Annual Fees for WCF in the ROW (Instructions) For Non-SWF Wireless Communication Facilities

The annual encroachment permit fees for wireless communications facilities in the rights-of-way categories above shall be administered according to the following rules:

- 1) The fee structure shall apply to the installation of any antennas, antenna structures, ground equipment, electronics, cabinets, and other appurtenances required or associated with the operation of a wireless communications facility (WCF) in the City's rights-of-way (ROW).
 - a. All existing WCF in ROW that have been constructed or received permits by July 2, 2009 will be eligible to have the annual WCF in ROW fee set at a rate of \$11,833 for FY 2020-2021 (July 1, 2020 through June 30, 2021). The rate of \$11,833 is subject to annual increases adopted by the City Council.
 - b. WCF sites in the ROW that were "on-air" prior to July 3, 2009 and are subsequently modified will be subject to the Annual Fees for WCF in the ROW when the vertical element is replaced or when the original ground mounted equipment is expanded.
- 2) Antenna Structures and Base Fee – In cases where the existing vertical element is replaced for structural purposes with a pole designed to support the antennas and cabling, the WCF will be categorized as being installed on an existing vertical element. The Antenna Base Fee includes up to 50 cubic feet of ground equipment and any electrical conductors necessary to operate the WCF site.
- 3) Ground Equipment Fee – The ground equipment measurement is calculated by the size of a flat, four-sided "box" (parallel sides of equal length) with a top panel that is parallel to the ground so that the box will cover the ground equipment from the top of the equipment to the ground (non-improved dirt surface), and from side-to-side, including any foundation or pad for the equipment. For situations where there is more than one ground equipment fixture or cabinet (adjacent to each other or within the same use area), the equipment fixtures, cabinets and generators are deemed to be part of the same contiguous ground equipment space and will be measured together within the same box. Any Remote Radio Heads or Remote Radio Units mounted to a cabinet, post or wall in the same area with the ground equipment shall be included in the measurement for the ground equipment. Electrical meters and telecom pedestals are not included in the ground equipment.
- 4) WCF site that has both the vertical element and ground equipment in the ROW will be assessed an amount equal to the Antenna Base Fee plus the Ground Equipment Fee, except that:
 - A) WCF sites that have the antennas installed on a vertical element in the ROW but the ground equipment installed on private property will be assessed the Antenna Base Fee only.

B) WCF sites with antennas on a vertical element located on private property but with the ground equipment in the ROW, will be assessed the Ground Equipment Fee only. If the ground equipment is less than 50 cubic feet, the annual Ground Equipment Fee shall be the actual cubic feet of the ground equipment multiplied by the FY 2020/21 fee of \$37 per cubic foot. If the ground equipment is greater than 50 cubic feet, the applicable ground equipment fee shall apply as provided in the schedule on page 1 of the Annual Fees for WCF in the ROW document.

5) All WCF in the ROW must have an Antenna Site Right-of-Way License Agreement (ARLA) document submitted to the City for each WCF site installed and operated in the ROW.

6) An invoice for the annual WCF in the ROW permit fee is sent to the person and address provided on the ARLA document, one month prior to the anniversary of the ARLA permit issuance date.

7) The ARLA is an encroachment permit allowing the WCF to be in the ROW; a WCF owner or applicant must obtain a "Permission to Work in the ROW" permit to construct, repair or maintain the WCF site.

8) The annual WCF in the ROW permit fee does not include fees and charges for any other planning & development fees, permits, plan review fees, inspection fees, or any other services or approvals that may be required by the City of an owner or applicant of a WCF in the ROW.

Review Methodologies

The city of Scottsdale maintains a business and resident friendly approach to new development and improvements to existing developments. In order to provide for flexibility in the review of Development Applications, and Applications for Permitting, the city of Scottsdale provides two methodologies from which an owner or agent may choose to have the city process the application. The methodologies are:

1. Enhanced Application Review Methodology

Within the parameters of the Regulatory Bill-of-Rights of the Arizona Revised Statutes, the Enhanced Application Review method is intended to increase the likelihood that the applicant will obtain an earlier favorable written decision or recommendation upon completion of the city's reviews. To accomplish this objective, the Enhanced Application Review allows:

- the applicant and city staff to maintain open and frequent communication (written, electronic, telephone, meeting, etc.) during the application review;
- city staff and the applicant to collaboratively work together regarding an application; and
- city staff to make requests for additional information and the applicant to submit revisions to address code, ordinance, or policy deficiencies in an expeditious manner.

Generally, the on-going communication and the collaborative work environment will allow the review of an application to be expedited within the published Staff Review Time frames.

2. Standard Application Review Methodology:

Under the Standard Application Review, the application is processed in accordance with the Regulatory Bill-of-Rights of the Arizona Revised Statutes. These provisions significantly minimize the applicant's ability to collaboratively work with city Staff to resolve application code, ordinance, or policy deficiencies during the review of an application. After the completion the city's review, a written approval or denial, recommendation of approval or denial, or a written request for additional information will be provided.

The city is not required to provide an applicant the opportunity to resolve application deficiencies, and staff is not permitted to discuss or request additional information that may otherwise resolve a deficiency during the time the city has the application. Since the applicant's ability to collaboratively work with Staff's to resolve deficiencies is limited, the total Staff Review Time and the likelihood of a written denial, or recommendation of denial is significantly increased.

In addition to the information above, please review the Development Application, and/or the Application for Permitting flow charts. These flow charts provide a step-by-step graphic representation of the application processes for the associated review methodologies.

