1. INTRODUCTION

Location

The Scottsdale Executive Villas is comprised of two parcels totaling roughly 13 acres located at 6200-6390 East Thomas Road at the northwest corner of Thomas Road and 64th Street, Accessor Parcel No. 128-49-235, and 128-49-002H (the "Property"). However, this application for a Minor General Plan Amendment and Rezoning only pertains to a small portion of the Property which totals less than 3 acres. As seen on the exhibits, the area under consideration (the "rezoning area") is located on the south side of the Property towards Thomas Road.

Adjacent Zoning / Uses:

- North: R-4 (multifamily residential)
- East: Arizona Canal, 64th Street, then R-5 (multifamily residential)
- South: Thomas Road, then R1-10 (water treatment facility) and R-4 (multifamily residential)
- West: C-1 (Commercial shopping center)

Request

The Property is currently zoned Service-Residential (S-R) and has a General Plan designation of Office. Because this designation is not adequate to allow the required amenities for the renovated office project, this application seeks to rezone a portion of the Property to Neighborhood Commercial (C-1) with a General Plan designation of Commercial.

Purpose of Request

The purpose of this request is to obtain the entitlements necessary to provide amenities and services to the existing office complex. The Scottsdale Executive Villas was developed in early 1980's and has seen few improvements since that time. The new owners plan to maintain the existing buildings and site configuration, while implementing a series of upgrades including enhanced landscaping, new interiors, improved courtyards and new shade features. No new buildings or additional height are being requested.

As part of the improvements, two (2) of the existing buildings will be remodeled to allow a boutique café and possibly a small fitness center or other commercial service uses. These new amenities, totaling less than 3,500 square feet each, are positioned near the southern portion of the property close to Thomas Road. These amenities and commercial services are necessary to attract the more upscale tenants desired to lease space in the improved complex. The approval of this request will help upgrade and improve an aging office complex while also helping Scottsdale retain and attract highly sought after employers seeking creative office space.

2. PROJECT OVERVIEW

In order to achieve the project goals of improving the physical characteristics of the existing office complex, and therefore improving the quality of tenants attracted to the project, a cohesive and consistent design concept is proposed throughout the project. This concept involves returning the buildings themselves to their basic components and then interjecting pedestrian scaled elements throughout the site that create an enhanced sense of place.

It is proposed that the individual buildings will receive needed repairs and an overall refresh. This includes new glazing, roofing, and stucco repairs. Threaded between the buildings will be a new trellis to provide necessary shading and pedestrian orientation. The existing courtyards between the buildings are also scheduled to receive improvements that respect the existing trees, and in fact better support their future growth and viability, through an overall reduction in hardscape. The courtyard spaces are intended to provide a quite respite complimentary to the adjacent office spaces.

While parking modifications and improvements are minimal, the project goals include developing a more intuitive site where parking is clearly associated with individual building entries. The replacement of existing parking and overall site lighting with more energy efficient and site sensitive LED lighting is proposed. In addition, pedestrian connections throughout the parking will be enhanced to create a more connected site and a safer pedestrian environment.

By creating a refreshed and more connected office environment, the project intends to develop a sense of community that is currently lacking, which in turn will instill an overall sense of pride amongst its occupants. This sense of pride traditionally leads to a greater level of respect for the site as whole as well as the surrounding communities.

3. GENERAL PLAN CONFORMANCE

This Application Does Not Trigger the Requirements for a Major General Plan Amendment

The General Plan Conceptual Land Use Map designates the Property as Office. The proposed change to Mixed-Use Neighborhood does not meet the criteria for a Major General Plan Amendment as defined in the General Plan and discussed below:

- **Criteria No. 1 - Change in Land Use Category**
Per the table provided on page 20 of the General Plan, a change of land use category from Category E (Office) to Category E (Commercial) does not constitute a Major amendment.
- **Criteria No. 2 - Area of Change Criteria**
Per the map provided on page 21 of the General Plan, the Property is located within Planning Zone A1. In Zone A1, a change in land use designation for an area greater than 10 acres triggers a Major amendment. The proposed amendment area is only 2.52 acres (109,828 sf).
- **Character Area Criteria**
The Property is located within the Southern Scottsdale Character Area Plan and, as further outlined in this document, complies with the guidelines and standards embodied within this Character area. The proposal therefore does not trigger a Major amendment.
- **Water/ Wastewater Infrastructure Criteria**
The proposal will not result in a premature increase in the size of the master planned water transmission or sewer collection facility. In fact, the proposal will maintain the existing building in their current configuration with only minor changes in the allowable use of two small buildings. Therefore, the proposal does not trigger a Major amendment.

