Appeals of Dedication, Exactions or Zoning Regulations

Rights of Property Owner

In addition to the other rights granted to you by the U.S. and Arizona Constitution, federal and state law and city ordinances or regulations, you are hereby notified of your right to appeal the following City actions relating to your property:

- 1) Any dedication or exaction which is required of you by an administrative agency or official of the city as a condition of granting approval of your request to use, improve or develop your real property. This appeal right does not apply to a dedication or exaction required as part of a city legislative act (for example a zoning ordinance) when an administrative agency or official has no discretion to determine the dedication or exaction.
- 2) The adoption or amendment of a zoning regulation that creates a taking of property in violation of Arizona and federal court decision.

Appeal Procedure

The appeal must be in writing and specify the City action appealed and the date final action was taken, and must be filed with or mailed to the hearing officer designated by the city within 30 days after the final action is taken

- No fee will be charged for filing
- The city Attorney's Office will review the appeal for compliance with the above requirements, and will notify you if your appeal does not comply
- Eligible appeals will be forwarded to the hearing officer, and a hearing will be scheduled within 30 days of receipt by the hearing officer of your request. Ten days notice will be given to you of the date, time and place of the hearing unless you indicate that less notice is acceptable to you.
- The City will submit a takings impact report to the hearing officer.
- In an appeal from a dedication or exaction, the City will bear the burden of proving that the dedication or exaction to be imposed on your property bears an essential nexus between the requirement and a legitimate governmental interest and that the proposed dedication or exaction is roughly proportional to the impact of the use, improvement or development you proposed.
- In an appeal from the adoption or amendment of a zoning regulation, the City will bear the burden of proving that any dedication or exaction requirement in the zoning regulation is roughly proportional to the impact of the proposed use, improvement, or development, and that the zoning regulation does not create a taking of property in violation of Arizona and federal court cases.
- The hearing officer must render his decision within five working days after the appeal is heard.
- The hearing officer can modify or delete a dedication or exaction or, in the case of an appeal from a zoning regulation, transmit a recommendation to the City Council.
- If you are dissatisfied with the decision of the hearing officer, you may file a complaint for a trial nevo with the Superior Court within 30 days of the hearing officer's decision.

Development Application Process

Enhanced Application Review Conditional Use Permit (UP)

Enhanced Application Review Methodology

Within the parameters of the Regulatory Bill-of-Rights of the Arizona Revised Statutes, the Enhanced Application Review method is intended to increase the likelihood that the applicant will obtain an earlier favorable written decision or recommendation upon completion of the city's reviews. To accomplish this objective, the Enhanced Application Review allows:

- the applicant and City staff to maintain open and frequent communication (written, electronic, telephone, meeting, etc.) during the application review;
- City staff and the applicant to collaboratively work together regarding an application; and
- City staff to make requests for additional information and the applicant to submit revisions to address code, ordinance, or policy deficiencies in an expeditious manner.

Generally, the on-going communication and the collaborative work environment will allow the review of an application to be expedited within the published Staff Review Time frames.

Note:

1. Time period determined by owner/applicant.
2. All reviews and time frames are suspended from the date a the letter is issued requesting additional information until the date the City receives the resubmittal from the owner/applicant.
3. The substantive review, and the overall time frame time is suspended during the public hearing processes.
4. Owner/applicant may agree to extend the time frame by 25 percent

