Project Narrative

Conditional Use Permit for Vines & Hops Beer and Wine Bar

For its project narrative, in accordance with the requirements of the City of Scottsdale's Conditional Use Permit for a Bar, Vines & Hops, LLC dba Vines & Hops states as follows:

Vines & Hops is requesting approval of a Conditional Use Permit for a Bar to allow a Series 7 bar liquor license on the premises and alcoholic beer and food consumption in the interior and on the enclosed, fenced patio of the building located at 4216 North Brown Avenue, Scottsdale, AZ 85251. The existing location is currently licensed under a Series 7 bar liquor license with alcohol and food consumption inside and on the enclosed, fenced patio of the establishment. Vines & Hops is applying for the existing Series 7 liquor license currently registered to Badwater Brewing to be transferred to Vines & Hops.

Vines & Hops will continue to sell food at the establishment in accordance with the restrictions of operating a "cold kitchen" in which no raw food will be served. Vines & Hops will operate in full compliance with the limitations of the license issued by Maricopa County regarding the operation of the kitchen and service of food. Vines & Hops will also continue to serve alcohol on premises and sell ancillary closed liquor bottles for retail as previously approved by the City of Scottsdale. Therefore, the applicant is requesting approval of a Conditional Use Permit for a Bar allowing a Series 7 liquor license for on-site consumption of alcoholic beverages as well as food consumption inside the premises and on the enclosed, fenced patio, and for auxiliary off-site sales of alcohol, which meets the requirements of the Arizona Department of Liquor License and Control as well as the City of Scottsdale (as previously approved for the existing series 7 liquor license approved for the location).

The consumption of alcohol at this site will not negatively impact residents or other businesses within the surrounding area, as most adjacent businesses close by 6:00 p.m. The building has been operated as a Series 7 liquor license bar since 2014 when it opened and has served alcohol for on-site consumption and off-site sales since it opened, and has served food for consumption since its opening. Vines & Hops will continue to operate largely in the same manner as the previous business operated, with the only change being that the bar will serve wine in addition to beer. No changes to the physical layout of the building are planned. Vines & Hops will offer service from 11:00 a.m. to 11:00 p.m. seven days per week, but anticipates that most of its business will take place in the evening hours, between 6:00 p.m. and 11:00 p.m.

A copy of the existing food menu, beer list and wine list is attached. Vines & Hops will specialize in serving local Arizona beer and a wide selection of high quality wine. We expect for food sales to comprise 35% of total sales, and the food will be sourced from local vendors and feature only the highest quality products. Vines & Hops intends to be a cozy, inviting place for guests to come and enjoy a drink, some food, and friendly company in a relaxed atmosphere for people looking to escape the loudness of the Scottsdale club scene. The operations will largely continue as previously approved by the city when the existing license was approved. The small approximately 200 square feet attached patio is enclosed by an iron fence and has small seating, and will provide a safe, quiet place for customers.

As Vines & Hops will close at 11:00 p.m. every day, its operations will not disrupt the existing balance of daytime and nighttime uses.

Conditional Use Permit Criteria for a Bar:

- A. That the granting of such conditional permit will not be materially detrimental to the public health, safety or welfare. In reaching this conclusion, the Planning Commission and the City Council's consideration shall include, but not be limited to, the following factors:

1. Damage or nuisance arising from noise, smoke, odor, dust, vibration or illumination.

Response: Vines & Hops will have no impact on the surrounding area regarding the above. The existing and proposed use does not generate smoke, odors or dust. Light from Vines & Hops will not be visible on the west, north or south sides due to the existing full height masonry wall. The existing wall will also act as a buffer for noise. Noise and light from the east side will be controlled through the use of controlled volume levels, the masonry wall, and limited tinted, paned windows.

2. Impact on surrounding areas resulting from an unusual volume or character of traffic.

Response: Vines & Hops is primarily an evening establishment that will offer limited service during lunch hours. It will operate largely the same hours as the existing establishment, only on more days of the week. The primary anticipated times of heavy traffic will be evenings and weekends when the surrounding businesses are closed. To date, the existing operation has not had an impact on the surrounding area resulting from an unusual volume or character of traffic. The addition of the Conditional Use Permit for a Bar is not anticipated to cause an effect on the surrounding area resulting from any unusual volume or character of traffic.

