RE: MS Bld. 4 - DRB Comment 19 - Public Art

To whom it may concern:

We would like to address our plans for the public art that is required for Building 4 in the Museum Square Development. We have asked local artist and architect Vern Swaback to come up with 4 different areas where we can showcase our public art. These areas include the following (with the cost added for each).

- Plaza Mural : \$165K fabricated and installed
- Artway Portal : \$95K fabricated and installed
- Filigree Pier : \$120K fabricated and installed
- Inflection Monument : \$60K fabricated and installed

We have also included a spec sheet for your review that will show in great detail the work that Mr. Swaback has created, we hope you will appreciate the intricate detail and thought that has gone in to this proposal. If you have any questions or concerns please reach out to me directly.
