General Plan Amendment Application Checklist

10. Provide Analysis of the Following:

Conf. WM

- If this is a General Plan land use amendment the proposed changes include _____ amount of acres/dwelling units/square footage changing from General Plan land use designation(s) _____ to General Plan land use designation(s) _____.
- The estimated increase or decrease in population this proposed General Plan amendment will create is _____ (circle one – increase or decrease or no change).
- The estimated increase or decrease in elementary, middle and high school age children this proposed General Plan amendment will create is _____ (circle one – increase or decrease or no change).
- The estimated impact this proposed General Plan change will have on water use per year will be _____ (circle one – increase or decrease or no change).
- The estimated impact this proposed General Plan change will have on wastewater generation per year is _____ (circle one – increase or decrease or no change).
- The estimated impact this proposed General Plan change will have on solid waste generation per year is _____/tons (circle one – increase or decrease or no change).
- The estimated impact this proposed General Plan change will have on vehicle trips per day is _____ (circle one – increase or decrease or no change).
- The estimated number of employees this proposed General Plan change will result in is _____ (circle one – increase or decrease or no change).
- A significant consideration of any proposed General Plan Amendment is the potential impact that a change in land use and/or development of property will have on dwelling unit, population and/or employment densities; public infrastructure and facilities demand; transportation networks; and the physical environment. The net resulting impacts of a proposed change might be favorable, unfavorable or of no effect, depending on the nature of the change and the size of the physical area that would be the subject of the change.
- The Advance Planning Unit of Scottsdale's Planning and Community Development Department has developed a Land Use Impact electronic spreadsheet model that enables an analysis and projection of the impacts of the use and development of land areas of any size in any of the city's Planning Zones and for any purpose proposed under the Land Use Element of the city's General Plan. The model runs on the Microsoft Office 2000 Excel program and is available at: <http://www.scottsdaleaz.gov/Assets/documents/bldgresources/LandUseImpactModel.xls>
The only input necessary to run the model is the total acreage included in a proposed GPA, by specified land use category; and the output is a single page table with summary listing and graph of all requisite impact data.
GPA applicants may contact the Advance Planning unit at 480-312-7990 for an appointment to have an in-house Land Use Impact model analysis run for the proposed GPA.

11. GP Element Analysis: provide discussion and analysis of any changes to all general plan elements that your proposed amendment would make, include narrative discussing those plans, goals, and/or policies proposed for changes (list each element & discuss the applicable plans & policies within each element as it relates to your proposed amendment).

12. Proposition 207 information handout (sample agreement provided)