- B. The characteristics of the proposed conditional use are reasonably compatible with the types of uses permitted in the surrounding areas.

Response: The proposed Conditional Use Permit for a Bar is compatible with the other high-end bars, hotels, offices, restaurants and businesses in the area. Appropriately, this site has been operating as a beer bar and is zoned accordingly, subject to the approval of a Conditional Use Permit for a Bar.

- C. Bars, cocktail lounges and/or after hours establishments.

1. The use shall not disrupt the existing balance of daytime and nighttime uses.

Response: Vines & Hops will occupy the currently occupied premises at 4216 North Brown Avenue. No new construction will occur resulting in an immediate seamless blending of Vines & Hops into the surrounding business environment. The operating hours and nature of operations of Vines & Hops will integrate with, and not disrupt, the existing balance of daytime and nighttime uses in the area.

2. The use shall not disrupt pedestrian-oriented daytime activities.

Response: Vines & Hops will primarily operate in the evenings and weekends, and anticipates having minimal traffic during the hours during which the surrounding businesses mainly operate for a

limited lunch service. As such, there will be minimal impact on existing weekday, daytime operations of the adjacent businesses.

3. If the site is located within the Downtown Overlay District D-O then:

- a. The use shall not encourage displacement of daytime retail uses unless it can be demonstrated that the proposed use shall promote diversity of first floor uses along the street.

Response: Vines & Hops has existed in its current location in the daytime and evening business since it opened in 2014, and the new operations will not significantly change the character of the operation from how it has operated. The addition of the conditional use permit will not displace any daytime retail uses.

- b. The required parking for the use shall be within 600 feet of the property and shall not be separated from the property by a major or minor arterial street.

Response: Vines & Hops has three dedicated parking spots behind its location and is allocated 5.79 P-3 Parking Credits by the City's zoning. In addition, the owner is requesting to participate in the in-lieu parking program for 2.89 in-lieu parking credits to meet the additional parking required for the Conditional Use Permit for a Bar.

4. If the use is located within 500 feet of a residential use or district then:

- a. The use shall not adversely impact residential uses.

Response: The Vines & Hops location (formerly Badwater Brewing) has existed at the current location since 2014 and has not had any known effect on the residential uses within 500 feet of the establishment. Other than obtaining a Conditional Use Permit for a Bar, no modification to the business operations is intended. Therefore, the addition of a Conditional Use Permit for a Bar at this location is not anticipated to have an adverse effect on the residential uses within 500 feet of the business.

- b. The use shall provide methods of buffering residential uses.

Response: The distance to the nearest residential use will provide a significant buffer itself, as the building is surrounded in the immediate vicinity by business operations and hotels and restaurant establishments. In addition, with the exception of a small 200 square foot patio between the buildings, all operations will be within the building. Also, light from Vines & Hops will not be visible on the west, north or south sides due to the existing full height masonry wall. The existing wall will also act as a buffer for noise. Noise and light from the east side will be controlled through the use of controlled volume levels, the masonry wall, and limited tinted, paned windows.

5. An active management and security plan shall be created, approved, implemented, maintained, and enforced for the business.

Response: The owner of the establishment and Vines & Hops tenant have obtained approval of a Public Safety Plan from the City's Police Department, which is maintained on file with the city and a copy is maintained on the business premises.

6. The property owner shall create a written exterior refuse control plan for approval by the city.

Response: The refuse control plan is part of the Public Safety Plan created by the owner and tenant of the business which has been approved by the City's Police Department. The plan will be implemented and enforced by management. A refuse enclosure is on site and located on the property behind the building in the alley. Vines & Hops will utilize its plan to control exterior refuse.

7. The applicant shall demonstrate how noise and light generated by the use shall be mitigated.

Response: Light from Vines & Hops will not be visible on the west, north or south sides due to the existing full height masonry wall. With the exception of a small 200 square foot patio between the buildings, all operations will be within the building. The existing walls around the patio will act as a buffer for noise. Noise and light from the east side will be controlled through the use of controlled volume levels, the masonry wall, and limited tinted, paned windows.

