FEATURES & SPECIFICATIONS

INTENDED USE — For building- and wall-mounted applications.

CONSTRUCTION — Rugged die-cast, single-piece aluminum housing. Die-cast doorframe has a textured glass lens. Doorframe is fully sealed with a liquid-cell silicone seal.

Finish: Standard finish is textured dark bronze (DBTB) polyester powder finish, with other architectural colors available.

OPTICS — Hydroform reflector for superior uniformity and control. Vertical lamp orientation for improved lamp output and life.

ELECTRICAL — 10W-20W HPSM electronic ballast, high power factor ballast. 175W-200W utilizes a constant-voltage autotransformer ballast. Compact fluorescent utilizes an electronic high-frequency ballast. HEB medium wattage (10W) Quick-disconnect plug easily disconnects reflector from base and allows quick removal of lamp. Includes a 1-year and 100% factory tested. For HID, porcelain, medium-base socket with copper alloy, nickel-plated screw shank and center contact. Compact fluorescent is factory tested and includes a 1-year and 100% factory tested warranty. 80% efficient and EISA qualified compliant, are required for 131-200W (must order SCWA option) for US markets only. CSA, NOM or IHTL required for probe start shipments outside of the US. Ceramic metal halide lamps are recommended for use with this fixture. For color renderings, lumens, maintenance and longer life are desired.

INSTALLATION — Universal mounting plate with integral mounting bolt supports. Includes mounting hardware, one per unit.

LISTING — CSA listed safety standards (see Options). NOM Certified (see Options). IEC rated. HUL-13W and below listed to 40° C ambient. 200W listed to 20° C ambient. CT-1-AZ and above listed to 30° C ambient. Emergency options are available. Listed to 25° C ambient.