- C. A municipal inspector or regulator shall obtain the signature of the regulated person or on-site representative of the regulated person on the writing prescribed in subsection B of this section indicating that the regulated person or on-site representative of the regulated person has read the writing prescribed in subsection B of this section and is notified of the regulated person's or on-site representative of the regulated person's inspection and due process rights. The municipality shall maintain a copy of this signature with the inspection report. Unless the regulated person at the time of the inspection is informed how the report can be located electronically, the municipality shall leave a copy with the regulated person or on-site representative of the regulated person. If a regulated person or on-site representative of the regulated person is not at the site or refuses to sign the writing prescribed in subsection B of this section, the municipal inspector or regulator shall note that fact on the writing prescribed in subsection B of this section.
- D. A municipality that conducts an inspection shall give a copy of, or provide electronic access to, the inspection report to the regulated person or on-site representative of the regulated person either:
1. At the time of the inspection.
 2. Notwithstanding any other state law, within thirty working days after the inspection.
 3. As otherwise required by federal law.

- E. The inspection report shall contain deficiencies identified during an inspection. Unless otherwise provided by law, the municipality may provide the regulated person an opportunity to correct the deficiencies unless the municipality determines that the deficiencies are:

 - 3. Evidence of a pattern of noncompliance.
 - 4. A risk to any person, the public health, safety or welfare or the environment.

Within thirty working days of receipt of notification from the regulated person that the deficiencies have been corrected, the municipality shall determine if the regulated person is in substantial compliance and notify the regulated person whether or not the regulated person is in substantial compliance, unless the determination is not possible due to conditions of normal operations at the premises. If the regulated person fails to correct the deficiencies or the municipality determines the deficiencies have not been corrected within a reasonable period of time, the municipality may take any enforcement action authorized by law for the deficiencies.
- G. A municipality's decision pursuant to subsection E or F of this section is not an appealable municipal action.
- H. At least once every month after the commencement of the inspection, a municipality shall provide the regulated person with an update, in writing or electronically, on the status of any municipal action resulting from an inspection of the regulated person. A municipality is not required to provide an update after the regulated person is notified that no municipal action will result from the municipality's inspection or after the completion of municipal action resulting from the municipality's inspection.
- I. This section does not authorize an inspection or any other act that is not otherwise authorized by law.
- J. This section applies only to inspections necessary for the issuance of a license or to determine compliance with licensure requirements. This section does not apply:

- L. Failure of a municipal employee to comply with this section:
 - 1. Constitutes cause for disciplinary action or dismissal pursuant to adopted municipal personnel policy.
 - 2. Shall be considered by the judge and administrative law judge as grounds for reduction of any fine or civil penalty.
- M. A municipality may adopt rules or ordinances to implement this section.
- N. This section:

 - 2. Does not apply to a municipal inspection that is requested by the regulated person.

Requirements for Submitting Evidence of Title to the City of Scottsdale Planning Department

The City of Scottsdale planning department requires applicants for various zoning applications, building permits and other approvals to provide evidence of land ownership. Unless city staff directs otherwise, the required evidence shall be a title insurance commitment meeting the following requirements:

1. The applicant shall instruct the title insurance company to prepare a normal title insurance commitment.
2. The title commitment must cover the whole project site, just as if the city were a commercial real estate developer who was going to buy the whole site from whoever owns it today.
3. The title insurance commitment must be in the same form and have the same wording that the title insurer usually uses when a sophisticated real estate purchaser is buying land from a sophisticated seller. For example, it must not have any extra notes, disclaimers or other language that is not in a normal title insurance commitment for a straightforward land purchase.
4. The City of Scottsdale must be listed as the proposed insured.
5. The proposed insurance amount must be a reasonable estimate of the actual dollar value of the whole site. (The price for the most recent arms-length sale of the whole site is usually an acceptable amount.)
6. The Schedule B requirements must call for:
 - a. A deed from the current owner to the city.
 - b. Releases of all liens, as if the city were going to pay cash for the land and not assume any liens or take subject to any liens.
 - c. Termination of all leases. (Leases with 24 or fewer months remaining in their term may be listed in the Schedule B exceptions instead.)
 - d. Any other specific payments or specific document recordings that the title insurer would normally call for (such as payment of delinquent property taxes).
7. The Schedule B exceptions must show any other specific title matters that may exist.
8. Title companies sometimes state in their title commitments that they will update the title search before issuing a title insurance policy. That's o.k. if the language is clear that the update will only include new title documents that are recorded after the title commitment date. For example, it is o.k. to have wording that says: "Additional items may be added based on new documents recorded before closing." But there must not be vague wording such as this: "Check with title examiner for additional items before closing."
9. The title search date on the title commitment must be less than 30 days old.
10. Both "standard coverage" and "extended coverage" title commitments are acceptable. (The title information on an extended coverage commitment must be identical to the title information that would be on a standard coverage commitment. The only difference is that the Schedule B requirements for an "extended coverage" commitment will call for a survey and will allow the title company to add Schedule B exceptions or requirements for any problems the survey reveals.)
11. There is no need to open an escrow to make a routine dedication. The city will record the dedication directly without sending it through the title company. Often, the city will not actually buy the title insurance described in the commitment or require the applicant to buy it. But, if the city decides to do it (or require the applicant to do it), then the city or the applicant will follow up with the title insurer to pay the insurance premium and satisfy the Schedule B requirements so that the title insurer will issue the policy.
12. The applicant shall inform city staff in writing of any and all title changes that occur after the title commitment is issued.
13. The city reserves the right for city staff to require additional evidence of title, including but not limited to an extended title insurance policy in favor of the city.
