RE: Scottsdale Fashion Square – Caesars Republic
Traffic Impact & Mitigation Analysis

INTRODUCTION

J2 Engineering and Environmental Design (J2) has prepared this document as an update to the original Traffic Impact and Mitigation Analysis (TI&MA) for Scottsdale Fashion Square dated May 9, 2017. This document includes the analysis for the proposed Caesars Republic development at the Scottsdale Fashion Square Mall located in Scottsdale, Arizona. The proposed Caesars Republic development is located on the southeast corner of Goldwater Boulevard and Highland Avenue. The objective of this Traffic Impact and Mitigation Analysis is to analyze the traffic related impacts of this proposed development to the adjacent roadway network.

The proposed Caesars Republic will include a 233 room hotel 11-story hotel with five (5) condominiums on the top floors and a 2,000 square foot restaurant. See **Attachment A** for the proposed site plan.

The following are the six (6) intersections studied throughout this analysis:

- Goldwater Boulevard and Camelback Road (1)
- Goldwater Boulevard and Scottsdale Fashion (2)
- Goldwater Boulevard and Highland Avenue (3)
- Highland Avenue and Driveway (4)
- Highland Avenue and Scottsdale Fashion/Optima Driveway (5)
- Scottsdale Road and Highland Avenue (6)

TRIP GENERATION

TRIP GENERATION - SCOTTSDALE FASHION SQUARE TI&MA, DATED MAY 9, 2017

In the Scottsdale Fashion Square TI&MA, dated May 9, 2017, the southeast corner of Goldwater Boulevard and Highland Avenue was assumed to be a 400 unit condominium. The trip generation was calculated utilizing the Institute of Transportation Engineers (ITE) publication entitled *Trip Generation, 9th Edition*. The trip generation calculations also included internal trip capture due to the anticipated interaction between the proposed and existing uses. The total trips generated for the 400 unit condominium, including internal trip capture, is shown in [Error! Not a valid bookmark self-reference.](#)

Table 1 –Trip Generation – Previously Assumed for Parcel South of Highland Avenue

| Land Use | ITE Code | Qty | Unit | Weekday | AM Peak Hour | | | PM Peak Hour | | |
|---------------------------------|----------|-----|----------------|--------------|--------------|-----------|------------|--------------|-----------|-----------|
| | | | | Total | Total | In | Out | Total | In | Out |
| Condominium/Townhouse/Apartment | 230 | 400 | Dwelling Units | 2,149 | 156 | 27 | 129 | 126 | 84 | 41 |
| TOTAL | | | | 2,149 | 156 | 27 | 129 | 126 | 84 | 41 |

TRIP GENERATION - CAESARS REPUBLIC

Since the May 9, 2017 TI&MA, the ITE *Trip Generation, 10th Edition* was released. Therefore, the trip generation for the proposed Caesars Republic development was calculated utilizing this 10th Edition.

The ITE rates and equations are based on studies that measured the trip generation characteristics for various types of land uses. The rates and equations are expressed in terms of trips per unit of land use type. This publication is considered to be the standard for the transportation engineering profession.

The proposed Caesars Republic development includes the following uses:

- 233 room Hotel
- 5 Condominiums
- 2,000 square foot Restaurant
- Land Use 310 - Hotel
- Land Use 220 - Multifamily Housing (Low-Rise)
- Land Use 931 - Quality Restaurant

The total trip generation, including internal trip capture, for the proposed Caesars Republic development is shown in **Table 2** below. Detailed trip generation calculations are provided in **Attachment B**.

Table 2 –Trip Generation – Proposed Caesars Republic

| Land Use | ITE Code | Qty | Unit | Weekday | AM Peak Hour | | | PM Peak Hour | | |
|--------------------------------|----------|-----|----------------|--------------|--------------|-----------|-----------|--------------|-----------|-----------|
| | | | | Total | Total | In | Out | Total | In | Out |
| Hotel | 310 | 233 | Rooms | 2,204 | 111 | 65 | 46 | 84 | 43 | 41 |
| Multifamily Housing (Low-Rise) | 220 | 5 | Dwelling Units | 37 | 2 | 0 | 2 | 2 | 1 | 1 |
| Quality Restaurant | 931 | 2 | 1000 SF GLA | 168 | 0 | 0 | 0 | 9 | 6 | 3 |
| TOTAL | | | | 2,409 | 113 | 65 | 48 | 94 | 50 | 45 |

TRIP GENERATION COMPARISON

A comparison between the trips generated by the 400 unit condominium, per the May 9, 2017 SFS TI&MA, versus the proposed Caesars Republic development is shown in **Table 3**.

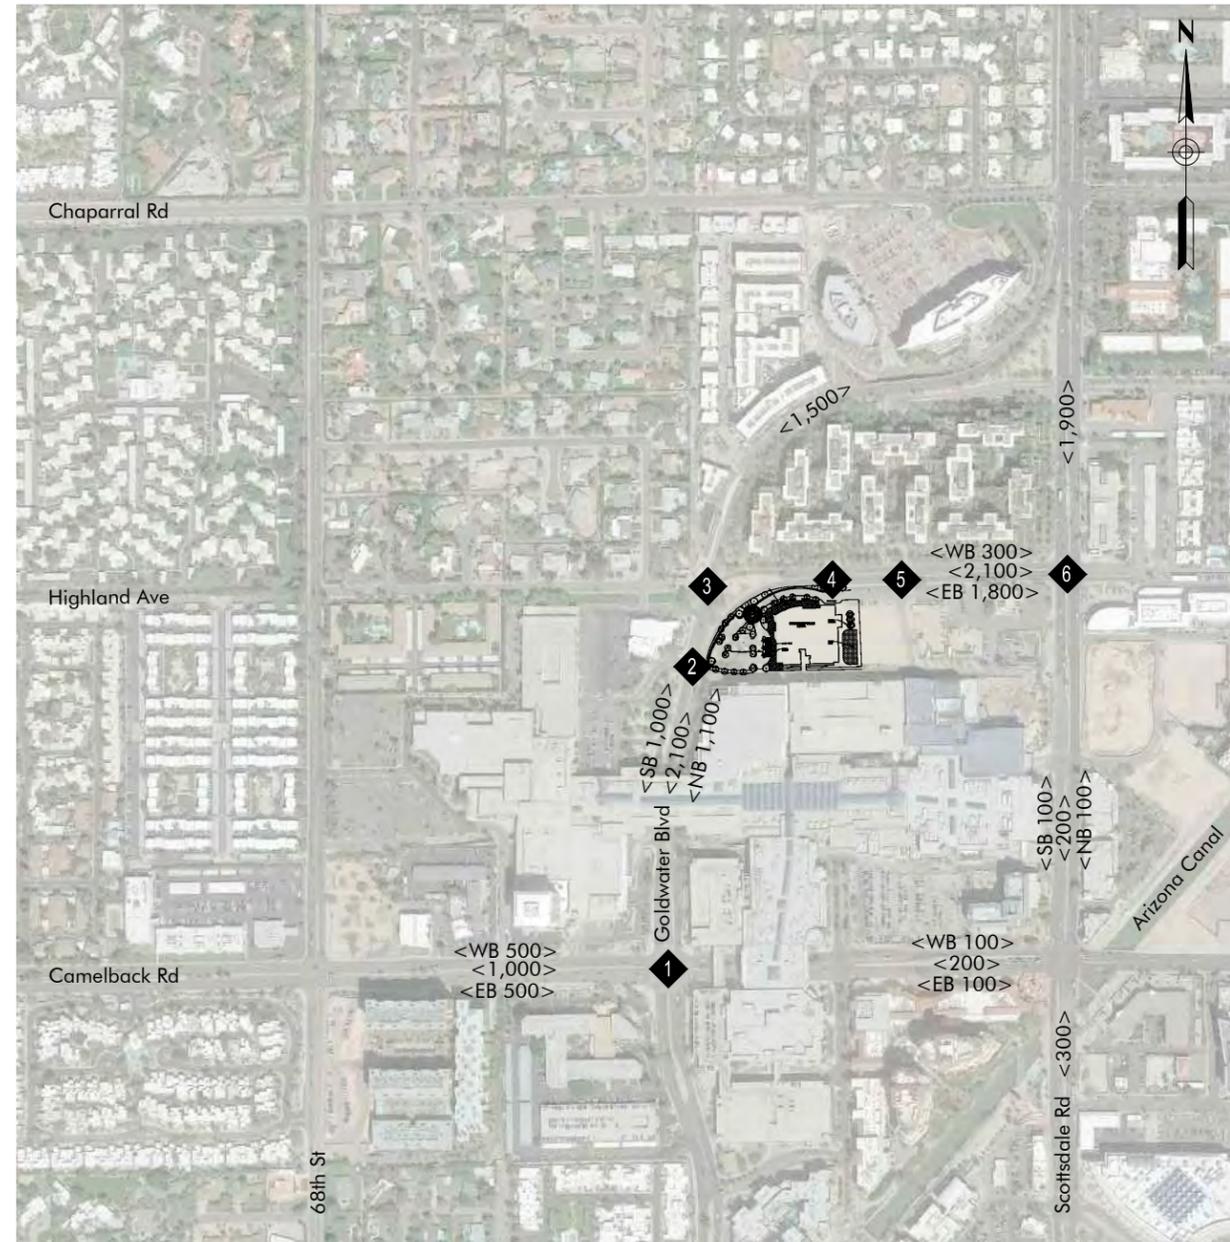

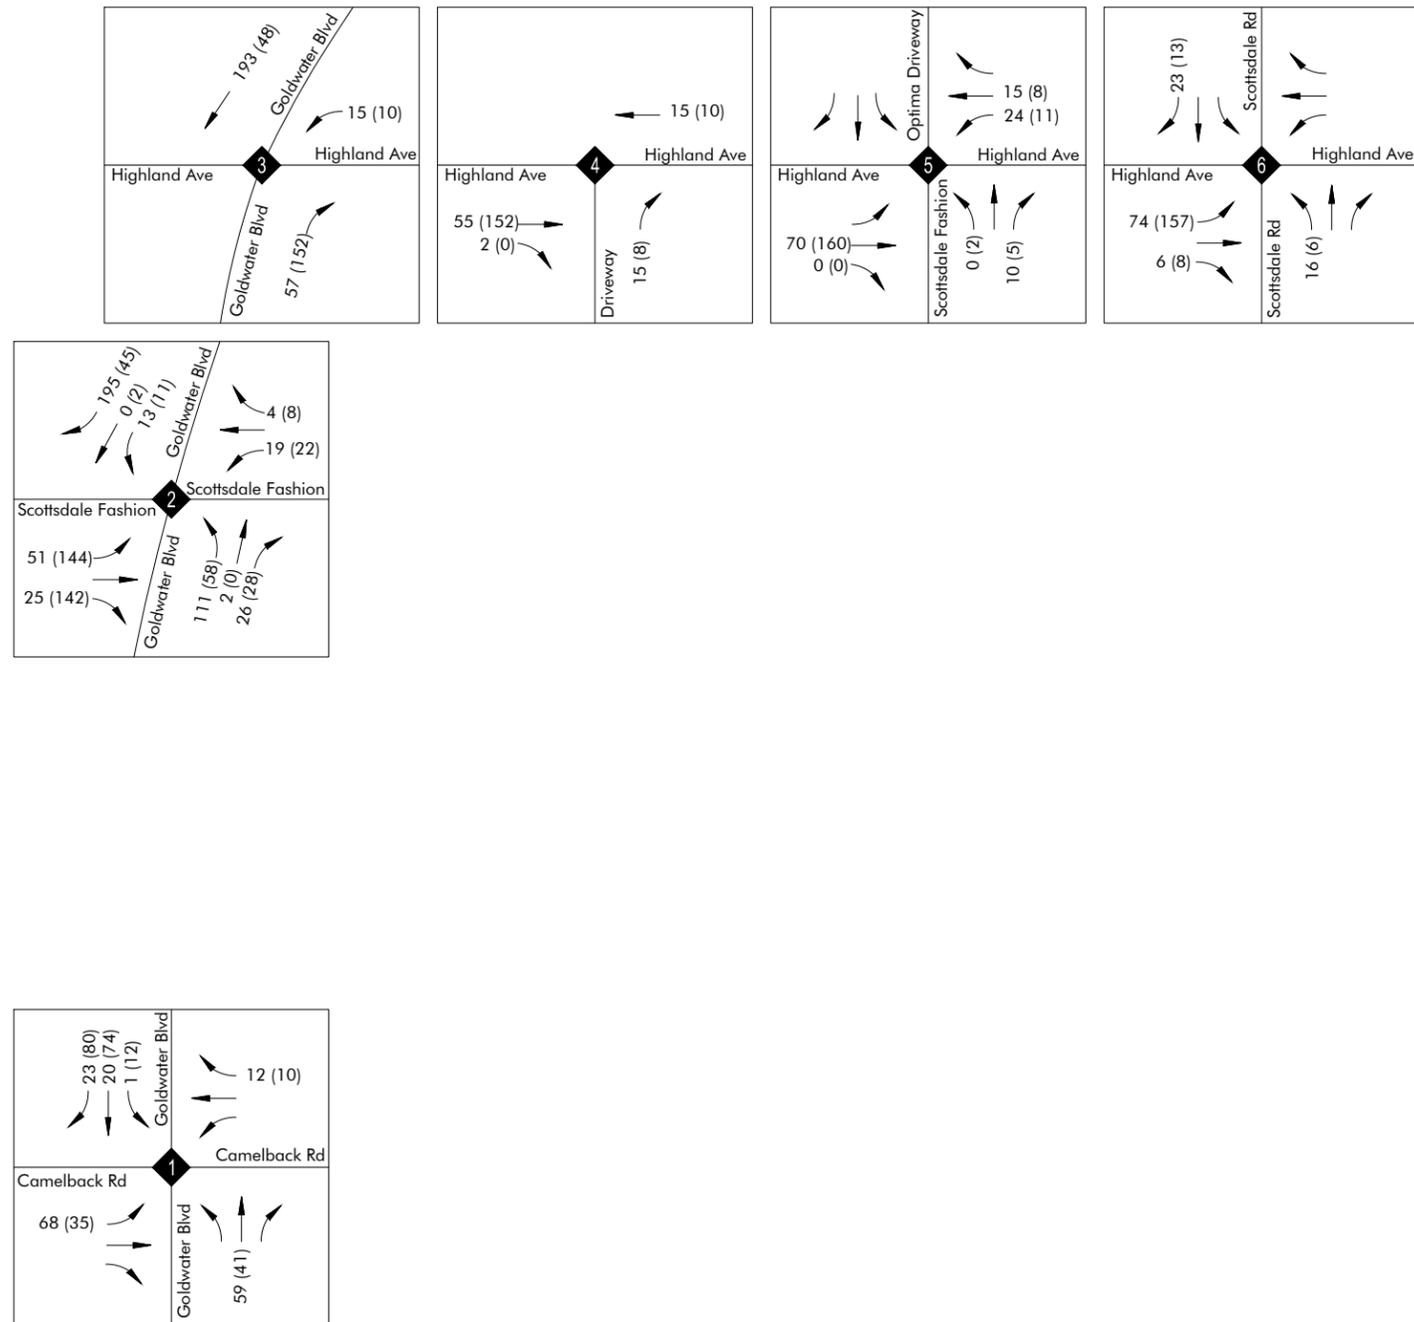

Table 3 – Trip Generation Comparison (SFS TI&MA 5/9/2017 vs. Caesars Republic)

| | Weekday | AM Peak Hour | | | PM Peak Hour | | |
|-----------------------------|------------|--------------|-----------|------------|--------------|------------|----------|
| | Total | Total | In | Out | Total | In | Out |
| SFS TI&MA Dated May 9, 2017 | 2,149 | 156 | 27 | 129 | 126 | 84 | 41 |
| Caesars Republic | 2,409 | 113 | 65 | 48 | 94 | 50 | 45 |
| Difference | 260 | -43 | 38 | -81 | -31 | -35 | 3 |

Although the prior and proposed land uses are different, the weekday daily, and AM and PM peak hour trip generation is relatively similar.

TRIP DISTRIBUTION AND TRIP ASSIGNMENT

The trip distribution procedure determines the general pattern of travel for vehicles entering and leaving the proposed development. The trip distribution for the proposed Caesars Republic development was based on the existing traffic. See **Figure 1** for proposed site traffic volumes. To keep consistent with the May 9, 2017 SFS TI&MA, the site volumes also include the buildout of the parcels to the west to Goldwater Boulevard, a 200 room hotel and a 240,000 square foot office.

FIGURE 1 | SITE TRAFFIC VOLUMES

EXISTING CONDITIONS

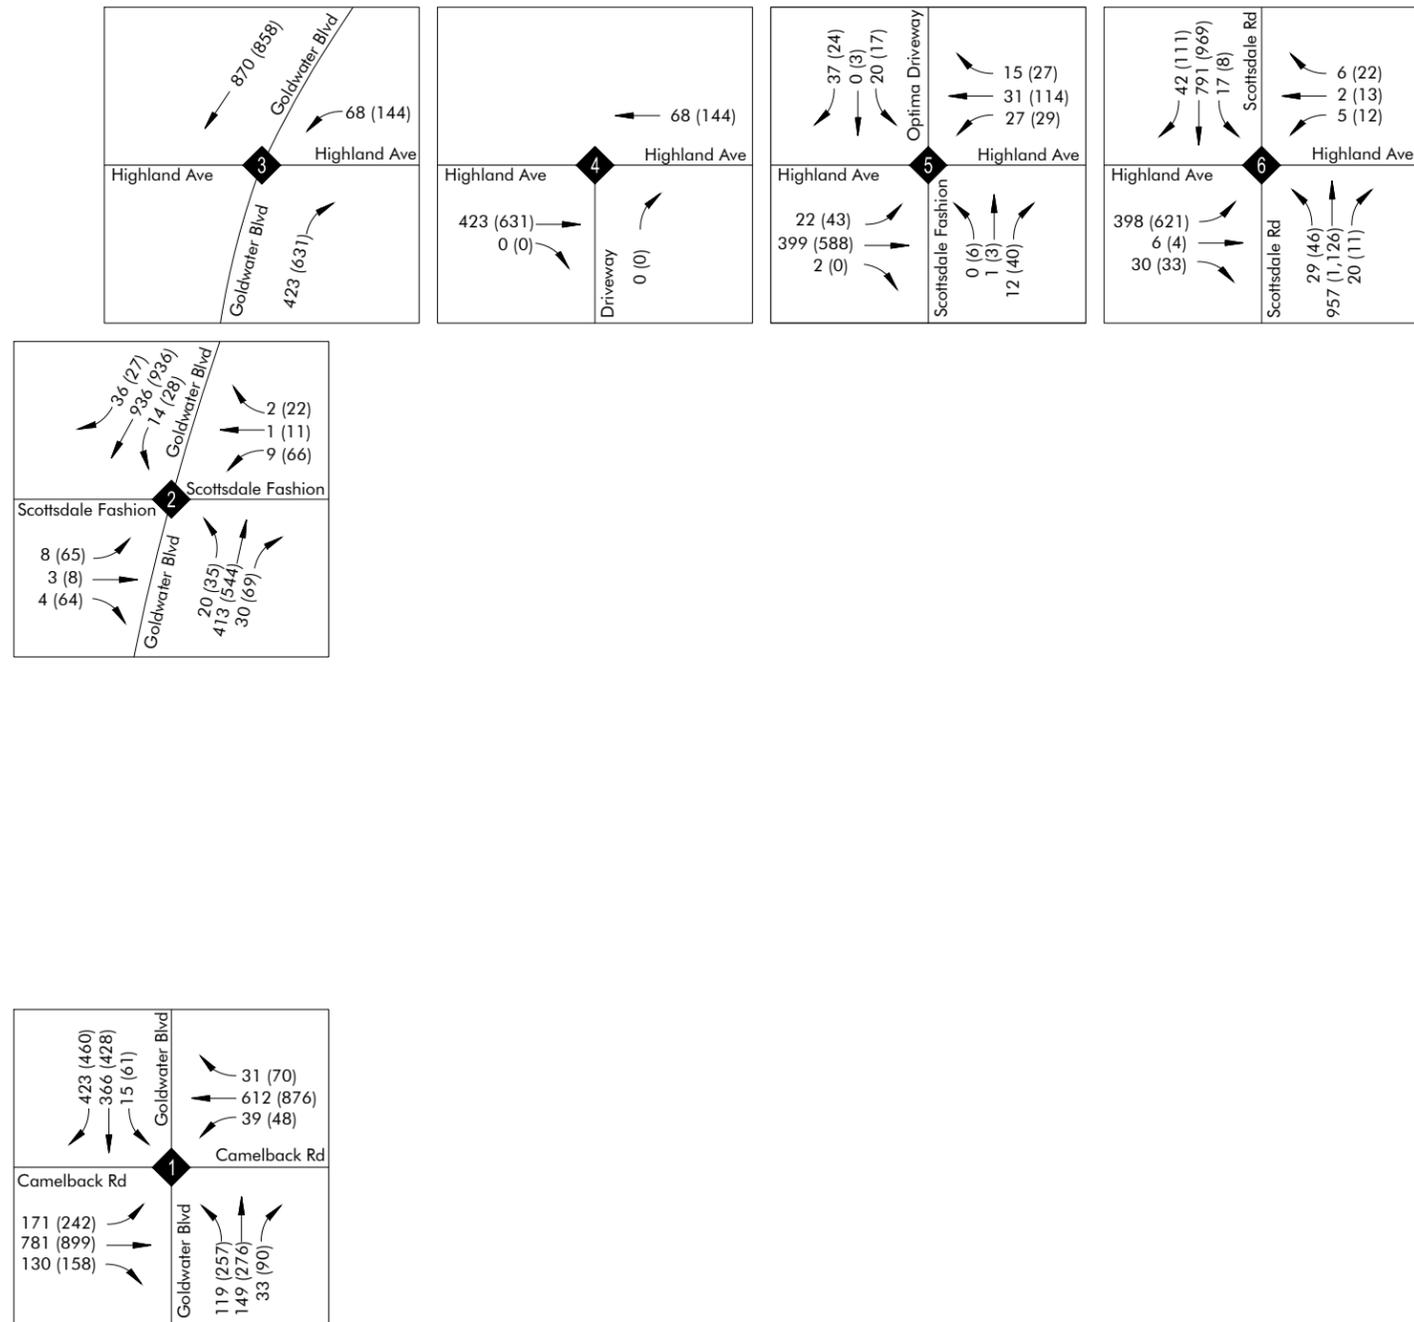

EXISTING TRAFFIC VOLUMES

The existing traffic volumes collected on Tuesday, October 6, 2015, and Wednesday, February 15, 2017 as part of the May 9, 2017 SFS TI&MA is shown in **Figure 2**.

EXISTING CAPACITY ANALYSIS

As reported in the May 9, 2017 SFS TI&MA, the existing capacity analysis was completed using the methodology presented in the *2010 Highway Capacity Manual*. The analysis was completed using the traffic software, Synchro Version 9.0. The signal timing was provided by the City of Scottsdale. See **Attachment C** for the existing signal timing as provided in the May 9, 2017 SFS TI&MA.

The existing capacity analysis as reported in the May 9, 2017 SFS TI&MA is shown in **Figure 3**. The detailed capacity analysis sheets as provided in the May 9, 2017 SFS TI&MA can be found in **Attachment D**.

FIGURE 3 | EXISTING CAPACITY ANALYSIS

YEAR 2020 CONDITIONS

YEAR 2020 BACKGROUND TRAFFIC VOLUMES

The proposed Caesars Republic development is scheduled to be completed by the end of 2020, which corresponds to the 5 year analysis included in the May 9, 2017 SFS TI&MA. Therefore, shown in **Figure 4** are the 5 year background traffic volumes as shown in the May 9, 2017 SFS TI&MA, which corresponds to the year 2020 background traffic volumes for the proposed Caesars Republic.

YEAR 2020 NO BUILD CAPACITY ANALYSIS

It should be noted that per the May 9, 2017 SFS TI&MA, the following intersection improvements were necessary due to the existing AM and PM peak hours operating at LOS E and F. These improvements are included in the year 2020 no build analysis:

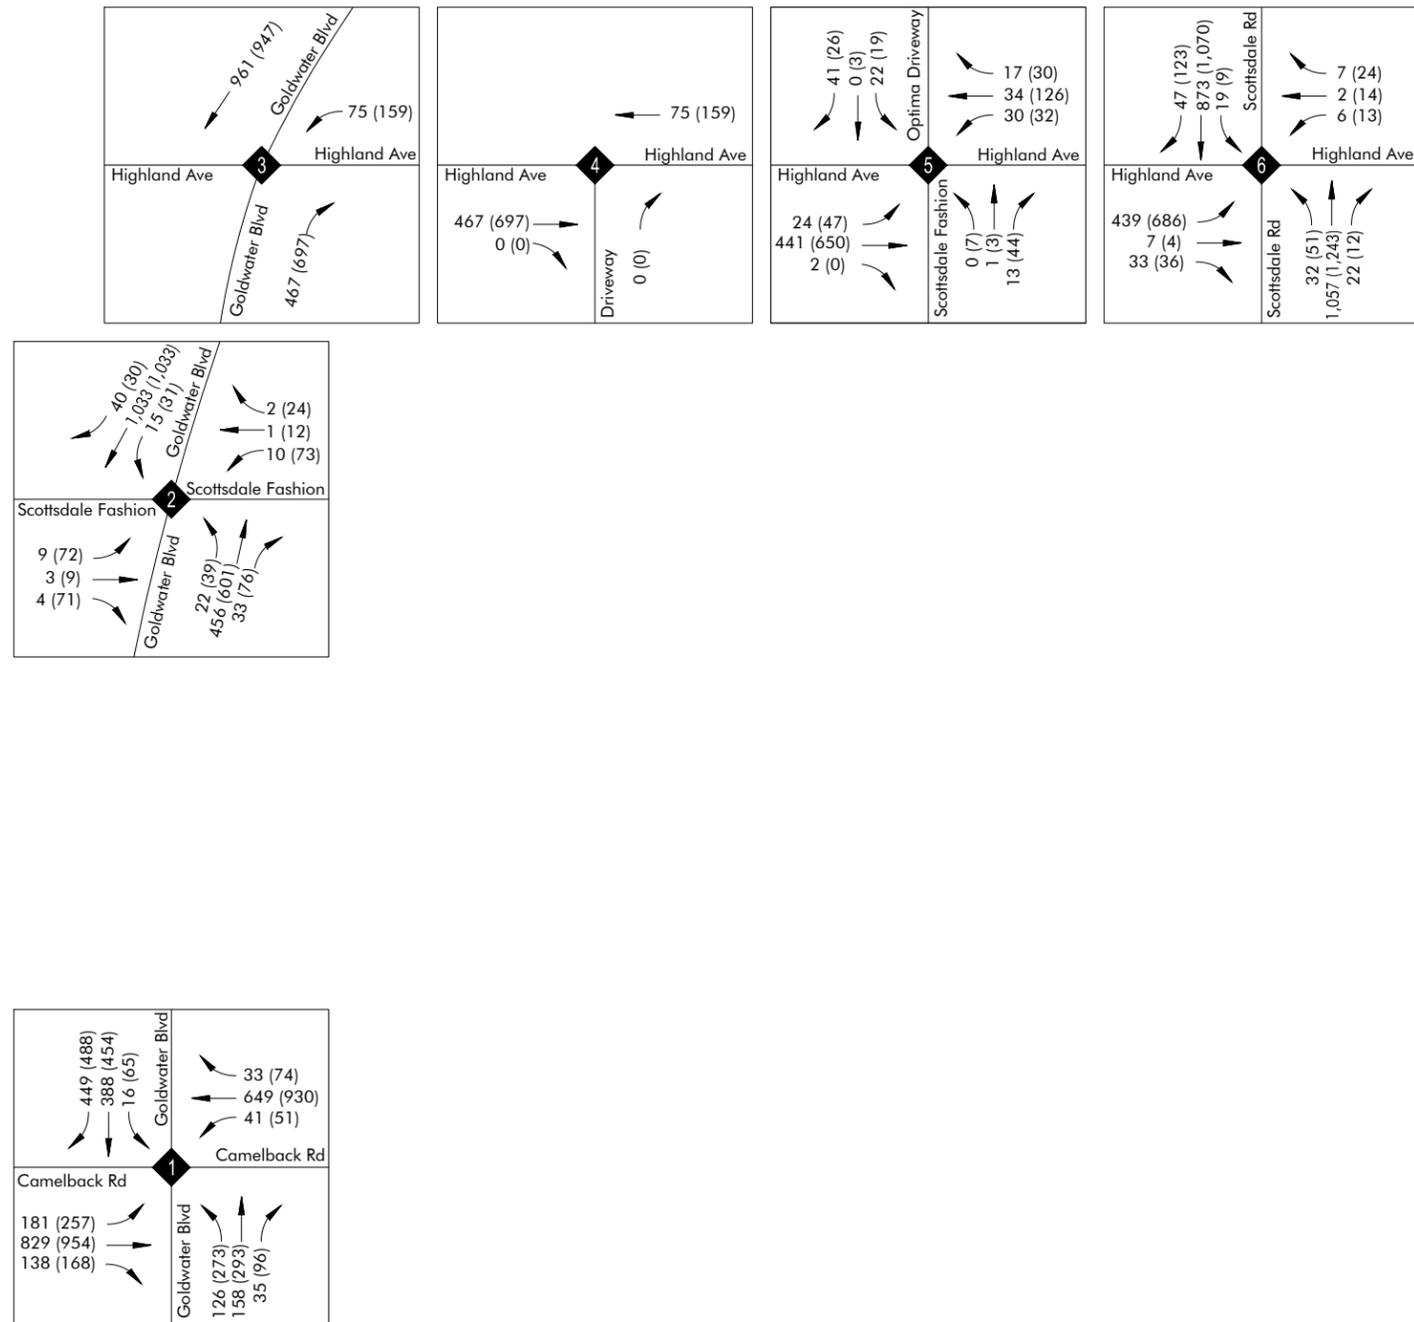

Goldwater Boulevard and Camelback Road (1) – Signalized

The intersection of Goldwater Boulevard and Camelback Road included dual southbound right turn lanes and two (2) through lanes, which can be accomplished with signing and pavement marking modifications.

