Dear Mayor and Council Members,

I ask you to fight the despicable and corrupt actions of Axon leadership. It is blatantly obvious that they only care about using our city to profit, instead of being a partner with Residents.

Now is the time for Scottsdale city government to take legal action to protect our city's special character and quality of life. The "Axon bill" is weak and a recent Arizona Supreme Court ruling proposing citizen initiative in the City of Page (legislative in nature), is eligible to be placed on the ballot reaffirms including the constitutional right of qualified voters to initiate local laws.

As much as I am pro-business, we do NOT need Axon in Scottsdale. What we do need is local control of our beautiful city. Thank you for your time.

Subject: Fighting Scottsdale's New Enemies

Dear Friends:

In last week's newsletter I described how those of us who are fighting to protect Scottsdale's special character and high quality have a new enemy, state government! Over the last few years our legislature and governor have passed legislation that, among other outrages, attempts to cancel the Axon apartment referendum, forces so-called "Accessory Dwelling Units" on Scottsdale, forces Scottsdale to allow underused commercial buildings to be "flipped" into apartments. and severely limits the ability of Scottsdale to manage short-term rentals. All of these outrages, if allowed to stand, have or soon will diminish the quality of life for Scottsdale residents.

What's the motive behind these bad bills? One is simple, naked greed. Check out this [radio interview with State Representative Joseph Chaplik](#). Joseph is a legislator himself, so he has a front-row seat to all of the dubious goings-on at the state capital.

Another motive is there are a lot of legislators who just hate Scottsdale. Rep. Alexander Kolodin, R-Scottsdale, was asked by the *Scottsdale Progress* if he feels like the new adaptive reuse language was geared at one city in particular? "It's pretty clear it was targeting Scottsdale," Kolodin said. "It's their favorite thing to do," he snarkily added.

For these reasons you can expect more assaults from the legislature

and governor on Scottsdale's ability to give our residents the quality of life they want. So, is there anything we can do to fight this?

The answer is yes, but it will require political will and courage on the part of our Mayor and City Councilmembers. Scottsdale is a charter city which in Arizona is a municipality that operates under a locally adopted, voter-approved charter, essentially its own constitution, granting it greater local control and autonomy. In the past other charter cities such as Phoenix and Tucson have used the courts to successfully challenge legislative meddling in their affairs. Scottsdale, not so much.

But the time for inaction is passed. The loathsome "Axon bill" will soon take effect if not challenged, so now is the time for Scottsdale city government to grow a spine and take legal action to protect our city's special character and high quality of life. There are lots of holes in the "Axon bill" and a recent Arizona Supreme Court ruling that a proposed citizen initiative in the City of Page is legislative in nature and is eligible to be placed on the ballot reaffirms the constitutional right of qualified voters to initiate local laws. So success, while not assured, is certainly worth pursuing!

If you agree please contact Scottsdale's Mayor and City Councilmembers at citycouncil@scottsdaleaz.gov and insist they stay strong and focused to vigorously oppose this bad bill in the courts. Don't let them get cold feet and give up the fight to prevent Axon from forcing the biggest apartment project (1875 units) ever in Arizona on the residents of Scottsdale. Even more important, don't let them sit idly by while Axon destroys the right of Scottsdale citizens to challenge bad decisions of their city government via referendum!

⚠ External Email: Please use caution if opening links or attachments!

Dear Council and Mayor,

Please do all possible to oppose the state's repudiation of the city residents' vote against the Axon development. Either we control our destiny as a charter city, or we don't. The state can't have it both ways.

With regard to the project specifically, while it would be nice to keep Taser here, there must be other locales that will work for their campus. They should not be rewarded for holding our community hostage to their demands. It sets a poor precedent for the future.

The project itself will forever alter that corner of Scottsdale, which is already the nexus of too much development. My company is relocating from the Perimeter Center to Tempe, specifically due to concerns about density, traffic, and safety. That's 200 jobs in Scottsdale permanently lost, not to mention the associated hotel stays at the Marriott, corporate meetings, and business lunches.

We've already destroyed the lifestyle people who live here desire, in the interest of attracting more people. I'm a 22year resident. About 15 years ago, someone made the offhand comment: eventually we'll be just like LA. I scoffed at the thought then; now, I see it becoming an inevitability.

Please stop before it's too late.

Thank you.

Please challenge the Axon bill (SB1543) in court. Katie Hobbs and the State legislature have no right to skip a referendum. The will of the people should be heard. The AZ Supreme Court recently ruled that the initiative in Page was administrative and not legislative and should be put on the ballot so the voters can have their say.

