

Civic Center Public Outreach Summary

Overview

A comprehensive public outreach strategy was used to communicate about and seek input on Scottsdale Civic Center. Communication focused on three major groups: the general community, business and property owners near Scottsdale Civic Center and event producers who regularly hold event at Scottsdale Civic Center.

Project Website

The cornerstone of all communication was the project website. All newsletters, mailings and social media post and signage directed interested parties back to the website.

Sections include:

- Project Status
- Project Overview
- Community Outreach (including the hosting of the Virtual Public Meeting)
- Exhibits
- Schedule
- Project History (with links back to the master plan)
- Frequently Asked Questions

Virtual Public Meeting

A Virtual Public Meeting was hosted on the website in May and June 2021. The virtual public meeting consisted of seven videos including a Project overview and more detailed presentations on several components of the project, including, West Paseo (Entry), West Bowl & Marshal Gardens, Civic Lawn & Botanic Gardens, The Social Hub, East Bowl and Public Art. In addition, several frequently asked questions and answers were available for people to review as well as exhibits of project elements. Comments were received by a survey form and through the phone hotline phone number. The project generated 48 comments from the community.

Project/Virtual Public Meeting Publicity

Mailing (Postcard Attached)

- 5,388 homes and business in proximity of Scottsdale Civic Center

Signage

- Mall entrances
- Library
- SCC

Electronic Publications

- Scottsdale Update
- Downtown Newsletter
- Library Newsletter

- Parks & Rec Newsletter

Social Media

- Facebook
- Instagram
- Twitter
- Nextdoor

Stakeholder Outreach

Prior to the virtual public meeting stakeholder outreach was conducted with two groups, event producers and business owners adjacent to Scottsdale Civic Center.

Event Producers

In collaboration with Scottsdale Arts, the City sent a notification letter and fact sheet produced specifically for event producers to those who regularly hold events at Scottsdale Civic Center. The letter included information on what we are doing and why, dates the facility will be unavailable, options for partial use, an offer to help find alternate locations and the timeline for public involvement. Materials were provided to Scottsdale Arts for any additional event producers who have questions.

Businesses Around Civic Center

Individual emails were sent to all businesses and property in the vicinity of Civic Center which informed them of the proposed plans and upcoming construction. Each property or business owner was offered the opportunity for a one-on-one meeting with the project team at their place of business. The project team held several of these meetings and provided renderings of what Civic Center would look like after construction from their place of business and addresses any questions they may have had.

Board and Commission Meetings

The project was presented to several city board and commissions. Each presentation focused on the aspects of the Civic Center Improvements that were most important to that particular board or commission.

Tourism Commission	May 18
Library Board	May 19
Parks & Recreation Commission	May 19
Historic Preservation	June 3

Scottsdale Civic Center Public Comment

Virtual Public Meeting May & June 2021

COMMENT 1

I like most of the plans. I do oppose losing so much open space, though. If you've ever visited the area in the evening, you'd notice just how much that open space is used by children playing, people picnicking and relaxing on blankets, and dogs running around (usually on leashes). So, leave more open space—we don't need the botanical gardens or the splash pad.

Also, the entire space should NEVER be closed for admission-only events. This space is funded by and for taxpayers and visitors to the city and should always be open for all to enjoy. It's not a for-profit area.

COMMENT 2

As you can see by my address I live right across the street from the proposed permanent Stage set up. I am concerned about the noise levels and increased traffic that will be generated by all these regularly occurring concerts. 80 decibels at 11pm at night is not an acceptable arrangement.

COMMENT 3

Only four years ago, money was spent on the master plan for this area. It induced green area and water features which are sorely missing in this updated boondoggle of a plan. Why on earth are there three bowl areas with so much grass and no water features? The water features keep the area cool and the wildlife is a pleasant addition. The current lawns could be turned into artificial grass and redesigned but the ponds should stay.

COMMENT 4

Hello - very nice job everyone! This looks amazing, I love the preservation but also look forward to the enhancements including the water savings. Plus the performance areas and the additional library entrance.

COMMENT 5

I liked the videos - great communication! Sounds like a ton of thought and consideration was put into the plan, so the space it will be used even more! Nice work, Michael

COMMENT 6

What a great and well-thought-out solution. My compliments to the design team. I have only one observation. I am a Downtown Ambassador. I am sure that you all are aware of the fact that the Downtown Ambassador Kiosk is located at the Front Door at Brown and Main. This has served as an excellent location to interact with the Public and Visitors. Your plan actually makes this an even more appropriate location for the Kiosk. Unfortunately, your current plan does not recognize this as the Kiosk location. Lake Flatto has done a wonderful job with all the other architectural elements of the Park. Maybe, they could be allowed to provide a design for the Kiosk so that it could be better incorporated into the overall plan. You discussed incorporating technology into the Park. The Kiosk is an excellent location to employee interactive video/internet to enhance a visitor's experience of the city. Please give this serious thought.

