Dear Mr. and Mrs. McCammon,

Thank you for the email.

The Zoning Ordinance allows wireless facilities at the proposed location. This request is for approval of how the facility will look (architectural compatibility by concealing the facilities in an ornamental tower). I will pass your email on to the Development Review Board and the applicant for today's hearing, which begins at 1pm.

Let me know if you have any questions.

Thank you,

-Tim Curtis

Subject: Opposition to 39-DR-2004

Dear Mr. Curtis,

I am writing in opposition to the proposed cell tower at the Desert Canyon Center property in McDowell Mountain Ranch. This neighborhood shopping center sits in the middle of MMR residential community.

The shopping center was built prior to our purchasing our home and we knew what the shopping center looked like with regard to building height and character of the area.

Our home looks out over the shopping center.

I am opposing the proposed cell tower for two reasons. One being the notification time frame and sign location. Signs were posted on 3 corners of the shopping center just prior to the 4th of July holiday when many are out of town on vacation.

I was unaware of the proposal until last evening when I went to one of the center's business. The sign on the corner of 105th and McDowell Mountain Road is situated facing westbound traffic for McDowell Mountain Road and not eastbound traffic. We frequent the shopping center's businesses on almost a daily basis and did not notice the sign until last evening. The size of the sign and locations make them difficult to see and read unless you are going in a certain direction. This may have contributed to our not seeing them.

I also oppose the cell tower due to its changing the height of the building in the shopping center. 40 feet is not the height of the current building.

There are strigent height restrictions in MMR. Even trees on residential properties are not 40 feet tall. Potentially if everyone wants to build a cell tower we could end up with a 40 foot building that detracts from the value of the properties in the area and changes the character of the neighborhood. This project will do the same as it detracts from the simple lines and character of the building and adds height which is a negative in this small shopping center.

There are rules for MMR that all residents and businesses must abide by. This project does not fall within those rules. This is a small neighborhood center with offices and neighborhood type businesses. There are three restaurants, a bank, and a dry cleaner. A couple of insurance agencies, two hair and nail salons etc. This is not a large commercial area. Of concern is a child care center that would sit just "under" this proposed tower to the west and south.

This project is easy to re w "as built" as there was a be. tower "added" to the east end of the building just after we moved here. It is an eyesore and does not fit the character of the building due to the additional height.

I will be pursuing this with my HOA as I understood they were not going to approve any more of these structures after the first was built. I called them before calling you and understand this has not been approved by the HOA board yet per the manager John.

Please do not approve this project.

Sincerely,
Lee and Laurie McCammon

John,
Thank you for the email.
It is my understanding that the HOA denied this application due to the fact that there may be more carriers coming, and the HOA does not want multiple sites. It is also my understanding that the HOA is willing to accept a resubmittal with information that ALLTEL will cooperate with carriers on future co-locates at this site.
Let me know if this is not accurate.
Thanks again.

I do not know if you are aware or not but this case/application (Case Name: Alltel WCF - Desert Canyon Center) (Site Location: 10421 E McDowell Mountain Ranch Rd) was submitted to the McDowell Mountain Ranch Community Association's Design Review Committee (Desert Canyon Center is a member of our Association and therefore required to gain approval from the Master Association for any and all visible changes). **The application was denied.** If you want any details on the denial, please do not hesitate to contact me but as things stand now, independent of any "Public Hearings", this project, as currently conformed, may not proceed.
