COMMENT	
Comment:	<p>My comment is directed at the plans for the new ENTRADA development at 64th and McDowell. It would help those of us who live nearby, and dislike all the apartment/condos being built on McDowell, if this didn't emulate the ugly boxes already built along this street. I feel the too high, too gray walls are encroaching excessively on the desert environment I enjoyed living in. Another major concern is about the heavy increase in traffic on McDowell and also 64th Street. Are there new signals being planned for 64th and the entrance to the Giants baseball facility? This space isn't big enough to voice all the displeasure I feel for the City Council and their work over the past 9 years!</p>
