PRELIMINARY Basis of Design Report	
<input type="checkbox"/> ACCEPTED	
<input checked="" type="checkbox"/> ACCEPTED AS NOTED	
<input type="checkbox"/> REVISE AND RESUBMIT	
<small>Disclaimer: If accepted, the preliminary approval is granted under the condition that a final basis of design report will also be submitted for city review and approval (typically during the DR or PP case). This preliminary approval is not a guarantee of sewer design and analysis requirements as defined in the city design standards and policy manual and addresses those items noted in the preliminary review comments (both separate and included herein). The final report shall be submitted and approved prior to the plan review submission. For questions or clarifications contact the Water Resources Planning and Engineering Department at 480-312-5685.</small>	
BY: <u>apitchard</u>	DATE: <u>7/16/2023</u>

As noted below, sewer was removed from project.

Re: **Fairmont Scottsdale Princess - Parking Structure**
Wastewater Basis of Design Report
DRB #5-DR-2023
Key Code #917V0
WP# 215319.40

To Whom it May Concern:

The following revisions were incorporated into the proposed Fairmont Scottsdale Princess Parking Structure Improvement Plans during final design:

- The proposed restroom was eliminated from the project.
- The proposed stormwater sand/oil separator now discharges into the storm drain system, not the sanitary sewer system.

As a result of the above revisions, the proposed sanitary sewer service connection to the existing public wastewater collection system was entirely eliminated from the design. Therefore, a Wastewater Basis of Design Report is no longer applicable for this project.

Please contact our office if you have any questions or comments regarding this project.

Sincerely,

Wood, Patel & Associates, Inc.

Darin L. Moore, PE
