RE: 5-UP-2016
Phoenix Seminary Campus Addition and Remodel

Dear Mr. Murillo,

CCBG Architects has reviewed 2nd Review Comments from the City of Scottsdale for the Phoenix Seminary Campus addition and remodel project and believe that we have addressed all city and neighborhood comments with regard to the CUP submittal. The design team has revised the project submittal to meet or exceed the design criteria of City of Scottsdale.

Attached to this submittal you will find a revised set of exhibits, any associated redlines in our possession, as well as a comment tracking spreadsheet that should allow easy reference for our responses to all of the CUP-related review comments.

Sincerely,
Jared Calhoun

Project Architect,
CCBG Architects
