Temporary Parking Dust Plan Notes for:

**Thunderbirds, Inc. / Waste Management Phoenix Open 2022 (TPC)**  
**150-SE-2020**

In addition to methods of dust control noted on the plan the following notes are incorporated with and a part of the approved Special Event Dust Control Plan dated October 5, 2013.

1. Although the City of Scottsdale may have agents on site from time to time to monitor the control of dust generation, Maricopa County may still enforce its jurisdiction if they determine that the City is not enforcing the dust control or track out adequately.
2. Parking and driving should be limited to areas stabilized by the methods described in the dust plan.
3. Limit points of ingress and egress to limit track out opportunities. Gravel, pavement or RAP pad should be established at ingress and egress areas adjacent to paved public roads.
4. Track out should be closely monitored and cleaned up immediately by regenerative air (PM-10) street sweeper. Every effort should be taken to avoid and eliminate track out onto Scottsdale & Hayden Roads.
5. Final stabilization after the event should return the site to its pre-use condition. Typically a watering truck should be used to thoroughly wet the entire area surface to establish a final crust.
