land Rezoning

Case # 19-ZN-2014

For planning purposes, is there any projected
DATE as to when the parcels L-5 and L-4
will be up for auction?

Does Scottsdale have a projected date
for the widening of Pima Road to accommodate
increased traffic?

Respectfully

Richard Lillian HORNE

Open House Comment Card December 2014

State Trust Land Rezoning

Case # 19-ZN-2014

We are in favor of the State Valuation Property and Floating commercial
zones to be moved to the proposed new site.

Open House Comment Card December 2014

State Trust Land Rezoning

Case # 19-ZN-2014

As a resident of Monterra subdivision (Scottsdale Rd and N of
Jomax) designating K-9, M-9, Y9 as commercial is distressing.
If that is the case - since it will get the greatest return
on state land auction - PLEASE BE RESPECTFUL of the people
who live here, have lived there for years and KEEP the
semi rural atmosphere. NOT like the corner of Pinnacle Peak
and Scottsdale road (RAWHIDE SITE) that is so grossly commercial.
Tall buildings right up on the edge of the road is not maintaining
the quality of atmosphere, ambience and rural atmosphere that
people come here for. Growth for the sake of growth is not
Oursden - Please be wise.

Sincerely,
Julie Dunbar

Open House Comment Card December 2014

State Trust Land Rezoning

Case # 19-ZN-2014

Requesting that the ASLD & City of Scottsdale not
classify areas B1, C1 & A1 as neighborhoods
but rather as Natural Open Space. Reasons:

1. Maintain the natural state of these areas -
they are a beautiful asset!
2. Maintain wildlife corridor, e.g. local mule deer
3. Reduce vehicular traffic along roads that cannot

Kurt Niemann

Open House Comment Card December 2014

State Trust Land Rezoning

Case # 19-ZN-2014

I am opposed to the placement of K-9 & M-9. I believe there is already a great deal of available commercial land on Scottsdale.

I do not believe there is a desire from the community to have a Resort/Leisure or town homes on K-9 area.

What will happen to the scenic drive & visitors center where is the impact analysis to the current wildlife?

Open House Comment Card December 2014

State Trust Land Rezoning

Case # 19-ZN-2014

Regard zoning changes in 5-7 on the east side of Pima between Jomax and Pima. All zoning in the area east of this is R-190 5 acre zoning. If you have to develop this area, it should be 5 acre zoning, not 3 acre zoning. There are many washes in this area and water runs downhill from Pinnacle Peak mountain and the unowned mountain to the south toward Pima Road. Some of this area is in a floodplain and no homes should be built there. There also is a serious traffic problem along Pima, which increased houses would only make worse and add to the danger of entering or exiting onto Pima Road. As we all know infrastructure is costly and never covered by developers, adding to the tax burdens of all Scottsdale taxpayers. I am against rezoning in 5-7 under any circumstances.

Open House Comment Card December 2014

Elizabeth J. Magilton Ogden
27802 N. 84th St
Scottsdale, AZ 85262
480 585-4659

State Trust Land Rezoning

Case # 19-ZN-2014

I am pro-development, however the main issue with many is the new commercial zoning on Scottsdale. If the value of resort zoned land is similar to commercial could all 65 acres on Scottsdale Rd be zoned resort?

This might help satisfy proponents of the scenic drive and avoid a strip mall on it. ^{while retaining the value for ASLD}

More room for a resort would allow a more world class resort that would raise the value of the whole area.

Open House Comment Card December 2014

State Trust Land Rezoning

Case # 19-ZN-2014

Regarding Commercial/Resort @ Jomax & Scottsdale Road - It is not needed! No more Commercial! Look how dead the shopping @ Lone Mt. and Scottsdale Road. Keep it up off Pima where there is new residential areas. Do not disturb The Scenic Byway!

Open House Comment Card December 2014

State Trust Land Rezoning

Case # 19-ZN-2014

Residents in the affected area do not want to see density increased. Although it appears that total number of units has not increased, the area to be developed has been reduced. I oppose the rezoning. I also do not understand the urgency to rezone.

Open House Comment Card December 2014

John C.

State Trust Land Rezoning

Case # 19-ZN-2014

You are not asking for less houses your land area has gotten smaller and you are asking for more houses per area so its financially appealing for you

Michelle Collins

I oppose current proposed zoning
V8/U8 needs to be increased with more 2 1/2 acre pieces

Open House Comment Card December 2014

State Trust Land Rezoning

Case # 19-ZN-2014

Please do NOT rezone Section 31!!!
~~Section 31 is zoned~~ Section 31 is zoned
1 house - .5 acres!!! By rezoning
to R1-130 you are putting our zoning
in jeopardy!!! Please respect our zoning!