Scottsdale Road and Highland Avenue (6) – Signalized

The intersection of Scottsdale Road and Highland Avenue included a third eastbound left turn lane.

The results of the 5 year background capacity analysis as shown in the May 9, 2017 SFS TI&MA, which corresponds to the year 2020 no build capacity analysis is shown in **Figure 5**. The detailed capacity analysis sheets as provided in the May 9, 2017 SFS TI&MA can be found in **Attachment E**.

FIGURE | 4 YEAR 2020 NO BUILD TRAFFIC VOLUMES

Legend

- AM (PM) Year 2020 No Build Peak Hour Level of Service
- Intersection
- Lane Configuration

FIGURE 5 | YEAR 2020 NO BUILD CAPACITY ANALYSIS

YEAR 2020 BUILD TRAFFIC VOLUMES

The year 2020 build traffic volumes include the proposed Caesars Republic site traffic volumes, shown in **Figure 1** added to the year 2020 background traffic volumes shown in **Figure 4**. See **Figure 6** for the year 2020 build traffic volumes.

YEAR 2020 BUILD CAPACITY ANALYSIS

The year 2020 build capacity analysis was completed using the methodology presented in the *2010 Highway Capacity Manual*. The analysis was completed using the traffic software, Synchro Version 9.2. The signal timing splits were optimized to match future traffic volumes. The recently revised City of Scottsdale Design Standards and Policies Manual recommends using a PHF of 0.92, but in order to stay consistent with the previously completed report a PHF of 0.9 was assumed.

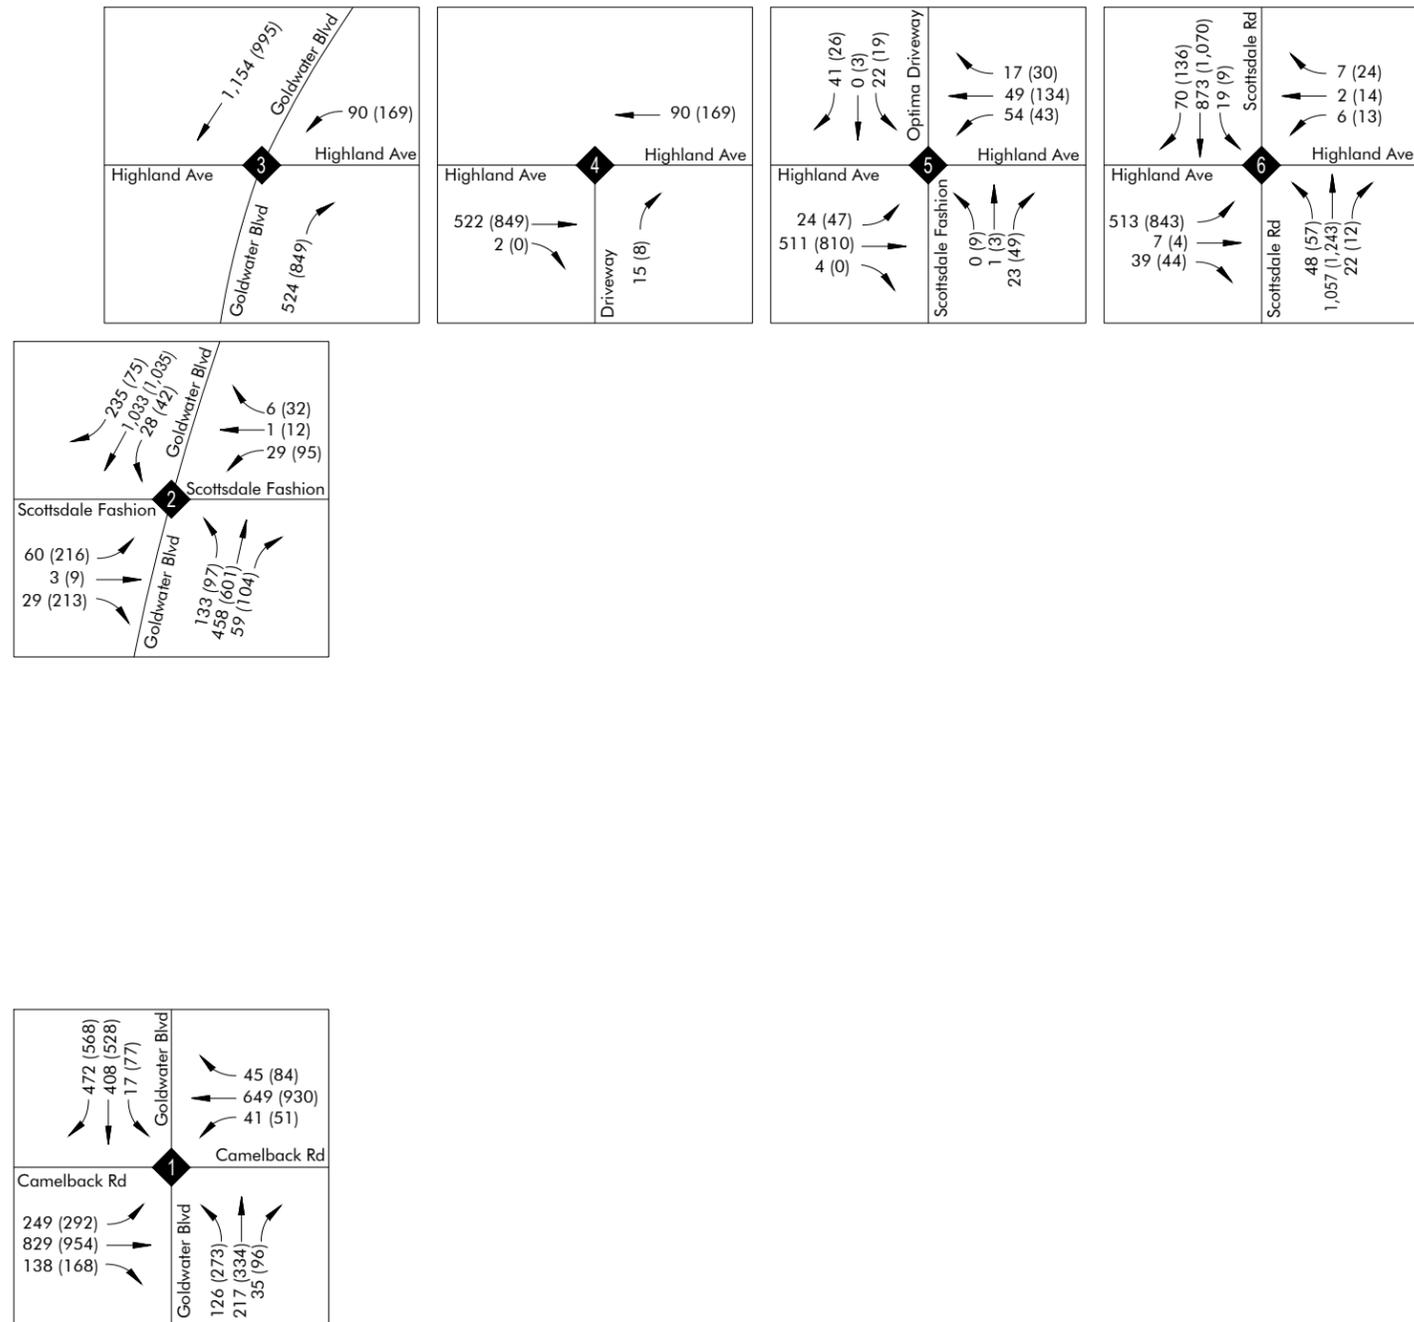

In addition to the improvements that were included as part of the year 2020 no build analysis, the following improvements were included in the year 2020 build analysis:

Goldwater Boulevard and Fashion Square (3) – Signalized

The lane configuration for the eastbound approach at the intersection of Goldwater Boulevard and Fashion Square was assumed to provide a dedicated left turn lane and a shared through-right turn lane. There is more than adequate width to provide the separation of these movements with signing and pavement marking modifications. Additionally, the signal cycle length was reduced to 60 seconds.

The results of the year 2020 build capacity analysis are shown in **Figure 7**. The detailed capacity analysis sheets can be found in **Attachment F**.

With the build out of the proposed Caesars Republic, all movements operate at a LOS D or better, or are maintained at the year 2020 no build level of service.

STIPULATIONS

As part of the Scottsdale Fashion Square Mall Zoning Application Case Number 25-ZN-2015 & 1-II-2016, stipulations were established including transportation related stipulations. See **Attachment G** for City of Scottsdale Ordinance No. 4299.

The proposed Caesars Republic development is located within "Parcel B" shown on Exhibit A to Exhibit 1 in the recorded stipulations. The following are the transportation stipulations related to the proposed Caesars Republic development:

- 12. **TRAFFIC IMPACT STUDY.** As determined by the Transportation Director, or designee, with a Development Review Board application for a new or expanded building, the property owner shall submit an updated traffic impact study to address the new development. The owner shall obtain approval of the study from the Transportation Director, or designee, prior to the Development Review Board hearing for the related new building, or building expansion. The owner shall be responsible for any infrastructure improvements identified by the updated traffic impact study(ies) that are the result of the traffic generated by new or expanded buildings on the site.

This report fulfills this stipulation for the proposed Caesars Republic development.

- 13.a.1. The property owner shall construct a continuous minimum eight (8) foot wide sidewalk, separated from the back of curb where feasible, as determined by Transportation Director, or designee, on the east side of North Goldwater Boulevard, from the intersection of East Via Soleri Drive and North Goldwater Boulevard to the intersection of East Highland Avenue and North Goldwater Boulevard, prior to obtaining a Certificate-of-Occupancy for any new building within the area identified as Parcel A or B on Exhibit A to Exhibit 1.

This sidewalk requirement appears to be triggered with the proposed Caesars Republic development.

- 13.a.3. The property owner shall construct a continuous minimum eight (8) foot wide sidewalk, separated from the back of curb on the south side of East Highland Avenue, from the intersection of East Highland Avenue and North Goldwater Boulevard to the intersection of East Highland Avenue and North Scottsdale Road, prior to obtaining a Certificate-of-Occupancy for any new site building in that area identified as Parcel B on Exhibit A to Exhibit 1.

This sidewalk requirement appears to be triggered with the proposed Caesars Republic development.

- 13.a.4. The property owner shall construct a continuous minimum eight (8) foot wide sidewalk, separated from the back of curb on the west side of North Scottsdale Road, from the intersection of East Highland Avenue and North Scottsdale Road to the intersection of East Fashion Square Drive and North Scottsdale Road, prior to obtaining a Certificate-of-Occupancy for any new site building in that area identified as Parcel A or B on Exhibit A to Exhibit 1.

This sidewalk requirement appears to be triggered with the proposed Caesars Republic development.

- 13.a.8. Prior to the issuance of a building permit for a new or expanded building, the property owner shall submit plans and obtain approval to concurrently construct all street and pedestrian improvements supported by the updated traffic impact study that corresponds with the new or expanded building, and approved by the Transportation Director, or designee.

This report provides street improvement recommendations.

- 13.a.9. Prior to the issuance of a building permit for a new or expanded building, the property owner shall submit plans and obtain approval to concurrently modify any existing traffic signals and equipment supported by the updated traffic impact study approved by the Transportation Director, or designee that to address the new development associated with the requested building permit.

This report provides traffic signal improvement recommendations.

- 14.a. The property owner shall design and construct a third eastbound lane on Highland Avenue, beginning just east of Goldwater Boulevard and terminating as a third eastbound left-turn lane at Scottsdale Road, prior to any certification of occupancy for a combined total building area exceeding 75,000 square feet in new or expanded building south of East Highland Avenue between North Scottsdale Road and North Goldwater Boulevard within the area identifies as Parcel B on Exhibit A to Exhibit 1.

The proposed Caesars Republic development will be 239,133 square feet in new building and therefore appears to trigger the third eastbound lane on Highland Avenue.

- 14.b. The property owner shall design and construct intersection modifications to provide separate eastbound left-turn lane and shared through-right-turn lane at the East Scottsdale Fashion Square and North Goldwater Boulevard intersection, prior to any certificate of occupancy for any new building south of East Highland Avenue between North Scottsdale Road and North Goldwater Boulevard, within the area identified as Parcel B on Exhibit A to Exhibit 1.

This lane configuration appears to be triggered with the proposed Caesars Republic development and is shown as part of the year 2020 build analysis. There is more than adequate width to provide the separation of these movements with signing and pavement marking modifications.

- 14.c. The property owner shall contract with a traffic engineering consultant to conduct a study of the East Highland Avenue and North Goldwater Boulevard intersection prior to any certificate of occupancy for any new or expanded building within the area identified as Parcel B on Exhibit A to Exhibit 1. The study shall recommend intersection improvements to improve the safety and convenience for the westbound left-turn movement, improve intersection sight distance, and reduce speeding on North Goldwater Boulevard. The study shall not include any options that consider a connection to the existing East Highland Avenue west of North Goldwater Boulevard. The property owner shall not be obligated for any costs and/or improvement associated with the study that exceed \$50,000, and the final study shall be submitted to the City of Scottsdale for review and approval.

A traffic study of the East Highland Avenue and North Goldwater Boulevard intersection appears to be triggered with the proposed Caesars Republic development.

- 14.d. If directed by the Transportation Director based upon future traffic analysis, the property owner shall design and construct an additional left-turn lane on East Camelback Road at the North Goldwater Boulevard signalized intersection. The timing of the improvements shall be based upon the need as determined by the traffic analysis tied to proposed new building or building expansion on the site. The property owner shall be responsible for all necessary street reconstruction, pavement marking modifications, and signal equipment modification to accomplish the addition of the eastbound left-turn lane.

With an existing LOS E during the AM peak hour and LOS F during the PM peak hour for the eastbound left turn movement at this intersection, a third eastbound left turn lane is assumed to be built out as part of the year 2020 no build analysis.

- 15.e. There shall be an east/west driveway maintained through the site from North Goldwater Boulevard to North Scottsdale Road in or near the area identified as Parcel B on Exhibit A to Exhibit 1. The alignment of such driveway shall be determined at the time of the applicable Development Review Board application.

The proposed Caesars Republic development maintains the existing east/west driveway.

- 16.b. The developer shall design and construct a pedestrian hybrid beacon on Highland Avenue between Scottsdale Road and Goldwater Boulevard prior to any certificate of occupancy for any new buildings within the area identified as Parcel B on Exhibit A to Exhibit 1. Adequate stopping sight distance for drivers on Goldwater Boulevard/Highland Avenue must be provided with the design. This requirement shall not be in effect if a traffic signal is determined to be warranted and approved prior to the construction of the pedestrian hybrid beacon. If a traffic signal is determined to be warranted by the Transportation Director at this intersection in the future, the pedestrian hybrid beacon shall be replaced by the full traffic signal.

This pedestrian hybrid beacon installation appears to be triggered with the proposed Caesars Republic development.

- 16.c. Prior to the certificate of occupancy for any new buildings within the area identified as Parcel B on Exhibit A to Exhibit 1, the property owner shall explore a grade separated pedestrian crossing between the building or parking structure and the existing Optima residential development on the north side of East Highland Avenue.

The exploration of a grade separated pedestrian crossing appears to be triggered with the proposed Caesars Republic development.

- 17.b. The property owner shall design and construct transit stop improvements on North Scottsdale Road south of East Highland Avenue, prior to any certificate of occupancy for any new buildings within the area identified as Parcel B on Exhibit A to Exhibit 1. The transit stop improvements shall consist of a shelter, trash can, bench, and bike rack. The design and location of the transit stop shall be approved by the Transportation Department Director or designee.

Transit stop improvements on North Scottsdale Road south of East Highland Avenue appears to be triggered with the proposed Caesars Republic development.

- 18.a. Prior to issuance of Certificate of Occupancy for any new building within the area identified as Parcel B on Exhibit A to Exhibit 1, the property owner shall install pole mounted pedestrian street lights along the East Highland Avenue street frontage, between North Scottsdale Road and North Goldwater Boulevard, as approved by the Development Review Board.

Pedestrian lighting installation along East Highland Avenue appears to be triggered with the proposed Caesars Republic development.

SUMMARY

This report is an update to the originally recorded Traffic Impact and Mitigation Analysis for Scottsdale Fashion Square, dated May 9, 2017, which assumed a 400 unit condominium development on the southeast corner of Goldwater Boulevard and Highland Avenue. This report replaces the residential development with the proposed Caesars Republic development, which is a 233 room hotel with 5 condominiums and 2,000 square feet of restaurant.

| | Weekday | AM Peak Hour | | | PM Peak Hour | | |
|-----------------------------|------------|--------------|-----------|------------|--------------|------------|----------|
| | Total | Total | In | Out | Total | In | Out |
| SFS TI&MA Dated May 9, 2017 | 2,149 | 156 | 27 | 129 | 126 | 84 | 41 |
| Caesars Republic | 2,409 | 113 | 65 | 48 | 94 | 50 | 45 |
| Difference | 260 | -43 | 38 | -81 | -31 | -35 | 3 |

Although the prior and proposed land uses are different, the weekday daily, and AM and PM peak hour trip generation is relatively similar.

The year 2020 no build capacity analysis includes the following intersection improvements due to existing AM and PM peak hours operating at LOS E and/or F:

Goldwater Boulevard and Camelback Road (1) – Signalized

The intersection of Goldwater Boulevard and Camelback Road included dual southbound right turn lanes and two (2) through lanes, which can be accomplished with signing and pavement marking modifications.

Scottsdale Road and Highland Avenue (6) – Signalized

The intersection of Scottsdale Road and Highland Avenue included a third eastbound left turn lane.

These improvements were identified due to existing traffic operation and conditions and not as a result of the proposed Caesars Republic development.

In addition to the improvements that were included as part of the year 2020 no build analysis, the following improvements were included in the year 2020 build analysis:

Goldwater Boulevard and Fashion Square (3) – Signalized

The lane configuration for the eastbound approach at the intersection of Goldwater Boulevard and Fashion Square was assumed to provide a dedicated left turn lane and a shared through-right turn lane. There is more than adequate width to provide

the separation of these movements with signing and pavement marking modifications. Additionally, the signal cycle length was reduced to 60 seconds.

This improvement is recommended with the build out of the proposed Caesars Republic development.

With the build out of the proposed Caesars Republic, all movements operate at a LOS D or better, or are maintained at the year 2020 no build level of service. No new driveways are proposed with this development.

As part of the Scottsdale Fashion Square Mall Zoning Application Case Number 25-ZN-2015 & 1-II-2016, stipulations were established including transportation related stipulations. A number of these stipulations appear to be triggered with the proposed Caesars Republic developments, including but not limited to, sidewalk improvements, street improvements, pedestrian improvements, required traffic studies, installation of a pedestrian hybrid beacon, transit stop improvements, and pedestrian lighting installation.

ATTACHMENT D – 5/9/17 SFS TI&MA EXISTING CAPACITY ANALYSIS

The Synchro outputs under Attachment D are taken directly from the Scottsdale Fashion Square Traffic Impact & Mitigation Analysis, dated May 9, 2017. For organizational purposes, the intersections for the Scottsdale Fashion Square – Caesars Republic Traffic Impact & Mitigation Analysis have been changed to:

| Intersection | May 9, 2017 TI&MA Intersection Number | Caesars Republic TI&MA Intersection Number |
|--|--|---|
| Goldwater Boulevard and Camelback Road | 8 | 1 |
| Goldwater Boulevard and Fashion Square | 3 | 2 |
| Goldwater Boulevard and Highland Avenue | 4 | 3 |
| Highland Avenue and Site Driveway | N/A | 4 |
| Highland Avenue and Fashion Square/Optima Driveway | 5 | 5 |
| Scottsdale Road and Highland Avenue | 6 | 6 |

Intersection Summary

95th percentile volume exceeds capacity, queue may be longer.

Queue shown is maximum after two cycles.

m Volume for 95th percentile queue is metered by upstream signal.

Intersection Summary

- ~ Volume exceeds capacity, queue is theoretically infinite.
Queue shown is maximum after two cycles.
- # 95th percentile volume exceeds capacity, queue may be longer.
Queue shown is maximum after two cycles.
- m Volume for 95th percentile queue is metered by upstream signal.

Intersection Summary

- ~ Volume exceeds capacity, queue is theoretically infinite.
Queue shown is maximum after two cycles.
- # 95th percentile volume exceeds capacity, queue may be longer.
Queue shown is maximum after two cycles.
- m Volume for 95th percentile queue is metered by upstream signal.

Intersection Summary

- ~ Volume exceeds capacity, queue is theoretically infinite.
Queue shown is maximum after two cycles.
- # 95th percentile volume exceeds capacity, queue may be longer.
Queue shown is maximum after two cycles.
- m Volume for 95th percentile queue is metered by upstream signal.

ATTACHMENT G – SCOTTSDALE STIPULATIONS ORDINANCE 4299

ORDINANCE NO. 4299

AN ORDINANCE OF THE COUNCIL OF THE CITY OF SCOTTSDALE, MARICOPA COUNTY, ARIZONA, AMENDING ORDINANCE NO. 455, THE ZONING ORDINANCE OF THE CITY OF SCOTTSDALE, BY AND FOR THE PURPOSE OF CHANGING THE ZONING ON THE "DISTRICT MAP" TO ZONING APPROVED IN CASE NO 25-ZN-2015 AND CASE NO 1-II-2016 FROM DOWNTOWN/REGIONAL COMMERCIAL OFFICE - TYPE 2, PLANNED BLOCK DEVELOPMENT, DOWNTOWN OVERLAY (D/RCO-2 PBD DO) TO DOWNTOWN/DOWNTOWN REGIONAL USE - TYPE 2, PLANNED BLOCK DEVELOPMENT, DOWNTOWN OVERLAY (D/DRU-2 PBD DO), AND APPROVING A DEVELOPMENT PLAN ON A +/- 56-ACRE SITE, AND APPROVING AN APPLICATION FOR A DOWNTOWN INFILL INCENTIVE DISTRICT PURSUANT TO THE DOWNTOWN INFILL INCENTIVE PLAN, LOCATED ON +/- 1.8 ACRES OF THE TOTAL +/- 56-ACRE SITE ON THE NORTHWEST CORNER OF CAMELBACK ROAD AND SCOTTSDALE ROAD (6900, 7000, 7003, 7014, 7032, 7102, 7150, 7055 E. CAMELBACK ROAD, 4649 N. GOLDWATER BLVD., 7000 E. VIA SOLERI DRIVE, 4710, 4500, 4510, 4610, 4626, 4700, 4720 N. SCOTTSDALE ROAD, AND 7001 E HIGHLAND AVENUE).

WHEREAS, the Planning Commission held a hearing on June, 28, 2017;

WHEREAS, the City Council held a hearing on August, 29, 2017;

WHEREAS, the City Council finds that the proposed development is in substantial harmony with the General Plan of the City of Scottsdale and will be coordinated with existing and planned development;

WHEREAS, the City Council finds that the proposed development is located in the Downtown Infill Incentive District and consistent with the Downtown Infill Incentive Plan; and

WHEREAS, it is now necessary that the comprehensive zoning map of the City of Scottsdale ("District Map") be amended to conform with the decision of the Scottsdale City Council in Case No. 25-ZN-2015 and 1-II-2016.