COMMENT 7

LOVE it!

Scottsdale Civic Center Public Comment

Virtual Public Meeting May & June 2021

COMMENT 8

Hi please try and keep a bunch of the original trees and the pond and make sure the ducks too! 😊

COMMENT 9

Great project and presentation.

Was there any thoughts / study on demolishing the large white building east of the Historical Museum and really open up the center to Brown St? This building seems to be out of place for Master Planning, and a real pinch point that physically provides separation of the center from Old Town.

Understand a significant cost, and no idea who owns the land, but feels like it would make a vast improvement in connectivity and sightlines.

COMMENT 10

The overall concept and design looks great. Thank you for designing it to save water and provide more shade. Is there any way to design upkeep so there does not need to be frequent leaf blowers and other noisy polluting machinery like currently? While there appears to be seating throughout the park, most of it does not look amenable to long periods of sitting, i.e. comfortable with back support. I spend many hours reading on a bench in the park and believe the park should be designed to accommodate locals who use the park frequently not just tourists passing through. It is also very distressing that the park will be basically unusable for a year and a half. I live 2 blocks away and typically go to the park 3-5 days per week or more. Is there anyway to keep some access for those of us who use the park frequently and also pass through it to go to the library, arts center and restaurants? Thank you for considering my comments.

COMMENT 11

It is great to see the improvements that the city is putting into the Civic Center area. I am a big fan of pedestrianized areas because it brings people together and creates a sense of place. If the city is hoping to make Scottsdale Civic Center more marketable for events, I believe the Historic Downtown area of Charlottesville, VA can be a good case study. This being said, installing something similar to Charlottesville's Downtown Sprint Pavilion at the proposed East Bowl/West Bowl can cater to bringing larger events to the area.

COMMENT 12

Great presentation, thanks.

I like that the grade of the west entry will be lowered to street level, this will open up views. In addition the access to the History Museum has been well thought out, the stairs and the ramps. The additions to this West Paseo will enhance the area, the moving of the Yearlings is also a great improvement, especially when the horses are given a sprucing up. I am a little concerned about the tree planting in this area given that the grade will be lowered. There was some discussion about porous pavement being utilized to harvest water, hopefully this can be worked out in design.

The 360 Canopy between the West Bowl and Central Lawn preserves the trees and is a very distinctive structure. Will performances be able to occur simultaneously on these two spaces? Also I note from the perspectives that the grade of the viewing areas appears flat. Will folks be able to see the performances if they are seated and there is no grade to allow one to see over the person in front of one. I also note that this is a concern for the East Bowl.

Scottsdale Civic Center Public Comment

Virtual Public Meeting May & June 2021

I agree that making the lagoons smaller allows the addition of other features like the Water and Fog Plaza.

The improvements to the Marshal Gardens and the addition of the Botanical Garden are very impressive.

I agree with the lowering of the grade for the East Bowl and taking out the existing rest room. The Allee opens up the entire area and will definitely improve sight views. Again a little concerned about folks viewing the performances. The performance structure is also very well designed and it makes sense to remove the existing water feature.

I note the care that has been taken in preserving all the art work in the area.

This is going to be a major improvement for such a special area, I can't wait until January 2023.

I agree that closing the area for construction makes a lot of sense. Access needs to be provided but allowing the contractors the most optimal working areas will speed the process.

COMMENT 13

Thanks for the opportunity to comment. I work in Scottsdale and live in Phoenix but I have used the COS civic center library and park with my family for years. Fantastic and creative designs and ideas! Very excited to see it become a reality. Great mix of uses and engagement of all areas of plaza/park. Very glad there will be a strong focus on children and family uses...especially the water/fog area! This child and family aspect will engage and attract multiple generations within (and from outside) Scottsdale to use and enjoy the area.

