

CITY COUNCIL REPORT

Meeting Date: June 21, 2022
 General Plan Element: *Character and Design*
 General Plan Goal: *Determine the appropriateness of all development in terms of community goals, surrounding area character, and the specific context of the surrounding neighborhood.*

ACTION

Axon

6-PP-2022

Request to consider the following:

1. Adopt Ordinance No. 4556 approving a final plat for the Axon subdivision, consisting of three lots and associated rights-of-way, tracts and easements, on a +/- 60-acre site with Planned Community District, Industrial Park (P-C I-1) zoning, and providing for recording thereof.

Goal/Purpose of Request

The applicant seeks approval to subdivide a +/- 60-acre parcel into three lots.

Key Items for Consideration

- Development Review Board considered this case at the 4/7/22 hearing and approved the preliminary plat with a vote of 7-0.
- One of the smaller lots (Lot 3) to be conveyed to the City and used for a new fire station, well site and possible public safety command center.

BACKGROUND

Preliminary Plat

The original request was for a preliminary plat (PP) consisting of two lots, which was approved by the DRB on 4/7/2022. Subsequent to the DRB hearing, the applicant requested a change to the PP to allow for three lots instead of two. Staff analysis determined the request did not affect infrastructure demands or roadway alignments; as such, the revised plat configuration was processed as an administrative approval (142-SA-2022).

General Plan

The General Plan Land Use Element designates the property as Employment and Regional Use Overlay District. The Employment category permits a range of employment uses from light manufacturing to light industrial and office uses. The Regional Use designation provides flexibility for land uses when it can be demonstrated that new lands uses serve a regional market. In determining whether a proposed land use is regional in nature, City Council is to consider whether the use has a regional draw, implements current economic development policies, enhances the employment core and the city's attractiveness to regional markets, benefits from good freeway access, and complements the established character for the area. Furthermore, the subject site is located within a General Plan designated Growth Area - specific locations within the community that are most appropriate for development focus, and will best accommodate future growth, new development, and redevelopment.

Greater Airpark Character Area Plan

The Greater Airpark Character Area Plan designates the property as Employment land use within the Type C Development Type. This category includes an array of office, commercial, warehousing, and light industrial land uses that provide opportunities for business enterprises, as well as regional and local jobs. Within the Greater Airpark, Development Types help define the size and scale of development within various areas of the Airpark. Type C development represents medium to higher scale development, which supports pedestrian activity in the Greater Airpark. The subject site also has frontage to North Hayden Road, a designated Signature Corridor in the Greater Airpark Character Area Plan.

Zoning

The site is zoned Planned Community District, Industrial Park (P-C I-1) and is part of the Crossroads East Master Plan. Case 13-ZN-2020 approved the zoning for this site as well as a development plan and amended I-1 development standards.

Context

The subject property is located south of Loop 101 and east of N. Hayden Road and is presently vacant. Directly south of the proposed building location is the Perimeter Center industrial park, which is occupied by uses of similar intensity. Southwest of the building location is primarily single-story residential, single- and multi-family.

Adjacent Uses and Zoning

- North: Loop 101
- South: Office/Light Industrial, zoned I-1 PCD
- East: Loop 101
- West: Multi-family Residential, zoned P-C R-5

Other Related Policies, References:

- Scottsdale General Plan 2001, as amended
- Greater Airpark Character Area Plan
- Zoning Ordinance
- 13-ZN-2020: Approved a rezone from P-C to P-C I-1 including a development plan
- 28-DR-2020: Approved site plan, building elevations and landscape plan for a new office/industrial building for the Axon corporate headquarters
- Land Division Ordinance

IMPACT ANALYSIS

Plat

The proposed subdivision has been designed to meet all applicable city requirements, including access and utility service. The plat consists of three lots and associated rights-of-way, tracts and easements.

Policy Implications

This final plat is consistent with the zoning district map amendment case. All stipulations and ordinance requirements have been addressed for final plat approval. Approval of this request will enable the final plat to be recorded, establishing the lots, the rights-of-way and the Civic Use site as contemplated by the Development Agreement. The dedication of the Civic Use site is time sensitive for the City as multiple capital projects are planned for the site, and further delay of those projects could result in increased costs for those projects. Accordingly, Staff is requesting Council's authorization for possible deferral of bond and construction covenant requirements for the Developer until after recordation of the final plat. The developer will not be relieved of these requirements.

OTHER BOARDS & COMMISSIONS

Development Review Board

Development Review Board heard this case as a preliminary plat request on 4/7/22 and approved the request with a vote of 7-0.

Staff Recommendation to Development Review Board

Staff recommended that the Development Review Board approve the Axon preliminary plat per the stipulations, finding that the provisions of the Land Division Ordinance and the Development Review Board Criteria had been met.

STAFF RECOMMENDATION

Recommended Approach:

Staff recommends that the City Council approve the Axon final plat and allow for recording with the County Recorder through adoption of Ordinance No. 4556.
