

# AIRPORT AREA DEVELOPMENT COMMUNICATION FORM

PURPOSE: This form identifies influences due to proximity to the Scottsdale Airport. Applicants must obtain approval from Scottsdale Airport for applicable influences listed below.

INSTRUCTIONS: Contact Kevin Shirer, Airpark Specialist at (480) 312-7609 and/or fax this form along with a site map and location map [FAX: (480) 312-8480]. The Airpark Specialist will review the proposed development for any aeronautical influences and return the approved form and indicate all applicable requirements or stipulations.

Submit the approved form at the formal submittal to Development Services.

## AIRPORT HEIGHT ZONING - WITHIN 20,000 FEET OF AIRPORT (see map)

Proposed permanent structures and/or temporary construction cranes must be reviewed by the Federal Aviation Administration (via FAA Form 7460-1) if taller than:

- 1. An imaginary surface that extends outward and upward at a slope of **100 to 1** for a horizontal distance of 20,000 feet from the nearest point of the runway.
- 2. 200 feet in height above the ground level at any site.

NOTE: Applicants may claim a 7460-1 form exemption if the proposed object is shielded by existing structures or by natural terrain of equal or greater height where it is evident beyond all reasonable doubt that the structure so shielded will not adversely affect safety in air navigation.

#### NOISE INFLUENCE AREA OR NOISE CONTOURS (see Influence Area Map)

- 1. Noise disclosure required for new development.
- 2. Avigation easement required for development within the 55 DNL or greater noise contour.
- 3. Land use restrictions inside or adjacent to the 65 DNL noise contour.