Some constructive feedback and ideas:

1) location and orientation of love sculpture seems strange as shown. Could its orientation be made adjustable by only City staff? (think giant lazy Susan) Love can turn on you...haha. 2) I think the splash area should have at least one water feature with some height that cascades, having just floor jets seems a little undramatic and monotonous for the kiddos. Maybe an 8ft tall wall with protruding rocks that creates a waterfall type effects with splashing as water cascades down? Could there be a fun yet educational theme to the splash area? e.g. the water cycle rain/cascade, meandering rivers/jet, lake, and then back to rain/cascade? Lagoons could be ocean where water ends up. Maybe some artistic rendering of a cloud could provide the rain/cascade? Fog could surround it! There should definitely be some shade in water activity area for respite from the blazing July sun for really little ones. 3) Reading tree in children's garden seems small, not very dramatic or much shade, Idea: Some artificial trunks that serve as little natural desk(s) for reading or activities and allows for a real tree to grow out nearby and provide shade? 4) Will colored lights be integrated into the water and fog area? Could be dramatic at night. 5) Will outdoor shade areas/canopies have ceiling fans, overhead lighting, or public outlet or charge stations? 6) The rose garden fountain area won't have much shade in the summer. Paloverdes don't provide much shade and will be very messy with fountain at low point. Would be nice have some stronger shade elements in area or temp accommodation for summer. 7) Lagoon ponds seem to lack orientation symmetry (with respect to city hall) and lack shape/form symmetry, this is probably by design, but it bothers my personal symmetrical sensibilities:)

COMMENT 14

This is very exciting! Two questions:

- Will there be any plan for temporary shade structures for attendees of live performances on the lawn?
- Will there be a splashpad of any kind either near the Children's Garden or Water + Fog Plaza?

Scottsdale Civic Center Public Comment

Virtual Public Meeting May & June 2021

Thank you,
Kate

COMMENT 15

I would really like for at least one of the beautiful banyan trees to remain. A kids fountain/splash pad would be a great addition.

COMMENT 16

I am dissatisfied with regards to the LOVE statue's location being upended. Now it just looks like someone placed a statue randomly in the middle of a walkway. Personally, I do not think any changes need to be made, save for the botanical garden. More desert plants is always a great idea.

COMMENT 17

Overall, I think the improvements suggested will be a net positive. However, I think there are some changes that should be made.

1. Reconsider the use of Palo verde trees. Although they use minimal water, they actually provide very little shade and they dump tons of pollen and allergens into the air when they bloom. If you are trying to get people to come to the area, that is not conducive for that type of environment. Most people deal with seasonal allergies, and you will be creating a space that will make people physically uncomfortable to be in for a good portion of the year. There are other dozens of low water use tree alternatives that can be used that do not cause people to have severe allergies.
2. None of the plans seemed to show the rose garden remaining in the plaza. Many people come to the civic center to see the roses when they are in bloom to admire the beautiful flowers. If the roses have to be pulled up to re-grade the area, please relocate them to an area where you are planning on having flowers.
3. There needs to be more true shade that is provided if new structures are being built. Many of the supposed "shade canopies" will actually provide very little respite from the heat, as they are either dotted with holes or would cast very minimal shadows on the area around them. Although the designs for some of the shade canopies would not be as beautiful, consider making the overhead coverings a roof without holes in it.
4. People are probably going to steal any kind of game tables or game related items that are set out, or quickly damage nets and the like. I wouldn't recommend adding that feature as it will be gone or destroyed within days.

COMMENT 18

This plan is so beautiful and exciting that the videos literally brought tears to my wife's and my eyes. Thank you for all of your efforts to help make Old Town Scottsdale an even more amazing destination! To help maintain the beauty and safety of the completed project, what efforts will be made to reduce or eliminate vagrancy in the area? Thank you!

COMMENT 19

As highlighted numerous times by the PLA, mature tree protection is paramount in the execution of the vision. Please require and enforce wide tree protection zones, use of woody mulch to prevent compaction of soil and arborist consultations for any required pruning during construction. Consider the changes in microclimate including reflected heat and supplemental irrigation from turf areas. We were

Scottsdale Civic Center Public Comment

Virtual Public Meeting May & June 2021

happy to hear the considerations for rooting and soil texture by the designer, ensure the contractor shares the same considerations. Create the right places for the right trees.

Ensure the Parks department has the on-going funding and resources to maintain the area amenities and aesthetics. Consider maintenance and cleanliness of amenities, especially when monsoons test the structural integrity and cover surfaces in dust.

West Paseo- Much better flow to the area and we like the elevated commercial patio. The sunken feel of The Old Town Tavern should be preserved. Hard to visualize how the sculpture shade is supported?

West Bowl- We love the concepts of the Marshall Garden wedding area and the 360 degree small stage/patio. There is concern for the Bayan trees and their proximity to the structure, but like the concept of forest like feeling. Will the forest patio be an expansion of the commercial patios or remain a public space?

