## **BACKGROUND**

---

In the 2024 session, the Arizona State Legislature passed HB2297 (Attachment 1), which requires Arizona municipalities with a population of 150,000 or more to establish standards to allow *not more than* ten percent (10%) of *existing* commercial, office and mixed-use buildings to be repurposed to multifamily housing, subject to certain limitations and requirements. A key component of HB2297 specifies that the process of converting from the existing use to the new multifamily residential use must occur without requiring any public hearings. In Scottsdale, that would include rezoning, conditional use permit and development review hearings. Further, the Arizona State Legislature also passed SB1162 (Attachment 2). Included in this bill are requirements that Arizona municipalities amend their Zoning Ordinances to address the processing of zoning applications and outline specific time frames for review and approval of zoning applications. The Governor signed both bills and the new legislation became effective September 14, 2024. Scottsdale now must amend its Zoning Ordinance by January 1, 2025, to comply with State Law.

## **ANALYSIS & ASSESSMENT**

---

The following summarizes staff's analysis of HB2297 and SB1162, and recommended responses to this new legislation that are proposed within 3-TA-2024 (Attachments 3 and 4), which includes the City's effort to comply with other recent actions of City Council.

### **HB2297 – Adaptive Reuse**

HB2297 requires municipalities with a population of 150,000 or more to establish standards to allow the conversion of *not more than* ten percent (10%) of the total *existing* commercial, office, or mixed-use buildings within a municipality to multifamily residential development uses without a public hearing process. Conversion eligibility is determined by several different factors including the total area a municipality chooses to allocate for conversion, property size, property condition, infrastructure, building code requirements, and the provision of moderate or low-income housing. Eligibility is further limited by exclusion areas such as those designated for commercial protection by the City, and areas in the vicinity of an airport.

The City's intent is to preserve its current approach to planning and development, including the public input and hearing processes, while still meeting the legal parameters of the bill. This includes:

- Excluding 10% of existing commercial, office, and mixed-use buildings within eligible parts of the city, which will be designated as Commercial or Employment Hubs or Essential Commercial or Employment Use Areas,

## **Planning Commission Report | Adaptive Reuse & Development App. Text Amendment**

- Excluding land in an area that is designated historic by a local government, or that is designated as historic on the national register of historic places, and
- Excluding land in the territory in the vicinity of a Federal Aviation Administration commercially licensed airport or general aviation or public airport as defined by State Law.

The new legislation sets forth criteria that a municipality must follow in establishing standards for conversion to multifamily residential development, which includes:

The city *cannot*:

- require rezoning, conditional use permits, or any other type of development application that would require the types of public hearings that the city would normally require for such changes in buildings and land uses from commercial and office to multifamily residential, and
- establish setback, density, parking & building height requirements that are any greater than the requirements set forth in State Law.

The city *can* require:

- administrative site plan review and approval,
- public utility review,
- adequate public sewer and water service is provided,
- compliance with applicable Building and Fire Codes,
- that the existing buildings are economically or functionally obsolete,
- that the existing buildings are located on a parcel or parcels that are at least one (1) acre in size, but no more than twenty (20) acres in size, and
- a minimum of ten percent (10%) of the total new dwelling units be set aside for either moderate-income housing or low-income housing, or any combination of the two for at least twenty (20) years after the initial occupation of the proposed development.

In response to HB2297, the proposed draft text amendment includes the following:

- New Zoning Ordinance definitions for: Building Code, Economically or Functionally Obsolete, Low-income Housing, Moderate-income housing, and Multifamily Conversion. These definitions will ensure critical elements of the State Law are incorporated, and subsequently implemented, into the city's Zoning Ordinance as required by State Statute.
- Establish a new defined land use entitled "Multifamily Conversion" in commercial zoning districts throughout the Zoning Ordinance.
- Establish qualifications to utilize the Multifamily Conversion land use, including:
  - A Multifamily Conversion development must be located on a parcel or parcels that have an existing commercial, mixed-use, or office building or buildings that have received a Certificate of Occupancy on or before December 31, 2024,
  - A Multifamily Conversion development must be located on a parcel or parcels that are a minimum of one (1) net acre in size, but not more than twenty (20) net acres in size,
  - A Multifamily Conversion development shall not be located in any of the exclusion areas as permitted by State Statute and noted above.

## **Planning Commission Report | Adaptive Reuse & Development App. Text Amendment**

- A Multifamily Conversion development must demonstrate adequate public water and sewer infrastructure service for the entire proposed development, as administered by the City of Scottsdale.
- A Multifamily Conversion development must demonstrate that the existing building or buildings located on the parcel or parcels of the development have been economically or functionally obsolete for at least six (6) consecutive months, to the satisfaction of the Zoning Administrator or designee. This requirement ensures that the building's obsolescence is not a temporary condition.
- A Multifamily Conversion development must allocate a minimum of ten (10%) percent of the total dwelling units of the Multifamily Conversion development as either moderate-income housing or low-income housing, or any combination thereof, for at least twenty (20) years after the initial occupation of the proposed development project, in a form satisfactory to the City Attorney or designee.
- A Multifamily Conversion development must have a total gross floor area that cumulatively with any existing and approved Multifamily Conversion development, does not exceed the Scottsdale Total Allocated Multifamily Conversion Development Projects Allotment. Fulfillment of the allotment is determined by:
  - The number of buildings and/or building area redeveloped for Multifamily Conversion; in culmination with
  - The number of buildings and/or building area with approved building permits for Multifamily Conversion but not yet completed; in culmination with
  - The number of buildings and/or building area with submitted construction documents for development of a Multifamily Conversion but not yet permitted.

Finally, the legislation outlines certain property development standards that a municipality must follow for a Multifamily Conversion. Generally, a Multifamily Conversion development will be subject to the property development standards of the underlying zoning district for which the development is located. However, per the new State Law the property development standards for building setbacks, density allowances, and building height maximum allowances will be based upon established multifamily residential development within one mile of a Multifamily Conversion. If a new Multifamily Conversion development is not located within one mile of an established multifamily residential development, then the Multifamily Conversion property development standards will be based upon that of existing multifamily residential zoning districts in the Zoning Ordinance. Those property development standards specified in the State Law include:

### Density

- The maximum multifamily residential density for a Multifamily Conversion development shall be equal to the highest allowable multifamily residential density of a multifamily residential zoning district within one (1) mile of the subject Multifamily Conversion development. If there is no multifamily residential zoning district within one (1) mile of the subject Multifamily Conversion development, the maximum multifamily residential density for the subject Multifamily Conversion development shall be equivalent to the Two-Family Residential (R-2) zoning district.
- A Multifamily Conversion development constructed does not qualify as being within one (1) mile of a subsequent Multifamily Conversion development, or as the next closest multifamily residential district in the Zoning Ordinance.

