## Annual Fees for WCF in the ROW (Instructions) For Non-SWF Wireless Communication Facilities

The annual encroachment permit fees for wireless communications facilities in the rights-of-way categories above shall be administered according to the following rules:

- 1) The fee structure shall apply to the installation of any antennas, antenna structures, ground equipment, electronics, cabinets, and other appurtenances required or associated with the operation of a wireless communications facility (WCF) in the City's rights-of-way (ROW).
  - a. All existing WCF in ROW that have been constructed or received permits by July 2, 2009 will be eligible to have the annual WCF in ROW fee set at a rate of \$11,833 for FY 2020-2021 (July 1, 2020 through June 30, 2021). The rate of \$11,833 is subject to annual increases adopted by the City Council.
  - b. WCF sites in the ROW that were "on-air" prior to July 3, 2009 and are subsequently modified will be subject to the Annual Fees for WCF in the ROW when the vertical element is replaced or when the original ground mounted equipment is expanded.
- 2) Antenna Structures and Base Fee – In cases where the existing vertical element is replaced for structural purposes with a pole designed to support the antennas and cabling, the WCF will be categorized as being installed on an existing vertical element. The Antenna Base Fee includes up to 50 cubic feet of ground equipment and any electrical conductors necessary to operate the WCF site.
- 3) Ground Equipment Fee – The ground equipment measurement is calculated by the size of a flat, four-sided "box" (parallel sides of equal length) with a top panel that is parallel to the ground so that the box will cover the ground equipment from the top of the equipment to the ground (non-improved dirt surface), and from side-to-side, including any foundation or pad for the equipment. For situations where there is more than one ground equipment fixture or cabinet (adjacent to each other or within the same use area), the equipment fixtures, cabinets and generators are deemed to be part of the same contiguous ground equipment space and will be measured together within the same box. Any Remote Radio Heads or Remote Radio Units mounted to a cabinet, post or wall in the same area with the ground equipment shall be included in the measurement for the ground equipment. Electrical meters and telecom pedestals are not included in the ground equipment.
- 4) WCF site that has both the vertical element and ground equipment in the ROW will be assessed an amount equal to the Antenna Base Fee plus the Ground Equipment Fee, except that:
  - A) WCF sites that have the antennas installed on a vertical element in the ROW but the ground equipment installed on private property will be assessed the Antenna Base Fee only.

B) WCF sites with antennas on a vertical element located on private property but with the ground equipment in the ROW, will be assessed the Ground Equipment Fee only. If the ground equipment is less than 50 cubic feet, the annual Ground Equipment Fee shall be the actual cubic feet of the ground equipment multiplied by the FY 2020/21 fee of \$37 per cubic foot. If the ground equipment is greater than 50 cubic feet, the applicable ground equipment fee shall apply as provided in the schedule on page 1 of the Annual Fees for WCF in the ROW document.

5) All WCF in the ROW must have an Antenna Site Right-of-Way License Agreement (ARLA) document submitted to the City for each WCF site installed and operated in the ROW.

6) An invoice for the annual WCF in the ROW permit fee is sent to the person and address provided on the ARLA document, one month prior to the anniversary of the ARLA permit issuance date.

7) The ARLA is an encroachment permit allowing the WCF to be in the ROW; a WCF owner or applicant must obtain a "Permission to Work in the ROW" permit to construct, repair or maintain the WCF site.

8) The annual WCF in the ROW permit fee does not include fees and charges for any other planning & development fees, permits, plan review fees, inspection fees, or any other services or approvals that may be required by the City of an owner or applicant of a WCF in the ROW.

**Note: This fee schedule is not all-inclusive and other fees may apply.**

## Review Methodologies

### Review Methodologies

The City of Scottsdale maintains a business and resident friendly approach to new development and improvements to existing developments. In order to provide for flexibility in the review of Development Applications, and Applications for Permitting, the City of Scottsdale provides two methodologies from which an owner or agent may choose to have the City process the application. The methodologies are:

#### **1. Enhanced Application Review Methodology**

Within the parameters of the Regulatory Bill-of-Rights of the Arizona Revised Statutes, the Enhanced Application Review method is intended to increase the likelihood that the applicant will obtain an earlier favorable written decision or recommendation upon completion of the city's reviews. To accomplish this objective, the Enhanced Application Review allows:

- the applicant and City staff to maintain open and frequent communication (written, electronic, telephone, meeting, etc.) during the application review;
- City staff and the applicant to collaboratively work together regarding an application; and
- City staff to make requests for additional information and the applicant to submit revisions to address code, ordinance, or policy deficiencies in an expeditious manner.