Conformance with the Six Guiding Principles

CityShape 2020 established six Guiding Principles as recommendations for reaffirming and improving the General Plan. The proposed rezoning and minor General Plan Amendment is in conformance with these guiding principles as outlined below:

1. **Preserve Meaningful Open Space**
The proposal will maintain and enhance the on-site open space by use of shade structures and outdoor seating areas, creating meaningful outdoor space which will enhance and preserve pedestrian connections.
2. **Enhance Neighborhoods**
The proposal will greatly improve a long-neglected office complex while also allowing for small amenity spaces to serve both the offices and the surrounding neighborhood. These improvements will greatly enhance and preserve the neighborhood.
3. **Seek Sustainability**

It is often said that the greenest building is a re-used building. The primary sustainability tactic for this project is the retrofitting of the existing buildings versus the environmental and resource cost of demolition and new construction. The retrofits performed on the buildings, including visually opening up the office spaces to the interior courtyards, will further reduce energy use.

4. Support Economic Vitality

The aging office complex is currently struggling to maintain and attract high-quality tenants, which is evidenced by the 50% occupancy rate. The proposal will help Scottsdale, and this particular neighborhood, retain and attract highly sought after employers seeking innovative and creative office space.

5. Advance Transportation

Currently, office tenants in the complex must leave the property (typically by vehicle) for basic services or amenities such as coffee or lunch. The proposal will change this, by providing on-site amenities that enable tenants to stay on-site while reducing vehicle dependency. A series of new bike racks will also be installed to encourage non-vehicle trips and take advantage of the adjacent canal path. Overall these combined efforts will reduce vehicle trip generation.

6. Value Scottsdale's Unique Lifestyle and Character

Southern Scottsdale provides the opportunity to live, work and play in close proximity without the need for distant commutes. The renovation of this existing office complex and the provision of some small on-site amenities will further enhance the unique lifestyle and character of this area.

General Plan Goals and Approaches

The proposed rezoning and minor General Plan Amendment would support the following goals and policies of the General Plan Guiding Principles as outlined below:

(CD) Character & Design

CD Goal 1 – Determine the appropriateness of all development in terms of community goals, surrounding area character, and the specific context of the surrounding neighborhood.

- *Approach: Enrich the lives of all Scottsdale citizens by promoting safe, attractive, and context compatible development.*
- *Approach: Encourage projects that are responsive to the natural environment, site conditions, and unique character of each area, while being responsive to people's needs.*

Response: The property has already been developed in a compatible manner with the surrounding context and character. This proposal will help to maintain that compatibility by preserving the existing buildings and site configuration while providing the modern enhancements needed to keep the complex viable and attractive.

CD Goal 7 – Encourage sensitive outdoor lighting that reflects the needs and character of different parts of the city.

- *Approach: Establish lighting standards that relate to the ambient lighting designations contained within the 2000 I.E.S. standards revisions.*
- *Approach: Encourage lighting designs that minimize glare and lighting intrusions.*

Response: Current lighting on site features dated and upward facing lights. Redevelopment of the site will incorporate downward facing and/or shielded lighting, and more energy efficient light fixtures to minimize glare and spill-over of light.

(LU) Land Use Element

LU Goal 3 – *Encourage the transition of land uses from more intense regional and citywide activity areas to less intense activity areas within local neighborhoods.*

- *Approach: Ensure that neighborhood edges transition to one another by considering appropriate land uses, development patterns, character elements and access to various mobility networks.*

Response: The office complex provides a transition from the intensity of Thomas Road to the residential neighborhoods to the north. A redevelopment plan which does not maintain the existing buildings would likely provide a more intense development than what currently exists. The applicant believes the proposed redevelopment, which maintains the existing buildings, configuration, heights, etc. is the optimal way of maintaining a proper buffer and transition while still keeping the complex relevant in today's office market.