8. The use shall conform to the parking requirements of Article IX and shall not exceed capacity for traffic in the area.

Response: Vines & Hops will require approximately 11.68 parking spaces. Three parking spaces are allocated to the business in the alley behind the establishment. In addition, the property has 5.79 P-3 parking credits. The remaining 2.89 spaces will be allocated to the business through the City's in-lieu parking agreement, for which the owner has applied, if approved by the City Council. Vines & Hops operates mostly in the evening in an area that contains mostly businesses that operate during daytime hours. Vines & Hops is a small establishment that will not add significantly to the traffic in excess of that which already exists in the area.

9. After hours establishments must maintain a valid after hours establishment license.

Response: Vines & Hops will close at 11:00 p.m. daily, therefore an after hours establishment permit will not be required.

Respectfully,

Chad DeVille/Owner

Purpose of the Plan

To address security measures, maintenance/refuse and operations for an establishment whose use shall require a Security Plan pursuant to Scottsdale Revised Codes. These uses typically include a Bar Use Permit and a Live Entertainment Use Permit. The contents of this plan will address the listed concerns as well as community concerns regarding:

- Any significant increase in vehicular or pedestrian traffic, including effects on parking, traffic and circulation in the area.
- Adequate control of disruptive behavior both inside and outside the premises to include property damage and refuse issues.
- Compatibility with surrounding structures and uses.

It is the intent of the City of Scottsdale to provide an environment that enhances the safeguarding of property as well as public welfare and to limit the need for law enforcement involvement.

The Permittee agrees that successful execution and enforcement of this Plan are a required condition of the use permit. Termination, cancellation, deviation or non-approval of the Plan constitutes a breach of the Plan and could result in the revocation of the use permit.

Security and Maintenance

Security Attire

Security personnel must be readily identifiable to police, patrons, and other employees to ensure the safety of the security staff when engaged with patrons. Security personnel should wear an appropriate styled shirt with the word "security" on both the front and back, in two (2) inch lettering and clearly visible. During cold weather, a jacket with the same inscription should be worn.

The use of radios should be employed between security staff and management when the size of the establishment limits communication efforts.

Security Officer Responsibilities

The Permittee or management must clearly delineate the below responsibilities to all new security personnel and ensure these responsibilities are explained and understood.

Civilian Security Officers will be responsible for patrolling the full property of the liquor establishment during all hours when patrons are in the establishment, outside the establishment, and in the establishment parking areas.

On peak nights, there will be a minimum of 0 uniformed security officer(s). (Wearing the above-described uniform). The following responsibilities shall be agreed upon and adhered to:

1. ~~N/A~~ Security officer(s) will be responsible for roaming the interior of the business and identifying hazards, problems, and maintaining guest safety.
2. ~~N/A~~ Security officer(s) will be responsible for checking identifications at the front door. Acceptable identification are those listed in Arizona Revised Statutes Title 4, section 241A and apply to patrons accessing any area of the licensed premises, including the time period of After-Hours, if applicable. Additional responsibilities shall include: access control, counting of patrons, and prevention of intoxicated persons from entering the business.
3. ~~N/A~~ Security officer(s) will be responsible for conducting roaming patrol of the exterior in an effort to prevent criminal behavior, maintain the peace and prevent refuse issues. This patrol shall include all parking areas to prevent a gathering of patrons during business hours and up to thirty (30) minutes after closing.

In addition, security officers will report all acts of violence to management personnel, complete a written report, log the act of violence, and contact Scottsdale Police Department immediately. Liquor establishment management and/or ownership has the ultimate responsibility for the recording of the act of violence, logging of the act of violence, and reporting the act of violence to the police department and the State Department of Liquor Licenses.

Management Responsibilities

The Permittee must clearly delineate the below responsibilities to all managers, assistant managers, and person(s)-in-charge and ensure these responsibilities are understood and followed.

- I do not plan to hire off-duty law enforcement.

