Development Application Checklist

Minimal Submittal Requirements:

At your pre-application meeting, your project coordinator will identify which items indicated on this Development Application checklist are required to be submitted. A Development Application that does not include all items indicated on this checklist may be rejected immediately. A Development Application that is received by the City does not constitute that the application meets the minimum submittal requirements to be reviewed.

In addition to the items on this checklist, to avoid delays in the review of your application, all Plans, Graphics, Reports and other additional information that is to be submitted shall be provided in accordance with the:

- requirements specified in the Plan & Report Requirements for Development Applications Checklist;
- Design Standards & Policies Manual;
- requirements of Scottsdale Revised Code (including the Zoning Ordinance); and
- stipulations, including any additional submittal requirements identified in the stipulations, of any Development Application approved that this application is reliant upon; and
- the city's design guidelines.

If you have any question regarding the information above, or items indicated on this application checklist, please contact your project coordinator. His/her contact information is on the page 12 of this application.

Please be advised that a Development Application received by the City that is inconsistent with information submitted with the corresponding pre-application may be rejected immediately, and may be required to submit a separate: pre-application, a new Development Application, and pay all additional fees.

Prior to application submittal, please research original zoning case history to find the original adopted ordinance(s) and exhibit(s) to confirm the zoning for the property. This will help to define your application accurately. The City's full-service Records Department can assist.

Development Applications Process

Enhanced Application Review

Development Review (DR and PP)

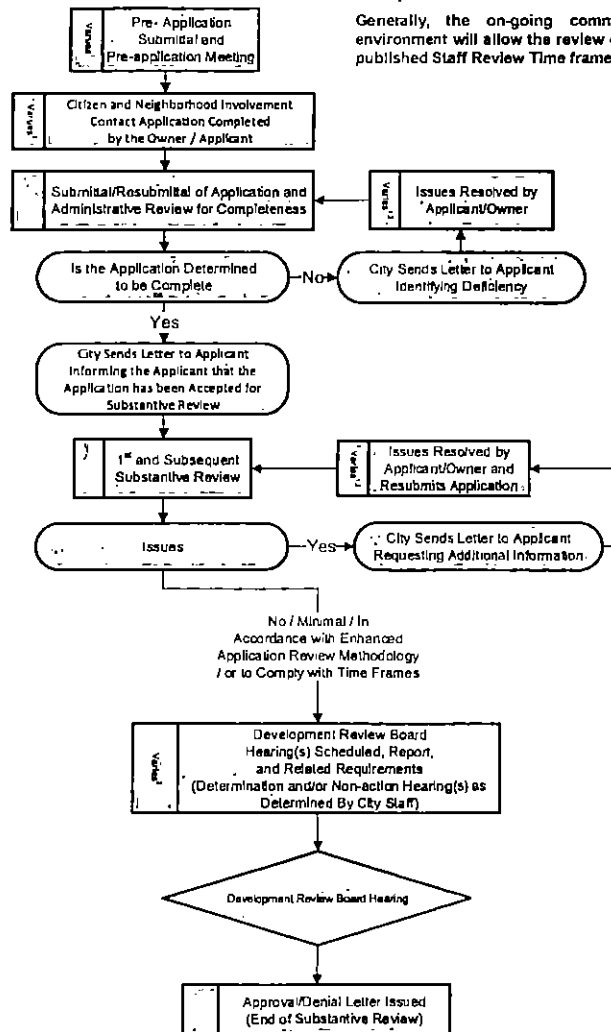

Enhanced Application Review Methodology

Within the parameters of the Regulatory Bill-of-Rights of the Arizona Revised Statutes, the Enhanced Application Review method is intended to increase the likelihood that the applicant will obtain an earlier favorable written decision or recommendation upon completion of the city's reviews. To accomplish this objective, the Enhanced Application Review allows:

- the applicant and City staff to maintain open and frequent communication (written, electronic, telephone, meeting, etc.) during the application review;
- City staff and the applicant to collaboratively work together regarding an application; and
- City staff to make requests for additional information and the applicant to submit revisions to address code, ordinance, or policy deficiencies in an expeditious manner.

Generally, the on-going communication and the collaborative work environment will allow the review of an application to be expedited within the published Staff Review Time frames.

- Note:
1. Time period determined by owner/applicant.
 2. All reviews and time frames are suspended from the date a letter is issued requesting additional information until the date the City receives the resubmittal from the owner/applicant.
 3. The substantive review, and the overall time frame time is suspended during the public hearing processes.
 4. Owner/applicant may agree to extend the time frame by 50 percent.