Development Application Process

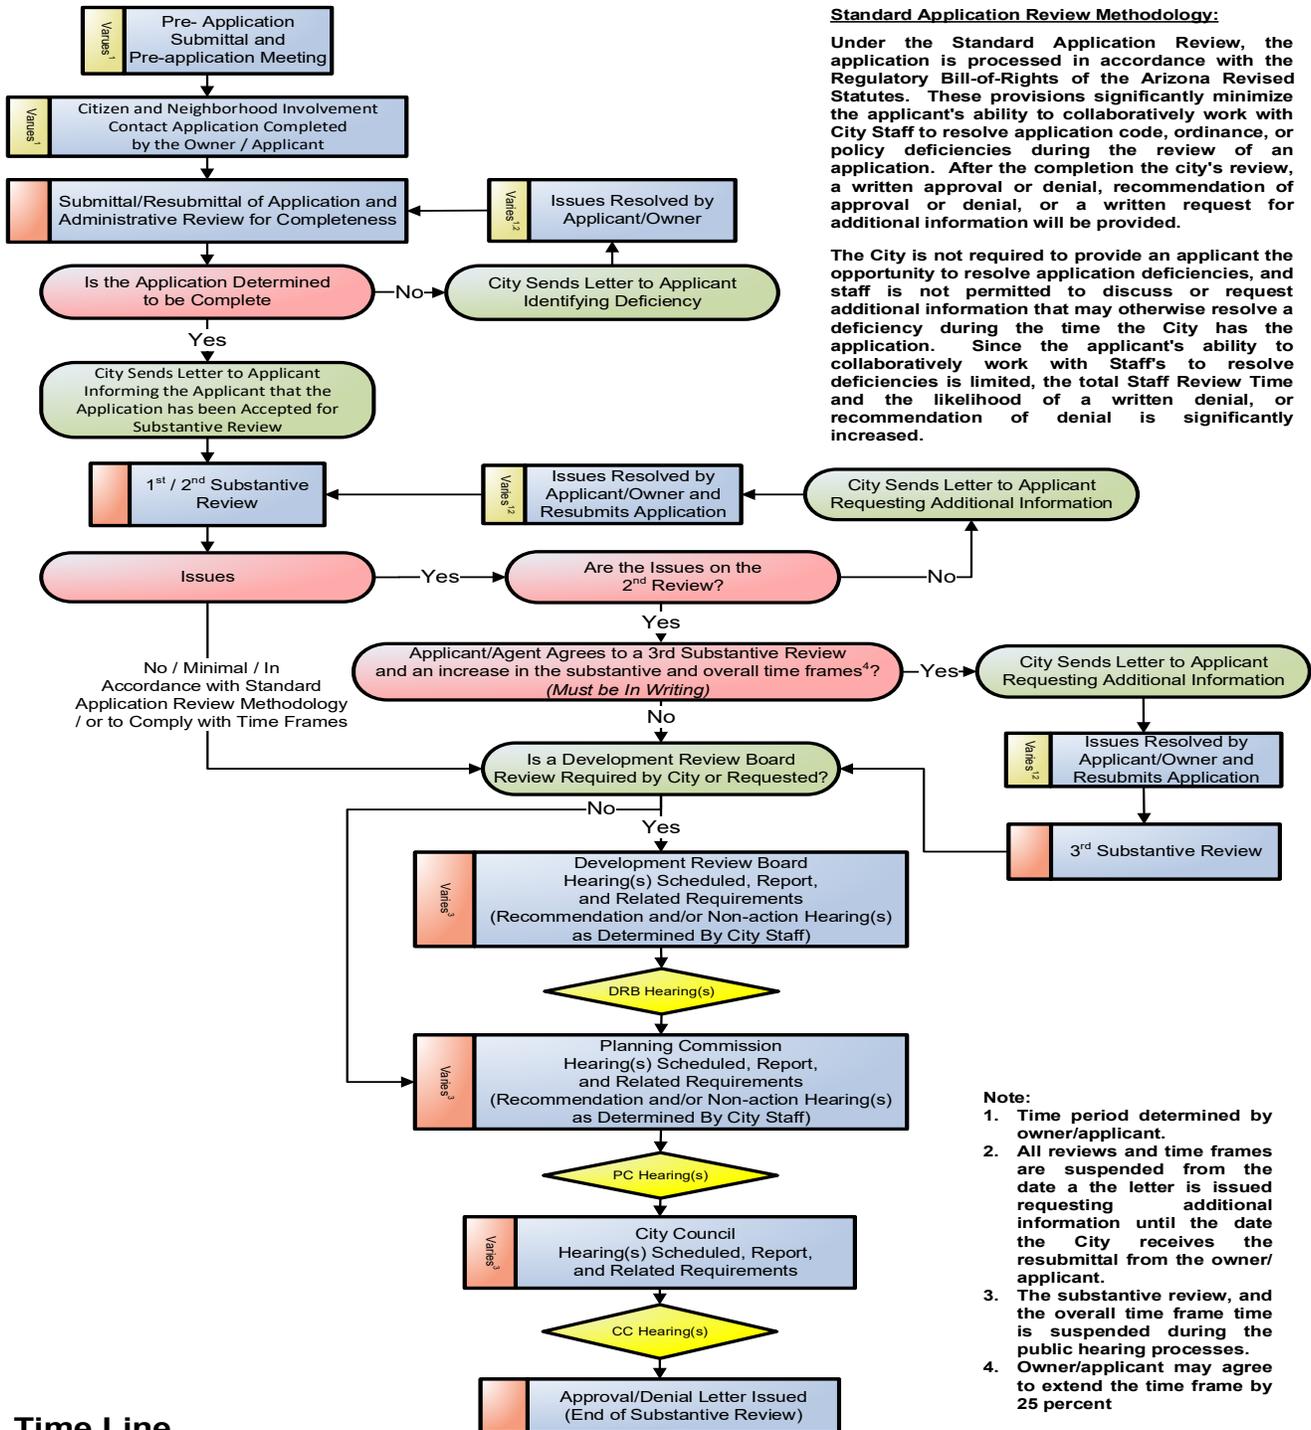

Standard Application Review Conditional Use Permit (UP)

Standard Application Review Methodology:

Under the Standard Application Review, the application is processed in accordance with the Regulatory Bill-of-Rights of the Arizona Revised Statutes. These provisions significantly minimize the applicant's ability to collaboratively work with City Staff to resolve application code, ordinance, or policy deficiencies during the review of an application. After the completion of the city's review, a written approval or denial, recommendation of approval or denial, or a written request for additional information will be provided.

The City is not required to provide an applicant the opportunity to resolve application deficiencies, and staff is not permitted to discuss or request additional information that may otherwise resolve a deficiency during the time the City has the application. Since the applicant's ability to collaboratively work with Staff's to resolve deficiencies is limited, the total Staff Review Time and the likelihood of a written denial, or recommendation of denial is significantly increased.

Note:

1. Time period determined by owner/applicant.
2. All reviews and time frames are suspended from the date a letter is issued requesting additional information until the date the City receives the resubmittal from the owner/applicant.
3. The substantive review, and the overall time frame time is suspended during the public hearing processes.
4. Owner/applicant may agree to extend the time frame by 25 percent

Annual Fees for WCF in the ROW (Instructions) For Non-SWF Wireless Communication Facilities

The annual encroachment permit fees for wireless communications facilities in the rights-of-way categories above shall be administered according to the following rules:

