Hi Jeff,

It's Kim (on Brett's email)..

See Kim Chafin's email regarding the CUP – we used the entire square footage for building C because that was the only square footage we had available.

Can you please help me with the specific square footage for the Derby Public House that Kim Chafin is asking for?

Thank you!  
Kim Urness

Hey Brett!

I'm having trouble finding the interior gross square footage and the patio gross square footage. The Project Data Sheet that was filled out indicates 14,245 square feet of gross floor area, but just eyeballing the plans it certainly doesn't appear to be that large.

Please direct me to the portion of your application or plans that indicate the square footage, or email me those numbers. It's critical that we get these numbers precise, as parking is calculated based on the numbers, and the Use Permits will be stipulated to the square footage that you indicate.

Thanks, Brett!

Kim:  
We had filled the CUP with the footages for all of building C assuming we would be grouped together with them in regards to parking.  
I'm sorry, please find attached the footages for our individual space from our architect.

Thanks,