Generally, the on-going communication and the collaborative work environment will allow the review of an application to be expedited within the published Staff Review Time frames.

#### **2. Standard Application Review Methodology:**

Under the Standard Application Review, the application is processed in accordance with the Regulatory Bill-of-Rights of the Arizona Revised Statutes. These provisions significantly minimize the applicant's ability to collaboratively work with City Staff to resolve application code, ordinance, or policy deficiencies during the review of an application. After the completion the city's review, a written approval or denial, recommendation of approval or denial, or a written request for additional information will be provided.

The City is not required to provide an applicant the opportunity to resolve application deficiencies, and staff is not permitted to discuss or request additional information that may otherwise resolve a deficiency during the time the City has the application. Since the applicant's ability to collaboratively work with Staff's to resolve deficiencies is limited, the total Staff Review Time and the likelihood of a written denial, or recommendation of denial is significantly increased.

In addition to the information above, please review the Development Application, and/or the Application for Permitting flow charts. These flow charts provide a step-by-step graphic representation of the application processes for the associated review methodologies.

Note:

1. Please see the Current Planning Services and Long Range Planning Services Substantive Policy Statements and Staff Review Timeframes for Development Applications, number III.

# Appeals of Dedication, Exactions, or Zoning Regulations

## Rights of Property Owner

In addition to the other rights granted to you by the U.S. and Arizona Constitution, federal and state law and city ordinances or regulations, you are hereby notified of your right to appeal the following City actions relating to your property:

- 1) Any dedication of exaction which is required of you by an administrative agency or official of the city as a condition of granting approval of your request to use, improve or develop your real property. This appeal right does not apply to a dedication or exaction required as part of a city legislative act (for example a zoning ordinance) when an administrative agency or official has no discretion to determine the dedication or exaction.
- 2) The adoption or amendment of a zoning regulation that creates a taking of property in violation of Arizona and federal court decision.

## Appeal Procedure

The appeal must be in writing and specify the City action appealed and the date final action was taken, and must be filed with or mailed to the hearing officer designated by the city within 30 days after the final action is taken

- No fee will be charged for filing
- The city Attorney's Office will review the appeal for compliance with the above requirements, and will notify you if your appeal does not comply
- Eligible appeals will be forwarded to the hearing officer, and a hearing will be scheduled within 30 days of receipt by the hearing officer of your request. Ten days notice will be given to you of the date, time and place of the hearing unless you indicate that less notice is acceptable to you.
- The City will submit a takings impact report to the hearing officer.
- In an appeal from a dedication or exaction, the City will bear the burden of proving that the dedication or exaction to be imposed on your property bears an essential nexus between the requirement and a legitimate governmental interest and that the proposed dedication or exaction is roughly proportional to the impact of the use, improvement or development you proposed.
- In an appeal from the adoption or amendment of a zoning regulation, the City will bear the burden of proving that any dedication of exaction requirement in the zoning regulation is roughly proportional to the impact of the proposed use, improvement, or development, and that the zoning regulation does not create a taking of property in violation of Arizona and federal court cases.
- The hearing officer must render his decision within five working days after the appeal is heard.
- The hearing officer can modify or delete a dedication or exaction or, in the case of an appeal from a zoning regulation, transmit a recommendation to the City Council.
- If you are dissatisfied with the decision of the hearing officer, you may file a complaint for a trial *nevo* with the Superior Court within 30 days of the hearing officer's decision.

