HENKEL BUILDING) TO BE EXCESSIVE. BOTH OF THESE ISSUES DISCOURAGE MY
SUPPORT OF THIS AGENDA ITEM.

Collaborative City and School Planning

Policies and Procedures

School District Responsibilities:

- 1) Upon receipt of the above information, the school district(s) shall review the materials and determine one of the following:
 - That the school district has adequate school facilities to accommodate the projected number of additional students generated by the proposed rezoning within the school district's attendance area; or
 - That the school district will have adequate school facilities via a planned capital improvement to be constructed within one (1) year of the date of notification of the district and located within the school district's attendance area; or

- 2) The school district shall determine the above with methodology approved and published by the appropriate school district. If a school district fails to establish a student per-household ratio methodology for projecting the number of new students resulting from an applicant's rezoning application, then the school district shall base its certification upon an authoritative source accepted within the education community and based upon the most recent published Census information.
- 3) If the school district(s) requests a thirty (30) day extension, such request must be made prior to the expiration of the original discussion and response time. Such requests must be made in writing and submitted to Current Planning Department of the City of Scottsdale Planning, Neighborhood, and Transportation Division.

From: COGS Board of Directors, The Coalition of Greater Scottsdale

Re: Wed. May 9, 2018 Agenda item #2 19 ZN 2002 #6 Crossroads East

COGS SUPPORTS A CONTINUATION OF CASE 19-ZN-2002 #6

COGS has major concerns regarding Agenda #2 the Crossroads East request for Zoning District Map Amendment and multiple other amendments including the development standards for the 1,000 acre site and the Development Plan and amended development standards for the 136 acre site in the application.

1. Strong value must be assigned to the February 21, 2018 letter from the Airport Advisory Commission in which they recommended City rejection by 6 to 1 citing two critically negative Crossroad East impacts on the sustainability of the Scottsdale Airport and operations.
(a) increasing dwelling units from 4,569 to 6,569 in the Airport Influence Areas of AC-1 and AC-2 north and south of the 101 Loop corridor and (b) building heights along the 101 Loop corridor up to 116 feet. **Our airport is a major economic driver for our city and it must be protected by city government decisions that continue to support short and long-range airport success and careful planning to maintain surrounding land use compatibility.**
2. The Coalition of Greater Scottsdale advocates for the residential communities in Grayhawk, DC Ranch, Desert Mountain, and Pinnacle Peak on the following concerns:
 - There is no identifiable or specific Land Use Plan available for public review and evaluation.
 - The density increase requested is excessive for the project.
 - The building height information is inconsistent and not transparent for the general public. One exhibit shows 160 feet yet page 47 on the 16 acres shows 134 feet. The freeway proximity shows 115 ft on the application—a danger to the airport traffic. The request on some land use increases to 42 feet. Because there is a lack of a specific Land

Use Plan, there is no indication of transition in building heights as required in the General Plan 2001.

3. Significant traffic congestion exists today on Scottsdale Road from Thompson Peak Road and south to Frank Lloyd Wright Blvd that blocks most intersections and slows Loop 101 freeway access. The Pima Road-Loop 101 freeway access mirrors this congestion. Hayden Road is often the least heavily traveled route but is closed south of the freeway during the TPC, and used as a primary route during WestWorld events, making this roadway as congested as Scottsdale and Pima Roads. Any lack of careful planning for streets and future traffic volumes on these 1,000 acres of Arizona State Land puts public safety at risk. Mass transit is under-utilized in this area, and no long-range planning exists to improve ridership.

COGS understands that the Arizona State Land Department is charged to receive the highest sales price when selling state land and that zoning to R 1-5 is lucrative. However, what benefits the state must also benefit the existing Scottsdale residents and its city. Commonly, City of Scottsdale practice in a rezoning to R 1-5 results in amendments to the development standards. In the final project product, the developer receives multiple bonuses and the project is granted greater heights and increased density to the chagrin of existing owners in the area and importantly to the demise of Scottsdale's economy as we know that high density residential property does not pay its proportionate way.

We strongly support the Airport Commission request to hold **ADDITIONAL PUBLIC STUDY SESSIONS** for each of the respective commissions (Planning, Airport, Transportation, Development, Building Advisory, and Neighborhood) as well as **ADDITIONAL PUBLIC NEIGHBORHOOD HEARINGS** for residents of Grayhawk, DC Ranch, Desert Mountain, Pinnacle Peak and other nearby communities. All of these communities will be significantly impacted with additional traffic congestion on the three main north-south arteries (Scottsdale, Hayden and Pima Roads) The impact on this amount of acreage under construction must be thoroughly vetted and due diligence would require additional time and study before sending it to the city council.

Respectfully submitted,

For the Coalition of Greater Scottsdale (COGS) Board of Directors