**Building Height**

- The maximum building height for a Multifamily Conversion development located within one hundred (100) feet of a Single-family Residential District shall not exceed the lesser of two stories or thirty (30) feet (inclusive of rooftop appurtenances). This building height limitation applies to all buildings of the Multifamily Conversion development.
- The maximum building height for a Multifamily Conversion development that is not located within one hundred (100) feet of a Single-family Residential District shall not exceed the lesser of five (5) stories or sixty (60) feet, or the highest allowable multifamily residential building height (exclusive of rooftop appurtenances) for a multifamily residential zoning district or the portion of a Planned Community (P-C) with an underlying zoning district comparable to a multifamily residential district. If there is no multifamily residential zoning district within one (1) mile of the subject Multifamily Conversion development, the maximum building height for the subject Multifamily Conversion development shall be equivalent to the Townhouse Residential (R-4) zoning district.
  - Any Multifamily Conversion development constructed pursuant to the provisions of this section does not qualify as being within one (1) mile of a subsequent Multifamily Conversion development, or as the next closest multifamily residential district in the Zoning Ordinance.

**Building Setbacks**

- The minimum building setback for a Multifamily Conversion development is equivalent to the building setback requirements of the Townhouse Residential (R-4) zoning district.

**Private Outdoor Living Space**

- All dwelling units are to include private outdoor living space located directly adjacent to the dwelling unit.
- Each private outdoor living space is to be at least six (6) feet deep and sixty (60) square feet in area.

**Implementation of HB2297 – Adaptive Reuse**

Incorporating the requirements of HB2297 into the city’s Zoning Ordinance is just the first of several steps needed to implement the bill. This initial step is the only step that requires a public hearing.

The second step is multifaceted – but will focus on the city’s operational practices, where the city will continue to assess development applications based on the qualifications and criteria established by this text amendment. This includes applying all allowable exclusions under State Law to limit the impact on the community while adhering to the legal requirements of HB2297. Once these standards are applied, additional qualifications include:

1. *Potential Areas for Multifamily Conversion:*

HB2297 mandates that municipalities establish standards allowing the conversion of no more than 10% of their total existing commercial, office, or mixed-use buildings to multifamily residential without a public hearing. These conversions are determined by point-in-time metrics. City staff analyzed existing buildings using Maricopa County Assessor Land Use Codes, calculating a total of 9,497,274 square feet of floor space across 982 commercial, office, and mixed-use buildings. After applying exclusionary provisions, the proposed text amendment allows 1% (94,972 square feet or 10 buildings, whichever comes first) of eligible areas to be converted to multifamily residential use

without requiring a public hearing. This conversion limit will help maintain the land use balance outlined in the voter-ratified General Plan Future Land Use Map.

2. *Designation of Commercial/Employment Hubs:*

HB2297 allows cities to designate "commercial or employment hubs" where existing commercial, office, employment, or mixed-use buildings are exempt from the requirements of the law (Attachment 5a). These hubs can cover up to 10% of the city's total commercial, office, and mixed-use buildings. The legislation does not provide qualifications for the location of these hubs, so the city has flexibility in determining their location.

The Planning Department collaborated with Economic Development to prioritize areas for these hubs, focusing on larger sites with significant redevelopment potential. Key factors in prioritizing these areas (all equally important) include:

- Areas currently undergoing or with a history of redevelopment (to preserve the public hearing process).
- Neighborhood retail centers (e.g., grocery-anchored).
- Proximity to existing resorts, single-family neighborhoods, and multifamily developments.

3. *Economically or Functionally Obsolete Buildings*

Provided an existing commercial, office, or mixed-use building qualifies from the aforementioned criteria, a property will need to demonstrate that the existing building or buildings have been economically or functionally obsolete for at least six (6) continuous months to the satisfaction of the Zoning Administrator or designee.

4. *Demonstrate Compliance with Development Requirements*

Once a site can be qualified, it will be incumbent for an applicant to demonstrate compliance with all standards set forth by the city's Zoning Ordinance, Design Standards and Policies Manual, and applicable Building and Fire Codes as required by City code through an administrative review process.

As redevelopment of qualifying buildings occur over time, the city will maintain its commitment to regularly informing the public through enhanced notifications processes. These efforts include sharing updates on social media platforms and through regular e-subscription services, such as P&Z Link, to ensure public awareness and education of such redevelopment efforts.

5. *Tracking and Allotment of Multifamily Conversions*

The City's Zoning Administrator (or designee) will keep track of the number of buildings and building area converted under the new Ordinance (Attachment 5b). Once the total allotment for multifamily conversions is reached, no further applications will be accepted. Fulfillment of the allotment will be based on:

1. The number of buildings and/or building area redeveloped for Multifamily Conversion; in cumulative with
2. The number of buildings and/or building area with approved building permits for Multifamily Conversion but not yet completed; in cumulative with
3. The number of buildings and/or building area with submitted construction documents for development of a Multifamily Conversion but not yet permitted.

## Planning Commission Report | Adaptive Reuse & Development App. Text Amendment

A community's ability to prepare and respond to change is an indication of its resiliency and sustainability. Although the impacts of this new State Law offer both positive and negative changes, the city will look to respond to emerging trends, issues, and opportunities associated with the implementation of HB2297.

### **SB1162 – Development Application Determination**

SB1162 introduces new requirements for how a municipality processes zoning applications. These changes require municipalities to adopt updates to their Zoning Ordinances that address two key areas:

1. *Administrative Completeness (30-Day Review Period):*

The City must determine whether a zoning application is administratively complete within 30 days of receiving it. Although the City currently reviews applications for completeness within 15 days, this practice has not been codified. With the updates proposed in 3-TA-2024, the City proposes to formalize the 30 day review requirement in its Zoning Ordinance.

2. *Substantive Review and Approval or Denial (180-Day Deadline):*

After the City has determined a zoning application to be administratively complete, the City must approve or deny a zoning application within 180 days. This time-period includes:

- The time the City utilizes to conduct a substantive review of the application (excluding any periods when the application is returned to the applicant for revisions),
- Public noticing requirements, and
- All public hearings before relevant boards and commissions, such as the Airport Advisory Commission, Historic Preservation Commission, Development Review Board, Planning Commission, and City Council.

*Extension Options:*

- The City may grant a one-time extension of the overall time frame of up to 30 days in cases of extenuating circumstances.
- Applicants may request 30-day extensions of the overall time frame, with the possibility of multiple extensions if needed.

### **Implementation of SB1162 – Development Application Determination**

Although the implementation of SB1162 is mainly operational, the legislation brings both known and unknown impacts. The known impacts include:

- *Applicant Proposals and Responsiveness to City Review Comments:* While the city's current processes have been flexible and are generally business-friendly, stricter practices may be necessary to determine whether an application is complete. If an applicant does not respond to the city's review comments, it could lead to more conditions being imposed or the city taking an unfavorable stance on the application.
- *Coordination Between Applicants, the Public, and Hearing Bodies:* A zoning decision must be made within 180 days after an application is deemed complete. This timeline includes all city review periods and any public hearing notices. The requirement to meet this deadline may affect how thoroughly applicants respond to the public and hearing bodies. Depending on the proposal, multiple hearings could be required, including those with the Airport Advisory Commission, Historic Preservation Commission, Development Review Board, Planning Commission, and City Council. These changes are expected to impact the timeline for public involvement and may affect the community's familiarity

## **Planning Commission Report | Adaptive Reuse & Development App. Text Amendment**

with current development review processes. However, the 180-day time limit, while firm, allows for some flexibility through applicant-initiated extensions.