## Requirements for Submitting Evidence of Title to the City of Scottsdale Planning Department

The City of Scottsdale planning department requires applicants for various zoning applications, building permits and other approvals to provide evidence of land ownership. Unless city staff directs otherwise, the required evidence shall be a title insurance commitment meeting the following requirements:

1. The applicant shall instruct the title insurance company to prepare a normal title insurance commitment.
2. The title commitment must cover the whole project site, just as if the city were a commercial real estate developer who was going to buy the whole site from whoever owns it today.
3. The title insurance commitment must be in the same form and have the same wording that the title insurer usually uses when a sophisticated real estate purchaser is buying land from a sophisticated seller. For example, it must not have any extra notes, disclaimers or other language that is not in a normal title insurance commitment for a straightforward land purchase.
4. The City of Scottsdale must be listed as the proposed insured.
5. The proposed insurance amount must be a reasonable estimate of the actual dollar value of the whole site. (The price for the most recent arms-length sale of the whole site is usually an acceptable amount.)
6. The Schedule B requirements must call for:
  - a. A deed from the current owner to the city.
  - b. Releases of all liens, as if the city were going to pay cash for the land and not assume any liens or take subject to any liens.
  - c. Termination of all leases. (Leases with 24 or fewer months remaining in their term may be listed in the Schedule B exceptions instead.)
  - d. Any other specific payments or specific document recordings that the title insurer would normally call for (such as payment of delinquent property taxes).
7. The Schedule B exceptions must show any other specific title matters that may exist.
8. Title companies sometimes state in their title commitments that they will update the title search before issuing a title insurance policy. That's o.k. if the language is clear that the update will only include new title documents that are recorded after the title commitment date. For example, it is o.k. to have wording that says: "Additional items may be added based on new documents recorded before closing." But there must not be vague wording such as this: "Check with title examiner for additional items before closing."
9. The title search date on the title commitment must be less than 30 days old.
10. Both "standard coverage" and "extended coverage" title commitments are acceptable. (The title information on an extended coverage commitment must be identical to the title information that would be on a standard coverage commitment. The only difference is that the Schedule B requirements for an "extended coverage" commitment will call for a survey and will allow the title company to add Schedule B exceptions or requirements for any problems the survey reveals.)
11. There is no need to open an escrow to make a routine dedication. The city will record the dedication directly without sending it through the title company. Often, the city will not actually buy the title insurance described in the commitment or require the applicant to buy it. But, if the city decides to do it (or require the applicant to do it), then the city or the applicant will follow up with the title insurer to pay the insurance premium and satisfy the Schedule B requirements so that the title insurer will issue the policy.
12. The applicant shall inform city staff in writing of any and all title changes that occur after the title commitment is issued.
13. The city reserves the right for city staff to require additional evidence of title, including but not limited to an extended title insurance policy in favor of the city.

# Addressing Requirements

Make all addressing requests using the city's online application form online: [www.ScottsdaleAZ.gov](http://www.ScottsdaleAZ.gov) and search: address request form

Prior to your application submittal to Current Planning for your entitlement approval (Development Review Board, Planning Commission, City Council) the City will need to assign an address to your property. This will be used for all future submittals and permit issuance. Prior to final plan submittal the records department will work with applicants on assigning suite, units, or apartment numbers and any additional addresses.

The City is responsible for assigning addresses/suite, and apartment numbers. If any developer/builder or owner performs this, it is subject to change by the City. Any and all costs associated with these changes will be the responsibility of the developer/builder or owner.

The City of Scottsdale utilizes the Maricopa Association of Government Standards (MAG) for all addressing. This policy was developed to aid emergency and first responders. We have a Mutual Aid agreement with the City of Phoenix Fire Department, it is essential that we maintain this policy.

To provide the commercial suite assignments please provide the records department with a floor plan showing the different suites within your building. The second floor being in the 200 range, and the third floor 300 range, etc. Suite numbering for commercial suites will be provided in a sequence of fives to allow for future suite division. For example: if you had 5 suites on the first floor we would assign them as 100, 105, 110, 115 & 120.

Individual living spaces (Condominiums and Apartments) are designated as units and numbered in the thousand ranges (4 digits). First floor units get 1000 numbers; second floor units get 2000 numbers, etc.