Case # 19-ZN-2014

We Live At 9041 E. Redbird Rd. in Section 31
Our concerns Are ZONING IN our Area 1 house
per 5 Ac. We WANT THIS TO ~~BE~~ Apply Area S-7 instead
OF The 1 house per 3 AC AS you have it written on
your MAPS, Also Flooding has become A MAJOR problem
As the City of Scottsdale changed The water As they
re designed roads AND Added 95 St. North of JOMAX,

Open House Comment Card December 2014

State Trust Land Rezoning

Case # 19-ZN-2014

The proposed zoning for S-7
is far too dense.
1 home per 5 acres is preferable.
Actually, this land should not
be built on at all as it contains
major washes and floodways.
Disturbing S-7 would certainly
increase the flooding in section 31.

Open House Comment Card December 2014

Suzanne Grant

State Trust Land Rezoning

Case # 19-ZN-2014

S-7 RI-130

I live very close to this property. I live in section 31, very close to 90th St. This land, S-7 should not be built on at all as it contains major floodways (unshown) that drain our neighborhood. My home was safe from flood water until the city cut 95th St at the base of Dinnacle Peak. This disrupted the flow of water and as a result my drive way crashes away. If the flow to the west, S-7, is allowed it will most certainly put my home in jeopardy as flooding. The Law is written that water ways must not be obstructed.

Open House Comment Card December 2014

The City has broken this law on many occasions.

Suzanne Grantson

State Trust Land Rezoning

Case # 19-ZN-2014

I am totally against increasing the current density to any degree, and am therefore against this proposal.

Phil Projanowski

State Trust Land Rezoning

Case # 19-ZN-2014

We are in favor of the rezoning as proposed.

Open House Comment Card December 2014

State Trust Land Rezoning

Case # 19-ZN-2014

I would like to propose a zoning change to provide 100 feet of setback from both sides of E. Legend Trail Parkway and N Legend Trail Parkway.

Open House Comment Card December 2014

State Trust Land Rezoning

Case # 19-ZN-2014

AREA FZ HAS TOO HIGH A DENSITY
CENEBAND TRAIL PARKWAY SHOULD PRESERVE ITS SCENIC RE-
CAPITAL-80

Open House Comment Card December 2014

State Trust Land Rezoning

Case # 19-ZN-2014

land south of stagecoach pass section A on
map we would prefer to stay as open
space or preserve. If homes are allowed
on this land, we would prefer to keep it
to single story homes

Open House Comment Card December 2014

State Trust Land Rezoning

Case # 19-ZN-2014

We want A Trail Connection that
Completes a Loop from the trails Accessed from the "pullout"
on Legend Trail Parkway around Legend Trail's eastern
Boundary connecting to Legend Trail Parkway north of
Legend Trail

Open House Comment Card December 2014

State Trust Land Rezoning

Case # 19-ZN-2014

Bike pathways are important along Legend Trail Pky.
The scenic corridor needs to be widened for 500 feet.
Density in plat F-2 and J-3 is too much for the area.

Open House Comment Card December 2014

State Trust Land Rezoning

Case # 19-ZN-2014

Concerned about R1-7 zoning in this rural area - up to 6 units/acre is too dense. Burdens infrastructure tremendously. Max usage should be 2-3 per acre in the most dense areas.

Times have changed since 2002 and the state's expectation of land use from 12 yrs ago was unrealistic. Of 16,000 acres, all cannot be built upon given washes, mountains etc. Idealistic conception only of the area was farmland - flat and not in flood plains.

Open House Comment Card December 2014

State Trust Land Rezoning

Case # 19-ZN-2014

Land North of Legend Trail should be rezoned preserve or conservation land.

If land is sold for building it should be rezoned rural not suburban - one level homes only

Open House Comment Card December 2014

State Trust Land Rezoning

Case # 19-ZN-2014

All Land north of Legend Trail to Stagecoach Pass
should be conservation land, if it must be residential,
it should be zoned rural not suburban with larger
parcels. As Legend Trail is, all homes must be
1-story homes, and the current views of Legend
Trail residents must be considered. Thank you.

Open House Comment Card December 2014

State Trust Land Rezoning

Case # 19-ZN-2014

All Land Being Applied For Rezoning North of
Legend Trail to Stagecoach Pass S/D
Conservation Zoned. Must Be Residential
with Zoned Rural not Suburban with 1-2
Acre Lots. ONE story ONLY.

