Dear Mayor, Vice Mayor, City Council members and Jeff Barnes:

I strongly object to this continuance and will be attending the hearing tonight to request that the continuance be denied. The applicant's last minute request is transparent and manipulative. They requested, and were granted, a similar last minute request with the Planning Commission's hearing. This goes exactly to the history outlined in my email to the City Council members yesterday explaining the manipulation our community has endured at the hands of Mr. Richert.

The Applicant could have requested this continuance days ago, before many of us requested time off of work to be there tonight. But this is what they are famous for doing and I am respectfully asking the City Council to deny this request and get this resolved once and for all. I will be out of town and unable to attend on April 26th.

I and my fellow neighbors will be there tonight and prepared to share our arguments against this requested rezone within our neighborhood.

Please, let's just do this.

Mr. Speno,

I wanted to provide you a brief update that the applicant has submitted a request for Continuance for this application to be moved from tonight's agenda to the April 26th City Council meeting agenda to allow them additional time to work through some of the details and stipulations pertaining to their application. [Tonight's meeting agenda](#) has been updated to reflect this, and the action to be taken by the City Council tonight will be limited to the requested Continuance. Any public comment to be heard regarding this application tonight would be limited to just the scope of the requested continuance.

Subject: Rezoning @ 13647N. 87th Street, Case Number: 10ZN-2021

⚠ External Email: Please use caution if opening links or attachments!

Dear Mayor, Vice Mayor, City Council members:

I am writing to express my strong objection to the rezone efforts of the vacant lot located at 13647 N. 87th Street, Case Number: 10ZN-2021.

This has been going on since 2013 when Mr. Koo came into the neighborhood as a real estate speculator and, with full knowledge of the parcel's current zoning and limitations, has relentlessly pursued a campaign of altering the face of our neighborhood. The Scottsdale City Planning Commission, in two separate hearings (one in 2013 and the other just this last February), overwhelmingly agreed with local homeowners and denied these ambitions. Now he and his high paid consultant, David Richert are asking you to override the sound decisions of your own Planning Commission.

Our neighborhood of 50+ homeowners (and voters) is united against this rezone attempt for both the precedence that it will set for future development and for the unusual structure he intends to build on the site. In short, this will ruin our community by igniting a frenzy of lot splits and allow for an albatross of a structure that will not be commensurate with current homes in the area.

Here are the relevant facts that support my objection:

WHAT THE REZONE WILL DO:

According to The City of Scottsdale's own website (see: <https://www.scottsdaleaz.gov/AssetFactory.aspx?did=29844>)

Our current zoning of R1-35 requires a minimum of 35,000 square feet with a limitation of 1-dwelling and "results in a low density of population. The proposed rezone to R1-10 allows for 1-dwelling per 10,000 square feet plus "permits a higher density of population".

Approval of Mr. Koo's request will instantly set precedence and encourage every property owner and future property owner within the McDowell Shadows Estates community to split their lot into THREE OR MORE SEPARATE LOTS.

MR. KOO'S WANTS TO BUILD A STRUCTURE UNLIKE ANY IN THE NEIGHBORHOOD:

1. Mr. Koo proposes to build a 2-story home in a community where no 2-story structures exist.

2. It will be the only home in the neighborhood built on a flag lot.
3. A sensitive water retention basin blocks the entrance of the site and Mr. Koo proposes to build a bridge over this basin in a community where no bridges exist.
4. This lot provides for zero street frontage. Presumably, guests would have to park on his “bridge” or in front of another neighbor’s home.
5. The front door of his proposed home will not be visible from the street.

This has been a frustrating battle from the very beginning. In addition to the facts stated above, we have had to deal with numerous misrepresentations and manipulations by Mr. Richert who has played games with posting of notifications at the site in an effort to deter a vocal community from participating in the approval process. He made false and unsubstantiated claims to the Planning Commission that this small vacant lot requires development because it has contributed to crime in the area (we have no crime problem). He made false representations in front of 40+ homeowners who attended a site meeting (all of which expressed their objection to the rezone) that their objections were not unanimous because he lives in our neighborhood as well and doesn’t object (he lives several miles outside McDowell Shadows Estates).

I am asking that you finally put an end to this nonsense and preserve the integrity of our community. Please respect and follow the expert understanding and guidance of our Planning Commission.

Sincerely,

Mark Speno