Parking

In order to reduce criminal activity that negatively affects the nearby businesses, the Permittee is responsible for the designated parking area to include any lots used by the Permittee's contracted valet company. It is the Permittee's responsibility to ensure that parking areas utilized by patrons and employees will be routinely patrolled by security staff so parking areas are not used: as a gathering place; for consumption of spirituous liquor; for violations of state or city law; for acts of violence, or disorderly conduct. Management will ensure that all patrons have left the parking areas within thirty minutes after the designated closing time.

If valet is used, it is the Permittee's responsibility to ensure the valet company meets all the requirements of the City of Scottsdale and has a valid valet license and permit prior to conducting valet business.

Dear Neighbors:

We are seeking to convert the business at 4216 North Brown Avenue, Scottsdale, AZ 85251, which is on the west side of Brown Avenue between 3rd Avenue and 4th Avenue. We are requesting a Conditional Use Permit for a Bar at the existing location. The bar, Vines & Hops, will be a beer and wine bar (series 7 liquor license) with a mix of bar top space and small seating areas. The bar will have a total seating capacity of 39, both inside and outside on the small, enclosed patio. Vines & Hops will offer a friendly, relaxed environment for guests to come enjoy our selection of all Arizona local beers, both on tap and in cans, a wide variety of wine, and a selection of small plates, including cheese plates, charcuterie, paninis and salads. The venue will be a small venue that caters to guests who are looking for an alternative to the noisy club scene and large restaurants. We will strive to provide superior customer service and ensure that everyone feels at home at the bar, whether joining friends for a glass of wine, watching the game while enjoying the local Arizona beer, or playing our selection of cards and board games.

Our wine and beer selection will be complemented by the variety of small food plates noted above, which will require limited on-site preparation in the bar's cold kitchen and will be sourced from local food vendors. We will feature only the highest quality food products in our dishes.

The space is approximately 1432 square feet. There is also a small, enclosed patio. We will also offer delivery service for food and closed beverage containers. We will be open from 11:00 am to 11:00 pm every day. Our operation will be compliant with all state and local liquor and food licensing requirements.

This concept will not disrupt the existing balance of day and nighttime uses but rather we believe it will greatly complement and enhance the existing office locations and entertainment establishments. We believe that we will offer a place for our neighbors to come and relax, and that the proposed use will have no negative impact on the neighborhood.

Our operations will not impede any pedestrian activities or encroach on any other business operations. We will strictly comply with all City and property management ordinances and operate in a manner consistent with those existing businesses in the area.

We will be holding an open house at the business to answer any questions you may have. The open house will be held on Tuesday, September 27, 2016 from 6:00 p.m. to 7:00 p.m.

Any questions or concerns regarding this project may be directed to the individual listed below.

In addition, the applicant will not be utilizing the adjacent sidewalk for its activities.**
 3. If the site is located within the downtown overlay district then:

Project Narrative

Conditional Use Permit for Vines & Hops Beer and Wine Bar

For its project narrative, in accordance with the requirements of the City of Scottsdale's Conditional Use Permit for a Bar, Vines & Hops, LLC dba Vines & Hops states as follows:

Vines & Hops is requesting approval of a Conditional Use Permit for a Bar to allow a Series 7 bar liquor license on the premises and alcoholic beer and food consumption in the interior and on the enclosed, fenced patio of the building located at 4216 North Brown Avenue, Scottsdale, AZ 85251. The existing location is currently licensed under a Series 7 bar liquor license with alcohol and food consumption inside and on the enclosed, fenced patio of the establishment. Vines & Hops is applying for the existing Series 7 liquor license currently registered to Badwater Brewing to be transferred to Vines & Hops.

Vines & Hops will continue to sell food at the establishment in accordance with the restrictions of operating a "cold kitchen" in which no raw food will be served. Vines & Hops will operate in full compliance with the limitations of the license issued by Maricopa County regarding the operation of the kitchen and service of food. Vines & Hops will also continue to serve alcohol on premises and sell ancillary closed liquor bottles for retail as previously approved by the City of Scottsdale. Therefore, the applicant is requesting approval of a Conditional Use Permit for a Bar allowing a Series 7 liquor license for on-site consumption of alcoholic beverages as well as food consumption inside the premises and on the enclosed, fenced patio, and for auxiliary off-site sales of alcohol, which meets the requirements of the Arizona Department of Liquor License and Control as well as the City of Scottsdale (as previously approved for the existing series 7 liquor license approved for the location).