- 1) The fee structure shall apply to the installation of any antennas, antenna structures, ground equipment, electronics, cabinets, and other appurtenances required or associated with the operation of a wireless communications facility (WCF) in the City's rights-of-way (ROW).
 - a. All existing WCF in ROW that have been constructed or received permits by July 2, 2009 will be eligible to have the annual WCF in ROW fee set at a rate of **\$11,489** for FY 2019-2020 (July 1, 2019 through June 30, 2020). The rate of **\$11,489** is subject to annual increases adopted by the City Council.
 - b. WCF sites in the ROW that were "on-air" prior to July 3, 2009 and are subsequently modified will be subject to the Annual Fees for WCF in the ROW when the vertical element is replaced or when the original ground mounted equipment is expanded.
- 2) Antenna Structures and Base Fee – In cases where the existing vertical element is replaced for structural purposes with a pole designed to support the antennas and cabling, the WCF will be categorized as being installed on an existing vertical element. The Antenna Base Fee includes up to 50 cubic feet of ground equipment and any electrical conductors necessary to operate the WCF site.
- 3) Ground Equipment Fee – The ground equipment measurement is calculated by the size of a flat, four- sided "box" (parallel sides of equal length) with a top panel that is parallel to the ground so that the box will cover the ground equipment from the top of the equipment to the ground (non-improved dirt surface), and from side-to side, including any foundation or pad for the equipment. For situations where there is more than one ground equipment fixture or cabinet (adjacent to each other or within the same use area), the equipment fixtures, cabinets and generators are deemed to be part of the same contiguous ground equipment space and will be measured together within the same box. Any Remote Radio Heads or Remote Radio Units mounted to a cabinet, post or wall in the same area with the ground equipment shall be included in the measurement for the ground equipment. Electrical meters and telecom pedestals are not included in the ground equipment.
- 4) WCF site that has both the vertical element and ground equipment in the ROW will be assessed an amount equal to the Antenna Base Fee plus the Ground Equipment Fee, except that:
 - A) WCF sites that have the antennas installed on a vertical element in the ROW but the ground equipment installed on private property will be assessed the Antenna Base Fee only.
 - B) WCF sites with antennas on a vertical element located on private property but with the ground equipment in the ROW, will be assessed the Ground Equipment Fee only. If the ground equipment is less than 50 cubic feet, the annual Ground Equipment Fee shall be the actual cubic feet of the ground equipment multiplied by the FY 2018/19 fee of \$35 per cubic

foot. If the ground equipment is greater than 50 cubic feet, the applicable ground equipment fee shall apply as provided in the schedule on page 1 of the Annual Fees for WCF in the ROW document.

- 5) All WCF in the ROW must have an Antenna Site Right-of-Way License Agreement (ARLA) document submitted to the City for each WCF site installed and operated in the ROW.
- 6) An invoice for the annual WCF in the ROW permit fee is sent to the person and address provided on the ARLA document every July.
- 7) The ARLA is an encroachment permit allowing the WCF to be in the ROW; a WCF owner or applicant must obtain a "Permission to Work in the ROW" permit to construct, repair or maintain the WCF site.
- 8) The annual WCF in the ROW permit fee does not include fees and charges for any other planning & development fees, permits, plan review fees, inspection fees, or any other services or approvals that may be required by the City of an owner or applicant of a WCF in the ROW.

Note: This schedule is not all-inclusive and other fees may apply.

Development Application

Review Methodologies

Review Methodologies

The City of Scottsdale maintains a business and resident friendly approach to new development and improvements to existing developments. In order to provide for flexibility in the review of Development Applications, and Applications for Permitting, the City of Scottsdale provides two methodologies from which an owner or agent may choose to have the City process the application. The methodologies are:

1. Enhanced Application Review Methodology

Within the parameters of the Regulatory Bill-of-Rights of the Arizona Revised Statutes, the Enhanced Application Review method is intended to increase the likelihood that the applicant will obtain an earlier favorable written decision or recommendation upon completion of the city's reviews. To accomplish this objective, the Enhanced Application Review allows:

- the applicant and City staff to maintain open and frequent communication (written, electronic, telephone, meeting, etc.) during the application review;
- City staff and the applicant to collaboratively work together regarding an application; and
- City staff to make requests for additional information and the applicant to submit revisions to address code, ordinance, or policy deficiencies in an expeditious manner.

Generally, the on-going communication and the collaborative work environment will allow the review of an application to be expedited within the published Staff Review Time frames.

2. Standard Application Review Methodology:

Under the Standard Application Review, the application is processed in accordance with the Regulatory Bill-of-Rights of the Arizona Revised Statutes. These provisions significantly minimize the applicant's ability to collaboratively work with City Staff to resolve application code, ordinance, or policy deficiencies during the review of an application. After the completion the city's review, a written approval or denial, recommendation of approval or denial, or a written request for additional information will be provided.

The City is not required to provide an applicant the opportunity to resolve application deficiencies, and staff is not permitted to discuss or request additional information that may otherwise resolve a deficiency during the time the City has the application. Since the applicant's ability to collaboratively work with Staff's to resolve deficiencies is limited, the total Staff Review Time and the likelihood of a written denial, or recommendation of denial is significantly increased.

In addition to the information above, please review the Development Application, and/or the Application for Permitting flow charts. These flow charts provide a step-by-step graphic representation of the application processes for the associated review methodologies.

Note:

1. Please see the Current Planning Services and Long Range Planning Services Substantive Policy Statements and Staff Review Timeframes for Development Applications, number III.

**Re: *Proposition 207 - Private Property Rights Protection Act*
(A.R.S. § 12-1131 to § 12-1138)**

Under Proposition 207, the Private Property Rights Protection Act (A.R.S. § 12-1131, et. seq.), a property owner is permitted to make a claim for just compensation if the value of the owner's property is reduced by the city's enactment of a land-use law to the property. A land-use law is defined as a law or regulation that regulates the use or division of land, such as municipal zoning laws, or regulates accepted farming or forestry practices.

For example, a property owner may file a claim against a city if the owner's existing rights to use, sell, divide, or possess the property is diminished in value by enactment or applicability of land-use laws to their property, even though the owner made the request or application to the city.

Under Proposition 207, the city may request a waiver of a property owner's potential Proposition 207 claim for any of the numerous land-use actions within the city's jurisdiction, such as rezoning property, platting, abandonments, annexations, change of use, requesting a use permit, or approval of development plans or site plans. The waiver is specific to the action requested.

