Subject: RE: General Plan 2035 language

HI,

To be honest, I am not liking the suggested revision. I think it is critical to protect land use encroachment of noise sensitive development for both safe operation of aircraft (high rise buildings) and impact airport funding. maybe we can add both to appease the comment.

Subject: General Plan 2035 language

Hi Gary,

The public hearing process for the draft General Plan 2035 is moving forward for this fall. Planning received a number of comments from COGS, one of which relates to the airport and I want to know if it is a change that you support. For your information, the draft General Plan 2035 is [here](#). The specific policy and related goal with ~~strike through~~ and **new text** for the proposed change are below:

GOAL LU 7 (NEW)

Protect the viability of the Scottsdale Airport by encouraging compatible land uses and development types in the surrounding area.

Policies

LU 7.1 (NEW) Promote safe operation of the Scottsdale Airport by discouraging uses that will **negatively impact airport funding**. ~~impede safe flight operations~~. [Cross-reference Safety; Economic Vitality; and Circulation Elements]

Please let me know your thoughts on this proposed change, if you have any questions, or any other comments.

Thanks.

Sara
