LOCATION

6990 E. Shea Blvd. at the northwest corner of E. Shea Boulevard and N. 70th Street

BACKGROUND

Zoning.

The site is zoned C-2 (Central Business District). The C-2 zoning district allows for general business activities, including bar and live entertainment uses with approval of a Conditional Use Permit.

Context.

This subdivision is located in the Agua Caliente Shopping Center at the northwest corner of E. Shea Boulevard and N. 70th Street. Surrounding properties are commercial uses, with no single-family residential use located within the area.

Adjacent Uses and Zoning:

- North Agua Caliente Shopping Center with C-2 (Central Business District) zoning
- South E. Shea Boulevard, with C-2, C-O and R1-35 Residential District zoning, (note: the R1-35 area is the YMCA, 425 feet southwest of the site)
- East Agua Caliente Shopping Center with C-2 (Central Business District) zoning
- West Agua Caliente Professional Center (Dental Center) with C-2 District zoning

**APPLICANT'S
PROPOSAL**

Goal/Purpose of Request.

The applicant is requesting approval of a Conditional Use Permit to provide live entertainment in an existing building within the Agua Caliente Shopping Center. The bar will offer small entrées and feature one or two jazz performers, larger bands, and lounge singers catering to the "twenty-eight and up" business crowd.

Development Information.

- Existing Use: Former restaurant currently being remodeled into a bar
- Buildings/Description: 1 building in a multi-tenant shopping center
- Parcel Size: 2 acres
- Building Height Allowed: 36 feet
- Existing Building Height: 28 feet
- Floor Area: 4,000 square feet (1,800 square feet for kitchen and office, and 2,200 square feet for bar and dining), plus 2,040 square foot patio area.

IMPACT ANALYSIS

Traffic.

The proposed live entertainment is ancillary to the bar use and would operate in the evening, with the primary trip generation occurring off-peak in the evening hours when other businesses in the commercial center are closed. The live entertainment use is expected to only slightly increase the overall traffic or peak trips generated to the bar. The existing shopping center, parking, and surrounding street network can accommodate any slight increase in traffic. Existing access to the Agua Caliente Shopping Center is from E. Shea Boulevard to the south, N. 70th Street to the east and N. 69th Street to the west. There are no known traffic impacts with the existing shopping center or from the proposed live entertainment use.

Parking.

- 58 spaces are required for the bar/live entertainment use, and 110 spaces are provided within the shopping center. There are no parking impacts anticipated at the existing commercial center.
- 120 additional spaces are available through a shared parking agreement

with the Agua Caliente Professional Center adjoining the site to the west

Police/Fire.

Police facilities are located within four miles of this property and a fire station is located within a mile. There are no reported public service concerns with this use. The bar and live entertainment conditional use permit criteria require submission of a Security and Maintenance plan, which has been reviewed and approved by the Police Department. (See Attachment #8)

Use Permit Criteria.

Conditional use permits, which may be revocable, conditional, or valid for a specified time period, may be granted only when expressly permitted after the Planning Commission has made a recommendation and the City Council has found as follows

- A That the granting of such conditional use permit will not be materially detrimental to the public health, safety or welfare. In reaching this conclusion, the Planning Commission and the City Council's consideration shall include, but not be limited to, the following factors
 - 1 Damage or nuisance arising from noise, smoke, odor, dust, vibration or illumination
 - **No additional lighting is proposed, and no smoke, odor, dust or vibration is anticipated from this use.**
 - 2 Impact on surrounding areas resulting from an unusual volume or character of traffic
 - **Access to the primary parking area for the shopping center is from E. Shea Boulevard, N. 69th and N. 70th Streets, and the proposed use will not modify existing traffic patterns in the area. The expected slight increase in traffic generated by the live entertainment use will primarily occur in the evening hours when many of the other retail, office and medical office tenants in the center are closed. Sufficient parking is available with parking areas located to the north of the building, and within the Agua Caliente Shopping Center to the west.**
 - 3 There are no other factors associated with this project that will be materially detrimental to the public
 - **An outside patio along the east side of the building is located approximately 50 feet from E. Shea Boulevard with other commercial uses located toward the south.**
- B The characteristics of the proposed conditional use are reasonably compatible with the types of uses permitted in the surrounding areas
 - **The live entertainment request in conjunction with a bar is reasonably compatible with the surrounding retail and offices uses within this shopping center.**
- C The additional conditions for Live Entertainment specified in Section 1403 have been satisfied
 - 1 The site plan shall demonstrate that
 - a Buffering by a wall and/or landscaping will be provided in a manner which physically separates and restricts access from the establishment and its required parking area to residential districts