By signing the waiver, a property owner acknowledges that a Prop.207 claim may exist but that the property owner voluntarily relinquishes the right to any claims that the city's land-use laws, applicable to the owner's property, reduce the property's value.

Not all land-use laws that are applied to an owner's property will raise a Prop.207 compensation requirement. The following seven (7) types of land-use laws are exempt from the application of Prop.207:

1. Laws or regulations that limit or prohibit the use or division of real property enacted for the protection of the public's health and safety, including rules and regulations relating to fire and building codes, health and sanitation, transportation, traffic control, solid or hazardous waste, and pollution control.
2. Laws or regulations that limit or prohibit the use or division of real property and laws historically recognized as "public nuisance" laws.
3. Laws or regulations that are required by the Federal government.

4. Laws or regulations that limit or prohibit the use or division of property for the purpose of housing sex-offenders, selling illegal drugs, liquor control, or pornography, obscenity, or any other adult-oriented businesses.
5. Laws or regulations that establish locations for utility facilities.
6. Laws or regulations that do not directly regulate an owner's land.
7. Laws or regulations that were enacted before the effective date of Prop. 207 (December 7, 2006).

A complete version of Proposition 207 is available at your local law library, at Title 12, Chapter 8, Article 2.1 of the Arizona Revised Statutes.

If The Waiver Is Not Executed

If an owner elects not to sign a waiver, he/she will execute a Refusal to Sign Waiver Form and return the form to city staff. For legislative actions such as re-zonings or general plan amendments, information regarding whether a waiver has been executed will be included in the staff report for the case and the owner's case and application will move through the city's process.

Questions Regarding the Waiver

If you have specific questions on the interpretation of Proposition 207 and/or execution of a waiver, you may consult with privately retained counsel. City staff, including the City Attorney's office, are prohibited from giving legal advice to private parties.

D. The Private Property Rights Protection Act (e.g., A.R.S. § 12-1134.I) authorizes private property owners to enter into agreements with political subdivisions to waive any claim for diminution in value of their property in connection with any action requested by the property owner.

Appeals of Dedication, Exactions or Zoning Regulations

Rights of Property Owner

In addition to the other rights granted to you by the U.S. and Arizona Constitution, federal and state law and city ordinances or regulations, you are hereby notified of your right to appeal the following City actions relating to your property:

- 1) Any dedication or exaction which is required of you by an administrative agency or official of the city as a condition of granting approval of your request to use, improve or develop your real property. This appeal right does not apply to a dedication or exaction required as part of a city legislative act (for example a zoning ordinance) when an administrative agency or official has no discretion to determine the dedication or exaction.
- 2) The adoption or amendment of a zoning regulation that creates a taking of property in violation of Arizona and federal court decision.

Appeal Procedure

The appeal must be in writing and specify the City action appealed and the date final action was taken, and must be filed with or mailed to the hearing officer designated by the city within 30 days after the final action is taken

- No fee will be charged for filing
- The city Attorney's Office will review the appeal for compliance with the above requirements, and will notify you if your appeal does not comply
- Eligible appeals will be forwarded to the hearing officer, and a hearing will be scheduled within 30 days of receipt by the hearing officer of your request. Ten days notice will be given to you of the date, time and place of the hearing unless you indicate that less notice is acceptable to you.
- The City will submit a takings impact report to the hearing officer.
- In an appeal from a dedication or exaction, the City will bear the burden of proving that the dedication or exaction to be imposed on your property bears an essential nexus between the requirement and a legitimate governmental interest and that the proposed dedication or exaction is roughly proportional to the impact of the use, improvement or development you proposed.
- In an appeal from the adoption or amendment of a zoning regulation, the City will bear the burden of proving that any dedication or exaction requirement in the zoning regulation is roughly proportional to the impact of the proposed use, improvement, or development, and that the zoning regulation does not create a taking of property in violation of Arizona and federal court cases.
- The hearing officer must render his decision within five working days after the appeal is heard.
- The hearing officer can modify or delete a dedication or exaction or, in the case of an appeal from a zoning regulation, transmit a recommendation to the City Council.
- If you are dissatisfied with the decision of the hearing officer, you may file a complaint for a trial *nevo* with the Superior Court within 30 days of the hearing officer's decision.

Requirements for Submitting Evidence of Title to the City of Scottsdale Planning Department

The City of Scottsdale planning department requires applicants for various zoning applications, building permits and other approvals to provide evidence of land ownership. Unless city staff directs otherwise, the required evidence shall be a title insurance commitment meeting the following requirements:

1. The applicant shall instruct the title insurance company to prepare a normal title insurance commitment.
2. The title commitment must cover the whole project site, just as if the city were a commercial real estate developer who was going to buy the whole site from whoever owns it today.
3. The title insurance commitment must be in the same form and have the same wording that the title insurer usually uses when a sophisticated real estate purchaser is buying land from a sophisticated seller. For example, it must not have any extra notes, disclaimers or other language that is not in a normal title insurance commitment for a straightforward land purchase.
4. The City of Scottsdale must be listed as the proposed insured.
5. The proposed insurance amount must be a reasonable estimate of the actual dollar value of the whole site. (The price for the most recent arms-length sale of the whole site is usually an acceptable amount.)
6. The Schedule B requirements must call for:
 - a. A deed from the current owner to the city.
 - b. Releases of all liens, as if the city were going to pay cash for the land and not assume any liens or take subject to any liens.
 - c. Termination of all leases. (Leases with 24 or fewer months remaining in their term may be listed in the Schedule B exceptions instead.)
 - d. Any other specific payments or specific document recordings that the title insurer would normally call for (such as payment of delinquent property taxes).
7. The Schedule B exceptions must show any other specific title matters that may exist.
8. Title companies sometimes state in their title commitments that they will update the title search before issuing a title insurance policy. That's o.k. if the language is clear that the update will only include new title documents that are recorded after the title commitment date. For example, it is o.k. to have wording that says: "Additional items may be added based on new documents recorded before closing." But there must not be vague wording such as this: "Check with title examiner for additional items before closing."
9. The title search date on the title commitment must be less than 30 days old.
10. Both "standard coverage" and "extended coverage" title commitments are acceptable. (The title information on an extended coverage commitment must be identical to the title information that would be on a standard coverage commitment. The only difference is that the Schedule B requirements for an "extended coverage" commitment will call for a survey and will allow the title company to add Schedule B exceptions or requirements for any problems the survey reveals.)
11. There is no need to open an escrow to make a routine dedication. The city will record the dedication directly without sending it through the title company. Often, the city will not actually buy the title insurance described in the commitment or require the applicant to buy it. But, if the city decides to do it (or require the applicant to do it), then the city or the applicant will follow up with the title insurer to pay the insurance premium and satisfy the Schedule B requirements so that the title insurer will issue the policy.
12. The applicant shall inform city staff in writing of any and all title changes that occur after the title commitment is issued.
13. The city reserves the right for city staff to require additional evidence of title, including but not limited to an extended title insurance policy in favor of the city.

Addressing Requirements

Make all addressing requests using the city's online application form online: www.ScottsdaleAZ.gov and search: address request form

Prior to your application submittal to Current Planning for your entitlement approval (Development Review Board, Planning Commission, City Council) the City will need to assign an address to your property. This will be used for all future submittals and permit issuance. Prior to final plan submittal the records department will work with applicants on assigning suite, units, or apartment numbers and any additional addresses.

The City is responsible for assigning addresses/suite, and apartment numbers. If any developer/builder or owner performs this, it is subject to change by the City. Any and all costs associated with these changes will be the responsibility of the developer/builder or owner.

The City of Scottsdale utilizes the Maricopa Association of Government Standards (MAG) for all addressing. This policy was developed to aid emergency and first responders. We have a Mutual Aid agreement with the City of Phoenix Fire Department, it is essential that we maintain this policy.

To provide the commercial suite assignments please provide the records department with a floor plan showing the different suites within your building. The second floor being in the 200 range, and the third floor 300 range, etc. Suite numbering for commercial suites will be provided in a sequence of fives to allow for future suite division. For example: if you had 5 suites on the first floor we would assign them as 100, 105, 110, 115 & 120.

Individual living spaces (Condominiums and Apartments) are designated as units and numbered in the thousand ranges (4 digits). First floor units get 1000 numbers; second floor units get 2000 numbers, etc.

Protection of Archaeological Resources

Applicant Fact Sheet

Scottsdale Revised Code, Chapter 46, Article VI

To help identify, preserve, and protect archaeological sites, an **archaeological survey and report** by a qualified archaeologist is required to be submitted for all public or private development project applications within the City of Scottsdale. A qualified archaeologist is an individual or firm meeting the Arizona State Museum's standards and professional qualifications for an archaeologist. The qualifications for archaeologists and a list of qualified archaeological consultants are available from the Arizona State Museum (<https://statemuseum.arizona.edu/crm>).

Please contact the Historic Preservation Office at 480-312-2831 or your Project Coordinator for more information on archaeology requirements. The attached list of questions includes the answers to commonly asked questions about the ordinance. For complete information regarding the Preservation of Archaeological Resources Ordinance, please refer to the Scottsdale Revised Code.

Applicable Development Projects Requiring an Archaeology Survey and Report:

A development project is anything leading to potential ground disturbance, including:

- Rezoning, use permits, master plans, and general plan amendments
- Development Review Board cases, preliminary and final plats
- Lot splits and infrastructure improvements
- Building and grading permits, and native plant removal
- Wash Modification

Development Projects Exempt from Requiring an Archaeology Survey and Report (See attached ordinance text if needed):

- **Pending Applications:** Applications for building permits, single family lot splits, development review board, and final plats that are submitted or approved prior to effective date of Ordinance 3243(August 12, 1999).
- **Single Family Homes:** A private single family residence on a single family lot.
- **Less than 1 Acre Disturbed:** Non-residential development with 1 acre or less ground disturbance. *A report by a qualified archaeologist on a records check is still required to identify potential archaeological resources.*
- **Previously Developed Sites:** Projects on previously disturbed land where 50% or more of the land was already built. *A report by a qualified archaeologist on a records check is still required to identify potential archaeological resources.*
- **Approved Master Plan:** Master planned development with a previously completed Archeological Survey and Report within the past five (5) years (depending on what is being disturbed). *A mitigation plan may necessary.*
- **Development/Redevelopment Agreements:** Projects subject to a development or redevelopment agreement that already contain specific provisions on archaeological resources.
- **Mapped Exempt Area:** Projects within a land area that has been mapped by the Historic Preservation Commission to be exempt based upon prior surveys and research. As of August 1999 there are no areas mapped as exempt from surveys and reports.

Note: Requirements on discoveries during construction are applicable to all developments (no exemptions).

Review of Archaeology Survey and Report

The archaeology survey and report is submitted along with the development project application. The City Historic Preservation Officer and/or City Archaeologist review the archaeological survey and report for completeness, significant sites identified within the project, and the impacts of the project on identified sites prior to the application acceptance date.