Civic Lawn- Wide walkway of the historical loop for market setup is great concept, Peoria's Centennial Plaza has too tight of a walkway for vendor tents. Highlight the history of AZ, good and bad with perspective to reinforce equality, McCormick/Stillman is good example. Definitely need to improve the visual color of the terraces, consider simple maintenance sculptures due to limited accessibility. The botanic gardens feels like a filler of space, already DBG and Xeriscape Garden of similar nature. Please bring back the rose gardens to this area, Rachel loves photos with the roses and there's a potential partnership with the Boyce Thompson rose collection.

Social Hub- Absolutely love the concept of a splash pad providing water to the lagoons then stored for use as irrigation, smart and should be highlighted with signage! We appreciate the focus on pollinator gardens and LID bioswales, but need educational signage. Unique play opportunities are all well suited to the area, however, some of the depicted children amenities lack consideration for theft, vandalism and vagrancy. Are the accessories associated with the game tables borrowed from the library or bring your own?

East Bowl- Finally a permanent stage structure that's not built over a fountain! Pay close attention to the regrading of the slope to not lose line of sight to the stage. Stage structure itself is beautiful and we appreciated the consideration of rainwater harvesting (RWH) and bioswales. The aesthetics of criss-crossed walkways and desert plantings coming into the space from 75th St. seem to lack consideration for concert operations. Light, sound and instrument load in and load out appear tight and quickly Roadies will damage the landscape with their equipment crates. Use large walkways with storage pads and identify where within the east bowl the sound board will reside. Install the necessary infrastructure, that avoids the annoying trip hazards of cable trays, in a manner that allows easy upgrades for emerging performing arts technologies.

Public Art- Why only north Scottsdale? Couldn't the relocated art be included in the Indian Bend Wash redesign? Move the Bicycling Art scavenger hunt to the MUPs of the wash and out of Old Town where pedestrian and vehicle congestion make bicycling tricky. Yes, it floods but there are spots to make it work.

Thank you for allowing the opportunity for comment. Please don't hesitate to contact us for clarifying questions. Proud of Scottsdale staff for supporting tree/vegetation protections and RWH.

Brandon and Rachel Putman

Scottsdale Civic Center Public Comment

Virtual Public Meeting May & June 2021

COMMENT 20

I am NOT in favor of eliminating " the fountain of youth " fountain on the Scottsdale Mall. It can be rebuilt and remain. my father designed and helped promote the purchase of this art work which is technically a work of ART as sculpture. The citizens of Scottsdale donated and supported this work and it should not be trashed by someone's desire to accomplish a design concept. the history of the work matches the building of the mall and stands as a reminder to those that made it all happen as far as the civic center .Let us not trash our cities history as so many have in the past that nothing remains as we move into the future.

COMMENT 21

Thank you for the opportunity for input. I saw the presentation as a member of the Library Board. So impressive! I believe this is well planned, thoughtfully crafted and been shepherded around in an open and receptive manner. I love the arts components, the sensitivity to the existing Library, conservation components and the eye to history and sustainability of impacted businesses and neighbors. Brilliant!

COMMENT 22

I think it's great that the Civic Center area is being redesigned, re-imagined and repurposed. After the park area was closed due to the rotting of concrete overpass and then redone - it looked like it was time for a fresh approach to the Center.

I think the East Bowl area and the plans for a permanent stage are perfect.

It will attract more promoters, better musical acts and vendors and make Scottsdale even more of a reason to visit this area!

I hope the architects know that there are cables running underground from the high slope to the water area where the stage was built for concerts. That was one great idea back when the area was designated for music.

COMMENT 23

Please make sure the history of Scottsdale portion is inclusive of our Native American and Hispanic influences, as well as our Western Cowboy heritage. Overall, looks great. Looking forward to enjoying the finished product.

COMMENT 24

Leveling the grade and design from Brown/Main to the West Bowl will lose the "slow down, relax, and meander" attitude, atmosphere, and character that now exists. I hate to see that removed/changed. The proposed design suggests none of that.

COMMENT 25

Please consider eliminating all palm trees from the design. They are not indigenous and seem to present an image that is not consistent with the rest of the proposal. In addition, using palm trees evokes images of other cities in the Valley and I don't like the idea of being a "copy-cat" city.

Aside from the above comment (about which I feel very strongly), the plans are exciting, beautiful, and welcoming.

