***Re: Development Review: 751-PA-2021: Northwest Corner of E Lone Mountain Rd and N Scottsdale Rd / PXPHX00337B Wireless Communications Facility***

Dear City of Scottsdale:

As it moves to deploy a new, national 5G broadband network, DISH Wireless L.L.C. ("Dish Wireless") is pleased to submit the attached, as a development review, to install equipment and initiate operations of a wireless communications facility in the City of Scottsdale ROW on the northeast corner of E Lone Mountain Rd and N Scottsdale Rd by replacing the existing wooden streetlight pole and adding a small cabinet and radio heads inside a stealth enclosure located on the ground in a location approved by the city.

Please see the scope of work and details within the submittal attached, for specific information related to this installation. This project will help support the 5G connectivity needs of residents, businesses, public services, education, health care and first responders across the City of Scottsdale. DISH Wireless looks forward to working cooperatively with you to advance these important efforts in your community.

Please accept this letter as confirmation that, as of the date of this letter, Dish Wireless has taken the first step required for the above request, initiating local intake and review of this submittal. We hope to complete staff reviews and permitting processes quickly, in order to facilitate our deployment and initiate 5G services as soon as possible.

DISH Wireless is committed to working cooperatively with you to process this application in a timely and effective manner, and we welcome proactive communications to achieve that. Please reach out if additional information or materials are needed to process this request.

We also understand that these are challenging times and that COVID-19 can present significant difficulties in the continuation and provision of public services. We welcome the opportunity to discuss and answer any questions or concerns you may have to facilitate the local review process and timely deployment of our communications infrastructure.

We look forward to developing a long-term, collaborative working relationship with you, as well as enhancing communications and networking services in your community. Please do not hesitate to contact me if you have any questions or need any additional information.

Respectfully submitted,

Cody Perry
