Subject: input on new Dunkin Donuts

Hello Jeff,

I love that Dunkin Donuts has done so well that they are investing in a new restaurant in the neighborhood, although this will not bode well for our family diet! I know this is out of purview, but please make sure they don't eliminate the toasted coconut and butternut crunch from their menu the way other stores have! ;-)

For the elevations, I like the gradation of colors on the drive through, but hope we're not getting an all stucco building. I hope they are required to provide some masonry or other material on the building elevations.

Also, I would like to request that street trees be provided for shade on the sidewalk at the street front, along with a higher density of naturally maintained vegetation. See photo below of conditions, the horrible maintenance of the landscape has created a bunch of mushroom shrubs and large areas devoid of anything but gravel. A street front mature density of 40-50% ground coverage would be more aesthetically pleasing. They might consider smaller patio trees on the west side of the building, for shade and enhancement of the patio. I know these aren't required, but it would enhance the project.

Thank you for your consideration,

Diana
