BACKGROUND

Zoning.

The Indian River Plaza retail center is currently zoned Neighborhood Commercial District (C-1) that allows retail, service, office and restaurant uses. The proposed Central Business District (C-2) zoning district allows for a variety of commercial uses that include: bars, retail, office and service uses.

General Plan.

The General Plan Land Use Element designates the property as Commercial. This category includes uses that provide a variety of goods and services to serve the community and regional needs, and may include residential and office uses.

Context.

Located south and west of the southwest corner of the intersection of North Hayden Road and East Thomas Road, the site is surround by commercial,

multi-family residential, and the Indian Bend Wash.

Adjacent Uses and Zoning:

- North: East Thomas Road, and further north is an existing retail center and an existing automotive repair shop, zoned Central Business District (C-2).
- South: An existing multi-family development, zoned Multiple-Family Residential District (R-5).
- East: North Hayden Road, and further east is an existing convenience store and gas station, zoned Neighborhood Commercial District (C-1), and an existing multi-family development, zoned Multiple-Family Residential District (R-5).
- West: Indian Bend Wash, zoned Open Space (O-S)

Operation/Background.

The existing retail center has existed for over 30 years and has undertaken several exterior modifications to accommodate the changes in tenant uses and to maintain an updated appearance. During this time the center has had several tenants that include retail, restaurants/bars, and office uses.

**APPLICANT'S
PROPOSAL****Goal/Purpose of Request.**

This request is to rezone the existing Indian Bend Plaza site from Neighborhood Commercial District (C-1) to Central Business District (C-2) to accommodate the land uses that are allowed within the C-2 zoning district in order to be competitive with other retail centers within the commercial leasing market. The applicant request is primarily related to two other applications, a bar Conditional Use Permit (17-UP-2007) and a live entertainment Conditional Use Permit (18-UP-2007) for tenant "Pranksters Too." The C-1 zoning district does not allow a bar use, but does allow live entertainment; whereas the C-2 zoning district allows for both uses subject to the approval of a Conditional Use Permit for each use.

Development Information.

- Existing Use: Commercial Center
- Proposed Use: Commercial Center
- Parcel Size: +/-8.4 net acres (+/-9.6 gross acres)
- Existing Building Height +/- 25 feet
- Existing C-1 Zoning District's Building Height Allowed: 36 feet
- Proposed C-2 Zoning District's Building Height: 36 feet
- Parking Required: 386 spaces
- Parking Provided: 427 spaces on site
- Open Space Required: 55,497 square feet
- Open Space Provided: 77,936 square feet

- Floor Area Ratio Allowed: 0.8
- Floor Area Ratio Provided: 0.26

IMPACT ANALYSIS**Traffic.**

The site is located on the south side of East Thomas Road and the west side of North Hayden Road. Thomas Road is a four-lane major arterial, and Hayden Road is a six-lane major arterial. The site will remain a neighborhood retail shopping center, which is appropriate at this location. The site trip generation is not anticipated to increase with this rezoning request. The surrounding street system and related improvements have adequate capacity to handle the traffic from the existing development of this site and the land uses allowed in the Central Business District (C-2). The major difference between Neighborhood Commercial District and Central Business District is that the Central Business District allows "Big Box" retail stores, although it is not being contemplated for this site at this time. Staff has stipulated that the owner shall submit a Traffic Impact Mitigation Analysis (TIMA) with any future application for a "Big Box" retail establishment. Since "Big Box" retail centers require a separate Conditional Use Permit, it is not necessary to have a TIMA study completed unless a use permit application is submitted.

Parking.

The required parking for the development is 392 spaces (excluding the provision of Section 9.104.C.2.a.ii), and there are 427 spaces existing on site. Provisions of Section 9.104.C.2.a.ii of the Zoning Ordinance allow the total parking to be reduced up to five percent (5%) of the total parking requirement for each ten (10) additional high security bike parking spaces provided. Since the owner is providing 106 bicycle parking spaces, 62 above the required 44 bicycle parking spaces, the total parking for the development is reduced to 386 spaces.

Water/Sewer.

The City's Water Resources Department has reviewed this application and finds there is adequate water and sewer service to the proposed site.

Police/Fire.

The Fire Department has reviewed this application and finds that there is adequate ability to provide fire and emergency services. The City is currently constructing a new fire station east of the northeast corner of East Indian School Road and North 75th Street.