**Re: *Private Property Rights Protection Act (A.R.S. § 12-1131  
to § 12-1138)***

Under the Private Property Rights Protection Act (A.R.S. § 12-1131, et. seq.), a property owner is permitted to make a claim for just compensation if the value of the owner's property is reduced by the city's enactment of a land-use law to the property. A land-use law is defined as a law or regulation that regulates the use or division of land, such as municipal zoning laws, or regulates accepted farming or forestry practices.

For example, a property owner may file a claim against a city if the owner's existing rights to use, sell, divide, or possess the property is diminished in value by enactment or applicability of land-use laws to their property, even though the owner made the request or application to the city.

Under the Private Property Rights Protection Act, the city may request a waiver of a property owner's potential claim for any of the numerous land-use actions within the city's jurisdiction, such as rezoning property, platting, abandonments, annexations, change of use, requesting a use permit, or approval of development plans or site plans. The waiver is specific to the action requested.

By signing the waiver, a property owner acknowledges that a Private Property Rights Protection Act claim may exist but that the property owner voluntarily relinquishes the right to any claims that the city's land-use laws, applicable to the owner's property, reduce the property's value.

Not all land-use laws that are applied to an owner's property will raise a Private Property Rights Protection Act compensation requirement. The following seven (7) types of land-use laws are exempt from the application of the Private Property Rights Protection Act:

1. Laws or regulations that limit or prohibit the use or division of real property enacted for the protection of the public's health and safety, including rules and regulations relating to fire and building codes, health and sanitation, transportation, traffic control, solid or hazardous waste, and pollution control.
2. Laws or regulations that limit or prohibit the use or division of real property and laws historically recognized as "public nuisance" laws.
3. Laws or regulations that are required by the Federal government.

4. Laws or regulations that limit or prohibit the use or division of property for the purpose of housing sex-offenders, selling illegal drugs, liquor control, or pornography, obscenity, or any other adult-oriented businesses.
5. Laws or regulations that establish locations for utility facilities.
6. Laws or regulations that do not directly regulate an owner's land.
7. Laws or regulations that were enacted before the effective date of December 7, 2006.

A complete version of the Private Property Rights Protection Act is available at your local law library, at Title 12, Chapter 8, Article 2.1 of the Arizona Revised Statutes.

### **If The Waiver Is Not Executed**

If an owner elects not to sign a waiver, he/she will execute a Refusal to Sign Waiver Form and return the form to city staff. For legislative actions such as re-zonings or general plan amendments, information regarding whether a waiver has been executed will be included in the staff report for the case and the owner's case and application will move through the city's process.

### **Questions Regarding the Waiver**

If you have specific questions on the interpretation of the Private Property Rights Protection Act and/or execution of a waiver, you may consult with privately retained counsel. City staff, including the City Attorney's office, are prohibited from giving legal advice to private parties.

FOR DIMINUTION IN VALUE OF PROPERTY**

THIS AGREEMENT FOR THE WAIVER OF CLAIMS FOR DIMINUTION IN VALUE OF PROPERTY (the "Agreement") is made in favor of the City of Scottsdale ("City") by \_\_\_\_\_ a \_\_\_\_\_ ("Owner").

**RECITALS**

A. Owner is the fee title owner of property, Parcel No(s). \_\_\_\_\_ - \_\_\_\_\_ - \_\_\_\_\_ located at \_\_\_\_\_ (the "Property").

B. Owner acknowledges that he/she has made a request to the City for application of its land use laws for the development of the Property and is under no compulsion, economic or otherwise, to enter into this Agreement.

C. Arizona statute ARS § 12-1134.A provides that a city must pay just compensation to a land owner, in some cases, if the city approves a land use law that reduces the fair market value of the owner's property. This law is sometimes referred to as the "Private Property Rights Protection Act". (ARS 12-1131, et.seq.)

D. The Private Property Rights Protection Act (e.g., A.R.S. § 12-1134.I) authorizes private property owners to enter into agreements with political subdivisions to waive any claim for diminution in value of their property in connection with any action requested by the property owner.

E. City and Owner seek to resolve whether the application of the City's land use laws to the Property constitute a "diminution in value" of the Property or other harm entitling Owner, now or in the future, to seek compensation from the City under the Private Property Rights Protection Act.

