Good afternoon,

This initial term of this agreement is February 1, 2025 - January 1, 2026, and renewed for an additional one-year term.

HH did say they do not anticipate using the library parking lot until January 2026 – they will eventually have space on their construction site to store their equipment/materials.

Thanks.

Thank you for clarifying, Judy. That makes sense. Also, will there be a specified timeframe for them to use the Library for construction purposes?

-Wayland

Hi Wayland,

Just to clarify – the terms of the agreement are to repair/reseal/etc. the entire library parking lot in lieu of the fees...

Please let me know if you have any questions.

Thanks.

Hi All,

Thanks for the background info. It sounds like we've had some initial dialogue with the HH team up to this point and a formal agreement is in the works. If the agreement goes to Council in December, then that'll line up well with the Design Review timeline that will occur sometime after (likely on one of the January hearing dates). If HH agrees with the terms of the agreement and the calculated fees/costs, then I think we're in a good position to move forward with the garage proposal.

Thank you,

-Wayland

Hi Judy,

If I can get the square footage of the area they intend to use and the number of weeks I can calculate that for you. I will also need a scaled site plan.

Mike

Subject: RE: New Construction - HonorHealth Shea Parking Garage

Good afternoon,

Wanted to give an update following today's meeting with HH.

HH will not be using the roundabout – they will be using Cochise for their haul route. HH will be sending me an updated map clearly marking their construction traffic routing.

HH will also send me an estimate to repair, grind as needed, patch cracks, reseal, and restripe the city's entire library parking lot. I will work with Mark M. and Justin to verify the estimate.

Who from planning can I work with to calculate the Marshalling Yard fee? I need to ensure the parking lot repair/reseal/etc. is equal to or more than the fee we would impose (HH has budgeted \$100k for our parking lot work).

Thanks.

Good morning,

I should have also mentioned in my email that in exchange for use of the lot, HH will repair, grind as needed, patch cracks, reseal, and restripe the city's entire library parking lot – not just the spaces used for storage.

Thanks!

Importance: High

Good morning,

Mike Beck (Library Director) and I have been in contact with HH regarding use of the Mustang Library's parking lot for construction storage while building their parking garage.

Mike and I are scheduled to meet with HH today at 2pm at the Mustang Library to discuss further, if anyone would like to join us. (If so, shoot me an email and I'll forward you the invite).

Attached is the draft agreement and accompanying exhibits (Karen for your review). We prefer to get this in front of Council in December before they go on winter break. Please let me know if you have any concerns with this timeline.

Please let me know if you have any questions,

Thanks!

PS – Bill Murphy did forward me the comments/questions from Eliana and Mike C.

Thanks, Bill. Mike and I are scheduled to meet with HH on Monday to discuss the plan they worked on following our initial meeting on how they will use the Mustang Library parking lot for construction storage while building the HH parking garage.

Michelle Pabis is working on the use agreement and like you prefers to get in front of Council before they go on winter break.

Wayland, let me know if you would like me to forward you (and/or others) the meeting invite.

Thanks!

Wayland,

I will want to include Judy Doyle CS Asst. Executive Director and Mike Beck our Library Director in your meetings. They have been in contact with Honor about this new construction project and impact to Mustang Library.

Thanks

Bill

Subject: New Construction - HonorHealth Shea Parking Garage

Hi All,

A new 4-story parking garage has been submitted for the HonorHealth Shea site under case #: 26-DR-2024, and their construction plan aims to use City property. Specifically, the Mustang Library parking lot to the south. Please see the aerial image below and the attached construction plan for more info. From what I understand, they're trying to minimize traffic impacts to the roundabout so this appears to be their only option. At this time, I would like to field possible questions, comments, concerns, etc. from other departments to help further coordinate this item and possible stipulations to be added at the case-level prior to final plans & permit issuance.

Please forward this item to others as needed and let me know if a Teams meeting is preferred to discuss it more. We anticipate going to hearing in January.

Thank you,

Wayland Barton