NOW, THEREFORE, BE IT ORDAINED by the Council of the City of Scottsdale, as follows:

Section 1. That the "District Map" adopted as a part of the Zoning Ordinance of the City of Scottsdale, showing the zoning district boundaries, is amended by rezoning a +/- 56-acre site located on the northwest corner of Camelback Road and Scottsdale Road (6900, 7000, 7003, 7014, 7032, 7102, 7150, 7055 E. Camelback Road, 4649 N. Goldwater Blvd., 7000 E. Via Soleri Drive, 4710, 4500, 4510, 4610, 4626, 4700, 4720 N. Scottsdale Road, and 7001 E Highland Avenue) and marked as "Site" (the Property) on the map attached as Exhibit 2 page 1 of 2, incorporated herein by reference, from Downtown/Regional Commercial Office - Type 2, Planned Block Development, Downtown Overlay (D/RCO-2 PBD DO) to Downtown/Downtown Regional Use - Type 2, Planned Block Development, Downtown Overlay (D/DRU-2 PBD DO) zoning, and approving a Downtown Infill Incentive District application over +/- 1.8 acres of the +/- 56 acre site with Downtown/Downtown Regional Use - Type 2, Planned Block Development, Downtown Overlay (D/DRU-2 PBD DO) zoning by approving a Development Plan and amendments to Property Development Standards of the

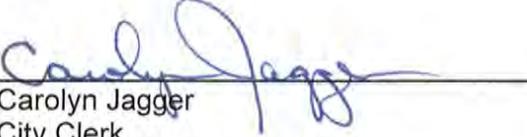

Zoning Ordinance regarding the inclined stepback plane adjacent to the Downtown Boundary, specifically at the northeast corner of the Development Plan area (4710, 4626, 4500, 4700 and 4720 N. Scottsdale Road) and marked as "Site" on the map attached as Exhibit 2, page 2 of 2, and by adopting that certain document entitled "Development Plan Scottsdale Fashion Square" declared as a public record by Resolution No. 10717 which is incorporated into this ordinance by reference as if fully set forth herein.

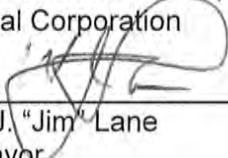

Section 2. That the above rezoning approval is conditioned upon compliance with all stipulations attached hereto as Exhibit 1 and incorporated herein by reference.

PASSED AND ADOPTED by the Council of the City of Scottsdale this 29 of August, 2017.

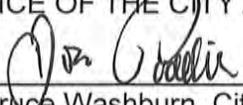

ATTEST:

CITY OF SCOTTSDALE, an Arizona
Municipal Corporation

By: 
Carolyn Jagger
City Clerk

By: 
W.J. "Jim" Lane
Mayor

APPROVED AS TO FORM:
OFFICE OF THE CITY ATTORNEY

By: 
Bruce Washburn, City Attorney
By: Joe Padilla, Deputy City Attorney

**Stipulations for the Zoning Application:
Scottsdale Fashion Square Mall
Case Number: 25-ZN-2015 & 1-II-2016**

These stipulations are in order to protect the public health, safety, welfare, and the City of Scottsdale.

GOVERNANCE

1. **APPLICABILITY.** All stipulations of cases 25-ZN-2015 and 1-II-2016 shall supersede all of the stipulations of prior zoning approvals, with the exception of existing Conditional Use Permit cases 4-UP-2000 and 6-UP-2012. These stipulations shall not apply to the Dillard's parcel, which is not included as part of the subject Development Plan.

SITE DESIGN

2. **CONFORMANCE TO DEVELOPMENT PLAN.** Development shall conform with the Development Plan, entitled "Development Plan Scottsdale Fashion Square," which is on file with the City Clerk and made a public record by Resolution No. 10717 and incorporated into these stipulations and ordinance by reference as if fully set forth herein. Any proposed significant change to the Development Plan, as determined by the Zoning Administrator, shall be subject to additional public hearings and action before the Planning Commission and City Council. Where there is a conflict between the Development Plan and these stipulations, these stipulations shall prevail.
3. **CONFORMANCE TO AMENDED DEVELOPMENT STANDARDS.** Development shall conform with the amended development standards that are included as part of the Development Plan. Any change to the Property Development Standards shall be subject to additional public zoning hearings before the Planning Commission and City Council.
4. **CONFORMANCE TO DEVELOPMENT AGREEMENT.** The property owner of the property identified in the Development Plan shall enter into a development agreement, Contract No. 2017-097-COS, including any subsequent amendments approved by the City Council, which sets forth the manner in which the building height bonus shall be achieved, and specifies the development standard allocations among the parcels within the boundary of the Development Plan.
5. **BUILDING HEIGHT LOCATIONS.** Locations of building height shall be in conformance with the approved Development Plan. No building on the site shall exceed 150 feet in height (inclusive of the bonus building height, mechanical equipment and other appurtenances), measured as provided in the applicable section of the Zoning Ordinance.
6. **CULTURAL IMPROVEMENTS PROGRAM.** Prior to permit issuance for any new or expanded building, the property owner shall provide artwork, or pay an in-lieu fee, equal to at least one percent of the building valuation of the added floor area. This requirement shall be exclusive of the in-lieu payment outlined in Contract No. 2017-097-COS, regarding PBD bonus provisions.

7. **OUTDOOR LIGHTING.** The maximum height of any outdoor lighting source, except any light sources for signs, patios and/or balconies or accent lighting approved by the Development Review Board or staff in accordance with the provisions of Zoning Ordinance Section 1.900, shall be 20 feet above the adjacent finished grade.
8. **OUTDOOR LIGHTING FOR PATIOS AND BALCONIES.** Light sources that are utilized to illuminate patios and/or balconies that are above 20 feet shall be subject to the approval of the Development Review Board or staff in accordance with the provisions of Zoning Ordinance Section 1.900.
9. **SIGNAGE.** Within the area of the site identified as Parcel B on Exhibit A to Exhibit 1, there shall be no new internally illuminated signage facing toward Highland Avenue.
10. **AMPLIFIED MUSIC.** Within the area of the site identified as Parcel B on Exhibit A to Exhibit 1, there shall be no exterior amplified music after 10:00pm, and 11:00pm on weekends and holidays, at levels greater than 68 decibels as measured from the right-of-way line on the north side of Highland Avenue.
11. **OPEN SPACE.** Open space shall conform with the following requirements:
 - a. Within the area of the site identified as Parcel B on Exhibit A to Exhibit 1, an open space area or areas shall be provided which align with the main entry/open space plaza on the north side Highland Avenue at Optima Camelview, subject to Development Review Board approval.
 - b. Open space areas within the area of the site identified as Parcel B on Exhibit A to Exhibit 1, shall be planted with mature shade trees and/or palm trees in conformance with the Downtown Urban Design & Architectural Design Guidelines, subject to Development Review Board approval.
 - c. Building setback areas along Highland Avenue shall be planted with mature shade trees and/or palm trees, and/or other shading devices, in conformance with the Downtown Urban Design & Architectural Design Guidelines, subject to Development Review Board approval.

INFRASTRUCTURE AND DEDICATIONS

12. **TRAFFIC IMPACT STUDY.** As determined by the Transportation Director, or designee, with a Development Review Board application for a new or expanded building, the property owner shall submit an updated traffic impact study to address the new development. The owner shall obtain approval of the study from the Transportation Director, or designee, prior to the Development Review Board hearing for the related new building, or building expansion. The owner shall be responsible for any infrastructure improvements identified by the updated traffic impact study(ies) that are the result of the traffic generated by new or expanded buildings on the site.
13. **CIRCULATION IMPROVEMENTS.** The owner shall make the required dedications and provide the following improvements in conformance with the Design Standards and Policies Manual and all other applicable city codes and policies.
 - a. **STREETS.** Dedicate the following right-of-way and construct the following street improvements:

| Street Name | Street Type | Dedications | Improvements | Notes and |
|-------------|-------------|-------------|--------------|-----------|
|-------------|-------------|-------------|--------------|-----------|

| | | | | Requirements |
|---------------------|-------------------------|--|---|--|
| Goldwater Boulevard | Couplet Street | Right-of-way for right-turn deceleration lanes | Construct sidewalk and turn lane improvements | a.1, a.2., a.6., a.7., a.8., a.9., a.10, a.11. |
| Highland Avenue | Local Commercial Street | Right-of-way for right-turn deceleration lanes | Construct sidewalk and turn lane improvements | a.3. , a.6., a.7., a.8., a.9., a.10, a.11. |
| Scottsdale Road | Major Collector | Right-of-way for right-turn deceleration lanes | Construct sidewalk and turn lane improvements | a.4., a.6., a.7., a.8., a.9., a.10, a.11 . |
| Camelback Road | Minor Arterial | Right-of-way for right-turn deceleration lanes | Construct sidewalk and turn lane improvements | a.5, a.6., a.7., a.8., a.9., a.10, a.11 . |

- a.1. The property owner shall construct a continuous minimum eight (8) foot wide sidewalk, separated from the back of curb where feasible, as determined by Transportation Director, or designee, on the east side of North Goldwater Boulevard, from the intersection of East Via Soleri Drive and North Goldwater Boulevard to the intersection of East Highland Avenue and North Goldwater Boulevard, prior to obtaining a Certificate-of-Occupancy for any new building within the area identified as Parcel A or B on Exhibit A to Exhibit 1.
- a.2. The property owner shall construct a continuous eight (8) foot wide sidewalk where feasible and the sidewalk shall be separated from the back of curb where feasible, as determined by Transportation Director, or designee, on the west side of North Goldwater Boulevard, from the intersection of East Camelback Road and North Goldwater Boulevard to the intersection East Highland Avenue and North Goldwater Boulevard, prior to obtaining a Certificate-of-Occupancy for any new building within the area identified as Parcel A or D on Exhibit A to Exhibit 1.
- a.3. The property owner shall construct a continuous minimum eight (8) foot wide sidewalk, separated from the back of curb on the south side of East Highland Avenue, from the intersection of East Highland Avenue and North Goldwater Boulevard to the intersection of East Highland Avenue and North Scottsdale Road, prior to obtaining a Certificate-of-Occupancy for any new site building in that area identified as Parcel B on Exhibit A to Exhibit 1.
- a.4. The property owner shall construct a continuous minimum eight (8) foot wide sidewalk, separated from the back of curb on the west side of North Scottsdale Road, from the intersection of East Highland Avenue and North Scottsdale Road to the intersection of East Fashion Square Drive and North Scottsdale Road,

prior to obtaining a Certificate-of-Occupancy for any new site building in that area identified as Parcel A or B on Exhibit A to Exhibit 1.

- a.5. The property owner shall construct a continuous minimum eight (8) foot wide sidewalk, separated from the back of curb where feasible, as determined by Transportation Director, or designee, on the north side of East Camelback Road, from the intersection of East Camelback Road and North Goldwater Boulevard to the western boundary of the zoning application, prior to obtaining a Certificate-of-Occupancy for any new site building in that area identified as Parcel A on Exhibit A to Exhibit 1.
- a.6. Prior to permit issuance for construction of driveways at any new vehicular entrances to the property, the property owner shall dedicate additional North Goldwater Boulevard, East Highland Avenue, North Scottsdale Road, and East Camelback Road right-of-way, as determined by Transportation Director or designee, to accommodate new right-turn deceleration lanes at any new vehicle entrances to the property.
- a.7. If any new vehicular entrances to the property are approved along North Goldwater Boulevard, East Highland Avenue, North Scottsdale Road, and East Camelback Road as part of a development proposal, as determined by Transportation Director or designee, the owner shall construct new right-turn deceleration lanes to accommodate the new vehicle entrances to the property.
- a.8. Prior to the issuance of a building permit for a new or expanded building, the property owner shall submit plans and obtain approval to concurrently construct all street and pedestrian improvements supported by the updated traffic impact study that corresponds with the new or expanded building, and approved by the Transportation Director, or designee.
- a.9. Prior to the issuance of a building permit for a new or expanded building, the property owner shall submit plans and obtain approval to concurrently modify any existing traffic signals and equipment supported by the updated traffic impact study approved by the Transportation Director, or designee that to address the new development associated with the requested building permit.
- a.10. All street improvements (curb, gutter, sidewalk, curb ramps, driveways, pavement, concrete, etc.) shall be constructed in accordance with the applicable City of Scottsdale's Supplements to the Maricopa Association of Governments (MAG) Uniform Standard Specifications and Details for Public Works Construction, and Maricopa Association of Governments (MAG) Uniform Standard Specifications and Details for Public Works Construction, as determined by the Transportation Director, or designee.
- a.11. The sidewalk improvements noted in a.1, a.2, and a.5 above shall be required only in locations that are determined to be feasible, with the intent of feasibility to be interpreted to mean where adequate width or space is available to widen the sidewalk to the prescribed widths or provide the required separation from curb reasonably without affecting existing structures, significant mature landscaping, existing parking areas, or significant grades. The determination of feasibility shall be made by the Zoning Administrator or designee.

14. INTERSECTION IMPROVEMENTS. The owner shall make the required dedications and provide the following improvements in conformance with the Design Standards and Policies Manual and all other applicable city codes and policies:
- a. The property owner shall design and construct a third eastbound lane on Highland Avenue, beginning just east of Goldwater Boulevard and terminating as a third eastbound left-turn lane at Scottsdale Road, prior to any certificate of occupancy for a combined total building area exceeding 75,000 square feet in new or expanded buildings south of East Highland Avenue between North Scottsdale Road and North Goldwater Boulevard within the area identified as Parcel B on Exhibit A to Exhibit 1.
 - b. The property owner shall design and construct intersection modifications to provide a separate eastbound left-turn lane and shared through-right-turn lane at the East Scottsdale Fashion Square and North Goldwater Boulevard intersection, prior to any certificate of occupancy for any new buildings south of East Highland Avenue between North Scottsdale Road and North Goldwater Boulevard, within the area identified as Parcel B on Exhibit A to Exhibit 1.
 - c. The property owner shall contract with a traffic engineering consultant to conduct a study of the East Highland Avenue and North Goldwater Boulevard intersection prior to any certificate of occupancy for any new or expanded buildings within the area identified as Parcel B on Exhibit A to Exhibit 1. The study shall recommend intersection improvements to improve the safety and convenience for the westbound left-turn movement, improve intersection sight distance, and reduce speeding on North Goldwater Boulevard. The study shall not include any options that consider a connection to the existing East Highland Avenue west of North Goldwater Boulevard. The property owner shall not be obligated for any costs and/or improvements associated with the study that exceed \$50,000, and the final study shall be submitted to the City of Scottsdale for review and approval.
 - d. If directed by the Transportation Director based upon future traffic analysis, the property owner shall design and construct an additional eastbound left-turn lane on East Camelback Road at the North Goldwater Boulevard signalized intersection. The timing of the improvement shall be based upon the need as determined by the traffic analysis tied to proposed new building or building expansion on the site. The property owner shall be responsible for all necessary street reconstruction, pavement marking modification, and signal equipment modification to accomplish the addition of the eastbound left-turn lane.
15. ACCESS RESTRICTIONS/REQUIREMENTS. Access to the site shall conform to the following restrictions and requirements:
- a. There shall no new site driveways onto the adjacent public streets without approval of the site plan and site access as part of a Development Review Board application and approval by the Transportation Director.
 - b. There shall be no new median openings along the adjacent public streets associated with any proposed development of the site without approval of the site plan and site access as part of a Development Review Board application and approval by the Transportation Director.
 - c. There shall be no new traffic signals constructed on the adjacent public streets without

an approved traffic signal warrant analysis based upon existing traffic volumes and approval by the Transportation Director.

- d. Minimum driveway spacing shall be 250 feet between existing and proposed driveways and street intersections unless otherwise approved by the Transportation Director.
- e. There shall be an east/west driveway maintained through the site from North Goldwater Boulevard to North Scottsdale Road in or near the area identified as Parcel B on Exhibit A to Exhibit 1. The alignment of such driveway shall be determined at the time of the applicable Development Review Board application.

16. PEDESTRIAN FACILITIES.

- a) With the first and each subsequent Development Review Board submittal for new development on the site, the owner shall submit a pedestrian circulation plan for the site, which shall be subject to approval by City staff. The plan shall include all existing and proposed sidewalks along the adjacent streets and all existing proposed connections from the streets to the site buildings.
- b) The developer shall design and construct a pedestrian hybrid beacon on Highland Avenue between Scottsdale Road and Goldwater Boulevard prior to any certificate of occupancy for any new buildings within the area identified as Parcel B on Exhibit A to Exhibit 1. Adequate stopping sight distance for drivers on Goldwater Boulevard/Highland Avenue must be provided with the design. This requirement shall not be in effect if a traffic signal is determined to be warranted and approved prior to the construction of the pedestrian hybrid beacon. If a traffic signal is determined to be warranted by the Transportation Director at this intersection in the future, the pedestrian hybrid beacon shall be replaced by the full traffic signal.
- c) Prior to the certificate of occupancy for any new buildings within the area identified as Parcel B on Exhibit A to Exhibit 1, the property owner shall explore a grade separated pedestrian crossing between the building or parking structure and the existing Optima residential development on the north side of East Highland Avenue.
- d) Prior to the issuance a building permit for a new or expanded building within the area identified as Parcel A on Exhibit A to Exhibit 1, the owner shall dedicate a non-motorized public access easement over the existing sidewalk along North Marshall Way and East Via Soleri Drive that extends outside of the existing public right-of-way. Prior to the issuance a building permit for a new building or building expansion within the area identified as Parcel A, B, C, or D on Exhibit A To Exhibit 1, the owner shall dedicate a non-motorized public access easement over any new sidewalk or any widened sidewalk constructed along the public streets adjacent to the site that extends outside of the public right-of-way.

17. TRANSIT STOP IMPROVEMENTS.

- a) The property owner shall design and construct transit stop improvements on East Camelback Road west of North Goldwater Boulevard, prior to any certificate of occupancy for any new building within the area identified as Parcel A on Exhibit A to Exhibit 1. The transit stop improvements shall consist of a shelter, trash can, bench, and bike rack. The design and location of the transit stop shall be approved by the Transportation Department Director or designee.

- b) The property owner shall design and construct transit stop improvements on North Scottsdale Road south of East Highland Avenue, prior to any certificate of occupancy for any new buildings within the area identified as Parcel B on Exhibit A to Exhibit 1. The transit stop improvements shall consist of a shelter, trash can, bench, and bike rack. The design and location of the transit stop shall be approved by the Transportation Department Director or designee.

18. PEDESTRIAN STREET LIGHTS.

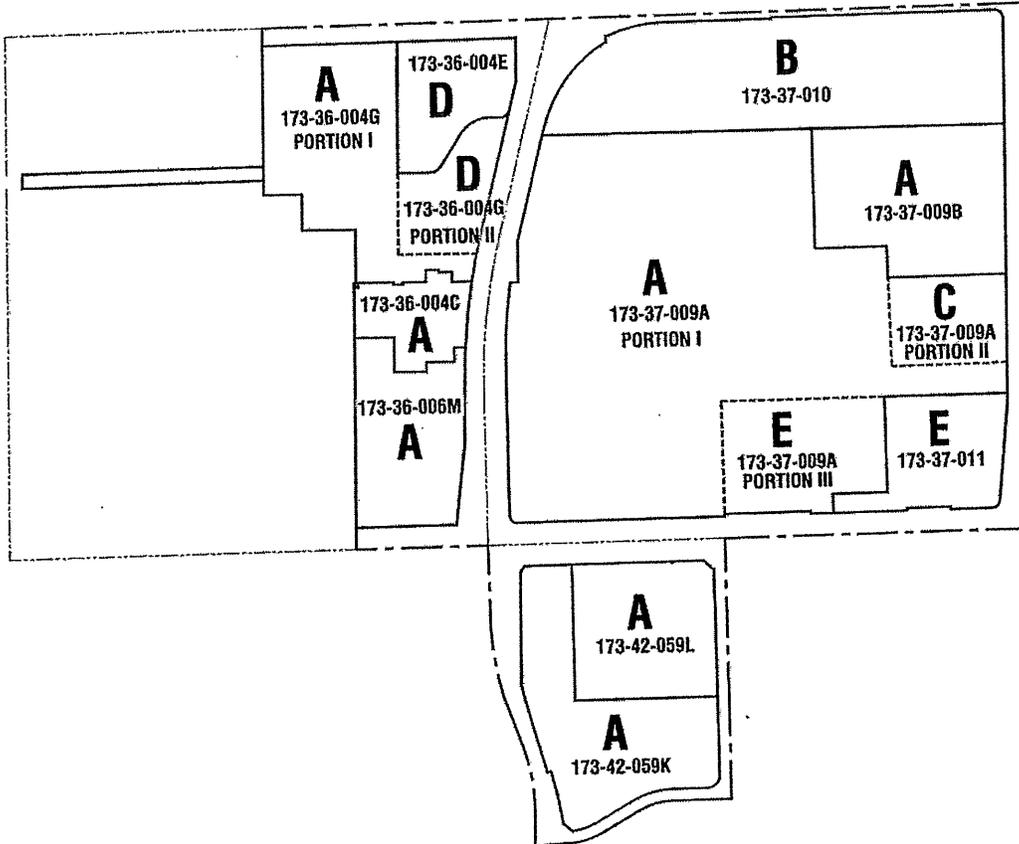

- a) Prior to issuance of Certificate of Occupancy for any new building within the area identified as Parcel B on Exhibit A to Exhibit 1, the property owner shall install pole mounted pedestrian street lights along the East Highland Avenue street frontage, between North Scottsdale Road and North Goldwater Boulevard, as approved by the Development Review Board.
- b) Prior to issuance of Certificate of Occupancy for any new building within the area identified as Parcel E on Exhibit A to Exhibit 1, the property owner shall install pole mounted pedestrian street lights along the East Camelback Road street frontage, between North Scottsdale Road and North Goldwater Boulevard, as approved by the Development Review Board.
- c) Prior to issuance of Certificate of Occupancy for any new building within the area identified as Parcel A on Exhibit A to Exhibit 1, the property owner shall install pole mounted pedestrian street lights along the east and west sides of the North Goldwater Boulevard street frontage, between East Highland Avenue and East Via Soleri Drive, as approved by the Development Review Board.

19. OVERHEAD POWERLINES. Prior to issuance of Certificate of Occupancy for any new building within the area identified as Parcel B on Exhibit A to Exhibit 1, the property owner shall pay for and cause the existing overhead powerlines on the west side of North Scottsdale Road from East Highland Avenue to East Fashion Square Drive to be removed or relocated underground.

20. VEHICLE NON-ACCESS EASEMENT. The property owner shall dedicate a one (1) foot wide vehicular non-access easement along the North Scottsdale Road, East Camelback Road, North Goldwater Boulevard, East Highland Avenue, North Marshall Way, and East Via Soleri Drive site frontages, except at the existing and approved driveway entrances.

21. PARCELS/PLATTING. Prior to permit issuance for any new construction involving parcels 173-37-009B, 173-37-009A, or 173-36-004C as shown on the Property Parcel and Development Area Depiction (Exhibit C page 2 of 2 of Contract No. 2016-097-COS), the owner shall submit an application for approval and recordation of a land assemblage/subdivision to remedy the non-conforming aspects of these parcels. All future land assemblage/subdivisions shall comply with the requirements of the Land Division Ordinance and the Design Standards & Policies Manual.

RE: Caesars Republic
Traffic Impact & Mitigation Analysis

INTRODUCTION

Lōkahi, LLC (Lōkahi) has prepared this document as an update to the original Traffic Impact and Mitigation Analysis (TI&MA) for Scottsdale Fashion Square dated May 9, 2017. This document includes the analysis for the proposed Caesars Republic development at the Scottsdale Fashion Square Mall located in Scottsdale, Arizona. The proposed Caesars Republic development is located on the southeast corner of Goldwater Boulevard and Highland Avenue. The objective of this Traffic Impact and Mitigation Analysis is to analyze the traffic related impacts of this proposed development to the adjacent roadway network.

The proposed Caesars Republic will include a 265 room, 11-story hotel, with a 3,200 square foot restaurant. Additional amenities will be provided on site that are anticipated to be primarily utilized by the hotel guests, which include a 200 square foot coffee shop, 6,800 square foot ballroom, 2,000 square foot meeting space, and 5,000 square foot bar/lounge on the 7th floor. See **Attachment A** for the proposed site plan.

The following are the six (6) intersections studied throughout this analysis:

- Goldwater Boulevard and Camelback Road (1)
- Goldwater Boulevard and Scottsdale Fashion (2)
- Goldwater Boulevard and Highland Avenue (3)
- Highland Avenue and Driveway (4)
- Highland Avenue and Scottsdale Fashion/Optima Driveway (5)
- Scottsdale Road and Highland Avenue (6)

TRIP GENERATION

TRIP GENERATION - SCOTTSDALE FASHION SQUARE TI&MA, DATED MAY 9, 2017

In the Scottsdale Fashion Square TI&MA, dated May 9, 2017, the southeast corner of Goldwater Boulevard and Highland Avenue was assumed to be a 400 unit condominium. The trip generation was calculated utilizing the Institute of Transportation Engineers (ITE) publication entitled *Trip Generation, 9th Edition*. The trip generation calculations also included internal trip capture due to the anticipated interaction between the proposed and existing uses. The total trips generated for the 400 unit condominium, including internal trip capture, is shown in **Table 1**.

Table 1 –Trip Generation – Previously Assumed for Parcel South of Highland Avenue

| Land Use | ITE Code | Qty | Unit | Weekday | AM Peak Hour | | | PM Peak Hour | | |
|---------------------------------|----------|-----|----------------|--------------|--------------|-----------|------------|--------------|-----------|-----------|
| | | | | Total | Total | In | Out | Total | In | Out |
| Condominium/Townhouse/Apartment | 230 | 400 | Dwelling Units | 2,149 | 156 | 27 | 129 | 126 | 84 | 41 |
| TOTAL | | | | 2,149 | 156 | 27 | 129 | 126 | 84 | 41 |

TRIP GENERATION - CAESARS REPUBLIC

Since the May 9, 2017 TI&MA, the ITE *Trip Generation, 10th Edition* was released. Therefore, the trip generation for the proposed Caesars Republic development was calculated utilizing this 10th Edition.

The ITE rates and equations are based on studies that measured the trip generation characteristics for various types of land uses. The rates and equations are expressed in terms of trips per unit of land use type. This publication is considered to be the standard for the transportation engineering profession.

The proposed Caesars Republic development includes the following uses:

- 265 room Hotel
- 2,000 square foot Restaurant
- Land Use 310 - Hotel
- Land Use 931 - Quality Restaurant

As previously mentioned, additional amenities will be provided on site that are anticipated to be primarily utilized by the hotel guests. These uses include a 200 square foot coffee shop, a 6,800 square foot ballroom, 2,000 square foot meeting space, and a 5,000 square foot bar/lounge on the 7th floor.

The total trip generation, including internal trip capture, for the proposed Caesars Republic development is shown in **Table 2** below. Detailed trip generation calculations are provided in **Attachment B**.

Table 2 –Trip Generation – Proposed Caesars Republic

| Land Use | ITE Code | Qty | Unit | Weekday | AM Peak Hour | | | PM Peak Hour | | |
|--------------------|----------|-----|-------------|--------------|--------------|-----------|-----------|--------------|-----------|-----------|
| | | | | Total | Total | In | Out | Total | In | Out |
| Hotel | 310 | 265 | Rooms | 2,565 | 127 | 75 | 52 | 97 | 50 | 48 |
| Quality Restaurant | 931 | 3.2 | 1000 SF GLA | 268 | 0 | 0 | 0 | 13 | 9 | 4 |
| TOTAL | | | | 2,833 | 127 | 75 | 52 | 110 | 59 | 52 |

TRIP GENERATION COMPARISON

A comparison between the trips generated by the 400 unit condominium, per the May 9, 2017 SFS TI&MA, versus the proposed Caesars Republic development is shown in **Table 3**.