Schools District comments/review.

Scottsdale Unified School District has been notified of this application.

Open space, scenic corridors.

The site is required to provide 56,997 square feet of open space, and will be providing 77,936 square feet of open space. The open space is provided throughout the site.

Policy Implications.

The applicant's request to rezone the site to Central Business District (C-2), which would be in compliance with the General Plan's Commercial land use designation for the site. Most large retail centers throughout the city that are similar to Indian River Plaza are zoned Highway Commercial District (C-3), although these centers generally provide regional uses. With regards to this area of the city, retail centers that are of similar size to the Indian River Plaza generally provide commercial uses that are larger than micro neighborhood scale commercial center, but are smaller than regional uses. When considering the adjacent land uses and other commercial centers in the nearby area, the Central Business District (C-2) is an appropriate zoning district since it has sufficient access to major arterial streets, the nearest single-family use is buffered by multi-family and other commercial uses, and the nearest multi-family is buffered by landscaping and walls. In addition, the uses allowed in the C-2 may also provide a greater range of land uses which may be more appropriate for a retail center of this size and to service the local needs of the city's residents and business owners.

Community Involvement.

City Staff sent informational post cards to property owners within 750 feet of the site and interested citizens on file with the Planning and Development Services Department. The applicant notified all property owners within 750 feet of the site, posted signs on the property, and held an open house on February 16, 2008. Staff has received six emails requesting general information (Attachment #6A), and one email opposing the request (Attachment #6B). The individual opposing the request indicates that "...sometime..." noise can be heard from the facility. In addition to the email indicated above, staff has received two phone calls, one from a commercial leasing agent opposing the request; this individual did not provide staff with a reason for opposing the request; and one phone call in support of the request as long as any future bar requires a subsequent approval by the City Council. Staff informed this individual that any bar use request is subject to the approval of the City Council for a Conditional Use Permit.

**STAFF
RECOMMENDATION****Recommended Approach:**

Staff recommended approval subject to the attached stipulations.

**OTHER BOARDS AND
COMMISSIONS****Planning Commission**

The Planning Commission heard this case on June 11, 2008; there were no public comments or Commission discussion regarding this specific rezoning request. The Planning Commission recommended approval of this rezoning request with a unanimous vote of 7-0.

The request is to rezone from C-1 (Neighborhood Commercial District) to C-2 (Central Business District). To learn more about the rezoning request, click on http://eservices.scottsdaleaz.gov/planning/fact_sheets.asp?casetype=ZN, then click on the 5-ZN-2008 link. This will take you to the case fact sheet for this project, and if you click on the link for Applicant's Submittal (left side of the screen under Request) you can read the Applicant's project description. You may also view the file by visiting our Current Planning office at 7447 E. Indian School Road.

Hi , I live in the neighborhood and was wondering what they plan to do with the site? Anything new like retail planned? I hope they update and improve it and that neighbors don't kill another project for this area.....Lisa Haskell

I received a flyer in the mail regarding a rezoning request, case number 5-ZN-2008. I was curious why the request was made. I wasn't able to find information online about this, can you please fill me in?

The rezoning request is in conjunction with two use permits also being requested to allow an existing restaurant to hold state bar liquor license. You may access the use permit case fact sheets (18-UP-2007 and 17-UP-2007) at http://eservices.scottsdaleaz.gov/planning/projectssummary/applicant_submittals/ProjInfo_18_UP_2007.pdf, and from there you can review the applicant narrative, site plans and floor plans.

I have saved your web email to the electronic and paper files, and forwarded a copy of it to the project coordinator, Dan Symer.

