HISTORIC PRESERVATION COMMISSION REPORT

Meeting Date: 11/5/2020
General Plan Element: *Preservation and Environmental Planning*
General Plan Goal: *Enhance the quality of life in Scottsdale by protecting historical and archaeological resources.*

ACTION

Case Name: Helferich Townhouse Driveway Pavers

Case Number: 77-HP-2020

Location: 7636 E Thornwood Dr

Request: Request approval of a Certificate of Appropriateness-Historic Resources to replace a concrete driveway with concrete pavers and add concrete pavers in the front yard at an existing townhouse in Villa Monterey Historic District.

OWNER/APPLICANT

James and Lynn Helferich
(701) 471-3412

BACKGROUND

Zoning

The site is zoned Townhouse Residential, Historic Property (R-4 HP). The Historic Property overlay designation was approved by City Council on June 7, 2011 (4-HP-2010 and 13-ZN-2010).

Historic Preservation Plan

Interim Historic Preservation Guidelines for Villa Monterey Units 1-7 are currently in effect. The interim guidelines are modeled after the guidelines for the Village Grove 1-6 Historic District subdivision. Currently, an update to the interim guidelines, Case 4-HP-2010#2 Villa Monterey Units 1-7 Historic District Historic Preservation Plan and Guidelines, are being prepared for future action by the Historic Preservation Commission.

The owner received a Certificate of No Effect to replace doors in the carport (42-HP-2020) and to repaint the townhouse (77-HP-2020#2).

Context

The property is located on the north side on East Thornwood Drive east of North 76th Place.

Adjacent Uses and Zoning

- North Existing residential townhouses in Villa Monterey Unit 3A, zoned Townhouse Residential, Historic Property (R-4 HP)
- South Existing residential townhouses in Villa Monterey Unit 3A, zoned Townhouse Residential, Historic Property (R-4 HP)

- East Existing residential townhouses in Villa Monterey Unit 3A, zoned Townhouse Residential, Historic Property (R-4 HP)
- West Existing residential townhouses in Villa Monterey Unit 3A, zoned Townhouse Residential, Historic Property (R-4 HP)

Key Items for Consideration

- Compliance with the Interim Villa Monterey Units 1-7 Historic Preservation Guidelines
- Interim Guidelines do not identify driveway materials/finishes
- Applicant has provided HOA approval letter

DEVELOPMENT PROPOSAL

Description of Historic Property

Villa Monterey Units 1-7 Historic District consists of 758 homes and 13 common tracts. Its boundaries are generally the Arizona Canal to the west, East Medlock Drive on the north, East Meadowbrook Avenue to the south and North 79th Place on the east.

Villa Monterey Units 1-7 Historic District is an example of typical post-World War II townhouse development practices from the 1960s in Scottsdale. Villa Monterey Historic District is considered historically and architecturally significant as a collection of homes that illustrate a particular type of building, and a development pattern that was influential on the physical form of Scottsdale in the postwar era; and remains discernible and distinctive today. Furthermore, it is associated with an individual, David Friedman, who pioneered successful practices that influenced how townhouses were subsequently developed in Arizona.

Although varied in their styling and detail, Villa Monterey townhouses have certain architectural features that define the style. These features relate to the technological, social and economic influences which shaped the building of the postwar era. They also provide a sense of scale and aesthetic quality to the façade of a building. Consequently, it is important that these character-defining features be preserved and receive sensitive treatment during exterior rehabilitation and restoration work

There have been multiple cases recently within Villa Monterey that have been approved for changes to the front driveway, including the following: 7-HP-2019, 16-HP-2019, 40-HP-2019, 39-HP-2020, 47-HP-2020, 57-HP-2020 and 2-HP-2017#3.

7-HP-2019 was an approval of a Certificate of Appropriateness-Historic Resources with the stipulation that the paver colors be limited to the light gray concrete color and the paver pattern shall be limited to a stacked linear pattern – not an angled or cross pattern.

16-HP-2019 was an approval of a Certificate of Appropriateness-Historic Resources for an epoxy seal over the existing driveway stipulated to be a matte finish.

40-HP-2019 was a Certificate of No Effect-Historic Resources to add a paver pathway from the existing paver driveway to the public sidewalk with pavers to match the existing color and shape and pattern.