- b All patron entrances will be well lit and clearly visible to patrons from the parking lot or a public street
 - **The site is buffered by a larger parking lot and other commercial buildings to the north, and by Shea Boulevard and commercial development to the south, east, and west. The closest residential housing is located over 600 feet to the north. All patron entrances are well lit and clearly visible to patrons from the parking lot.**
- 2 The applicant has provided written evidence that all sound resulting from business activities will be contained within the building, except where external speakers are permitted
 - **The floor plan indicates that all live entertainment activities will be located within the structure. Live entertainment and any external speakers will not exceed noise levels of ambient noise consistent with the use and character of the area.**
- 3 The applicant has provided a written public safety plan which the city police and fire departments have approved as complying with the written guidelines of the Planning and Development Department
 - **A Security and Maintenance Plan has been submitted and approved.**
- 4 The applicant has provided a written lighting plan which addresses exterior lighting on and surrounding the property, in accordance with section 7 600 of the zoning ordinance and with the public safety plan guidelines
 - **The existing lighting for the commercial center meets the provisions of this ordinance.**
- 5 The applicant shall provide a written exterior refuse control plan which must be approved by the Planning and Development Department staff as complying with the written guidelines of the department, prior to the issuance of a business license The review will be conducted as provided in Section 1 305
 - **Provisions of refuse control are included with the Security and Maintenance Plan and have been stipulated with this case.**
- 6 The applicant has provided a floor plan which identifies the areas for the primary use and for ancillary functions, which include but are not limited to patron dancing areas and/or stages for performances
 - **The draft floor plan has been provided for review as Attachment #9.**
- 7 If access to the establishment is from a street other than one classified by the General Plan as minor collector or greater, or classified by the downtown General Plan as local street or greater, the applicant has provided a traffic analysis which complies with transportation planning department written guidelines The plan shall demonstrate to the satisfaction of the transportation department that the level of service on

all streets accessed by the use shall meet the standard set by the city

- **The entrance to the subject establishment is from the interior of the commercial center.**

8 If the Zoning Administrator determines that a study is necessary the applicant shall provide a parking study which complies with the written guidelines of the Planning and Development Department

- **The Zoning Administrator has determined that the project meets the parking provisions of the zoning ordinance.**

9 The applicant has provided any additional information required by city staff in order to evaluate the impacts of the proposed use upon the area

- **Given the size and location of the proposed use, no additional information was required.**

10 The following operational standards must be met by the use throughout its operation

- a All external doors shall be closed but not locked during business hours
- b No external speakers will be permitted on the premises of a use permitted under this section, which is located within five hundred (500) feet of a residential district
- c The applicant/operator shall comply with all plans approved as provided herein
 - **All of these issues have been satisfied, and the nearest residential use is 600 feet away.**

Community Involvement.

The applicant has notified property owners within 750 feet of the site, posted the site with an information sign, and held an open house to discuss this proposal. Comments from those attending the open house were supportive of the proposal. Staff has received no comments from the public regarding this application.

Community Impact.

This live entertainment use is located immediately adjacent to E Shea Boulevard and is intended to be open in the evenings and will not adversely impact the shopping center or surrounding uses. Loitering and littering are not anticipated due to the relatively small size and location of the venue. The approved Security and Maintenance Plan establishes maintenance and security operations for the use.

PLANNING COMMISSION RECOMMENDATION

The Planning Commission heard this case on September 27, 2006, and recommended approval, 6-0 on the consent agenda.