From: dan pegg [dpegg@san.rr.com]

Subject: Case no. 5-zn-2008

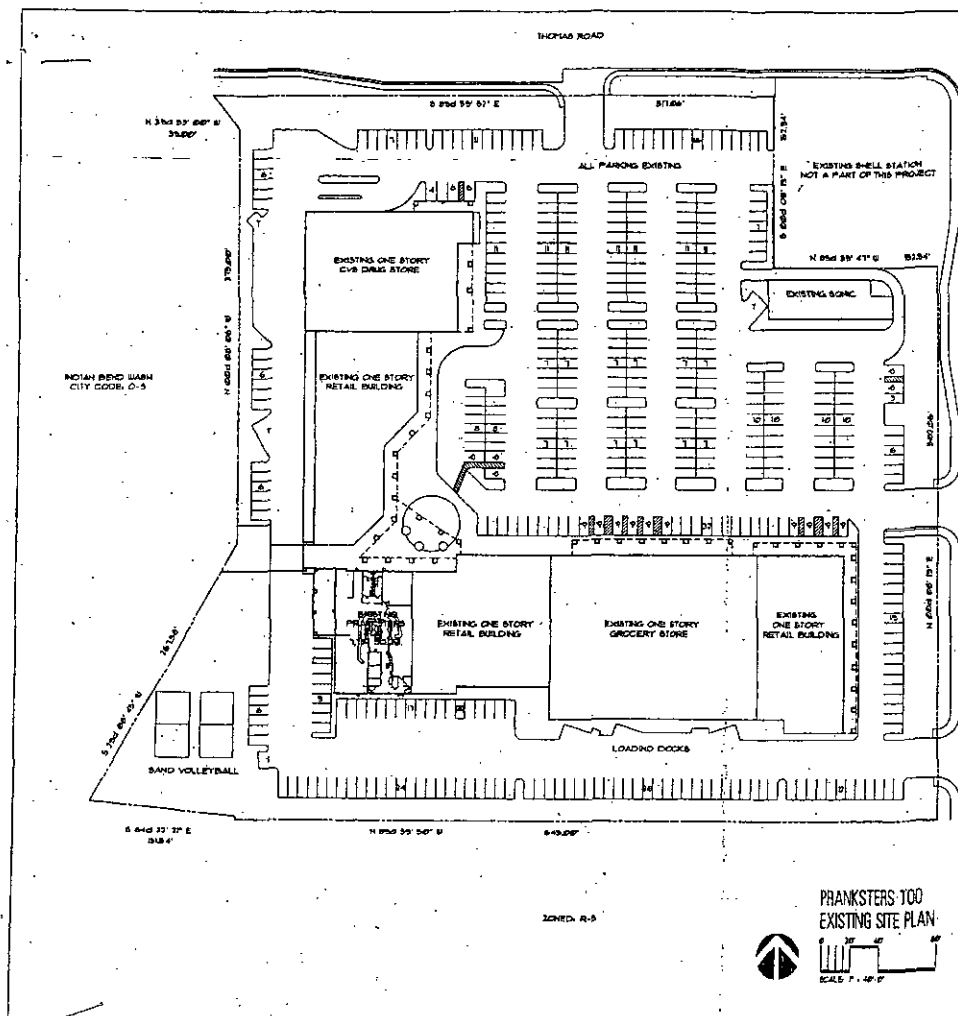

I am writing in response to a property owner update sent out by the city of Scottsdale to those owning property effected or potentially effected by the subject case number.

We own a condominium directly across the golf course/wash from the subject project. The applicant is requesting a rezone from C1 to C2. C2 allows for uses "not ordinarily compatible with residential development". As it stands now noise from the applicant's (Pranksters Too) facility can sometimes be heard into the early morning hours. Permitting any additional development, especially that which is "not ordinarily compatible with residential development" would compromise the pre existing neighbors quality of life and property values. For this reason I oppose any rezoning. Daniel Pegg, 7755 E. Thomas Road

Request by applicant for approval of a density incentive bonus for Single-Family Residential, Environmentally Sensitive Lands (R1-190 ESL) zoning to increase units from six to seven dwelling units on 28+/- acres of land located at 1170 E. Via Dona Road.

Mr. Howard Myers spoke about the importance of regulating open space in the NAOS areas. He reiterated his previous suggestion that a text amendment be developed defining meaningful open space and the requirements for obtaining density incentives. It is important to encourage off-lot open space because of the difficulties in regulating on-lot NAOS.

Vice-Chairman Heitel underscored Mr. Myers' comments, noting his previous requests for development of regulations. With the limited number of critical R1-90 areas left it is important to have a discussion about meaningful open space and the benefit to the City for granting extra lots. He stressed the importance of bringing a discussion forward before the City is placed in a position where they are required to give 25-percent bonuses to major projects for no return. He acknowledged the efforts of this Applicant to supply open space and small building envelopes.
