# **Development Review Board (DRB)**

### **Development Application Checklist**

#### **Minimal Submittal Requirements:**

At your pre-application meeting, your project coordinator will identify which items indicated on this Development Application checklist are required to be submitted. A Development Application that does not include all items indicated on this checklist may be rejected immediately. A Development Application that is received by the City does not constitute that the application meets the minimum submittal requirements to be reviewed.

In addition to the items on this checklist, to avoid delays in the review of your application, all Plans, Graphics, Reports and other additional information that is to be submitted shall be provided in accordance with the:

- requirements specified in the Plan & Report Requirements for Development Applications Checklist;
- Design Standards & Policies Manual;
- requirements of Scottsdale Revised Code (including the Zoning Ordinance); and
- stipulations, including any additional submittal requirements identified in the stipulations, of any Development Application approved that this application is reliant upon; and
- the city's design guidelines.

If you have any question regarding the information above, or items indicated on this application checklist, please contact your project coordinator. His/her contact information is on the page 12 of this application.

Please be advised that a Development Application received by the City that is inconsistent with information submitted with the corresponding pre-application may be rejected immediately, and may be required to submit a separate: pre-application, a new Development Application, and pay all additional fees.

Prior to application submittal, please research original zoning case history to find the original adopted ordinance(s) and exhibit(s) to confirm the zoning for the property. This will help to define your application accurately. The City's full-service Records Department can assist.

#### PART I -- GENERAL REQUIREMENTS Reg'd Description of Documents Required for Complete Application. No application shall be accepted without all items marked below. $\square$ 1. Development Review Application Checklist (this list) $\overline{\mathbf{A}}$ √ 2. Application Fee \$ 485.00 (subject to change every July) $\mathbf{Q}$ $\checkmark$ 3. Completed Development Application Form (form provided) The applicant/agent shall select a review methodology on the application form (Enhanced Application Review or Standard Application Review). If a review methodology is not selected, the application will be review under the Standard Application Review methodology. Request to Submit Concurrent Development Applications (form provided) $\overline{\mathbf{A}}$ $\checkmark$ Letter of Authorization (from property owner(s) if property owner did not sign the application form)

#### **Planning and Development Services**

A	<b>7</b>	6. Affidavit of Authorization to Act for Property Owner (required if the property owner is a corporation, trust, partnership, etc. and/or the property owner(s) will be represented by an applicant that will act on behalf of the property owner. (form provided)

# **Development Application**

#### **Review Methodologies**

#### **Review Methodologies**

The City of Scottsdale maintains a business and resident friendly approach to new development and improvements to existing developments. In order to provide for flexibility in the review of Development Applications, and Applications for Permitting, the City of Scottsdale provides two methodologies from which an owner or agent may choose to have the City process the application. The methodologies are:

#### 1. Enhanced Application Review Methodology

Within the parameters of the Regulatory Bill-of-Rights of the Arizona Revised Statutes, the Enhanced Application Review method is intended to increase the likelihood that the applicant will obtain an earlier favorable written decision or recommendation upon completion of the city's reviews. To accomplish this objective, the Enhanced Application Review allows:

- the applicant and City staff to maintain open and frequent communication (written, electronic, telephone, meeting, etc.) during the application review;
- City staff and the applicant to collaboratively work together regarding an application; and
- City staff to make requests for additional information and the applicant to submit revisions to address code, ordinance, or policy deficiencies in an expeditious manner.

Generally, the on-going communication and the collaborative work environment will allow the review of an application to be expedited within the published Staff Review Time frames.

#### 2. Standard Application Review Methodology:

Under the Standard Application Review, the application is processed in accordance with the Regulatory Bill-of-Rights of the Arizona Revised Statutes. These provisions significantly minimize the applicant's ability to collaboratively work with City Staff to resolve application code, ordinance, or policy deficiencies during the review of an application. After the completion the city's review, a written approval or denial, recommendation of approval or denial, or a written request for additional information will be provided.

The City is not required to provide an applicant the opportunity to resolve application deficiencies, and staff is not permitted to discuss or request additional information that may otherwise resolve a deficiency during the time the City has the application. Since the applicant's ability to collaboratively work with Staff's to resolve deficiencies is limited, the total Staff Review Time and the likelihood of a written denial, or recommendation of denial is significantly increased.

In addition to the information above, please review the Development Application, and/or the Application for Permitting flow charts. These flow charts provide a step-by-step graphic representation of the application processes for the associated review methodologies.

#### **Arizona Revised Statues Notice**

#### §9-834. Prohibited acts by municipalities and employees; enforcement; notice

- A. A municipality shall not base a licensing decision in whole or in part on a licensing requirement or condition that is not specifically authorized by statute, rule, ordinance or code. A general grant of authority does not constitute a basis for imposing a licensing requirement or condition unless the authority specifically authorizes the requirement or condition.
- B. Unless specifically authorized, a municipality shall avoid duplication of other laws that do not enhance regulatory clarity and shall avoid dual permitting to the maximum extent practicable.
- C. This section does not prohibit municipal flexibility to issue licenses or adopt ordinances or codes.
- D. A municipality shall not request or initiate discussions with a person about waiving that person's rights.
- E. This section may be enforced in a private civil action and relief may be awarded against a municipality. The court may award reasonable attorney fees, damages and all fees associated with the license application to a party that prevails in an action against a municipality for a violation of this section.
- F. A municipal employee may not intentionally or knowingly violate this section. A violation of this section is cause for disciplinary action or dismissal pursuant to the municipality's adopted personnel policy.
- G. This section does not abrogate the immunity provided by section 12-820.01 or 12-820.02.

