## Development Application Checklist

### Subdivision, and Master Planned Property

#### Minimal Submittal Requirements:

At your pre-application meeting, your project coordinator will identify which items indicated on this Development Application checklist are required to be submitted. A Development Application that does not include all items indicated on this checklist may be rejected immediately. A Development Application that is received by the City does not constitute that the application meets the minimum submittal requirements to be reviewed.

In addition to the items on this checklist, to avoid delays in the review of your application, all Plans, Graphics, Reports and other additional information that is to be submitted shall be provided in accordance with the:

- requirements specified in the Plan & Report Requirements For Preliminary Plat Development Applications Checklist;
- Design Standards & Policies Manual;
- requirements of Scottsdale Revised Code (including the Zoning Ordinance); and
- stipulations, include any additional submittal requirements identified in the stipulations, of any Development Application approved prior to the submittal of this application; and
- the city's design guidelines.

If you have any question regarding the information above, or items indicated on this application checklist, please contact your project coordinator. His/her contact information is on the page 10 of this application.

Please be advised that a Development Application received by the City that is inconsistent with information submitted with the corresponding pre-application may be rejected immediately, and may be required to submit a separate: pre-application, a new Development Application, and pay all additional fees.

Prior to application submittal, please research original zoning case history to find the original adopted ordinance(s) and exhibit(s) to confirm the zoning for the property. This will help to define your application accurately. The City's full-service Records Department can assist.

# Development Applications Process

## Enhanced Application Review

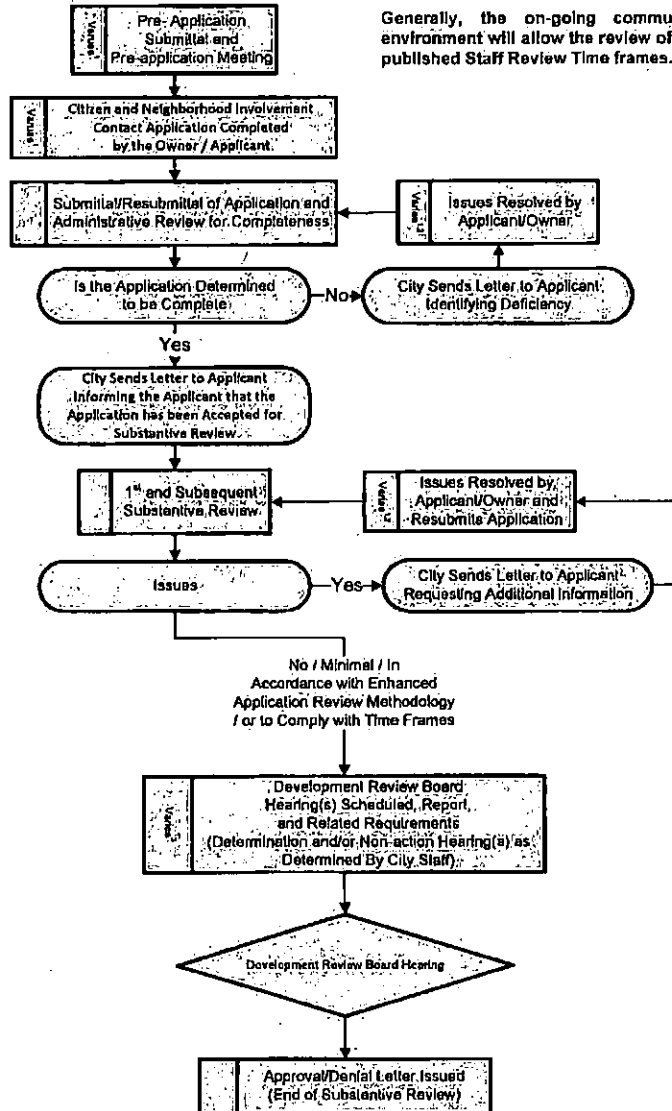

### Development Review (DR and PP)

#### Enhanced Application Review Methodology

Within the parameters of the Regulatory Bill-of-Rights of the Arizona Revised Statutes, the Enhanced Application Review method is intended to increase the likelihood that the applicant will obtain an earlier favorable written decision or recommendation upon completion of the city's reviews. To accomplish this objective, the Enhanced Application Review allows:

- the applicant and City staff to maintain open and frequent communication (written, electronic, telephone, meeting, etc.) during the application review;
- City staff and the applicant to collaboratively work together regarding an application; and
- City staff to make requests for additional information and the applicant to submit revisions to address code, ordinance, or policy deficiencies in an expeditious manner.

Generally, the on-going communication and the collaborative work environment will allow the review of an application to be expedited within the published Staff Review Time frames.

- Note:
1. Time period determined by owner/applicant.
  2. All reviews and time frames are suspended from the date a the letter is issued requesting additional information until the date the City receives the resubmittal from the owner/applicant.
  3. The substantive review, and the overall time frame time is suspended during the public hearing processes.
  4. Owner/applicant may agree to extend the time frame by 60 percent

#### Time Line

Administrative Review	Substantive Review	Public Hearing Process	Approval/Denial
15 Staff Working Days Per Review	95 Total Staff Working Days, Multiple Reviews in This Time Frame	Time Frames Vary	Letter Issued