Open House Comment Card December 2014

State Trust Land Rezoning

Case # 19-ZN-2014

WOULD LIKE A 100' SCENIC SETBACK CORRIDOR ON BOTH SIDES OF LEGEND TRAIL PARKWAY FROM PIMA TO THE WESTERN BOUNDARY OF LEGEND TRAIL AND FROM STAG COACH PASS TO NORTHERN BOUNDARY OF LEGEND TRAIL

Open House Comment Card December 2014

State Trust Land Rezoning

Case # 19-ZN-2014

I PREFER C-18 BE HIGHER DENSITY AND ASK THAT A VISUAL BUFFER OF 100 YARDS BE ALLOWED TO ~~RESERVE~~ PRESERVE OPEN FEEL AND QUIET NATURAL FEEL

T-8	63	R1-18	116
Other COS	873	COS	0
Totals:	4020		5586

Reasons for suggested amendment to current PROPOSED 19-ZN-2014

- Densities of previously proposed ASLD designated F-2, I-3, J-3 and L-4 are too high and do not match the R1-70 zoning of existing adjacent homes. See newly proposed densities on attached sheets.
- A greater sized COS corridor should be provided for access to the Preserve from the North side.
- The resort is too far out into the Preserve, too close to Brown's Mountain, and too close to adjacent homes. This would destroy the enjoyment of the current Preserve for all Scottsdale Residents and tourists alike. No information is provided on the proposed resort, but this could cause other noise and height concerns as well.
- Drinkwater's original goal for this area was minimum one acre homes and should be maintained as closely as possible to this vision.

State Trust Land Rezoning

Case #19-ZN-2014

Open House Comment, December 17, 2014

Respectfully Submitted by: Les Conklin, Friends of the Scenic Drive/GPPA

Contact: lesconkin@gppaaz.org, (480) 361-6498, www.scenicdrive.org

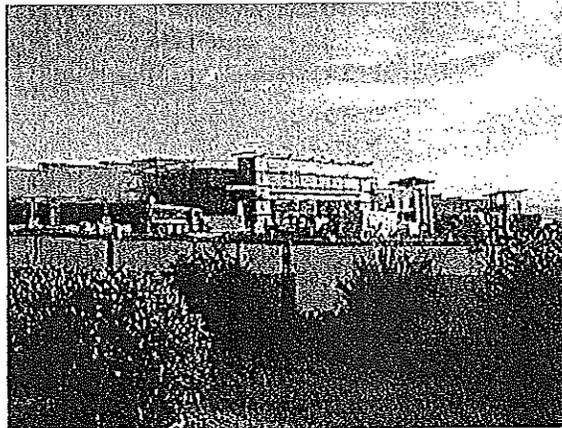

"Let's not wreck this." ...

6 Reasons Why We Oppose the State's Proposal

Back in 1994 a stranger from distant downtown Scottsdale leaned across a north Scottsdale neighbor's coffee table and asked, "What Scenic Drive?" Recently, that stranger wrote "Let's not wreck this." Different time, different subject, but words of warning that apply to the latest threat to Scottsdale's Scenic Drive initiative. Please read on ...

The state's proposal will add 40 acres of commercial zoning and 75 acres of resort zoning on Scottsdale Road between Happy Valley and Jomax Roads; land that is on the Scenic Drive and part of the planned preserve.

Friends of the Scenic Drive and GPPA, which publish this website (www.scenicdrive.org, aka www.thepeakaz.org) oppose the state's proposal to add new commercial zoning on the Scenic Drive between Jomax and Happy Valley Road. We oppose the proposal for these reasons.

No Need for New Commercial. All four corners of Pinnacle Peak and Scottsdale Road are zoned commercial, continuing the northward push of urban development.

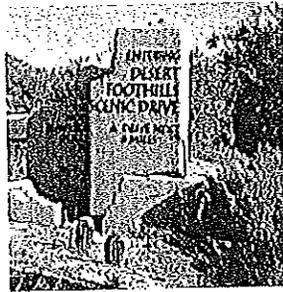

#1. There is no need, now and for the foreseeable future, for additional commercial zoning at that location.

- The nearby intersection of Pinnacle Peak Road and Scottsdale Road has four corners with commercial zoning opportunities. The existing Safeway shopping center occupies the northeast corner. A large retail center is under construction on the southeast corner (Sprout's). The other two corners are in Phoenix and have commercial zoning.

