RE: 10-WM-2016, 11-WM-2016 and 12-WM-2016
Storyrock Wash Modifications Phase 1C, Phase 3A and Phase 2A & B

Dear Mr. Nichter:

The Planning & Development Services Division has completed the review of the above referenced development application submitted on 11/17/16. The following **1st Review Comments** represent the review performed by our team, and is intended to provide you with guidance for compliance with city codes, policies, and guidelines related to this application.

Zoning Ordinance and Scottsdale Revise Code Significant Issues

The following code and ordinance related issues have been identified in the first review of this application, and shall be addressed in the resubmittal of the revised application material. Addressing these items is critical to scheduling the application for public hearing, and may affect the City Staff's recommendation. Please address the following:

Drainage:

1. The Wash Modifications approvals are contingent upon the preliminary plat approval for each Phase. Please address preliminary drainage report, Grading and Drainage plan comments and planning comments for each Phase under the preliminary plat phases.

Please resubmit the revised application requirements and additional information identified in Attachment A, Resubmittal Checklist, and a written summary response addressing the comments/corrections identified above as soon as possible for further review. The City will then review the revisions to determine if the application is to be scheduled for a hearing date, or if additional modifications, corrections, or additional information is necessary.

PLEASE CALL 480-312-7000 TO SCHEDULE A RESUBMITTAL MEETING WITH ME PRIOR TO YOUR PLANNED RESUBMITTAL DATE. DO NOT DROP OFF ANY RESUBMITTAL MATERIAL WITHOUT A SCHEDULED MEETING. THIS WILL HELP MAKE SURE I'M AVAILABLE TO REVIEW YOUR RESUBMITTAL AND PREVENT ANY UNNECESSARY DELAYS. RESUBMITTAL MATERIAL THAT IS DROPPED OFF MAY NOT BE ACCEPTED AND RETURNED TO THE APPLICANT.

The Planning & Development Services Division has had this application in review for 14 Staff Review Days since the application was determined to be administratively complete.

These 1st Review Comments are valid for a period of 180 days from the date on this letter. The Zoning Administrator may consider an application withdrawn if a revised submittal has not been received within 180 days of the date of this letter (Section 1.305. of the Zoning Ordinance).

If you have any questions, or need further assistance please contact me at 480-312-4214 or at dmcclay@ScottsdaleAZ.gov.

Sincerely,

A handwritten signature in black ink, appearing to read "Doris McClay", with a long, sweeping tail extending downwards and to the right.

Development Review

Methodologies and Required Notice

Review Methodologies

The City of Scottsdale maintains a business and resident friendly approach to new development and improvements to existing developments. In order to provide for flexibility in the review of Development Applications, and Applications for Permitting, the City of Scottsdale provides two methodologies from which an owner or agent may choose to have the City process the application. The methodologies are:

1. **Enhanced Application Review Methodology**

Within the parameters of the Regulatory Bill-of-Rights of the Arizona Revised Statutes, the Enhanced Application Review method is intended to increase the likelihood that the applicant will obtain an earlier favorable written decision or recommendation upon completion of the city's reviews. To accomplish this objective, the Enhanced Application Review allows:

- the applicant and City staff to maintain open and frequent communication (written, electronic, telephone, meeting, etc.) during the application review;
- City staff and the applicant to collaboratively work together regarding an application; and
- City staff to make requests for additional information and the applicant to submit revisions to address code, ordinance, or policy deficiencies in an expeditious manner.

Generally, the on-going communication and the collaborative work environment will allow the review of an application to be expedited within the published Staff Review Time frames.

2. **Standard Application Review Methodology:**

Under the Standard Application Review, the application is processed in accordance with the Regulatory Bill-of-Rights of the Arizona Revised Statutes. These provisions significantly minimize the applicant's ability to collaboratively work with City Staff to resolve application code, ordinance, or policy deficiencies during the review of an application. After the completion the city's review, a written approval or denial, recommendation of approval or denial, or a written request for additional information will be provided.

The City is not required to provide an applicant the opportunity to resolve application deficiencies, and staff is not permitted to discuss or request additional information that may otherwise resolve a deficiency during the time the City has the application. Since the applicant's ability to collaboratively work with Staff's to resolve deficiencies is limited, the total Staff Review Time and the likelihood of a written denial, or recommendation of denial is significantly increased.

Notice

1. Pursuant to A.R.S. §9-836, an applicant may receive a clarification from the City regarding interpretation or application of a statute, ordinance, code or authorized substantive policy statement. A request to clarify an interpretation or application of a statute, ordinance, code, policy statement administered by the Planning and Development Services Division shall be submitted in writing to the One Stop Shop to the attention of the Planning and Development Services director designee. All such requests must be submitted in accordance with the A.R.S. §9-839 and the City's applicable administrative policies available at the Planning and Development Services Division's One Stop Shop, or from the city's website: <http://www.scottsdaleaz.gov/bldgresources/forms>.