# Development Applications Process

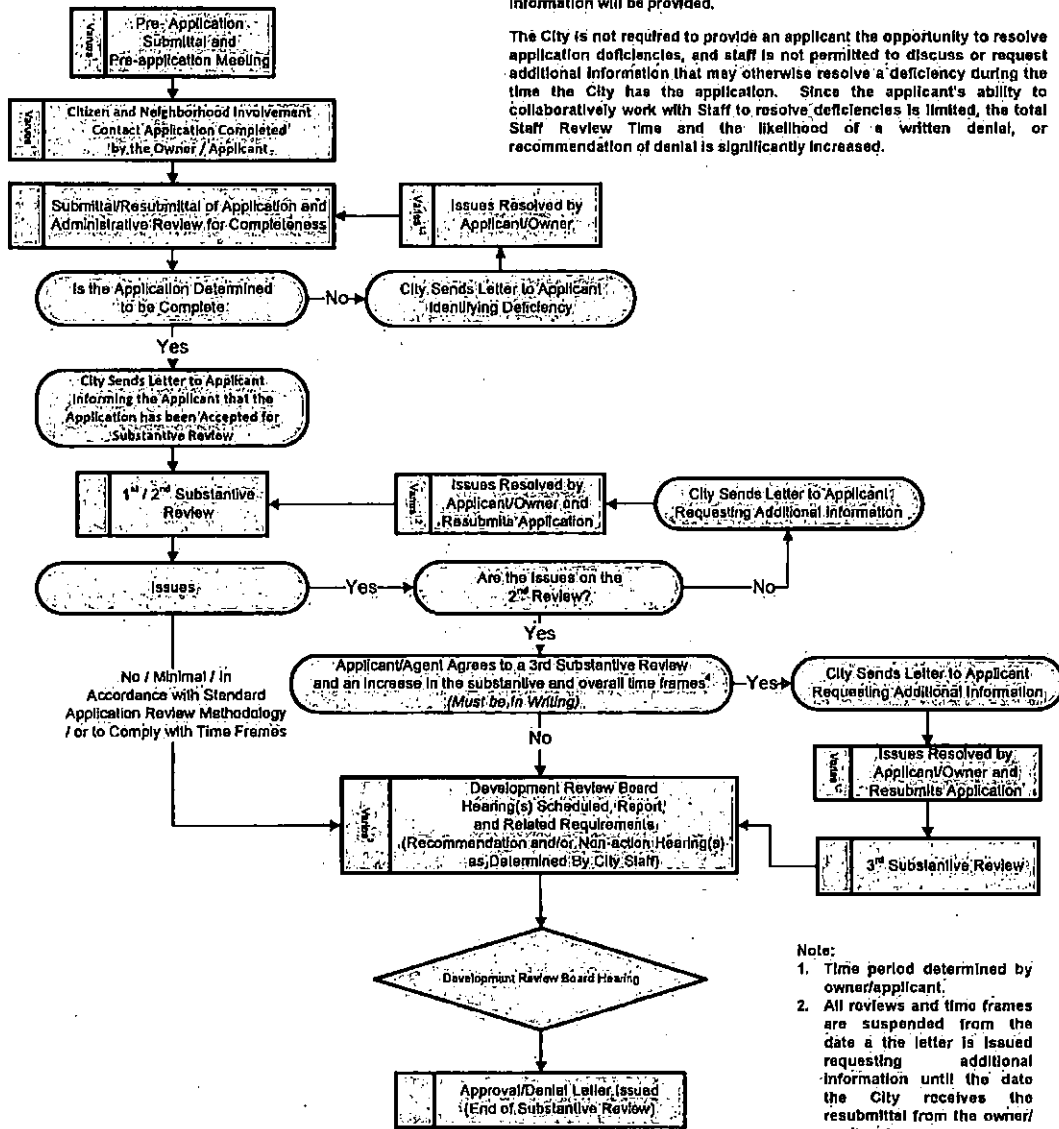

## Standard Application Review

### Development Review (DR and PP)

**Standard Application Review Methodology:**

Under the Standard Application Review, the application is processed in accordance with the Regulatory Bill-of-Rights of the Arizona Revised Statutes. These provisions significantly minimize the applicant's ability to collaboratively work with City Staff to resolve application code, ordinance, or policy deficiencies during the review of an application. After the completion of the city's review, a written approval or denial, recommendation of approval or denial, or a written request for additional information will be provided.

The City is not required to provide an applicant the opportunity to resolve application deficiencies, and staff is not permitted to discuss or request additional information that may otherwise resolve a deficiency during the time the City has the application. Since the applicant's ability to collaboratively work with Staff to resolve deficiencies is limited, the total Staff Review Time and the likelihood of a written denial, or recommendation of denial is significantly increased.

- Note:**
1. Time period determined by owner/applicant.
  2. All reviews and time frames are suspended from the date a letter is issued requesting additional information until the date the City receives the resubmittal from the owner/applicant.
  3. The substantive review, and the overall time frame is suspended during the public hearing processes.
  4. Owner/applicant may agree to extend the time frame by 50 percent

**Time Line**

Administrative Review	Substantive Review	Public Hearing Process	Approval/Denial
16 Staff Working Days Per Review	95 Total Staff Working Days, Two Reviews in This Time Frame	Time Frames Vary	Letter Issued

## APPEALS OF DEDICATIONS, EXACTIONS, OR ZONING REGULATIONS

### POLICY OF THE CITY OF SCOTTSDALE ON APPEALS OF DEDICATIONS, EXACTIONS, OR ZONING REGULATIONS

#### RIGHTS OF PROPERTY OWNER

In addition to other rights granted to you by the U.S. and Arizona Constitution, federal and state law and city ordinances or regulations, you are hereby notified of your right to appeal the following City actions relating to your property:

- 1) Any dedication or exaction which is required of you by an administrative agency or official of the city as a condition of granting approval of your request to use, improve or develop your real property. This appeal right does not apply to a dedication or exaction required as part of a city legislative act (for example a zoning ordinance) where an administrative agency or official has no discretion to determine the dedication or exaction.
- 2) The adoption or amendment of a zoning regulation that creates a taking of property in violation of Arizona and federal court decisions.