Table 3 – Trip Generation Comparison (SFS TI&MA 5/9/2017 vs. Caesars Republic)

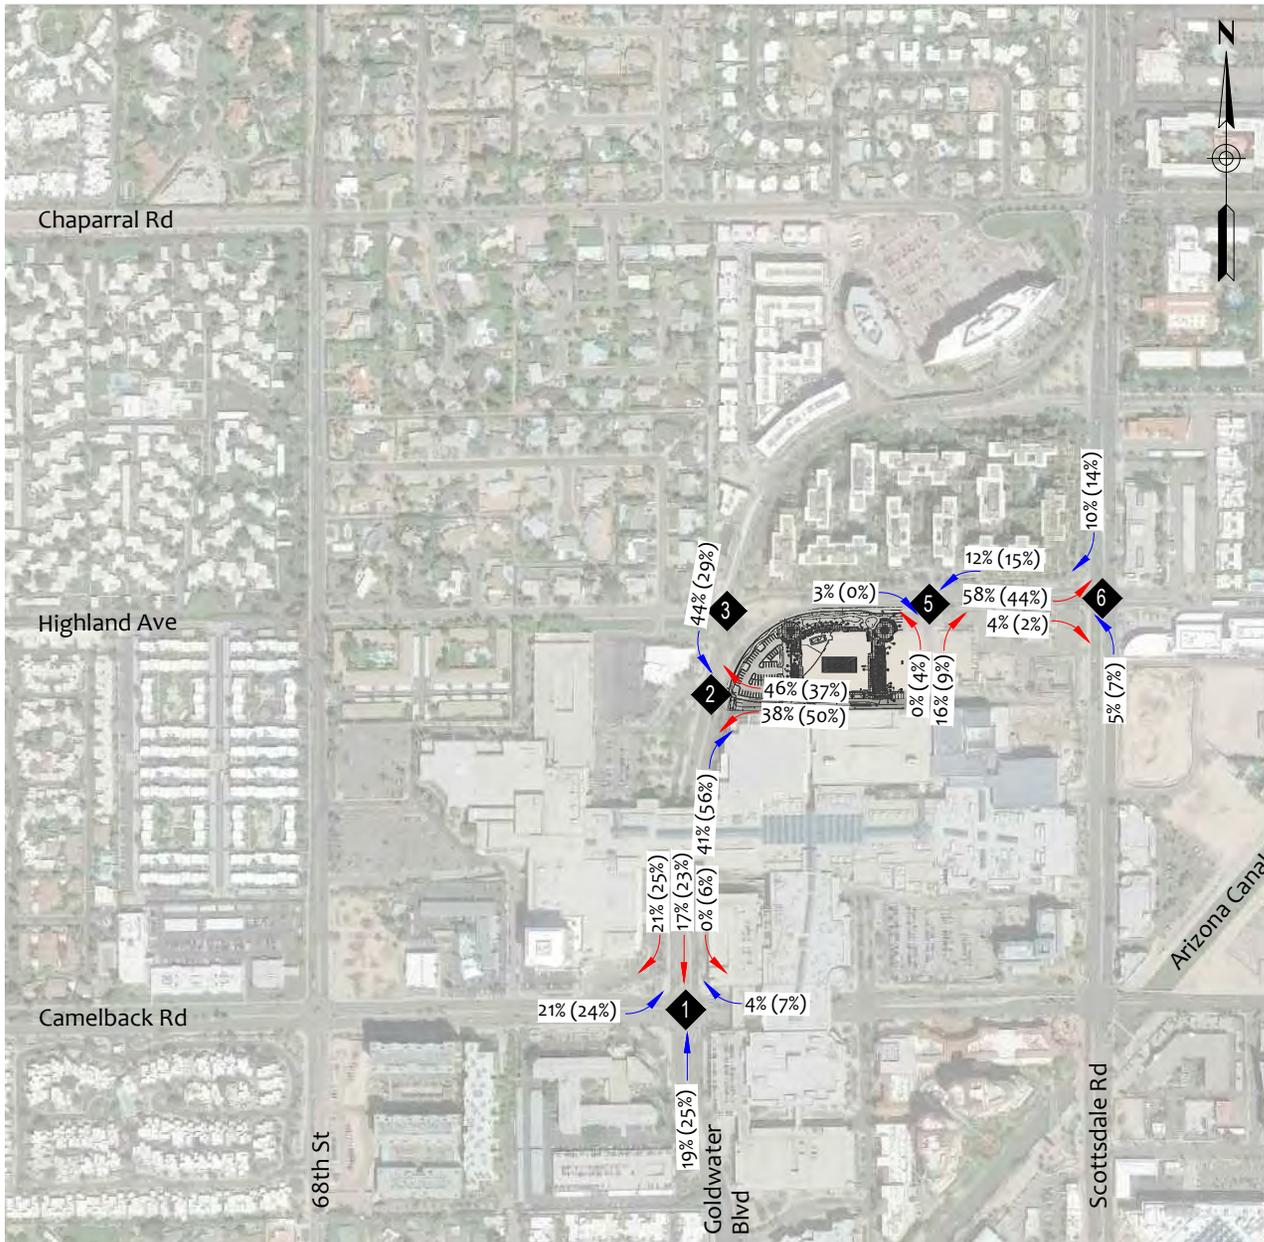

| | Weekday | AM Peak Hour | | | PM Peak Hour | | |
|-----------------------------|------------|--------------|-----------|------------|--------------|------------|-----------|
| | Total | Total | In | Out | Total | In | Out |
| SFS TI&MA Dated May 9, 2017 | 2,149 | 156 | 27 | 129 | 126 | 84 | 41 |
| Caesars Republic | 2,833 | 127 | 75 | 52 | 110 | 59 | 52 |
| Difference | 684 | -29 | 48 | -77 | -15 | -26 | 11 |

Although the prior and proposed land uses are different, the weekday daily, and AM and PM peak hour trip generation are relatively similar.

TRIP DISTRIBUTION AND TRIP ASSIGNMENT

The trip distribution procedure determines the general pattern of travel for vehicles entering and leaving the proposed development. The trip distribution for the proposed Caesars Republic development was based on the existing traffic. See **Figure 1** for the proposed trip distribution. See **Figure 2** for proposed site traffic volumes for Caesars Republic. To keep consistent with the May 9, 2017 SFS TI&MA, the site volumes were also included for the buildout of the parcels to the west to Goldwater Boulevard, a 200 room hotel and a 240,000 square foot office. See **Figure 3** for the site traffic volumes for these additional developments.

EXISTING CONDITIONS

EXISTING TRAFFIC VOLUMES

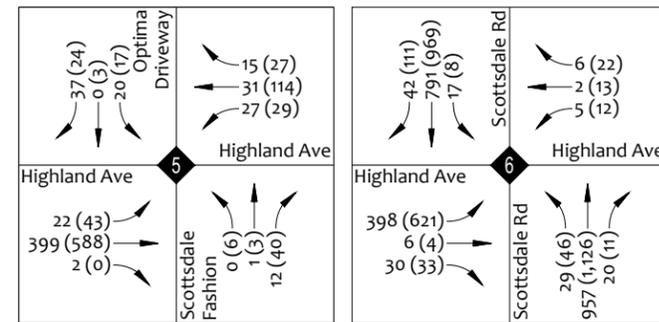

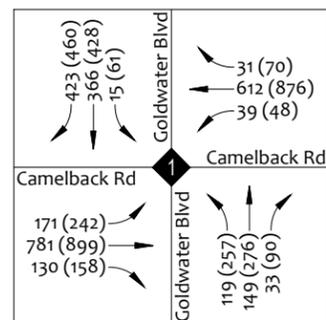

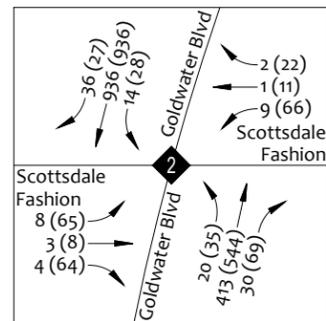

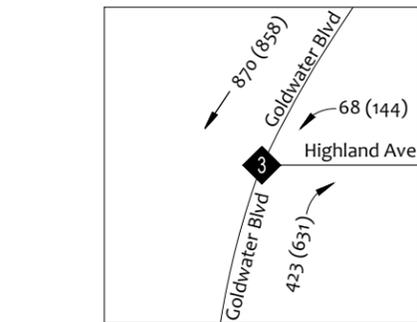

The existing traffic volumes collected on Tuesday, October 6, 2015, and Wednesday, February 15, 2017 as part of the May 9, 2017 SFS TI&MA is shown in **Figure 4**.

EXISTING CAPACITY ANALYSIS

As reported in the May 9, 2017 SFS TI&MA, the existing capacity analysis was completed using the methodology presented in the 2010 *Highway Capacity Manual*. The analysis was completed using the traffic software, Synchro Version 9.0. The signal timing was provided by the City of Scottsdale. See **Attachment C** for the existing signal timing as provided in the May 9, 2017 SFS TI&MA.

The existing capacity analysis as reported in the May 9, 2017 SFS TI&MA is shown in **Figure 5**. The detailed capacity analysis sheets as provided in the May 9, 2017 SFS TI&MA can be found in **Attachment D**.

YEAR 2020 CONDITIONS

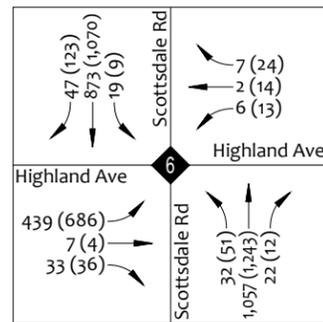

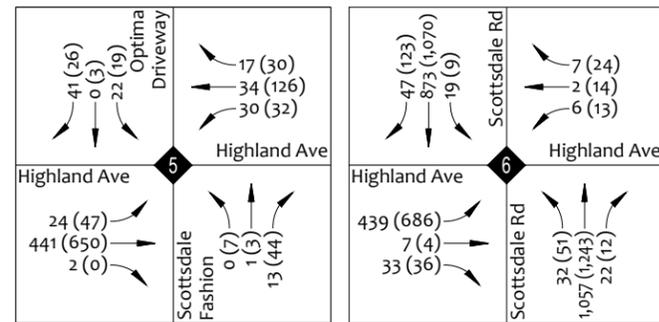

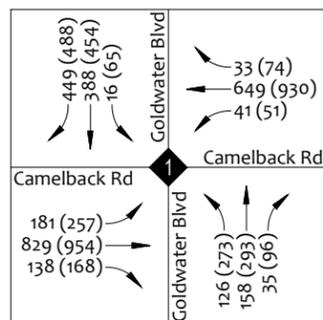

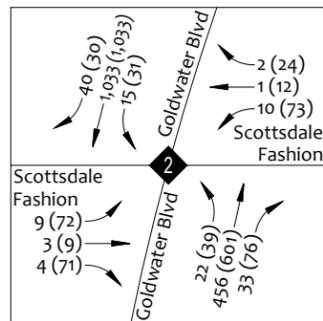

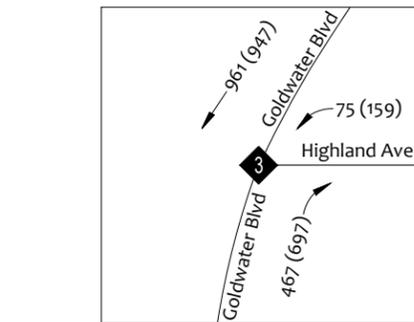

YEAR 2020 BACKGROUND TRAFFIC VOLUMES

The proposed Caesars Republic development is scheduled to be completed by the end of 2020, which corresponds to the 5 year analysis included in the May 9, 2017 SFS TI&MA. Therefore, shown in **Figure 6** are the 5 year background traffic volumes as shown in the May 9, 2017 SFS TI&MA, which corresponds to the year 2020 background traffic volumes for the proposed Caesars Republic.

YEAR 2020 NO BUILD CAPACITY ANALYSIS

The results of the 5 year background capacity analysis as shown in the May 9, 2017 SFS TI&MA, which corresponds to the year 2020 no build capacity analysis is shown in **Figure 7**. The detailed capacity analysis sheets as provided in the May 9, 2017 SFS TI&MA can be found in **Attachment E**.

- ↔ Lane Configuration

FIGURE 7 | YEAR 2020 NO BUILD CAPACITY ANALYSIS

YEAR 2020 BUILD TRAFFIC VOLUMES

The year 2020 build traffic volumes include the proposed Caesars Republic site traffic volumes, shown in **Figure 2** and the additional development site traffic volumes shown in **Figure 3** are added to the year 2020 background traffic volumes shown in **Figure 6**. See **Figure 8** for the year 2020 build traffic volumes.

YEAR 2020 BUILD CAPACITY ANALYSIS

The year 2020 build capacity analysis was completed using the methodology presented in the *2010 Highway Capacity Manual*. The analysis was completed using the traffic software, Synchro Version 10.3. The signal timing splits were optimized to match future traffic volumes. The recently revised City of Scottsdale Design Standards and Policies Manual recommends using a PHF of 0.92, but in order to stay consistent with the previously completed report a PHF of 0.9 was assumed.

The following improvements and mitigation measures were included in the year 2020 build analysis:

Goldwater Boulevard and Camelback Road (1) – Signalized

An overlap phase was included for the southbound right turn movement.

Goldwater Boulevard and Fashion Square (2) – Signalized

The lane configuration for the eastbound approach at the intersection of Goldwater Boulevard and Fashion Square was modified to provide a dedicated left turn lane and a shared through-right turn lane. There is more than adequate width to provide the separation of these movements with signing and pavement marking modifications. Additionally, the signal cycle length was reduced to 60 seconds.

Scottsdale Road and Highland Avenue (6) – Signalized

Although the stipulation requires the build out of a third eastbound left turn lane, alternative geometrics and lane configurations were considered to determine whether an interim condition could provide adequate levels of service. For this intersection, modifying the eastbound approach to provide two dedicated left turn lanes, a shared left-through lane and a dedicated right turn lane.

The results of the year 2020 build capacity analysis are shown in **Figure 9**. The detailed capacity analysis sheets can be found in **Attachment F**.

With the build out of the proposed Caesars Republic, all movements operate at a LOS D or better, or are maintained at the year 2020 no build level of service, with the exception of the following locations:

Highland Avenue and Scottsdale Fashion/Optima Driveway (5) – Stop Controlled

- NB left turn movement during the PM peak hour operates at LOS E. It is not uncommon for stop controlled driveways to experience greater delays during peak hours. Often drivers will opt to turn right or find alternative routes and accesses to avoid the left turn movements at stop controlled intersections during peak hours.

Scottsdale Road and Highland Avenue (6) – Signalized

- WB shared through-right turn movement during the AM peak hour operates at LOS E (2 through and 7 right turning vehicles)

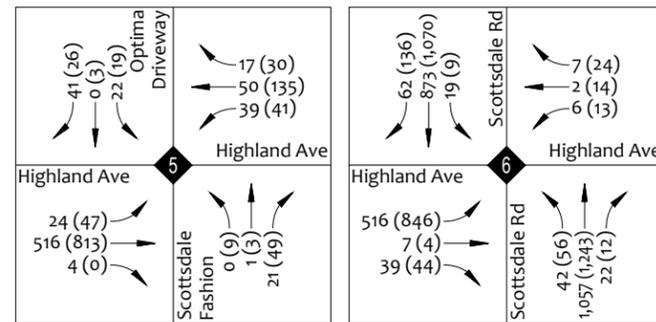

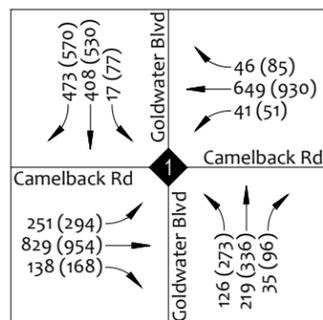

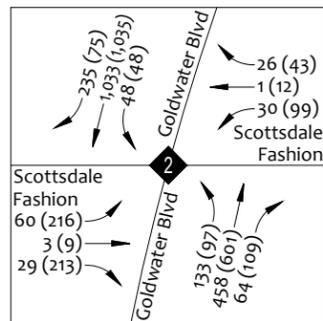

With a 120 second cycle length, the delay experienced by these movements can be partially due to the cycle length. For a LOS E, the delay is between 55 and 80 seconds per vehicle. Should vehicles arrive just missing the green time for that movement, drivers would wait the remainder of the cycle before receiving the green light.

With the anticipated traffic volumes for these movements, a maximum of 7 vehicles reported in the peak hour, it is anticipated that all vehicles will clear the intersection during a single cycle

- EB shared left-through movement during the AM peak hour operates at LOS E (7 through vehicles)

The delay for this movement is also similar to the WB shared through-right turn detailed above.

STIPULATIONS

As part of the Scottsdale Fashion Square Mall Zoning Application Case Number 25-ZN-2015 & 1-II-2016, stipulations were established including transportation related stipulations. See **Attachment G** for City of Scottsdale Ordinance No. 4299.

The proposed Caesars Republic development is located within “Parcel B” shown on Exhibit A to Exhibit 1 in the recorded stipulations. The following are the transportation stipulations related to the proposed Caesars Republic development:

- 12. TRAFFIC IMPACT STUDY. As determined by the Transportation Director, or designee, with a Development Review Board application for a new or expanded building, the property owner shall submit an updated traffic impact study to address the new development. The owner shall obtain approval of the study from the Transportation Director, or designee, prior to the Development Review Board hearing for the related new building, or building expansion. The owner shall be responsible for any infrastructure improvements identified by the updated traffic impact study(ies) that are the result of the traffic generated by new or expanded buildings on the site.

This report fulfills this stipulation for the proposed Caesars Republic development.

- 13.a.1. The property owner shall construct a continuous minimum eight (8) foot wide sidewalk, separated from the back of curb where feasible, as determined by Transportation Director, or designee, on the east side of North Goldwater Boulevard, from the intersection of East Via Soleri Drive and North Goldwater Boulevard to the intersection of East Highland Avenue and North Goldwater Boulevard, prior to obtaining a Certificate-of-Occupancy for any new building within the area identified as Parcel A or B on Exhibit A to Exhibit 1.

This sidewalk requirement appears to be triggered with the proposed Caesars Republic development.

- 13.a.3. The property owner shall construct a continuous minimum eight (8) foot wide sidewalk, separated from the back of curb on the south side of East Highland Avenue, from the intersection of East Highland Avenue and North Goldwater Boulevard to the intersection of East Highland Avenue and North Scottsdale Road, prior to obtaining a Certificate-of-Occupancy for any new site building in that area identified as Parcel B on Exhibit A to Exhibit 1.

This sidewalk requirement appears to be triggered with the proposed Caesars Republic development.

- 13.a.4. The property owner shall construct a continuous minimum eight (8) foot wide sidewalk, separated from the back of curb on the west side of North Scottsdale Road, from the intersection of East Highland Avenue and North Scottsdale Road to the intersection of East Fashion Square Drive and North Scottsdale Road, prior to obtaining a Certificate-of-Occupancy for any new site building in that area identified as Parcel A or B on Exhibit A to Exhibit 1.

This sidewalk requirement appears to be triggered with the proposed Caesars Republic development.

- 13.a.8. Prior to the issuance of a building permit for a new or expanded building, the property owner shall submit plans and obtain approval to concurrently construct all street and pedestrian improvements supported by the updated traffic impact study that corresponds with the new or expanded building, and approved by the Transportation Director, or designee.

This report provides street improvement recommendations.

- 13.a.9. Prior to the issuance of a building permit for a new or expanded building, the property owner shall submit plans and obtain approval to concurrently modify any existing traffic signals and equipment supported by the updated traffic impact study approved by the Transportation Director, or designee that to address the new development associated with the requested building permit.

This report provides traffic signal improvement recommendations.

- 14.a. The property owner shall design and construct a third eastbound lane on Highland Avenue, beginning just east of Goldwater Boulevard and terminating as a third eastbound left-turn lane at Scottsdale Road, prior to any certification of occupancy for a combined total building area exceeding 75,000 square feet in new or expanded building south of East Highland Avenue between North Scottsdale Road and North Goldwater Boulevard within the area identifies as Parcel B on Exhibit A to Exhibit 1.

The proposed Caesars Republic development will be 246,913 square feet in new building and therefore appears to trigger the third eastbound lane on Highland Avenue.

However, based on the year 2020 build analysis with the build out of the proposed Caesars Republic, acceptable levels of service can be provided with modifying the west

leg to accommodate dual left turn lanes, a shared left-through lane, and a dedicated right turn lane. This will improvement will require pavement marking, signing, and traffic signal modifications.

- 14.b. The property owner shall design and construct intersection modifications to provide separate eastbound left-turn lane and shared through-right-turn lane at the East Scottsdale Fashion Square and North Goldwater Boulevard intersection, prior to any certificate of occupancy for any new building south of East Highland Avenue between North Scottsdale Road and North Goldwater Boulevard, within the area identified as Parcel B on Exhibit A to Exhibit 1.

This lane configuration appears to be triggered with the proposed Caesars Republic development and is shown as part of the year 2020 build analysis. There is more than adequate width to provide the separation of these movements with signing and pavement marking modifications.

- 14.c. The property owner shall contract with a traffic engineering consultant to conduct a study of the East Highland Avenue and North Goldwater Boulevard intersection prior to any certificate of occupancy for any new or expanded building within the area identified as Parcel B on Exhibit A to Exhibit 1. The study shall recommend intersection improvements to improve the safety and convenience for the westbound left-turn movement, improve intersection sight distance, and reduce speeding on North Goldwater Boulevard. The study shall not include any options that consider a connection to the existing East Highland Avenue west of North Goldwater Boulevard. The property owner shall not be obligated for any costs and/or improvement associated with the study that exceed \$50,000, and the final study shall be submitted to the City of Scottsdale for review and approval.

A traffic study of the East Highland Avenue and North Goldwater Boulevard intersection appears to be triggered with the proposed Caesars Republic development.

- 14.d. If directed by the Transportation Director based upon future traffic analysis, the property owner shall design and construct an additional left-turn lane on East Camelback Road at the North Goldwater Boulevard signalized intersection. The timing of the improvements shall be based upon the need as determined by the traffic analysis tied to proposed new building or building expansion on the site. The property owner shall be responsible for all necessary street reconstruction, pavement marking modifications, and signal equipment modification to accomplish the addition of the eastbound left-turn lane.

The construction of an additional dedicated left turn lane does not appear to be necessary at this time. Based on the year 2020 build analysis with the build out of the proposed Caesars Republic, acceptable levels of service can be provided with modifying the west leg to accommodate dual left turn lanes, a shared left-through lane, and a dedicated right turn lane. This will improvement will require pavement marking, signing, and traffic signal modifications.

- 15.e. There shall be an east/west driveway maintained through the site from North Goldwater Boulevard to North Scottsdale Road in or near the area identified as Parcel B on Exhibit A to Exhibit 1. The alignment of such driveway shall be determined at the time of the applicable Development Review Board application.

The proposed Caesars Republic development maintains the existing east/west driveway.

- 16.b. The developer shall design and construct a pedestrian hybrid beacon on Highland Avenue between Scottsdale Road and Goldwater Boulevard prior to any certificate of occupancy for any new buildings within the area identified as Parcel B on Exhibit A to Exhibit 1. Adequate stopping sight distance for drivers on Goldwater Boulevard/Highland Avenue must be provided with the design. This requirement shall not be in effect if a traffic signal is determined to be warranted and approved prior to the construction of the pedestrian hybrid beacon. If a traffic signal is determined to be warranted by the Transportation Director at this intersection in the future, the pedestrian hybrid beacon shall be replaced by the full traffic signal.

This pedestrian hybrid beacon installation appears to be triggered with the proposed Caesars Republic development.

- 16.c. Prior to the certificate of occupancy for any new buildings within the area identified as Parcel B on Exhibit A to Exhibit 1, the property owner shall explore a grade separated pedestrian crossing between the building or parking structure and the existing Optima residential development on the north side of East Highland Avenue.

The exploration of a grade separated pedestrian crossing appears to be triggered with the proposed Caesars Republic development.

- 17.b. The property owner shall design and construct transit stop improvements on North Scottsdale Road south of East Highland Avenue, prior to any certificate of occupancy for any new buildings within the area identified as Parcel B on Exhibit A to Exhibit 1. The transit stop improvements shall consist of a shelter, trash can, bench, and bike rack. The

design and location of the transit stop shall be approved by the Transportation Department Director or designee.

Transit stop improvements on North Scottsdale Road south of East Highland Avenue appears to be triggered with the proposed Caesars Republic development.

- 18.a. Prior to issuance of Certificate of Occupancy for any new building within the area identified as Parcel B on Exhibit A to Exhibit 1, the property owner shall install pole mounted pedestrian street lights along the East Highland Avenue street frontage, between North Scottsdale Road and North Goldwater Boulevard, as approved by the Development Review Board.

Pedestrian lighting installation along East Highland Avenue appears to be triggered with the proposed Caesars Republic development.

SUMMARY

This report is an update to the originally recorded Traffic Impact and Mitigation Analysis for Scottsdale Fashion Square, dated May 9, 2017, which assumed a 400 unit condominium development on the southeast corner of Goldwater Boulevard and Highland Avenue. This report replaces the residential development with the proposed Caesars Republic development, which is a 265 room, 11 story hotel, with a 3,200 square foot restaurant. Additional amenities will be provided on site that are anticipated to be primarily utilized by the hotel guests, which include a 200 square foot coffee shop, 6,800 square foot ballroom, 2,000 square foot meeting space, and 5,000 square foot bar/lounge on the 7th floor.

| | Weekday | AM Peak Hour | | | PM Peak Hour | | |
|-----------------------------|------------|--------------|-----------|------------|--------------|------------|-----------|
| | Total | Total | In | Out | Total | In | Out |
| SFS TI&MA Dated May 9, 2017 | 2,149 | 156 | 27 | 129 | 126 | 84 | 41 |
| Caesars Republic | 2,833 | 127 | 75 | 52 | 110 | 59 | 52 |
| Difference | 684 | -29 | 48 | -77 | -15 | -26 | 11 |

Although the prior and proposed land uses are different, the weekday daily, and AM and PM peak hour trip generation is relatively similar.

The following improvements and mitigation measures were included in the year 2020 build analysis:

Goldwater Boulevard and Camelback Road (1) – Signalized

An overlap phase was included for the southbound right turn movement.

Goldwater Boulevard and Fashion Square (2) – Signalized

The lane configuration for the eastbound approach at the intersection of Goldwater Boulevard and Fashion Square was modified to provide a dedicated left turn lane and a shared through-right turn lane. There is more than adequate width to provide the separation of these movements with signing and pavement marking modifications. Additionally, the signal cycle length was reduced to 60 seconds.

Scottsdale Road and Highland Avenue (6) – Signalized

Although the stipulation requires the build out of a third eastbound left turn lane, alternative geometrics and lane configurations were considered to determine whether an interim condition could provide adequate levels of service. For this intersection, modifying the eastbound approach to provide two dedicated left turn lanes, a shared left-through lane and a dedicated right turn lane.