I believe that the AXon bill is similar and the Mayor/City Council should challenge the ruling in Court. Thank you for your attention to this matter.

Subject: Axon Bill passed by State Legislature

⚠ External Email: Please use caution if opening links or attachments!

I am opposed to Axon building a huge apartment and condo complex alongside their planned office building in North Scottsdale. I live in the northern section of the city and am already amazed by the traffic congestion along the 101 and the streets in North Scottsdale. Pima and Scottsdale Roads resemble freeways at certain times.

The Mack project is an ugly building located in the wrong place. I understand a builder's desire to build buildings larger than needed and inappropriate to community standards but the city and state should be there to mitigate the impact on their citizens, not to assist overruling local design aesthetics.

We are not a poor city, desperate to attract newcomers and businesses. We are a prosperous city with many jobs that handsomely employ citizens from other cities in our metro area alongside our own citizens. State Legislature payback is voting to push gigantic apartment buildings into Scottsdale to benefit one entity opposed to the citizenry.

I personally do not understand the drive to overrun a city we have all been proud to call home, and also worry about the loss of ambience in Scottsdale.

Again, I oppose the Scottsdale Axon bill passed by the legislature and ask our mayor and city council members to represent our city and stand strong in opposition to this runaround in defiance of the city of Scottsdale.

Dear Scottsdale City Council,

As a resident of almost 9 years, Scottsdale is becoming much more cityfied (and I would like the name city removed from Scottsdale city anyway!).

That being said, I am surprised to hear that Axon is still even being talked about with this large apartment development. Shame on the CEO growing up in Scottsdale now being so money hungry that there's no regard for the people who moved here to have a quiet pace of life.

How dare are voted legislators want to turn over the will of the Scottsdale residents. Our tax dollars go to support their salaries and this is just not right.

Please fight for the residence that live here. We have elected you to represent us and I hope you will not disappoint.

Kindly,

Subject: RE: AXON & Mayor vs Citizens and City Council

⚠ External Email: Please use caution if opening links or attachments!

Dear Mayor & City Council Members.

I can't believe we are here again on this subject that voters do not want. Yet Our New Mayor is willing to consider revising and giving in to AXON.

The Only strong hold is City Council member holding this back from becoming a reality. Yet the Mayors language on the subject sounds like she's more fixed on swaying by any means necessary to make that happen spite what the voters want. Which makes me and others draw one conclusion. She's been paid off to \$upport this.

Let AXON go somewhere else and be done with this. We have roads that are crumbling apart, damaged and some just an accident waiting to happen. Roads from Phoenix going East into Scottsdale are some of the worst. The last 3 mayors & Council for the past 20 plus promised they would get them done as they were in the big plan. Well, here we are again still waiting.

Hec, you can't make a simple deal as to where to put a parking garage.

The debates on these matters are getting to be like sandbox politics as the mayor and a few others are sounding more like the left side of the congress.

Let's stop with the pettiness and get back to the business of preserving our city charm and making it safe, not turn it into a party town of drunks and over saturating it with condo-mania.

We have enough congestion of traffic and people here. Stop AXON by adding 1800 more dwelling which adds more water use, contributes more sewage, more trash, more pollution, more traffic especially that area from West World to the Fairmont Princess surrounding the TPC. We don't even want ¼ of the dwellings in that area adding to this. So lets not play games of doing partials deal of increasing in increments. Send AXON to Phoenix.

Let's focus on the work that needs to be done.

Thank you.

Subject: Referendum on Axon Campus

⚠ External Email: Please use caution if opening links or attachments!

Dear Council Members:

Thank you for your dedication and service to the City of Scottsdale. I'm reaching out regarding the voter referendum regarding the proposed Axon campus at the northeast corner of the 101 Loop.

I've been informed that the referendum won't take place till November 2026. While I recognize there is a cost to such a vote, that is an incredibly long time to wait, delay, and frankly obfuscate about this project. It's long for Axon, but even moreso for Scottsdale voters, who feel that their voices have not been heard with regard much of the recent development projects that have been allowed to proceed.

A delay creates more opportunity for developers and other forces (state government) to insert themselves into the process....as I believe has already happened with the state to some extent.

Please move forward with this vote as soon reasonably possible, for instance, November of this year.

Thank you for your consideration,

Laura Ann Bartlett-Armstrong

Scottsdale calls itself the West's Most Western Town. But what we've got here isn't a fair deal — it's a land grab. Outlaw Axon has ridden in like a rustler, gaming the system and trampling the Charter. Council, it's time to show whether Scottsdale still has a sheriff in town — or whether we're letting bandits run the place.