The consumption of alcohol at this site will not negatively impact residents or other businesses within the surrounding area, as most adjacent businesses close by 6:00 p.m. The building has been operated as a Series 7 liquor license bar since 2014 when it opened and has served alcohol for on-site consumption and off-site sales since it opened, and has served food for consumption since its opening. Vines & Hops will continue to operate largely in the same manner as the previous business operated, with the only change being that the bar will serve wine in addition to beer. No changes to the physical layout of the building are planned. Vines & Hops will offer service from 11:00 a.m. to 11:00 p.m. seven days per week, but anticipates that most of its business will take place in the evening hours, between 6:00 p.m. and 11:00 p.m.

A copy of the existing food menu, beer list and wine list is attached. Vines & Hops will specialize in serving local Arizona beer and a wide selection of high quality wine. We expect for food sales to comprise 35% of total sales, and the food will be sourced from local vendors and feature only the highest quality products. Vines & Hops intends to be a cozy, inviting place for guests to come and enjoy a drink, some food, and friendly company in a relaxed atmosphere for people looking to escape the loudness of the Scottsdale club scene. The operations will largely continue as previously approved by the city when the existing license was approved. The small approximately 200 square feet attached patio is enclosed by an iron fence and has small seating, and will provide a safe, quiet place for customers.

As Vines & Hops will close at 11:00 p.m. every day, its operations will not disrupt the existing balance of daytime and nighttime uses.

Conditional Use Permit Criteria for a Bar:

- A. That the granting of such conditional permit will not be materially detrimental to the public health, safety or welfare. In reaching this conclusion, the Planning Commission and the City Council's consideration shall include, but not be limited to, the following factors:

1. Damage or nuisance arising from noise, smoke, odor, dust, vibration or illumination.

Response: Vines & Hops will have no impact on the surrounding area regarding the above. The existing and proposed use does not generate smoke, odors or dust. Light from Vines & Hops will not be visible on the west, north or south sides due to the existing full height masonry wall. The existing wall will also act as a buffer for noise. Noise and light from the east side will be controlled through the use of controlled volume levels, the masonry wall, and limited tinted, paned windows.

2. Impact on surrounding areas resulting from an unusual volume or character of traffic.

Response: Vines & Hops is primarily an evening establishment that will offer limited service during lunch hours. It will operate largely the same hours as the existing establishment, only on more days of the week. The primary anticipated times of heavy traffic will be evenings and weekends when the surrounding businesses are closed. To date, the existing operation has not had an impact on the surrounding area resulting from an unusual volume or character of traffic. The addition of the Conditional Use Permit for a Bar is not anticipated to cause an effect on the surrounding area resulting from any unusual volume or character of traffic.

- B. The characteristics of the proposed conditional use are reasonably compatible with the types of uses permitted in the surrounding areas.

Response: The proposed Conditional Use Permit for a Bar is compatible with the other high-end bars, hotels, offices, restaurants and businesses in the area. Appropriately, this site has been operating as a beer bar and is zoned accordingly, subject to the approval of a Conditional Use Permit for a Bar.

- C. Bars, cocktail lounges and/or after hours establishments.

1. The use shall not disrupt the existing balance of daytime and nighttime uses.

Response: Vines & Hops will occupy the currently occupied premises at 4216 North Brown Avenue. No new construction will occur resulting in an immediate seamless blending of Vines & Hops into the surrounding business environment. The operating hours and nature of operations of Vines & Hops will integrate with, and not disrupt, the existing balance of daytime and nighttime uses in the area.

2. The use shall not disrupt pedestrian-oriented daytime activities.

Response: Vines & Hops will primarily operate in the evenings and weekends, and anticipates having minimal traffic during the hours during which the surrounding businesses mainly operate for a

limited lunch service. As such, there will be minimal impact on existing weekday, daytime operations of the adjacent businesses.