#### APPEAL PROCEDURE

The appeal must be in writing and specify the City action appealed and the date final action was taken, and it must be filed with or mailed to the hearing officer designated by the city within 30 days after the final action is taken. Address the appeal as follows:

Hearing Officer, C/O City Clerk  
3939 Drinkwater Blvd.  
Scottsdale, AZ 85251

- ❖ No fee will be charged for filing.
- ❖ The City Attorney's Office will review the appeal for compliance with the above requirements, and will notify you if your appeal does not comply.
- ❖ Eligible appeals will be forwarded to the hearing officer, and a hearing will be scheduled within 30 days of receipt by the hearing officer of your request. Ten days notice will be given to you of the date, time and place of the hearing unless you indicate that less notice is acceptable to you.
- ❖ The city will submit a takings impact report to the hearing officer.
- ❖ In an appeal from a dedication or exaction, the City will bear the burden of proving that the dedication or exaction to be imposed on your property bears an essential nexus between the requirement and a legitimate governmental interest and that the proposed dedication or exaction is roughly proportional to the impact of the use, improvement or development you proposed.
- ❖ In an appeal from the adoption or amendment of a zoning regulation, the City will bear the burden of proving that any dedication or exaction requirement in the zoning regulation is roughly proportional to the impact of the proposed use, improvement, or development, and that the zoning regulation does not create a taking of property in violation of Arizona and federal court cases.
- ❖ The hearing officer must render his decision within five working days after the appeal is heard.
- ❖ The hearing officer can modify or delete a dedication or exaction or, in the case of an appeal from a zoning regulation, transmit a recommendation to the City Council.
- ❖ If you are dissatisfied with the decision of the hearing officer, you may file a complaint for a trial de novo with the Superior Court within 30 days of the hearing officer's decision.

If you have questions about this appeal process, you may contact:

City Attorney's Office  
3939 Drinkwater Blvd.  
Scottsdale, AZ 85251  
(480) 312-2405

Please be aware that City staff cannot give you legal advice. You may wish, but are not required, to hire an attorney to represent you in an appeal.

## APPEALS OF DEDICATIONS, EXACTIONS, OR ZONING REGULATIONS

### POLICY OF THE CITY OF SCOTTSDALE ON APPEALS OF DEDICATIONS, EXACTIONS, OR ZONING REGULATIONS

#### RIGHTS OF PROPERTY OWNER

In addition to other rights granted to you by the U.S. and Arizona Constitution, federal and state law and city ordinances or regulations, you are hereby notified of your right to appeal the following City actions relating to your property:

- 1) Any dedication or exaction which is required of you by an administrative agency or official of the city as a condition of granting approval of your request to use, improve or develop your real property. This appeal right does not apply to a dedication or exaction required as part of a city legislative act (for example a zoning ordinance) where an administrative agency or official has no discretion to determine the dedication or exaction.
- 2) The adoption or amendment of a zoning regulation that creates a taking of property in violation of Arizona and federal court decisions.

#### APPEAL PROCEDURE

The appeal must be in writing and specify the City action appealed and the date final action was taken, and it must be filed with or mailed to the hearing officer designated by the city within 30 days after the final action is taken. Address the appeal as follows:

Hearing Officer, C/O City Clerk  
3939 Drinkwater Blvd.  
Scottsdale, AZ 85251

- ❖ No fee will be charged for filing
- ❖ The City Attorney's Office will review the appeal for compliance with the above requirements, and will notify you if your appeal does not comply.
- ❖ Eligible appeals will be forwarded to the hearing officer, and a hearing will be scheduled within 30 days of receipt by the hearing officer of your request. Ten days notice will be given to you of the date, time and place of the hearing unless you indicate that less notice is acceptable to you.
- ❖ The city will submit a takings impact report to the hearing officer.
- ❖ In an appeal from a dedication or exaction, the City will bear the burden of proving that the dedication or exaction to be imposed on your property bears an essential nexus between the requirement and a legitimate governmental interest and that the proposed dedication or exaction is roughly proportional to the impact of the use, improvement or development you proposed.
- ❖ In an appeal from the adoption or amendment of a zoning regulation, the City will bear the burden of proving that any dedication or exaction requirement in the zoning regulation is roughly proportional to the impact of the proposed use, improvement, or development, and that the zoning regulation does not create a taking of property in violation of Arizona and federal court cases.
- ❖ The hearing officer must render his decision within five working days after the appeal is heard.
- ❖ The hearing officer can modify or delete a dedication or exaction or, in the case of an appeal from a zoning regulation, transmit a recommendation to the City Council.
- ❖ If you are dissatisfied with the decision of the hearing officer, you may file a complaint for a trial de novo with the Superior Court within 30 days of the hearing officer's decision.

If you have questions about this appeal process, you may contact:

City Attorney's Office  
3939 Drinkwater Blvd.  
Scottsdale, AZ 85251  
(480) 312-2405

Please be aware that City staff cannot give you legal advice. You may wish, but are not required, to hire an attorney to represent you in an appeal.

## Introduction

STORYROCK PHASE 2 A&B is part of the proposed 443 lot STORYROCK master planned community located in north Scottsdale, just a few miles north of the McDowell Mountains, approximately between Ranch Gate Rd. and the Pinnacle Peak Rd. alignment (from north to south) and 128<sup>th</sup> St. and the 134<sup>th</sup> St. alignment (from west to east). The site currently sits vacant much like the surrounding land.

STORYROCK PHASE 2 A&B will be an upscale neighborhood consisting of 78 lots, which takes advantage of north Scottsdale's continued growth allowing future residents prime access to the outdoor recreation opportunities and amenities of the surrounding region. This narrative explores the proposed 80.19 acre STORYROCK PHASE 2 A&B community in context with the 2001 Scottsdale General Plan, Dynamite Foothills Character Area Plan, Environmentally Sensitive Land Ordinance, and Scottsdale's Design Principles