Case #593-PA-2005-2

Dear Tim

Tanner's (DBA Minx), located at 6990 East Shea Blvd Ste 101, is submitting an application for a live-music permit

Its ownership, Geekee Holdings, LLC, feels it needs a live-music permit to attract various musical acts for competitive purposes to fit its genre. The previous establishment at the location had live-music

Tanner's has already been approved for its bar-use permit (case # 1-UP-2006) and its class-six liquor license (#06070240) from both the city and the state both on consent without any objections. The registered agent is Jerry Lewkowitz

The parking should be no different from the originally submitted plans for the bar-use permit (see planning commission report attached). Parking is ample (58 spaces required, 110+ available)

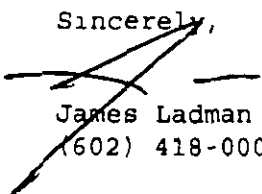

Detective Mike Fritz has been contacted regarding this permit. The approved security plan will remain in tact

The neighbors have unanimously given their support for our project with musicians and musical acts

Please see attachments for permit information

Thank you for your consideration.

Sincerely,

James Ladman

Live Entertainment Use Narrative (23-UP-2006)

Tanner's (dba, Minx) plans to utilize the same approved floor plan, lighting plan, security plan and refuse plan, within the same scope of the project (see original project narrative) in conjunction with its Bar-Use Permit (1-UP-2006) and Liquor License (76-LL-2005) approved on May 15, 2006 by its city council. Tanner's will be a jazz-oriented club. Tanner's would like to add a Live-Entertainment Use Permit to expand its ability to attract larger bands and lounge singers if needed. The property previously had amplified live music with multiple temporary Live Entertainment Use Permits when it was Sozzle Grill.

Although there are no business neighbors open during its business hours, except Ajo Al's, Tanner's has taken every precaution to keep the sound clean and contained. Tanner's sound designers are the Professional Services Group, (480) 443-0400 attention Dana Judd. Their clients include the US Bankruptcy Building (Phx), The Joffe Group, First National Bank, Bungalow Bar and Grill to name a few.

REGULAR AGENDA

4 19-UP-2006 Safeway @ The Summit Fuel Sales

Request by owner for a conditional use permit for a gasoline service station on a 57,439+/- square feet parcel located at 32515 N Scottsdale Road with Central Business District, Environmentally Sensitive Lands (C-2 ESL) zoning

Mr Hadder addressed the Commission. Highlights of his presentation included a contextual aerial photograph, zoning map, and site plan as well as a general description of the proposal. He noted there are no other gas stations within a five-mile area of this location and from a zoning standpoint there will be no opportunity for this use in the area. Staff recommended approval of the application.

Ms Lynne Lagarde, 3101 North Central, addressed the Commission. She reviewed the application, noting the appropriateness because of the scarcity of fuel stations in the area. Safeway respected the natural desert setting and wanted to blend into that without intrusion while reflecting a high quality of design. She reviewed plans for additional screening with trees along Scottsdale Road minimizing visibility of the station.

Safeway allowed an extended period of time for community involvement prior to filing their application. Neighbors' concerns were addressed and incorporated into the plans. The majority of neighbors were supportive of the use because of the need for fuel stations in the area. One of the main issues that surfaced was the size and operation of the kiosk, which Safeway addressed by reducing the size and making it a walk-up facility. Another concern was with the hours of operation which were agreed to be limited to the hours of operation of the store 6:00 a.m. to 11:00 p.m.

In address to concerns regarding Scenic Corridor monument signage, the temporary sign was removed and an application is currently in with the Development Review Board for approval and should be installed long before the fuel services begin. The traffic study highlighted that the driveway does not operate at an acceptable level of service, which has nothing to do with safety, it has to do with timing. She noted that studies showed that median maintenance would help with visibility from that driveway. Directional access signage will be included internally on the property, sending traffic to Ashler Hills.

Ms Lagarde noted that all Ordinance criteria were met both for gas stations and for general use permit criteria.

In response to a concern by Commissioner Hess about the hours of operation following those of the store in case the store were to extend its hours, Ms Lagarde agreed to stipulate to the hours of operation.