### **Additional Proposed Zoning Ordinance Amendments in 3-TA-2024**

On [September 10, 2024](#), City Council adopted Resolution 13232, which accomplished the following:

- Repealed Resolution No. 8356, which previously established the McDowell & Scottsdale Corridor Single Central Business District.
- Initiated a text amendment to the City of Scottsdale Zoning Ordinance (No. 455) to update the size requirements for the Planned Community (P-C) District.

Included within this text amendment are updates to the Zoning Ordinance that will preserve existing zoning entitlements for properties with P-C district zoning as well as those properties of 10 acres or more in land area by using the McDowell Road/Scottsdale Road Growth Area Boundary as the policy framework. Related to this item, implementation is strictly focused on the City's application of its Zoning Ordinance.

## **PUBLIC PARTICIPATION**

An informative video regarding Case No. 3-TA-2024 was created by the City and posted online. As of the drafting of this report, online viewership has been noteworthy at over 300 views. Further, City staff hosted two open house events to discuss proposed changes to the Zoning Ordinance on Thursday, September 19, 2024, and Friday, September 20, 2024. A total of 20 people attended the in-person sessions.

Overall, attendees responded positively to the proposed amendments, with many attendees expressing support that their properties would not be as affected, and there would be fewer overall community impacts, due to exclusions under the new State Law, particularly airport vicinity areas. The full citizen involvement report can be found as Attachment 6.

## **OTHER BOARDS & COMMISSIONS**

### **Planning Commission – Initiation**

This effort to update the Zoning Ordinance in response to HB2297 and SB1162 was initiated by the Planning Commission on July 10, 2024.

### **Neighborhood Advisory Commission (NAC)**

Staff presented this text amendment to the NAC on [September 25, 2024](#) as an informational item.

### **Planning Commission – Non-Action**

Staff presented this text amendment to the Planning Commission on [October 9, 2024](#) as a non-action item so as review, discuss, and answer Planning Commission questions about the proposed Zoning Ordinance text amendment, educate the public about the new State Laws, and provide an opportunity for continued public input.

**STAFF RECOMMENDATION & NEXT STEPS**

---

**RECOMMENDED APPROACH**

Make a recommendation to City Council to adopt:

1. Ordinance No. 4651 for the purposes of amending the City of Scottsdale Zoning Ordinance (Ordinance No. 455) Article I, Section 1.206. (Processing Of Development Applications.) and Section 1.305. (Review Of Applications.), Article III, Section 3.100. (Definitions), Article V, Section 5.2102. (Planned Community – P-C, General Provisions) and Section 5.2605. (Planned Regional Center – PRC, Use Regulations), Article VII. – General Provisions, and Article XI – Land Use Tables for the purposes of addressing recent State of Arizona Legislation relating to Adaptive Reuse (HB2297) & Development Application Determination (SB1162) as provided in Case No 3-TA-2024, and
2. Resolution No. 13253 declaring as a public record that certain document filed with the City Clerk of the City of Scottsdale and entitled “Adaptive Reuse & Development Application Determination Text Amendment – 3-TA-2024”, and
3. Resolution No. 13254 declaring as public record those certain documents filed with the City Clerk of the City of Scottsdale and entitled “Scottsdale Commercial and Employment Hubs and Essential Areas Table” and “Scottsdale Total Allocated Multifamily Conversion Development Projects Allotment”.

**NEXT STEPS**

After review and possible recommendation of this proposal by the Planning Commission, the proposal has been tentatively scheduled for review and possible action by City Council at their November 25, 2024, regular meeting so as to ensure adoption on or before January 1, 2025 as required by State Law.

*Although the legislation only requires an update to its Zoning Ordinance, staff determined during review of the state legislation that an amendment to Scottsdale General Plan 2035 would be necessary to bring together the effect of this legislation at the policy level, commensurate with the regulatory changes proposed by Case No. 3-TA-2024. For this reason, the city will pursue an effort in 2025 to amend its General Plan through a separate, future public input and hearing process as a result of any Zoning Ordinance changes that occur with this text amendment to allow greater transparency, public involvement, and ease of review to all considered amendments.*

2 Section 1. Section 9-462.04, Arizona Revised Statutes, is amended  
3 to read:

4 9-462.04. Public hearing required; definition

5 A. If the municipality has a planning commission or a hearing  
6 officer, the planning commission or hearing officer shall hold a public  
7 hearing on any zoning ordinance. Notice of the time and place of the  
8 hearing including a general explanation of the matter to be considered and  
9 including a general description of the area affected shall be given at  
10 least fifteen days before the hearing in the following manner:

11 1. The notice shall be published at least once in a newspaper of  
12 general circulation published or circulated in the municipality, or if  
13 there is none, it shall be posted on the affected property in such a  
14 manner as to be legible from the public right-of-way and in at least ten  
15 public places in the municipality. A posted notice shall be printed so  
16 that the following are visible from a distance of one hundred feet: the  
17 word "zoning", the present zoning district classification, the proposed  
18 zoning district classification and the date and time of the hearing.

19 2. In proceedings involving rezoning of land that abuts other  
20 municipalities or unincorporated areas of the county or a combination of a  
21 municipality and an unincorporated area, copies of the notice of public  
22 hearing shall be transmitted to the planning agency of the governmental  
23 unit abutting such land. In proceedings involving rezoning of land that  
24 is located within the territory in the vicinity of a military airport or  
25 ancillary military facility as defined in section 28-8461, the  
26 municipality shall send copies of the notice of public hearing by first  
27 class mail to the military airport. In addition to notice by publication,  
28 a municipality may give notice of the hearing in any other manner that the  
29 municipality deems necessary or desirable.

30 3. In proceedings that are not initiated by the property owner  
31 involving rezoning of land that may change the zoning classification,  
32 notice by first class mail shall be sent to each real property owner, as  
33 shown on the last assessment of the property, of the area to be rezoned  
34 and all property owners, as shown on the last assessment of the property,  
35 within three hundred feet of the property to be rezoned.

36 4. In proceedings involving one or more of the following proposed  
37 changes or related series of changes in the standards governing land uses,  
38 notice shall be provided in the manner prescribed by paragraph 5 of this  
39 subsection:

40 (a) A ten percent or more increase or decrease in the number of  
41 square feet or units that may be developed.

42 (b) A ten percent or more increase or reduction in the allowable  
43 height of buildings.

1 (c) An increase or reduction in the allowable number of stories of  
2 buildings.

3 (d) A ten percent or more increase or decrease in setback or open  
4 space requirements.

9 (a) Notice shall be sent by first class mail to each real property  
10 owner, as shown on the last assessment, whose real property is directly  
11 governed by the changes.

12 (b) If the municipality issues utility bills or other mass mailings  
13 that periodically include notices or other informational or advertising  
14 materials, the municipality shall include notice of the changes with such  
15 utility bills or other mailings.

16 (c) The municipality shall publish the changes before the first  
17 hearing on such changes in a newspaper of general circulation in the  
18 municipality. The changes shall be published in a "display ad" covering  
19 not less than one-eighth of a full page.

20 6. If notice is provided pursuant to paragraph 5, subdivision (b)  
21 or (c) of this subsection, the municipality shall also send notice by  
22 first class mail to persons who register their names and addresses with  
23 the municipality as being interested in receiving such notice. The  
24 municipality may charge a fee not to exceed \$5 per year for providing this  
25 service and may adopt procedures to implement this paragraph.

