Re: 4141 Scottsdale
Prj No: 21062

Attn: Katie Posler

There will be no significant addition to the existing water and sewer system for the new lobby addition at the 4141 Scottsdale building. The existing domestic water and sewer service lines are adequately sized for the lobby addition and no changes in sizes or locations are proposed, nor are new connections needed/proposed. Thank you.

If you have any questions, feel free to contact me. Thank you.

Sincerely,

Chris Bailey

Principal