By not having a trailhead on Scottsdale's signature road - a road that "connects seeing and doing" and is used by many residents and tourists - the city loses the opportunity to showcase the preserve and provide access and information to the many tourists and visitors that travel that highway, a local landmark. The proposal will also make it more difficult for the city to save the desert along Dynamite Boulevard and Scottsdale Road Scenic Corridors as planned. It is unlikely that new commercial zoning will benefit the environment, tourism, recreational opportunities, and quality of life.

#4. Negatively impacts and/or eradicates the historic Desert Foothills Scenic Drive, its current exhibit area and proposed memory park.

The Scenic Drive is an historic landmark. Cave Creek/Carefree, Maricopa County, the City of Scottsdale, and residents have worked to preserve and enhance the Scenic Drive for more than 50 years. The city is currently investing millions of Bond 2000 funds in enhancing the Scenic Drive, including burying power lines. This proposal begins the reversal of the positive actions that people and governments have taken in the past. This landmark add value by supporting tourism for Scottsdale and Arizona.

Entry Sign at Southern Entrance to Drive at Happy Valley Road. What will be the impact of the state's plan on the historic drive, its exhibit area, and the proposed Memory Park?

#5. Diminishes the opportunity to use the historic landmark to strengthen the "brand" of a major part of the city.

Residents and businesses along Scottsdale's McDowell Road have spent a considerable amount of time and money searching for an idea, theme, venue, landmark - something to "connect" and help market the businesses and neighborhoods in that area. A historic landmark that is linked to Scottsdale's preserve increases the area's marketing appeal for residents and businesses alike. By adding unnecessary commercial development to increase land value, the city will make it more difficult to create the link and build the area's brand, which will bring additional tourist and investment dollars to the state.

#6. Flexibility and fairness are important in the completion of the preserve.

Scottsdale's preservation effort, despite the problems challenges created by the Great Recession, has made excellent progress. However, there is no publicly published plan to complete the preserve in a way that maximizes the return of the voters investment. Since there is no plan, flexibility is required.

The land on Scottsdale Road, where the commercial and resort/tourist zoning would be placed, is in the planned preserve; land voters have indicated they want to preserve. Placing the new zoning there makes it

more difficult to add some or all of that land. The land east of Pima, where the 2002 General Plan calls for the commercial and resort/tourism zoning is not in the planned preserve. Keeping the zoning there does not increase the value of the land on Scottsdale Road. Good arguments can be made for keeping the commercial and resort/tourism zoning there. The safe bet is to plan development where demand will increase.

Also, in fairness to residents who purchased land near northern Scottsdale and Pima Road since 2002, the zoning should not be moved. The 2002 General Plan and map of the planned preserve does not show commercial and resort/tourism zoning on the parcel east of Scottsdale Road. On the other hand, the Legend Trails land is not in the planned preserve and clearly shows commercial and resort/tourism zoning. The result is that some buyers might have purchased land based on what could turn out to be false expectations. Our suggestion shares "the pain" between voters near Pima Road and Scottsdale Road, provides flexibility, and places zoning where sustainable demand is expected to be.

Thank you for your time and consideration.

December 17, 2014

Re: North Scottsdale State Trust Land Rezoning
Case No. 999-PA-2014

Gentlemen:

Thank you for allowing comment with respect to what has been called the "Arizona Preserve Initiative" and relating to the rezoning of those parcels deleted from the Preserve as originally proposed. As the owner of property immediately across the street from one of the parcels involved, One Pine Ranch LC has a real interest in the process, since any action will have a significant impact on us personally, as well as the use and value of that property.

While the preference would be to maintain the status quo with respect to any proposed development, it is recognized that is probably not a viable alternative. Since One Pine's property will be most significantly affected by the proposed development of parcels 6, 8 and 9, the comments are limited to those parcels.

PARCEL 6

One Pine would encourage the City of Scottsdale to take all reasonable and necessary action to acquire parcel 6 and to then follow through with its planned development of parcel 6 as a "Major Trail Head" providing access to the Preserve.

Access to the Preserve from parcel 6 would be a welcome addition and assist the public in realizing the fuller utilization of the Preserve for its intended purposes. It would provide a logical point of access for people located on the west side of the Preserve. It would also provide a logical extension of the already existing Scottsdale trail system as well as the proposed trail system being considered as a part of the rezoning of parcels 6, 7, 8, and 9 and shown on Exhibit F.

However, in the unfortunate event that parcel 6 is not acquired by the City of Scottsdale and made a part of the Preserve, any development should be designed to assure there is adequate and proper access for non-motorized uses across parcel 6 to the Preserve.