Archaeological Impact Assessment

- **No Impacts:** If it is determined that survey and report are complete, and the project has no significant resources, or it is documented that the project will not impact significant archaeological resources, then the Preservation Division will sign and issue a Certificate of No Effect. With a Certificate of No Effect, the application may be accepted and the project may proceed.
- **Mitigation Plan:** If it is determined that the project has archaeological impacts, the applicant must submit a mitigation plan. The Historic Preservation Officer and/or City Archaeologist may approve the mitigation plan. More complicated mitigation plans require approval by the Historic Preservation Commission before the application can be accepted. Upon approval of the mitigation plan, the application may be accepted and the project may proceed. Land disturbance can not proceed until the Certificate of Approval is signed. When the approved mitigation plan is satisfactorily completed, a Certificate of Approval can be signed.
- **Economic Hardship:** The Historic Preservation Commission may issue a Certificate of Economic Hardship following a hearing that grants an exemption from the requirement to implement a mitigation plan for reasons of economic hardship. Upon issuance of a Certificate of Economic Hardship, the application may be accepted and the project may proceed.

City of Scottsdale

ARCHAEOLOGY REQUIREMENTS FOR DEVELOPMENT PROJECTS WITHIN MASTER PLANNED DEVELOPMENTS OR LARGER PROJECT AREAS THAT HAVE A PREVIOUS ARCHAEOLOGICAL SURVEY

PURPOSE:

Since some master planned and other projects in Scottsdale completed archaeology surveys as an ESL requirement prior to August 1991, the archaeology survey reports were not reviewed according to current ordinance standards and there is no signed Certificate of No Effect. Therefore this review process was developed to ensure ordinance compliance for new applications on land within larger developments.

SCOPE OF PROCEDURE

The intent of this process is to review development project applications that are within larger approved project areas for their compliance with the city’s archaeology ordinance requirements. The procedure applies to projects on land within larger projects that have previously submitted an archaeology survey to the City of Scottsdale to meet local requirements. The procedures apply to: 1. Rezoning, use permits and development review board (DRB) applications, including plats, within master planned developments, and 2. Development applications for pads or parcels within a larger property (20 acres or larger property).

SUBMITTAL REQUIREMENTS

Applicants for projects on land that is part of a larger project should submit map(s) and text with their application submittal as follows:

1. Proof that an archaeology report was previously submitted and/or approved (Submit a copy of the prior report or a copy of the approved Certificate of No Effect)
2. Map showing the current project location within the total land area covered by the prior archaeology report.
3. Map clearly identifying within the current project area any significant or potentially significant surveyed sites and any recorded archaeological sites with their AZ Site or other reference number.
4. If there are significant, potentially significant or recorded sites within the project area, a narrative describing how the recorded site(s) will be impacted by the proposed development and describing any measures that will be taken to protect the site(s), such as placing the site in an Natural Area Open Space (NAOS) or conservation easement.
5. Map(s)/narrative for any archaeological resources within a Master Planned Development or larger project – 1 copy

CITY REVIEW OF SUBMITTAL

The Historic Preservation Office is responsible for managing the archaeology review process. The purpose of the review will be to determine the following:

1. The location of the current project within the larger project land area and if there are any recorded sites on the development parcel.
2. Determine what measures are proposed to protect any sites on the development parcel and whether the proposed measures are adequate to satisfy the requirements of the Scottsdale Revised Code (SRC), Chapter 46, Article VI.
3. If a significant recorded site will be impacted by the project, are a Mitigation Plan and a Certificate of Approval now required to comply with the SRC? *Note: A Mitigation Plan or any additional work will not be required if the larger project area already has an approved Certificate of No Effect.*

The applicant can satisfy the archaeology requirements if the larger area has a Certificate of No Effect, if there are no recorded sites located on the project and if there are no impacts from the project on archaeological resources. If the protection measures proposed are inadequate and/or the project will have an impact on significant or potentially significant archaeological resources, the applicant will be asked for additional information and may be asked to prepare and implement a Mitigation Plan to meet the archaeology requirements that took effect in August 1991.

Proximity to Airport.

Each Owner of a Lot in the Airport Influence Area identified in Chapter 5 of the Scottsdale Revised Code acknowledges that, as of the date of this notice:

(a) The Lot is close to the Scottsdale Airport (the "Airport"), located generally between Frank Lloyd Wright Boulevard on the north, Pima Road on the east, Thunderbird Road on the south and Scottsdale Road on the west.

(b) The Airport is operated as a general aviation reliever/commercial service airport for Scottsdale and North Phoenix, and used generally for airplanes, jets and helicopters.

(c) Aircraft using the Airport may fly over the Lot and adjacent properties at altitudes that vary for several reasons, including weather conditions, aircraft type, aircraft performance and pilot proficiency.

(d) The majority of takeoffs and landings occur between 6:00 a.m. and 11:00 p.m., but the Airport is open 24 hours each day, so takeoffs and landings may occur at any time.

(e) The number of takeoffs and landings at the Airport average approximately 400 each day, but that number varies and may increase.

(f) Aircraft using the Airport will generate noise, the volume, pitch, amount and frequency of which will vary for several reasons, including weather conditions, aircraft type, aircraft altitude and aircraft number.

(g) Airport management attempts to minimize aircraft noise and its influence on Lots in the Airport Influence Zone, but there is no guarantee that such attempts will be effective or remain in place.

The Owner accepts and assumes any and all risks, burdens and inconvenience caused by or associated with the Airport and its operations (including noise), and agrees not to assert or make any claim arising out of the Airport and its operations against the City of Scottsdale, its elected and appointed officials, officers, directors, commissioners, representatives, employees, and agents.

These uses typically include a Bar Use Permit and a Live Entertainment Use Permit. The contents of this plan will address the listed concerns as well as community concerns regarding:

- Any significant increase in vehicular or pedestrian traffic, including effects on parking, traffic and circulation in the area.
- Adequate control of disruptive behavior both inside and outside the premises to include property damage and refuse issues.
- Compatibility with surrounding structures and uses.

