Re: The Cortesian Apartments
7749 E Camelback Road
Scottsdale, AZ 85251

Cortesian Apartments
7749 E Camelback Road, Scottsdale, AZ 85251
Pre-Application #

To whom it may concern:

Please accept the following as our **project narrative** regarding the above referenced project. This Information will describe the project intent in response to the Development Review Board Criteria as defined in the Scottsdale Zoning Ordinance Sec. 1.904.

REQUEST:

The purpose of this request is to obtain the Development Review Board (DRB) approval for a new 12'-0" high x 24'-0" wide Building Mural east of the primary entrance on Camelback road.

VISION FOR THE PROJECT:

The project goal is to enhance the experience of community, staff, and residents by providing an artistic mural of the native landscape east of the new leasing office. As a result, the improvements strive to provide a new image along Camelback further supporting the City of Scottsdale's efforts to support the Arts with an updated apartment community that represents high quality, modern living near the vibrancy of downtown Scottsdale.

Location and use:

The project is located at 7749 E Camelback Rd between North 78th Street and North Parkway Avenue.

Approval Criteria:

1. The Architectural character, landscaping and site design of the proposed development shall:
 - a. *Promote a desirable relationship of structures to one another, to open spaces and topography, both on the site and in the surrounding neighborhood*
 - i. The project proposes to enhance the architecture of the existing residential buildings with muted desert colors to enrich the pedestrian experience. The new wall mural will embrace a slightly more modern statement at the primary entrance utilizing a Native landscape design with a vibrant and responsive desert color pallet.

- b. Avoid excessive variety and monotonous repetition
 - i. The mural is a custom artwork implementing various desert responsive colors at the main property entrance and pedestrian interaction zone to avoid monotony, providing distinctive character to the property while respecting downtown Scottsdale and the neighboring properties.

Architectural Character and Materials:

Entry Mural:

The architectural character of the new mural sets itself apart with a unique native landscape design with a vibrant and responsive desert color pallet in an effort to achieve multiple goals. First, to clearly identify the primary entrance to the project. This allows both residents and guest alike an easily identifiable point of entry to begin navigation of this large site. Secondly, it provides a unique point on interest along Camelback Road by breaking up the repetitive nature of the apartment buildings.

The General Plan:

1. *Determine the appropriateness of all development in terms of community goals, surrounding area character, and the specific context of the surrounding neighborhood.*
 - a. The proposed improvements to Cortesian respect and improve the surrounding area character by subduing the current mass and scale of the buildings, providing for a more comfortable and appropriate pedestrian scale. A primary goal is to limit the attention given to the dated details of the building itself and draw attention to the foreground and space nearest to the pedestrian. The project improvements within the pedestrian zone also draw from native landscapes prevalent in the context of the surrounding areas working with the more modern design to complement the transition to the downtown.
2. Review the design of all development proposals to foster quality design that enhances Scottsdale as a unique southwestern desert community.
 - a. The neutral color palette and textures of the materials and finishes of the Leasing and Fitness Center provide for a visually engaging architecture at the primary entrance to the project. Utilizing a native landscape mural to break down the building massing of the adjacent apartment building complements the simple forms and shifting planes created by the leasing and fitness building for unique vista from and into the building. Each of these elements suggest long vistas as is present in the general narrative of the southwest.
3. Encourage "streetscapes" for major roadways that promote the city's visual quality and character, and blend into the character of the surrounding area.
 - a. The general character of the surrounding area is low scale, multifamily residential of various dated architecture styles. The one positive consistency is texture and landscape. Additionally, this project site abuts Camelback road and is an introduction to the more modern architecture of the Scottsdale entertainment district. With those thoughts in mind, the proposed mural embraces an idea of vibrant simplicity in the native landscape design and color selections of a more modern, complementary statement at the entry.

1. The design character of any area should be enhanced and strengthened by new development.

- *Building design should consider the distinctive qualities and character of the surrounding context and, as appropriate, incorporate those qualities in its design.*

The proposed mural embraces an idea of vibrant simplicity in the native landscape design and color selections embracing a more modern, complementary statement at the entry. It was designed in concert and in consideration of the surrounding materials, color palette and relationship to Camelback Road. See photo simulation exhibit.

- *Building design should be sensitive to the evolving context of an area over time.*

The Mural is designed to be enduring, not trending, using a slightly modern technique to a native local landscape, preserving and enhancing the context and character of the area.