One Pine fully endorses the rezoning of the Preserve. Rezoning would be consistent with the underlying reason Preserve lands were acquired, in what was a farsighted and well founded action by the City of Scottsdale. Assuming the City of Scottsdale acquires title to parcel 6, One Pine would endorse the rezoning of the parcel for the same reasons.

PARCEL 8

Parcel 8, in its undeveloped condition, has enjoyed extensive use as an open space by horse owners, bikers, walkers and runners. It is essential that, to the fullest extent possible, these non-motorized uses be retained. As a consequence the proposed trail system and open space designations currently reflected in the maps on Exhibits D and F should be retained in any final design, platting and development process.

Keeping the trails as currently being proposed and shown on Exhibit F in any final design, platting and development process will assure a logical extension of Scottsdale's existing trail system. It will also permit those individuals who use parcel 8 for horse riding, biking, walking or running to continue their current uses as well as assuring access to the Preserve. The designation of a trail along the current transmission corridor for non-motorized uses is absolutely critical.

The Exhibit G map, showing possible locations for roads providing access to parcel 8, reflects a road located off Pima Road directly into what is designated as an open space (COS) on Exhibit D. Any access to parcel 8 at that point should assure the unrestricted recreational use of the designated open space.

One Pine Ranch endorses the buffer or lower density zoning currently shown around the perimeter of parcel 8, which provides a degree of protection to the adjacent property owners. This density should not be increased as a part of any future development.

PARCEL 9

Like parcel 8, this parcel has also enjoyed extensive use by horse owners, bikers, walkers, and runners. As a consequence, it is essential these non-motorized uses be retained to the fullest extent possible. To assure this, the trail system shown on Exhibit F should be retained as a part of any future development. Retention of these designated trails would also be a logical extension of Scottsdale's existing trail system. Like parcel 8, the designation of a trail along the existing transmission corridor is essential to assure the parcel's recreational use.

Again, thank you for considering these comments. If you have any questions or if this submittal requires clarification, contact information is provided below.

State Trust Land Rezoning

Case # 19-ZN-2014

MAJOR WASHES SHOULD BE PROTECTED A MINIMUM OF 500' ON EACH SIDE. IT APPEARS THAT A MINIMUM OF 1/8 TO 1/6 MILE WIDTH OF LAND IS SHOWN TO STRADDLE THE WASHES NORTH OF DYNAMITE. THIS WOULD PROVIDE SOME PROTECTION OF THOSE WASHES AS A NATURAL CORRIDOR FOR WILDLIFE, RECREATION, VEGETATION.

THERE IS A MAJOR WASH JUST SOUTH OF LEGEND TRAIL PARKWAY THAT IS NOT SHOWN AS BEING PROTECTED IN THE SAME MANNER, AS IT INCLUDES, INSTEAD, THE STREET.

THIS SAME BUFFER TO PROTECT THE WASH SHOULD EXTEND $\frac{1}{12}$ TO $\frac{1}{16}$ MILE WIDE.

Open House Comment Card December 2014

ON EACH SIDE OF THE WASH MEASURED FROM THE TOP EDGE OF THE WASH.

② NATURAL OPEN SPACE SHOULD STRADDLE THE MAJOR WASH JUST SOUTH OF LEGG RD PKWY

SCOTTSDALE 85266

Open House Comment Card December 2014

State Trust Land Rezoning

Case # 19-ZN-2014

WE FAIL TO UNDERSTAND THE WISDOM OF HAVING THE ZONING FOR PARCEL L-5 PROJECTED AS R10 WITH 1140 UNITS ON ONLY 411 ACRES OF SOME OF THE MOST PRISTINE DESERT LAND IN SCOTTSDALE. CONTIGUOUS TO PARCEL L-5 IS L-9 WHICH HAS 186 ACRES WITH ZONING OF R1-7 AND 557 UNITS AND PLANNED. ALSO ACROSS PIMA FROM PARCEL L-5 IS SINCVIDADOS WHICH IS ZONED R1-43 AND HAS ONLY 300 HOMES ON 560 ACRES. WHAT JUSTIFICATION IS THERE TO SACRIFICE SCOTTSDALE'S PRISTINE DESERT TO CRAM 1140 UNITS ON R-10 LOTS ON ONLY 411 ACRES.

Respectfully

Richard and Lillian HORNE

8400 E. DIXIE RD., #124, SCOTTSDALE 85266

Open House Comment Card December 2014

City of Scottsdale Preserve Rezoning

Case # 20-ZN-2014

This whole rezoning situation is being
presented in a manner which appears
intended to confuse and bully the voters
into something they never agreed to as
far as land appropriate for conservation
in the preserve. Someone from the city
should have given a presentation explaining
why the city is trying to undo what
what we voted in favor of in the 1995
election. It is hard to believe that our
best interests are being served through this
messy fumble process. It is not in my
interest to allow the state land dept. to
bully us into rezoning for commercial

Open House Comment Card December 2014

heavy residential any of the land voted
upon as appropriate for the preserve.