Development Applications Process

Standard Application Review

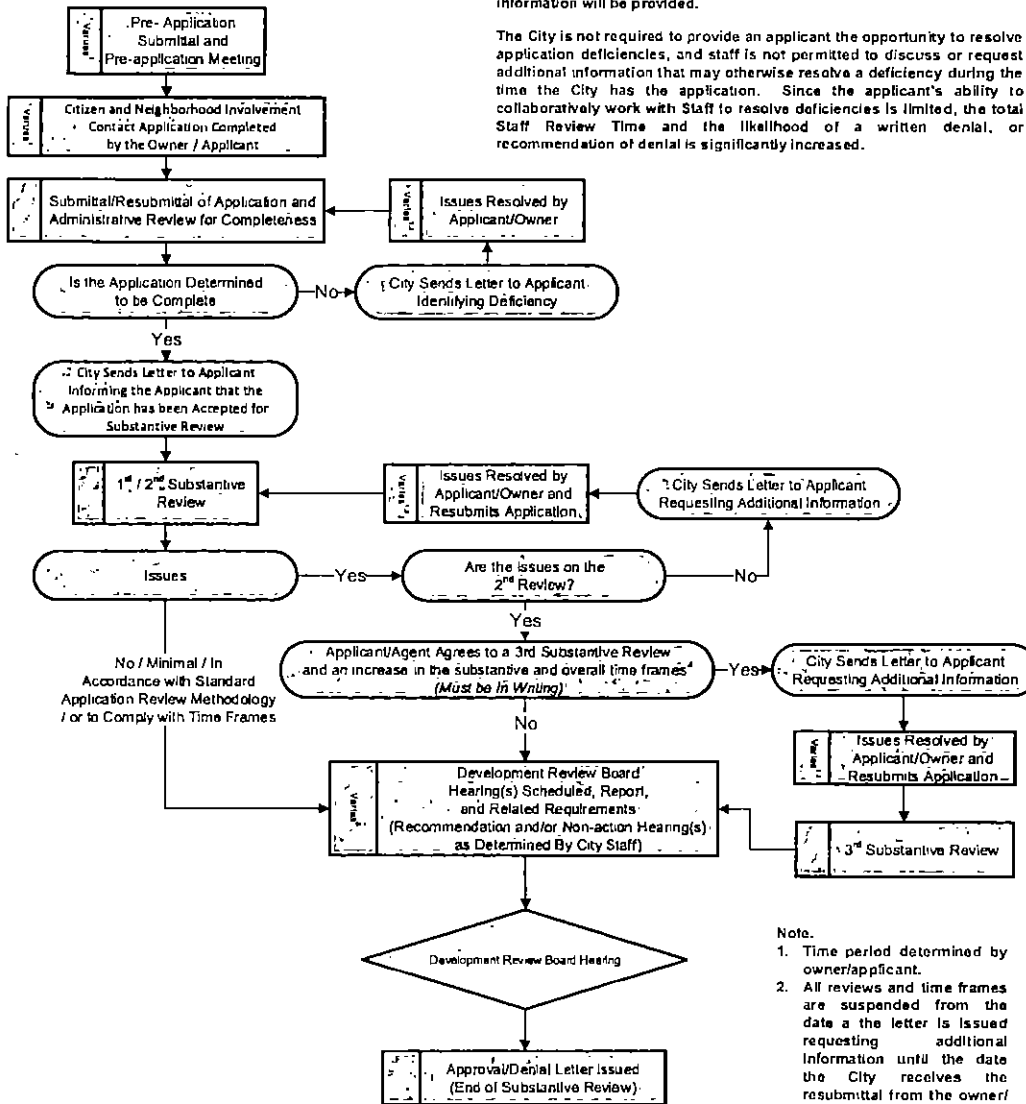

Development Review (DR and PP)

Standard Application Review Methodology:

Under the Standard Application Review, the application is processed in accordance with the Regulatory Bill-of-Rights of the Arizona Revised Statutes. These provisions significantly minimize the applicant's ability to collaboratively work with City Staff to resolve application code, ordinance, or policy deficiencies during the review of an application. After the completion of the city's review, a written approval or denial, recommendation of approval or denial, or a written request for additional information will be provided.

The City is not required to provide an applicant the opportunity to resolve application deficiencies, and staff is not permitted to discuss or request additional information that may otherwise resolve a deficiency during the time the City has the application. Since the applicant's ability to collaboratively work with Staff to resolve deficiencies is limited, the total Staff Review Time and the likelihood of a written denial, or recommendation of denial is significantly increased.

- Note:
1. Time period determined by owner/applicant.
 2. All reviews and time frames are suspended from the date a letter is issued requesting additional information until the date the City receives the resubmittal from the owner/applicant.
 3. The substantive review, and the overall time frame time is suspended during the public hearing processes.
 4. Owner/applicant may agree to extend the time frame by 50 percent.

- Provide originals of all comments, letters, and correspondence received

City will post public hearing sign notices and provide other public notification

- Mailing out postcards to property owners within 750 feet
- Posting case information on the City website
- Posting on social media
- Sending to email subscribers

Project: Bell & Hartford
Location: NE corner of Bell Road and 82nd Street
RE: Project Narrative; DRB Submittal
Date: 6/20/2018
From: LGE Design Group; John MocarSKI

Project Overview

LGE is excited to propose a new shell office building at the corner of Bell Road and 82nd Street on a 2.79 acre site. The site is zoned I-1, with I-1 zoning to the north, east and west and R-5 zoning to the south of the site across Bell Road. The facility has been envisioned as a 32,054 S.F. multi-tenant spec office building with a main lobby entry on the northwest corner of the building. The access for the project from Hartford Drive. Parking for the project exceeds the base code requirements with ample parking on both the north and west ends of the site for easy customer and employee access. Covered parking is proposed in two separate canopies central to the lot.

A clean, modern aesthetic is intended for the overall design. The most visible north and south elevations are characterized by a ribbon window system with a metal hood frame. The south side has a painted metal scrim added for visual interest and shade. A large, metal panel wall accents the east elevation, joining smoothly with the roof to form an integral mechanical screen. The main entry is shaded by the large overhang of the second floor window system. Building materials, site, parking and landscaping are all to be in accordance with code requirements and standards.

Thank you for your time and please don't hesitate to call for any questions or comments.

Sincerely,

Designing your vision. Building your future.