LU Goal 5 – *Develop land use patterns that are compatible with and support a variety of mobility opportunities/choices and service provisions.*

- *Approach: Integrate the pattern of land uses and mobility systems in ways that allow for shorter and fewer automobile trips and greater choices for mobility.*
- *Approach: Encourage non-motorized (pedestrian and bicycle) access/circulation within and to mixed-use centers to reduce reliance on the automobile.*
- *Approach: Provide a balance of live, work, and play land uses and development intensities that enable convenient non-automotive trips (pedestrian and cycling and transit) where environmentally and physically feasible.*

Response: Currently, office tenants in the complex must leave the property (typically by vehicle) for basic services or amenities such as coffee or lunch. The proposal will change this, by providing a few minor on-site amenities (i.e. a coffee shop, eatery, small fitness or yoga studio, etc.) that will encourage fewer automobile trips and a better balance of live, work play land uses for the area. New bike racks will also be installed to provide further mobility options and take advantage of the adjacent canal path.

LU Goal 8 – *Encourage land uses that create a sense of community among those who work, live, and play within local neighborhoods.*

- *Approach: Promote development patterns and standards that are consistent with the surrounding uses and reinforce an area's character.*

Response: Creating a sense of community while reinforcing the area's character is a key aspect of this proposal. The retrofitted buildings and improved courtyard will encourage intermingling among office tenants and visitors. The amenities will be open to the surrounding community, further encouraging a sense of community.

(EV) Economic Vitality Element

EV Goal 7 – *Sustain the long-term economic well-being of the city and its citizens through redevelopment and revitalization efforts.*

- *Approach: Encourage quality redevelopment in employment areas to provide new jobs, new retail, and new entertainment opportunities in the Scottsdale market.*
- *Approach: Encourage and support the renovation and reuse of underutilized or vacant parcels/buildings/shopping centers.*

Response: The proposal will enable the redevelopment and revitalization of an office complex that will help sustain the long-term economic well-being of the City. The property is in need of major repairs and upgrades to stay relevant in the office market and to capture the desired office tenants that might otherwise located outside of the City.

(N) Neighborhood Element

N Goal 2 – *Use redevelopment and revitalization efforts to provide for the long-term stability of Scottsdale's mature residential and commercial neighborhoods.*

- *Approach: Use revitalization and redevelopment tools to help maintain the community's mature neighborhoods, thus sustaining Scottsdale's quality of life and the aesthetics of its built environment. Residential and commercial deterioration in mature neighborhoods reflects negatively on the community as a whole.*

Response: The proposal is a perfect example of revitalization efforts in a mature neighborhood aimed at stemming deterioration. The existing complex, build in the 1980's is in need of major improvements which require a major economic investment. The approval of this request will enable those improvements to proceed.

(PE) Preservation and Environmental Planning Element

PE Goal 10 – *Encourage environmentally sound "green building" alternatives that support sustainable desert living.*

- *Approach: Incorporate healthy, resource- and energy-efficient materials and methods in design, construction, and remodeling of buildings.*
- *Approach: Encourage "green building" techniques and alternatives in conjunction with revitalization, neighborhood conservation and redevelopment efforts.*

Response: One of the best sustainability tactics in real estate development is the reuse of existing buildings. This provides a dramatic benefit when compared to the energy and resources required

to demolish and construct new buildings. Additionally, the planned retrofits and improvements will increase shade while allowing for greater use of natural daylighting of interior spaces.