**IT IS AGREED AS FOLLOWS:**

Owner hereby makes the following acknowledgements and representations:

1. Owner acknowledges that:

a. The recitals set forth above are true and correct and are incorporated herein by this reference.

b. Owner is aware of the Private Property Rights Protection Act. (ARS 12-1131, et. seq.)

c. Owner has independently determined and believes that the application of the City's land use laws to the Property will not reduce the fair market value of the Property.

d. Owner is aware that, as a condition of receiving approvals under the City's land use laws, the City may impose various requirements upon the Property, such as requirements for right-of-way dedications, time limitations for development, and other zoning ordinance stipulations and conditions.

2. The undersigned Owner agrees as follows:

a. The Owner agrees that the stipulations and conditions set forth in Case No. \_\_\_\_\_ shall be included as part of the ordinance that will be considered by the Scottsdale City Council. Owner agrees that compliance with the stipulations and conditions set forth in Case No. \_\_\_\_\_ will govern development of the property. Owner further understands and agrees that stipulations and conditions may be added or modified during the public hearing process and that those stipulations and conditions will be incorporated into this Agreement.

b. Owner hereby waives and fully releases any and all financial loss, injury, claims and causes of action that Owner may have, now or in the future, for any "diminution in value" and for any "just compensation" under the Private Property Rights Protection Act based on the Owner's request in Case No. \_\_\_\_\_. This waiver constitutes a complete release of any and all claims and causes of action under the Private Property Rights Protection Act that may arise out of the Owner's request in Case No. \_\_\_\_\_.

c. Owner hereby agrees to indemnify, hold harmless and defend City, its officers, employees and agents, from any and all claims, causes of actions, demands, losses and expenses, including reasonable attorney's fees and litigation costs asserted by or resulting from any of the present owners of any interest in the Property seeking any potential compensation, damages, attorney's fees or costs under the Private Property Rights Protection Act that they may have based on the Owner's request in Case No. \_\_\_\_\_.

d. This Waiver Agreement shall run with the land and shall be binding upon all present and future owners of any interest in the Property. Owner consents to the recording of this Agreement with the County Recorder in which the Property is located.

e. 3. Owner warrants and represents that Owner is the owner of the fee title to the Property.

4. The person who signs this Agreement on behalf of Owner personally warrants and guarantees to City that he has legal power to bind Owner to this Agreement.

# Collaborative City and School Planning

## Policies and Procedures

**Basis:** These policies and procedures have been adopted in compliance with the City of Scottsdale Zoning Ordinance (Ordinance 455), Article I., Administrative And Procedures, Section 1.1500, Collaborative City And School Planning, effective October 10, 2002.

**Goal:** To ensure that rezoning applicants communicate with school districts and obtain their comments on potential impacts of new development on school facilities.

**Impact:** Applicable rezoning cases shall follow the procedures and use the forms established by the City of Scottsdale for the purposes of this section, as attached hereto.

### **Criteria for Applicability:**

The provisions of this section shall apply only to applications for residential rezoning which increase the projected number of students for any school district's school attendance area as a result of the proposed rezoning.

The applicability of this section includes requests for rezoning which:

- Change zoning classifications from non-residential to residential classifications, and/or
- Changes in residential zoning classifications or amended stipulations that result in greater residential densities, thereby increasing the number of potential students.

### **Applicant Responsibilities:**

- 1) Thirty days prior to submittal the applicant shall provide to the superintendent(s) of the applicable school district(s) the following information (via registered mail), with a copy to the City of Scottsdale Planning and Development Services:

  - Detailed project narrative including the current allowed and proposed number of residential units
  - Location map (see attached example)
  - 11x17 Site Plan