26 7. Notwithstanding the notice requirements in paragraph 4 of this  
27 subsection, the failure of any person or entity to receive notice does not  
28 constitute grounds for any court to invalidate the actions of a  
29 municipality for which the notice was given.

30 B. If the matter to be considered applies to territory in a high  
31 noise or accident potential zone as defined in section 28-8461, the notice  
32 prescribed in subsection A of this section shall include a general  
33 statement that the matter applies to property located in the high noise or  
34 accident potential zone.

35 C. After the hearing, the planning commission or hearing officer  
36 shall render a decision in the form of a written recommendation to the  
37 governing body. The recommendation shall include the reasons for the  
38 recommendation and be transmitted to the governing body in the form and  
39 manner prescribed by the governing body.

40 D. If the planning commission or hearing officer has held a public  
41 hearing, the governing body may adopt the recommendations of the planning  
42 commission or hearing officer without holding a second public hearing if  
43 there is no objection, request for public hearing or other protest. The  
44 governing body shall hold a public hearing if requested by the party  
45 aggrieved or any member of the public or of the governing body, or, in any

1 case, if a public hearing has not been held by the planning commission or  
2 hearing officer. The governing body may consider the testimony of any  
3 party aggrieved when making its decision. In municipalities with  
4 territory in the vicinity of a military airport or ancillary military  
5 facility as defined in section 28-8461, the governing body shall hold a  
6 public hearing if, after notice is transmitted to the military airport  
7 pursuant to subsection A of this section and before the public hearing,  
8 the military airport provides comments or analysis concerning the  
9 compatibility of the proposed rezoning with the high noise or accident  
10 potential generated by military airport or ancillary military facility  
11 operations that may have an adverse impact on public health and safety,  
12 and the governing body shall consider and analyze the comments or analysis  
13 before making a final determination. Notice of the time and place of the  
14 hearing shall be given in the time and manner provided for the giving of  
15 notice of the hearing by the planning commission as specified in  
16 subsection A of this section. A municipality may give additional notice  
17 of the hearing in any other manner as the municipality deems necessary or  
18 desirable. For the purposes of this subsection, "party aggrieved" means  
19 any property owner within the notification area prescribed by subsection  
20 A, paragraph 3 of this section.

21 E. A municipality may enact an ordinance authorizing county zoning  
22 to continue in effect until municipal zoning is applied to land previously  
23 zoned by the county and annexed by the municipality, but not longer than  
24 six months after the annexation.

25 F. A municipality is not required to adopt a general plan before  
26 the adoption of a zoning ordinance.

27 G. If there is no planning commission or hearing officer, the  
28 governing body of the municipality shall perform the functions assigned to  
29 the planning commission or hearing officer.

30 H. If the owners of twenty percent or more of the property by area  
31 and number of lots, tracts and condominium units within the zoning area of  
32 the affected property, **EXCLUDING GOVERNMENT OWNED PROPERTY**, file a protest  
33 in writing against a proposed amendment, the change shall not become  
34 effective except by the favorable vote of three-fourths of all members of  
35 the governing body of the municipality. If any members of the governing  
36 body are unable to vote on such a question because of a conflict of  
37 interest, then the required number of votes for passage of the question  
38 shall be three-fourths of the remaining membership of the governing body,  
39 provided that such required number of votes shall not be less than a  
40 majority of the full membership of the legally established governing body.  
41 For the purposes of this subsection, the vote shall be rounded to the  
42 nearest whole number. A protest filed pursuant to this subsection shall  
43 be signed by the property owners, **EXCLUDING GOVERNMENT OWNED PROPERTY**,  
44 opposing the proposed amendment and filed in the office of the clerk of  
45 the municipality not later than 12:00 noon one business day before the

1 date on which the governing body will vote on the proposed amendment or on  
2 an earlier time and date established by the governing body.

3 I. In applying an open space element or a growth element of a  
4 general plan, a parcel of land shall not be rezoned for open space,  
5 recreation, conservation or agriculture unless the owner of the land  
6 consents to the rezoning in writing.

7 J. Notwithstanding section 19-142, subsection B, a decision by the  
8 governing body involving rezoning of land that is not owned by the  
9 municipality and that changes the zoning classification of such land may  
10 not be enacted as an emergency measure and the change shall not be  
11 effective for at least thirty days after final approval of the change in  
12 classification by the governing body.

13 K. For the purposes of this section, "zoning area" means both of  
14 the following:

15 1. The area within one hundred fifty feet, including all  
16 rights-of-way, of the affected property subject to the proposed amendment  
17 or change.

18 2. The area of the proposed amendment or change.

19 Sec. 2. Title 9, chapter 4, article 6.1, Arizona Revised Statutes,

## Citizen Involvement Report

### Introduction

---

In response to new Arizona Laws passed by the state legislature in the Spring of 2024, Scottsdale Planning Commission initiated the following text amendments at their regular meeting on July 10, 2024, in order to comply with State Law:

- 3-TA-2024, Adaptive Reuse & Development Application Determination Text Amendment. Request by City of Scottsdale to amend the City of Scottsdale Zoning Ordinance (Ordinance No. 455) for the purpose of addressing HB2297 and SB1162.
- 4-TA-2024, Accessory Dwelling Unit (ADU) Text Amendment, Request by City of Scottsdale to amend the City of Scottsdale Zoning Ordinance (Ordinance No. 455) for the purpose of addressing HB2720 and HB2325.

Consequently, as required by the city's Zoning Code, staff conducted two open houses where the public was invited to review, and provide public comment on, these amendments.

### Summary of Open Houses

---

Two open house events were held to discuss proposed changes to the Zoning Code. Both events were advertised through an 1/8-page ad in the *Arizona Republic* newspaper, the *Scottsdale P & Z Link* e-newsletter, and postcards sent to the City's interested parties list.

Residents and stakeholders were encouraged to review case information online prior to the meeting, which included:

- An informative video about the City's efforts
- Full versions of all relevant State Laws
- The City's draft Zoning Code amendments
- An option to submit public comments
- Planning Commission and City Council hearing schedules

The first open house took place on Thursday, September 19, 2024, at McCormick Ranch Park Community Center from 5–7 pm, and the second on Friday, September 20, 2024, at the City's Community Design Studio from 11 am–1 pm. A total of 20 people attended the in-person sessions. As of the drafting of this report, online viewership has been significant, with 293 views for the video on the Adaptive Reuse & Development Application Determination Text Amendment (3-TA-2024), and 507 views for the video on the ADU Text Amendment (4-TA-2024).

The same material was presented at both sessions (Attachment 1), covering:

- Requirements of the new State bills,
- How the proposed Zoning Code amendments address the changes, and
- Efforts by the City of Scottsdale to mitigate any potential adverse impacts

Overall, attendees responded positively to the proposed amendments, with many attendees expressing support that their properties would not be as affected by the new State bills due to exclusions for Traffic Pattern Airspace and airport vicinity areas. Some attendees expressed a desire for further restrictions on Short-Term Rentals (STRs). No written comments were submitted.