Scottsdale Civic Center Public Comment

Virtual Public Meeting May & June 2021

COMMENT 26

I'd like to see more explanation/images of how the grading/elevation changes (flattening) would affect the existing buildings/businesses along the west end (toward Brown Ave) of the project. Will the owners of those businesses have input into these changes?

Including more local history in the project would provide continuity to the context with the Brown Avenue and Old Town. Early history of the area would include the Eskatel Barrio, the Little Red Schoolhouse (Scottsdale History Museum), the Chew family history of Mexican Imports, the Old Adobe Mission, Los Olivos, and the Noriega homestead. Keeping the statue of Winfield Scott near the Scottsdale History Museum seems appropriate. Perhaps this could be included through an historically narrative pathway inlaid in the walkways throughout the project. The 5 C's of Arizona might be another feature of the project, with the three: cotton, cattle, and citrus representing the early days of Scottsdale.

The inclusion of a children's garden/play space is very important to this area. There has not been an outdoor space for this segment of the population in this area, and it is needed. Although only a small portion of the project, I would be in favor of expanding this space for the benefit of both locals and visitors with children.

The proposed patterned tile in the Marshall Garden area and the layout strikes me as very Mediterranean in flavor, which doesn't particularly reflect the southwest. Perhaps this area could be explored with a more organic approach, which would flow better with the overall bowl/lawn shapes.

Thank you for your beautiful presentation and explanations.

COMMENT 27

Congratulations on a beautifully contemplated and thoughtfully designed project! I loved everything, but especially the East Bowl installation for larger events and can see it has adequate access for production load-in, set-up, etc. My only question was whether the other performing spaces will have appropriate ease of access for those performers/organizations. I presume so, since you seem to have not missed anything, but thought it worth noting. Thank you and again, wonderful improvement to this important space and I can't wait to enjoy the finished product!

COMMENT 28

It is so exciting to see the Civic Center brought into this century! The upgrades will increase usage by patrons who live farther away. The various stages are very smart and the fact that they will all contain the elements needed for professional performances (lighting, electricity, shade cover, etc.) will greatly expand usage benefiting locals and tourists. A children's area very is nice, especially with the emphasis on the reading element, however the splash pad feels very out of place. It will cause complaints, disruptions and water messes in the restrooms. The walk-in entrance from downtown has been greatly improved, improvements to the alley outside of the parking garage are also needed.

COMMENT 29

The Scottsdale Civic Center Plaza is one of my favorite places in Scottsdale and a place that I am especially passionate about. I appreciate the thought and expertise in putting together these plans. With that said, although I do believe these concepts are brilliant and would be great implemented elsewhere, I firmly believe these plans are not suitable for the Civic Center Plaza. The Civic Center Plaza is a historic

Scottsdale Civic Center Public Comment

Virtual Public Meeting May & June 2021

site that has already unfortunately been tarnished over the years. In the 90s, the large, beautiful fountain was removed. Recently, in 2018, the creative opening of the bridge was closed and along with it the removal of an equally creative fountain, sculpture, and trees.

Some say that for something to be art, it can have no purpose other than itself. That definition perfectly describes the Civic Center Plaza. Its architecture is art and it does not need to become an event center in order to be appreciated. Architecture's greatest feature is that it is art that you can actually live and have experiences in. Admittedly, sometimes art is not convenient; it may be too expensive and require too much work, but that is the sacrifice we must make to preserve it. Art is all about being out-of-the-ordinary, and that is what makes it special. The original Civic Center Plaza design nailed this goal and there was nothing else like it in the world. Recently, it appears that we have forgotten about this purpose and focus too much on exploiting our resources just for function. In art, form comes before function.

There are other practical shortcomings of these plans being implemented at Civic Center Plaza. Firstly, I am unclear why it is insisted that we turn the Civic Center Plaza into an event center. I have seen only a few events take place at Civic Center Plaza, so I am unclear where this vast event space demand is coming from. Additionally, this new design would build three stages, but for what purpose? So that two bands can play back-to-back at the same time in the West Bowl and Central Lawn? And meanwhile another band can play just a few feet over on the East Bowl? The sound would likely be loud and distorting. Lastly, encouraging large crowds to gather around our historic government buildings is a bad idea. Events from last year show that unrest can happen, and it can be caused by vast misunderstanding, misinformation, and other causes that are beyond control (I am not implying any opinions to past events). We do not know what the future holds, but we can be wise in our plans to discourage unjust destruction to our shared, historic property. Implementing crowd control in our designs is a wise deterrent. An event center should be built elsewhere that can contain more amenities appropriate for an event center in the desert, including air conditioning and a proper floor that does not require reseeding.