## Policies and Procedures

### **School District Responsibilities:**

- 1) Upon receipt of the above information, the school district(s) shall review the materials and determine one of the following:
  - That the school district has adequate school facilities to accommodate the projected number of additional students generated by the proposed rezoning within the school district's attendance area; or
  - That the school district will have adequate school facilities via a planned capital improvement to be constructed within one (1) year of the date of notification of the district and located within the school district's attendance area; or
  - That the school district has determined an existing or proposed charter school as contracted by the district can provide adequate school facilities within the school district's attendance area in a timely manner; or
  - That the applicant and the school district have entered into an agreement to provide, or help to provide, adequate school facilities within the school district's attendance area in a timely manner; or
  - That the school district does not have adequate school facilities to accommodate projected growth attributable to the rezoning.
- 2) The school district shall determine the above with methodology approved and published by the appropriate school district. If a school district fails to establish a student per-household ratio methodology for projecting the number of new students resulting from an applicant's rezoning application, then the school district shall base its certification upon an authoritative source accepted within the education community and based upon the most recent published Census information.
- 3) If the school district(s) requests a thirty (30) day extension, such request must be made prior to the expiration of the original discussion and response time. Such requests must be made in writing and submitted to Current Planning Department of the City of Scottsdale Planning and Development Services.
- 4) In the event that the appropriate school district determines that there are not adequate school facilities for the proposed rezoning, the school district shall notify the applicant and the City of Scottsdale in writing that the school district determined that it does not have adequate school facilities to accommodate the rezoning.
- 5) Said Determination shall be communicated to the City via the form provided for that purpose.
- 6) In the event the City does not receive certification from the School District within five (5) days of the date of the application shall proceed on the basis of not finding on the adequacy of school facilities for the proposed rezoning. School District input thereafter may be sought by the City on the issue for consideration by the Planning Commission and City Council in making a decision on the rezoning application. ### Applicable Development Projects Requiring an Archaeology Survey and Report:

A development project is anything leading to potential ground disturbance, including:

- Rezoning, use permits, master plans, and general plan amendments
- Development Review Board cases, preliminary and final plats
- Lot splits and infrastructure improvements
- Building and grading permits, and native plant removal
- Wash Modification

### Development Projects Exempt from Requiring an Archaeology Survey and Report (See attached ordinance text if needed):

- **Pending Applications:** Applications for building permits, single family lot splits, development review board, and final plats that are submitted or approved prior to effective date of Ordinance 3243(August 12, 1999).
- **Single Family Homes:** A private single family residence on a single family lot.
- **Less than 1 Acre Disturbed:** Non-residential development with 1 acre or less ground disturbance. *A report by a qualified archaeologist on a records check is still required to identify potential archaeological resources.*
- **Previously Developed Sites:** Projects on previously disturbed land where 50% or more of the land was already built. *A report by a qualified archaeologist on a records check is still required to identify potential archaeological resources.*
- **Approved Master Plan:** Master planned development with a previously completed Archeological Survey and Report within the past five (5) years (depending on what is being disturbed). *A mitigation plan may necessary.*
- **Development/Redevelopment Agreements:** Projects subject to a development or redevelopment agreement that already contain specific provisions on archaeological resources.
- **Mapped Exempt Area:** Projects within a land area that has been mapped by the Historic Preservation Commission to be exempt based upon prior surveys and research. As of August 1999 there are no areas mapped as exempt from surveys and reports.

**Note: Requirements on discoveries during construction are applicable to all developments (no exemptions).**

### Review of Archaeology Survey and Report

**The archaeology survey and report is submitted along with the development project application. The City Historic Preservation Officer and/or City Archaeologist review the archaeological survey and report for completeness, significant sites identified within the project, and the impacts of the project on identified sites prior to the application acceptance date.**

### Archaeological Impact Assessment

- **No Impacts:** If it is determined that survey and report are complete, and the project has no significant resources, or it is documented that the project will not impact significant archaeological resources, then the Preservation Division will sign and issue a Certificate of No Effect. With a Certificate of No Effect, the application may be accepted and the project may proceed.
- **Mitigation Plan:** If it is determined that the project has archaeological impacts, the applicant must submit a mitigation plan. The Historic Preservation Officer and/or City Archaeologist may approve the mitigation plan. More complicated mitigation plans require approval by the Historic Preservation Commission before the application can be accepted. Upon approval of the mitigation plan, the application may be accepted and the project may proceed. Land disturbance can not proceed until the Certificate of Approval is signed. When the approved mitigation plan is satisfactorily completed, a Certificate of Approval can be signed.
- **Economic Hardship:** The Historic Preservation Commission may issue a Certificate of Economic Hardship following a hearing that grants an exemption from the requirement to implement a mitigation plan for reasons of economic hardship. Upon issuance of a Certificate of Economic Hardship, the application may be accepted and the project may proceed.