Outlaw Axon Crowd Chant

Leader: "Who rides in to steal our town?"

Crowd: "Outlaw Axon, shut 'em down!"

Leader: "Who's the sheriff in this town?"

Crowd: "We the people, we stand our ground!"

Councilmembers, this isn't free enterprise — it's crony capitalism. Axon bought land zoned industrial, then gamed the system. They leaned on a lame duck council for rezoning, then bought themselves a state law to crush Scottsdale's Charter and silence its citizens.

That's not negotiation — that's robbery. If you don't fight back, you're telling every robber baron developer that Scottsdale is for sale.

Defend the Charter. Defend the people. Or surrender Scottsdale to the highest bidder!

Subject: City of Scottsdale is not for sale - our voices matter
Date: Friday, September 5, 2025 7:38:06 PM

External Email: Please use caution if opening links or attachments!

To the Honorable Mayor and Esteemed City Council,

Despite widespread public concern about overdevelopment, the Axon Apartments project passed at the 11th hour. Over 26,000 voters signed petitions to bring this project to a public vote—but rather than respect the will of the people, Axon circumvented the process by appealing directly to the state, effectively overriding both Council and the community's voice.

This kind of decision-making raises serious concerns. It gives the appearance that political donations from developers may be influencing public policy and undermining trust in local government. Even more troubling are the long-term consequences: threatening our city's limited water resources and infrastructure and calls into question whether the voices of voters will ever truly be heard.

We urge this Council to take bold and immediate action:

1. **Adopt Resolution #13506 to file a complaint against the State of Arizona to challenge the legality and constitutionality of Senate Bill 1543.**
2. **Initiate a temporary moratorium on high-density development,** even for just one year. This would provide much-needed time to evaluate the impacts of recent projects, reform processes that allow developers to bypass local input, and ensure that growth aligns with the long-term interests of the community—not just short-term profits. Cities like Phoenix, Santa Fe, Albuquerque, Carson City, Boise, Austin, Rancho Mirage, Napa, and Los Angeles have all used moratoriums effectively to pause and recalibrate. We can and should do the same.

Now is the time to act. Show the community that our city is not for sale and that our voices do matter.

Respectfully,
Gloria Saeger

Mayor Borowsky and Council Members,

I cannot express how strongly I support the City of Scottsdale pursuing all legal avenues to vacate the abomination of the ("Axon") legislation passed by the legislature in the most recent legislative session. More than 27,000 Scottsdale voters expressed their displeasure with the current design and expansion of Axon's proposed headquarters development. Our voices were silenced by members of the Arizona legislature. I implore the City to restore our voices through legal action.

Thank you.

Please do not take any action against the State and Senate Bill 1543.

The duly-elected City Council of Scottsdale approved the Axon project. The duly-elected House and Senate of Arizona passed bills allowing the Axon project to move forward.

Let TAAAZE and their dark-money California union patrons fund a lawsuit themselves. Do not waste more taxes from the hard working citizens of Scottsdale.

Dear Members of the Scottsdale City Council,

On the eve of your vote on Resolution 13506 to challenge SB 1543, I urge you to consider its profound implications—not for Axon or the impact of apartments, but for the fundamental voting rights and local sovereignty of Scottsdale’s citizens.

Scottsdale is a remarkable city, celebrated for its vibrant community and dynamic growth. We welcome progress and the Council’s efforts to attract thriving businesses. However, such growth must harmonize with the core rights of our citizens. The Arizona Legislature’s passage of SB1543 is deeply concerning, not because of any single company’s influence, but because it prioritizes external interests over the constitutional principles that define our country. When our elected leaders fail to safeguard voting rights and local sovereignty, we must question whether they are truly serving the people.

Economic development and corporate growth are vital to Scottsdale’s future, but they must never come at the expense of our constitutional protections. This is not a partisan issue—it is a matter of preserving the civic foundations that makes Scottsdale exceptional.

If we surrender our fundamental constitutional rights so readily, we must ask ourselves: *do we truly deserve them?*

I implore you to stand with Scottsdale’s citizens and protect our sovereignty by voting YES on Resolution 13506.

Dear Scottsdale City Council,

I urge you to vote YES on Resolution No. 13506 to challenge SB 1543.

The "Axon Law," threatens to silence 27,000 residents' constitutional rights to vote on a major apartment proposal. I, and Legal experts, believe this law violates the Arizona Constitution and undermines the democratic process by favoring corporate interests over local governance.

We know Axon executives bought votes from our state reps and are likely spending over a million dollars to influence your decisions now.

Your action is critical to protect Scottsdale's right to self-governance. Please act before it's too late.