These improvements are recommended with the build out of the proposed Caesars Republic development.

As part of the Scottsdale Fashion Square Mall Zoning Application Case Number 25-ZN-2015 & 1-II-2016, stipulations were established including transportation related stipulations. A number of these stipulations appear to be triggered with the proposed Caesars Republic developments, including but not limited to, sidewalk improvements, street improvements, pedestrian improvements, required traffic studies, installation of a pedestrian hybrid beacon, transit stop improvements, and pedestrian lighting installation.

ATTACHMENT D – 5/9/17 SFS TI&MA EXISTING CAPACITY ANALYSIS

The Synchro outputs under Attachment D are taken directly from the Scottsdale Fashion Square Traffic Impact & Mitigation Analysis, dated May 9, 2017. For organizational purposes, the intersections for the Scottsdale Fashion Square – Caesars Republic Traffic Impact & Mitigation Analysis have been changed to:

| Intersection | May 9, 2017 TI&MA Intersection Number | Caesars Republic TI&MA Intersection Number |
|--|---------------------------------------|--|
| Goldwater Boulevard and Camelback Road | 8 | 1 |
| Goldwater Boulevard and Fashion Square | 3 | 2 |
| Goldwater Boulevard and Highland Avenue | 4 | 3 |
| Highland Avenue and Site Driveway | N/A | 4 |
| Highland Avenue and Fashion Square/Optima Driveway | 5 | 5 |
| Scottsdale Road and Highland Avenue | 6 | 6 |

Intersection Summary

95th percentile volume exceeds capacity, queue may be longer.

Queue shown is maximum after two cycles.

m Volume for 95th percentile queue is metered by upstream signal.

Intersection Summary

- ~ Volume exceeds capacity, queue is theoretically infinite.
Queue shown is maximum after two cycles.
- # 95th percentile volume exceeds capacity, queue may be longer.
Queue shown is maximum after two cycles.
- m Volume for 95th percentile queue is metered by upstream signal.

Intersection Summary

95th percentile volume exceeds capacity, queue may be longer.

Queue shown is maximum after two cycles.

m Volume for 95th percentile queue is metered by upstream signal.

ATTACHMENT E – 5/9/17 SFS TI&MA YEAR 2020 NO BUILD CAPACITY ANALYSIS

The Synchro outputs under Attachment E are taken directly from the Scottsdale Fashion Square Traffic Impact & Mitigation Analysis, dated May 9, 2017. For organizational purposes, the intersections for the Scottsdale Fashion Square – Caesars Republic Traffic Impact & Mitigation Analysis have been changed to:

| Intersection | May 9, 2017 TI&MA Intersection Number | Caesars Republic TI&MA Intersection Number |
|--|---------------------------------------|--|
| Goldwater Boulevard and Camelback Road | 8 | 1 |
| Goldwater Boulevard and Fashion Square | 3 | 2 |
| Goldwater Boulevard and Highland Avenue | 4 | 3 |
| Highland Avenue and Site Driveway | N/A | 4 |
| Highland Avenue and Fashion Square/Optima Driveway | 5 | 5 |
| Scottsdale Road and Highland Avenue | 6 | 6 |

Intersection Summary

95th percentile volume exceeds capacity, queue may be longer.

Queue shown is maximum after two cycles.

m Volume for 95th percentile queue is metered by upstream signal.

Intersection Summary

~ Volume exceeds capacity, queue is theoretically infinite.

Queue shown is maximum after two cycles.

95th percentile volume exceeds capacity, queue may be longer.

Queue shown is maximum after two cycles.

m Volume for 95th percentile queue is metered by upstream signal.

ATTACHMENT G – SCOTTSDALE STIPULATIONS ORDINANCE 4299

ORDINANCE NO. 4299

AN ORDINANCE OF THE COUNCIL OF THE CITY OF SCOTTSDALE, MARICOPA COUNTY, ARIZONA, AMENDING ORDINANCE NO. 455, THE ZONING ORDINANCE OF THE CITY OF SCOTTSDALE, BY AND FOR THE PURPOSE OF CHANGING THE ZONING ON THE "DISTRICT MAP" TO ZONING APPROVED IN CASE NO 25-ZN-2015 AND CASE NO 1-II-2016 FROM DOWNTOWN/REGIONAL COMMERCIAL OFFICE - TYPE 2, PLANNED BLOCK DEVELOPMENT, DOWNTOWN OVERLAY (D/RCO-2 PBD DO) TO DOWNTOWN/DOWNTOWN REGIONAL USE - TYPE 2, PLANNED BLOCK DEVELOPMENT, DOWNTOWN OVERLAY (D/DRU-2 PBD DO), AND APPROVING A DEVELOPMENT PLAN ON A +/- 56-ACRE SITE, AND APPROVING AN APPLICATION FOR A DOWNTOWN INFILL INCENTIVE DISTRICT PURSUANT TO THE DOWNTOWN INFILL INCENTIVE PLAN, LOCATED ON +/- 1.8 ACRES OF THE TOTAL +/- 56-ACRE SITE ON THE NORTHWEST CORNER OF CAMELBACK ROAD AND SCOTTSDALE ROAD (6900, 7000, 7003, 7014, 7032, 7102, 7150, 7055 E. CAMELBACK ROAD, 4649 N. GOLDWATER BLVD., 7000 E. VIA SOLERI DRIVE, 4710, 4500, 4510, 4610, 4626, 4700, 4720 N. SCOTTSDALE ROAD, AND 7001 E HIGHLAND AVENUE).

WHEREAS, the Planning Commission held a hearing on June, 28, 2017;

WHEREAS, the City Council held a hearing on August, 29, 2017;

WHEREAS, the City Council finds that the proposed development is in substantial harmony with the General Plan of the City of Scottsdale and will be coordinated with existing and planned development;

WHEREAS, the City Council finds that the proposed development is located in the Downtown Infill Incentive District and consistent with the Downtown Infill Incentive Plan; and

WHEREAS, it is now necessary that the comprehensive zoning map of the City of Scottsdale ("District Map") be amended to conform with the decision of the Scottsdale City Council in Case No. 25-ZN-2015 and 1-II-2016.

NOW, THEREFORE, BE IT ORDAINED by the Council of the City of Scottsdale, as follows:

Section 1. That the "District Map" adopted as a part of the Zoning Ordinance of the City of Scottsdale, showing the zoning district boundaries, is amended by rezoning a +/- 56-acre site located on the northwest corner of Camelback Road and Scottsdale Road (6900, 7000, 7003, 7014, 7032, 7102, 7150, 7055 E. Camelback Road, 4649 N. Goldwater Blvd., 7000 E. Via Soleri Drive, 4710, 4500, 4510, 4610, 4626, 4700, 4720 N. Scottsdale Road, and 7001 E Highland Avenue) and marked as "Site" (the Property) on the map attached as Exhibit 2 page 1 of 2, incorporated herein by reference, from Downtown/Regional Commercial Office - Type 2, Planned Block Development, Downtown Overlay (D/RCO-2 PBD DO) to Downtown/Downtown Regional Use - Type 2, Planned Block Development, Downtown Overlay (D/DRU-2 PBD DO) zoning, and approving a Downtown Infill Incentive District application over +/- 1.8 acres of the +/- 56 acre site with Downtown/Downtown Regional Use - Type 2, Planned Block Development, Downtown Overlay (D/DRU-2 PBD DO) zoning by approving a Development Plan and amendments to Property Development Standards of the

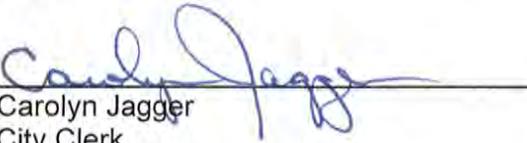

Zoning Ordinance regarding the inclined stepback plane adjacent to the Downtown Boundary, specifically at the northeast corner of the Development Plan area (4710, 4626, 4500, 4700 and 4720 N. Scottsdale Road) and marked as "Site" on the map attached as Exhibit 2, page 2 of 2, and by adopting that certain document entitled "Development Plan Scottsdale Fashion Square" declared as a public record by Resolution No. 10717 which is incorporated into this ordinance by reference as if fully set forth herein.

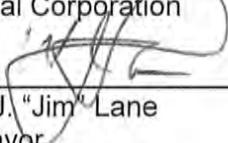

Section 2. That the above rezoning approval is conditioned upon compliance with all stipulations attached hereto as Exhibit 1 and incorporated herein by reference.

PASSED AND ADOPTED by the Council of the City of Scottsdale this 29 of August, 2017.

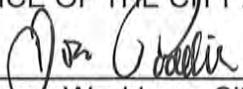

ATTEST:

CITY OF SCOTTSDALE, an Arizona
Municipal Corporation

By: 
Carolyn Jagger
City Clerk

By: 
W.J. "Jim" Lane
Mayor

APPROVED AS TO FORM:
OFFICE OF THE CITY ATTORNEY

By: 
Bruce Washburn, City Attorney
By: Joe Padilla, Deputy City Attorney

**Stipulations for the Zoning Application:
Scottsdale Fashion Square Mall
Case Number: 25-ZN-2015 & 1-II-2016**

These stipulations are in order to protect the public health, safety, welfare, and the City of Scottsdale.

GOVERNANCE

1. **APPLICABILITY.** All stipulations of cases 25-ZN-2015 and 1-II-2016 shall supersede all of the stipulations of prior zoning approvals, with the exception of existing Conditional Use Permit cases 4-UP-2000 and 6-UP-2012. These stipulations shall not apply to the Dillard's parcel, which is not included as part of the subject Development Plan.

SITE DESIGN

2. **CONFORMANCE TO DEVELOPMENT PLAN.** Development shall conform with the Development Plan, entitled "Development Plan Scottsdale Fashion Square," which is on file with the City Clerk and made a public record by Resolution No. 10717 and incorporated into these stipulations and ordinance by reference as if fully set forth herein. Any proposed significant change to the Development Plan, as determined by the Zoning Administrator, shall be subject to additional public hearings and action before the Planning Commission and City Council. Where there is a conflict between the Development Plan and these stipulations, these stipulations shall prevail.
3. **CONFORMANCE TO AMENDED DEVELOPMENT STANDARDS.** Development shall conform with the amended development standards that are included as part of the Development Plan. Any change to the Property Development Standards shall be subject to additional public zoning hearings before the Planning Commission and City Council.
4. **CONFORMANCE TO DEVELOPMENT AGREEMENT.** The property owner of the property identified in the Development Plan shall enter into a development agreement, Contract No. 2017-097-COS, including any subsequent amendments approved by the City Council, which sets forth the manner in which the building height bonus shall be achieved, and specifies the development standard allocations among the parcels within the boundary of the Development Plan.
5. **BUILDING HEIGHT LOCATIONS.** Locations of building height shall be in conformance with the approved Development Plan. No building on the site shall exceed 150 feet in height (inclusive of the bonus building height, mechanical equipment and other appurtenances), measured as provided in the applicable section of the Zoning Ordinance.
6. **CULTURAL IMPROVEMENTS PROGRAM.** Prior to permit issuance for any new or expanded building, the property owner shall provide artwork, or pay an in-lieu fee, equal to at least one percent of the building valuation of the added floor area. This requirement shall be exclusive of the in-lieu payment outlined in Contract No. 2017-097-COS, regarding PBD bonus provisions.

7. **OUTDOOR LIGHTING.** The maximum height of any outdoor lighting source, except any light sources for signs, patios and/or balconies or accent lighting approved by the Development Review Board or staff in accordance with the provisions of Zoning Ordinance Section 1.900, shall be 20 feet above the adjacent finished grade.
8. **OUTDOOR LIGHTING FOR PATIOS AND BALCONIES.** Light sources that are utilized to illuminate patios and/or balconies that are above 20 feet shall be subject to the approval of the Development Review Board or staff in accordance with the provisions of Zoning Ordinance Section 1.900.
9. **SIGNAGE.** Within the area of the site identified as Parcel B on Exhibit A to Exhibit 1, there shall be no new internally illuminated signage facing toward Highland Avenue.
10. **AMPLIFIED MUSIC.** Within the area of the site identified as Parcel B on Exhibit A to Exhibit 1, there shall be no exterior amplified music after 10:00pm, and 11:00pm on weekends and holidays, at levels greater than 68 decibels as measured from the right-of-way line on the north side of Highland Avenue.
11. **OPEN SPACE.** Open space shall conform with the following requirements:
 - a. Within the area of the site identified as Parcel B on Exhibit A to Exhibit 1, an open space area or areas shall be provided which align with the main entry/open space plaza on the north side Highland Avenue at Optima Camelview, subject to Development Review Board approval.
 - b. Open space areas within the area of the site identified as Parcel B on Exhibit A to Exhibit 1, shall be planted with mature shade trees and/or palm trees in conformance with the Downtown Urban Design & Architectural Design Guidelines, subject to Development Review Board approval.
 - c. Building setback areas along Highland Avenue shall be planted with mature shade trees and/or palm trees, and/or other shading devices, in conformance with the Downtown Urban Design & Architectural Design Guidelines, subject to Development Review Board approval.

INFRASTRUCTURE AND DEDICATIONS

12. **TRAFFIC IMPACT STUDY.** As determined by the Transportation Director, or designee, with a Development Review Board application for a new or expanded building, the property owner shall submit an updated traffic impact study to address the new development. The owner shall obtain approval of the study from the Transportation Director, or designee, prior to the Development Review Board hearing for the related new building, or building expansion. The owner shall be responsible for any infrastructure improvements identified by the updated traffic impact study(ies) that are the result of the traffic generated by new or expanded buildings on the site.
13. **CIRCULATION IMPROVEMENTS.** The owner shall make the required dedications and provide the following improvements in conformance with the Design Standards and Policies Manual and all other applicable city codes and policies.
 - a. **STREETS.** Dedicate the following right-of-way and construct the following street improvements:

| Street Name | Street Type | Dedications | Improvements | Notes and |
|-------------|-------------|-------------|--------------|-----------|
|-------------|-------------|-------------|--------------|-----------|

| | | | | Requirements |
|---------------------|-------------------------|--|---|--|
| Goldwater Boulevard | Couplet Street | Right-of-way for right-turn deceleration lanes | Construct sidewalk and turn lane improvements | a.1, a.2., a.6., a.7., a.8., a.9., a.10, a.11. |
| Highland Avenue | Local Commercial Street | Right-of-way for right-turn deceleration lanes | Construct sidewalk and turn lane improvements | a.3. , a.6., a.7., a.8., a.9., a.10, a.11. |
| Scottsdale Road | Major Collector | Right-of-way for right-turn deceleration lanes | Construct sidewalk and turn lane improvements | a.4., a.6., a.7., a.8., a.9., a.10, a.11 . |
| Camelback Road | Minor Arterial | Right-of-way for right-turn deceleration lanes | Construct sidewalk and turn lane improvements | a.5, a.6., a.7., a.8., a.9., a.10, a.11 . |

- a.1. The property owner shall construct a continuous minimum eight (8) foot wide sidewalk, separated from the back of curb where feasible, as determined by Transportation Director, or designee, on the east side of North Goldwater Boulevard, from the intersection of East Via Soleri Drive and North Goldwater Boulevard to the intersection of East Highland Avenue and North Goldwater Boulevard, prior to obtaining a Certificate-of-Occupancy for any new building within the area identified as Parcel A or B on Exhibit A to Exhibit 1.
- a.2. The property owner shall construct a continuous eight (8) foot wide sidewalk where feasible and the sidewalk shall be separated from the back of curb where feasible, as determined by Transportation Director, or designee, on the west side of North Goldwater Boulevard, from the intersection of East Camelback Road and North Goldwater Boulevard to the intersection East Highland Avenue and North Goldwater Boulevard, prior to obtaining a Certificate-of-Occupancy for any new building within the area identified as Parcel A or D on Exhibit A to Exhibit 1.
- a.3. The property owner shall construct a continuous minimum eight (8) foot wide sidewalk, separated from the back of curb on the south side of East Highland Avenue, from the intersection of East Highland Avenue and North Goldwater Boulevard to the intersection of East Highland Avenue and North Scottsdale Road, prior to obtaining a Certificate-of-Occupancy for any new site building in that area identified as Parcel B on Exhibit A to Exhibit 1.
- a.4. The property owner shall construct a continuous minimum eight (8) foot wide sidewalk, separated from the back of curb on the west side of North Scottsdale Road, from the intersection of East Highland Avenue and North Scottsdale Road to the intersection of East Fashion Square Drive and North Scottsdale Road,

prior to obtaining a Certificate-of-Occupancy for any new site building in that area identified as Parcel A or B on Exhibit A to Exhibit 1.

- a.5. The property owner shall construct a continuous minimum eight (8) foot wide sidewalk, separated from the back of curb where feasible, as determined by Transportation Director, or designee, on the north side of East Camelback Road, from the intersection of East Camelback Road and North Goldwater Boulevard to the western boundary of the zoning application, prior to obtaining a Certificate-of-Occupancy for any new site building in that area identified as Parcel A on Exhibit A to Exhibit 1.
- a.6. Prior to permit issuance for construction of driveways at any new vehicular entrances to the property, the property owner shall dedicate additional North Goldwater Boulevard, East Highland Avenue, North Scottsdale Road, and East Camelback Road right-of-way, as determined by Transportation Director or designee, to accommodate new right-turn deceleration lanes at any new vehicle entrances to the property.
- a.7. If any new vehicular entrances to the property are approved along North Goldwater Boulevard, East Highland Avenue, North Scottsdale Road, and East Camelback Road as part of a development proposal, as determined by Transportation Director or designee, the owner shall construct new right-turn deceleration lanes to accommodate the new vehicle entrances to the property.
- a.8. Prior to the issuance of a building permit for a new or expanded building, the property owner shall submit plans and obtain approval to concurrently construct all street and pedestrian improvements supported by the updated traffic impact study that corresponds with the new or expanded building, and approved by the Transportation Director, or designee.
- a.9. Prior to the issuance of a building permit for a new or expanded building, the property owner shall submit plans and obtain approval to concurrently modify any existing traffic signals and equipment supported by the updated traffic impact study approved by the Transportation Director, or designee that to address the new development associated with the requested building permit.
- a.10. All street improvements (curb, gutter, sidewalk, curb ramps, driveways, pavement, concrete, etc.) shall be constructed in accordance with the applicable City of Scottsdale's Supplements to the Maricopa Association of Governments (MAG) Uniform Standard Specifications and Details for Public Works Construction, and Maricopa Association of Governments (MAG) Uniform Standard Specifications and Details for Public Works Construction, as determined by the Transportation Director, or designee.
- a.11. The sidewalk improvements noted in a.1, a.2, and a.5 above shall be required only in locations that are determined to be feasible, with the intent of feasibility to be interpreted to mean where adequate width or space is available to widen the sidewalk to the prescribed widths or provide the required separation from curb reasonably without affecting existing structures, significant mature landscaping, existing parking areas, or significant grades. The determination of feasibility shall be made by the Zoning Administrator or designee.

14. INTERSECTION IMPROVEMENTS. The owner shall make the required dedications and provide the following improvements in conformance with the Design Standards and Policies Manual and all other applicable city codes and policies:
- a. The property owner shall design and construct a third eastbound lane on Highland Avenue, beginning just east of Goldwater Boulevard and terminating as a third eastbound left-turn lane at Scottsdale Road, prior to any certificate of occupancy for a combined total building area exceeding 75,000 square feet in new or expanded buildings south of East Highland Avenue between North Scottsdale Road and North Goldwater Boulevard within the area identified as Parcel B on Exhibit A to Exhibit 1.
 - b. The property owner shall design and construct intersection modifications to provide a separate eastbound left-turn lane and shared through-right-turn lane at the East Scottsdale Fashion Square and North Goldwater Boulevard intersection, prior to any certificate of occupancy for any new buildings south of East Highland Avenue between North Scottsdale Road and North Goldwater Boulevard, within the area identified as Parcel B on Exhibit A to Exhibit 1.
 - c. The property owner shall contract with a traffic engineering consultant to conduct a study of the East Highland Avenue and North Goldwater Boulevard intersection prior to any certificate of occupancy for any new or expanded buildings within the area identified as Parcel B on Exhibit A to Exhibit 1. The study shall recommend intersection improvements to improve the safety and convenience for the westbound left-turn movement, improve intersection sight distance, and reduce speeding on North Goldwater Boulevard. The study shall not include any options that consider a connection to the existing East Highland Avenue west of North Goldwater Boulevard. The property owner shall not be obligated for any costs and/or improvements associated with the study that exceed \$50,000, and the final study shall be submitted to the City of Scottsdale for review and approval.
 - d. If directed by the Transportation Director based upon future traffic analysis, the property owner shall design and construct an additional eastbound left-turn lane on East Camelback Road at the North Goldwater Boulevard signalized intersection. The timing of the improvement shall be based upon the need as determined by the traffic analysis tied to proposed new building or building expansion on the site. The property owner shall be responsible for all necessary street reconstruction, pavement marking modification, and signal equipment modification to accomplish the addition of the eastbound left-turn lane.
15. ACCESS RESTRICTIONS/REQUIREMENTS. Access to the site shall conform to the following restrictions and requirements:
- a. There shall no new site driveways onto the adjacent public streets without approval of the site plan and site access as part of a Development Review Board application and approval by the Transportation Director.
 - b. There shall be no new median openings along the adjacent public streets associated with any proposed development of the site without approval of the site plan and site access as part of a Development Review Board application and approval by the Transportation Director.
 - c. There shall be no new traffic signals constructed on the adjacent public streets without

an approved traffic signal warrant analysis based upon existing traffic volumes and approval by the Transportation Director.

- d. Minimum driveway spacing shall be 250 feet between existing and proposed driveways and street intersections unless otherwise approved by the Transportation Director.
- e. There shall be an east/west driveway maintained through the site from North Goldwater Boulevard to North Scottsdale Road in or near the area identified as Parcel B on Exhibit A to Exhibit 1. The alignment of such driveway shall be determined at the time of the applicable Development Review Board application.

16. PEDESTRIAN FACILITIES.

- a) With the first and each subsequent Development Review Board submittal for new development on the site, the owner shall submit a pedestrian circulation plan for the site, which shall be subject to approval by City staff. The plan shall include all existing and proposed sidewalks along the adjacent streets and all existing proposed connections from the streets to the site buildings.
- b) The developer shall design and construct a pedestrian hybrid beacon on Highland Avenue between Scottsdale Road and Goldwater Boulevard prior to any certificate of occupancy for any new buildings within the area identified as Parcel B on Exhibit A to Exhibit 1. Adequate stopping sight distance for drivers on Goldwater Boulevard/Highland Avenue must be provided with the design. This requirement shall not be in effect if a traffic signal is determined to be warranted and approved prior to the construction of the pedestrian hybrid beacon. If a traffic signal is determined to be warranted by the Transportation Director at this intersection in the future, the pedestrian hybrid beacon shall be replaced by the full traffic signal.
- c) Prior to the certificate of occupancy for any new buildings within the area identified as Parcel B on Exhibit A to Exhibit 1, the property owner shall explore a grade separated pedestrian crossing between the building or parking structure and the existing Optima residential development on the north side of East Highland Avenue.
- d) Prior to the issuance a building permit for a new or expanded building within the area identified as Parcel A on Exhibit A to Exhibit 1, the owner shall dedicate a non-motorized public access easement over the existing sidewalk along North Marshall Way and East Via Soleri Drive that extends outside of the existing public right-of-way. Prior to the issuance a building permit for a new building or building expansion within the area identified as Parcel A, B, C, or D on Exhibit A To Exhibit 1, the owner shall dedicate a non-motorized public access easement over any new sidewalk or any widened sidewalk constructed along the public streets adjacent to the site that extends outside of the public right-of-way.

17. TRANSIT STOP IMPROVEMENTS.

- a) The property owner shall design and construct transit stop improvements on East Camelback Road west of North Goldwater Boulevard, prior to any certificate of occupancy for any new building within the area identified as Parcel A on Exhibit A to Exhibit 1. The transit stop improvements shall consist of a shelter, trash can, bench, and bike rack. The design and location of the transit stop shall be approved by the Transportation Department Director or designee.

- b) The property owner shall design and construct transit stop improvements on North Scottsdale Road south of East Highland Avenue, prior to any certificate of occupancy for any new buildings within the area identified as Parcel B on Exhibit A to Exhibit 1. The transit stop improvements shall consist of a shelter, trash can, bench, and bike rack. The design and location of the transit stop shall be approved by the Transportation Department Director or designee.

18. PEDESTRIAN STREET LIGHTS.

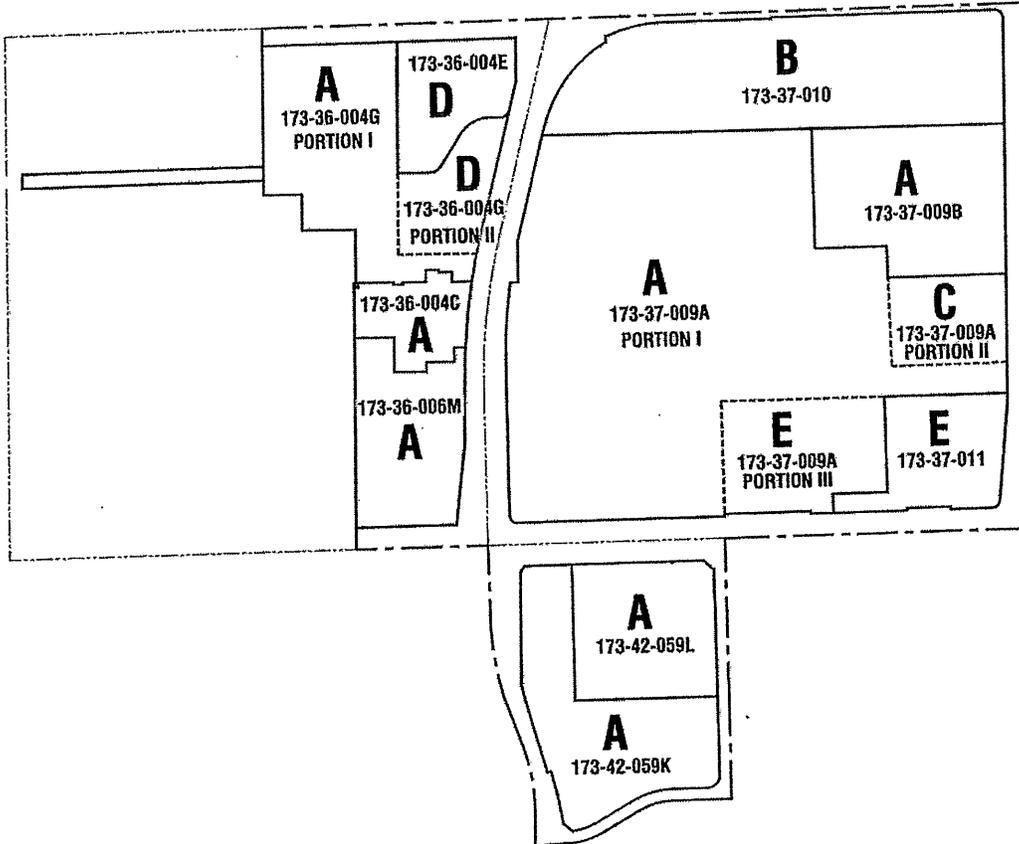

- a) Prior to issuance of Certificate of Occupancy for any new building within the area identified as Parcel B on Exhibit A to Exhibit 1, the property owner shall install pole mounted pedestrian street lights along the East Highland Avenue street frontage, between North Scottsdale Road and North Goldwater Boulevard, as approved by the Development Review Board.
- b) Prior to issuance of Certificate of Occupancy for any new building within the area identified as Parcel E on Exhibit A to Exhibit 1, the property owner shall install pole mounted pedestrian street lights along the East Camelback Road street frontage, between North Scottsdale Road and North Goldwater Boulevard, as approved by the Development Review Board.
- c) Prior to issuance of Certificate of Occupancy for any new building within the area identified as Parcel A on Exhibit A to Exhibit 1, the property owner shall install pole mounted pedestrian street lights along the east and west sides of the North Goldwater Boulevard street frontage, between East Highland Avenue and East Via Soleri Drive, as approved by the Development Review Board.