City of Scottsdale

**ARCHAEOLOGY REQUIREMENTS FOR DEVELOPMENT PROJECTS WITHIN MASTER PLANNED DEVELOPMENTS OR LARGER PROJECT AREAS THAT HAVE A PREVIOUS ARCHAEOLOGICAL SURVEY**

**PURPOSE:**

Since some master planned and other projects in Scottsdale completed archaeology surveys as an ESL requirement prior to August 1991, the archaeology survey reports were not reviewed according to current ordinance standards and there is no signed Certificate of No Effect. Therefore this review process was developed to ensure ordinance compliance for new applications on land within larger developments.

**SCOPE OF PROCEDURE**

The intent of this process is to review development project applications that are within larger approved project areas for their compliance with the city’s archaeology ordinance requirements. The procedure applies to projects on land within larger projects that have previously submitted an archaeology survey to the City of Scottsdale to meet local requirements. The procedures apply to: 1. Rezoning, use permits and development review board (DRB) applications, including plats, within master planned developments, and 2. Development applications for pads or parcels within a larger property (20 acres or larger property).

**SUBMITTAL REQUIREMENTS**

Applicants for projects on land that is part of a larger project should submit map(s) and text with their application submittal as follows:

1. Proof that an archaeology report was previously submitted and/or approved (Submit a copy of the prior report or a copy of the approved Certificate of No Effect)
2. Map showing the current project location within the total land area covered by the prior archaeology report.
3. Map clearly identifying within the current project area any significant or potentially significant surveyed sites and any recorded archaeological sites with their AZ Site or other reference number.
4. If there are significant, potentially significant or recorded sites within the project area, a narrative describing how the recorded site(s) will be impacted by the proposed development and describing any measures that will be taken to protect the site(s), such as placing the site in an Natural Area Open Space (NAOS) or conservation easement.
5. Map(s)/narrative for any archaeological resources within a Master Planned Development or larger project – 1 copy

**CITY REVIEW OF SUBMITTAL**

The Historic Preservation Office is responsible for managing the archaeology review process. The purpose of the review will be to determine the following:

1. The location of the current project within the larger project land area and if there are any recorded sites on the development parcel.
2. Determine what measures are proposed to protect any sites on the development parcel and whether the proposed measures are adequate to satisfy the requirements of the Scottsdale Revised Code (SRC), Chapter 46, Article VI.
3. If a significant recorded site will be impacted by the project, are a Mitigation Plan and a Certificate of Approval now required to comply with the SRC? *Note: A Mitigation Plan or any additional work will not be required if the larger project area already has an approved Certificate of No Effect.*

The applicant can satisfy the archaeology requirements if the larger area has a Certificate of No Effect, if there are no recorded sites located on the project and if there are no impacts from the project on archaeological resources. If the protection measures proposed are inadequate and/or the project will have an impact on significant or potentially significant archaeological resources, the applicant will be asked for additional information and may be asked to prepare and implement a Mitigation Plan to meet the archaeology requirements that took effect in August 1991.

(e) The number of takeoffs and landings at the Airport average approximately 400 each day, but that number varies and may increase.

(f) Aircraft using the Airport will generate noise, the volume, pitch, amount and frequency of which will vary for several reasons, including weather conditions, aircraft type, aircraft altitude and aircraft number.

(g) Airport management attempts to minimize aircraft noise and its influence on Lots in the Airport Influence Zone, but there is no guarantee that such attempts will be effective or remain in place.

The Owner accepts and assumes any and all risks, burdens and inconvenience caused by or associated with the Airport and its operations (including noise), and agrees not to assert or make any claim arising out of the Airport and its operations against the City of Scottsdale, its elected and appointed officials, officers, directors, commissioners, representatives, employees, and agents.