39-HP-2020 was a Certificate of No Effect-Historic Resources to add a paver pathway from the backyard gate to the public sidewalk.

47-HP-2020 was a Certificate of Appropriateness-Historic Resources for the replacement of the concrete driveway with concrete pavers.

57-HP-2020 was an approval of a Certificate of Appropriateness-Historic Resources to replace concrete driveway with pavers.

2-HP-2017#3 was an approval of a Certificate of Appropriateness-Historic Resources to replace the concrete driveway with pavers.

Goal/Purpose of Request

The applicant is requesting approval of a Certificate of Appropriateness-Historic Resources for the replacement of the concrete driveway with concrete pavers and add concrete pavers in the front yard area.

Neighborhood Communication

A sign identifying the project name, number, request, and HPC hearing date has been posted at the site. A postcard containing case information has been sent to property owners within 750 feet of this property. The applicant has provided the HOA approval. Staff has not received inquiries related to the proposal.

HISTORIC PRESERVATION PLAN CRITERIA ANALYSIS

Proposed work for a Certificate of Appropriateness

The applicant is requesting approval of a Certificate of Appropriateness-Historic Resources for the replacement of the concrete driveway with concrete pavers and the front yard area.

The following guidance is provided to encourage the preservation of those elements of the historic district and to help homeowners plan improvements that will not diminish the integrity and significance of the district.

The following guidelines reference preserving the traditional pattern of sidewalks and driveways, but do not identify specific materials, finishes, or patterns for driveway improvements.

Interim Guidelines for Villa Monterey Units 1-7 Historic District:

Chapter 18, Policy 16: Retain the traditional landscaping that was found within the development.

Applicable Guidelines:

- 18.1. Maintain the established progression pattern of public to private spaces. That is, the use of the driveway or sidewalks for pedestrians to reach the front entrance to the house.

Staff Analysis: The existing pattern of pedestrian and vehicle access to the front entrance will remain the same.

- 18.2. Avoid paving the front yard.

Staff Analysis: The applicant does not propose increasing the improved driveway area.

18.3. If it is necessary to construct an additional parking bay, construct it adjacent to the existing driveway. Consider utilizing a construction method that combines concrete block and turf or a paving material that will minimize its visual impact on the streetscape.

Staff Analysis: The applicant does not propose the addition of a parking bay. The applicant is proposing providing concrete pavers to replace the existing concrete slab driveway and pavers in the front yard area.

STAFF RECOMMENDATION

Recommended Approach:

Staff recommends that the Historic Preservation Commission approve Helferich Townhouse Driveway Pavers per the attached stipulations, finding that the provisions of General Plan Preservation and Environmental Planning and the Interim Guidelines for Villa Monterey Units 1-7 have been met.

OPTIONS FOR CERTIFICATE OF APPROPRIATENESS

- Approve as submitted with reference to how the project meets the guidelines
- Approve selected elements, deny others, referencing relevant design guidelines for decision
- Approve with stipulations
- Continue case to allow time for additional work or information to be provided
- Deny as submitted with reference to how the project does NOT meet the guidelines

**Stipulations for the
Historic Preservation Commission Application:
Helferich Townhouse Driveway Pavers
Case Number: 77-HP-2020**

These stipulations are intended to protect the public health, safety, welfare, and the City of Scottsdale.

APPLICABLE DOCUMENTS AND PLANS:

1. Except as required by the Scottsdale Revised Code (SRC), the Design Standards and Policies Manual (DSPM), and the other stipulations herein, the site design and construction shall substantially conform to the following documents:
 - a. The location and configuration of all site improvements shall be consistent with the site plan submitted with a city staff date of 10/16/2020.
 - b. Paver materials shall be consistent with paver images shown in Attachment #5 of the Historic Preservation Commission staff report.

RELEVANT CASES:

Ordinance

- A. At the time of review, the applicable HPC cases for the subject site were: 4-HP-2010 and 13-ZN-2010.

SITE DESIGN:

HPC Stipulations

1. DRIVEWAY. Driveway improvements shall meet the following design guidelines:
 - a. The maximum linear grade of a driveway shall be 18 percent and the average grade for the length of the driveway shall be 12 percent,
 - b. Paved driveway concrete pavers must demonstrate that there would be no erosion from the surface and the construction will allow for the loading of emergency vehicles.