# **Adaptive Reuse & Development Application Determination Zoning Code Amendment**

## **State Law Requirements & City Compliance**

**HB2297 + SB1162 | 3-TA-2024**

# Background

---

- State of Arizona grants cities and towns with local authority the ability to set zoning/land use regulations subject to State Law
- HB2297 was introduced/passed by the State Legislature and signed by the Governor in April 2024 to allow adaptive reuse of existing commercial, office and mixed-use buildings to be repurposed as multi-family housing
- The City must comply with State Law
  - With compliance the City also intends to minimize the negative impacts of this law on the community

# What Buildings Are Included?

---

New State law enables the adaptive reuse of:

- ✓ Existing commercial/office/mixed-use buildings
- ✓ Situated on land between 1 and 20 acres in size
- ✓ Buildings that are in a state of disrepair or have at least a 50% vacancy

The total allowed adaptive reuse may not exceed 10% of the existing buildings/floor area in the City.

# What Does State Law Dictate to the City?

## The City CANNOT:

- Require a public hearing for adaptive reuse proposals – including rezoning, conditional use permits or Development Review Board action
- Establish setback, density, parking & building height that is any greater than the requirements set forth in State Law

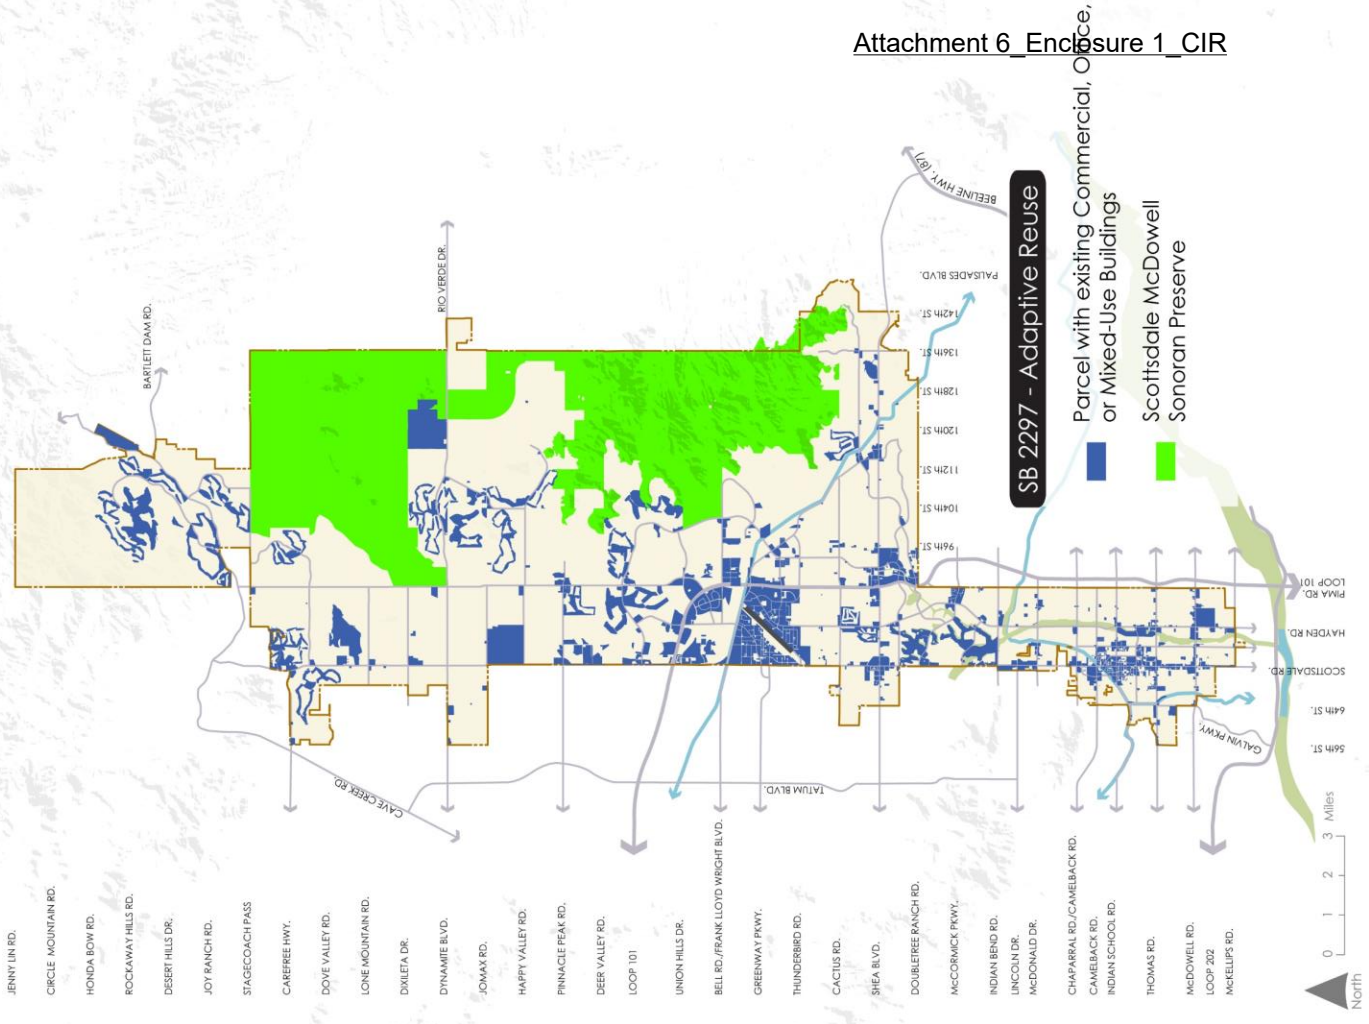

## The City CAN REQUIRE:

- Site plan review and approval process
- Compliance with building/fire codes
- Adequate public sewer and water service
- Public utility review
- Existing buildings be economically or functionally obsolete
- A minimum of 10% of the total new multi-family units be set aside for either moderate-income, or low-income housing for at least 20 years
- Buildings within the vicinity of an airport, up to 10% of existing buildings, and historic properties can be excluded

