Subject: Water Softener Rebate Standings - April 2016

Good Afternoon, Tim –

The application deadline for all options has now passed. We could very well see a few more stragglers this week. That said, here are the water softener rebate standings through April 30, 2016:

ID	Opt	\$	Total Processed	\$
8	1	\$ 50	18	\$ 900
9	2	\$ 100	4	\$ 400
10	3	\$ 125	156	\$ 19,500
11	3	\$ 125	149	\$ 18,625
Total Applications:			177	\$ 39,425

Remaining	Allowed	% Used	Total Rec'd	Denied	% Denied	Pending	With-drawn
282	300	6%	52	27	52%	7	0
96	100	4%	4	0	0%	0	0
44	200	78%	193	32	17%	0	5
		75%		2	1%	7	0
			249	61	24%	14	5

Rebate ID:	
8	High-Efficiency Upgrade
9	Portable Exchange
10	Removal 1 st Installment
11	Removal 2 nd Installment

Please let me know if you have any questions.

Cheers,

Jennifer Davidson

Memorandum

TO: Mayor and City Council
FROM: Environmental Quality Advisory Board (EQAB)
DATE: March 22, 2016
RE: **Recommendation for Solar PV Project at the Scottsdale Water Campus**

The Environmental Quality Advisory Board (EQAB) recommends approval of the solar services agreement and contract award to SolarCity for a 2.3 megawatt PV solar system at the Scottsdale Water Campus.

Background

The Scottsdale Water Campus is a 145 acre complex housing the Water Reclamation facility and the CAP Potable Water Treatment Plant. The Campus is the City's largest energy consumer.

Scottsdale Water is interested in entering into a long-term solar services agreement for a 2.3 megawatt (DC power) PV system to replace approximately 10% of the current power use at the Water Campus.

Under the terms of the agreement, SolarCity will finance, design, construct, operate and maintain the solar system for twenty years. Scottsdale Water will pay a pre-determined rate per kWh which will translate into long-term energy savings using renewable power.

Recommendation

The successful bidder, SolarCity is a leader in Arizona's solar integration market and one of the largest solar installers in North America. They are the most experienced project financiers in the industry with ample capital available to support the City's solar objectives.

EQAB unanimously recommends awarding the solar services agreement and contract to SolarCity for the financing, design, construction, operation and maintenance of the proposed 2.3 megawatt PV solar system at the Water Campus/CAP Facility for long-term energy cost savings and reduction of greenhouse house emissions.

If you have questions regarding this recommendation, please contact Anthony Floyd in Scottsdale's Office of Environmental Initiatives.

Respectfully,

Alisa McMahon, Chairperson
Environmental Quality Advisory Board