3. If the site is located within the Downtown Overlay District D-O then:

- a. The use shall not encourage displacement of daytime retail uses unless it can be demonstrated that the proposed use shall promote diversity of first floor uses along the street.

Response: Vines & Hops has existed in its current location in the daytime and evening business since it opened in 2014, and the new operations will not significantly change the character of the operation from how it has operated. The addition of the conditional use permit will not displace any daytime retail uses.

- b. The required parking for the use shall be within 600 feet of the property and shall not be separated from the property by a major or minor arterial street.

Response: Vines & Hops has three dedicated parking spots behind its location and is allocated 5.79 P-3 Parking Credits by the City's zoning. In addition, the owner is requesting to participate in the in-lieu parking program for 2.89 in-lieu parking credits to meet the additional parking required for the Conditional Use Permit for a Bar.

4. If the use is located within 500 feet of a residential use or district then:

- a. The use shall not adversely impact residential uses.

Response: The Vines & Hops location (formerly Badwater Brewing) has existed at the current location since 2014 and has not had any known effect on the residential uses within 500 feet of the establishment. Other than obtaining a Conditional Use Permit for a Bar, no modification to the business operations is intended. Therefore, the addition of a Conditional Use Permit for a Bar at this location is not anticipated to have an adverse effect on the residential uses within 500 feet of the business.

- b. The use shall provide methods of buffering residential uses.

Response: The distance to the nearest residential use will provide a significant buffer itself, as the building is surrounded in the immediate vicinity by business operations and hotels and restaurant establishments. In addition, with the exception of a small 200 square foot patio between the buildings, all operations will be within the building. Also, light from Vines & Hops will not be visible on the west, north or south sides due to the existing full height masonry wall. The existing wall will also act as a buffer for noise. Noise and light from the east side will be controlled through the use of controlled volume levels, the masonry wall, and limited tinted, paned windows.

5. An active management and security plan shall be created, approved, implemented, maintained, and enforced for the business.

Response: The owner of the establishment and Vines & Hops tenant have obtained approval of a Public Safety Plan from the City's Police Department, which is maintained on file with the city and a copy is maintained on the business premises.

6. The property owner shall create a written exterior refuse control plan for approval by the city.

Response: The refuse control plan is part of the Public Safety Plan created by the owner and tenant of the business which has been approved by the City's Police Department. The plan will be implemented and enforced by management. A refuse enclosure is on site and located on the property behind the building in the alley. Vines & Hops will utilize its plan to control exterior refuse.

7. The applicant shall demonstrate how noise and light generated by the use shall be mitigated.

Response: Light from Vines & Hops will not be visible on the west, north or south sides due to the existing full height masonry wall. With the exception of a small 200 square foot patio between the buildings, all operations will be within the building. The existing walls around the patio will act as a buffer for noise. Noise and light from the east side will be controlled through the use of controlled volume levels, the masonry wall, and limited tinted, paned windows.

8. The use shall conform to the parking requirements of Article IX and shall not exceed capacity for traffic in the area.

Response: Vines & Hops will require approximately 11.68 parking spaces. Three parking spaces are allocated to the business in the alley behind the establishment. In addition, the property has 5.79 P-3 parking credits. The remaining 2.89 spaces will be allocated to the business through the City's in-lieu parking agreement, for which the owner has applied, if approved by the City Council. Vines & Hops operates mostly in the evening in an area that contains mostly businesses that operate during daytime hours. Vines & Hops is a small establishment that will not add significantly to the traffic in excess of that which already exists in the area.

9. After hours establishments must maintain a valid after hours establishment license.

Response: Vines & Hops will close at 11:00 p.m. daily, therefore an after hours establishment permit will not be required.