Finally, claiming that Scottsdale citizens voted for this project is simply misrepresentation. The vote that included this project contained over a dozen items, each with little description and vagueness. If citizens were to vote on this project by itself, I am confident that Scottsdale citizens would vote no. There is a reason why the status quo (that approved this project in 2018) was ousted from power in last year's election. The bond money should rather be used to restore Civic Center Plaza to its original design by Jones and Mah, from 1986, which perfectly complemented the Bennie Gonzales buildings.

On a positive note, creating a botanical garden for display is a wonderful idea and should be implemented somewhere in the plaza.

COMMENT 30

Excellent and thorough presentation. Thanks so much for this! Extremely impressive and exciting upgrades to our favorite part of town! Please consider including multiple water fountains, if possible - particularly where there will be physical activities taking place. And maybe have designated locations for local vendors to sell snacks, drinks, treats, etc. But this all looks fantastic - and ready just in time for Super Bowl! Very fine work here - proud to live in Scottsdale!

Scottsdale Civic Center Public Comment

Virtual Public Meeting May & June 2021

COMMENT 31

I and my family watched all the presentations and reviewed the material. We live just north of the Civic Center Park and we are impressed! This is an exciting project and you've done a wonderful job with the design. We don't have anything we'd change and we just want to let you know how excited we are to see this project happen. Wonderful job with the design and the presentation!

Jeff and Lana Sharpe

COMMENT 32

Thank you for taking steps to make this area more water efficient in multiple ways.

It appears that there will be a reduction in parking in the area, yet part of the desired outcome is to be able to draw in larger events. How is the parking issue being addressed?

COMMENT 33

I designed and built Main Street Place, adjacent to the east bowl. I like much of the design work that is being presented.

However, when the Municipal Use Master Plan went thru the public process a few years ago, we worked with the design team and the City to accomplish the following:

1. Keep the Windows to the West sculpture and the fountain where they are today.
2. Move the Performance Pavilion from the East Bowl to the Center Bowl.
3. Limit the size of any stage in the East Bowl to a small shade canopy.

These discussions were reflected in the Plan by revisions and subsequent approval by the Council. The approved plan locates and labels these changes.

Why isn't the approved plan being followed?

When will there be a public hearing on the change of the master plan if its not being followed?

When will there be a public Design Review Board hearing?

Steven Voss

COMMENT 34

I would like the City to reconsider removing and shrinking the fountains in Scottsdale's Civic Center Plaza. I understand that water fountains use water, but the fountains are the real showpieces of the Civic Center Plaza as it stands today. It is so rare to have any water features in our beautiful desert, I would really hate to see two of these fountains completely removed and the other scaled way back. I am sure that these water features also provide a cooling effect to the heat island that our beloved Scottsdale is quickly becoming. There must be ways we can conserve water while also protecting these fountains, such as by using reclaimed water. Saving water usage equivalent to 125 home's usage is nothing in the grand scheme of things. The fountains are too beautiful to lose! I sincerely request that this plan be reenvisioned to include maintaining the current fountain layout in the plaza. Thank you.

Scottsdale Civic Center Public Comment

Virtual Public Meeting May & June 2021

COMMENT 35

The Scottsdale Memorial for the Fallen should be included in these plans and funded as might be appropriate.

COMMENT 36

I am not in favor of the drastic reduction of the lagoons. This area has always been a pivotal part of the east end of the plaza and provides a much needed change from the desert motif. Adding even more desert landscaping and reducing the size of the lagoons will simply destroy the wonderful calming feeling that exists in this area. Water has always been part of the Arizona/Scottsdale story (canals, rivers, monsoons) and, while I understand the desire to save water, ruining this beautiful part of the Civic Center is not the way to go. (And, BTW, I miss the swans).

Also, while I understand the need for accessibility, the proposed western entrance from Brown and Main looks like a generic shopping mall not a park/civic plaza. (Kind of like Kierland and the Quarter). Part of the charm of this area is the elevation change. It would be nice if some of this could be retained. If you want to go to a shopping mall we have plenty of them.

Most of the rest looks great. But if you have to cut anything I'd take from the children's area. Kids belong out in the neighborhood parks...not in the downtown entertainment core.

COMMENT 37

I worked in Scottsdale for 35-6 years, and have lived in the Scottsdale-Paradise Valley Area since 1976. From the 70s until the first revamping of the Civic Center area I found it a gorgeous venue and very usable. I have to say that the 'improvements' have made it confining and garish in many areas. It is worse, not better.