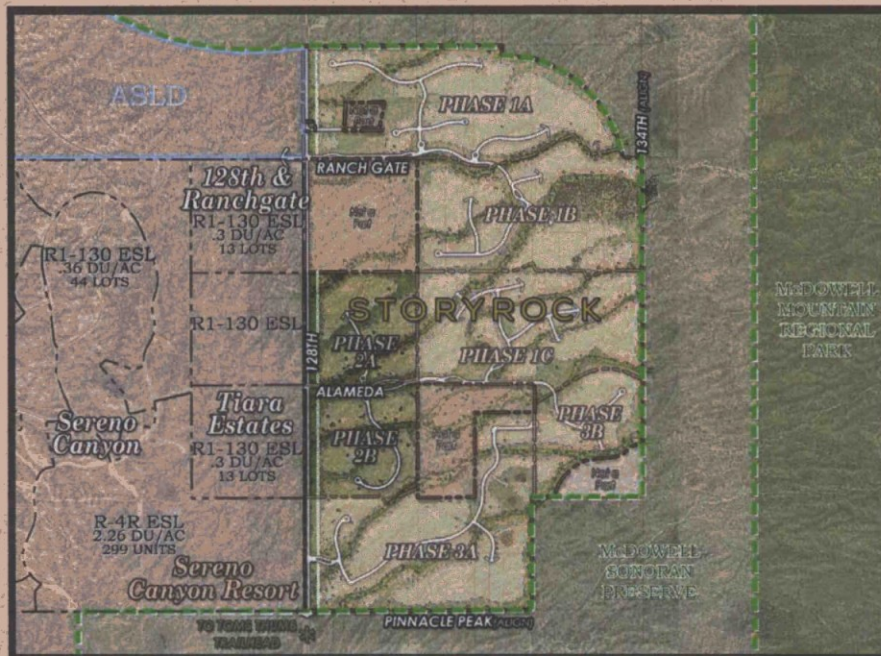

Figure 1 - Vicinity Map

## Location

The 80.19 acre PHASE 2 A&B site is located in the northern portion of the STORYROCK development adjacent to the McDowell Sonoran Preserve at the northeast corner of 128<sup>th</sup> Street & Ranch Gate Road in north Scottsdale. Portions of four parcels (217-01-007G, -007F, -004C, -004D) make up the proposed community. These parcels are currently vacant and in their natural rural desert condition. The surrounding adjacent uses are as follows:

- North - Vacant Private Land
- East - Vacant Private Land & Proposed STORYROCK - Phase 1C Community
- South - Proposed STORYROCK - Phase 3A Community
- West - Vacant Private Land

## Existing Conditions

### Washes/drainage

Natural desert washes transect the Site providing both drainage and wildlife corridors. Two prominent washes have been preserved, enhanced and emphasized in the current Site Plan and will continue to route runoff and storm water while offering pedestrian corridor connections to adjacent proposed preserve trails.

### Boulders

The STORYROCK PHASE 2 A&B site includes a variety of natural boulder groupings scattered throughout the property. Development envelopes have been strategically placed to preserve these features while allowing future residents the ability to enjoy them. While not all of these features meet the "Boulder Feature" or "Boulder Cluster" criteria, as defined in the Zoning Ordinance, the majority of these boulders will be preserved within NAOS easements and common NAOS tracts. In the few cases where small boulders are located within a development envelope, they will be encouraged to be preserved and/or used in the common community landscaping.

## Requests

This Preliminary Plat approval request is the next step in the development process following the approved rezoning request (13-ZN-2014) to the current Planned Community District, Environmentally Sensitive Lands, with multiple Single-Family Residential district comparable zonings (P-C R1-18, R1-35, R1-43, R1-70 ESL). In addition to the preliminary plat, a recent Master Plan submittal (1-MP-2016) has submitted and is currently under review. This preliminary plat application also includes a request for amended development standards, subject to Staff and Development Review Board approval, in accordance with Section 6.1083 of the ESL Zoning Ordinance. The proposed development plan justifies the amended development standards by protecting and

## Circulation

The main point of access is provided off 128<sup>th</sup> Street along Alameda Rd. and through a vehicular gate. The proposed private local internal street meanders through the natural topography allowing residents the ability to take in views of the natural desert setting and to minimize cuts and fills. The internal street alignments have been located to minimize the number of wash crossings and will be rural in nature in order to minimize the area of total street improvements throughout the neighborhood and to help preserve additional undisturbed open space.

## Open Space

The plan maintains 35.38 acres (44%) of Natural Area Open Space, contributing to approximately half of the overall STORYROCK Master Plan Area being open space. The open space areas include a one hundred foot wide Scenic Corridor along 128<sup>th</sup> Street, perimeter open space setbacks around the Site, boulder features, stands of native desert vegetation, as well as the major washes running through the Site. The wash corridors work to guide open space through the development while also providing pedestrian corridors to the surrounding recreational trails.

## Grading and Drainage

This proposed STORYROCK development phase will be consistent with the approved Master Drainage Report for the project which establishes drainage parameters and criteria for site planning and preliminary design. The project layout and configurations are designed to minimize impacts to significant washes and natural features throughout the site.

Building sites are not to exceed 3:1 slopes and are likely to utilize retaining walls to accommodate grade changes without excessively disturbing unnecessary area. Due to the undulating terrain found at STORYROCK, single retaining walls will be a maximum of eight (8) feet in height and six (6) feet for side yard transitions. When double retaining walls are necessary they should be separated by four (4) feet with no retaining walls or slopes being located within five (5) feet of a side of a building and fifteen (15) feet of the rear of the building.

Although cuts and fills when establishing building sites and roadways will be minimized, due to the rugged terrain in isolated areas, greater than eight (8) feet of cut or fill will be required to meet building height requirements and minimize impacts to the adjacent native desert and environmental features. Building heights are measured from existing natural grade, with exception of natural anomalies. Where finish floor elevations are impacted by stormwater surface elevations the height is measured from the required finish floor, which is at least one (1) foot above the base flood elevation.

Drainage corridors will be comprised of natural washes, man-made channels, pipes and retention/detention basins designed to collect and conduct localized storm water flows and maintain historical runoff characteristics downstream of the property. The use of existing washes is the preferred alternative as the natural sandy bottom allows infiltration and increases the likelihood of preserving the existing natural vegetation along these corridors. Where flows must be diverted, channelization or storm drainage and detention will be the preferred method.