Respectfully,

Chad DeVille/Owner

Purpose of the Plan

To address security measures, maintenance/refuse and operations for an establishment whose use shall require a Security Plan pursuant to Scottsdale Revised Codes. These uses typically include a Bar Use Permit and a Live Entertainment Use Permit. The contents of this plan will address the listed concerns as well as community concerns regarding:

- Any significant increase in vehicular or pedestrian traffic, including effects on parking, traffic and circulation in the area.
- Adequate control of disruptive behavior both inside and outside the premises to include property damage and refuse issues.
- Compatibility with surrounding structures and uses.

It is the intent of the City of Scottsdale to provide an environment that enhances the safeguarding of property as well as public welfare and to limit the need for law enforcement involvement.

The Permittee agrees that successful execution and enforcement of this Plan are a required condition of the use permit. Termination, cancellation, deviation or non-approval of the Plan constitutes a breach of the Plan and could result in the revocation of the use permit.

Security and Maintenance

Security Attire

Security personnel must be readily identifiable to police, patrons, and other employees to ensure the safety of the security staff when engaged with patrons. Security personnel should wear an appropriate styled shirt with the word "security" on both the front and back, in two (2) inch lettering and clearly visible. During cold weather, a jacket with the same inscription should be worn.

The use of radios should be employed between security staff and management when the size of the establishment limits communication efforts.

Security Officer Responsibilities

The Permittee or management must clearly delineate the below responsibilities to all new security personnel and ensure these responsibilities are explained and understood.

Civilian Security Officers will be responsible for patrolling the full property of the liquor establishment during all hours when patrons are in the establishment, outside the establishment, and in the establishment parking areas.

On peak nights, there will be a minimum of 0 uniformed security officer(s). (Wearing the above-described uniform). The following responsibilities shall be agreed upon and adhered to:

1. N/A Security officer(s) will be responsible for roaming the interior of the business and identifying hazards, problems, and maintaining guest safety.
2. N/A Security officer(s) will be responsible for checking identifications at the front door. Acceptable identification are those listed in Arizona Revised Statutes Title 4, section 241A and apply to patrons accessing any area of the licensed premises, including the time period of After-Hours, if applicable. This patrol shall include all parking areas to prevent a gathering of patrons during business hours and up to thirty (30) minutes after closing.

In addition, security officers will report all acts of violence to management personnel, complete a written report, log the act of violence, and contact Scottsdale Police Department immediately. Liquor establishment management and/or ownership has the ultimate responsibility for the recording of the act of violence, logging of the act of violence, and reporting the act of violence to the police department and the State Department of Liquor Licenses.

Management Responsibilities

The Permittee must clearly delineate the below responsibilities to all managers, assistant managers, and person(s)-in-charge and ensure these responsibilities are understood and followed.

The manager(s) shall ensure that all employees, security staff and off-duty officers (if applicable) be trained and knowledgeable about the contents of this plan. The following shall be agreed upon and adhered to:

I do not plan to hire off-duty law enforcement.

Parking

In order to reduce criminal activity that negatively affects the nearby businesses, the Permittee is responsible for the designated parking area to include any lots used by the Permittee's contracted valet company. It is the Permittee's responsibility to ensure that parking areas utilized by patrons and employees will be routinely patrolled by security staff so parking areas are not used: as a gathering place; for consumption of spirituous liquor; for violations of state or city law; for acts of violence, or disorderly conduct. Management will ensure that all patrons have left the parking areas within thirty minutes after the designated closing time.

Dear Neighbors:

We are seeking to convert the business at 4216 North Brown Avenue, Scottsdale, AZ 85251, which is on the west side of Brown Avenue between 3rd Avenue and 4th Avenue. We are requesting a Conditional Use Permit for a Bar at the existing location. The bar, Vines & Hops, will be a beer and wine bar (series 7 liquor license) with a mix of bar top space and small seating areas. The bar will have a total seating capacity of 39, both inside and outside on the small, enclosed patio. Vines & Hops will offer a friendly, relaxed environment for guests to come enjoy our selection of all Arizona local beers, both on tap and in cans, a wide variety of wine, and a selection of small plates, including cheese plates, charcuterie, paninis and salads. The venue will be a small venue that caters to guests who are looking for an alternative to the noisy club scene and large restaurants. We will strive to provide superior customer service and ensure that everyone feels at home at the bar, whether joining friends for a glass of wine, watching the game while enjoying the local Arizona beer, or playing our selection of cards and board games.