The Zoning Administrator may authorize a Wash Modification if ALL of the following criteria are met. Use the space provided to present your evidence that the requested exemption satisfies the modification requirements; please attach all supporting documentation.

- 1. Proposed modifications will result in an equal or enhanced quality of open space:

THE PROPOSED WASH MODIFICATION ALTERS A SMALL PORTION OF THE LOW FLOW CHANNEL OF THE EXISTING WASH. THIS MODIFICATION MAINTAINS THE OVERALL WASH CORRIDOR AND MAXIMIZES THE CONTINUOUS OPEN SPACE PROVIDED.

- 2. Modifications will include restoration of the watercourse with vegetation of the same type and density removed:

THE PROPOSED WASH WILL MATCH THE EXISTING WASH IN NATURE AND APPEARANCE OF EXISTING VEGETATION.

- 3. Is the wash being redirected or modified? No Yes

If yes, the wash must enter and exit the site at the historic locations, and the result of the modifications shall not impact drainage considerations for adjacent properties:

THE MODIFICATION IS COMPLETELY LOCATED WITHIN THE DEVELOPMENT. NO ALTERATION TO THE HISTORIC UPSTREAM OR DOWNSTREAM CONDITIONS WILL OCCUR.

- 4. Is the wash being diverted into a structural solution (e.g. underground pipe)? No Yes

If yes, the change must not impact the drainage conditions on adjacent properties and shall not reduce the integrity of any upstream or downstream corridor as meaningful open space:

Arizona Revised Statutes Notice**

§9-834. Prohibited acts by municipalities and employees; enforcement; notice

- A. A municipality shall not base a licensing decision in whole or in part on a licensing requirement or condition that is not specifically authorized by statute, rule, ordinance or code. A general grant of authority does not constitute a basis for imposing a licensing requirement or condition unless the authority specifically authorizes the requirement or condition.
- B. Unless specifically authorized, a municipality shall avoid duplication of other laws that do not enhance regulatory clarity and shall avoid dual permitting to the maximum extent practicable.
- C. This section does not prohibit municipal flexibility to issue licenses or adopt ordinances or codes.
- D. A municipality shall not request or initiate discussions with a person about waiving that person's rights.
- E. This section may be enforced in a private civil action and relief may be awarded against a municipality. The court may award reasonable attorney fees, damages and all fees associated with the license application to a party that prevails in an action against a municipality for a violation of this section.
- F. A municipal employee may not intentionally or knowingly violate this section. A violation of this section is cause for disciplinary action or dismissal pursuant to the municipality's adopted personnel policy.
- G. This section does not abrogate the immunity provided by section 12-820.01 or 12-820.02.

MEMORANDUM

To: City of Scottsdale

From: Jason Burm, PE
Kimley-Horn and Associates, Inc.

Date: October 31, 2016

Subject: Storyrock Phase 2 ESLO Wash Modifications

NARRATIVE

This memo is provided to support the ELSO Wash Modification submittal for the Storyrock Phase 2 Preliminary Plat. The preliminary drainage report (PDR) for Phase 2 identified five significant washes on the project site. The goal of the development is to meet DS&PM standards and limit the impact to these primary washes. The proposed development implements a roadway and lotting layout that contours to the existing topography and maintains the existing wash corridors. A small portion of the significant wash identified as Wash214 within the PDR impacts the proposed lot 58. It is proposed to modify the low flow channel of the wash to route around this lot, while maintaining the main wash corridor. The proposed re-routing will occur over approximately 200 feet, and is designed to match the natural condition of the wash. The significant wash identified as Wash85 within the PDR is impacted by the proposed Alameda Roadway. The roadway location is fixed to meet the future continuation west of 128th Street. Alameda Road's alignment is designed to minimize impacts to the significant washes. A small portion of Wash85 is proposed to be routed around the roadway. The proposed re-routing will occur over approximately 300 feet, and is designed to match the natural condition of the existing wash. For both wash modifications, flows are conveyed to the same location downstream. The wash modifications occur entirely within the proposed development, and will not impact adjacent properties.

ALTERNATIVES

Multiple site layouts were considered in the preliminary design stages of this project. The selected layout has the least impact to any of the five significant washes and maintains more substantial open space and minimizes the overall impacts to significant washes on the property.

CONCLUSION

The proposed wash modification request meets the requirements of the City of Scottsdale and DS&PM guidelines.

If you have any further questions please feel free to contact me at (602) 216-1232.

Sincerely,
KIMLEY-HORN AND ASSOCIATES, INC.
