Hoon,

I just wanted to check in and see if you could provide the written (email) Continuance request we discussed over the phone yesterday? If you can get that to me today (or respond back to this email acknowledging the request) it will allow us to include your written (email) request with our published agenda (going out today) to clearly identify that this cases only action on 1/26 will be the request for continuance to the 2/9 meeting.

Thanks,

Jeff Barnes
