

Date: February 9, 2009

To: Councilman Tony Nelssen

From: Dr. Robert Cappel

Subject: February 16, 2010 Consent Agenda Item #15, Dos Diablos Conditional Use Permit (36-UP-2009)

Dear Tony,

My name is Dr. Robert Cappel and I am the President of the Board of Directors for the Winfield Home Owners Community Association. Winfield is a gated community of 511 homes located in north Scottsdale between Scottsdale and Hayden Roads on the east and west, and between Westland and Dove Valley Roads on the north and south. Winfield is north of the Summit shopping plaza where Dos Diablos is located, and there is currently only open desert between the Summit and a number of homes in Winfield.

In October, 2009, Dos Diablos submitted this Conditional Use Permit application (36-UP-2009) to the City staff to allow live entertainment and extended hours between 10:00 pm and 2:00 am. Apparently, the City staff granted approval for this from the time of initial application until the Planning Commission recently held their hearing on January 13, 2010 and voted to recommend approval to the City Council.

All of the areas surrounding the Summit are quiet, residential neighborhoods, including the sacred Indian land located just behind the Summit. All of the land in this area is also under Scottsdale's Environmentally Sensitive Lands Ordinance (ESLO), which should also dictate some restrictions on noise, including traffic noise and lights late at night. Winfield has always been very supportive of protecting the Sonoran Desert and is a member of the Coalition of Pinnacle Peak and the Greater Pinnacle Peak Association.

Public Notification of this permit application appeared to be a problem, as many of the residents around the Summit did not realize this application had been filed until a few days before the Planning Commission hearing on January 13, 2010. None of the residents in Winfield received notification in the mail and, although a number of our residents along Dove Valley Road had heard music late at night, they didn't realize it was coming from Dos Diablos. In spite of the fact that 16 to 18 area residents submitted comments opposing this permit application, with only the 2 owners supporting it, the Planning Commission voted 6-0 to recommend approval by the City Council.

None of our homeowners in Winfield want the additional noise and late night traffic that this application will bring to our quiet, rural residential neighborhoods. The Council is certainly aware of the problems that live entertainment and traffic late at night has created for residents in other areas of Scottsdale. We do not want these problems in north Scottsdale.

Unfortunately, the City does not currently have a noise ordinance. However, I understand that on March 23, 2010, the Director of Scottsdale Neighborhood Services will present the Council with options for a noise ordinance. Winfield is asking that the Council please remove item #15, Dos Diablos Conditional Use Permit (36-UP-2009, from the Consent Agenda. We are also asking the Council to deny their continued use of live entertainment until such time that the City has enacted a noise ordinance and the area residents are then able to assess the potential adverse effects late night music and traffic under this new ordinance.

Thank you in advance for your assistance on this matter.

Dr. Robert Cappel, President
Winfield Homeowners Community Association