COMMENT 38

I agree with and adopt as my own many of the comments voiced by my neighbor in our condo building, Steven Voss. Specifically the following:

I like much of the design work that is being presented.

However, when the Municipal Use Master Plan went thru the public process a few years ago, Mr Voss worked with the design team and the City to accomplish the following:

1. Keep the Windows to the West sculpture and the fountain where they are today.
2. Move the Performance Pavilion from the East Bowl to the Center Bowl.
3. Limit the size of any stage in the East Bowl to a small shade canopy.

These discussions were reflected in the Plan by revisions and subsequent approval by the Council. The approved plan locates and labels these changes as described above.

Why isn't the approved plan being followed?

When will there be a public hearing on the change of the master plan, if as it appears, it is not being

Scottsdale Civic Center Public Comment

Virtual Public Meeting May & June 2021

followed?

When will there be a public Design Review Board hearing?

I respectfully urge the City to adopt the views of Mr Voss as cited above.

Please let me know the answers to my questions as soon as possible.

Thank you.

Jim Spizzo

COMMENT 39

There are many great ideas here, but I don't understand the purpose or function of the Terraces flanking the Civic lawn. It looks like a lost opportunity or afterthought. You mention a lighted 'book end' art installation. Eh. Sounds like high cost low impact. Why not shaded amphitheater seating? One of the drawbacks during Taste of Scottsdale is feeling like you're hoarded into a narrow space on the main walkways. Why not leave these as outlets around the main hub of the action. Also, the long range, elevated views (especially at sunset) was a feature of the bridges during the closing of the lawn to work on the overpass. These are the same areas as those bridges, right? They really seem like an afterthought now, instead of the unexpected surprise they became.

COMMENT 40

Really wish you could keep the lagoons in place in their current size. The lagoons and surrounding flowers make for such a wonderful space to walk around, picnic by, or simply sit and watch the ducks and smell the roses. I voted for making improvements, but this feels very commercialized which I would not have voted for had I known the plans.

COMMENT 41

When will there be a public Design Review Board hearing?

I respectfully urge the City to adopt the views of Mr Voss as cited above.

Please let me know the answers to my questions as soon as possible.

Thank you.

COMMENT 42

Whoohoo Thank you!

Great ideas...especially removing the fountain, saving our precious water supply, and adding the covered stage. We can't wait until 2023, to enjoy our revamped public gathering space!

COMMENT 43

I am a resident of 7502 East Main St. I wish to raise a concern that the City of Scottsdale may not have considered in the plan for Civic Center Plaza renovations. The Proposed East bowl concert area is right across the street from a residential area.The width of a city street to be exact. I am wondering if the city planners would enjoy a concert hall across the street from their home. We can already hear everything that goes on at the Saguaro Hotel and that is a considerable distance from our building. Having regular concerts across the street from our homes would create an extreme hardship for the residents in the form of noise pollution. It would make more sense to have the concert area in the center bowl where the city hall bldg would block at least some of the noise. It also seems more logical to have it closer to the parking garage for the convenience of concert patrons. It is also closer to the new restrooms.

I also have concerns about garbage, etc left by concert goers on the city streets. While the city will clean up the the east bowl, will they also clean up the residential area as well??

I understand that all of this was a concern to the developer of our bldg and that those concerns were raised with the city and amendments were made to the plan to move the concert arena to the central part of the park. I also understand that city council approved this amended plan. So why is it reverting back to an unapproved plan?

It makes far more sense to me to have the noisiest area in the middle of the park and reserve the east end for yoga, childrens play area. People already use this area for yoga because it is easy to get to and is quiet. The proposed children's and yoga area in the middle of the park is an inconvenient location as well as noisy. People with children will have to drag all their things a considerable distance from their cars to this area. Plus if all this was at the east end there would be no noise after dark to disturb the residents. I implore the city of Scottsdale to use common sense in this matter and move the concert area as per the approved/amended plan.

COMMENT 44

Hello - we love the Scottsdale Civic Plaza and have been visiting it since 1978. Its a shame that construction is going to disrupt the area right after basically being shut down for 18 months with the pandemic. So when we get to visit it again when weather cools down and pandemic is over - its going to be under construction and unusable. One option is begin new construction late spring 2022 after the April Culinary Festival and go through the summer when visitation is down anyway.