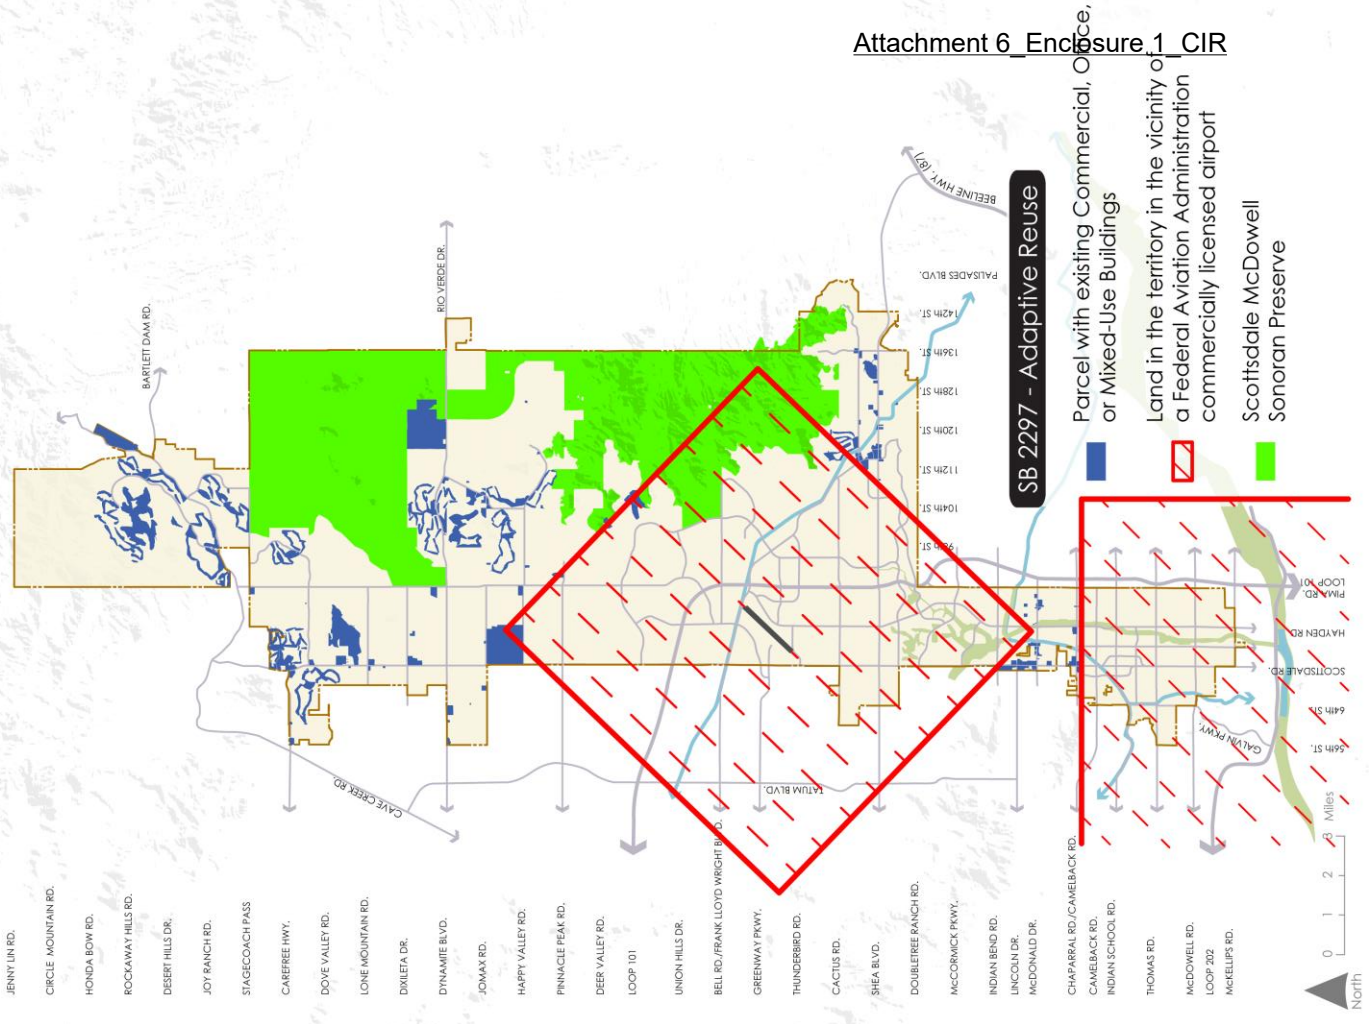

# Building Locations Identified Before Exclusions Applied

- Existing commercial, office & mixed-use buildings

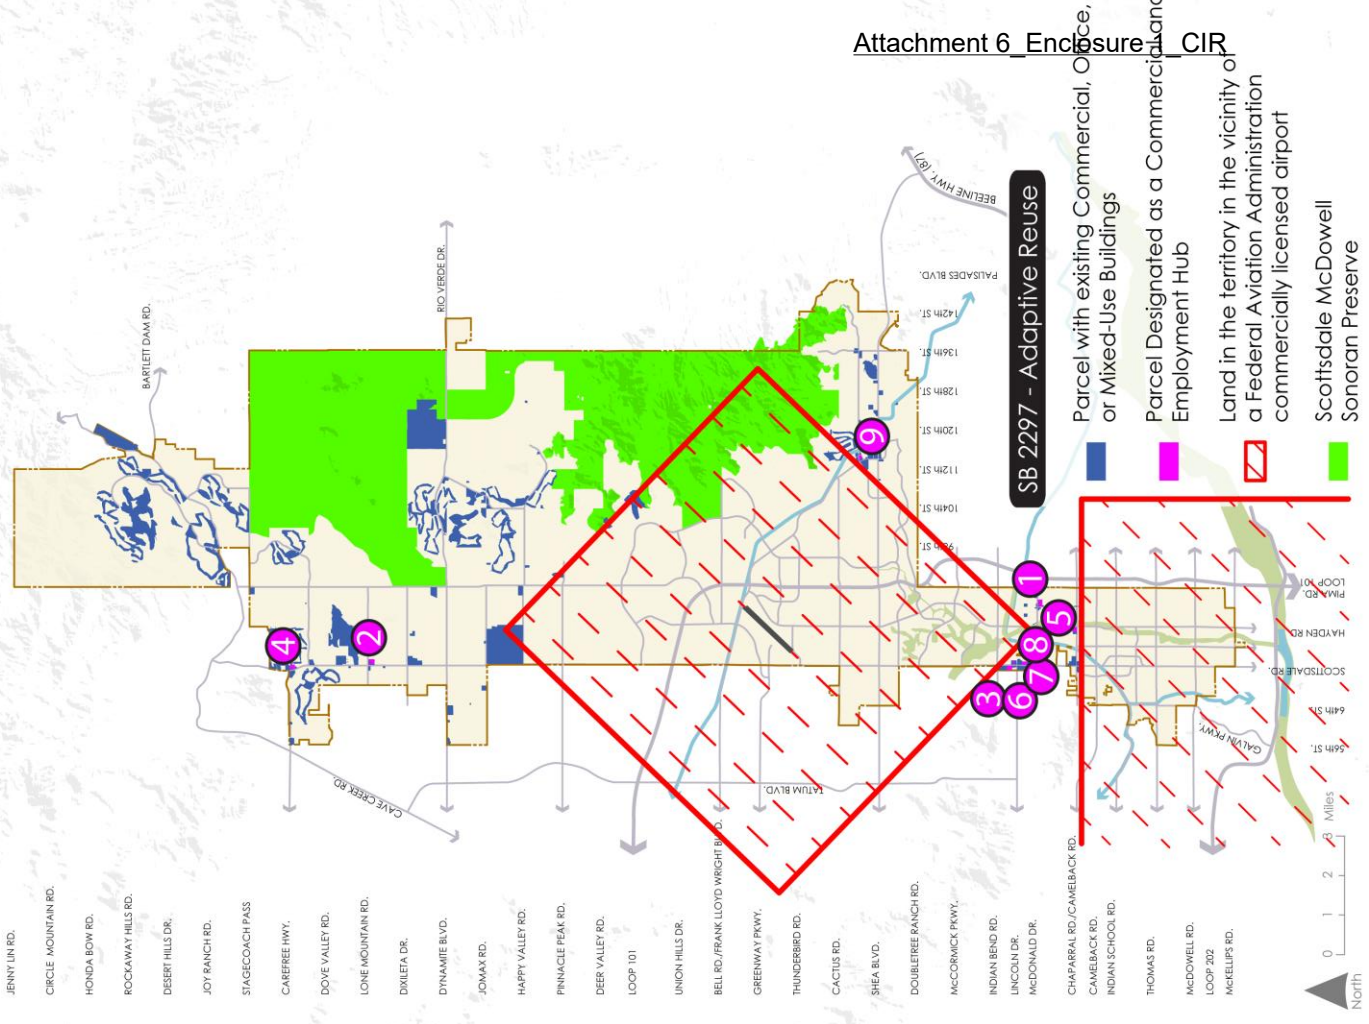

# Airport Exclusions:

- Exclude buildings in an airport vicinity
- Scottsdale has airport vicinity in two locations
  - Sky Harbor Airport Vicinity
  - Scottsdale Airport Vicinity
- Commercial, office & mixed-use buildings located within the red airport vicinity boundaries are excluded