19. OVERHEAD POWERLINES. Prior to issuance of Certificate of Occupancy for any new building within the area identified as Parcel B on Exhibit A to Exhibit 1, the property owner shall pay for and cause the existing overhead powerlines on the west side of North Scottsdale Road from East Highland Avenue to East Fashion Square Drive to be removed or relocated underground.

20. VEHICLE NON-ACCESS EASEMENT. The property owner shall dedicate a one (1) foot wide vehicular non-access easement along the North Scottsdale Road, East Camelback Road, North Goldwater Boulevard, East Highland Avenue, North Marshall Way, and East Via Soleri Drive site frontages, except at the existing and approved driveway entrances.

21. PARCELS/PLATTING. Prior to permit issuance for any new construction involving parcels 173-37-009B, 173-37-009A, or 173-36-004C as shown on the Property Parcel and Development Area Depiction (Exhibit C page 2 of 2 of Contract No. 2016-097-COS), the owner shall submit an application for approval and recordation of a land assemblage/subdivision to remedy the non-conforming aspects of these parcels. All future land assemblage/subdivisions shall comply with the requirements of the Land Division Ordinance and the Design Standards & Policies Manual.

CITY OF SCOTTSDALE FIRE DEPARTMENT REQUIREMENTS

- CONSTRUCTION WITHIN THE CITY OF SCOTTSDALE SHALL COMPLY WITH THE 2012 INTERNATIONAL FIRE CODE (IFC) AS AMENDED AND ADOPTED BY FIRE CODE SUB-SECTIONS 36-18.1, AND 2012 FIRE CODE INTERPRETATIONS & REGULATIONS.
- THE APPLICANT IS RESPONSIBLE TO IDENTIFY AND COORDINATE DEFERRED SUBMITTALS.
- PLANS AND SPECIFICATIONS FOR FIRE ALARM SYSTEMS, AUTOMATIC FIRE EXTINGUISHING SYSTEMS, AND STANDPIPES SHALL BE SUBMITTED TO THE PERMITTING & PLAN REVIEW DEPARTMENT FOR REVIEW AND APPROVAL PRIOR TO INSTALLATION.
- A KNOX BOX IS REQUIRED TO EVERY FIRE SPRINKLER RISER ROOM. WHEN RAPID ACCESS WOULD BE COMPROMISED BY LONG TRAVEL DISTANCES, KNOX BOXES SHALL BE REQUIRED AT OTHER LOCATIONS AT THE DISCRETION OF THE FIRE OFFICIAL. REFER TO 2012 FIRE CODE INTERPRETATIONS & REGULATIONS 12-506.1 KEY BOXES.

GENERAL FIRE DEPARTMENT ACCESS:

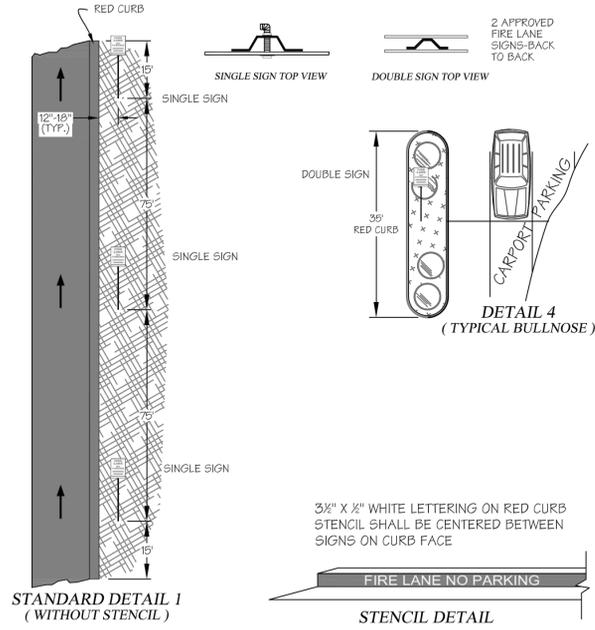

- APPROVED FIRE APPARATUS ACCESS ROADS SHALL BE PROVIDED FOR EVERY FACILITY, BUILDING OR PORTION OF A BUILDING CONSTRUCTED OR MOVED WITHIN CIT OF SCOTTSDALE JURISDICTION.
- THE FIRE APPARATUS ACCESS ROAD SHALL COMPLY WITH THE REQUIREMENTS OF THIS SECTION AND SHALL EXTEND TO WITHIN 150 FEET OF ALL PORTIONS OF THE FACILITY AND ALL PORTIONS OF THE EXTERIOR WALLS OF THE FIRST STORY OF THE BUILDING AS MEASURED BY AN APPROVED ROUTE AROUND THE EXTERIOR OF THE BUILDING OR FACILITY. THE ROUTE IS TO BE MEASURED AROUND THE BUILDING AS THE FIRE HOUSE WOULD BE LAID AND SHALL BE APPROVED BY THE FIRE PLANS EXAMINER.
- APPARATUS ACCESS ROAD SHALL HAVE A MINIMUM UNOBSTRUCTED WIDTH OF 20 FEET (FOC).
- A MINIMUM VERTICAL CLEARANCE OF 13'6" SHALL BE PROVIDED FOR THE APPARATUS ACCESS ROADS.
- DEAD-END FIRE APPARATUS ACCESS ROADS IN EXCESS OF 150 FEET IN LENGTH SHALL BE PROVIDED WITH AN APPROVED MEANS FOR TURNING THE APPARATUS AROUND. FIRE APPARATUS TURNING RADIUS IS 35 FEET INSIDE AND 55 FEET OUTSIDE (FOC).
- FIRE LANES SHALL BE MARKED BY SIGNS PER CITY OF SCOTTSDALE SPECIFICATIONS AND/OR CURB PAINTED RED AND LABELED "FIRE LANE NO PARKING". REFER TO CITY OF SCOTTSDALE REVISED CODE, SECTION 503.3..
- FIRE APPARATUS ACCESS ROADS SHALL BE WITHIN THE LIMITS ESTABLISHED BY THE CODE OFFICIAL BASED ON THE FIRE DEPARTMENT'S APPARATUS. GRADES SHALL NOT EXCEED 15% FOR SPRINKLERED PROPERTIES. PER CITY OF SCOTTSDALE REVISED CODE, SECTION 503.2.7.GRADE ABC 6" 95% COMPACTION 6-10% GRADE CONCRETE ASPHALT, 4" OR MORE GRADES STEEPER THAN 10% SHALL BE APPROVED BY THE FIRE OFFICIAL.

FIRE HYDRANT REQUIREMENTS:

- THE MAXIMUM FIRE HYDRANT SPACING FOR COMMERCIAL PROJECTS IS 700' ON CENTER. PER CITY OF SCOTTSDALE REVISED CODE SECTION 507.5.1.2.
- A FIRE HYDRANT SHALL BE LOCATED WITHIN 150' OF THE FIRE DEPARTMENT CONNECTION (FDC). THE ROUTE IS TO BE MEASURED AS THE FIRE HOSE WOULD BE LAID OUT AND SHALL BE APPROVED BY THE FIRE PLANS EXAMINER.
- A 3-FOOT CLEAR SPACE SHALL BE MAINTAINED AROUND THE CIRCUMFERENCE OF ALL FIRE HYDRANTS.

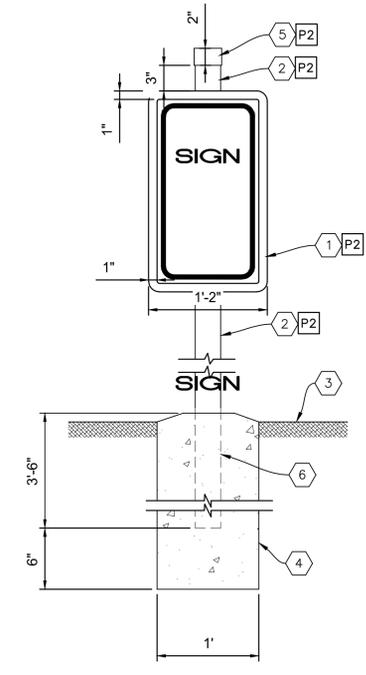

FIRE SAFETY DURING CONSTRUCTION:

- AN ALL-WEATHER ACCESS ROAD DESIGNED TO SUPPORT THE IMPOSED LOAD OF FIRE APPARATUS WEIGHING UP TO 85,000 POUNDS SHALL BE INSTALLED AND MAINTAINED AT ALL TIMES. SITES SHALL HAVE TWO POINTS OF ACCESS OR AS INDICATED AT PLAN REVIEW OR BY THE FIRE INSPECTOR. UNPAVED SURFACES SHALL HAVE A MINIMUM ABC 6" DEPTH COMPACTION TO 95% AND 20' WIDE. NO VEHICLE PARKING OR BUILDING MATERIAL OFF-LOADING ALLOWED ON THE EMERGENCY ACCESS ROAD. FIRE LAND SIGNS ARE REQUIRED TO BE POSTED ALONG THE ROAD.
- SIGNS SHALL BE POSTED AT EACH REQUIRED STREET ENTRANCE INDICATED EMERGENCY VEHICLE ENTRANCE, THE PROJECT NAME, THE PROJECT ADDRESS AND AN EMERGENCY CONTACT NUMBER OF A COMPANY REPRESENTATIVE.
- THE SIGN SHALL BE A MINIMUM OF 48" HIGH X 48" WIDE WITH RED REFLECTIVE BACKGROUND AND 6" WHITE REFLECTIVE LETTERS.
- ALL SITE HYDRANTS SHALL BE INSTALLED AND ACCEPTED BY THE TOWN ENGINEERING DEPARTMENT PRIOR TO COMBUSTIBLE MATERIALS BEING DELIVERED TO THE CONSTRUCTION SITE.
- TEMPORARY DEAD END FIRE APPARATUS ACCESS ROADS IN EXCESS OF 150 FEET IN LENGTH SHALL BE PROVIDED WITH AN APPROVED MEANS FOR TURNING THE APPARATUS AROUND.
- FIRE HYDRANTS PROVIDED DURING CONSTRUCTION SHALL BE LOCATED ALONE THE FIRE APPARATUS ACCESS ROADWAY.
- FIRE HYDRANTS PROVIDED DURING CONSTRUCTION SHALL BE PROTECTED FROM VEHICULAR DAMAGE.

- NOTES:**
- APPROVED FIRE LANE SIGNS SHALL BE INSTALLED 12" TO 18" FROM BACK OF CURB OR BACK OF SIDEWALK.
 - SIGN MUST FACE THE ONCOMING TRAFFIC.
 - STENCILS SHALL BE IN WHITE LETTERING (3" HT. 1/2" STROKE) ON RED PAINTED CURB.
 - STENCIL SHALL READ "FIRE LANE NO PARKING".

CITY OF SCOTTSDALE FIRE DEPARTMENT REQUIREMENTS

- CONSTRUCTION WITHIN THE CITY OF SCOTTSDALE SHALL COMPLY WITH THE 2012 INTERNATIONAL FIRE CODE (IFC) AS AMENDED AND ADOPTED BY FIRE CODE SUB-SECTIONS 36-18.1, AND 2012 FIRE CODE INTERPRETATIONS & REGULATIONS.
- THE APPLICANT IS RESPONSIBLE TO IDENTIFY AND COORDINATE DEFERRED SUBMITTALS.
- PLANS AND SPECIFICATIONS FOR FIRE ALARM SYSTEMS, AUTOMATIC FIRE EXTINGUISHING SYSTEMS, AND STANDPIPES SHALL BE SUBMITTED TO THE PERMITTING & PLAN REVIEW DEPARTMENT FOR REVIEW AND APPROVAL PRIOR TO INSTALLATION.
- A KNOX BOX IS REQUIRED TO EVERY FIRE SPRINKLER RISER ROOM. WHEN RAPID ACCESS WOULD BE COMPROMISED BY LONG TRAVEL DISTANCES, KNOX BOXES SHALL BE REQUIRED AT OTHER LOCATIONS AT THE DISCRETION OF THE FIRE OFFICIAL. REFER TO 2012 FIRE CODE INTERPRETATIONS & REGULATIONS 12-506.1 KEY BOXES.

GENERAL FIRE DEPARTMENT ACCESS:

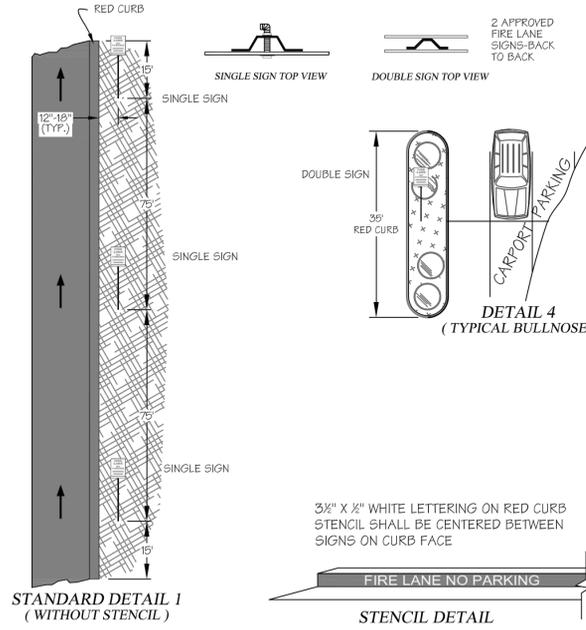

- APPROVED FIRE APPARATUS ACCESS ROADS SHALL BE PROVIDED FOR EVERY FACILITY, BUILDING OR PORTION OF A BUILDING CONSTRUCTED OR MOVED WITHIN CIT OF SCOTTSDALE JURISDICTION.
- THE FIRE APPARATUS ACCESS ROAD SHALL COMPLY WITH THE REQUIREMENTS OF THIS SECTION AND SHALL EXTEND TO WITHIN 150 FEET OF ALL PORTIONS OF THE FACILITY AND ALL PORTIONS OF THE EXTERIOR WALLS OF THE FIRST STORY OF THE BUILDING AS MEASURED BY AN APPROVED ROUTE AROUND THE EXTERIOR OF THE BUILDING OR FACILITY. THE ROUTE IS TO BE MEASURED AROUND THE BUILDING AS THE FIRE HOUSE WOULD BE LAID AND SHALL BE APPROVED BY THE FIRE PLANS EXAMINER.
- APPARATUS ACCESS ROAD SHALL HAVE A MINIMUM UNOBSTRUCTED WIDTH OF 20 FEET (FOC).
- A MINIMUM VERTICAL CLEARANCE OF 13'6" SHALL BE PROVIDED FOR THE APPARATUS ACCESS ROADS.
- DEAD-END FIRE APPARATUS ACCESS ROADS IN EXCESS OF 150 FEET IN LENGTH SHALL BE PROVIDED WITH AN APPROVED MEANS FOR TURNING THE APPARATUS AROUND. FIRE APPARATUS TURNING RADIUS IS 35 FEET INSIDE AND 55 FEET OUTSIDE (FOC).
- FIRE LANES SHALL BE MARKED BY SIGNS PER CITY OF SCOTTSDALE SPECIFICATIONS AND/OR CURB PAINTED RED AND LABELED "FIRE LANE NO PARKING". REFER TO CITY OF SCOTTSDALE REVISED CODE, SECTION 503.3.
- FIRE APPARATUS ACCESS ROADS SHALL BE WITHIN THE LIMITS ESTABLISHED BY THE CODE OFFICIAL BASED ON THE FIRE DEPARTMENT'S APPARATUS. GRADES SHALL NOT EXCEED 15% FOR SPRINKLERED PROPERTIES. PER CITY OF SCOTTSDALE REVISED CODE, SECTION 503.2.7.GRADE ABC 6" 95% COMPACTION 6-10% GRADE CONCRETE ASPHALT, 4" OR MORE GRADES STEEPER THAN 10% SHALL BE APPROVED BY THE FIRE OFFICIAL.

FIRE HYDRANT REQUIREMENTS:

- THE MAXIMUM FIRE HYDRANT SPACING FOR COMMERCIAL PROJECTS IS 700' ON CENTER. PER CITY OF SCOTTSDALE REVISED CODE SECTION 507.5.1.2.
- A FIRE HYDRANT SHALL BE LOCATED WITHIN 150' OF THE FIRE DEPARTMENT CONNECTION (FDC). THE ROUTE IS TO BE MEASURED AS THE FIRE HOSE WOULD BE LAID OUT AND SHALL BE APPROVED BY THE FIRE PLANS EXAMINER.
- A 3-FOOT CLEAR SPACE SHALL BE MAINTAINED AROUND THE CIRCUMFERENCE OF ALL FIRE HYDRANTS.

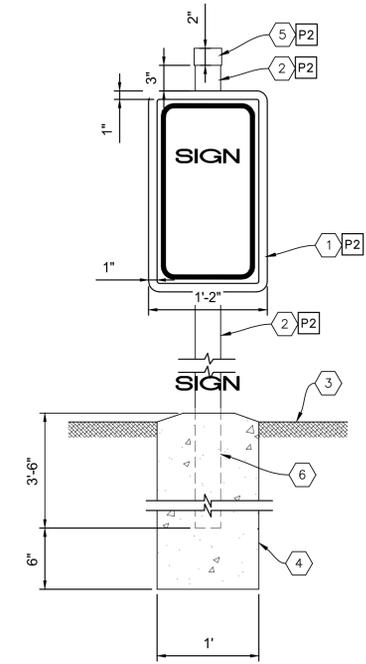

FIRE SAFETY DURING CONSTRUCTION:

- AN ALL-WEATHER ACCESS ROAD DESIGNED TO SUPPORT THE IMPOSED LOAD OF FIRE APPARATUS WEIGHING UP TO 85,000 POUNDS SHALL BE INSTALLED AND MAINTAINED AT ALL TIMES. SITES SHALL HAVE TWO POINTS OF ACCESS OR AS INDICATED AT PLAN REVIEW OR BY THE FIRE INSPECTOR. UNPAVED SURFACES SHALL HAVE A MINIMUM ABC 6" DEPTH COMPACTION TO 95% AND 20' WIDE. NO VEHICLE PARKING OR BUILDING MATERIAL OFF-LOADING ALLOWED ON THE EMERGENCY ACCESS ROAD. FIRE LAND SIGNS ARE REQUIRED TO BE POSTED ALONG THE ROAD.
- SIGNS SHALL BE POSTED AT EACH REQUIRED STREET ENTRANCE INDICATED EMERGENCY VEHICLE ENTRANCE, THE PROJECT NAME, THE PROJECT ADDRESS AND AN EMERGENCY CONTACT NUMBER OF A COMPANY REPRESENTATIVE.
- THE SIGN SHALL BE A MINIMUM OF 48" HIGH X 48" WIDE WITH RED REFLECTIVE BACKGROUND AND 6" WHITE REFLECTIVE LETTERS.
- ALL SITE HYDRANTS SHALL BE INSTALLED AND ACCEPTED BY THE TOWN ENGINEERING DEPARTMENT PRIOR TO COMBUSTIBLE MATERIALS BEING DELIVERED TO THE CONSTRUCTION SITE.
- TEMPORARY DEAD END FIRE APPARATUS ACCESS ROADS IN EXCESS OF 150 FEET IN LENGTH SHALL BE PROVIDED WITH AN APPROVED MEANS FOR TURNING THE APPARATUS AROUND.
- FIRE HYDRANTS PROVIDED DURING CONSTRUCTION SHALL BE LOCATED ALONE THE FIRE APPARATUS ACCESS ROADWAY.
- FIRE HYDRANTS PROVIDED DURING CONSTRUCTION SHALL BE PROTECTED FROM VEHICULAR DAMAGE.

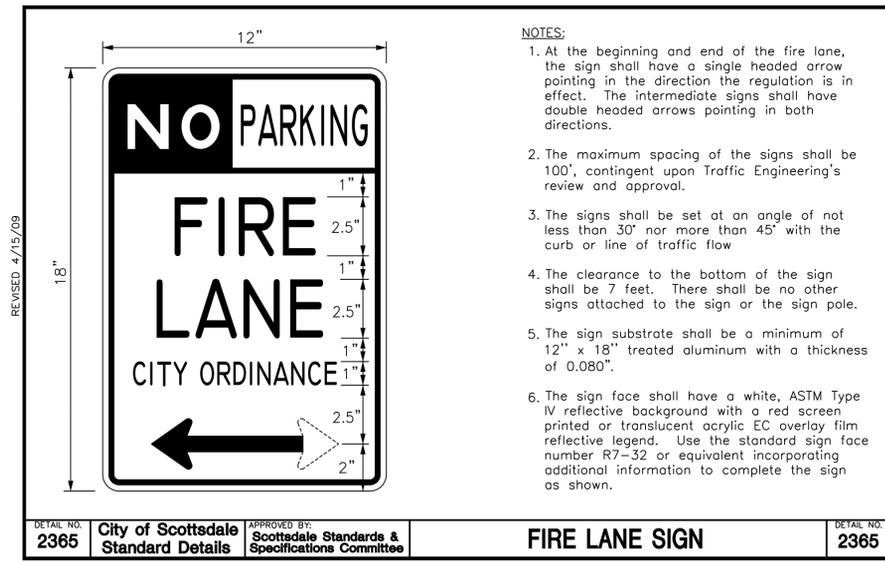

- NOTES:**
- APPROVED FIRE LANE SIGNS SHALL BE INSTALLED 12" TO 18" FROM BACK OF CURB OR BACK OF SIDEWALK.
 - SIGN MUST FACE THE ONCOMING TRAFFIC.
 - STENCILS SHALL BE IN WHITE LETTERING (3" HT. 1/2" STROKE) ON RED PAINTED CURB.
 - STENCIL SHALL READ "FIRE LANE NO PARKING".

Good Morning Cardell,

Here is the requested information about front load and roll off trucks dimensions. Also, I see that you're thinking about a 10yd. front load container. Unfortunately, most haulers don't carry a 10yd. it is always recommend the largest be an 8yd. due to the weight. If you have anymore questions please let me know. We hope to get the opportunity to give you all a proposal for the trash and recycle removal for this great new property.

Best Regards,

Brian Argo

Brian,

Looks like we are using both the 34 CY roll off (attached) for trash, and a 10 YD bin (below image) for recycle. If possible, can you send me the truck information we discussed for both vehicles?

RE: Caesars Republic
Traffic Impact & Mitigation Analysis

INTRODUCTION

Lōkahi, LLC (Lōkahi) has prepared this document as an update to the original Traffic Impact and Mitigation Analysis (TI&MA) for Scottsdale Fashion Square dated May 9, 2017. This document includes the analysis for the proposed Caesars Republic development at the Scottsdale Fashion Square Mall located in Scottsdale, Arizona. The proposed Caesars Republic development is located on the southeast corner of Goldwater Boulevard and Highland Avenue. The objective of this Traffic Impact and Mitigation Analysis is to analyze the traffic related impacts of this proposed development to the adjacent roadway network.

The proposed Caesars Republic will include a 265 room, 11-story hotel, with a 3,200 square foot restaurant. Additional amenities will be provided on site that are anticipated to be primarily utilized by the hotel guests, which include a 200 square foot coffee shop, 6,800 square foot ballroom, 2,000 square foot meeting space, and 5,000 square foot bar/lounge on the 7th floor. See **Attachment A** for the proposed site plan.

The following are the six (6) intersections studied throughout this analysis:

- Goldwater Boulevard and Camelback Road (1)
- Goldwater Boulevard and Scottsdale Fashion (2)
- Goldwater Boulevard and Highland Avenue (3)
- Highland Avenue and Driveway (4)
- Highland Avenue and Scottsdale Fashion/Optima Driveway (5)
- Scottsdale Road and Highland Avenue (6)

TRIP GENERATION

TRIP GENERATION - SCOTTSDALE FASHION SQUARE TI&MA, DATED MAY 9, 2017

In the Scottsdale Fashion Square TI&MA, dated May 9, 2017, the southeast corner of Goldwater Boulevard and Highland Avenue was assumed to be a 400 unit condominium. The trip generation was calculated utilizing the Institute of Transportation Engineers (ITE) publication entitled *Trip Generation, 9th Edition*. The trip generation calculations also included internal trip capture due to the anticipated interaction between the proposed and existing uses. The total trips generated for the 400 unit condominium, including internal trip capture, is shown in **Table 1**.

Table 1 –Trip Generation – Previously Assumed for Parcel South of Highland Avenue

| Land Use | ITE Code | Qty | Unit | Weekday | AM Peak Hour | | | PM Peak Hour | | |
|---------------------------------|----------|-----|----------------|--------------|--------------|-----------|------------|--------------|-----------|-----------|
| | | | | Total | Total | In | Out | Total | In | Out |
| Condominium/Townhouse/Apartment | 230 | 400 | Dwelling Units | 2,149 | 156 | 27 | 129 | 126 | 84 | 41 |
| TOTAL | | | | 2,149 | 156 | 27 | 129 | 126 | 84 | 41 |

TRIP GENERATION - CAESARS REPUBLIC

Since the May 9, 2017 TI&MA, the ITE *Trip Generation, 10th Edition* was released. Therefore, the trip generation for the proposed Caesars Republic development was calculated utilizing this 10th Edition.

The ITE rates and equations are based on studies that measured the trip generation characteristics for various types of land uses. The rates and equations are expressed in terms of trips per unit of land use type. This publication is considered to be the standard for the transportation engineering profession.

The proposed Caesars Republic development includes the following uses:

- 265 room Hotel
- 2,000 square foot Restaurant
- Land Use 310 - Hotel
- Land Use 931 - Quality Restaurant

As previously mentioned, additional amenities will be provided on site that are anticipated to be primarily utilized by the hotel guests. These uses include a 200 square foot coffee shop, a 6,800 square foot ballroom, 2,000 square foot meeting space, and a 5,000 square foot bar/lounge on the 7th floor.

The total trip generation, including internal trip capture, for the proposed Caesars Republic development is shown in **Table 2** below. Detailed trip generation calculations are provided in **Attachment B**.