State Trust Land Rezoning

Case # 19-ZN-2014

The city should float a bond to be able to purchase preserve land around Legend Trail.

This area was sold as "trust land that will never be developed" according to our Realtor

We live in Legend Trail on the Edge ^{North} looking at the preserve. We took a huge hit in valuation after the real estate downturn in 2008 after purchasing in 2006.

~~My~~ Our appraisal in 2006 evaluated the view at 75,000. We will lose that too if this is developed. Other people in the area will lose too.

Open House Comment Card December 2014

May Blank Kirby
please keep me posted MERAKOBY@yahoo.com

State Trust Land Rezoning

Case # 19-ZN-2014

① In regards to State land not yet acquired by City, understanding we have to rezone the existing areas (we hope the City will ^{slightly} increase the city sales tax to enable us to buy these ^{remaining} areas), Question is: why do we have to allow st. trust land a higher zoning-increasing density, than "agreed to" in 2002?

Open House Comment Card December 2014

Are we not handing them on a silver platter reasons to then sell land @ higher price for developers sake? Certainly not in Scott's best interests if we're facing density increases, w/ challenges to infrastructure demands & traffic overflow.

* Why not give them only what was agreed upon in the 2002 zoning requirements?

② Specific question - the parcel from Dynamic to Janay, Hayden to Pima - zoned R70's to 143, to 310 (?) - way too high density for the rural neighborhood/land, esp. considering the washes, flood plain, along w/ the APS corridor stretching across the entire parcel! The land that's left to develop would be very high density on low # of acres available.

Thanks for considering! Linda Ambrose

City of Scottsdale Preserve Rezoning

Case # 20-ZN-2014

I SUPPORT THE CITY OF SCOTTSDALE'S PROPOSAL
TO REZONE SPECIFIC PARCELS WITHIN THE MC DOWELL SONORAN
PRESERVE TO CONSERVATION OPEN SPACE.

IT IS VITAL TO PROTECT THIS BEAUTIFUL SONORAN DESERT!

Open House Comment Card December 2014

City of Scottsdale Preserve Rezoning

Case # 20-ZN-2014

We are in favor of rezoning as proposed

Open House Comment Card December 2014

City of Scottsdale Preserve Rezoning

Case # 20-ZN-2014

I support the city plan to acquire the identified acquisition, and to keep as much of it in the Preserve as possible.

The preserve is a very valuable asset for the City of Scottsdale.

Open House Comment Card December 2014

City of Scottsdale Preserve Rezoning

Case # 20-ZN-2014

I agree whole-heartedly with the proposal
on the table by the City of Scottsdale.

Re: North Scottsdale State Trust Land Rezoning
Case No. 999-PA-2014

Gentlemen:

Thank you for allowing comment with respect to what has been called the "Arizona Preserve Initiative" and relating to the rezoning of those parcels deleted from the Preserve as originally proposed. As the owner of property immediately across the street from one of the parcels involved, One Pine Ranch LC has a real interest in the process, since any action will have a significant impact on us personally, as well as the use and value of that property.

While the preference would be to maintain the status quo with respect to any proposed development, it is recognized that is probably not a viable alternative. Since One Pine's property will be most significantly affected by the proposed development of parcels 6, 8 and 9, the comments are limited to those parcels.

PARCEL 6

One Pine would encourage the City of Scottsdale to take all reasonable and necessary action to acquire parcel 6 and to then follow through with its planned development of parcel 6 as a "Major Trail Head" providing access to the Preserve.

Access to the Preserve from parcel 6 would be a welcome addition and assist the public in realizing the fuller utilization of the Preserve for its intended purposes. It would provide a logical point of access for people located on the west side of the Preserve. It would also provide a logical extension of the already existing Scottsdale trail system as well as the proposed trail system being considered as a part of the rezoning of parcels 6, 7, 8, and 9 and shown on Exhibit F.

However, in the unfortunate event that parcel 6 is not acquired by the City of Scottsdale and made a part of the Preserve, any development should be designed to assure there is adequate and proper access for non-motorized uses across parcel 6 to the Preserve.

One Pine fully endorses the rezoning of the Preserve. Rezoning would be consistent with the underlying reason Preserve lands were acquired, in what was a farsighted and well founded action by the City of Scottsdale. Assuming the City of Scottsdale acquires title to parcel 6, One Pine would endorse the rezoning of the parcel for the same reasons.