2. Development, through appropriate siting and orientation of buildings, should recognize and preserve established major vistas, as well as protect natural features such as:

- *Scenic views of the Sonoran desert and mountains*

Scenic views are not a significant quality of site. Site is brownfield and does not contain natural features to protect. The proposed mural does not, in any way, affect vistas.

- *Archaeological and historical resources*

The site is brownfield and has no archaeological or historic features to protect.

3. Development should be sensitive to existing topography and landscaping.

- *A design should respond to the unique terrain of the site by blending with the natural shape and texture of the land while minimizing disturbances to the natural environment.*

The site is virtually flat and the new mural will reduce the perceived massing of the existing structures while providing a natural feel and depth in consideration of its topography.

4. The design of the public realm, including streetscapes, parks, plazas and civic amenities, is an opportunity to provide identity to the community and to convey its design expectations

- *Streetscapes should provide continuity among adjacent uses through use of cohesive landscaping, decorative paving, street furniture, public art and integrated infrastructure elements.*

The proposed mural and property streetscape emphasize a sustainable pedestrian landscape zone of appropriate density along Camelback Road as a dialogue with the existing character of the neighborhood.

5. The design of the built environment should respond to the desert environment:

- *Materials with colors and coarse textures associated with this region should be utilized.*

The proposed colors palettes creates a quiet, yet confident composition complementary to both the local context and the broader context of the Sonoran Desert. All colors draw from the colors of the Sonoran desert landscape.

Summary

The project successfully meets the intent of the Development Review Board criteria as well as the relevant goals of the General Plan. As stated the project enhancements will:

1. The mural updates the existing property facing Camelback with desert colors to become a backdrop to the more important pedestrian zones.
2. The mural updates the existing building Camelback Road, south of the entrance, to respond to the more active and textural materials found leading into downtown Scottsdale.
3. Provide for a new more modern yet vibrant native landscape mural to highlight primary entrance to the project.
4. The new mural updates and enhances the pedestrian zone and street scape along Camelback Road, this ultimately reflects and responds to a residential urban setting in which it is located.
5. The mural to reduce the perceived massing of the apartment building facing Camelback Road.
6. The Mural provides variety along Camelback Road to reduce monotonous repetition.

Thank you for your consideration.

Development Application

Review Methodologies

Review Methodologies

The City of Scottsdale maintains a business and resident friendly approach to new development and improvements to existing developments. In order to provide for flexibility in the review of Development Applications, and Applications for Permitting, the City of Scottsdale provides two methodologies from which an owner or agent may choose to have the City process the application. The methodologies are:

1. Enhanced Application Review Methodology

Within the parameters of the Regulatory Bill-of-Rights of the Arizona Revised Statutes, the Enhanced Application Review method is intended to increase the likelihood that the applicant will obtain an earlier favorable written decision or recommendation upon completion of the city's reviews. To accomplish this objective, the Enhanced Application Review allows:

- the applicant and City staff to maintain open and frequent communication (written, electronic, telephone, meeting, etc.) during the application review;
- City staff and the applicant to collaboratively work together regarding an application; and
- City staff to make requests for additional information and the applicant to submit revisions to address code, ordinance, or policy deficiencies in an expeditious manner.

Generally, the on-going communication and the collaborative work environment will allow the review of an application to be expedited within the published Staff Review Time frames.

2. Standard Application Review Methodology:

Under the Standard Application Review, the application is processed in accordance with the Regulatory Bill-of-Rights of the Arizona Revised Statutes. These provisions significantly minimize the applicant's ability to collaboratively work with City Staff to resolve application code, ordinance, or policy deficiencies during the review of an application. After the completion the city's review, a written approval or denial, recommendation of approval or denial, or a written request for additional information will be provided.

The City is not required to provide an applicant the opportunity to resolve application deficiencies, and staff is not permitted to discuss or request additional information that may otherwise resolve a deficiency during the time the City has the application. Since the applicant's ability to collaboratively work with Staff's to resolve deficiencies is limited, the total Staff Review Time and the likelihood of a written denial, or recommendation of denial is significantly increased.

In addition to the information above, please review the Development Application, and/or the Application for Permitting flow charts. These flow charts provide a step-by-step graphic representation of the application processes for the associated review methodologies.

Note:

1. Please see the Current Planning Services and Long Range Planning Services Substantive Policy Statements and Staff Review Timeframes for Development Applications, number III.