#### I. <u>Purpose of Request</u>

This request is for the Development Review Board approval of the Master Sign Program for The Halsten at Chauncey Lane. The Halsten is a multi-family project consisting of 300+ upscale residential units in a four- story building, as part of the mixed-use development of Chauncey Lane Marketplace located at the 17777 N. Scottsdale Rd. The Halsten and surrounding Chauncey Lane Marketplace have been zoned as PRC. Such zoning allows for an increase in signage height through the approval of a Master Sign Program by the Development Review Board.

The Master Sign Program requests an increase in allowed sign height over the Scottsdale standard of 36′, which is necessary in the case of The Halsten. Primary access for The Halsten will be provided via Chauncey Lane along the north. The only identification The Halsten will have to major arterial traffic will be the building mounted signage facing Scottsdale Road, there will be no monument signage on E. Chauncey Lane. Since the project is set so far back from Scottsdale Road, the signs must be placed at a high enough height to be visible from behind the commercial aspect of Chauncey Lane Marketplace buildings along Scottsdale Road.

#### II. <u>Development Review Board Criteria:</u>

In considering any application for development, the Development Review Board shall be guided by the following criteria:

 The Board shall examine the design and theme of the application for consistency with the design and character components of the applicable guidelines, development standards, Design Standards and Policies Manual, master plans, character plan and General Plan.

Because The Halsten has been previously approved by the Development Review Board as part of the Chauncey Lane Marketplace mixed-use development, and this request only pertains to the exterior signage of the multi-family residential building to be known as The Halsten. Due to this, not every goal of the General plan and Design Standards & Policies Manual do not apply. However, The Halsten exterior signage proposed will comply with the applicable guidelines, development standards, Design Standards & Policies Manual, and any relevant master, character and general plans.

- 2. The architectural character, landscaping and site design of the proposed development shall:
  - a. Promote a desirable relationship of structures to one another, to open spaces and topography,
     both on the site and in the surrounding neighborhood;

Response: Not applicable

b. Avoid excessive variety and monotonous repetition;

**Response:** Not applicable

c. Recognize the unique climactic and other environmental factors of this region to respond to the Sonoran Desert environment, as specified in the Sensitive Design Principles;

**Response:** Please see the Scottsdale Sensitive Design Principle Conformance section found in the following section.

d. Conform to the recommendations and guidelines in the Environmentally Sensitive Lands (ESL)
Ordinance, in the ESL Overlay District; and

Response: Not applicable

e. Incorporate unique or characteristic architectural features, including building height, size, shape, color, texture, setback or architectural details, in the Historic Property Overlay District.

Response: Not applicable

3. Ingress, egress, internal traffic circulation, off-street parking facilities, loading and service areas and pedestrian ways shall be so designed as to promote safety and convenience.

**Response:** Not applicable

#### III. Scottsdale Sensitive Design Principles

The Character and Design Element of the General Plan states that "Development should respect and enhance the unique climate, topography, vegetation and historical context of Scottsdale's Sonoran desert environment, all of which are considered amenities that help sustain our community and its quality of life." The City has established a set of design principles, known as the Scottsdale's Sensitive Design Principles, to reinforce the quality of design in our community. The following Sensitive Design Principles are fundamental to the design and development of the Property.

1. The design character of any area should be enhanced and strengthened by new development.

#### Response:

2. Development, through appropriate siting and orientation of buildings, should recognize and preserve established major vistas, as well as protect natural features.

**Response:** Not applicable

3. Development should be sensitive to existing topography and landscaping.

**Response:** Not applicable

4. Development should protect the character of the Sonoran Desert by preserving and restoring natural habitats and ecological processes.

**Response:** Not applicable

5. The design of the public realm, including streetscapes, parks, plazas and civic amenities, is an opportunity to provide identity to the community and to convey its design expectations.

**Response:** Not applicable

6. Developments should integrate alternative modes of transportation, including bicycles and bus access, within the pedestrian network that encourage social contact and interaction within the community.

**Response:** Not applicable

7. Developments should show consideration for the pedestrian by providing landscaping and shading elements as well as inviting access connections to adjacent developments.

**Response:** Not applicable

8. Buildings should be designed with a logical hierarchy of masses.

**Response:** Not applicable

9. The design of the built environment should respond to the desert environment.

Response: Not applicable

10. Developments should strive to incorporate sustainable and healthy building practices and products.

Response: Not applicable

11. Landscape design should respond to the desert environment by utilizing a variety of mature landscape materials indigenous to the arid region.

**Response:** Not applicable

12. Site design should incorporate techniques for efficient water use by providing desert adapted landscaping and preserving native plants.

**Response:** Not applicable

13. The extent and quality of lighting should be integrally designed as part of the built environment.

**Response:** Not applicable

14. Signage should consider the distinctive qualities and character of the surrounding context in terms of size, color, location and illumination.

**Response:** The signage for The Halsten was designed to be complementary to the architecture of the building and design theme for the site. In order to make the signs visible to local traffic, the signage must be placed higher on the building than is generally allowed in Scottsdale. Careful consideration has been made to assure that the signage is not too bright and proportionate to the architecture of the building and not to overshadow the surrounding desert environment while still being contextually appropriate, as specified in Scottsdale Sensitive Design Principles.

The proposed Master Sign Program will allow for The Halsten to adequately identify itself to the surrounding community. We respectfully request your approval.
