Hello Dave,

First, be sure to submit the updated materials that will probably need to be recreated. Please resubmit a new Commitment for Title, Prop. 207 form, and Letter of Authorization. I will try to just have a phase two of the case number (ex. 2-PP-2008#2). Sometimes the PA like this, and sometimes they don't

Second, resubmit the case Drainage and Basis of Design reports to get a re-approval from Scott Strosnider and Doug Mann (7424-05-4 and 7424-05-5). Obviously, this will not entail a large review since the reports have been previously approved, we just don't want any surprises. I would meet with them first; they could tell you the quickest way to do this (Scott 312-7055, Doug 312-5636). Also provide two copies of the Project Data Sheet (showing the amended development standards, etc.).

Third, submit 2 copies of 24x36, 15 copies of 8.5x11, and 15 copies of 11x17, and one electronic copy of the following: Preliminary Plat, Open Space/NAOS graphic, building envelope graphic, and landscape plan.

Feel free to contact me with any questions or comments.

Sincerely,

Jesus