Arizona Revised Statutes Notice

§9-834. Prohibited acts by municipalities and employees; enforcement; notice

- A. A municipality shall not base a licensing decision in whole or in part on a licensing requirement or condition that is not specifically authorized by statute, rule, ordinance or code. A general grant of authority does not constitute a basis for imposing a licensing requirement or condition unless the authority specifically authorizes the requirement or condition.
- B. Unless specifically authorized, a municipality shall avoid duplication of other laws that do not enhance regulatory clarity and shall avoid dual permitting to the maximum extent practicable.
- C. This section does not prohibit municipal flexibility to issue licenses or adopt ordinances or codes.
- D. A municipality shall not request or initiate discussions with a person about waiving that person's rights.
- E. This section may be enforced in a private civil action and relief may be awarded against a municipality. The court may award reasonable attorney fees, damages and all fees associated with the license application to a party that prevails in an action against a municipality for a violation of this section.
- F. A municipal employee may not intentionally or knowingly violate this section. A violation of this section is cause for disciplinary action or dismissal pursuant to the municipality's adopted personnel policy.
- G. This section does not abrogate the immunity provided by section 12-820.01 or 12-820.02.

Development Review

Development Application Checklist

Minimal Submittal Requirements:

At your pre-application meeting, your project coordinator will identify which items indicated on this Development Application checklist are required to be submitted. A Development Application that does not include all items indicated on this checklist may be rejected immediately. A Development Application that is received by the City does not constitute that the application meets the minimum submittal requirements to be reviewed.

In addition to the items on this checklist, to avoid delays in the review of your application, all Plans, Graphics, Reports and other additional information that is to be submitted shall be provided in accordance with the:

- requirements specified in the Plan & Report Requirements For Development Applications Checklist;
- Design Standards & Policies Manual;
- requirements of Scottsdale Revised Code (including the Zoning Ordinance); and
- stipulations, including any additional submittal requirements identified in the stipulations, of any Development Application approved that this application is reliant upon; and
- the city's design guidelines.

If you have any question regarding the information above, or items indicated on this application checklist, please contact your project coordinator. His/her contact information is on the page 12 of this application.

Please be advised that a Development Application received by the City that is inconsistent with information submitted with the corresponding pre-application may be rejected immediately, and may be required to submit a separate: pre-application, a new Development Application, and pay all additional fees.

Prior to application submittal, please research original zoning case history to find the original adopted ordinance(s) and exhibit(s) to confirm the zoning for the property. This will help to define your application accurately. The City's full-service Records Department can assist.

A New Phase to an old Project Number: _____

Required Notice

Pursuant to A.R.S. §9-836, an applicant/agent may request a clarification from the City regarding an interpretation or application of a statute, ordinance, code or authorized substantive policy, or policy statement. Requests to clarify an interpretation or application of a statute, ordinance, code, policy statement administered by the Planning and Development Services Division, including a request for an interpretation of the Zoning Ordinance, shall be submitted in writing to the One Stop Shop to the attention of the Planning and Development Services Director. All such requests must be submitted in accordance with the A.R.S. §9-839 and the City's applicable administrative policies available at the Planning and Development Services Division's One Stop Shop, or from the city's website: <http://www.scottsdaleaz.gov/bldgresources/forms>.