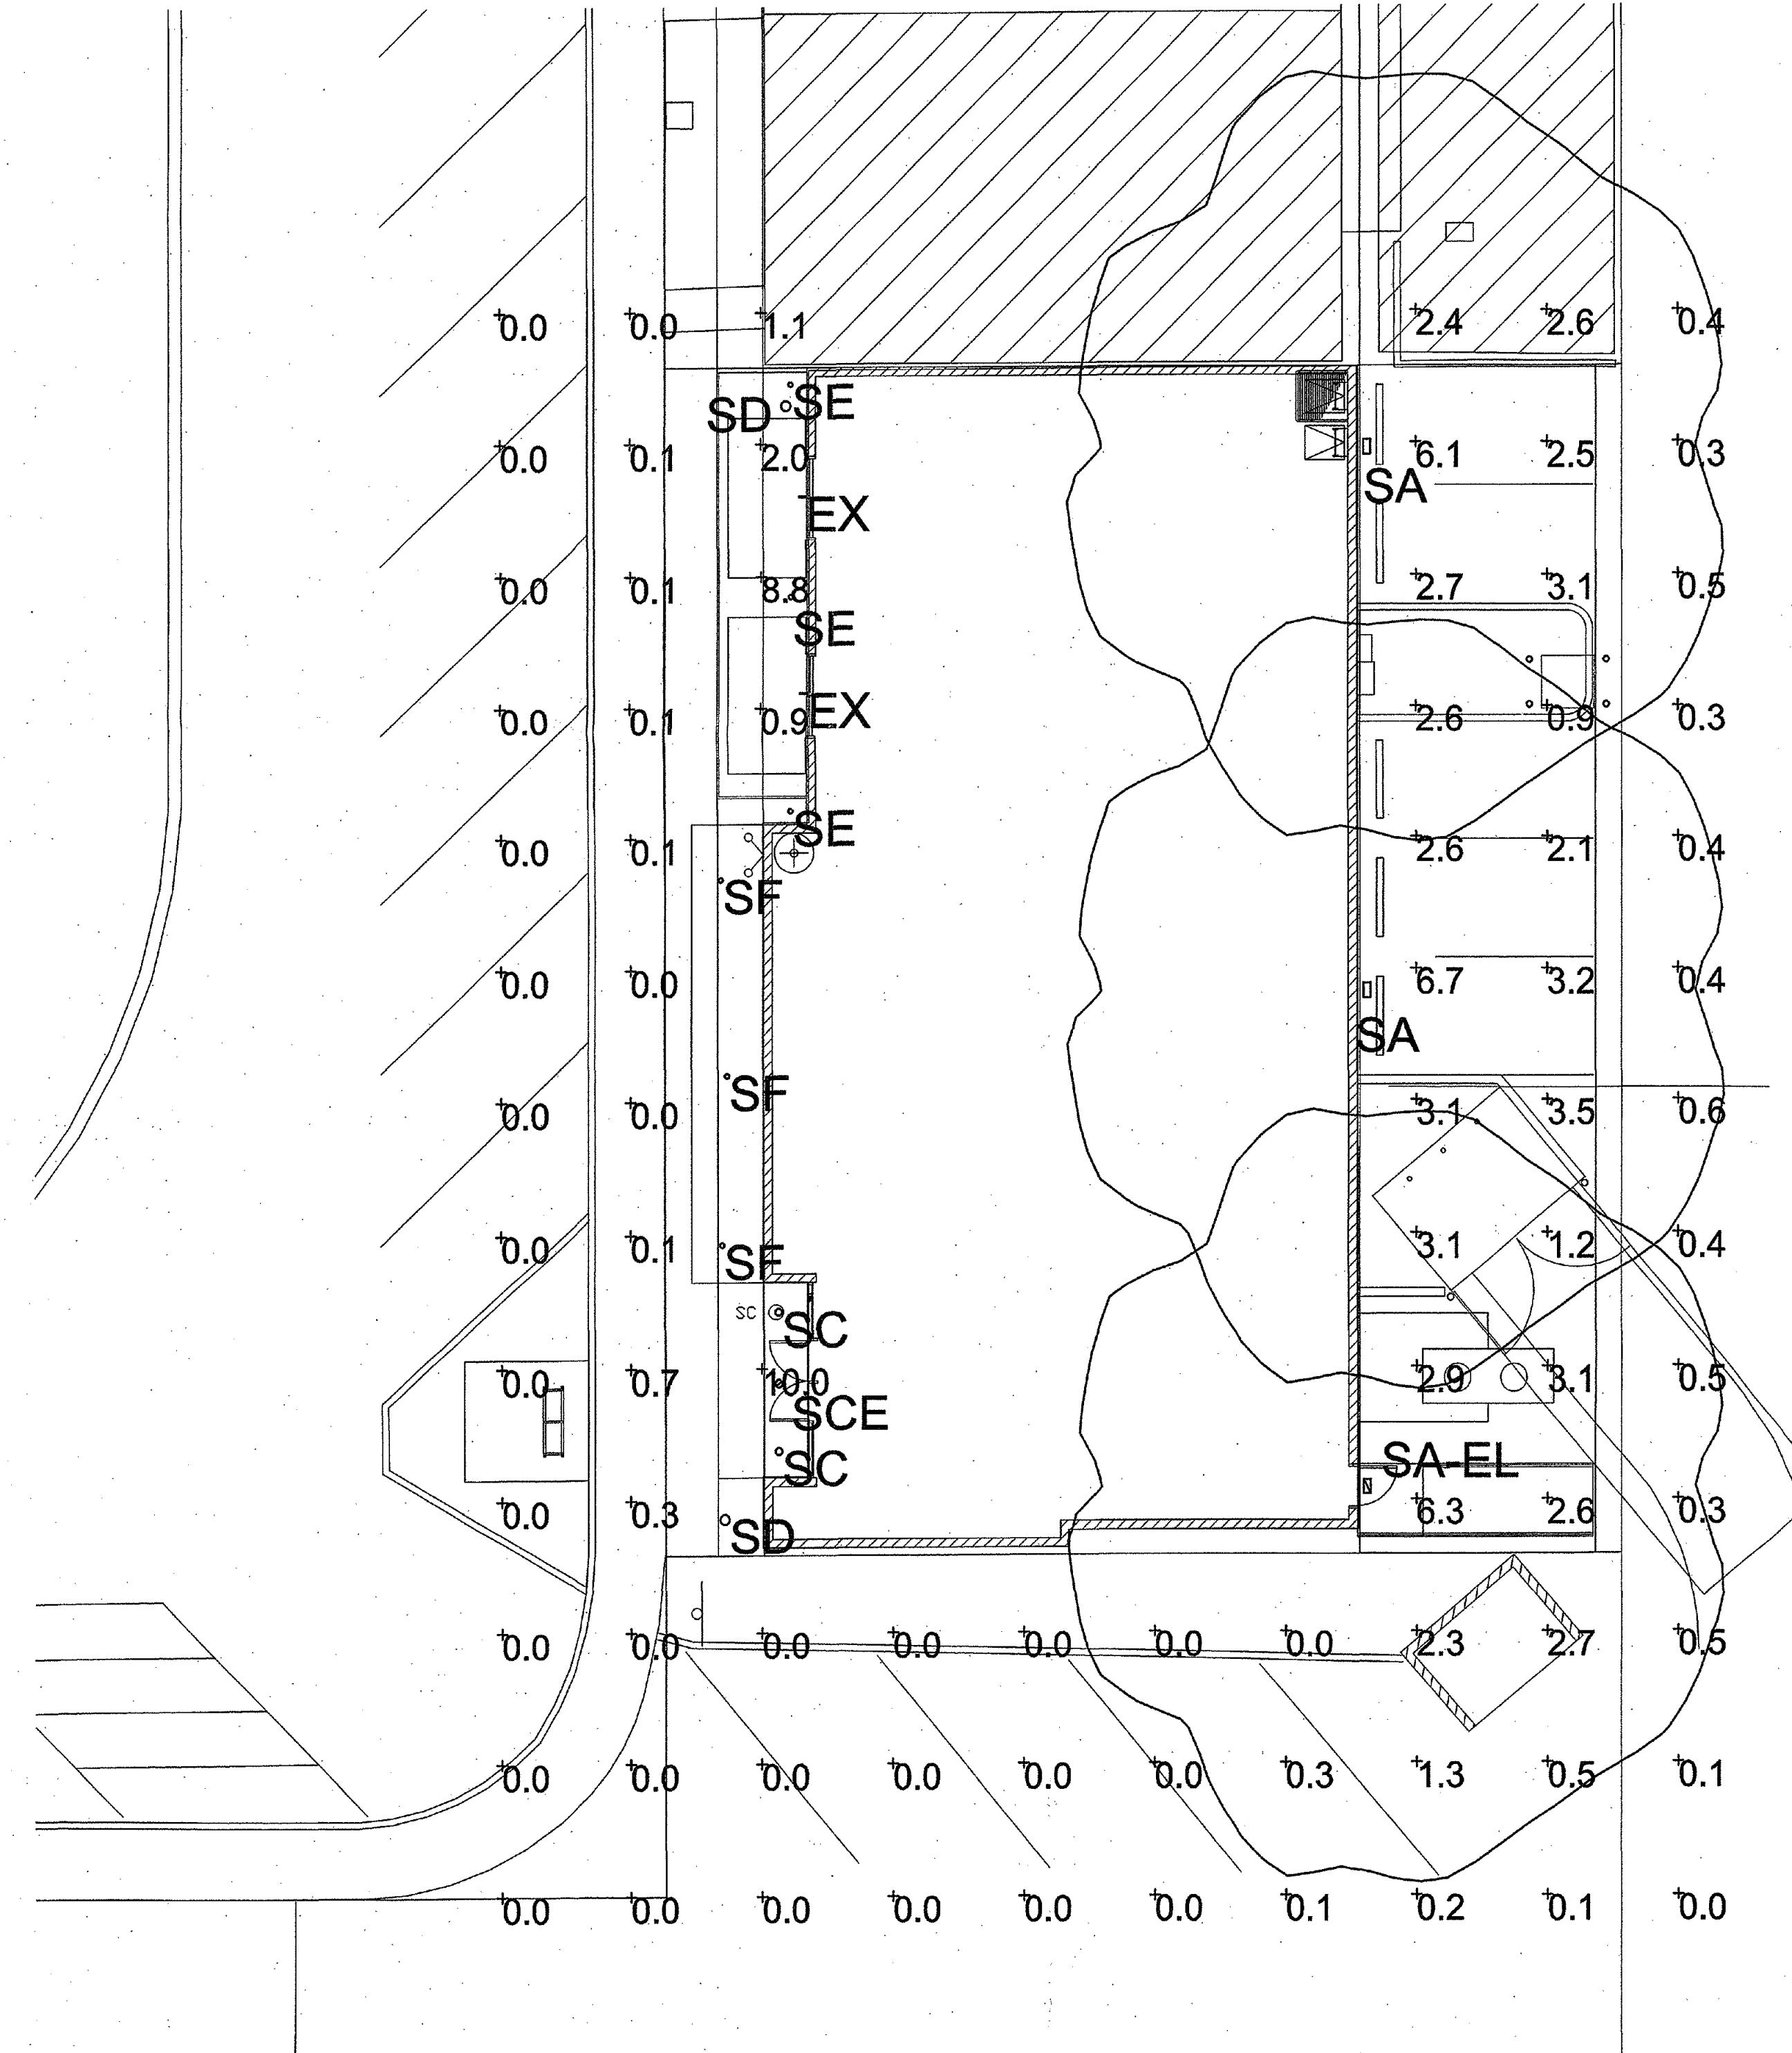

At dimensions are inches (centimeters) unless otherwise specified.

ORDERING INFORMATION

For shortest lead times, configure product using standard options (shown in bold). Example: TWF1 100M TB LP1
