Hi Katie-

I am a current resident in the north Scottsdale. I live across the street from the proposed doggie day care. My concern would be the barking, smells from the dog waste, and the traffic...that intersection already has issues for not having a traffic light. There has been a lot of homes that have been added that feed into that intersection.

I think it is a VERY BAD idea to put a doggie day care/kennels. There has got to be a better less congested area for a doggie kennel business...

Thank you,  
Jim