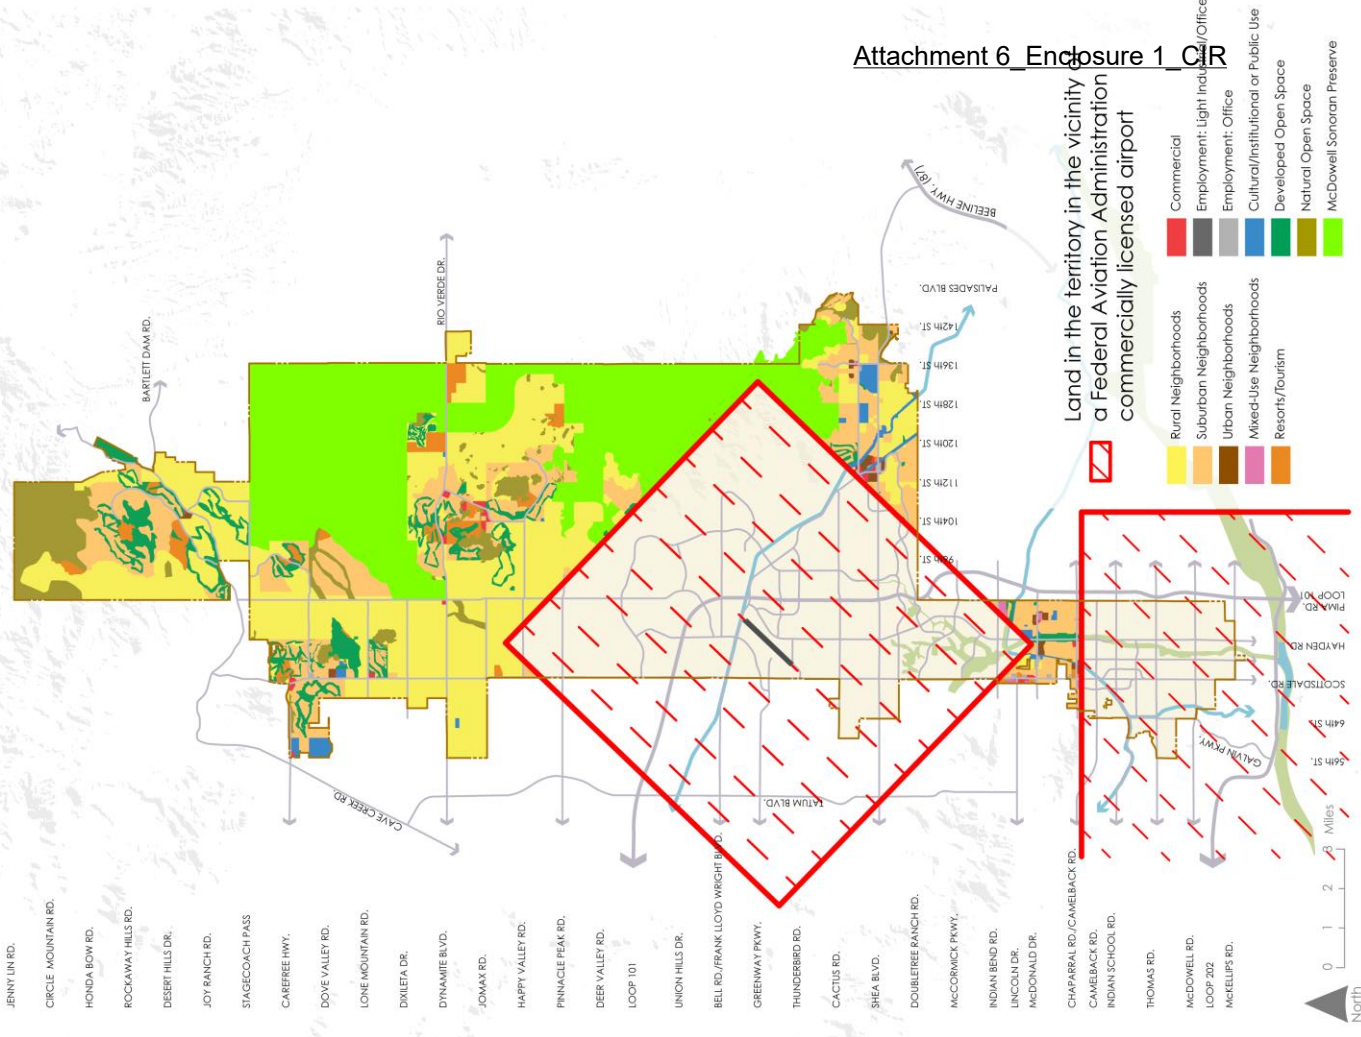

# Up to 10% of Commercial/ Employment Hub Exclusions

- City can exclude 10% of existing buildings by designating them as commercial/employment hubs
- The City is designating 9 sites equating to 1.2 million square feet of existing commercial, office, and mixed-use buildings.

# Not More Than 10% Eligibility

- State law requires **not more than 10%** of the city's commercial/office/mixed-use buildings to be eligible for multi-family adaptive reuse
- Scottsdale is proposing to **allow 1%** to be eligible for adaptive reuse
- Why 1%? – It aligns with the existing proportion of commercial, office, and mixed-use in areas located outside of the vicinity of an airport

Scotts Valley, CA

- 
- ✓ Excludes buildings in an airport vicinity
  - ✓ Excludes commercial/employment hubs (not to exceed 10% of existing buildings)

# **Accessory Dwelling Units (ADU) Zoning Code Amendment**

# **State Law Requirements & City Compliance**

HB2720 + HB2325 | 4-TA-2024

# Background

---

- State of Arizona grants cities and towns with local authority the ability to set zoning/land use regulations subject to State Law
- HB2720 was introduced/passed by the State Legislature and signed by the Governor in April 2024 to allow for the development of accessory dwelling units on single family properties
- The City must comply with State Law
  - With compliance the City also intends to minimize the negative impacts of this law on the community
  - **If the city does not comply by January 1, 2025, HB 2720 outlines that “accessory dwelling units shall be allowed on all lots or parcels zoned for residential use in the municipality without limits.”**