Table 2 –Trip Generation – Proposed Caesars Republic

| Land Use | ITE Code | Qty | Unit | Weekday | AM Peak Hour | | | PM Peak Hour | | |
|--------------------|----------|-----|-------------|--------------|--------------|-----------|-----------|--------------|-----------|-----------|
| | | | | Total | Total | In | Out | Total | In | Out |
| Hotel | 310 | 265 | Rooms | 2,565 | 127 | 75 | 52 | 97 | 50 | 48 |
| Quality Restaurant | 931 | 3.2 | 1000 SF GLA | 268 | 0 | 0 | 0 | 13 | 9 | 4 |
| TOTAL | | | | 2,833 | 127 | 75 | 52 | 110 | 59 | 52 |

TRIP GENERATION COMPARISON

A comparison between the trips generated by the 400 unit condominium, per the May 9, 2017 SFS TI&MA, versus the proposed Caesars Republic development is shown in **Table 3**.

Table 3 – Trip Generation Comparison (SFS TI&MA 5/9/2017 vs. Caesars Republic)

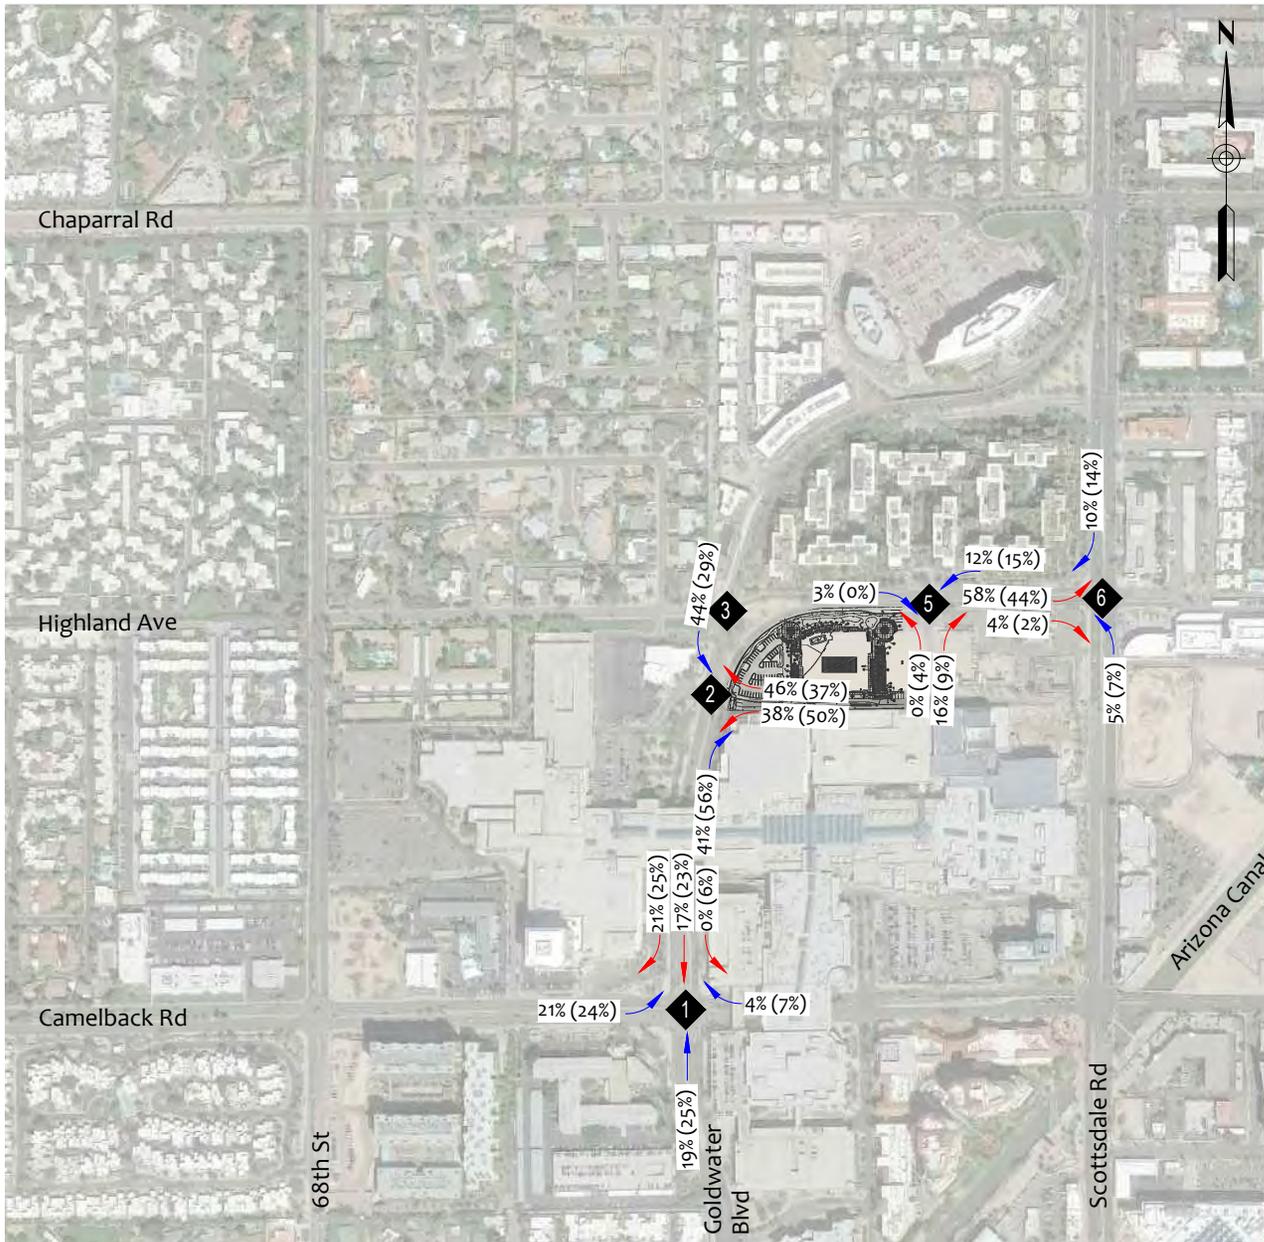

| | Weekday | AM Peak Hour | | | PM Peak Hour | | |
|-----------------------------|------------|--------------|-----------|------------|--------------|------------|-----------|
| | Total | Total | In | Out | Total | In | Out |
| SFS TI&MA Dated May 9, 2017 | 2,149 | 156 | 27 | 129 | 126 | 84 | 41 |
| Caesars Republic | 2,833 | 127 | 75 | 52 | 110 | 59 | 52 |
| Difference | 684 | -29 | 48 | -77 | -15 | -26 | 11 |

Although the prior and proposed land uses are different, the weekday daily, and AM and PM peak hour trip generation are relatively similar.

TRIP DISTRIBUTION AND TRIP ASSIGNMENT

The trip distribution procedure determines the general pattern of travel for vehicles entering and leaving the proposed development. The trip distribution for the proposed Caesars Republic development was based on the existing traffic. See **Figure 1** for the proposed trip distribution. See **Figure 2** for proposed site traffic volumes for Caesars Republic. To keep consistent with the May 9, 2017 SFS TI&MA, the site volumes were also included for the buildout of the parcels to the west to Goldwater Boulevard, a 200 room hotel and a 240,000 square foot office. See **Figure 3** for the site traffic volumes for these additional developments.

EXISTING CONDITIONS

EXISTING TRAFFIC VOLUMES

The existing traffic volumes collected on Tuesday, October 6, 2015, and Wednesday, February 15, 2017 as part of the May 9, 2017 SFS TI&MA is shown in **Figure 4**.

EXISTING CAPACITY ANALYSIS

As reported in the May 9, 2017 SFS TI&MA, the existing capacity analysis was completed using the methodology presented in the 2010 *Highway Capacity Manual*. The analysis was completed using the traffic software, Synchro Version 9.0. The signal timing was provided by the City of Scottsdale. See **Attachment C** for the existing signal timing as provided in the May 9, 2017 SFS TI&MA.

The existing capacity analysis as reported in the May 9, 2017 SFS TI&MA is shown in **Figure 5**. The detailed capacity analysis sheets as provided in the May 9, 2017 SFS TI&MA can be found in **Attachment D**.

YEAR 2020 CONDITIONS

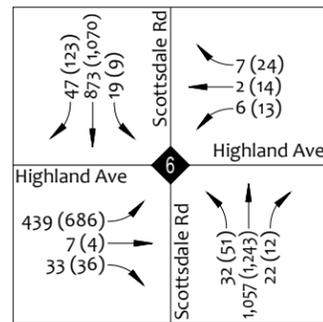

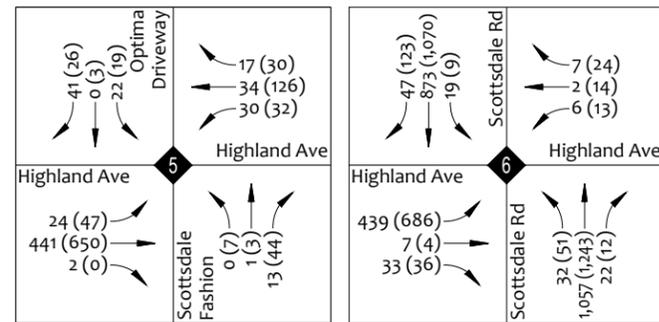

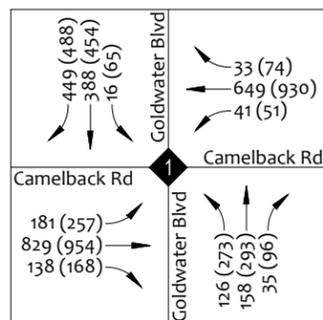

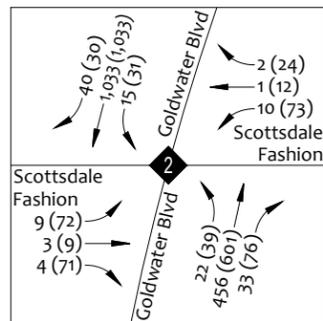

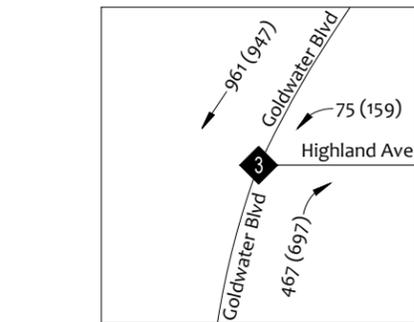

YEAR 2020 BACKGROUND TRAFFIC VOLUMES

The proposed Caesars Republic development is scheduled to be completed by the end of 2020, which corresponds to the 5 year analysis included in the May 9, 2017 SFS TI&MA. Therefore, shown in **Figure 6** are the 5 year background traffic volumes as shown in the May 9, 2017 SFS TI&MA, which corresponds to the year 2020 background traffic volumes for the proposed Caesars Republic.

YEAR 2020 NO BUILD CAPACITY ANALYSIS

The results of the 5 year background capacity analysis as shown in the May 9, 2017 SFS TI&MA, which corresponds to the year 2020 no build capacity analysis is shown in **Figure 7**. The detailed capacity analysis sheets as provided in the May 9, 2017 SFS TI&MA can be found in **Attachment E**.

YEAR 2020 BUILD TRAFFIC VOLUMES

The year 2020 build traffic volumes include the proposed Caesars Republic site traffic volumes, shown in **Figure 2** and the additional development site traffic volumes shown in **Figure 3** are added to the year 2020 background traffic volumes shown in **Figure 6**. See **Figure 8** for the year 2020 build traffic volumes.

YEAR 2020 BUILD CAPACITY ANALYSIS

The year 2020 build capacity analysis was completed using the methodology presented in the *2010 Highway Capacity Manual*. The analysis was completed using the traffic software, Synchro Version 10.3. The signal timing splits were optimized to match future traffic volumes. The recently revised City of Scottsdale Design Standards and Policies Manual recommends using a PHF of 0.92, but in order to stay consistent with the previously completed report a PHF of 0.9 was assumed.

The following improvements and mitigation measures were included in the year 2020 build analysis:

Goldwater Boulevard and Camelback Road (1) – Signalized

An overlap phase was included for the southbound right turn movement.

Goldwater Boulevard and Fashion Square (2) – Signalized

The lane configuration for the eastbound approach at the intersection of Goldwater Boulevard and Fashion Square was modified to provide a dedicated left turn lane and a shared through-right turn lane. There is more than adequate width to provide the separation of these movements with signing and pavement marking modifications. Additionally, the signal cycle length was reduced to 60 seconds.

Scottsdale Road and Highland Avenue (6) – Signalized

Although the stipulation requires the build out of a third eastbound left turn lane, alternative geometrics and lane configurations were considered to determine whether an interim condition could provide adequate levels of service. For this intersection, modifying the eastbound approach to provide two dedicated left turn lanes, a shared left-through lane and a dedicated right turn lane.

The results of the year 2020 build capacity analysis are shown in **Figure 9**. The detailed capacity analysis sheets can be found in **Attachment F**.

With the build out of the proposed Caesars Republic, all movements operate at a LOS D or better, or are maintained at the year 2020 no build level of service, with the exception of the following locations:

Highland Avenue and Scottsdale Fashion/Optima Driveway (5) – Stop Controlled

- NB left turn movement during the PM peak hour operates at LOS E. It is not uncommon for stop controlled driveways to experience greater delays during peak hours. Often drivers will opt to turn right or find alternative routes and accesses to avoid the left turn movements at stop controlled intersections during peak hours.

Scottsdale Road and Highland Avenue (6) – Signalized

- WB shared through-right turn movement during the AM peak hour operates at LOS E (2 through and 7 right turning vehicles)

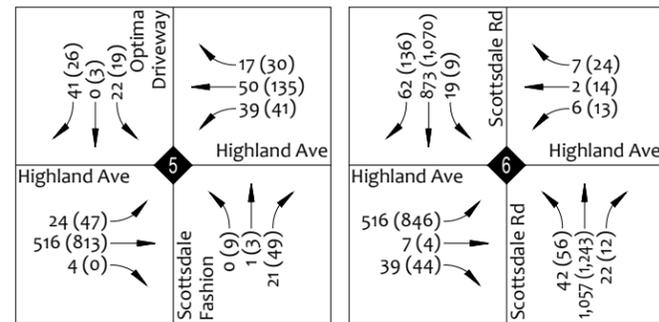

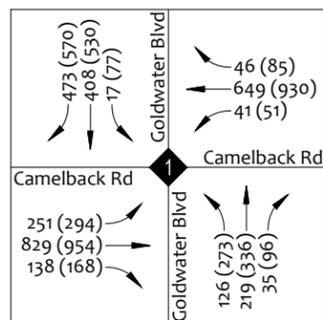

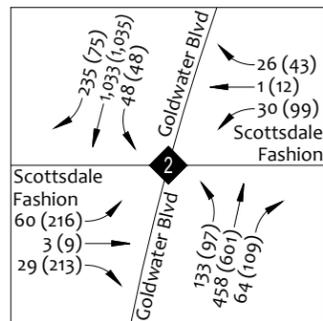

With a 120 second cycle length, the delay experienced by these movements can be partially due to the cycle length. For a LOS E, the delay is between 55 and 80 seconds per vehicle. Should vehicles arrive just missing the green time for that movement, drivers would wait the remainder of the cycle before receiving the green light.

With the anticipated traffic volumes for these movements, a maximum of 7 vehicles reported in the peak hour, it is anticipated that all vehicles will clear the intersection during a single cycle

- EB shared left-through movement during the AM peak hour operates at LOS E (7 through vehicles)

The delay for this movement is also similar to the WB shared through-right turn detailed above.

STIPULATIONS

As part of the Scottsdale Fashion Square Mall Zoning Application Case Number 25-ZN-2015 & 1-II-2016, stipulations were established including transportation related stipulations. See **Attachment G** for City of Scottsdale Ordinance No. 4299.

The proposed Caesars Republic development is located within “Parcel B” shown on Exhibit A to Exhibit 1 in the recorded stipulations. The following are the transportation stipulations related to the proposed Caesars Republic development:

- 12. TRAFFIC IMPACT STUDY. As determined by the Transportation Director, or designee, with a Development Review Board application for a new or expanded building, the property owner shall submit an updated traffic impact study to address the new development. The owner shall obtain approval of the study from the Transportation Director, or designee, prior to the Development Review Board hearing for the related new building, or building expansion. The owner shall be responsible for any infrastructure improvements identified by the updated traffic impact study(ies) that are the result of the traffic generated by new or expanded buildings on the site.

This report fulfills this stipulation for the proposed Caesars Republic development.

- 13.a.1. The property owner shall construct a continuous minimum eight (8) foot wide sidewalk, separated from the back of curb where feasible, as determined by Transportation Director, or designee, on the east side of North Goldwater Boulevard, from the intersection of East Via Soleri Drive and North Goldwater Boulevard to the intersection of East Highland Avenue and North Goldwater Boulevard, prior to obtaining a Certificate-of-Occupancy for any new building within the area identified as Parcel A or B on Exhibit A to Exhibit 1.

This sidewalk requirement appears to be triggered with the proposed Caesars Republic development.

- 13.a.3. The property owner shall construct a continuous minimum eight (8) foot wide sidewalk, separated from the back of curb on the south side of East Highland Avenue, from the intersection of East Highland Avenue and North Goldwater Boulevard to the intersection of East Highland Avenue and North Scottsdale Road, prior to obtaining a Certificate-of-Occupancy for any new site building in that area identified as Parcel B on Exhibit A to Exhibit 1.

This sidewalk requirement appears to be triggered with the proposed Caesars Republic development.

- 13.a.4. The property owner shall construct a continuous minimum eight (8) foot wide sidewalk, separated from the back of curb on the west side of North Scottsdale Road, from the intersection of East Highland Avenue and North Scottsdale Road to the intersection of East Fashion Square Drive and North Scottsdale Road, prior to obtaining a Certificate-of-Occupancy for any new site building in that area identified as Parcel A or B on Exhibit A to Exhibit 1.

This sidewalk requirement appears to be triggered with the proposed Caesars Republic development.

- 13.a.8. Prior to the issuance of a building permit for a new or expanded building, the property owner shall submit plans and obtain approval to concurrently construct all street and pedestrian improvements supported by the updated traffic impact study that corresponds with the new or expanded building, and approved by the Transportation Director, or designee.

This report provides street improvement recommendations.

- 13.a.9. Prior to the issuance of a building permit for a new or expanded building, the property owner shall submit plans and obtain approval to concurrently modify any existing traffic signals and equipment supported by the updated traffic impact study approved by the Transportation Director, or designee that to address the new development associated with the requested building permit.

This report provides traffic signal improvement recommendations.

- 14.a. The property owner shall design and construct a third eastbound lane on Highland Avenue, beginning just east of Goldwater Boulevard and terminating as a third eastbound left-turn lane at Scottsdale Road, prior to any certification of occupancy for a combined total building area exceeding 75,000 square feet in new or expanded building south of East Highland Avenue between North Scottsdale Road and North Goldwater Boulevard within the area identifies as Parcel B on Exhibit A to Exhibit 1.

The proposed Caesars Republic development will be 246,913 square feet in new building and therefore appears to trigger the third eastbound lane on Highland Avenue.

However, based on the year 2020 build analysis with the build out of the proposed Caesars Republic, acceptable levels of service can be provided with modifying the west

leg to accommodate dual left turn lanes, a shared left-through lane, and a dedicated right turn lane. This will improvement will require pavement marking, signing, and traffic signal modifications.

- 14.b. The property owner shall design and construct intersection modifications to provide separate eastbound left-turn lane and shared through-right-turn lane at the East Scottsdale Fashion Square and North Goldwater Boulevard intersection, prior to any certificate of occupancy for any new building south of East Highland Avenue between North Scottsdale Road and North Goldwater Boulevard, within the area identified as Parcel B on Exhibit A to Exhibit 1.

This lane configuration appears to be triggered with the proposed Caesars Republic development and is shown as part of the year 2020 build analysis. There is more than adequate width to provide the separation of these movements with signing and pavement marking modifications.

- 14.c. The property owner shall contract with a traffic engineering consultant to conduct a study of the East Highland Avenue and North Goldwater Boulevard intersection prior to any certificate of occupancy for any new or expanded building within the area identified as Parcel B on Exhibit A to Exhibit 1. The study shall recommend intersection improvements to improve the safety and convenience for the westbound left-turn movement, improve intersection sight distance, and reduce speeding on North Goldwater Boulevard. The study shall not include any options that consider a connection to the existing East Highland Avenue west of North Goldwater Boulevard. The property owner shall not be obligated for any costs and/or improvement associated with the study that exceed \$50,000, and the final study shall be submitted to the City of Scottsdale for review and approval.

A traffic study of the East Highland Avenue and North Goldwater Boulevard intersection appears to be triggered with the proposed Caesars Republic development.

- 14.d. If directed by the Transportation Director based upon future traffic analysis, the property owner shall design and construct an additional left-turn lane on East Camelback Road at the North Goldwater Boulevard signalized intersection. The timing of the improvements shall be based upon the need as determined by the traffic analysis tied to proposed new building or building expansion on the site. The property owner shall be responsible for all necessary street reconstruction, pavement marking modifications, and signal equipment modification to accomplish the addition of the eastbound left-turn lane.

The construction of an additional dedicated left turn lane does not appear to be necessary at this time. Based on the year 2020 build analysis with the build out of the proposed Caesars Republic, acceptable levels of service can be provided with modifying the west leg to accommodate dual left turn lanes, a shared left-through lane, and a dedicated right turn lane. This will improvement will require pavement marking, signing, and traffic signal modifications.

- 15.e. There shall be an east/west driveway maintained through the site from North Goldwater Boulevard to North Scottsdale Road in or near the area identified as Parcel B on Exhibit A to Exhibit 1. The alignment of such driveway shall be determined at the time of the applicable Development Review Board application.

The proposed Caesars Republic development maintains the existing east/west driveway.

- 16.b. The developer shall design and construct a pedestrian hybrid beacon on Highland Avenue between Scottsdale Road and Goldwater Boulevard prior to any certificate of occupancy for any new buildings within the area identified as Parcel B on Exhibit A to Exhibit 1. Adequate stopping sight distance for drivers on Goldwater Boulevard/Highland Avenue must be provided with the design. This requirement shall not be in effect if a traffic signal is determined to be warranted and approved prior to the construction of the pedestrian hybrid beacon. If a traffic signal is determined to be warranted by the Transportation Director at this intersection in the future, the pedestrian hybrid beacon shall be replaced by the full traffic signal.

This pedestrian hybrid beacon installation appears to be triggered with the proposed Caesars Republic development.

- 16.c. Prior to the certificate of occupancy for any new buildings within the area identified as Parcel B on Exhibit A to Exhibit 1, the property owner shall explore a grade separated pedestrian crossing between the building or parking structure and the existing Optima residential development on the north side of East Highland Avenue.

The exploration of a grade separated pedestrian crossing appears to be triggered with the proposed Caesars Republic development.

- 17.b. The property owner shall design and construct transit stop improvements on North Scottsdale Road south of East Highland Avenue, prior to any certificate of occupancy for any new buildings within the area identified as Parcel B on Exhibit A to Exhibit 1. The transit stop improvements shall consist of a shelter, trash can, bench, and bike rack. The

design and location of the transit stop shall be approved by the Transportation Department Director or designee.

Transit stop improvements on North Scottsdale Road south of East Highland Avenue appears to be triggered with the proposed Caesars Republic development.

- 18.a. Prior to issuance of Certificate of Occupancy for any new building within the area identified as Parcel B on Exhibit A to Exhibit 1, the property owner shall install pole mounted pedestrian street lights along the East Highland Avenue street frontage, between North Scottsdale Road and North Goldwater Boulevard, as approved by the Development Review Board.

Pedestrian lighting installation along East Highland Avenue appears to be triggered with the proposed Caesars Republic development.

SUMMARY

This report is an update to the originally recorded Traffic Impact and Mitigation Analysis for Scottsdale Fashion Square, dated May 9, 2017, which assumed a 400 unit condominium development on the southeast corner of Goldwater Boulevard and Highland Avenue. This report replaces the residential development with the proposed Caesars Republic development, which is a 265 room, 11 story hotel, with a 3,200 square foot restaurant. Additional amenities will be provided on site that are anticipated to be primarily utilized by the hotel guests, which include a 200 square foot coffee shop, 6,800 square foot ballroom, 2,000 square foot meeting space, and 5,000 square foot bar/lounge on the 7th floor.

| | Weekday | AM Peak Hour | | | PM Peak Hour | | |
|-----------------------------|------------|--------------|-----------|------------|--------------|------------|-----------|
| | Total | Total | In | Out | Total | In | Out |
| SFS TI&MA Dated May 9, 2017 | 2,149 | 156 | 27 | 129 | 126 | 84 | 41 |
| Caesars Republic | 2,833 | 127 | 75 | 52 | 110 | 59 | 52 |
| Difference | 684 | -29 | 48 | -77 | -15 | -26 | 11 |

Although the prior and proposed land uses are different, the weekday daily, and AM and PM peak hour trip generation is relatively similar.

The following improvements and mitigation measures were included in the year 2020 build analysis:

Goldwater Boulevard and Camelback Road (1) – Signalized

An overlap phase was included for the southbound right turn movement.

Goldwater Boulevard and Fashion Square (2) – Signalized

The lane configuration for the eastbound approach at the intersection of Goldwater Boulevard and Fashion Square was modified to provide a dedicated left turn lane and a shared through-right turn lane. There is more than adequate width to provide the separation of these movements with signing and pavement marking modifications. Additionally, the signal cycle length was reduced to 60 seconds.

Scottsdale Road and Highland Avenue (6) – Signalized

Although the stipulation requires the build out of a third eastbound left turn lane, alternative geometrics and lane configurations were considered to determine whether an interim condition could provide adequate levels of service. For this intersection, modifying the eastbound approach to provide two dedicated left turn lanes, a shared left-through lane and a dedicated right turn lane.

These improvements are recommended with the build out of the proposed Caesars Republic development.

As part of the Scottsdale Fashion Square Mall Zoning Application Case Number 25-ZN-2015 & 1-II-2016, stipulations were established including transportation related stipulations. A number of these stipulations appear to be triggered with the proposed Caesars Republic developments, including but not limited to, sidewalk improvements, street improvements, pedestrian improvements, required traffic studies, installation of a pedestrian hybrid beacon, transit stop improvements, and pedestrian lighting installation.

ATTACHMENT D – 5/9/17 SFS TI&MA EXISTING CAPACITY ANALYSIS

The Synchro outputs under Attachment D are taken directly from the Scottsdale Fashion Square Traffic Impact & Mitigation Analysis, dated May 9, 2017. For organizational purposes, the intersections for the Scottsdale Fashion Square – Caesars Republic Traffic Impact & Mitigation Analysis have been changed to:

| Intersection | May 9, 2017 TI&MA Intersection Number | Caesars Republic TI&MA Intersection Number |
|--|---------------------------------------|--|
| Goldwater Boulevard and Camelback Road | 8 | 1 |
| Goldwater Boulevard and Fashion Square | 3 | 2 |
| Goldwater Boulevard and Highland Avenue | 4 | 3 |
| Highland Avenue and Site Driveway | N/A | 4 |
| Highland Avenue and Fashion Square/Optima Driveway | 5 | 5 |
| Scottsdale Road and Highland Avenue | 6 | 6 |

Intersection Summary

95th percentile volume exceeds capacity, queue may be longer.