Possible wash treatments include bank protection options for drainage facility improvements as followed. For wash corridors where the 100-year flow is confined within the existing channel bank, several design options, or combinations thereof may be employed. These include:

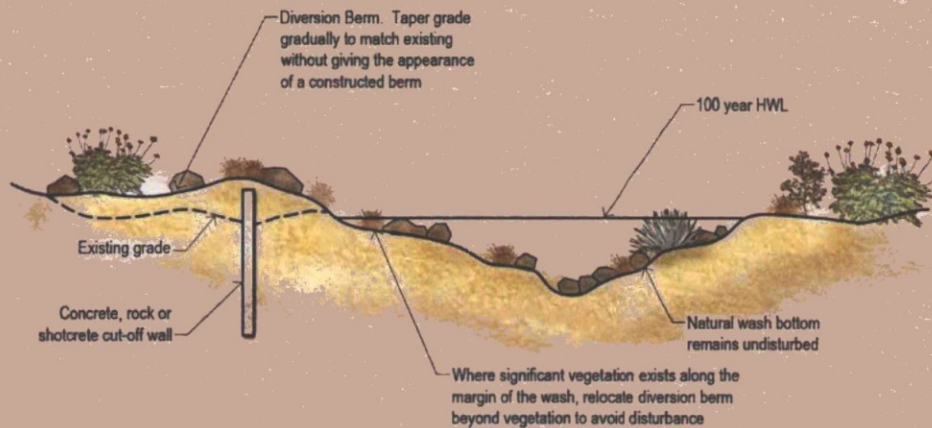

Development setback – an adequate separation between the edge of wash bank and the adjacent building allows for the natural erosion of the wash bank. This option maintains a natural vegetation buffer without any impacts from development. See Figure 2 – Development Setback.

**Figure 2 - Development Setback**

Flow erosion protection with concrete or rock cut-off walls - located beyond the natural edge of the wash bank. Earth berms should be graded with varying sideslopes and revegetated with indigenous plant materials to help stabilize the slopes and to facilitate a more natural transition into the adjacent natural desert. Cut-off walls should be covered with soil and planted. See **Figure 3 - Erosion Protection**.

**Figure 3 - Erosion Protection**

Buried erosion protection wall - incorporated with residential walls or view-fencing to limit disturbance to the natural landscape. These walls are commonly found along the rear or sides of lots to where protection is needed to avoid erosion from an adjacent wash. See **Figure 4 - Erosion Protection Wall**.

Figure 4 – Erosion Protection Wall

### Homeowners Association Maintenance Responsibilities and CC&Rs

A Master STORYROCK Homeowners Association will be the party responsible for the future maintenance of all private infrastructure, landscaping, open space, and internal roadways. Public infrastructure and publicly dedicated Property will be the responsibility of the City of Scottsdale unless otherwise noted.

### Scottsdale General Plan

Scottsdale's unique community values and vision are incorporated in the proposed development by enhancing neighborhoods and communities, integrating the southwestern and desert character, and promoting quality of life through livability at STORYROCK PHASE 2 A&B and the surrounding area.

### SCOTTSDALE'S SIX GUIDING PRINCIPLES

STORYROCK PHASE 2 A&B acknowledges and supports the six "guiding principles" of Scottsdale's General Plan listed below, and recognizes their importance in Scottsdale development.

- 1) Preserve meaningful Open Space
- 2) Enhance Neighborhoods
- 3) Seek Sustainability
- 4) Support Economic Vitality
- 5) Advance Transportation
- 6) Value Scottsdale's Unique Lifestyle and Character

Approval of the STORYROCK PHASE 2 A&B Preliminary Plat, with the proposed amended development standards, will fulfill the guiding principles in the following ways:

**1) Preserve Meaningful Open Space**

The McDowell Sonoran Preserve, located east of the proposed development, provides dedicated outdoor open space throughout the area and is supported and continued through STORYROCK PHASE 2 A&B. Incorporating generous buffers, preservation of existing desert landscaping, and contributing to approximately half of the Site being designated open space within the STORYROCK Master Plan Area are a few ways STORYROCK PHASE 2 A&B can continue the commitment Scottsdale has made to open space.

**2) Enhance Neighborhoods**

STORYROCK PHASE 2 A&B follows north Scottsdale's neighborhood model of unique desert living with optimal recreational opportunities. Residents will be living amongst hiking trails while maintaining access to urban essentials.

**3) Seek Sustainability**

Scottsdale's commitment to sustainability is highlighted in STORYROCK PHASE 2 A&B's low impact proposal which utilizes the natural desert landscaping and emphasizes low water-use vegetation.

**4) Support Economic Vitality**

With the development of STORYROCK PHASE 2 A&B the local economy will continue to grow and thrive. An increase in residents will strengthen the economy through increased sales, essentially sustaining local business owners in the community. The increasing demand will also allow for residents to explore new business and entrepreneurial opportunities.

**5) Advance Transportation**

Scottsdale's land patterns and emphasis on transportation routes will continue to be supported through this development. STORYROCK PHASE 2 A&B will utilize existing and improve infrastructure in 128<sup>th</sup> St. and will encourage pedestrian access through surrounding proposed trails.

**6) Values Scottsdale's Unique Lifestyle and Character**

Scottsdale's irreplaceable desert character and unmatched lifestyle is seen as a building block for the STORYROCK PHASE 2 A&B community. Residents will enjoy exceptional views, have the opportunity to take advantage of nearby trails/outdoor space, and indulge in nearby fine dining and shopping experiences.

This community encourages a lifestyle that Scottsdale residents appreciate and enjoy.

## SCOTTSDALE'S TWELVE PLAN ELEMENTS

The 2001 Scottsdale General Plan includes twelve plan elements that relate to the six guiding principles. STORYROCK PHASE 2 A&B recognizes these elements, listed below, and intends to meet and exceed these guidelines.