Dear Honorable Mayor and Council members,

As a resident of Scottsdale, I strongly urge you to reject the city's decision to allocate budget funds to a lawsuit against the State of Arizona over Senate Bill 1543. This year, the city had the opportunity to hold a vote on this matter, but it chose to postpone it until 2026.

If I were Axon, a Scottsdale-based company founded by a CEO raised in the city, and I wanted to continue operating in Scottsdale to generate tax revenue and employment opportunities, I would have taken similar steps to protect my business interests as Axon did for its employees and shareholders.

It is imperative that we refrain from wasting any more city budget funds on challenging the State of Arizona and the Axon Law. Instead, we should focus on moving forward and allowing Axon to break ground, construct their highly desirable campus, and continue contributing to Scottsdale's tax base and job market. This development is crucial for our community's controlled growth, as it will help us diversify our tax base beyond tourism, healthcare, etc. and attract highly educated and well-paid technology professionals to Scottsdale. Show companies around the world that Scottsdale is open for business and wants to continue to thrive economically. Keep Axon and these tax dollars and jobs in Scottsdale.

I urge you to reject Resolution No. 13506 and vote against the lawsuit.

Thank you for your attention to this matter.

Sincerely,

The Honorable Mayor Lisa Barowsky and City Council Members,

Residents will shift their narrow paradigm, if the reality of technology + innovation + commerce + economics + safety is properly explained. I have spoken to many residents who are angry with Axon. They are really angry with a company they know little about. These angry residents do not want "their mountain views blocked." That's it. Unfortunately, many have not taken the time to educate themselves on the facts. That mindset is selfish and narrow minded.

You can change their hearts and minds. Courageous leadership is required.

As I watched President Trump's meeting last week with the tech titans, this is what I thought. The world is changing. Its a very competitive global environment. Technology/AI is at rapid speed. Do we want other countries to own and control the tech world? No. We are safer and more prosperous if done right here in the USA.

I read the blogs and listen to the commentary from the local techies and financial experts. They are forward thinking, viewing our city and state potential through a windshield. If the CC votes yes to the lawsuit, it's a rear view mirror approach to our future.

Scottsdale should not remain a sleepy suburb. We owe more than that to our residents.

I am asking the CC to have a growth mindset, and vote no on the law suit.

Thank you.

External Email: Please use caution if opening links or attachments!

Mayor and Council Members,

Please vote to take legal action to challenge the Axon law. It is unbelievable that a powerful company could successfully go to great lengths to win state legislator approval of this law and do a complete end around current zoning laws and an approved vote by the citizens of Scottsdale. The fact that the Axon legislation removes local control from zoning in some instances is very troubling. What type of legislation will follow this? This is an horrific abuse of state power over local control.

Scottsdale City Council Members,

Please vote YES to take legal action to challenge the State of Arizona over SB 1543, the unconstitutional law that silences the voices of over 27,000 Scottsdale residents. SB 1543 sets a dangerous precedent of allowing corporations to bypass city governments and shut residents out of critical decisions that shape our community.

Dear Scottsdale City Council Members,

As a concerned Scottsdale resident, I urge you to vote yes on Resolution No. 13506 concerning Axon's attempt to override the will of Scottsdale residents. We have spoken clearly in opposition to their development project that would permanently damage Scottsdale's values. Axon is attempting to violate legal procedure by buying their way into their special interest legislation.

Please represent the will of your voters and adopt this resolution.

Subject: Adopt Resolution No. 13506!
Date: Monday, September 8, 2025 8:28:05 AM

External Email: Please use caution if opening links or attachments!

Dear Scottsdale City Council Members,

I am writing to urge you to ADOPT Resolution No. 13506 - REJECT Senate Bill 1543 and challenge the State of Arizona's attempt to silence the voices of 27,000 Scottsdale residents who signed a constitutional voter referendum. On Tuesday, September 9th, you have the opportunity to stand up for our community's values and democratic rights by rejecting this deeply flawed legislation, often referred to as the "Axon Law."

SB 1543 threatens the integrity of our local governance by prohibiting residents from voting on the largest apartment proposal in Arizona history. Legal experts argue that this bill likely violates the Arizona Constitution as "special legislation" designed to benefit a single corporation at the expense of our community's voice. By overriding local zoning and stripping Scottsdale of its planning authority, SB 1543 sets a dangerous precedent that allows corporations to bypass city governments and exclude residents from critical decision-making processes.

