Figure 1 consists of four maps arranged in a 2x2 grid, each showing the spatial distribution of mean annual precipitation (mm) for a specific year: 1946, 1947, 1948, and 1949. The maps cover the region from 18°N to 22°N latitude and 100°E to 104°E longitude. The maps are labeled '1946', '1947', '1948', and '1949' in the top right corner. The maps show contour lines and numerical values representing precipitation in mm. The 1946 map shows values ranging from 16 to 20. The 1947 map shows values ranging from 15 to 19. The 1948 map shows values ranging from 18 to 22. The 1949 map shows values ranging from 17 to 21.
