Re: Traffic Impact Statement Single Family Residential Community – SWC Alma School Road and Happy Valley Road, Scottsdale, Arizona

Dear Mr. Kirk:

This letter outlines our findings regarding the trip generation of the 28.6-acre± site located on the southwest corner of the intersection of Alma School Road and Happy Valley Road in Scottsdale, Arizona. The development plan for the site consists of 21 single-family detached houses. Access to the site is proposed to be provided by a single full access driveway located approximately 560 feet south of Happy Valley Road on the west side of Alma School Road. A copy of the proposed site plan is attached.

The City of Scottsdale has a Capital Improvement Plan (CIP) in place that is anticipated to improve Happy Valley Road and the portion of Alma School Road that is north of the proposed site driveway. Roadway improvements to Happy Valley Road are anticipated to include a raised median. This development is anticipated to provide curb and gutter improvements based on the City of Scottsdale standard collector street cross section from the CIP project limits, just north of the proposed driveway, to the south parcel boundary along the project frontage.

The existing zoning is R1-190. Under the existing zoning, it is anticipated that the site could consist of six dwelling units per the City of Scottsdale Code of Ordinances Table 6.1081.A.

The trip generation rates published by the *Institute of Transportation Engineers' (ITE) Trip Generation Manual, 10th Edition* were used for the trip generation characteristics of the development. The trip generation characteristics of the proposed site are summarized in **Table 1**.

**Table 1 – Proposed Site Trip Generation**

Land Use	ITE Code	Qty	Units	Daily Total	AM Peak			PM Peak		
					In	Out	Total	In	Out	Total
Single-Family Detached Housing	210	21	DU	200	4	12	16	13	8	21

Under the proposed development plan, the site would be expected to generate 200 daily trips, of which 16 trips would occur in the AM peak hour and 21 trips would occur in the PM peak hour.

The proposed development is not expected to significantly impact traffic conditions and planned improvements to Happy Valley Road are expected to have capacity to accommodate the future traffic.

## Determination of Adequate Facilities

City of Scottsdale Project Number: 134 -PA- 2019

Project name: Happy Valley 18

Project Location SWC of Happy Valley Rd. and Alma School Rd.

Applicant Name: Camelot Homes

Phone: 480-367-4316

Applicant E-mail: tomk@camelothomes.com

Fax: \_\_\_\_\_

School District: Scottsdale Unified School District

I, JEFF GADD hereby certify that the following determination has been made in regards to the Referenced project:

- The school district had adequate school facilities to accommodate the projected number of additional students generated by the proposed rezoning within the school district's attendance area; or
- The school district will have adequate school facilities via a planned capital improvement to be constructed within one year of the date of notification of the district and located within the school district's attendance area; or
- The school district has determined an existing or proposed charter school as contracted by the district can be provide adequate school facilities for the projected increase in students; or
- The applicant and the school district have entered into an agreement to provide, or help to provide, adequate school facilities within the school district's attendance area in a timely manner (a copy said agreement is attached hereto); or
- The school district does not have adequate school facilities to accommodate projected growth attributable to the rezoning.

Attached are the following documents supporting the above certification:

- Maps of the attendance areas for elementary, middle and high schools for this location.
- Calculations of the number of students that would be generated by the additional homes.
- School capacity and attendance trends for the past three years.

Or;

I, \_\_\_\_\_, hereby request a thirty (30) day extension of the original discussion and response time.