4. SOUTHERN SCOTTSDALE CHARACTER AREA PLAN CONFORMANCE

The Southern Scottsdale Character Area Plan (SSCAP) was adopted in 2010 for the purpose of setting forth goals and policies to guide decision making in Southern Scottsdale. The proposed project adheres to numerous provisions of the SSCAP, including some of the standards outlined below:

(LU) Land Use, Growth & Activity Area

PE Goal 10 – *Create Regional Centers and Activity Areas to guide future land use types and intensities throughout southern Scottsdale.*

- *Policy LU 5.3: Encourage moderate-intensity development at Activity Area locations to support reinvestment, revitalization, and new and infill development at these community destination sites. Also, these developments can function as activation areas for adjacent community amenities such as Indian Bend Wash and the canal system. These developments are located within General Plan designated Activity Area classifications, on Opportunity Corridor roadways, and are considered a community destination.*
- *Policy LU 5.4.1: The Thomas/Crosscut Activity Area (located west of 68th Street and Thomas Road) should focus on commercial, office, and mixed-use residential development. This Activity Area encompasses the adjacent Crosscut Canal and associated open spaces. New development and redevelopment should be oriented to complement and activate this unique adjacent amenity.*

Response: The Property is located immediately adjacent to the Thomas/Crosscut Activity Area and has immediate access to the Crosscut bike and pedestrian pathway. The proposal represents a significant investment in the revitalization of this office complex and the creation of community amenities (coffee shop, eatery, health studio, etc.) which could be accessed by the surrounding community and activity area.

(CD) Character & Design

CD Goal 2 – *The character and design of mixed-use and commercial development should accommodate a variety of land uses, engage pedestrians, and extend indoor spaces to the outside.*

- *Policy CD 2.1: Encourage pedestrian-oriented site design for new and revitalized development within Corridors, Regional Centers, and Activity Areas.*

Response: The proposed building modification and new amenity uses will engage pedestrians and extend the indoor spaces to the outside. The existing courtyards are overgrown and inefficient while the existing buildings are cave-like with minimal connection to the exterior. The proposed improvements will include large windows, patios and better organized courtyards to help visually blur the division between indoor and outdoor spaces.

CD Goal 6 – *Promote, plan, and implement design strategies that are sustainable.*

- *Policy CD 6.4: Encourage the use of sustainable design principles for remodeling and new development projects to mitigate building construction and operational impacts on the environment.*

Response: As previously noted, the most sustainable buildings are often the existing buildings when compared with the energy and resources required to demolish and construct new structures. The proposal will maintain the existing building structures while implementing a variety of sustainable design strategies. New building codes will be observed while performing the build-out, further improving the building's energy performance.

CD Goal 7 – *Protect low-scale single-family neighborhoods within southern Scottsdale by utilizing landscape buffers and transitional building forms, shapes, and sizes in the design of new development and redevelopment.*

- *Policy CD 7.3: Respect, protect, and enhance established suburban neighborhoods as assets within Southern Scottsdale, while allowing for contemporary solutions to evolving development and market trends.*

Response: The proposal is a perfect example of the above stated Goal and Policy. The existing building form and design is ideal as a transitional buffer to the adjacent neighborhood, while the contemporary redevelopment design solution will help address the current lack of marketability. Both of these strategies will help to protect the existing multi and single family neighborhood.

(EV) Economic Vitality

EV Goal 2 – *Enhance economic vitality and activity in Southern Scottsdale.*

- *Policy EV 2.1: Encourage new business and real estate development that will expand the community's tax base and support the long-term economic sustainability of Southern Scottsdale.*

Response: The proposal represent an opportunity to support the long-term economic sustainability of Southern Scottsdale by enabling a redevelopment that will attract new, quality businesses and an expanded tax base. The complex will increase occupancy at higher rent rates, providing increased tax collection.

(NR) Neighborhood Revitalization

NR Goal 2 – *Strengthen neighborhood identity, unity, and health within Southern Scottsdale.*

- *Policy NR 3.3: Enhance Southern Scottsdale residents' neighborhood interaction by creating more community gathering places that engage people of all ages and abilities and are safe and accessible by walking, bicycling, auto, and/or transit.*
- *Policy NR 3.4: Work with developers to provide community gathering places in private developments that are accessible to the surrounding community and appeal to both residents and visitors.*

Response: Two of the buildings within the office complex will be retrofitted to allow small commercial establishments (such as a coffee shop, restaurant, fitness studio, or other small amenity uses). The goal is to create a gathering place for the office tenants and the local community alike. The proximity and connectivity to the adjacent neighborhood will be able residents to walk or bike over for a casual coffee or a great lunch.

