Subject: Scottsdale Road Project Narrative

This is what we have been using for the public. Hoping it will work for your purposes as well.

Erin

Scottsdale Road Improvements Jomax Road to Dixileta Drive

This project will design and construct a series of improvements to a two-mile segment of Scottsdale Road from Jomax Road to Dixileta Drive, including the intersection of Scottsdale Road and Dynamite Blvd.

Consistent with the City's Transportation Master Plan, this project will convert this section of Scottsdale Road to a complete street including updates to the major intersections, landscaped medians, bike lanes, sidewalks and trails to improve safety, capacity and accessibility for motor vehicles, bicycles and pedestrians. Existing signalized Dynamite Boulevard will be replaced with a multi lane roundabout.

This project will include the design of:

- 8-foot wide separated sidewalk on the west side
- 10-foot multi use path or 8-foot trail on the east side
- multilane roundabout at the intersection of Dynamite Boulevard
- High intensity activated crosswalk (HAWK) crossing at Pinnacle Vista Drive
- 150-foot of right of way (targeted)

- Eliminate wet crossings
