Not the intent of the law

Airport Extends north to Fillmore. Only limits building height. 1325 feet to 1650 feet. .

FAA passed amended regulations a decade ago mandating reactivating land surrounding any airport.

Scottsdale is trying to be cute and will get lots of bad press once everyone figures this out

Hi Larry;

Airport zones are called out in the legislation to be exempt from some of the new bills not all of them.

Best,

Jim

Jim It appears someone is trying to use the airport zone to et around the new law

City should watch out

Best