- 1) Preserve meaningful Open Space
  - a. Open Space and Recreation Element
  - b. Preservation & Environmental Planning Element
- 2) Enhance Neighborhoods
  - a. Community Involvement Element
  - b. Housing Element
  - c. Neighborhoods Element
- 3) Seek Sustainability
  - a. Cost Development Element
  - b. Growth Areas Element
  - c. Public Services and Facilities Element
- 4) Support Economic Vitality
  - a. Economic Vitality Element
- 5) Advance Transportation
  - a. Community Mobility Element
- 6) Value Scottsdale's Unique Lifestyle and Character
  - a. Character and Design Element
  - b. Land Use Element

Approval of the STORYROCK PHASE 2 A&B Preliminary Plat, with the proposed amended the development standards, will fulfill the plan elements in the following ways:

### 1) Preserve Meaningful Open Space

#### a. Open Space and Recreation Element

*"Even in built-up areas, a network of parks, scenic corridors, paths, and trails will provide access to nature and urban open spaces, providing recreation opportunities, ecological benefits, and a source of beauty for residents." Scottsdale Regional Plan, Vision Statement, 2015.*

STORYROCK PHASE 2 A&B is surrounded by existing trails allowing pedestrian access to the beauty of the natural desert. The 78 lot community, roughly .3 miles north of the McDowell Sonoran Preserve will utilize the

recreation opportunities provided by the Tom Thumb trailhead while promoting scenic and natural corridors that take advantage of the 360 degree views.

## 2) Enhance Neighborhoods

### a. Community Involvement Element

*"Scottsdale will be a community where constructive dialogue involving individuals, the business community, organizations, institutions, and government is the cornerstone of successful planning, decision making, and community building."* Scottsdale Regional Plan, Vision Statement, 2015.

STORYROCK PHASE 2 A&B's proposed development trends with the growth in north Scottsdale. As the Phoenix Metropolitan area expresses continued interest to live, recreate, and work in the area.

### b. Housing Element

*"Our vision is to incrementally, but steadfastly expand housing opportunities for current and future citizens."* Scottsdale Regional Plan, Vision Statement, 2015.

STORYROCK PHASE 2 A&B will create a variety of medium and large-lot housing opportunities providing variety in the expanding housing market.

### c. Neighborhood Element

*"... making sure that changes in neighborhoods harmonize with the existing character, by enhancing neighborhoods' defining features, and ensuring their longterm attractiveness and economic integrity, we can create and/or enhance the unique character and special qualities of each neighborhood."* Scottsdale Regional Plan, Vision Statement, 2015.

STORYROCK PHASE 2 A&B homes will be high quality and will be encouraged to blend within the native surroundings. The homes will showcase the existing views and encompass a natural desert palette. The Sonoran Desert influence and lifestyle will work as a backbone to the community design.

## 3) Seek Sustainability

### a. Cost Development Element

*"... ongoing interest and participation of the people of the community in assuring that the quality, attractiveness and livability of their neighborhoods are maintained and enhanced."*

The close vicinity to outdoor recreation enhances the livability and quality of life at STORYROCK PHASE 2 A&B, which is centered on the notion that residents can engage in an active lifestyle with limited to no travel. With the surrounding attractiveness and quality of life provided by the McDowell Sonoran Preserve it is assured that this lifestyle can be maintained through development of this community.

**b. Growth Areas Element**

*"The many diverse neighborhoods and lifestyles that comprise the unique fabric and character of Scottsdale will be protected and enhanced, and a sense of community, shared among residents across the city, will be both obvious and admired."*

STORYROCK PHASE 2 A&B will enhance the existing area and will provide uniqueness from bordering neighborhoods by incorporating restricted development envelopes which will ensure that approximately half of the STORYROCK Master Plan Area will be protected as open space creating a sense of community centered around the natural desert.

**c. Public Services and Facilities Element**

*"Scottsdale will continue its efficient and high quality customer service to all Scottsdale citizens by planning, managing, and operating a safe, reliable, and affordable water supply and wastewater reclamation system."*

STORYROCK PHASE 2 A&B will work with the surrounding developments to access utilities and allow for residents to tie into City resources. All methods will be safe, reliable, and affordable for residents.

**4) Support Economic Vitality**

**a. Economic Vitality Element**

*"The competing needs of residents and businesses will be balanced so neighborhoods are protected and enhanced while business districts are competitive and attractive."*

The location of STORYROCK PHASE 2 A&B will help support the nearby business districts by providing cliental and potential staff. North Scottsdale has experienced economic growth, and will continue to grow through this proposed neighborhood.

**5) Advanced Transportation**

**a. Community Mobility Element**

Narrative

STORYROCK

Phase 2 A and B

*"Mobility choices will provide alternatives to the automobile, increase accessibility, improve air quality, enrich the community and its neighborhoods, and contribute to the community's quality of life."*

By utilizing existing roadways and surrounding trails, which will provide alternatives to the automobile and improve air quality. The STORYROCK PHASE 2 A&B community will provide a high quality of life for homeowners and tourists.

## 6) Value Scottsdale's Unique Lifestyle and Character

### a. Character and Design Element

*"Appropriate development in Scottsdale will strike a balance that respects the natural desert settings, historically significant sites and structure and the surrounding neighborhood context, with the objectives and needs of future generations."*

STORYROCK PHASE 2 A&B will encompass the natural desert setting in development materials and architecture. The McDowell Sonoran Preserve serves as a focal point for the neighborhood incorporating views, access, and character. Future generations will benefit from this community for years to come.

### b. Land Use Element

*"Scottsdale will ensure a variety of living, working, and leisure opportunities through different land uses, vital neighborhoods, thriving business and tourism communities, and open spaces for people to recreate, reflect, and enjoy."*

Residents will benefit from the relaxed STORYROCK PHASE 2 A&B atmosphere. The outdoor enthusiasts will appreciate the natural desert setting and recreational opportunities. All ages will be able to enjoy and reflect within this unique neighborhood full of beautiful open spaces.

## Dynamite Foothills Character Area Plan

The Dynamite Foothills Character Area Plan came as a result of the citizen-driven group CityShape 2020. A Character Plan is a recommendation or guideline that strives to implement a specific personality or sense of place into a neighborhood. It uses regulation polices like character plans to outline development, but is not a regulatory document.

