Kendo M Linear illumination system

Extruded aluminum linear illumination system. Kendo M features specifically designed LED engine that provides constant illumination levels from the beginning to the end of the runs. Kendo M is suitable for cove lighting architectural accents, under or above cabinets, display cases and many other applications. Available in sections up to 100" long with the option to extend up to 2400" long with Kendo M Seamless using in high output only. Reference page 31. Class 2 listed for damp location installations. Approved for closet/storage space installation per NEC 410.16(A)(3) and 410.16(C)(5). 3 year warranty.