PARCEL 8

Parcel 8, in its undeveloped condition, has enjoyed extensive use as an open space by horse owners, bikers, walkers and runners. It is essential that, to the fullest extent possible, these non-motorized uses be retained. As a consequence the proposed trail system and open space designations currently reflected in the maps on Exhibits D and F should be retained in any final design, platting and development process.

Keeping the trails as currently being proposed and shown on Exhibit F in any final design, platting and development process will assure a logical extension of Scottsdale's existing trail system. It will also permit those individuals who use parcel 8 for horse riding, biking, walking or running to continue their current uses as well as assuring access to the Preserve. The designation of a trail along the current transmission corridor for non-motorized uses is absolutely critical.

The Exhibit G map, showing possible locations for roads providing access to parcel 8, reflects a road located off Pima Road directly into what is designated as an open space (COS) on Exhibit D. Any access to parcel 8 at that point should assure the unrestricted recreational use of the designated open space.

One Pine Ranch endorses the buffer or lower density zoning currently shown around the perimeter of parcel 8, which provides a degree of protection to the adjacent property owners. This density should not be increased as a part of any future development.

PARCEL 9

Like parcel 8, this parcel has also enjoyed extensive use by horse owners, bikers, walkers, and runners. As a consequence, it is essential these non-motorized uses be retained to the fullest extent possible. To assure this, the trail system shown on Exhibit F should be retained as a part of any future development. Retention of these designated trails would also be a logical extension of Scottsdale's existing trail system. Like parcel 8, the designation of a trail along the existing transmission corridor is essential to assure the parcel's recreational use.

Again, thank you for considering these comments. If you have any questions or if this submittal requires clarification, contact information is provided below.

North Scottsdale Rezoning
Citizen and Neighborhood Involvement Report
February 2016

Attachment 7. Public Contact Phone Log

North Scottsdale State Trust Land Rezoning

Public Contact Log (as of 12/8/14)

1. 12/1/14: Brian Scheffler, Legend Trail resident; 480-488-0121. Calling to advise that web link in ASLD letter doesn't connect to case info. Called back, advised that City of Scottsdale (COS) is working on a solution, will call him back with live URL ASAP.
2. 12/1/14: Tom Jones, resident at 36299 N. 98th Way (Sierra Norte); 480-621-5444. Would like to find out about significance of rezoning case. Called and explained difference b/t COS Preserve Land and State Trust land (STL), answered questions about what could be done with each and how COS acquired preserve land from ASLD and what sort of restrictions applied to preserve land. Advised that STL closest to his home (S. side of Stagecoach Pass Rd) was requesting R1-70 zoning. Mr. Jones stated that he would come to the Open House in Legend Trail next week.
3. 12/2/14: Greg Bast, resident at 25238 N. Bronco Trail. Interested in seeing site plans or knowing about proposed density on STL near his house. Advised that proposed zoning on STL immediately west of his house would be COS (Rawhide Wash floodway/floodplain), with single-family residential of R1-43 to the north and R1-35 to the west. Mr. Bast asked further about how long it would take before the land would be developed. I wasn't able to provide a certain answer since there are currently no applications or builder/developer interest in the subject STL, but advised that our sale process can typically take 12-18 months or longer from pre-application to auction.
4. 12/3/14: Keith Hainy, Legend Trail lot owner at 34598 N. 92nd Place; 605-380-5428. Wanted to know what zoning was proposed adjacent to his lot and to advise that web link in ASLD letter doesn't connect to case info. Returned call, provided rezoning case number (19-ZN-2014), advised that link should work with that number later today, per COS. Emailed rezoning narrative and color exhibits to kwhainy@nvc.net. Discussed proposed R1-70 zoning adjacent to Mr. Hainy's lot. Mr./Mrs. Hainy asked about edge treatments and we discussed possible setbacks, height restrictions, and possible open space buffers. I advised him that I would take note of his concerns and also referred him to Linda Whitehead for Legend Trail representation and Jesus Murillo for info on COS site planning and development practices.
5. 12/3/14: Dr. Doug Bowers, Legend Trail resident at 9483 E. White Wing Dr.; 480-314-3338 (o) or 480-296-4614 (c). Called for more info and to advise that web link in ASLD letter doesn't connect to case info. Returned call, explained case and brief history, advised of proposed zoning near his home. Emailed narrative and exhibits and provided link URL and rezoning case number.
6. 12/8/14: John Westerfield, Pinnacle Reserve resident; 408-806-2143. Wants to attend 12/17 open house, but doesn't know where Florence Ely Nelson Desert Park is located. Provided info on open house location and case information on COS website.