It is the intent of the City of Scottsdale to provide an environment that enhances the safeguarding of property as well as public welfare and to limit the need for law enforcement involvement.

The Permittee agrees that successful execution and enforcement of this Plan are a required condition of the use permit. Termination, cancellation, deviation or non-approval of the Plan constitutes a breach of the Plan and could result in the revocation of the use permit.

Security and Maintenance

Security Attire

Security personnel must be readily identifiable to police, patrons, and other employees to ensure the safety of the security staff when engaged with patrons. Security personnel should wear an appropriate styled shirt with the word "security" on both the front and back, in two (2) inch lettering and clearly visible. During cold weather, a jacket with the same inscription should be worn.

The use of radios should be employed between security staff and management when the size of the establishment limits communication efforts.

Security Officer Responsibilities

The Permittee or management must clearly delineate the below responsibilities to all new security personnel and ensure these responsibilities are explained and understood.

Civilian Security Officers will be responsible for patrolling the full property of the liquor establishment during all hours when patrons are in the establishment, outside the establishment, and in the establishment parking areas.

On peak nights, there will be a minimum of ____ uniformed security officer(s). (Wearing the above-described uniform). The following responsibilities shall be agreed upon and adhered to:

1. ____ Security officer(s) will be responsible for roaming the interior of the business and identifying hazards, problems, and maintaining guest safety.
2. ____ Security officer(s) will be responsible for checking identifications at the front door. Acceptable identification are those listed in Arizona Revised Statutes Title 4, section 241A and apply to patrons accessing any area of the licensed premises, including the time period of After-Hours, if applicable. Additional responsibilities shall include: access control, counting of patrons, and prevention of intoxicated persons from entering the business.
3. ____ Security officer(s) will be responsible for conducting roaming patrol of the exterior in an effort to prevent criminal behavior, maintain the peace and prevent refuse issues. This patrol shall include all parking areas to prevent a gathering of patrons during business hours and up to thirty (30) minutes after closing.

In addition, security officers will report all acts of violence to management personnel, complete a written report, log the act of violence, and contact Scottsdale Police Department immediately. Liquor establishment management and/or ownership has the ultimate responsibility for the recording of the act of violence, logging of the act of violence, and reporting the act of violence to the police department and the State Department of Liquor Licenses.

Management Responsibilities

The Permittee must clearly delineate the below responsibilities to all managers, assistant managers, and person(s)-in-charge and ensure these responsibilities are understood and followed.

The manager(s) shall ensure that all employees, security staff and off-duty officers (if applicable) be trained and knowledgeable about the contents of this plan. The following shall be agreed upon and adhered to:

4. At least one security manager will be on duty until one hour after closing or the last security officer is off duty, whichever occurs last.

- I plan to hire _____ officer(s) during peak nights from (name of agency) _____.
- I do not plan to hire off-duty law enforcement.

Parking

In order to reduce criminal activity that negatively affects the nearby businesses, the Permittee is responsible for the designated parking area to include any lots used by the Permittee’s contracted valet company. It is the Permittee’s responsibility to ensure that parking areas utilized by patrons and employees will be routinely patrolled by security staff so parking areas are not used: as a gathering place; for consumption of spirituous liquor; for violations of state or city law; for acts of violence, or disorderly conduct. Management will ensure that all patrons have left the parking areas within thirty minutes after the designated closing time.

If valet is used, it is the Permittee’s responsibility to ensure the valet company meets all the requirements of the City of Scottsdale and has a valid valet license and permit prior to conducting valet business.

City Policy for Exterior and Site Lighting

PURPOSE:

Encourage quality site lighting design while providing a sense of safety and security by reducing excessive light levels, light trespass and glare.

DESIGN PRINCIPLES:

- The use of lighting should be integrally designed as part of the built environment and should reflect a balance for the lighting needs with the contextual ambient light level and surrounding nighttime characteristics of our community. In conjunction with the Zoning Ordinance, recommended light level guidelines and uniformity ratios established by the Illumination Engineering Society of North America (IESNA) in the IESNA Lighting Handbook (current edition) should be considered when determining appropriate lighting design solutions. All exterior lighting design require the approval of the Development Review Board (DRB).
- Lighting designs must be designed to minimize glare, light trespass, energy conservation and to maintain dark skies. The lighting designers should consider utilizing per-curfew and post-curfew lighting designs with automatic control systems to eliminate excessive light during non-active hours of site and building operation.
- Full cut-off fixtures, mounting heights and shielding must be utilized to effectively control glare and light trespass.
- Any exterior lighting designs shall take into account all existing and proposed exterior lighting sources.
- Architectural lighting, if proposed, shall be included with the DRB application. Architectural lighting should only be utilized at the pedestrian scale and to highlight special features. Lighting of expansive wall planes, towers and roofs or the use of architectural lighting that results in “hot spots” must be avoided.
- Landscape lighting, if proposed, shall be included with the DRB application. Landscape lighting should only be utilized to accent landscaping, be pointed away from property lines, and fixtures shall contain extension shields to minimize glare and light source visibility. In areas with the Environmentally Sensitive Lands Overlay (ESL), lighting must be shielded and directed downward.