Development Applications Process

Enhanced Application Review

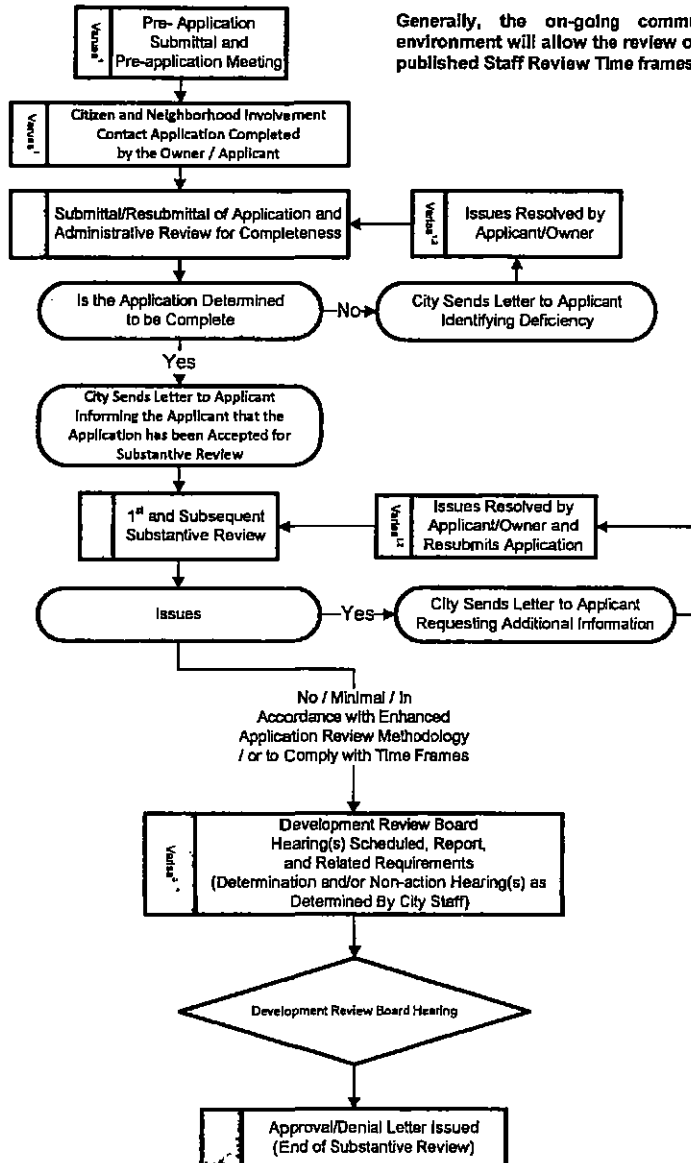

Development Review (DR and PP)

Enhanced Application Review Methodology

Within the parameters of the Regulatory Bill-of-Rights of the Arizona Revised Statutes, the Enhanced Application Review method is intended to increase the likelihood that the applicant will obtain an earlier favorable written decision or recommendation upon completion of the city's reviews. To accomplish this objective, the Enhanced Application Review allows:

- the applicant and City staff to maintain open and frequent communication (written, electronic, telephone, meeting, etc.) during the application review;
- City staff and the applicant to collaboratively work together regarding an application; and
- City staff to make requests for additional information and the applicant to submit revisions to address code, ordinance, or policy deficiencies in an expeditious manner.

Generally, the on-going communication and the collaborative work environment will allow the review of an application to be expedited within the published Staff Review Time frames.

- Note:
1. Time period determined by owner/applicant.
 2. All reviews and time frames are suspended from the date a the letter is issued requesting additional information until the date the City receives the resubmittal from the owner/applicant.
 3. The substantive review, and the overall time frame time is suspended during the public hearing processes.
 4. Owner/applicant may agree to extend the time frame by 50 percent

Time Line

Administrative Review	Substantive Review	Public Hearing Process	Approval/Denial
45 Staff Working Days (15 Pre-Review)	95 Total Staff Working Days, Multiple Reviews in This Time Frame ^{2,3,4}	Time Frames Vary ³	Letter Issued

Planning and Development Services
7447 E Indian School Road, Suite 105, Scottsdale, AZ 84251 • Phone: 480-312-7000 • Fax: 480-312-7088