Narrative

STORYROCK

Phase 2 A and B

The Dynamite Foothills Character area is located in North Scottsdale between the McDowell Mountain and the Lone Mountain alignment, and east of 112<sup>th</sup> Street to 136<sup>th</sup> Street. This area capitalizes on mountainous view sheds and remote desert environments. In order to meet the vision of Rural Desert character, character strategies like minimizing street widths, strategic building envelopes, accentuating open space, and encouraging native desert landscaping are incorporated. Lower single family densities with twenty four foot building height equate to larger lot ranch style homes. Preferred wall designs and community amenities are suited to acknowledge wildlife corridors and maintain a rural character.

The goals listed below are outlined by Dynamite Foothills Character Area as strategic approaches to maintaining the personality of the area voted by residents and officials. Responses are outlined to explain how STORYROCK PHASE 2 A&B is striving to meet the needs.

**Goal 1: Preserve the existing Rural Desert character for the Dynamite Foothills which will result in a unique desert community distinguished from other parts of Scottsdale.**

Native vegetation will be used throughout the site including streetscapes and common areas. Simple screening and lack of perimeter walls compliment the meandering roadway, and encourage an open and natural community. The setbacks, building scale, and open spaces will be observed and in accordance with the surrounding conservation requirements. Street alignments and building placements have all been purposefully placed in order to preserve the natural washes and vegetation.

**Goal 2: Recognize the topographic diversity of the Dynamite Foothills area and provide guidelines for balancing the relationship of different types of development to the unique environmental nature of the area.**

Analysis of topography and open space are all performed to carefully situate the STORYROCK PHASE 2 A&B development envelopes. NAOS has been strategically incorporated throughout the community with approximately half of the STORYROCK Master Plan Area dedicated as open space.

**Goal 3: Promote open space in accordance with the CityShape 2020 Guiding Principles and the recommendations of the Desert Preservation Task Force, and support the efforts of the McDowell Sonoran Preserve Commission to provide open space.**

*Narrative*

*Phase 2 A and B*

STORYROCK

Open space can be found throughout the site, including along the perimeter of the property. This allows for an optimal transition from the built environment to the natural environment and to other surrounding developments. Drought tolerant plants have been selected for the landscape palette in order to meet desert landscaping requirements.

## SCOTTSDALE DESIGN PRINCIPLES

Scottsdale's design principles are enforced so new development reflects and enhances the unique climate, topography, vegetation, and historical elements. These elements are considered amenities that uphold the quality of design and sustain the Scottsdale community.

- 1) The design character of any area should be enhanced and strengthened by new development.**

Architecture will be encouraged to blend within the natural setting. This will allow the Sonoran Desert character to be showcased. STORYROCK PHASE 2 A&B will also utilize the natural desert setting as landscaping throughout the site.

- 2) Development, through appropriate siting and orientation of buildings, should recognize and preserve established major vistas, as well as protect natural features such as:**

The connectivity of the site positions the homes to allow for spectacular views. The site is also conscious of its natural surroundings and plans to preserve and incorporate these elements in every way possible. The views and the peacefulness of the natural environment are what make this location prime. STORYROCK PHASE 2 A&B has every intention of maximizing this guideline.

- 3) Development should be sensitive to existing topography and landscaping. A design should respond to the unique terrain of the site by blending with the natural shape and texture of the land while minimizing disturbances to the natural environment.**

STORYROCK PHASE 2 A&B will work with the rolling topography to create an original and natural setting. The terrain provides texture and color influence to the development that reflect the natural desert setting.

- 4) Development should protect the character of the Sonoran desert by preserving and restoring natural habitats and ecological processes.**

*Narrative*

*Phase 2 A and B*

STORYROCK

Wildlife corridors and buffers are planned within the site and intend to incorporate existing ecological conditions.

- 5) **The design of the public realm, including streetscapes, parks, plazas and civic amenities, is an opportunity to provide identity to the community and to convey its design expectations.**

Public spaces, including streets and common tracts will use natural materials and landscaping to blend within the natural desert setting. Colorful cactus and flowers will be implemented to provide accents and depth.

- 6) **Developments should integrate alternative modes of transportation, including bicycles and bus access, within the pedestrian network that encourage social contact and interaction within the community.**

STORYROCK PHASE 2 A&B is surrounded by trails and bike paths throughout the Sonoran Preserve. This location will allow residents alternative modes of transportation and opportunities for social contract and interaction.

- 7) **Development should show consideration for the pedestrian by providing landscaping and shading elements as well as inviting access connections to adjacent developments.**

With adjacent trails located nearby and natural wash corridors and landscaping, residents will be able to take advantage of adjacent connections and natural shading opportunities.

- 8) **Buildings should be designed with a logical hierarchy of masses**

All buildings within STORYROCK PHASE 2 A&B are residential and are designed with massing that suggests the environment in which they are located.

- 9) **The design of the built environment should respond to the desert environment:**

The color palette of the community will reflect the natural desert setting. Natural colors and vegetation will be incorporated throughout the site. The desert weather will encourage shading opportunities and heat sensitive materials.

- 10) **Developments should strive to incorporate sustainable and healthy building practices and products.**

Considerations to incorporate energy conservative and low impact design and construction practices at STORYROCK PHASE 2 A&B will be encouraged.

- 11) Landscape design should respond to the desert environment by utilizing a variety of mature landscape materials indigenous to the arid region.**

Providing a large natural buffer from the Preserve to the site provides a natural desert transition into the community. All open spaces will utilize the character of the area and provide a variety of natural vegetation.

- 12) Site design should incorporate techniques for efficient water use by providing desert adapted landscaping and preserving native plants.**

Utilizing native plants and the natural terrain will allow the proposed community to minimize its water intake.