# What is an Accessory Dwelling Unit (ADU)?

---

## An ADU:

- Is a subordinate, self-contained dwelling unit that is on the same lot as a main single-family residential dwelling
- Is designed for living purposes, and includes its own sleeping facilities, kitchen facilities, and sanitary facilities
- Can be attached or detached from the single-family dwelling

## ADUs come in many shapes/styles – most common:

- A self-contained living unit built as a detached structure, separate from the single-family home
- A self-contained living unit built as an attached extension off the single-family home (ex. either on the ground floor or 2<sup>nd</sup> level addition)

# What Does State Law Dictate to the City?

---

## The City MUST:

- Allow **one attached** and **one detached** ADU per single-family property
- Allow a **third detached** ADU for parcels that are 1 acre in size or greater, if at least 1 of the ADUs is an affordable housing unit
- Allow the size of an ADU to be 75% of the gross floor area of the single-family home or up to a maximum 1,000 sq. ft. - whichever is less

## The City CANNOT:

- Prohibit the short- or long-term lease of an ADU
- Require familial relationship between the owner of the main home & ADU occupant(s)
- Require on site parking for an ADU (or fees in lieu of parking)
- Require an ADU to have an exterior design like that of the single-family home
- Require more than 5 feet of distance from the rear or side of the ADU to the property line
- Require improvements to the public street as a condition of allowing the ADU
- Require permits, licenses or conditions between private parties for use of the ADU
- Require an ADU to contain a fire sprinkler system

# Does Scottsdale Allow ADUs Now?

Scottsdale currently allows Guest Houses on single-family properties

A Guest House is an accessory building used to accommodate guests of the occupants of the main building/house

- Must be ½ the size or less of the main building/house
- Guest house connected to water meter of main dwelling
- Not rented separately from main building/house

# What is the Difference Between a Guest House & ADU in Scottsdale?

Scan, copy, save, and share

## Guest House in Scottsdale

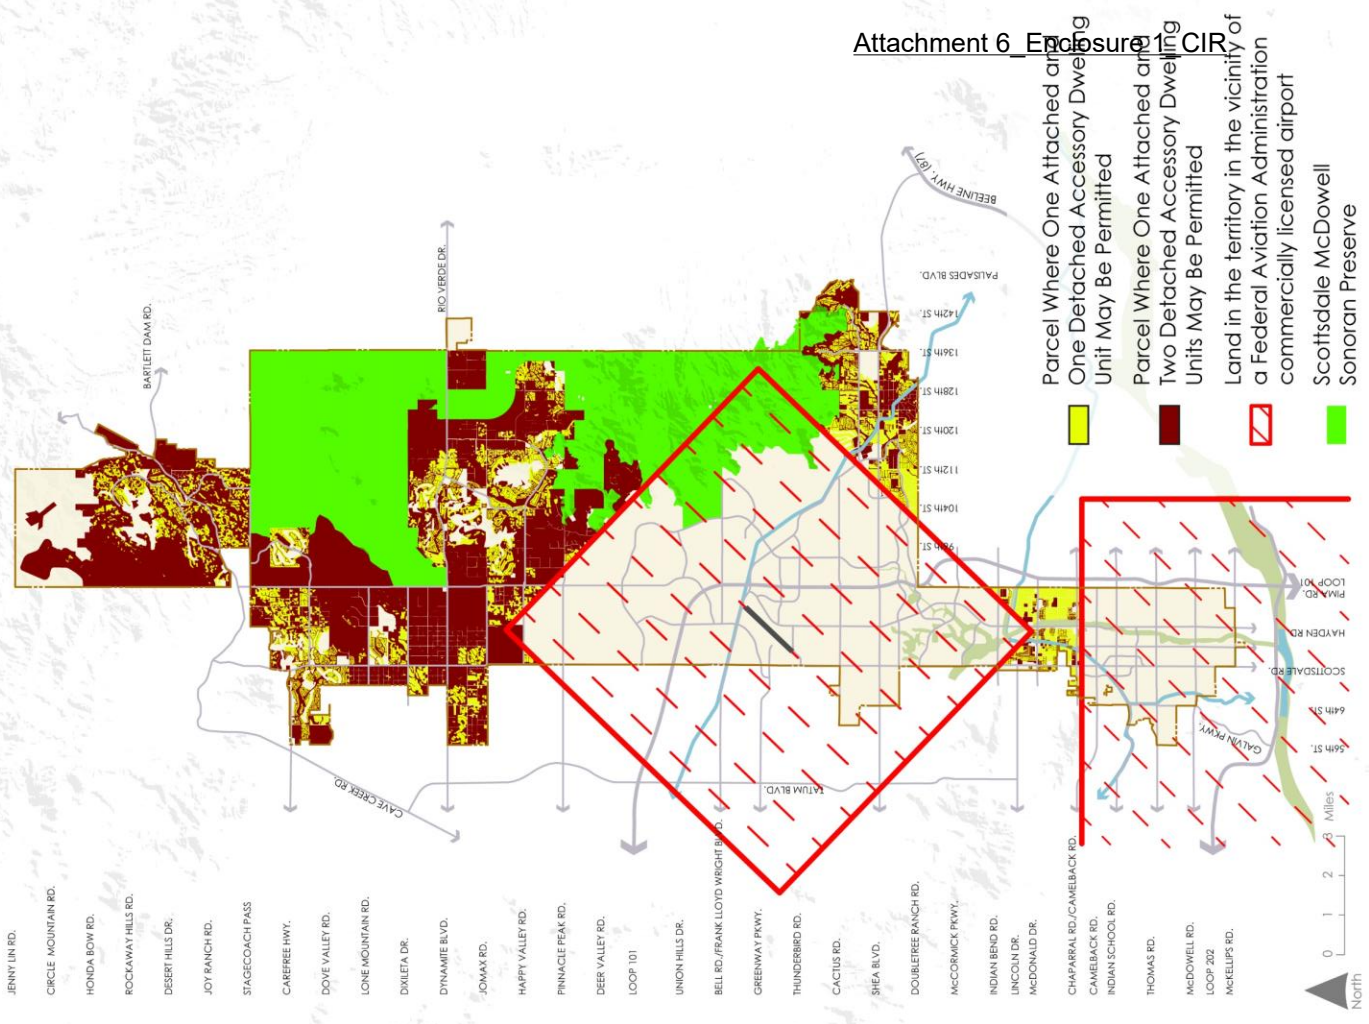

- **Maximum can be 1/2 size of main house**
- **Example:** a 3,000 square foot home may have a guest house that is 1,500 sq.ft. maximum
- **Cannot** be rented separately from main house

## ADU in Scottsdale

- **Maximum can be 75% of the size of main house or max of 1,000 square feet, whichever is less.**
- **Example:** an 1,800 square foot home may have an ADU that is 1,000 sq.ft. maximum (75% = 1,350 sq.ft.)
- **Can** be rented separately from the main house

# What is the City Proposing?

- **Exclude** areas as permitted by State Law
  - In the vicinity of an airport
  - HOA neighborhoods can privately restrict
- Require an owner of an ADU that is used as vacation or short-term rental after September 14, 2024 to reside on property
- Restrict size of multiple ADUs
- Ensure sufficient water supply and sewer capacity