Development Applications Process

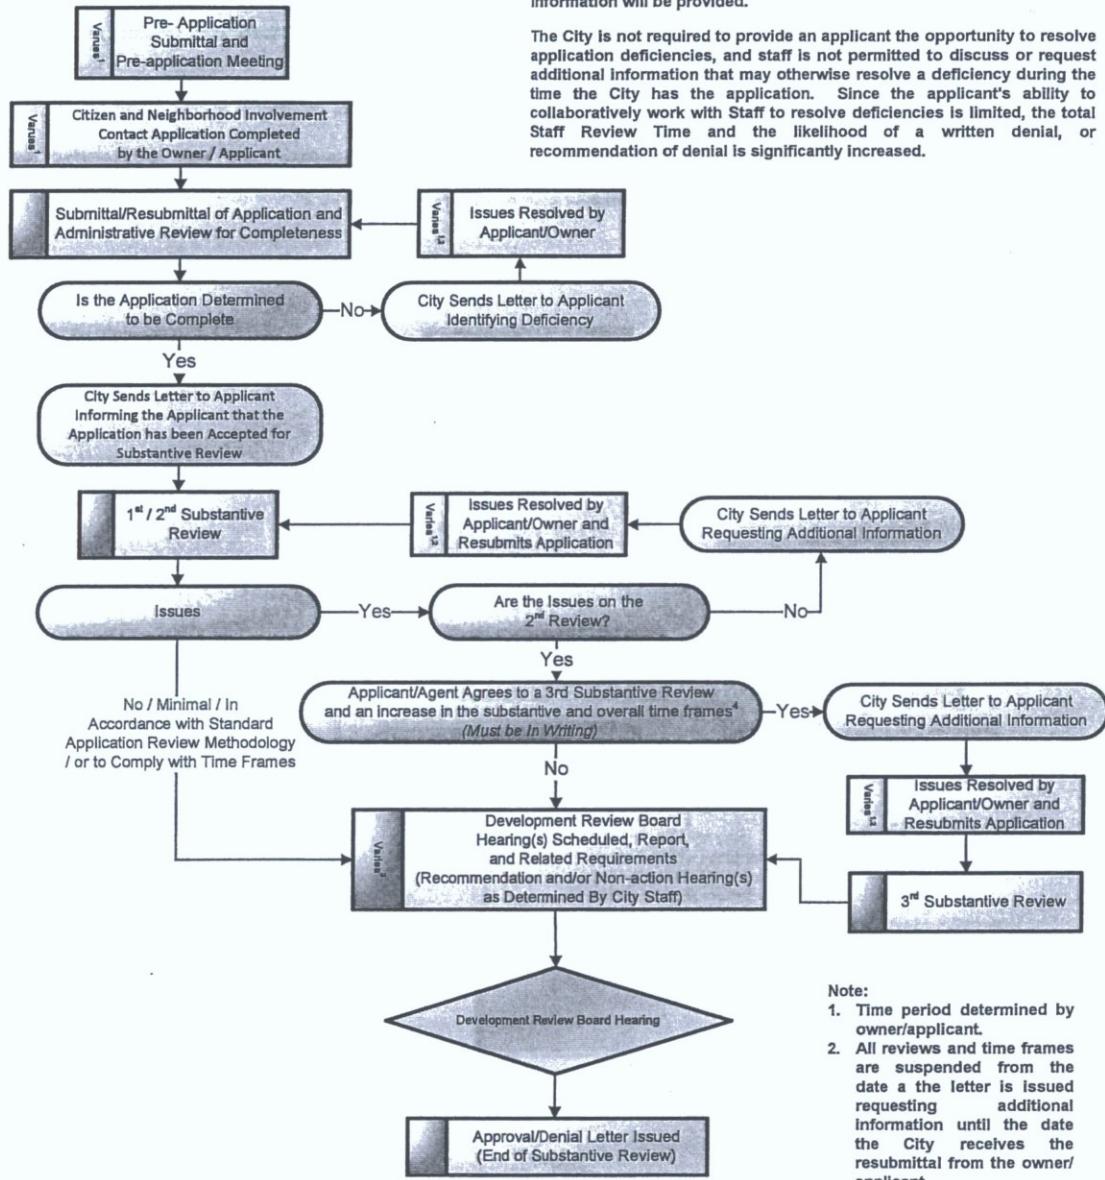

Standard Application Review

Development Review (DR and PP)

Standard Application Review Methodology:

Under the Standard Application Review, the application is processed in accordance with the Regulatory Bill-of-Rights of the Arizona Revised Statutes. These provisions significantly minimize the applicant's ability to collaboratively work with City Staff to resolve application code, ordinance, or policy deficiencies during the review of an application. After the completion the city's review, a written approval or denial, recommendation of approval or denial, or a written request for additional information will be provided.

The City is not required to provide an applicant the opportunity to request application deficiencies, and staff is not permitted to discuss or request additional information that may otherwise resolve a deficiency during the time the City has the application. Since the applicant's ability to collaboratively work with Staff to resolve deficiencies is limited, the total Staff Review Time and the likelihood of a written denial, or recommendation of denial is significantly increased.

- Note:**
1. Time period determined by owner/applicant.
 2. All reviews and time frames are suspended from the date a letter is issued requesting additional information until the date the City receives the resubmittal from the owner/applicant.
 3. The substantive review, and the overall time frame time is suspended during the public hearing processes.
 4. Owner/applicant may agree to extend the time frame by 50 percent

Time Line

Administrative Review <small>45 Staff Working Days Per Review</small>	Substantive Review <small>95 Total Staff Working Days, Two Reviews in This Time Frame^{2,3,4}</small>	Public Hearing Process <small>Time Frames Vary³</small>	Approval/Denial Letter Issued