City Policy for Exterior and Site Lighting

SUBMITTAL REQUIREMENTS:

Exterior On-Site Lighting Details:

- All exterior fixture lighting manufacture cut sheets (to be provided on 24" x 36" paper). Each cut sheet shall clearly identify the light fixture manufacture number utilized, the plan cross-reference identification, and be legible. (State law prohibits Mercury Vapor lighting.)
 - Plan identification symbol or abbreviation
 - Fixture graphic
 - Fixture type
 - Fixture add-ons, if utilized

 - Candela distribution curve

Photometrics:

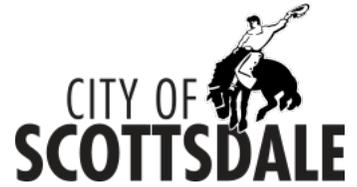

- Photometric plans shall be provided for the entire site addressing Zoning Ordinance, rezoning cases (ZN), conditional use permit cases (UP), Development Review Board cases (DR), Design Guidelines, and this City Policy for Exterior and Site Lighting. Additional information may be required by staff after they have evaluated the design.
- There is a minimum of two photometric studies required for each project. They are: (1) a horizontal illuminance analysis for the site, and (2) a vertical light trespass analysis around the perimeter of the site. Each plan requires the following information:
 - A point-by-point foot-candle reading. The horizontal photometric plan grid points, utilizing distinctive grid point symbols (example: *), shall have a maximum spacing of ten (10) feet between each point across the entire site, and shall extend ten (10) feet beyond the property line or area of site. The vertical photometric plan grid point shall be provided only along the property line or edge of site with a maximum spacing of ten (10) feet between each point.
 - A foot-candle reading shall also be provided under at least one of each light fixture type.
 - The plan shall include the lighting templates generated by the lighting design software program to calculate the foot-candle readings. The template shall be for the fixture and lamp specified on the plans. The plan's fixture type identification shall match the cut sheets, electrical site plans, and the lighting schedule. This information shall be provided in a summary table.
 - The plan shall identify the initial maximum, minimum, and average illuminance on the horizontal photometric plan and vertical photometric plan.
 - The plan shall identify the total maintained maintenance (light loss) factor utilized.
- The total maintained light loss factor for all horizontal photometric analysis shall not be below 0.70.
 - Plans shall only include one horizontal reading across the entire site. Only the building footprint shall be masked out from the reading. (Acceptable additional horizontal reading grids may be: gas station canopies, ATM drive-thrus, walk-up ATMs, and parking garage entries/exits. When separate grids are utilized on the same plan, a separate grid symbol (example: %) must be utilized, and a separate maintained maximum, minimum, and average illuminance shall be provided for the grid.)
- The light trespass plan (vertical illuminance) shall provide point-by-point foot-candle readings six (6) feet above the grade along the entire property line, with the reader at 90-degrees nadir and aimed perpendicular into the site. All light trespass plan readings shall be based on the initial illuminance, 1.00.
- The horizontal illuminance photometric plan, and the vertical light trespass plan may be combined into one sheet if the readings utilize distinctive symbols, a separate summary table for all fixtures utilized, and separate total light loss factors are utilized.
- The photometric plan(s) shall provide a lighting fixture summary table that presents the following information:
 - Plan identification symbol or abbreviation
 - Fixture type (include the manufacture product identification catalog number)
 - Lamp type (include the manufacture product identification catalog number and wattage)
 - Lamp lumens
 - Lamp degree Kelvin
 - Fixture lens height above lowest adjacent finished grade
 - Total light loss factor utilized

Bars & Restaurants

Need to Know – If you are considering locating a bar or restaurant in Scottsdale, it is important to be aware of city license and zoning requirements (**prior to committing to a business location or submitting a liquor license application to the State.**) In some instances, bars may require a Conditional Use Permit that may take 4-6 months to obtain. This webpage outlines a six-step process to ensure you are fully informed/aware of the specific regulations that relate to bars/nightclubs and restaurants in Scottsdale.

Step 1) Identify what type of State Liquor License (Series #) you are applying for.

Step 2) If you are applying for any of the following State Liquor Licenses you may also have to acquire a city of Scottsdale conditional use permit:

Series 03 - Microbrewery	Series 12 - Restaurant
Series 06 - Bar	Series 13 – Domestic Farm Winery
Series 07 – Beer & Wine Bar	Series 14 – Club (Private)

Step 3) Determine whether your establishment is a bar/nightclub or a restaurant. In Scottsdale, you are considered a bar/nightclub or a cocktail lounge if you meet any of the following criteria:

- Bar service area more than 15% of the gross floor area
- If you have a kitchen less than 15% of the gross floor area
- Age verification is requested for admittance
- A cover charge is required for admittance (except for special events approved through city's special event process)
- Less than 40% of gross revenues are generated from the sale of prepared food
- The business remains open and liquor sales continue but the kitchen closes before 9 p.m.

If you checked any one of the above, you are considered a bar and may be required to obtain a conditional use permit. Proceed to step #4 for information about determining applicability. If you did not check any of the above criteria, you can proceed to step #5.

Step 4) If your business meets any of the above criteria, please contact the City of Scottsdale immediately to determine applicability of the regulations and the most efficient process to meet the regulations. Please call 312-7000 to schedule an appointment

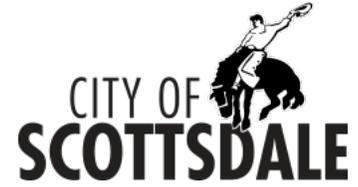

Step 5) All liquor license applications in Scottsdale are required to complete a [questionnaire](#) (PDF) and either email to planninginfo@scottsdaleaz.gov or deliver to the [One Stop Shop](#). Business hours are 8am to 5pm

Step 6) A Scottsdale (city) Tax & License Spirituous Liquor Permit Application is also required.

Enhanced Application Review Methodology

Within the parameters of the Regulatory Bill-of-Rights of the Arizona Revised Statutes, the Enhanced Application Review method is intended to increase the likelihood that the applicant will obtain an earlier favorable written decision or recommendation upon completion of the city's reviews. Generally, the on-going communication and the collaborative work environment will allow the review of an application to be expedited within the published Staff Review Time frames.

Note:

1. Time period determined by owner/applicant.
2. All reviews and time frames are suspended from the date a the letter is issued requesting additional information until the date the City receives the resubmittal from the owner/applicant.