Our wine and beer selection will be complemented by the variety of small food plates noted above, which will require limited on-site preparation in the bar's cold kitchen and will be sourced from local food vendors. We will feature only the highest quality food products in our dishes.

The space is approximately 1432 square feet. There is also a small, enclosed patio. We will also offer delivery service for food and closed beverage containers. We will be open from 11:00 am to 11:00 pm every day. Our operation will be compliant with all state and local liquor and food licensing requirements.

This concept will not disrupt the existing balance of day and nighttime uses but rather we believe it will greatly complement and enhance the existing office locations and entertainment establishments. We believe that we will offer a place for our neighbors to come and relax, and that the proposed use will have no negative impact on the neighborhood.

Our operations will not impede any pedestrian activities or encroach on any other business operations. We will strictly comply with all City and property management ordinances and operate in a manner consistent with those existing businesses in the area.

We will be holding an open house at the business to answer any questions you may have. The open house will be held on Tuesday, September 27, 2016 from 6:00 p.m. to 7:00 p.m.

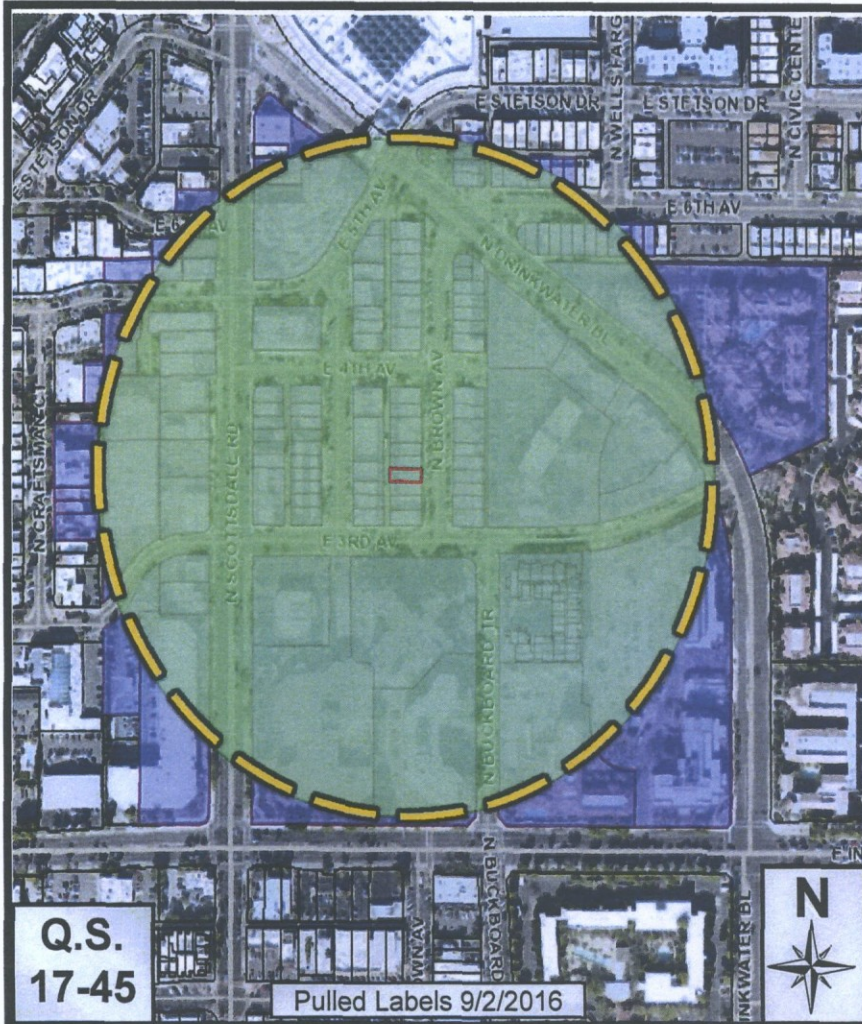

Any questions or concerns regarding this project may be directed to the individual listed below.