7. 12/11/14: Denise Abolhassani, resident at 7990 E. La Junta Rd; 480-330-8740. Called to discuss zoning case, and potential drainage issues associated with project. Explained zoning case, and provided information on open houses, website and application details.
8. 12/15/14: Brian Cogan, 480-313-0149. Attempted call-back on 12/16 but reached full VM box. Called back 12/16/14 and 1/12/15, discussed case, emailed web info links and provided email address to COS for their group mail list.
9. 12/19/14: Douglas Maylo, Troon area resident; 541-556-4365. Calling for case information (called during Mark's holiday vacation – outgoing VM provided alternate contact info and website address). Returned call on 1/12/15, left contact numbers and ASLD website address on VM.
10. 12/22/14: Liz Ogden, North Scottsdale resident, 480-585-4659. Called for details on Planning Commission date. Discussed tentative timeline and added to email distribution list.
11. 1/9/15: John Westerfield, Whispering Winds resident; 408-506-2143. Calling for case information. Returned call on 1/12/15, left contact numbers and ASLD website address on VM.
12. 1/16/15: Paul Cadorin, Legend Trail resident, 35387 N. 93rd Way; 262-372-4270. Calling for case information specific to State Trust land immediately north of his property (requesting R1-18 in this area), and timing of adjacent development.
13. 1/21/15: David Post, resident of adjacent neighborhood, 480-225-2558. Interested in learning more about plans at NWC Pima & Jomax; referred to ASLD and COS websites.
14. 7/7/15: Ms. Kaufman, resident near Pima Rd & Dynamite, 480-315-3602. Called for general information about the rezoning case, and potential impacts to her property. Provided information, website, and contact information for ASLD and COS project feedback.
15. 7/7/15: Cindy Van Hook. Section 31 property owner; 602-618-6945. Property owner in Section 31 who primarily lives in Prescott. Discussed proposed land uses in vicinity of Section 31, and provided case specific information, websites, and tentative project timeline.

Re: 19-ZN-2014 – State Trust Land Rezoning

Gentlemen:

Surrounded by the natural beauty of the Upper Sonoran Desert, with spectacular desert and mountain views, the neighborhoods of Legend Trail (824 households) and Desert Ranch (37 Households) have shared space in this scenic North Scottsdale area for nearly two decades. It has been the perfect place to enjoy the desert air, beautiful scenery and star-studded skies, away from the congestion and noise of more urban neighborhoods.

We are now facing the realization that this perfect place is going to see dramatic change as the land around us is rezoned and development begins. Even though it may be some years before dirt is turned on the first development on our borders, now is the appropriate time to make some requests of the State Land Department and City of Scottsdale – requests that are directed at reducing the impact of future development on our neighborhoods and residents.

Those requests are as follows:

- A 100-foot wide scenic setback through the State Trust Land along both sides of Legend Trail Parkway from Pima to where Legend Trail Parkway enters Legend Trail and from where Legend Trail Parkway re-enters State Trust Land north of Legend Trail to Stagecoach Pass;
- That dedicated Natural Area Open Space be provided on all properties abutting Legend Trail's northern and western boundaries and Desert Ranch properties, to match the existing dedicated NAOS located along the property lines of Legend Trail and Desert Ranch homes that abut the properties subject to the rezoning case;
- That the existing trail that starts on the south side of Legend Trail Parkway and west of the gate into Legend Trail's Parcel A and wraps around Legend Trail's southern and eastern boundary be extended to connect with Legend Trail Parkway north of Legend Trail;
- That careful attention and strict adherence be given to all requirements of the respective zoning districts, all applicable codes and ordinances including the Environmentally Sensitive Lands Ordinance and all design guidelines including those impacting the dark skies nature of this area;
- There should be an agreement and understanding that when the new zoning designations are in place, whoever applies to purchase and develop property within them will be held to the zoning designations contemplated in the application and not be granted additional increased densities or entitlements.

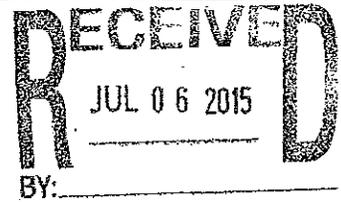

We urge your positive consideration of these requests and thank you for doing so.

Sincerely,

Richard Bourke, President
Legend Trail Community Association
Board of Directors

Catherine Overby, President
Desert Ranch Homeowners Association
Board of Directors