(PE) Preservation & Environmental Planning

PE Goal 1 – *Promote conservation and sustainability within neighborhoods.*

- *Policy PE 1.1: Encourage green building practices, techniques, incentives, and energy efficiency programs in neighborhood development to support sustainable urban desert living.*

Response: As previously noted, one of the best sustainability tactics in real estate development is the reuse of existing buildings. This provides a dramatic benefit when compared to the energy and resources required to demolish and construct new buildings. The planned retrofits to the existing buildings and courtyard will also provide more energy efficiency buildings through the use of shade and natural daylighting strategies.

5. CONFORMANCE WITH ZONING DESIGNATIONS

The Property is currently zoned Service-Residential (S-R) and the majority of the office complex will maintain this designation. The area being rezoned to Neighborhood Commercial (C-1) is located adjacent to Thomas Road and consists of only 2.5 acres within the larger complex. The rezoning will allow for appropriate amenities uses to occur within two of the existing buildings in the complex. The stated purpose of the Neighborhood Commercial district is to provide convenient shopping and services for nearby neighborhoods and to provide *"small business and service establishments which supply commodities and services to meet the daily needs of the community."* The proposal will meet the stated goal of the zoning district and the small size of the area ensures proposed uses will be appropriately sized for this location.

6. CONCLUSION

As outlined in this narrative and as seen in the application exhibits, the proposal meets and exceeds numerous stated goals of the General Plan and the South Scottsdale Character Area Plan. The project will breathe new life into an aging complex and bring new, high-quality tenants into the center. All of this will be accomplished while maintaining the existing building footprints and general site layout. This is precisely the type of redevelopment envisioned by these applications and beneficial to the surrounding area and South Scottsdale as a whole.

Request for Site Visits and/or Inspections Development Application (Case Submittals)

This request concerns all property identified in the development application.

Pre-application No: 682 - PA - 2015

Project Name: Scottsdale Executive Villas

Project Address: 6200-6390 East Thomas Road, Scottsdale

STATEMENT OF AUTHORITY:

1. I am the owner of the property, or I am the duly and lawfully appointed agent of the property and have the authority from the owner to sign this request on the owner's behalf. If the land has more than one owner, then I am the agent for all owners, and the word "owner" refer to them all.
2. I have the authority from the owner to act for the owner before the City of Scottsdale regarding any and all development application regulatory or related matter of every description involving all property identified in the development application.

STATEMENT OF REQUEST FOR SITE VISITS AND/OR INSPECTIONS

1. I hereby request that the City of Scottsdale's staff conduct site visits and/or inspections of the property identified in the development application in order to efficiently process the application.
2. I understand that even though I have requested the City of Scottsdale's staff conduct site visits and/or inspections, city staff may determine that a site visit and/or an inspection is not necessary, and may opt not to perform the site visit and/or an inspection.

Rezoning

Development Application Checklist

Minimal Submittal Requirements:

At your pre-application meeting, your project coordinator will identify which items indicated on this Development Application checklist are required to be submitted. A Development Application that does not include all items indicated on this checklist may be rejected immediately. A Development Application that is received by the City does not constitute that the application meets the minimum submittal requirements to be reviewed.

In addition to the items on this checklist, to avoid delays in the review of your application, all Plans, Graphics, Reports and other additional information that is to be submitted shall be provided in accordance with the:

- requirements specified in the Plan & Report Requirements For Development Applications Checklist;
- Design Standards & Policies Manual;
- requirements of Scottsdale Revised Code (including the Zoning Ordinance); and
- stipulations, include any additional submittal requirements identified in the stipulations, of any Development Application approved prior to the submittal of this application.

If you have any question regarding the information above, or items indicated on this application checklist, please contact your project coordinator. His/her contact information is on the page 11 of this application.

Please be advised that a Development Application received by the City that is inconsistent with information submitted with the corresponding pre-application may be rejected immediately, and may be required to submit a separate: pre-application, a new Development Application, and pay all additional fees.

Prior to application submittal, please research original zoning case history to find the original adopted ordinance(s) and exhibit(s) to confirm the zoning for the property. This will help to define your application accurately. The City's full-service Records Department can assist.

PART I -- GENERAL REQUIREMENTS