- 13) The extent and quality of lighting should be integrally designed as part of the built environment.**

Natural light will be encouraged in the community by providing open spaces and strategically placed windows. Light pollution will also be minimal by using full coverings on any necessary public lighting along with minimal decorative lighting. STORYROCK PHASE 2 A&B will minimize glare in the neighborhood in order to suite the community's environmental needs.

- 14) Signage should consider the distinctive qualities and character of the surrounding context in terms of size, color, location and illumination.**

Entries into the STORYROCK community set the precedence in establishing the character of the project. Each entry will be designed with a modern desert character that reflects the quality of natural desert colors and textures to blend seamlessly into environment while providing unique thresholds into the community. This theme will be woven throughout a variety of entry experiences both internal and external to the project. Each location will contribute to a hierarchy of entry conditions in order to reflect the scale and importance of each situation as it relates to both primary and secondary community entries.

## Environmentally Sensitive Lands Ordinance

The City of Scottsdale Environmentally Sensitive Lands Ordinance (ELSO) is a 134 square mile environmental protection overlay that was adopted in 1991. The overlay encompasses the lands north of Central Arizona Project canal and is in effect to preserve natural open space and elements. City Council has amended this ordinance over the past decade to ensure preservation and development are balanced in all land uses in this area.

*Narrative*

*Phase 2 A and B*

STORYROCK

Twelve general statements from the ESL are listed below, with responses that outline how Preserve Ranch complies with the overlay standards and objectives.

- 1) **Protect people and property from hazardous conditions characteristic of environmentally sensitive lands and their development. Such hazards include rockfalls, rolling boulders, other unstable slopes, flooding, flood-related mud slides, subsidence, erosion, and sedimentation.**

Planning and Engineering analyses will be done to ensure that all potential hazards and sensitive areas are addressed.

- 2) **Protect and preserve significant natural and visual resources. Such resources include, but are not limited to, major boulder outcrops and large boulders, major ridges and peaks, prime wildlife habitat and corridors, unique vegetation specimens, significant washes, and significant riparian habitats.**

The McDowell Sonoran Preserve is seen as an asset to STORYROCK PHASE 2 A&B. Maintaining unrestricted views and caring for existing habitats and vegetation is a priority to keep the community atmosphere relevant.

- 3) **Protect renewable and nonrenewable resources such as water quality, air quality, soils, and natural vegetation from incompatible land uses.**

Developing under the current zoning and contributing to approximately half of the Site being designated open space within the STORYROCK Master Plan Area will allow STORYROCK PHASE 2 A&B to protect renewable and nonrenewable resources.

- 4) **Minimize the public costs of providing public services and facilities in ESL areas such as streets, water, sewer, emergency services, sanitation services, parks, and recreation. Costs associated with the design and development of infrastructure in environmentally sensitive areas can be higher than costs in other areas of the city due to the unique and fragile nature of such lands.**

In addition to the construction of new streets and infrastructure, STORYROCK PHASE 2 A&B will utilize existing streets for access, water, emergency services, parks and recreation.

- 5) **Conserve the character of the natural desert landscape. Guide the location and distribution of meaningful on-lot and common tract open space and protect sensitive environmental features to sustain the unique desert character found in ESL areas.**

The natural desert landscape will be preserved and highlighted through the STORYROCK PHASE 2 A&B community. The design of the neighborhood incorporates unforgettable open space for viewing and enjoying.

- 6) **Recognize and conserve the economic, educational, recreational, historic, archaeological, and other cultural assets of the environment that provide amenities and services for residents and visitors.**

The significance of the McDowell Sonoran Preserve will be emphasized, providing educational opportunities as well as physical education. This opportunity will allow residents and visitors to appreciate and respect the natural desert.

- 7) **Assure that decisions regarding development in environmentally sensitive areas are based on complete and accurate information about the environmental conditions including drainage features and probable development impacts.**

STORYROCK PHASE 2 A&B will preserve and enhance existing wash corridors to ensure drainage features operate with no negative impacts to the development.

- 8) **Minimize the impacts of development by controlling the location, intensity, pattern, design, construction techniques, and materials of development and construction.**

By emphasizing and incorporating existing open space and other natural environments, STORYROCK PHASE 2 A&B is able to minimize construction impacts. The pattern, design, and materials used on site will be of the highest quality with respect to the natural desert environment.

- 9) **Retain the visual character of the natural landscape to the greatest extent feasible by regulating building mass, location, colors, and materials; grading location, design and treatment; and landscaping design and materials.**

Building heights and locations are all in compliance with the zoning guidelines. The landscaping will continue to respect the natural desert environment as STORYROCK PHASE 2 A&B intends to use the natural desert as a theme for the area.

- 10) **Maintain significant open spaces which provide view corridors and land use buffers, protect landmarks and large boulders, and prime wash habitats, by preserving these features in their natural state to maintain the city's unique desert setting.**

The unique topography of this area is cherished for its open space, native desert vegetation and boulder features. Maintaining the natural state of this area is parallel with STORYROCK PHASE 2 A&B's understanding and overall goal.

- 11) Protect environmentally sensitive lands, while also recognizing the legitimate expectations of property owners and the city's overall economic goals.

STORYROCK PHASE 2 A&B fulfills a growing housing demand while also preserving land by creating buffers and open space. The outdoor recreation will pull people outside and encourage engagement and understanding of the area they live in. Essentially the city will benefit from the development growth, the natural environment will be understood and unspoiled, and citizens will improve their quality of life.

- 12) Encourage innovative planning, design, and construction techniques for development in environmentally sensitive areas.

As a result of innovative planning and designing, through development envelopes, construction and development will provide minimal impact. This site emphasizes open space in order to minimize lot sizes. The proposed lot sizes allow residents to have little yard upkeep while native habitats will stay untouched. People will be encouraged to use the surrounding public facilities such as trails and bike paths.

## Conclusion

We respectfully request approval of this Preliminary Plat application as it promotes a development approach that is sensitive to the environment and is consistent with the General Plan, Dynamite Foothills Character Plan, and the existing zoning.