The stakes are high. If left unchallenged, this law undermines the democratic process and emboldens corporate interests to dictate our city's future. Axon executives have already invested \$1.1 million in their front group, "Arizonans for a Better Future," to run attack ads aimed at intimidating council members. I urge you to stand firm against this pressure and protect the rights of Scottsdale residents.

By rejecting SB 1543, you can send a clear message that Scottsdale values its residents' voices and will not allow corporate overreach to erode our democratic principles. I respectfully request that you vote to challenge this unconstitutional law and uphold the will of our community. Please Adopt Resolution No. 13506!

Thank you for your leadership and commitment to Scottsdale's future.

Sincerely,

Lauren Albano

Dear City Council Members:

I am writing to urge you in the strongest possible way to please adopt resolution 13506. It is absolutely unacceptable that a private company and our state legislature can override the will of the majority of Scottsdale voters to force us (against our will) to accept even more overdevelopment at a time when our city is already so overdeveloped it is nearly unrecognizable.

Please stand with Scottsdale voters, and fight for us, we are counting on you. Thank you so much, we truly appreciate all you do for our city.

External Email: Please use caution if opening links or attachments!

Hello Council Members,

As a long time residents in Scottsdale (over 40 years) and voters, we urge you to vote « yes » on Resolution 13506. The residents of Scottsdale have created a referendum for the ballot and the State Legislature is trying to override residents' voices. This is not a democratic process and overrides the expressed needs of this community - we don't want more traffic congestion, more apartments, and a significant strain on our municipal services! Since Axon wants to stay in Arizona as an employer, they are welcome to explore doing so in many other Maricopa County communities with large working age populations that would benefit from a local employer (less commuting) and apartments!

Sincerely.
Beatrice & Garland Perry
13663 N 91st Way
Scottsdale, AZ 85260

Here is a synopsis of the situation as reported March 26, 2025 by the Arizona Mirror:

« This is a bill designed to obliterate Scottsdale residents' rights,” former Republican lawmaker Michelle Ugenti-Rita told the committee. She was representing a Scottsdale group called Taxpayers Against Awful Apartment Zoning Exemptions, or [TAAAZE](#) for short.

That group gathered more than 26,000 signatures from Scottsdale residents in order to get a referendum on the 2026 ballot to ask Scottsdale voters if Axon can build its campus with the proposed 1,900 apartment units it was rezoned for.

“This isn't about taking care of jobs and economic growth. This is about one man who wants to avoid an election,” Ugenti-Rita said, referring to Axon CEO Patrick Smith. “Now, we have a bill in the last committee hearing, a striker that is going to rig an election... If we want to have this fight, it should happen within the boundaries of Scottsdale.”

Ugenti-Rita told the committee that she and other opponents of the project are willing to negotiate with Axon on their proposal. But rather than do that, Axon has instead set out to change state law to protect its interests.

Smith acknowledged as much when he spoke before the committee.

“You gotta get this solved in this legislative session or you are directed to sell this land,” Smith said his board of directors told him, adding that they would make a profit off selling the land.

Scottsdale Councilman Barry Graham said the legislature had no business letting Axon avoid the will of the voters.

“They have told us overwhelmingly that they want to vote on this project,” Graham said of Scottsdale voters. “This striker bill would deny them that right — a constitutional right.”

Both Vice-Mayor Jan Dubauskas and Graham said they support Axon as a company and do not want it to leave, but question why the company needs 1,900 apartment units in an area where city leaders have already approved 5,000 multi-family units.

“Why is the maker of Taser becoming an apartment complex developer?” Dubauskas asked. “Why is the legislature even getting involved in all that?”

Smith told the committee that Axon wants to stay in Scottsdale, but “we are just nowhere close” to getting a deal done. He has said the firm has no interest in going before voters and will leave Arizona before the election if the law isn’t changed to protect the development project.

Smith sat next to the attorney for his development deal, Charles Huellmantel, during the hearing. Huellmantel has faced [controversy and criticism](#) in the past for his development deals. The room was also full of Axon employees in yellow and black shirts, the colors of Axon’s premiere product, its “[non-lethal](#)” taser. «

Madame Mayor and City Council Members:

I urge you to take legal action to challenge the Arizona legislature's SB1543. ONE private company's interest cannot be given more consideration and weight than the majority of the community's interests! This would essentially do away with each citizen's right to vote and have their voices heard. Corporate interests should not be superior to individual citizen's interests- *ever*. I believe such a stance is in direct contravention to the Arizona Constitution and creates a slippery slope that we do not want to descend down.

I urge you to fight this corporate greed at the expense of our citizens and adopt Resolution No. 13506. There has to be a way to reach a compromise in this matter without selling out the voting rights of all citizens.
