Subject: PROPOSED ROUND ABOUTS

⚠ External Email: Please use caution if opening links or attachments!

Good morning,

My name is Andrew Gervase and I have lived in Scottsdale over 50 years. I have witnessed Scottsdale's new fascination with roundabouts and cannot understand why. In every place roundabouts have been installed they have served to completely disrupt proper travel. I personally have to endure the Dynamite and 136 th street roundabouts daily. I specifically avoid Hayden road and Raintree area as that roundabout is even worse. Every single one of my friends and neighbors I have spoken with feel the same way. Dynamite SHOULD have been widened prior to Trilogy community going in. This SHOULD have been 2 lanes each direction with left and right turn cut outs. Now the city is proposing the same thing at Dynamite and Scottsdale road. This is absolutely ludicrous.

I have lived here long enough to witness this city never met a developer they did not love as well as having a climate of not listening to its citizens. I am not hopeful that the powers that be will even listen to the people on this but I will try any way.

Please do the right thing and NO MORE ROUNDABOUTS. Most people are completely ignorant about how to properly maneuver a roundabout. They come to a complete stop when it is not required, they "stutter step" while driving as you can tell the driver is confused, traffic flow is impeded greatly.

Please stop with the roundabouts.

Thank you

andy gervase