Queue shown is maximum after two cycles.

m Volume for 95th percentile queue is metered by upstream signal.

Intersection Summary

- ~ Volume exceeds capacity, queue is theoretically infinite.
Queue shown is maximum after two cycles.
- # 95th percentile volume exceeds capacity, queue may be longer.
Queue shown is maximum after two cycles.
- m Volume for 95th percentile queue is metered by upstream signal.

Intersection Summary

95th percentile volume exceeds capacity, queue may be longer.

Queue shown is maximum after two cycles.

m Volume for 95th percentile queue is metered by upstream signal.

Intersection Summary

- ~ Volume exceeds capacity, queue is theoretically infinite.
Queue shown is maximum after two cycles.
- # 95th percentile volume exceeds capacity, queue may be longer.
Queue shown is maximum after two cycles.
- m Volume for 95th percentile queue is metered by upstream signal.

ATTACHMENT G – SCOTTSDALE STIPULATIONS ORDINANCE 4299

ORDINANCE NO. 4299

AN ORDINANCE OF THE COUNCIL OF THE CITY OF SCOTTSDALE, MARICOPA COUNTY, ARIZONA, AMENDING ORDINANCE NO. 455, THE ZONING ORDINANCE OF THE CITY OF SCOTTSDALE, BY AND FOR THE PURPOSE OF CHANGING THE ZONING ON THE "DISTRICT MAP" TO ZONING APPROVED IN CASE NO 25-ZN-2015 AND CASE NO 1-II-2016 FROM DOWNTOWN/REGIONAL COMMERCIAL OFFICE - TYPE 2, PLANNED BLOCK DEVELOPMENT, DOWNTOWN OVERLAY (D/RCO-2 PBD DO) TO DOWNTOWN/DOWNTOWN REGIONAL USE - TYPE 2, PLANNED BLOCK DEVELOPMENT, DOWNTOWN OVERLAY (D/DRU-2 PBD DO), AND APPROVING A DEVELOPMENT PLAN ON A +/- 56-ACRE SITE, AND APPROVING AN APPLICATION FOR A DOWNTOWN INFILL INCENTIVE DISTRICT PURSUANT TO THE DOWNTOWN INFILL INCENTIVE PLAN, LOCATED ON +/- 1.8 ACRES OF THE TOTAL +/- 56-ACRE SITE ON THE NORTHWEST CORNER OF CAMELBACK ROAD AND SCOTTSDALE ROAD (6900, 7000, 7003, 7014, 7032, 7102, 7150, 7055 E. CAMELBACK ROAD, 4649 N. GOLDWATER BLVD., 7000 E. VIA SOLERI DRIVE, 4710, 4500, 4510, 4610, 4626, 4700, 4720 N. SCOTTSDALE ROAD, AND 7001 E HIGHLAND AVENUE).

WHEREAS, the Planning Commission held a hearing on June, 28, 2017;

WHEREAS, the City Council held a hearing on August, 29, 2017;

WHEREAS, the City Council finds that the proposed development is in substantial harmony with the General Plan of the City of Scottsdale and will be coordinated with existing and planned development;

WHEREAS, the City Council finds that the proposed development is located in the Downtown Infill Incentive District and consistent with the Downtown Infill Incentive Plan; and

WHEREAS, it is now necessary that the comprehensive zoning map of the City of Scottsdale ("District Map") be amended to conform with the decision of the Scottsdale City Council in Case No. 25-ZN-2015 and 1-II-2016.

NOW, THEREFORE, BE IT ORDAINED by the Council of the City of Scottsdale, as follows:

Section 1. That the "District Map" adopted as a part of the Zoning Ordinance of the City of Scottsdale, showing the zoning district boundaries, is amended by rezoning a +/- 56-acre site located on the northwest corner of Camelback Road and Scottsdale Road (6900, 7000, 7003, 7014, 7032, 7102, 7150, 7055 E. Camelback Road, 4649 N. Goldwater Blvd., 7000 E. Via Soleri Drive, 4710, 4500, 4510, 4610, 4626, 4700, 4720 N. Scottsdale Road, and 7001 E Highland Avenue) and marked as "Site" (the Property) on the map attached as Exhibit 2 page 1 of 2, incorporated herein by reference, from Downtown/Regional Commercial Office - Type 2, Planned Block Development, Downtown Overlay (D/RCO-2 PBD DO) to Downtown/Downtown Regional Use - Type 2, Planned Block Development, Downtown Overlay (D/DRU-2 PBD DO) zoning, and approving a Downtown Infill Incentive District application over +/- 1.8 acres of the +/- 56 acre site with Downtown/Downtown Regional Use - Type 2, Planned Block Development, Downtown Overlay (D/DRU-2 PBD DO) zoning by approving a Development Plan and amendments to Property Development Standards of the

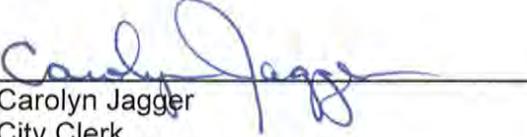

Zoning Ordinance regarding the inclined stepback plane adjacent to the Downtown Boundary, specifically at the northeast corner of the Development Plan area (4710, 4626, 4500, 4700 and 4720 N. Scottsdale Road) and marked as "Site" on the map attached as Exhibit 2, page 2 of 2, and by adopting that certain document entitled "Development Plan Scottsdale Fashion Square" declared as a public record by Resolution No. 10717 which is incorporated into this ordinance by reference as if fully set forth herein.

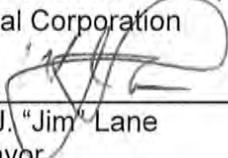

Section 2. That the above rezoning approval is conditioned upon compliance with all stipulations attached hereto as Exhibit 1 and incorporated herein by reference.

PASSED AND ADOPTED by the Council of the City of Scottsdale this 29 of August, 2017.

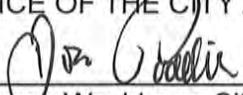

ATTEST:

CITY OF SCOTTSDALE, an Arizona
Municipal Corporation

By: 
Carolyn Jagger
City Clerk

By: 
W.J. "Jim" Lane
Mayor

APPROVED AS TO FORM:
OFFICE OF THE CITY ATTORNEY

By: 
Bruce Washburn, City Attorney
By: Joe Padilla, Deputy City Attorney

**Stipulations for the Zoning Application:
Scottsdale Fashion Square Mall
Case Number: 25-ZN-2015 & 1-II-2016**

These stipulations are in order to protect the public health, safety, welfare, and the City of Scottsdale.

GOVERNANCE

1. **APPLICABILITY.** All stipulations of cases 25-ZN-2015 and 1-II-2016 shall supersede all of the stipulations of prior zoning approvals, with the exception of existing Conditional Use Permit cases 4-UP-2000 and 6-UP-2012. These stipulations shall not apply to the Dillard's parcel, which is not included as part of the subject Development Plan.

SITE DESIGN

2. **CONFORMANCE TO DEVELOPMENT PLAN.** Development shall conform with the Development Plan, entitled "Development Plan Scottsdale Fashion Square," which is on file with the City Clerk and made a public record by Resolution No. 10717 and incorporated into these stipulations and ordinance by reference as if fully set forth herein. Any proposed significant change to the Development Plan, as determined by the Zoning Administrator, shall be subject to additional public hearings and action before the Planning Commission and City Council. Where there is a conflict between the Development Plan and these stipulations, these stipulations shall prevail.
3. **CONFORMANCE TO AMENDED DEVELOPMENT STANDARDS.** Development shall conform with the amended development standards that are included as part of the Development Plan. Any change to the Property Development Standards shall be subject to additional public zoning hearings before the Planning Commission and City Council.
4. **CONFORMANCE TO DEVELOPMENT AGREEMENT.** The property owner of the property identified in the Development Plan shall enter into a development agreement, Contract No. 2017-097-COS, including any subsequent amendments approved by the City Council, which sets forth the manner in which the building height bonus shall be achieved, and specifies the development standard allocations among the parcels within the boundary of the Development Plan.
5. **BUILDING HEIGHT LOCATIONS.** Locations of building height shall be in conformance with the approved Development Plan. No building on the site shall exceed 150 feet in height (inclusive of the bonus building height, mechanical equipment and other appurtenances), measured as provided in the applicable section of the Zoning Ordinance.
6. **CULTURAL IMPROVEMENTS PROGRAM.** Prior to permit issuance for any new or expanded building, the property owner shall provide artwork, or pay an in-lieu fee, equal to at least one percent of the building valuation of the added floor area. This requirement shall be exclusive of the in-lieu payment outlined in Contract No. 2017-097-COS, regarding PBD bonus provisions.

7. **OUTDOOR LIGHTING.** The maximum height of any outdoor lighting source, except any light sources for signs, patios and/or balconies or accent lighting approved by the Development Review Board or staff in accordance with the provisions of Zoning Ordinance Section 1.900, shall be 20 feet above the adjacent finished grade.
8. **OUTDOOR LIGHTING FOR PATIOS AND BALCONIES.** Light sources that are utilized to illuminate patios and/or balconies that are above 20 feet shall be subject to the approval of the Development Review Board or staff in accordance with the provisions of Zoning Ordinance Section 1.900.
9. **SIGNAGE.** Within the area of the site identified as Parcel B on Exhibit A to Exhibit 1, there shall be no new internally illuminated signage facing toward Highland Avenue.
10. **AMPLIFIED MUSIC.** Within the area of the site identified as Parcel B on Exhibit A to Exhibit 1, there shall be no exterior amplified music after 10:00pm, and 11:00pm on weekends and holidays, at levels greater than 68 decibels as measured from the right-of-way line on the north side of Highland Avenue.
11. **OPEN SPACE.** Open space shall conform with the following requirements:
 - a. Within the area of the site identified as Parcel B on Exhibit A to Exhibit 1, an open space area or areas shall be provided which align with the main entry/open space plaza on the north side Highland Avenue at Optima Camelview, subject to Development Review Board approval.
 - b. Open space areas within the area of the site identified as Parcel B on Exhibit A to Exhibit 1, shall be planted with mature shade trees and/or palm trees in conformance with the Downtown Urban Design & Architectural Design Guidelines, subject to Development Review Board approval.
 - c. Building setback areas along Highland Avenue shall be planted with mature shade trees and/or palm trees, and/or other shading devices, in conformance with the Downtown Urban Design & Architectural Design Guidelines, subject to Development Review Board approval.

INFRASTRUCTURE AND DEDICATIONS

12. **TRAFFIC IMPACT STUDY.** As determined by the Transportation Director, or designee, with a Development Review Board application for a new or expanded building, the property owner shall submit an updated traffic impact study to address the new development. The owner shall obtain approval of the study from the Transportation Director, or designee, prior to the Development Review Board hearing for the related new building, or building expansion. The owner shall be responsible for any infrastructure improvements identified by the updated traffic impact study(ies) that are the result of the traffic generated by new or expanded buildings on the site.
13. **CIRCULATION IMPROVEMENTS.** The owner shall make the required dedications and provide the following improvements in conformance with the Design Standards and Policies Manual and all other applicable city codes and policies.
 - a. **STREETS.** Dedicate the following right-of-way and construct the following street improvements:

| Street Name | Street Type | Dedications | Improvements | Notes and |
|-------------|-------------|-------------|--------------|-----------|
|-------------|-------------|-------------|--------------|-----------|

| | | | | Requirements |
|---------------------|-------------------------|--|---|--|
| Goldwater Boulevard | Couplet Street | Right-of-way for right-turn deceleration lanes | Construct sidewalk and turn lane improvements | a.1, a.2., a.6., a.7., a.8., a.9., a.10, a.11. |
| Highland Avenue | Local Commercial Street | Right-of-way for right-turn deceleration lanes | Construct sidewalk and turn lane improvements | a.3. , a.6., a.7., a.8., a.9., a.10, a.11. |
| Scottsdale Road | Major Collector | Right-of-way for right-turn deceleration lanes | Construct sidewalk and turn lane improvements | a.4., a.6., a.7., a.8., a.9., a.10, a.11 . |
| Camelback Road | Minor Arterial | Right-of-way for right-turn deceleration lanes | Construct sidewalk and turn lane improvements | a.5, a.6., a.7., a.8., a.9., a.10, a.11 . |

- a.1. The property owner shall construct a continuous minimum eight (8) foot wide sidewalk, separated from the back of curb where feasible, as determined by Transportation Director, or designee, on the east side of North Goldwater Boulevard, from the intersection of East Via Soleri Drive and North Goldwater Boulevard to the intersection of East Highland Avenue and North Goldwater Boulevard, prior to obtaining a Certificate-of-Occupancy for any new building within the area identified as Parcel A or B on Exhibit A to Exhibit 1.
- a.2. The property owner shall construct a continuous eight (8) foot wide sidewalk where feasible and the sidewalk shall be separated from the back of curb where feasible, as determined by Transportation Director, or designee, on the west side of North Goldwater Boulevard, from the intersection of East Camelback Road and North Goldwater Boulevard to the intersection East Highland Avenue and North Goldwater Boulevard, prior to obtaining a Certificate-of-Occupancy for any new building within the area identified as Parcel A or D on Exhibit A to Exhibit 1.
- a.3. The property owner shall construct a continuous minimum eight (8) foot wide sidewalk, separated from the back of curb on the south side of East Highland Avenue, from the intersection of East Highland Avenue and North Goldwater Boulevard to the intersection of East Highland Avenue and North Scottsdale Road, prior to obtaining a Certificate-of-Occupancy for any new site building in that area identified as Parcel B on Exhibit A to Exhibit 1.
- a.4. The property owner shall construct a continuous minimum eight (8) foot wide sidewalk, separated from the back of curb on the west side of North Scottsdale Road, from the intersection of East Highland Avenue and North Scottsdale Road to the intersection of East Fashion Square Drive and North Scottsdale Road,

prior to obtaining a Certificate-of-Occupancy for any new site building in that area identified as Parcel A or B on Exhibit A to Exhibit 1.

- a.5. The property owner shall construct a continuous minimum eight (8) foot wide sidewalk, separated from the back of curb where feasible, as determined by Transportation Director, or designee, on the north side of East Camelback Road, from the intersection of East Camelback Road and North Goldwater Boulevard to the western boundary of the zoning application, prior to obtaining a Certificate-of-Occupancy for any new site building in that area identified as Parcel A on Exhibit A to Exhibit 1.
- a.6. Prior to permit issuance for construction of driveways at any new vehicular entrances to the property, the property owner shall dedicate additional North Goldwater Boulevard, East Highland Avenue, North Scottsdale Road, and East Camelback Road right-of-way, as determined by Transportation Director or designee, to accommodate new right-turn deceleration lanes at any new vehicle entrances to the property.
- a.7. If any new vehicular entrances to the property are approved along North Goldwater Boulevard, East Highland Avenue, North Scottsdale Road, and East Camelback Road as part of a development proposal, as determined by Transportation Director or designee, the owner shall construct new right-turn deceleration lanes to accommodate the new vehicle entrances to the property.
- a.8. Prior to the issuance of a building permit for a new or expanded building, the property owner shall submit plans and obtain approval to concurrently construct all street and pedestrian improvements supported by the updated traffic impact study that corresponds with the new or expanded building, and approved by the Transportation Director, or designee.
- a.9. Prior to the issuance of a building permit for a new or expanded building, the property owner shall submit plans and obtain approval to concurrently modify any existing traffic signals and equipment supported by the updated traffic impact study approved by the Transportation Director, or designee that to address the new development associated with the requested building permit.
- a.10. All street improvements (curb, gutter, sidewalk, curb ramps, driveways, pavement, concrete, etc.) shall be constructed in accordance with the applicable City of Scottsdale's Supplements to the Maricopa Association of Governments (MAG) Uniform Standard Specifications and Details for Public Works Construction, and Maricopa Association of Governments (MAG) Uniform Standard Specifications and Details for Public Works Construction, as determined by the Transportation Director, or designee.
- a.11. The sidewalk improvements noted in a.1, a.2, and a.5 above shall be required only in locations that are determined to be feasible, with the intent of feasibility to be interpreted to mean where adequate width or space is available to widen the sidewalk to the prescribed widths or provide the required separation from curb reasonably without affecting existing structures, significant mature landscaping, existing parking areas, or significant grades. The determination of feasibility shall be made by the Zoning Administrator or designee.

14. INTERSECTION IMPROVEMENTS. The owner shall make the required dedications and provide the following improvements in conformance with the Design Standards and Policies Manual and all other applicable city codes and policies:
- a. The property owner shall design and construct a third eastbound lane on Highland Avenue, beginning just east of Goldwater Boulevard and terminating as a third eastbound left-turn lane at Scottsdale Road, prior to any certificate of occupancy for a combined total building area exceeding 75,000 square feet in new or expanded buildings south of East Highland Avenue between North Scottsdale Road and North Goldwater Boulevard within the area identified as Parcel B on Exhibit A to Exhibit 1.
 - b. The property owner shall design and construct intersection modifications to provide a separate eastbound left-turn lane and shared through-right-turn lane at the East Scottsdale Fashion Square and North Goldwater Boulevard intersection, prior to any certificate of occupancy for any new buildings south of East Highland Avenue between North Scottsdale Road and North Goldwater Boulevard, within the area identified as Parcel B on Exhibit A to Exhibit 1.
 - c. The property owner shall contract with a traffic engineering consultant to conduct a study of the East Highland Avenue and North Goldwater Boulevard intersection prior to any certificate of occupancy for any new or expanded buildings within the area identified as Parcel B on Exhibit A to Exhibit 1. The study shall recommend intersection improvements to improve the safety and convenience for the westbound left-turn movement, improve intersection sight distance, and reduce speeding on North Goldwater Boulevard. The study shall not include any options that consider a connection to the existing East Highland Avenue west of North Goldwater Boulevard. The property owner shall not be obligated for any costs and/or improvements associated with the study that exceed \$50,000, and the final study shall be submitted to the City of Scottsdale for review and approval.
 - d. If directed by the Transportation Director based upon future traffic analysis, the property owner shall design and construct an additional eastbound left-turn lane on East Camelback Road at the North Goldwater Boulevard signalized intersection. The timing of the improvement shall be based upon the need as determined by the traffic analysis tied to proposed new building or building expansion on the site. The property owner shall be responsible for all necessary street reconstruction, pavement marking modification, and signal equipment modification to accomplish the addition of the eastbound left-turn lane.
15. ACCESS RESTRICTIONS/REQUIREMENTS. Access to the site shall conform to the following restrictions and requirements:
- a. There shall no new site driveways onto the adjacent public streets without approval of the site plan and site access as part of a Development Review Board application and approval by the Transportation Director.
 - b. There shall be no new median openings along the adjacent public streets associated with any proposed development of the site without approval of the site plan and site access as part of a Development Review Board application and approval by the Transportation Director.
 - c. There shall be no new traffic signals constructed on the adjacent public streets without

an approved traffic signal warrant analysis based upon existing traffic volumes and approval by the Transportation Director.

- d. Minimum driveway spacing shall be 250 feet between existing and proposed driveways and street intersections unless otherwise approved by the Transportation Director.
- e. There shall be an east/west driveway maintained through the site from North Goldwater Boulevard to North Scottsdale Road in or near the area identified as Parcel B on Exhibit A to Exhibit 1. The alignment of such driveway shall be determined at the time of the applicable Development Review Board application.

16. PEDESTRIAN FACILITIES.

- a) With the first and each subsequent Development Review Board submittal for new development on the site, the owner shall submit a pedestrian circulation plan for the site, which shall be subject to approval by City staff. The plan shall include all existing and proposed sidewalks along the adjacent streets and all existing proposed connections from the streets to the site buildings.
- b) The developer shall design and construct a pedestrian hybrid beacon on Highland Avenue between Scottsdale Road and Goldwater Boulevard prior to any certificate of occupancy for any new buildings within the area identified as Parcel B on Exhibit A to Exhibit 1. Adequate stopping sight distance for drivers on Goldwater Boulevard/Highland Avenue must be provided with the design. This requirement shall not be in effect if a traffic signal is determined to be warranted and approved prior to the construction of the pedestrian hybrid beacon. If a traffic signal is determined to be warranted by the Transportation Director at this intersection in the future, the pedestrian hybrid beacon shall be replaced by the full traffic signal.
- c) Prior to the certificate of occupancy for any new buildings within the area identified as Parcel B on Exhibit A to Exhibit 1, the property owner shall explore a grade separated pedestrian crossing between the building or parking structure and the existing Optima residential development on the north side of East Highland Avenue.
- d) Prior to the issuance a building permit for a new or expanded building within the area identified as Parcel A on Exhibit A to Exhibit 1, the owner shall dedicate a non-motorized public access easement over the existing sidewalk along North Marshall Way and East Via Soleri Drive that extends outside of the existing public right-of-way. Prior to the issuance a building permit for a new building or building expansion within the area identified as Parcel A, B, C, or D on Exhibit A To Exhibit 1, the owner shall dedicate a non-motorized public access easement over any new sidewalk or any widened sidewalk constructed along the public streets adjacent to the site that extends outside of the public right-of-way.

17. TRANSIT STOP IMPROVEMENTS.

- a) The property owner shall design and construct transit stop improvements on East Camelback Road west of North Goldwater Boulevard, prior to any certificate of occupancy for any new building within the area identified as Parcel A on Exhibit A to Exhibit 1. The transit stop improvements shall consist of a shelter, trash can, bench, and bike rack. The design and location of the transit stop shall be approved by the Transportation Department Director or designee.

- b) The property owner shall design and construct transit stop improvements on North Scottsdale Road south of East Highland Avenue, prior to any certificate of occupancy for any new buildings within the area identified as Parcel B on Exhibit A to Exhibit 1. The transit stop improvements shall consist of a shelter, trash can, bench, and bike rack. The design and location of the transit stop shall be approved by the Transportation Department Director or designee.

18. PEDESTRIAN STREET LIGHTS.

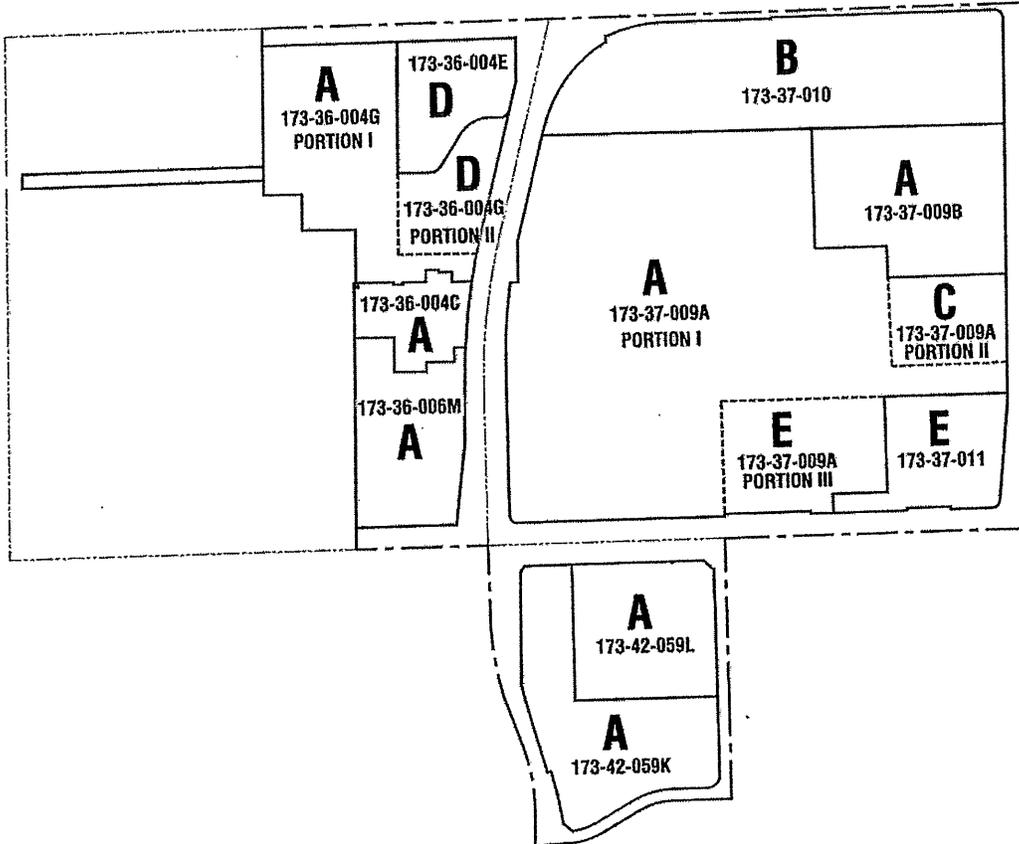

- a) Prior to issuance of Certificate of Occupancy for any new building within the area identified as Parcel B on Exhibit A to Exhibit 1, the property owner shall install pole mounted pedestrian street lights along the East Highland Avenue street frontage, between North Scottsdale Road and North Goldwater Boulevard, as approved by the Development Review Board.
- b) Prior to issuance of Certificate of Occupancy for any new building within the area identified as Parcel E on Exhibit A to Exhibit 1, the property owner shall install pole mounted pedestrian street lights along the East Camelback Road street frontage, between North Scottsdale Road and North Goldwater Boulevard, as approved by the Development Review Board.
- c) Prior to issuance of Certificate of Occupancy for any new building within the area identified as Parcel A on Exhibit A to Exhibit 1, the property owner shall install pole mounted pedestrian street lights along the east and west sides of the North Goldwater Boulevard street frontage, between East Highland Avenue and East Via Soleri Drive, as approved by the Development Review Board.

19. OVERHEAD POWERLINES. Prior to issuance of Certificate of Occupancy for any new building within the area identified as Parcel B on Exhibit A to Exhibit 1, the property owner shall pay for and cause the existing overhead powerlines on the west side of North Scottsdale Road from East Highland Avenue to East Fashion Square Drive to be removed or relocated underground.

20. VEHICLE NON-ACCESS EASEMENT. The property owner shall dedicate a one (1) foot wide vehicular non-access easement along the North Scottsdale Road, East Camelback Road, North Goldwater Boulevard, East Highland Avenue, North Marshall Way, and East Via Soleri Drive site frontages, except at the existing and approved driveway entrances.

21. PARCELS/PLATTING. Prior to permit issuance for any new construction involving parcels 173-37-009B, 173-37-009A, or 173-36-004C as shown on the Property Parcel and Development Area Depiction (Exhibit C page 2 of 2 of Contract No. 2016-097-COS), the owner shall submit an application for approval and recordation of a land assemblage/subdivision to remedy the non-conforming aspects of these parcels. All future land assemblage/subdivisions shall comply with the requirements of the Land Division Ordinance and the Design Standards & Policies Manual.