Scottsdale Civic Center Public Comment

Virtual Public Meeting May & June 2021

COMMENT 45

I hope the city plans to use the 1% for Public Art on commissioning and installing new art, as is intended by the city ordinance. It should not be used to move existing art as that is a cost of construction. Thank you.

COMMENT 46

any plan for area north of city hall

COMMENT 47

I think the new plan with all the loss of open green space is not good. It looks too much like classless suburbs of Phoenix with all the concrete and sharp edges.

Please keep as much green grassy areas as you can, so our kids and families can lie on the grass and be in the sun or shade. It is a true oasis now, and it benefits us all to keep it with as much of the current beauty as possible. Every day during the pandemic, I walked downtown, and it revived my spirit. Our Civic Center park area is so beautiful with the flowers and landscaping and amazing trees. Please keep as much of that beauty of nature as possible.

COMMENT 48

Very interesting project, and needed improvements. Questions: 1. Will the plaza re-open in stages, as different areas are completed? 2. Will there be any Sunday Affairs and art festivals before full reopening? If not, are there alternative venues?

Thanks.

PROJECT UPDATE

You're Invited to Participate in Virtual Public Meeting for Scottsdale Civic Center

This project will rebuild portions of Scottsdale Civic Center as the community's signature special event and public gathering space. In November of 2019 Scottsdale voters approved two bond questions, which contained funding to replace aging infrastructure and create public and event spaces in the Civic Center area.

To participate, visit the project website www.scottsdaleaz.gov/construction/project-list/civic-center-improvements by June 11. Click on the "Virtual Public Meeting" link, watch and listen to the presentations then submit your comments.

While there is a great deal of lush landscaping, public art and open space in the Civic Center area, it is showing its age in many ways including outdated restrooms, oversized fountains, and other structural and electrical deficiencies. These proposed improvements are based on the community outreach and Civic Center Municipal Use Master Plan that was approved by City Council in 2018.

This summer the project will move through the public hearing process. To have your comments included, please be sure to participate between now June 11 and let us know what you think.

PROJECT UPDATE

You're Invited to Participate in Virtual Public Meeting for Scottsdale Civic Center

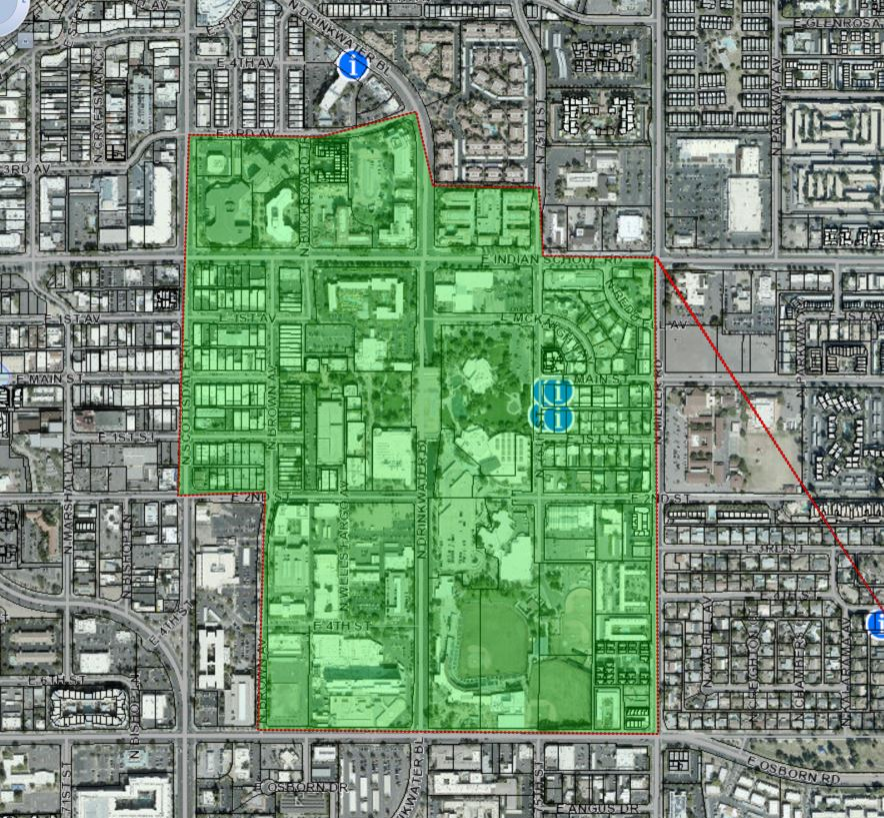

Virtual Public Meeting

Ends June 11
